(Unaudited)

BASIS OF PRESENTATION

The accompanying unaudited consolidated financial statements have been prepared by Movado Group, Inc. (the "Company") in a manner consistent with that used in the preparation of the consolidated financial statements included in the Company's Annual Report filed on Form 10-K for the fiscal year ended January 31, 2012 (the "Annual Report on Form 10-K"). In the opinion of management, the accompanying consolidated financial statements reflect all adjustments, consisting of only normal and recurring adjustments, necessary for a fair statement of the financial position and results of operations for the periods presented. The consolidated balance sheet data for January 31, 2012 is derived from the audited financial statements, which are included in the Company's Annual Report on Form 10-K. These unaudited consolidated financial statements should be read in conjunction with the aforementioned Annual Report. Operating results for the interim periods presented are not necessarily indicative of the results that may be expected for the full year.

NOTE 1 RECLASSIFICATIONS

Certain reclassifications were made to prior year's financial statement amounts and related note disclosures to conform to the fiscal 2013 presentation. In fiscal 2012, certain liabilities were reclassified from accrued liabilities to accounts payable to conform to the fiscal 2013 presentation. Also, in fiscal 2012, there was a reclassification of deferred revenue for certain customers from accounts receivables to accrued liabilities to conform to the fiscal 2013 presentation.

NOTE 2 FAIR VALUE MEASUREMENTS

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Accounting guidance requires the use of observable market data, if such data is available without undue cost and effort and establishes a fair value hierarchy which prioritizes the inputs used in measuring fair value into three broad levels as follows:

Level 1 - Quoted prices in active markets for identical assets or liabilities.

Level 2 - Inputs, other than the quoted prices in active markets, that are observable either directly or indirectly.

Level 3 - Unobservable inputs based on the Company's assumptions.

The following table presents the fair value hierarchy for those assets and liabilities measured at fair value on a recurring basis as of October 31, 2012 (in thousands):

	Fair Value at October 31, 2012			Total
	Level 1	Level 2	Level 3	
Assets:				
Available-for-sale securities	\$ 301	\$	\$	\$ 301
SERP assets - employer	984			984
SERP assets - employee	16,742			16,742
Hedge derivatives		584		584
Total	\$ 18,027	\$ 584	\$	\$ 18,611

Edgar Filing: MOVADO GROUP INC - Form 10-Q

Liabilities:				
SERP liabilities - employee	\$ 16,742	\$	\$	\$ 16,742
Hedge derivatives		63		63
	\$ 16,742	\$ 63	\$	\$ 16,805

Table of Contents

The fair values of the Company's available-for-sale securities are based on quoted prices. The hedge derivatives are entered into by the Company principally to reduce its exposure to the Swiss franc exchange rate risk. Fair values of the Company's hedge derivatives are calculated based on quoted foreign exchange rates, quoted interest rates and market volatility factors. The assets related to the Company's defined contribution supplemental executive retirement plan (SERP) consist of both employer (employee unvested) and employee assets which are invested in investment funds with fair values calculated based on quoted market prices. The SERP liability represents the Company's liability to the employees in the plan for their vested balances.

NOTE 4 SEGMENT INFORMATION

The Company follows accounting guidance related to disclosures about segments of an enterprise and related information. This guidance requires disclosure of segment data based on how management makes decisions about allocating resources to segments and measuring their performance.

The Company conducts its business primarily in two operating segments: Wholesale and Retail. The Company's Wholesale segment includes the designing, manufacturing and distribution of quality watches, in addition to revenue generated from after sales service activities and shipping. The Retail segment includes the Company's outlet stores all located in the United States and, until February 14, 2012, also included the Movado brand flagship store located at Rockefeller Center in New York City. Effective February 14, 2012 the Rockefeller Center store closed, as the Company was not able to renew its lease.

The Company divides its business into two major geographic locations: United States operations, and International, which includes the results of all other Company operations. The allocation of geographic revenue is based upon the location of the customer. The Company's international operations are principally conducted in Europe, Asia, Canada, the Middle East, South America and the Caribbean. The Company's international assets are substantially located in Switzerland.

NOTE 6 DEBT AND LINES OF CREDIT

On July 17, 2009, the Company, together with Movado Group Delaware Holdings Corporation, Movado Retail Group, Inc. and Movado LLC (together with the Company, the Borrowers), each a wholly-owned domestic subsidiary of the Company, entered into an Amended and Restated Loan and Security Agreement (the Original Loan Agreement) with Bank of America, N.A. and Bank Leumi USA, as lenders (Lenders), and Bank of America, N.A., as agent (in such capacity, the Agent). The parties amended the Original Loan Agreement by entering into Amendment No. 1 thereto (First Amendment) on April 5, 2011 and Amendment No. 2 thereto (Second Amendment) on March 12, 2012 (the Original Loan Agreement, as so amended, the Loan Agreement). The Loan Agreement provides for a \$25.0 million asset based senior secured revolving credit facility (the Facility), including a \$15.0 million letter of credit subfacility, and provides that Borrowers are entitled to request that Lenders increase the Facility up to \$50 million subject to any additional terms and conditions the parties may agree upon. The maturity date of the Facility is March 12, 2015.

Availability under the Facility is determined by reference to a borrowing base which is based on the sum of a percentage of eligible accounts receivable and eligible inventory of the Borrowers. \$10.0 million in availability is blocked unless the Borrowers have achieved for the most recently ended four fiscal quarter period a consolidated fixed charge coverage ratio of at least 1.25 to 1.0 with domestic EBITDA greater than \$10.0 million. The Borrowers are not currently subject to the availability block. The availability block, if applicable, will be reduced by the amount by which the borrowing base exceeds \$25.0 million, up to a maximum reduction of \$5.0 million. Availability under the Facility may be further reduced by certain reserves established by the Agent in its good faith credit judgment. The Second Amendment reduced the Lenders' total commitment under the Loan Agreement from \$55.0 million to \$25.0 million and consequently availability was correspondingly reduced. As of October 31, 2012, total availability under the Facility, giving effect to an availability block of \$0, no outstanding borrowings and the letters of credit outstanding under the subfacility, was \$20.5 million.

The initial applicable margin for LIBOR rate loans was 4.25% and for base rate loans was 3.25%. After July 17, 2010, the applicable margins decreased or increased by 0.25% per annum from the initial applicable margins depending on whether average availability for the most recently completed fiscal quarter was either greater than \$12.5 million, or was \$5.0 million or less, respectively. The First Amendment reduced the applicable margins for both LIBOR rate loans and base rate loans by 1.25% and the Second Amendment further reduced the applicable margins by 0.75%. Accordingly, as of October 31, 2012 and based on current availability, the applicable margins were 2.00% and 1.00% for LIBOR and base rate loans, respectively.

After the date (the Block Release Date) when availability under the Facility is no longer subject to any blocked amount, if borrowing availability is less than \$12.5 million, the Borrowers will be subject to a minimum fixed charge coverage ratio until such time as borrowing availability has been greater than \$12.5 million for at least 90 consecutive days.

Table of Contents

After the Block Release Date, cash dominion will be imposed if borrowing availability is less than \$10.0 million and will continue until such time as borrowing availability has been greater than \$10.0 million for at least 45 consecutive days. As of October 31, 2012, the Borrowers were not subject to cash dominion, nor do the Borrowers expect to be subject to such a requirement in the foreseeable future.

The Loan Agreement contains additional affirmative and negative covenants binding on the Borrowers and their subsidiaries that are customary for asset based facilities, including, but not limited to, restrictions and limitations on the incurrence of debt for borrowed money and liens, dispositions of assets, capital expenditures, dividends and other payments in respect of equity interests, the making of loans and equity investments, prepayments of subordinated and certain other debt, mergers, consolidations, liquidations and dissolutions, and transactions with affiliates. The Loan Agreement permits Borrowers to pay distributions as dividends and make share repurchases up to an aggregate of \$150.0 million (less the amount of any charitable donations made by the Company which are permitted up to an aggregate amount of \$14 million) and make acquisitions up to an aggregate of \$50.0 million, as long as, at the time of such transaction, either (A) Borrowers have cash assets of at least \$60.0 million with no revolver loans outstanding, or (B) (i) the consolidated fixed charge coverage ratio is at least 1.25 to 1.00, (ii) availability is greater than \$12.5 million and (iii) positive EBITDA plus repatriated cash dividends minus restricted payments are greater than \$0. The Company, as of October 31, 2012, was in compliance with these financial covenants and, therefore, that it is permitted to pay dividends. The Company presently expects that it will be able to pay any dividends declared through the remaining term of the Facility.

The Loan Agreement contains events of default that are customary for facilities of this type, including, but not limited to, nonpayment of principal, interest, fees and other amounts when due, failure of any representation or warranty to be true in any material respect when made or deemed made, violation of covenants, cross default, material judgments, material ERISA liability, bankruptcy events, material loss of collateral in excess of insured amounts, asserted or actual revocation or invalidity of the loan documents, change of control and events or circumstances having a material adverse effect. The borrowings under the Facility are joint and several obligations of the Borrowers and also cross-guaranteed by each Borrower. In addition, the Borrowers' obligations under the Facility are secured by first priority liens, subject to permitted liens, on substantially all of the Borrowers' U.S. assets (other than certain excluded assets).

A Swiss subsidiary of the Company maintains unsecured lines of credit with an unspecified length of time with a Swiss bank. As of October 31, 2012 and 2011, these lines of credit totaled 10.0 million Swiss francs for both periods, with dollar equivalents of \$10.7 million and \$11.4 million, respectively. As of October 31, 2012 and 2011, there were no borrowings against these lines. As of October 31, 2012, two European banks have guaranteed obligations to third parties on behalf of two of the Company's foreign subsidiaries in the amount of \$2.3 million in various foreign currencies.

NOTE 7 EARNINGS PER SHARE

The Company presents net income per share on a basic and diluted basis. Basic earnings per share are computed using weighted-average shares outstanding during the period. Diluted earnings per share are computed using the weighted-average number of shares outstanding adjusted for dilutive common stock equivalents.

The weighted-average number of shares outstanding for basic earnings per share was 25,304,000 and 24,926,000 for the three months ended October 31, 2012 and 2011, respectively. For the three months ended October 31, 2012 and 2011, respectively, the number of shares outstanding for diluted earnings per share was increased by 406,000 and 182,000, due to potentially dilutive common stock equivalents issuable under the Company's stock compensation plans.

Table of Contents

For the three months ended October 31, 2012 and October 31, 2011, approximately 332,000 and 660,000 of common stock equivalents, respectively, were excluded from the computation of diluted earnings per share because their effect would have been antidilutive.

The weighted-average number of shares outstanding for basic earnings per share was 25,204,000 and 24,905,000 for the nine months ended October 31, 2012 and 2011, respectively. For the nine months ended October 31, 2012 and 2011, respectively, the number of shares outstanding for diluted earnings per share was increased by 394,000 and 199,000, due to potentially dilutive common stock equivalents issuable under the Company's stock compensation plans.

For the nine months ended October 31, 2012 and October 31, 2011, approximately 258,000 and 606,000 of common stock equivalents, respectively, were excluded from the computation of diluted earnings per share because their effect would have been antidilutive.

NOTE 8 COMMITMENTS AND CONTINGENCIES

As of October 31, 2012, one bank in the domestic bank group had issued five irrevocable standby letters of credit in connection with a trademark license agreement, retail and operating facility leases to various landlords, for the administration of the Movado boutique private-label credit card and Canadian payroll to the Royal Bank of Canada. As of October 31, 2012, the Company had outstanding letters of credit totaling \$4.5 million with expiration dates through April 30, 2014.

As of October 31, 2012, two European banks have guaranteed obligations to third parties on behalf of two of the Company's foreign subsidiaries in the amount of \$2.3 million in various foreign currencies.

The Company is involved from time to time in legal claims involving trademarks and other intellectual property, contracts, employee relations and other matters incidental to the Company's business. Although the outcome of such matters cannot be determined with certainty, the Company's general counsel and management believe that the final outcome would not have a material effect on the Company's consolidated financial position, results of operations or cash flows.

NOTE 9 INCOME TAXES

The Company recorded a tax benefit of \$9.9 million and a tax expense of \$2.1 million for the three months ended October 31, 2012 and 2011, respectively. The effective tax rate for the three months ended October 31, 2012 was -39.5%. The effective tax rate for the three months ended October 31, 2011 was 11.0%.

The Company recorded a tax benefit of \$5.7 million and a tax expense of \$3.7 million for the nine months ended October 31, 2012 and 2011, respectively. The effective tax rate for the nine months ended October 31, 2012 was -13.0%. The effective tax rate for the nine months ended October 31, 2011 was 14.3%.

The three and nine months ended October 31, 2012 included a tax benefit of \$19.4 million attributable to the reversal of a majority of the valuation allowance on the U.S. net deferred tax assets. The remaining valuation allowance of \$2.8 million represents the portion of the Company's deferred tax assets for state net operating losses that management estimates will not be realized in the future. All periods include the effects of the application of accounting for income taxes in interim periods. The fluctuation in the effective tax rate is also due to a shift in the mix of global pre-tax financial results. The nine months ended October 31, 2012, included a \$0.5 million discrete expense recorded in the current year for a contingent exposure relative to a recent foreign tax audit.

Table of Contents

The Company bases its estimate of deferred tax assets and liabilities on current tax laws and rates as well as expected future income. The realization of deferred tax assets depends on the Company's ability to generate future income. Deferred tax assets are reduced by a valuation allowance if, based on the weight of available positive and negative evidence, it is more-likely-than-not that all or a portion of the deferred tax assets will not be realized. In the third quarter of fiscal 2010 the Company determined that it was appropriate to record a full valuation allowance against its net deferred tax assets in the United States, primarily due to the Company's domestic loss position in recent years. In the third quarter of fiscal 2013, the Company was no longer in a domestic loss position, and based on expectations of future income, the Company changed its judgment regarding the appropriateness of the level of allowance on the U.S. deferred tax assets, maintaining a valuation allowance only against state tax loss carry-forwards.

NOTE 10 DERIVATIVE FINANCIAL INSTRUMENTS

The Company accounts for its derivative financial instruments in accordance with guidance which requires that an entity recognize all derivatives as either assets or liabilities in the statement of financial position and measure those instruments at fair value. A significant portion of the Company's purchases are denominated in Swiss francs. The Company reduces its exposure to the Swiss franc exchange rate risk through a hedging program. Under the hedging program, the Company manages most of its foreign currency exposures on a consolidated basis, which allows it to net certain exposures and take advantage of natural offsets. In the event these exposures do not offset, the Company uses various derivative financial instruments to further reduce the net exposures to currency fluctuations, predominately forward and option contracts. When entered into, the Company designates and documents these derivative instruments as a cash flow hedge of a specific underlying exposure, as well as the risk management objectives and strategies for undertaking the hedge transactions. Changes in the fair value of a derivative that is designated and documented as a cash flow hedge and is highly effective, are recorded in other comprehensive income until the underlying transaction affects earnings, and then are later reclassified into earnings in the same account as the hedged transaction. The Company formally assesses, both at the inception and at each financial quarter thereafter, the effectiveness of the derivative instrument hedging the underlying forecasted cash flow transaction. Any ineffectiveness related to the derivative financial instruments' change in fair value will be recognized in the Statements of Operations in the period in which the ineffectiveness was calculated.

The Company uses forward exchange contracts to offset its exposure to certain foreign currency receivables and liabilities. These forward contracts are not designated as qualified hedges and, therefore, changes in the fair value of these derivatives are recognized into earnings, thereby offsetting the current earnings effect of the related foreign currency receivables and liabilities.

All of the Company's derivative instruments have liquid markets to assess fair value. The Company does not enter into any derivative instruments for trading purposes.

As of October 31, 2012, the Company's entire net forward contracts hedging portfolio consisted of 39.0 million Swiss francs equivalent with various expiry dates ranging through April 19, 2013.

Table of Contents

The following table summarizes the fair value and presentation in the Consolidated Balance Sheets for derivatives as of October 31, 2012 and 2011 (in thousands):

	Asset Derivatives			Liability Derivatives		
	Balance Sheet Location	2012 Fair Value	2011 Fair Value	Balance Sheet Location	2012 Fair Value	2011 Fair Value
Derivatives not designated as hedging instruments:						
Foreign Exchange Contracts	Other Current Assets	\$ 584	\$ 150	Accrued Liabilities	\$ 63	\$ 916
Commodity Future Contracts	Other Current Assets			Accrued Liabilities		116
Total Derivative Instruments		\$ 584	\$ 150		\$ 63	\$ 1,032

As of October 31, 2012, the balance of deferred net gains on derivative financial instruments documented as cash flow hedges included in accumulated other comprehensive income (AOCI) was \$0. As of October 31, 2011, the balance of deferred net gains on derivative financial instruments documented as cash flow hedges included in AOCI was \$1.0 million in net losses, net of tax of \$1.0 million. The Company's sell through of inventory purchased in Swiss francs will primarily cause the amount in AOCI to affect cost of goods sold. The maximum length of time the Company hedges its exposure to the fluctuation in future cash flows for forecasted transactions is 24 months. For the three and nine months ended October 31, 2012 there were no reclassifications from AOCI to earnings. For the three months ended October 31, 2011, the Company reclassified from AOCI to earnings \$0.2 million of net gains, net of tax of \$0. For the nine months ended October 31, 2011 the Company reclassified from AOCI to earnings \$0.9 million of net gains, net of tax of \$0.

During the three and nine months ended October 31, 2012 and 2011, the Company recorded no charge related to its assessment of the effectiveness of its derivative hedge portfolio because of the high degree of effectiveness between the hedging instrument and the underlying exposure being hedged. Changes in the contracts' fair value due to spot-forward differences are excluded from the designated hedge relationship. The Company records these transactions in cost of sales of the Consolidated Statements of Operations.

NOTE 11 OTHER INCOME

Other income for the nine months ended October 31, 2011 consisted of \$0.7 million of pre-tax gain on the sale of a building. The Company received cash proceeds from the sale of \$1.2 million. As of October 31, 2011, the building had been classified as an asset held for sale in other current assets.

NOTE 12 SUBSEQUENT EVENTS

The Company announced on November 27, 2012 that the Board of Directors approved the payment of a special cash dividend of \$0.75 per share of the Company's outstanding common stock and class A common stock. This dividend will be paid on December 21, 2012 to all shareholders of record on December 10, 2012.

FORWARD-LOOKING STATEMENTS

Statements in this Quarterly Report on Form 10-Q, including, without limitation, statements under Item 2 Management's Discussion and Analysis of Financial Condition and Results of Operations and elsewhere in this report, as well as statements in future filings by the Company with the Securities and Exchange Commission, in the Company's press releases and oral statements made by or with the approval of an authorized executive officer of the Company, which are not historical in nature, are intended to be, and are hereby identified as, forward-looking statements for purposes of the safe harbor provided by the Private Securities Litigation Reform Act of 1995. These statements are based on current expectations, estimates, forecasts and projections about the Company, its future performance, the industry in which the Company operates and management's assumptions. Words such as expects, anticipates, targets, goals, projects, intends, plans, believes, may, will, should and variations of such words and similar expressions are also intended to identify such forward-looking statements. The Company cautions readers that forward-looking statements include, without limitation, those relating to the Company's future business prospects, projected operating or financial results, revenues, working capital, liquidity, capital needs, plans for future operations, expectations regarding capital expenditures and operating expenses, effective tax rates, margins, interest costs, and income as well as assumptions relating to the foregoing. Forward-looking statements are subject to certain risks and uncertainties, some of which cannot be predicted or quantified. Actual results and future events could differ materially from those indicated in the forward-looking statements, due to several important factors herein identified, among others, and other risks and factors identified from time to time in the Company's reports filed with the SEC including, without limitation, the following: general economic and business conditions which may impact disposable income of consumers in the United States and the other significant markets (including Europe) where the Company's products are sold, uncertainty regarding such economic and business conditions, trends in consumer debt levels and bad debt write-offs, general uncertainty related to possible terrorist attacks, natural disasters, the stability of the European Union and defaults on or downgrades of sovereign debt and the impact of any of those events on consumer spending, changes in consumer preferences and popularity of particular designs, new product development and introduction, competitive products and pricing, seasonality, availability of alternative sources of supply in the case of the loss of any significant supplier or any supplier's inability to fulfill the Company's orders, the loss of or curtailed sales to significant customers, the Company's dependence on key employees and officers, the ability to successfully integrate the operations of acquired businesses without disruption to other business activities, the continuation of licensing arrangements with third parties, the ability to secure and protect trademarks, patents and other intellectual property rights, the ability to lease new stores on suitable terms in desired markets and to complete construction on a timely basis, potential effects of economic and currency instability in Europe and countries using the Euro as their functional currency, the ability of the Company to successfully manage its expenses on a continuing basis, the continued availability to the Company of financing and credit on favorable terms, business disruptions, disease, general risks associated with doing business outside the United States including, without limitation, import duties, tariffs, quotas, political and economic stability, and success of hedging strategies with respect to currency exchange rate fluctuations.

These risks and uncertainties, along with the risk factors discussed under Item 1A Risk Factors in the Company's Annual Report on Form 10-K, should be considered in evaluating any forward-looking statements contained in this Quarterly Report on Form 10-Q or incorporated by reference herein. All forward-looking statements speak only as of the date of this report or, in the case of any document incorporated by reference, the date of that document. All subsequent written and oral forward-looking statements attributable to the Company or any person acting on its behalf are qualified by the cautionary statements in this section. The Company undertakes no obligation to update or publicly release any revisions to forward-looking statements to reflect events, circumstances or changes in expectations after the date of this report.

Critical Accounting Policies and Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the dates of the consolidated financial statements. These estimates and assumptions also affect the reported amounts of revenues and expenses. Estimates by their nature are based on judgments and available information. Therefore, actual results could materially differ from those estimates under different assumptions and conditions.

Critical accounting policies are those that are most important to the portrayal of the Company's financial condition and the results of operations and require management's most difficult, subjective and complex judgments as a result of the need to make estimates about the effect of matters that are inherently uncertain. The Company's most critical accounting policies have been discussed in the Company's Annual Report on Form 10-K.

As of October 31, 2012, there have been no material changes to any of the critical accounting policies as disclosed in the Company's Annual Report on Form 10-K.

Recent Developments

On March 12, 2012, the Company amended its Amended and Restated Loan and Security Agreement, dated as of July 17, 2009, as previously amended, with Bank of America, N.A. and Bank Leumi USA to extend its maturity to 2015, to reflect more favorable current market rate conditions and to modify certain terms.

As of March 22, 2012, the Company entered into an exclusive worldwide license agreement with Ferrari S.p.A. to use certain well known trademarks of Ferrari including the S.F. and Prancing Horse device in shield, FERRARI OFFICIAL LICENSED PRODUCT and SCUDERIA FERRARI, in connection with the manufacture, advertising, merchandising, promotion, sale and distribution of watches with a suggested retail price not exceeding \$1,500. The current term of the license is through December 31, 2017.

As of March 23, 2012, the Company donated \$3.0 million to the Movado Group Foundation, which consisted of \$2.2 million in the form of shares of the Company's common stock issued out of treasury, and \$0.8 million in cash. This expense was recorded in the fourth quarter of fiscal 2012.

On March 27, 2012, as a result of Movado Group's strong financial position in fiscal 2012, the Company's Board of Directors decided to increase the quarterly cash dividend to \$0.05 per share, subject, in each quarter, to the Board's review of the Company's financial performance and other factors as determined by the Board. On November 27, 2012, the Board approved the payment of a cash dividend on December 21, 2012 in the amount of \$0.05 per share of the Company's outstanding common stock and class A common stock held by shareholders of record as of the close of business on December 10, 2012. However, the decision of whether to declare any future cash dividend, including the amount of any such dividend and the establishment of record and payment dates, will be determined, in each quarter, by the Board of Directors, in its sole discretion.

On March 29, 2012, the Board of Directors approved the payment of a special cash dividend of \$0.50 per share of the Company's outstanding common stock and class A common stock. This dividend was paid on May 15, 2012 to all shareholders of record on April 30, 2012.

As of October 31, 2012, the Company accrued a \$3.0 million pre-tax charge to selling, administrative, and general expenses, related to a pledged donation to the Movado Group Foundation. The Company expects to pay this amount in the fourth quarter of fiscal 2013, consisting of both shares of the Company's common stock and cash.

Table of Contents

On November 27, 2012 the Board of Directors approved the payment of a special cash dividend of \$0.75 per share of the Company's outstanding common stock and class A common stock. This dividend will be paid on December 21, 2012 to all shareholders of record on December 10, 2012.

Overview

The Company conducts its business primarily in two operating segments: Wholesale and Retail. The Company's Wholesale segment includes the designing, manufacturing and distribution of quality watches. The Retail segment consists of the Company's outlet stores and, until February 14, 2012, also included the Movado brand flagship store located at Rockefeller Center in New York City. Effective February 14, 2012 the Rockefeller Center store closed, as the Company was not able to renew its lease. The Company also operates in two major geographic locations: United States operations and International, the latter of which includes the results of all other Company operations.

The Company divides its watch business into distinct categories. The luxury category consists of the Ebel® and Concord® brands. The accessible luxury category consists of the Movado® and ESQ® Movado brands. The licensed brands category represents brands distributed under license agreements and includes Coach®, HUGO BOSS®, Juicy Couture®, Lacoste® and Tommy Hilfiger®. Movado Group, Inc. also plans to launch a collection of SCUDERIA FERRARI® watches beginning in fiscal 2014.

Results of operations for the three months ended October 31, 2012 as compared to the three months ended October 31, 2011

Net Sales: Comparative net sales by business segment were as follows (in thousands):

	Three Months Ended October 31,	
	2012	2011
Wholesale:		
United States	\$ 74,309	\$ 61,061
International	72,971	68,540
Total Wholesale	147,280	129,601
Retail	12,922	13,021
Net Sales	\$ 160,202	\$ 142,622

Net sales for the three months ended October 31, 2012 were \$160.2 million, above prior year by \$17.6 million or 12.3%. For the three months ended October 31, 2012, fluctuations in foreign currency exchange rates unfavorably impacted net sales by \$2.9 million when compared to the prior year period.

Net sales for the three months ended October 31, 2012 in the wholesale segment were \$147.3 million, above the prior year period by \$17.7 million or 13.6%. The increase in wholesale net sales was driven by growth in both the United States and International locations of the wholesale segment.

Net sales for the three months ended October 31, 2012 in the United States location of the wholesale segment were \$74.3 million, above the prior year period by \$13.2 million or 21.7%, driven by sales increases in both the accessible luxury and licensed brand categories. Net sales in the accessible luxury category were above prior

Table of Contents

year by \$9.1 million, or 23.2%, primarily due to strong sell-through in the Company's distribution channels, higher sales of the Movado BOLD collection and continued focus and investment in marketing and advertising. Net sales in the accessible luxury category included sales of the newly styled ESQ collection branded ESQ Movado which launched in the current period. Net sales in the licensed brand category were above the prior year period by \$4.4 million, or 23.1%, primarily due to increased demand driven by innovative product designs and key price points that are resonating well with customers. The net sales in the luxury category for the three months ended October 31, 2012 were \$1.0 million which were relatively flat when compared to the prior year period.

Net sales for the three months ended October 31, 2012 in the International location of the wholesale segment were \$73.0 million, above the prior year period by \$4.5 million or 6.5%, driven by a sales increase in the licensed brand and accessible luxury categories, partially offset by a sales decrease in the luxury brand category. Net sales in the licensed brand category were above the prior year period by \$4.3 million, or 9.8%, primarily due to continued growth in existing markets resulting from higher demand, as well as new market expansion. Net sales in the accessible luxury category were above the prior year period by \$2.8 million, or 25.8%, primarily due to continued growth in existing markets resulting from higher demand, as well as new market expansion and sales of the newly styled ESQ collection branded ESQ Movado which launched in the current period. Net sales in the luxury category were below the prior year period by \$2.5 million, or 21.3% primarily due to the category being less promotional when compared to the prior year period. For the three months ended October 31, 2012, fluctuations in foreign currency exchange rates unfavorably impacted net sales by \$2.9 million when compared to the prior year period.

Net sales for the three months ended October 31, 2012 in the Retail segment were \$12.9 million, which were relatively flat when compared to the prior year period. As of October 31, 2012 and 2011, the Company operated 33 outlet stores.

Gross Profit. Gross profit for the three months ended October 31, 2012 was \$90.4 million or 56.4% of net sales as compared to \$81.0 million or 56.8% of net sales for the three months ended October 31, 2011. The increase in gross profit of \$9.4 million was primarily due to higher net sales partially offset by a lower gross margin percentage achieved. The gross margin percentage for the three months ended October 31, 2012 was unfavorably impacted by approximately 110 basis points due to a shift in channel and product mix. When compared to the prior year period, the gross margin for the three months ended October 31, 2012 was favorably impacted by approximately 60 basis points due to fluctuations in foreign currency exchange rates. Additionally, the gross margin percentage for the three months ended October 31, 2012 was favorably impacted by approximately 10 basis points resulting from leverage gained on certain fixed costs due to the increase in sales volume year-over-year.

Selling, General and Administrative (SG&A). SG&A expenses for the three months ended October 31, 2012 were \$65.4 million, representing an increase of \$3.5 million or 5.7%. The increase in SG&A expenses included a \$3.0 million charitable contribution to the Movado Group Foundation and higher compensation and benefit expense of \$2.3 million recorded during the current year period resulting from higher performance-based compensation, separation agreements, higher headcount and salary increases. Higher marketing expense of \$1.3 million was recorded during the current year period due to the Company's decision to increase spending to drive sales growth. These increases in SG&A expenses were partially offset by the effect of fluctuations in foreign currency exchange rates which favorably impacted SG&A expenses for the three months ended October 31, 2012 by \$2.0 million, of which \$1.1 million was the result of decreases from the translation of foreign subsidiary results and \$0.9 million was the result of lower transactional losses recorded year-over-year. These increases in SG&A expenses were also partially offset by \$0.6 million of lower bad debt expenses and \$0.5 million of tradeshow related expenses.

Wholesale Operating Income. Operating income of \$22.8 million and \$17.4 million was recorded in the wholesale segment for the three months ended October 31, 2012 and 2011, respectively. The \$5.4 million increase in operating income was the result of an increase in gross profit of \$9.1 million, partially offset by an increase in SG&A expenses of \$3.7 million. The increase in SG&A expenses included a \$3.0 million charitable contribution to the Movado Group Foundation and higher compensation and benefit expense of \$2.3 million recorded during the current year period resulting from higher performance-based compensation, separation agreements, higher headcount and salary increases. Higher marketing expense of \$1.3 million was recorded during the current year period due to the Company's decision to increase spending to drive sales growth. These increases in SG&A expenses were partially offset by the effect of fluctuations in foreign currency exchange rates which favorably impacted SG&A expenses for the three months ended October 31, 2012 by \$2.0 million, of which \$1.1 million was the result of decreases from the translation of foreign subsidiary results and \$0.9 million was the result of lower transactional losses recorded year-over-year. These increases in SG&A expenses were also partially offset by \$0.6 million of lower bad debt expenses and \$0.5 million of tradeshow related expenses.

Retail Operating Income. Operating income of \$2.2 million and \$1.7 million was recorded in the retail segment for the three months ended October 31, 2012 and 2011, respectively. The \$0.5 million increase in operating income was the result of an increase in gross profit of \$0.3 million and a decrease in SG&A expenses of \$0.2 million. The increase in gross profit of \$0.3 million was primarily attributed to higher gross margin percentage achieved. The decrease in SG&A expenses of \$0.2 million was primarily due to the closing in the current year of the Movado brand flagship store located at Rockefeller Center in New York City.

Interest Expense. Interest expense for the three months ended October 31, 2012 and 2011 was \$0.1 million and \$0.3 million, respectively, which primarily consisted of the amortization of deferred financing costs.

Interest Income. Interest income for both three months ended October 31, 2012 and 2011 was immaterial.

Income Taxes. The Company recorded a tax benefit of \$9.9 million and a tax expense of \$2.1 million for the three months ended October 31, 2012 and 2011, respectively. The three months ended October 31, 2012 included a tax benefit of \$19.4 million attributable to the reversal of a majority of the valuation allowance on the U.S. net deferred tax assets. The remaining valuation allowance of \$2.8 million represents the portion of the Company's deferred tax assets for state net operating losses that management estimates will not be realized in the future. The effective tax rate for the three months ended October 31, 2012 was -39.5%. The effective tax rate for the three months ended October 31, 2011 was 11.0%. The effective tax rates for both periods include the application of guidelines related to accounting for income taxes in interim periods. The fluctuation in the effective tax rate is also due to a shift in the mix of global pre-tax financial results.

Net Income Attributed to Movado Group, Inc. For the three months ended October 31, 2012, the Company recorded net income of \$34.5 million, compared to net income of \$16.4 million recorded for the three months ended October 31, 2011.

Net sales for the nine months ended October 31, 2012 were \$381.9 million, above prior year by \$36.2 million or 10.5%. For the nine months ended October 31, 2012, fluctuations in foreign currency exchange rates unfavorably impacted net sales by \$7.7 million when compared to the prior year period.

Net sales for the nine months ended October 31, 2012 in the wholesale segment were \$345.3 million, above the prior year period by \$36.3 million or 11.8%. The increase in wholesale net sales was driven by growth in both the United States and International locations of the wholesale segment.

Net sales for the nine months ended October 31, 2012 in the United States location of the wholesale segment were \$161.4 million, above the prior year period by \$24.0 million or 17.5%, driven by sales increases in both the accessible luxury and licensed brand categories. Net sales in the accessible luxury category were above prior year by \$14.4 million, or 16.7%, primarily due to strong sell-through in the Company's distribution channels, higher sales of the Movado BOLD and Museum collections and the continued focus and investment in marketing and advertising. For the nine months ended October 31, 2012 net sales in the accessible luxury category included sales of the newly styled ESQ collection branded ESQ Movado which launched during the three months ended October 31, 2012, were more than offset by lower sales of the ESQ by Movado brand collection in the first half of the year. This was pursuant to the Company's strategy to minimize non-go forward inventory and maximize go-forward inventory at the retail level. Net sales in the licensed brand category were above the prior year period by \$10.5 million, or 24.8%, primarily due to increased demand driven by innovative product designs and key price points that are resonating well with customers. These sales increases were partially offset by lower net sales in the luxury category of \$0.1 million when compared to the prior year.

Net sales for the nine months ended October 31, 2012 in the International location of the wholesale segment were \$183.9 million, above the prior year period by \$12.3 million or 7.2%, driven by sales increases in the licensed brand and accessible luxury brand categories, partially offset by a sales decrease in the luxury brand category. Net sales in the licensed brand category were above the prior year period by \$19.2 million, or 17.9%, primarily due to continued growth in existing markets resulting from higher demand, as well as new market expansion. Net sales in the accessible luxury category were above the prior year period by \$1.9 million, or 6.9%, primarily due to continued growth in existing markets resulting from higher demand, as well as new market expansion and sales of the newly styled ESQ collection branded ESQ Movado which launched in the current three month period. Net sales in the luxury category were below the prior year period by \$7.7 million, or

26.8% primarily due to the category being less promotional when compared to the prior year. For the nine months ended October 31, 2012, fluctuations in foreign currency exchange rates unfavorably impacted net sales by \$7.7 million when compared to the prior year.

Net sales for the nine months ended October 31, 2012 in the Retail segment were \$36.6 million, which were relatively flat in comparison to prior year. As of October 31, 2012 and 2011, the Company operated 33 outlet stores.

Gross Profit. Gross profit for the nine months ended October 31, 2012 was \$215.2 million or 56.4% of net sales as compared to \$190.6 million or 55.1% of net sales for the nine months ended October 31, 2011. The increase in gross profit of \$24.6 million was primarily due to higher net sales and, to a lesser extent, the higher gross margin percentage achieved. The gross margin percentage for the nine months ended October 31, 2012 was favorably impacted by approximately 110 basis points due to a shift in channel and product mix and approximately 50 basis points resulting from reductions in and leverage gained on certain fixed costs due to the increase in sales volume year-over-year. Additionally, the gross margin for the nine months ended October 31, 2012 was unfavorably impacted by approximately 30 basis points due to fluctuations in foreign currency exchange rates.

Selling, General and Administrative (SG&A). SG&A expenses for the nine months ended October 31, 2012 were \$171.0 million, representing an increase of \$6.1 million or 3.7%. The increase in SG&A expense included higher compensation and benefit expense of \$7.1 million recorded during the current year resulting from higher performance-based compensation, separation agreements, higher headcount and salary increases. The increase in SG&A expenses included a \$3.0 million charitable contribution to the Movado Group Foundation. Additionally, higher marketing expense of \$1.7 million was recorded during the current year resulting from the Company's decision to continue investment in this area to drive sales growth. These increases in SG&A expenses were partially offset by the effect of fluctuations in foreign currency exchange rates which favorably impacted SG&A expenses for the nine months ended October 31, 2012 by \$5.0 million, of which \$2.6 million was the result of lower transactional losses recorded year-over-year and \$2.4 million was the result of decreases from the translation of foreign subsidiary results. These increases in SG&A expenses were also partially offset by \$0.5 million of lower bad debt expenses.

Wholesale Operating Income. Operating income of \$37.7 million and \$21.2 million was recorded in the wholesale segment for the nine months ended October 31, 2012 and 2011, respectively. The \$16.5 million increase in operating income was the net result of an increase in gross profit of \$23.1 million, partially offset by an increase in SG&A expenses of \$6.6 million. The increase in gross profit of \$23.1 million was primarily due to higher net sales and, to a lesser extent, the higher gross margin percentage achieved. The increase in SG&A expense included higher compensation and benefit expense of \$7.1 million recorded during the current year resulting from higher performance-based compensation, separation agreements, higher headcount and salary increases. The increase in SG&A expenses included a \$3.0 million charitable contribution to the Movado Group Foundation. Additionally, higher marketing expenses of \$1.7 million were recorded during the current year resulting from the Company's decision to continue investment in this area to drive sales growth. These increases in SG&A expenses were partially offset by the effect of fluctuations in foreign currency exchange rates which favorably impacted SG&A expenses for the nine months ended October 31, 2012 by \$5.0 million, of which \$2.6 million was the result of lower transactional losses recorded year-over-year and \$2.4 million was the result of decreases from the translation of foreign subsidiary results. These increases in SG&A expenses were also partially offset by \$0.5 million of lower bad debt expenses.

Retail Operating Income. Operating income of \$6.6 million and \$4.6 million was recorded in the retail segment for the nine months ended October 31, 2012 and 2011, respectively. The \$2.0 million increase in operating income was the result of an increase in gross profit of \$1.5 million and a decrease in SG&A expenses of \$0.5 million. The increase in gross profit of \$1.5 million was primarily attributed to higher gross margin percentage

achieved. The decrease in SG&A expenses of \$0.5 million was primarily due to the closing in the current year of the Movado brand flagship store located at Rockefeller Center in New York City.

Other Income. The Company recorded other income of \$0.7 million for the nine months ended October 31, 2011 resulting from the pre-tax gain on the sale of a building.

Interest Expense. Interest expense for the nine months ended October 31, 2012 and 2011 was \$0.3 million and \$1.0 million, respectively, which primarily consisted of the amortization of deferred financing costs.

Interest Income. Interest income for both nine months ended October 31, 2012 and 2011 was immaterial.

Income Taxes. The Company recorded a tax benefit of \$5.7 million and a tax expense of \$3.7 million for the nine months ended October 31, 2012 and 2011, respectively. The nine months ended October 31, 2012 included a tax benefit of \$19.4 million attributable to the reversal of a majority of the valuation allowance on the U.S. net deferred tax assets. The remaining valuation allowance of \$2.8 million represents the portion of the Company's deferred tax assets for state net operating losses that management estimates will not be realized in the future. The effective tax rate for the nine months ended October 31, 2012 was -13.0%. The effective tax rate for the nine months ended October 31, 2011 was 14.3%. The effective tax rates for both periods include the application of guidelines related to accounting for income taxes in interim periods. The fluctuation in the effective tax rate is also due to a shift in the mix of global pre-tax financial results. The nine months ended October 31, 2012, included a \$0.5 million discrete expense recorded in the current year for a contingent exposure relative to a recent foreign tax audit.

Net Income Attributed to Movado Group, Inc. For the nine months ended October 31, 2012, the Company recorded net income of \$49.2 million, compared to net income of \$21.3 million recorded for the nine months ended October 31, 2011.

LIQUIDITY AND CAPITAL RESOURCES

At October 31, 2012 and October 31, 2011, the Company had \$164.8 million and \$138.0 million, respectively, of cash and cash equivalents, \$124.8 million and \$112.7 million of which consisted of cash and cash equivalents at the Company's foreign subsidiaries, respectively. The majority of the foreign cash balances are associated with earnings that the Company has asserted are permanently reinvested, and which are required to support continued growth outside the U.S. through funding of capital expenditures, operating expenses and similar cash needs of the foreign operations. The Company intends to repatriate excess cash balances attributable to certain prior year earnings in Hong Kong and Switzerland, and has provided tax accordingly.

Cash provided by operating activities was \$5.8 million and \$32.7 million for the nine months ended October 31, 2012 and 2011, respectively. The \$5.8 million of cash provided by operating activities for the fiscal 2013 period was primarily due to income from operations of \$49.8 million, partially offset by the change in working capital of \$34.6 million and unfavorable non-cash items of \$9.0 million. The change in working capital of \$34.6 million was primarily due to the increase of accounts receivables and an increase in inventory, partially offset by the pay down of liabilities. The \$32.7 million of cash provided by operating activities for the fiscal 2012 period was primarily the result of net income for the period of \$21.9 million and favorable non-cash items of \$9.4 million.

Cash used in investing activities amounted to \$6.8 million for the nine months ended October 31, 2012 and \$3.5 million for the nine months ended October 31, 2011. The cash used during both periods consisted of capital expenditures which included integration of computer hardware and software, as well as spending for tooling and design. For the nine months ended October 31, 2012, the cash used in investing activities for capital expenditures also included spending related to the relocation of the Company's Swiss offices. For the nine

months ended October 31, 2011, the cash used in investing activities of \$3.5 million also included proceeds from a sale of an asset held for sale of \$1.2 million.

Cash used in financing activities amounted to \$14.9 million and \$1.8 million for the nine months ended October 31, 2012 and 2011, respectively, primarily to pay dividends.

On July 17, 2009, the Company, together with Movado Group Delaware Holdings Corporation, Movado Retail Group, Inc. and Movado LLC (together with the Company, the Borrowers), each a wholly-owned domestic subsidiary of the Company, entered into an Amended and Restated Loan and Security Agreement (the Original Loan Agreement) with Bank of America, N.A. and Bank Leumi USA, as lenders (Lenders), and Bank of America, N.A., as agent (in such capacity, the Agent). The parties amended the Original Loan Agreement by entering into Amendment No. 1 thereto (First Amendment) on April 5, 2011 and Amendment No. 2 thereto (Second Amendment) on March 12, 2012 (the Original Loan Agreement, as so amended, the Loan Agreement). The Loan Agreement provides for a \$25.0 million asset based senior secured revolving credit facility (the Facility), including a \$15.0 million letter of credit subfacility, and provides that Borrowers are entitled to request that Lenders increase the Facility up to \$50.0 million subject to any additional terms and conditions the parties may agree upon. The maturity date of the Facility is March 12, 2015.

Availability under the Facility is determined by reference to a borrowing base which is based on the sum of a percentage of eligible accounts receivable and eligible inventory of the Borrowers. \$10.0 million in availability is blocked unless the Borrowers have achieved for the most recently ended four fiscal quarter period a consolidated fixed charge coverage ratio of at least 1.25 to 1.0 with domestic EBITDA greater than \$10.0 million. The Borrowers are not currently subject to the availability block. The availability block, if applicable, will be reduced by the amount by which the borrowing base exceeds \$25.0 million, up to a maximum reduction of \$5.0 million. Availability under the Facility may be further reduced by certain reserves established by the Agent in its good faith credit judgment. The Second Amendment reduced the Lenders' total commitment under the Loan Agreement from \$55.0 million to \$25.0 million and consequently availability was correspondingly reduced. As of October 31, 2012, total availability under the Facility, giving effect to an availability block of \$0, no outstanding borrowings and the letters of credit outstanding under the subfacility, was \$20.5 million.

The initial applicable margin for LIBOR rate loans was 4.25% and for base rate loans was 3.25%. After July 17, 2010, the applicable margins decreased or increased by 0.25% per annum from the initial applicable margins depending on whether average availability for the most recently completed fiscal quarter was either greater than \$12.5 million, or was \$5.0 million or less, respectively. The First Amendment reduced the applicable margins for both LIBOR rate loans and base rate loans by 1.25% and the Second Amendment further reduced the applicable margins by 0.75%. Accordingly, as of October 31, 2012 and based on current availability, the applicable margins were 2.00% and 1.00% for LIBOR and base rate loans, respectively.

After the date (the Block Release Date) when availability under the Facility is no longer subject to any blocked amount, if borrowing availability is less than \$12.5 million, the Borrowers will be subject to a minimum fixed charge coverage ratio until such time as borrowing availability has been greater than \$12.5 million for at least 90 consecutive days.

After the Block Release Date, cash dominion will be imposed if borrowing availability is less than \$10.0 million and will continue until such time as borrowing availability has been greater than \$10.0 million for at least 45 consecutive days. As of October 31, 2012, the Borrowers were not subject to cash dominion, nor do the Borrowers expect to be subject to such a requirement in the foreseeable future.

The Loan Agreement contains additional affirmative and negative covenants binding on the Borrowers and their subsidiaries that are customary for asset based facilities, including, but not limited to, restrictions and limitations on the incurrence of debt for borrowed money and liens, dispositions of assets, capital expenditures,

dividends and other payments in respect of equity interests, the making of loans and equity investments, prepayments of subordinated and certain other debt, mergers, consolidations, liquidations and dissolutions, and transactions with affiliates. The Loan Agreement permits Borrowers to pay distributions as dividends and make share repurchases up to an aggregate of \$150.0 million (less the amount of any charitable donations made by the Company which are permitted up to an aggregate amount of \$14 million) and make acquisitions up to an aggregate of \$50.0 million, as long as, at the time of such transaction, either (A) Borrowers have cash assets of at least \$60.0 million with no revolver loans outstanding, or (B) (i) the consolidated fixed charge coverage ratio is at least 1.25 to 1.00, (ii) availability is greater than \$12.5 million and (iii) positive EBITDA plus repatriated cash dividends minus restricted payments are greater than \$0. The Company, as of October 31, 2012, was in compliance with these financial covenants and, therefore, that it is permitted to pay dividends. The Company presently expects that it will be able to pay any dividends declared through the remaining term of the Facility.

The Loan Agreement contains events of default that are customary for facilities of this type, including, but not limited to, nonpayment of principal, interest, fees and other amounts when due, failure of any representation or warranty to be true in any material respect when made or deemed made, violation of covenants, cross default, material judgments, material ERISA liability, bankruptcy events, material loss of collateral in excess of insured amounts, asserted or actual revocation or invalidity of the loan documents, change of control and events or circumstances having a material adverse effect. The borrowings under the Facility are joint and several obligations of the Borrowers and also cross-guaranteed by each Borrower. In addition, the Borrowers' obligations under the Facility are secured by first priority liens, subject to permitted liens, on substantially all of the Borrowers' U.S. assets (other than certain excluded assets).

A Swiss subsidiary of the Company maintains unsecured lines of credit with an unspecified length of time with a Swiss bank. As of October 31, 2012 and 2011, these lines of credit totaled 10.0 million Swiss francs for both periods, with dollar equivalents of \$10.7 million and \$11.4 million, respectively. As of October 31, 2012 and 2011, there were no borrowings against these lines. As of October 31, 2012, two European banks have guaranteed obligations to third parties on behalf of two of the Company's foreign subsidiaries in the amount of \$2.3 million in various foreign currencies.

The Company paid dividends of \$0.65 per share or approximately \$16.3 million, for the nine months ended October 31, 2012. The Company paid dividends of \$0.09 per share or approximately \$2.2 million, for the nine months ended October 31, 2011.

The Company announced on November 27, 2012 that the Board of Directors approved the payment of a special cash dividend of \$0.75 per share of the Company's outstanding common stock and class A common stock. This dividend will be paid on December 21, 2012 to all shareholders of record on December 10, 2012.

On April 15, 2008, the Board authorized a program to repurchase up to one million shares of the Company's common stock. Under this authorization, the Company has the option to repurchase shares over time, with the amount and timing of repurchases depending on market conditions and corporate needs. The Company entered into a Rule 10b5-1 plan to facilitate repurchases of its shares under this authorization. A Rule 10b5-1 plan permits a company to repurchase shares at times when it might otherwise be prevented from doing so, provided the plan is adopted when the company is not aware of material non-public information. The Company may suspend or discontinue the repurchase of stock at any time. Under this share repurchase program, the Company had repurchased a total of 937,360 shares of common stock in the open market during the first and second quarters of fiscal 2009 at a total cost of approximately \$19.5 million or \$20.79 average per share. During the nine months ended October 31, 2012, the Company did not repurchase shares of common stock under this program.

Management believes that the cash on hand in addition to the expected cash flow from operations and the Company's short-term borrowing capacity will be sufficient to meet its working capital needs for at least the next twelve months.

Off-Balance Sheet Arrangements

The Company does not have off-balance sheet financing or unconsolidated special-purpose entities.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

Foreign Currency Risk

The Company's primary market risk exposure relates to foreign currency exchange risk. A significant portion of the Company's purchases are denominated in Swiss francs. The Company reduces its exposure to the Swiss franc exchange rate risk through a hedging program. Under the hedging program, the Company manages most of its foreign currency exposures on a consolidated basis, which allows it to net certain exposures and take advantage of natural offsets. In the event these exposures do not offset, the Company uses various derivative financial instruments to further reduce the net exposures to currency fluctuations, predominately forward and option contracts. When entered into, the Company designates and documents these derivative instruments as a cash flow hedge of a specific underlying exposure, as well as the risk management objectives and strategies for undertaking the hedge transactions. Changes in the fair value of a derivative that is designated and documented as a cash flow hedge and is highly effective, are recorded in other comprehensive income until the underlying transaction affects earnings, and then are later reclassified into earnings in the same account as the hedged transaction. The earnings impact is partially offset by the effects of currency movements on the underlying hedged transactions. If the Company does not engage in a hedging program, any change in the Swiss franc to local currency would have an equal effect on the Company's cost of sales.

The Company uses forward exchange contracts to offset its exposure to certain foreign currency receivables and liabilities. These forward contracts are not designated as qualified hedges and, therefore, changes in the fair value of these derivatives are recognized into earnings, thereby offsetting the current earnings effect of the related foreign currency liabilities.

As of October 31, 2012, the Company's entire net forward contracts hedging portfolio consisted of 39.0 million Swiss francs equivalent with various expiry dates ranging through April 19, 2013 compared to a portfolio of 27.0 million Swiss francs equivalent for various expiry dates ranging through April 25, 2012 as of October 31, 2011. If the Company were to settle its Swiss franc forward contracts at October 31, 2012, the net result would be a gain of \$0.3 million, net of tax of \$0.2 million. The Company had no Swiss franc option contracts related to cash flow hedges as of October 31, 2012 and 2011.

The Board authorized the hedging of the Company's Swiss franc denominated investment in its wholly-owned Swiss subsidiaries using purchase options under certain limitations. These hedges are treated as net investment hedges under the relevant accounting guidance regarding derivative instruments. As of October 31, 2012 and 2011, the Company did not hold a purchased option hedge portfolio related to net investment hedging.

Commodity Risk

The Company considers its exposure to fluctuations in commodity prices to be primarily related to gold used in the manufacturing of the Company's watches. Under its hedging program, the Company can purchase various commodity derivative instruments, primarily future contracts. These derivatives are documented as qualified cash flow hedges, and gains and losses on these derivative instruments are first reflected in other comprehensive income, and later reclassified into earnings, partially offset by the effects of gold market price changes on the

Table of Contents

underlying actual gold purchases. The Company did not hold any future contracts in its gold hedge portfolio related to cash flow hedges as of October 31, 2012 and 2011, thus any changes in the gold price will have an equal effect on the Company's cost of sales.

During the fourth quarter of fiscal year ended January 31, 2011, the Company concluded it would significantly reduce its offering of gold watches, as it relates to non-core gold inventory. The Company decided to melt the non-core gold inventory because the current salvage value of the gold was adequate and could be easily and quickly realized, while significant excessive time, effort and costs would be required to sell the gold watches. As a result, the Company entered into commodity futures contracts in fiscal 2012 to offset its exposure to the fluctuating value of gold. These futures contracts were not designated as qualified hedges and, therefore, changes in the fair value of these derivatives were recognized into earnings, thereby offsetting the earnings effect of fluctuations in the sale price of gold.

As of October 31, 2011, the Company's commodity futures contracts consisted of approximately 600 ounces of gold equivalent with various expiry dates ranging through November 30, 2011. If the Company were to settle its commodity future contracts at October 31, 2011, the net result would be a loss of \$0.1 million, net of tax benefit of \$0.1 million. As of October 31, 2012, the Company did not hold any gold future contracts in its fair value hedge portfolio.

Debt and Interest Rate Risk

The Company has the capability to have certain debt obligations with variable interest rates, which are based on LIBOR plus a fixed additional interest rate. The Company does not hedge these interest rate risks. As of October 31, 2012, the Company had no outstanding debt. For additional information concerning potential changes to future interest obligations, see Management's Discussion and Analysis of Financial Condition and Results of Operations—Liquidity and Capital Resources.

Item 4. Controls and Procedures

Evaluation of Disclosure Controls and Procedures

The Company's disclosure controls and procedures are designed to provide reasonable assurance of achieving their objectives, and the Company's Chief Executive Officer and Chief Financial Officer have concluded that such disclosure controls and procedures are effective at that reasonable assurance level. However, it should be noted that a control system, no matter how well conceived or operated, can only provide reasonable, not absolute, assurance that its objectives will be met and may not prevent all errors or instances of fraud.

The Company, under the supervision and with the participation of its management, including the Chief Executive Officer and the Chief Financial Officer, have evaluated the effectiveness of the Company's disclosure controls and procedures, as such terms are defined in Rule 13a-15(e) under the Securities Exchange Act, as amended. Based on that evaluation, the Chief Executive Officer and the Chief Financial Officer concluded that the Company's disclosure controls and procedures are effective at a reasonable assurance level as of the end of the period covered by this report.

Changes in Internal Control Over Financial Reporting

There has been no change in the Company's internal control over financial reporting during the nine months ended October 31, 2012, that has materially affected, or is reasonably likely to materially affect, the Company's internal control over financial reporting.

Table of Contents**PART II - OTHER INFORMATION***Item 1. Legal Proceedings*

The Company is involved in pending legal proceedings and claims in the ordinary course of business. Although the outcome of such matters cannot be determined with certainty, the Company's general counsel and management believe that the final outcome of currently pending legal proceedings, individually or in the aggregate, would not have a material adverse effect on the Company's consolidated financial position, results of operations or cash flows.

Item 1A. Risk Factors

As of October 31, 2012, there have been no material changes to any of the risk factors previously reported in the Annual Report on Form 10-K.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

On April 15, 2008, the Board authorized a program to repurchase up to one million shares of the Company's Common Stock. Under this authorization, the Company has the option to repurchase shares over time, with the amount and timing of repurchases depending on market conditions and corporate needs. The Company entered into a Rule 10b5-1 plan to facilitate repurchases of its shares under this authorization. A Rule 10b5-1 plan permits a company to repurchase shares at times when it might otherwise be prevented from doing so, provided the plan is adopted when the company is not aware of material non-public information. The Company may suspend or discontinue the repurchase of stock at any time. Under this share repurchase program, the Company had repurchased a total of 937,360 shares of Common Stock in the open market during the first and second quarters of fiscal year 2009 at a total cost of approximately \$19.5 million or \$20.79 per share. During the nine months ended October 31, 2012, the Company has not repurchased shares of Common Stock under this program.

An aggregate of 32,120 shares have been repurchased during the nine months ended October 31, 2012 as a result of the surrender of shares in connection with the vesting of certain restricted stock awards and stock options. At the election of an employee, shares having an aggregate value on the vesting date equal to the employee's withholding tax obligation may be surrendered to the Company.

The following table summarizes information about the Company's purchases for the three month period ended October 31, 2012 of equity securities that are registered by the Company pursuant to Section 12 of the Securities Exchange Act of 1934:

Issuer Repurchase of Equity Securities
