Intertape Polymer Group Inc.

Notes to Interim Condensed Consolidated Financial Statements

March 31, 2013

(In US dollars, tabular amounts in thousands, except as otherwise noted)

(Unaudited)

1 - GENERAL BUSINESS DESCRIPTION

Intertape Polymer Group Inc. (the Parent Company), incorporated under the *Canada Business Corporations Act*, has its principal administrative offices in Montreal, Quebec, Canada and in Sarasota-Bradenton, Florida, U.S.A. The address of the Parent Company's registered office is 1250 René-Lévesque Blvd. West, Suite 2500, Montreal, Quebec, Canada H3B 4Y1, c/o Heenan Blaikie LLP. The Parent Company's common shares are listed on the Toronto Stock Exchange (TSX) in Canada.

The Parent Company and its subsidiaries (together referred to as the Company), develop, manufacture and sell a variety of paper and film based pressure sensitive and water activated tapes, specialized polyolefin films, woven fabrics and complementary packaging systems for industrial and retail use.

Intertape Polymer Group Inc. is the group's ultimate parent.

2 - ACCOUNTING POLICIES

Basis of Presentation and Statement of Compliance

The unaudited interim condensed consolidated financial statements (financial statements) present the Company's consolidated balance sheets as of March 31, 2013 and December 31, 2012, as well as its interim consolidated earnings (loss), comprehensive income (loss), changes in shareholders' equity and cash flows for the three months ended March 31, 2013 and 2012. These financial statements have been prepared in accordance with International Accounting Standard (IAS) 34 *Interim Financial Reporting* and are expressed in US dollars. Accordingly, certain information and footnote disclosures normally included in annual financial statements prepared in accordance with International Financial Reporting Standards (IFRS), as issued by the International Accounting Standards Board (IASB), have been omitted or condensed.

Estimates

When preparing the financial statements, management undertakes a number of judgments, estimates and assumptions about recognition and measurement of assets, liabilities, income and expenses. The actual results may differ from the judgments, estimates and assumptions made by management, and will seldom equal the estimated results. The judgments, estimates and assumptions applied in the financial statements, including the key sources of estimation uncertainty, were the same as those applied in the Company's most recent annual audited consolidated financial statements. The only exceptions are the estimate of the provision for income taxes which is determined in the financial statements using the estimated weighted average annual effective income tax rate applied to the pre-tax income of the interim period and the item discussed in Note 3. These financial statements and notes should be read in conjunction with the Company's most recent annual audited consolidated financial statements.

Edgar Filing: INTERTAPE POLYMER GROUP INC - Form 6-K

Presentation of items of other comprehensive income (loss)

Amended IAS 1 *Presentation of Financial Statements*: requires entities to group items presented in other comprehensive income (loss) (OCI) into those that, in accordance with other IFRS, will be reclassified subsequently to earnings or loss and those that will not be reclassified subsequently to earnings or loss when specific conditions are met. The existing option to present items of OCI either before tax or net of tax remains unchanged: however, if the items are presented before tax then amended IAS 1 requires the tax related to each of the two groups of OCI to be shown separately.

These financial statements reflect all adjustments which are, in the opinion of management, necessary to a fair statement of the results for the interim periods presented. These adjustments are of a normal recurring nature.

These financial statements were authorized for issuance by the Company's Board of Directors on May 14, 2013.

New Standards and Interpretations Issued But Not Yet Effective

Certain new standards, amendments and interpretations, and improvements to existing standards have been issued by the IASB but are not yet effective, and have not been adopted by the Company. Management anticipates that all of the relevant pronouncements will be adopted by the first period beginning the date of the pronouncement. Information on new standards, amendments and interpretations, and improvements to existing standards, which could potentially impact the Company's financial statements are detailed as follows:

IFRS 9 *Financial Instruments*: The IASB intends to replace IAS 39 *Financial Instruments: Recognition and Measurement* in its entirety. The replacement standard (IFRS 9) is being issued in phases. To date, the chapters dealing with recognition, classification, measurement and derecognition of financial assets and liabilities have been issued. These chapters are effective for annual periods beginning on or after January 1, 2015. Further chapters dealing with impairment methodology and hedge accounting are still being developed. Management has yet to assess the impact that these amendments are likely to have on the financial statements of the Company.

Certain other new standards and interpretations have been issued but are not expected to have a material impact on the Company's financial statements.

3 - PENSION AND OTHER POST-RETIREMENT BENEFIT PLANS

Amended IAS 19 *Employee Benefits*: Amended for annual periods beginning on or after January 1, 2013 with retrospective application, introduces a measure of net interest income (expense) computed on the net pension asset (obligation) that replaces separate measurement of the expected return on plan assets and interest expense on the benefit obligation. The amended standard also requires immediate recognition of past service costs associated with benefit plan changes; eliminating the requirement to recognize over the vesting period.

Upon retrospective application of the amended standard, the Company's net earnings for 2012 were lower than originally reported. The decrease arose primarily because net interest income (expense) was calculated using the discount rate used to value the benefit obligation, which is lower than the expected rate of return on assets previously used to measure interest attributable to plan assets. On a quarterly basis, this also resulted in an income tax benefit and an increase to the net pension liability.

Table of Contents

10

The impact of these changes for the period ended March 31, 2012 is summarized as follows:

	As Reported \$	IAS 19 Adjustment \$	Adjusted \$
Revenue	198,912	-	198,912
Cost of sales	166,000	505	166,505

Earnings per share			
Basic	0.14	(0.01)	0.13
Diluted	0.14	(0.01)	0.13

For the years ended December 31, 2012 and 2011, the impact of adoption is a decrease to earnings before income tax benefit of \$2.3 million and \$1.7 million, respectively and an income tax benefit of \$0.2 million for each of these years. This impact also results in an equivalent net increase to other comprehensive income and deficit. As such, the retrospective application did not result in an impact to the Company's balance sheets as of January 1, 2012 and December 31, 2012.

The Company's interim consolidated cash flows were not significantly impacted.

Severance and other labor related costs	-	(50)	(50)
Idle facility costs	-	596	596
	-	546	546

On February 26, 2013, the Company announced its intention to relocate its Columbia, South Carolina manufacturing facility within the region in order to modernize facility operations and acquire state-of-the-art manufacturing equipment. In connection with this relocation, for the three months ended March 31, 2013, a charge of \$26.0 million was incurred primarily related to the costs included under the captions, impairment of property, plant and equipment, impairment of parts and supplies and environmental costs set forth above.

In 2013, the charges included in the captions equipment relocation, idle facility costs and other costs in the table above are primarily the incremental costs incurred with the ongoing Richmond, Kentucky manufacturing facility closure, consolidation of the shrink film production from Truro, Nova Scotia to Tremonton, Utah, other small restructuring initiatives and the Brantford, Ontario facility closure.

In 2012, the charges incurred are related to the revaluation of certain Brantford, Ontario facility assets under idle facility costs and adjustments for severance and other labor related costs incurred in connection with the Brantford, Ontario facility closure.

The amount of inventories recognized as an expense during the period corresponds to cost of sales.

7- PROPERTY, PLANT AND EQUIPMENT

During the three months ended March 31, 2013 and 2012, acquisitions of property, plant and equipment amounted to approximately \$5.8 million and \$4.7 million, respectively. During the three months ended March 31, 2013 and 2012, the net book value of property, plant and equipment disposals amounted to less than \$0.1 million and approximately \$0.3 million, respectively and the loss on those disposals amounted to less than \$0.1 million and approximately \$0.3 million, respectively.

As of March 31, 2013 and December 31, 2012, the Company had commitments to purchase machines and equipment totaling approximately \$7.9 million and \$5.5 million, respectively.

There were no impairment losses or reversals of impairment losses during the current and comparative reporting periods, other than those discussed in Note 5 and included in the statement of consolidated earnings (loss) under the caption manufacturing facility closures, restructuring and other related charges.

8- INCOME TAXES

Income tax expense (benefit) is recognized in each interim period based on the best estimate of the weighted average annual income tax rate expected for the full financial year. Amounts accrued for income tax expense (benefit) in one interim period may have to be adjusted in a subsequent interim period of the financial year if the estimate of the annual income tax rate changes. The effective tax rate for the three months ended March 31, 2013 and 2012 was approximately negative 2.9% and 5.3%, respectively. The decrease in the effective tax rate is primarily due to tax expense recorded on losses before income taxes in the first quarter of 2013 for stock options exercised and state income taxes combined with the benefit received from the ability to utilize certain US alternative minimum tax net operating losses without limitation.

(1) The Notes, ABL, Real Estate Loan and mortgage loans are presented net of unamortized related debt issue costs, amounting to \$2.6 million (\$3.0 million as of December 31, 2012).

As of March 31, 2013 and December 31, 2012, the effective interest rate on borrowings under the ABL was 2.29% and 2.36%, respectively.

The Company's unused availability under the ABL as of March 31, 2013 and December 31, 2012 was \$63.9 million and \$48.8, respectively.

The ABL has one financial covenant, a fixed charge ratio of greater than or equal to 1.0 to 1.0. The financial covenant becomes effective only when unused availability drops below \$25.0 million. Although not in effect, the Company was in compliance with this fixed charge ratio covenant as of March 31, 2013.

Equipment finance agreement advance fundings, which are amounts funded and borrowed but not yet scheduled, were \$6.7 million as of March 31, 2013. Advance fundings accrue interest at the 30-day LIBOR rate plus 200 basis points resulting in an interest rate of 2.20% as of March 31, 2013.

The Real Estate Loan contains two financial covenants, both of which are determined at the end of each fiscal month. The Company has been in compliance with these covenants since entering into the Real Estate Loan.

The environmental provision pertains to the Columbia, South Carolina manufacturing facility. Refer to Note 5 for more information regarding the relocation of the Columbia, South Carolina manufacturing facility.

In February 2012, Multilayer Stretch Cling Film Holdings, Inc. (Multilayer) filed a complaint against the Company in the U.S. District Court for Western Tennessee, alleging that the Company had infringed a patent issued to Multilayer that covers certain aspects of the manufacture of stretch film. In May 2013, the Company agreed to a settlement of the outstanding litigation. Under the confidential settlement agreement, the Company will pay Multilayer an undisclosed amount in full settlement of all outstanding issues. The terms of the agreement do not restrict the sale of any of the Company's products, as the Company's current products do not utilize Multilayer's patented invention. The Company does not expect that the settlement will have any material effect on the Company's continuing operations. The Company has established a provision with respect to this matter as of and for the three months ended March 31, 2013. The amount is included in the statement of consolidated earnings (loss) under the caption selling, general and administrative expenses and the consolidated balance sheet under the caption provisions within current liabilities.

In addition to the matter described above, the Company is engaged in various legal proceedings and claims that have arisen in the ordinary course of business. The outcome of all of the proceedings and claims against the Company is subject to future resolution, including the uncertainties of litigation. Based on information currently known to the Company and after consultation with outside legal counsel, management believes that the probable ultimate resolution of any such proceedings and claims, individually or in the aggregate, will not have a material adverse effect on the financial condition of the Company, taken as a whole, and accordingly, no additional amounts have been recorded as of March 31, 2013.

During the reporting period, there were no reversals of provisions.
