Table of Contents**Management's Discussion of Funds Performance** (audited)**Market Environment Overview**

The U.S. equity market, as measured by the S&P 500 Index, returned 13.96% for the 12-month period ended March 31, 2013 (the period). After bottoming in March of 2009, the S&P 500 recorded its fourth straight year of gains. Measured from March 31, 2009 through March 31, 2013, the four year cumulative total return on the S&P 500 Index was 114.24%. This represents a substantial recovery in the equity markets as earnings and dividend levels reached and surpassed previous levels. In fact, this was also enough for the S&P 500 Index to surpass its prior October 2007 peak value.

While the overall return for the period was positive, it was marked by several bouts of volatility. One of the major events during the period that created an uncertainty overhang was the U.S. presidential election. Following the re-election of President Barack Obama, there was concern the U.S. government would not be able to solve a series of tax hikes and spending decreases often referred to as the Fiscal Cliff. Many feared that the 2003 Bush tax cuts for dividend taxes and capital gains taxes were expiring on January 1st. However, in the final hours of 2012, a deal came together that excited the market: the 2003 Bush tax cuts with respect to dividends were made permanent for the majority of tax payers. As a result, the first quarter of 2013 had a good tailwind supporting the markets.

WisdomTree Funds Performance Overview

With the resolution of the dividend-tax issue, as well as continued monthly asset purchases from the U.S. Federal Reserve Bank, the path was cleared for the S&P 500 Index to reach its highest levels in history during the first quarter of 2013.

The following table reflects the WisdomTree Funds performance versus their capitalization-weighted benchmark indexes:

| Ticker | WisdomTree Fund | 1-Year NAV Return | Performance Benchmark | 1-Year Return | Difference |
|---------------|--|------------------------------|--|--------------------------|-------------------|
| DTD | WisdomTree Total Dividend Fund | 15.39% | Russell 3000® Index | 14.56% | 0.83% |
| DHS | WisdomTree Equity Income Fund | 18.83% | Russell 1000® Value Index | 18.77% | 0.06% |
| DLN | WisdomTree LargeCap Dividend Fund | 14.69% | S&P 500® Index | 13.96% | 0.73% |
| DTN | WisdomTree Dividend ex-Financials Fund | 18.18% | Dow Jones U.S. Select Dividend Index SM | 17.93% | 0.25% |
| DON | WisdomTree MidCap Dividend Fund | 19.96% | S&P MidCap 400® Index | 17.83% | 2.13% |
| DES | WisdomTree SmallCap Dividend Fund | 21.06% | Russell 2000® Index | 16.30% | 4.76% |

Interestingly, the top-performing performance benchmark within the aforementioned chart was the Russell 1000 Value Index, indicating that value stocks – specifically large cap value stocks – delivered strong performance. All of the performance benchmarks delivered double-digit returns; the S&P 500 Index was actually the lowest with a return of 13.96%.

WisdomTree's dividend-weighted Funds are designed to track indexes based on the dividend stream generated by the companies included in the underlying WisdomTree Index. The dividend stream is defined as the sum of the dollar value of dividends indicated to be paid by each company. There are two primary factors that drove performance differentials of the WisdomTree Funds and Indexes versus their performance benchmarks. The first is aggregate exposure to one or more sectors. The second is stock selection within each sector. Both of these are determined as part of WisdomTree's rules-based index methodology. These exposures are not subjectively determined. Rather, they are objectively determined at the Index rebalancing dates based on the dividend stream.

Nine of ten sectors represented within the S&P 500 Index experienced positive performance over the period. The best-performing sector over the period was the

Table of Contents

Management's Discussion of Funds Performance (unaudited) (concluded)

Telecommunication Services sector, with Health Care and Consumer Staples close behind. Each of these sectors delivered a return greater than 20% over the period. The single negatively performing sector over the period was Information Technology. Similar to how Apple drove strong performance for this sector from March 31, 2011 to March 31, 2012, the significant weight to this company, combined with negative performance from March 31, 2012 to March 31, 2013, drove this ultimate result. Materials was also a relative laggard, the only positively performing sector to deliver a single-digit return over the period. With little question, the strongest performance came from the more defensively oriented sectors.

The performance of each WisdomTree Fund compared to its performance benchmark was favorable over the period. This ultimately makes sense, in that WisdomTree's dividend-focused approaches have tended to historically tilt toward dividend-paying firms, and there have historically been larger numbers of these firms within the defensively oriented sectors like Telecommunication Services, Health Care, and Consumer Staples.

The strongest relative performance advantage measured versus the requisite performance benchmarks came with respect to the WisdomTree MidCap Dividend Fund (DON) and the WisdomTree SmallCap Dividend Fund (DES). These were the only WisdomTree Domestic Dividend Funds to generate performances of greater than 1% in excess of their performance benchmarks. For DON, this was largely due to being underweight the Information Technology sector relative to the S&P MidCap 400 Index over the period. For DES, this was largely due to being overweight the Financials sector relative to the Russell 2000 Index over the period.

Fund returns are shown at NAV. Please see Performance Summaries on the subsequent pages for more complete performance information. Please see page 9 for the list of index descriptions.

Fund performance assumes reinvestment of dividends and capital gain distributions. An index is a statistical measure of a specified financial market or sector. An index does not actually hold a portfolio of securities, incur expenses or pay any transaction costs. Therefore, index returns do not reflect deductions for fees or expenses and are not available for direct investment. In comparison, the Funds' performance is negatively impacted by these deductions. Fund returns do not reflect brokerage commissions or taxes on transactions in Fund shares or that a shareholder would pay on Fund distributions. Past performance is no guarantee of future results. The WisdomTree Total Dividend Fund (the Fund) seeks to track the price and yield performance, before fees and expenses, of the WisdomTree Dividend Index.

The Fund returned 15.39% at net asset value (NAV) for the fiscal year ending March 31, 2013 (for more complete performance information please see the chart below). The Fund's performance benefited most from its position in the Consumer Staples sector. The Fund's position in the Information Technology sector created the greatest drag on performance.

The following performance chart is provided for comparative purposes and represents the period noted. The Fund's per share NAV is the value of one share of the Fund and is calculated by dividing the value of total assets less total liabilities by the number of shares outstanding. The NAV return is based on the NAV of the Fund and the market price return is based on the market price per share of the Fund. The price used to calculate market price returns is the mid-point of the highest bid and lowest offer for Fund shares as of the close of trading on the exchange

² Total returns are calculated based on the commencement of Fund trading on the NYSE Arca, Inc. on June 16, 2006.

Performance is historical and does not guarantee future results. Current performance may be lower or higher than quoted. Investment returns and the principal value of an investment will fluctuate so that an investor's shares, when redeemed, may be worth more or less than their original cost. Performance data for the most recent month-end is available at www.wisdomtree.com. WisdomTree shares are bought and sold at market price (not NAV) and are not individually redeemed from the Fund. Fund NAV returns are calculated using the Fund's daily 4:00 p.m. NAV. Market price returns reflect the midpoint of the bid/ask spread as of the close of trading on the exchange where Fund shares are listed. Market price returns do not represent the returns you would receive if you traded shares at other times. The returns do not reflect the deduction of taxes that a shareholder would pay on Fund distributions or on the redemption of Fund shares. Total returns for a period of less than one year are cumulative.

The WisdomTree MidCap Dividend Fund (the Fund) seeks to track the price and yield performance, before fees and expenses, of the WisdomTree MidCap Dividend Index.

The Fund returned 19.96% at net asset value (NAV) for the fiscal year ending March 31, 2013 (for more complete performance information please see the chart below). The Fund's performance benefited most from its position in the Financials sector. The Fund's position in the Telecommunication Services sector created the greatest drag on performance.

The following performance chart is provided for comparative purposes and represents the period noted. The Fund's per share NAV is the value of one share of the Fund and is calculated by dividing the value of total assets less total liabilities by the number of shares outstanding. The NAV return is based on the NAV of the Fund and the market price return is based on the market price per share of the Fund. The price used to calculate market price returns is the mid-point of the highest bid and lowest offer for Fund shares as of the close of trading on the exchange

where Fund shares are listed. NAV and market price returns assume that dividends and capital gain distributions have been reinvested in the Fund at NAV and market price, respectively. As with other ETFs, NAV returns and market price returns may differ because of factors such as the supply and demand for Fund shares and investors' assessments of the underlying value of a Fund's portfolio securities.

An index is a statistical measure of a specified financial market or sector. An index does not actually hold a portfolio of securities, incur expenses or pay any transaction costs. Therefore, index returns do not reflect deductions for fees or expenses and the index is not available for direct investment. In comparison, the Fund's performance is negatively impacted by these deductions. Fund returns do not reflect brokerage commissions or taxes on transactions in Fund shares or that a shareholder would pay on Fund distributions. **As of the Fund's current prospectus dated July 30, 2012, as last revised March 25, 2013, the Fund's annual expense ratio was 0.38%.**

Shareholder Expense Examples (unaudited)

As a shareholder of a WisdomTree Fund, you incur two types of costs: (1) transaction costs, including brokerage commissions on purchases and sales of your Fund shares and (2) ongoing costs, including management fees and other Fund expenses. The following example is intended to help you understand your ongoing costs (in dollars and cents) of investing in a Fund and to compare these costs with the ongoing costs of investing in other funds.

The example is based on an investment of \$1,000 invested at the beginning of the period and held for the entire period from October 1, 2012 to March 31, 2013.

Actual expenses

The first line under each Fund in the table on the next page provides information about actual account values and actual expenses. You may use the information in this line, together with the amount you invested, to estimate the expenses that you paid over the period. Simply divide your account value by \$1,000 (for example, an \$8,600 account value divided by \$1,000 = 8.6), then multiply the result by the number in the first line for your Fund under the heading entitled **Expenses Paid During the Period 10/01/12 to 3/31/13** to estimate the expenses you paid on your account during this period.

Hypothetical example for comparison purposes

The second line under each Fund in the table on the next page provides information about hypothetical account values and hypothetical expenses based on each Fund's actual expense ratio and an assumed rate of return of 5% per year before expenses, which is not the Fund's actual return. The hypothetical account values and expenses may not be used to estimate the actual ending account balance or expenses you paid for the period. You may use this information to compare the ongoing costs of investing in your Fund and other funds. To do so, compare this 5% hypothetical example with the 5% hypothetical examples that appear in the shareholder reports of the other funds.

Please note that the expenses shown in the table are meant to highlight your ongoing costs only and do not reflect any transactional costs, such as brokerage commissions paid on purchases and sales of Fund shares. Therefore, the second line under each Fund in the table is useful in comparing ongoing Fund costs only and will not help you determine the relative total costs of owning different funds. In addition, if these transactional costs were included, your costs would have been higher.

- ² Total return is calculated assuming an initial investment made at the net asset value at the beginning of the period, reinvestment of all dividends and distributions at net asset value during the period and redemption on the last day of the period. Total return calculated for a period of less than one year is not annualized. The total return would have been lower if certain expenses had not been reimbursed/waived by the investment adviser (Notes 2 and 3).
- ³ The ratios to average net assets do not include net investment income (loss) or expenses of other Funds in which the Fund invests.
- ⁴ Portfolio turnover rate is not annualized and excludes the value of portfolio securities received or delivered as a result of in-kind creations or redemptions of the Fund's capital shares.

2. SIGNIFICANT ACCOUNTING POLICIES

The Financial Accounting Standards Board (FASB) Accounting Standards Codification (the Codification) is the exclusive reference of authoritative U.S. generally accepted accounting principles (GAAP) recognized by the FASB to be applied by nongovernmental entities. Rules and interpretive releases of the Securities and Exchange Commission (SEC) under authority of federal laws are also sources of authoritative GAAP for SEC registrants.

The following is a summary of significant accounting policies followed by the Funds:

Guarantees In the normal course of business the Funds may enter into contracts that contain a variety of representations or that provide indemnification for certain liabilities. The Funds' maximum exposure under these arrangements is unknown, as this would involve future claims that may be made against the Funds that have not yet occurred. However, the Funds have not had prior claims or losses pursuant to these contracts and expect the risk of loss to be remote. Therefore, no liabilities have been recorded in connection with these indemnifications.

Use of Estimates The preparation of financial statements in conformity with GAAP requires management to make certain estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of increases and decreases in the net assets from operations during the reporting period. Actual results could differ from those estimates.

Investment Valuation The net asset value (NAV) of each Fund's shares is calculated each day the national securities exchanges are open for trading as of the close of regular trading on the New York Stock Exchange, generally 4:00 p.m. New York time. NAV per share is calculated by dividing a Fund's net assets by the number of Fund shares outstanding. Transactions in Fund shares will be priced at NAV only if you purchase or redeem shares directly from a Fund in creation units, which are typically in blocks of 50,000 shares or more. Fund shares are purchased or sold on a national securities exchange at market prices, which may be higher or lower than NAV. In calculating each Fund's NAV, investments are valued under policies approved by the Board of Trustees.

Securities traded on any recognized U.S. or non-U.S. exchange are valued at the last sale price or official closing price on the exchange or system on which they are principally traded. Events occurring after the close of trading on non-U.S. exchanges may result in adjustments to the valuation of foreign securities to more accurately reflect their fair value as of the close of regular trading on the New York Stock Exchange. The Funds may rely on an independent fair valuation service in adjusting the valuations of foreign securities. Unlisted equity securities are valued at the last quoted sale price or, if no sale price is available, at the mean between the highest bid and lowest ask prices. Securities for which market

Edgar Filing: WisdomTree Trust - Form N-CSR

quotations are not readily available are valued at fair value as determined by management and in accordance with procedures approved by the Board of Trustees. Short-term securities with 60 days or less remaining to maturity are valued using the amortized cost method, which approximates fair value.

In certain instances, such as when reliable market valuations are not readily available or are not deemed to reflect current market values, a Fund's investments will be valued in accordance with the Fund's pricing policy and procedures. Securities that may be valued using fair value pricing may include, but are not limited to, securities for which there are no current market quotations, securities whose issuer is in default or bankruptcy, securities subject to corporate actions (such as mergers or reorganizations),

Table of Contents**Notes to Financial Statements** (continued)

securities subject to non-U.S. investment limits or currency controls, and securities affected by significant events. An example of a significant event is an event occurring after the close of the market in which a security trades but before a Fund's next NAV calculation time that may materially affect the value of a Fund's investment (e.g., government action, natural disaster, or significant market fluctuation). Price movements in U.S. markets that are deemed to affect the value of foreign securities, or reflect changes to the value of such securities, also may cause securities to be fair valued. When fair value pricing is employed, the prices of securities used by a Fund to calculate its NAV may differ from quoted or published prices for the same securities. Each Fund may invest in money market funds which are valued at their NAV per share and affiliated ETFs which are valued at their last sale or official closing price on the exchange on which they are principally traded.

Fair Value Measurement In accordance with Codification Topic 820 (ASC 820), Fair Value Measurements and Disclosures, fair value is defined as the price that each Fund would receive upon selling an investment in an orderly transaction to an independent buyer in the principal or most advantageous market of the investment. ASC 820 established a three-tier hierarchy to maximize the use of observable market data and minimize the use of unobservable inputs and to establish classification of fair value measurements for disclosure purposes. Inputs refer broadly to the assumptions that market participants would use in pricing the asset or liability, including assumptions about risk—for example, the risk inherent in a particular valuation technique used to measure fair value (such as a pricing model) and/or the risk inherent in the inputs to the valuation technique. Inputs may be observable or unobservable. Observable inputs reflect the assumptions market participants would use in pricing the asset or liability. Observable inputs are based on market data obtained from sources independent of the reporting entity. Unobservable inputs reflect the reporting entity's own assumptions about the assumptions market participants would use in pricing the asset or liability. Unobservable inputs are based on the best information available in the circumstances. The three-tier hierarchy of inputs is summarized in the three broad levels listed below:

Level 1 quoted prices in active markets for identical securities

Level 2 other significant observable inputs (including quoted prices for similar securities, interest rates, prepayment speeds, credit risk, etc.)

Level 3 significant unobservable inputs (including each Fund's assumptions in determining the fair value of investments)

The inputs or methodology used for valuation are not necessarily an indication of the risk associated with investing in those investments.

Investments that use Level 2 or Level 3 inputs may include, but are not limited to: (i) an unlisted security related to corporate actions; (ii) a restricted security (e.g., one that may not be publicly sold without registration under the Securities Act of 1933, as amended); (iii) a security whose trading has been suspended or which has been de-listed from its primary trading exchange; (iv) a security that is thinly traded; (v) a security in default or bankruptcy proceedings for which there is no current market quotation; (vi) a security affected by currency controls or restrictions; and (vii) a security affected by a significant event (e.g., an event that occurs after the close of the markets on which the security is traded but before the time as of which a Fund's NAV is computed and that may materially affect the value of the Fund's investments).

The valuation techniques and significant inputs used in determining the fair market value measurements for Level 2 and Level 3 positions are as follows:

Financial instruments are valued by pricing service providers that use broker dealer quotations, reported trades or valuation estimates from their internal pricing models. Depending on the type of financial instrument, the service providers' internal models use inputs that are observable such as issuer details, interest rates, yield curves, prepayment speeds, credit risks/spreads, default rates and quoted prices for similar assets. Securities that use similar valuation techniques and inputs as described above are categorized as Level 2 of the fair value hierarchy. Short-term investments having a maturity of 60 days or less are generally valued at amortized cost which approximates fair market value. These investments are categorized as Level 2 of the fair value hierarchy. Over-the-counter financial derivative instruments, such as forward foreign currency contracts derive their value from underlying asset prices, indices, reference rates, and other inputs or a combination of these factors. These contracts are normally valued on the basis of broker dealer quotations or pricing service providers. Depending on the product and the terms of the transaction, the value of the financial derivative contracts can be estimated by a pricing service provider using a series of techniques, including simulation pricing models. The pricing models use inputs that are observed from actively quoted markets such as issuer details, indices, spreads, interest rates, curves, dividends and exchange rates. Financial derivatives that use similar valuation techniques and inputs as described above are categorized as Level 2 of the fair value hierarchy.

WTAM, the investment adviser to each Fund and the Trust, has established a fair valuation committee (the Valuation Committee) which is comprised of senior representatives of WTAM and which reports to the Board of Trustees on a quarterly basis. In the event that a financial instrument cannot be valued based upon a price from a national securities exchange, pricing service provider or broker quotation, or such prices are deemed to not reflect current market value, WTAM may value the financial instrument in good faith under the policies and procedures approved by the Board of Trustees based on current facts and circumstances. Determination

of this value may include significant unobservable inputs and therefore would be reflected as a Level 3 of the fair value hierarchy. The Valuation Committee may employ a market-based valuation approach which may use related or comparable securities, recent transactions, market multiples, book values, and other relevant information to determine fair value. The Valuation Committee may also use an income-based valuation approach in which anticipated future cash flows of the financial instrument are discounted to calculate fair value. The Valuation Committee meets at least on a monthly basis to review and discuss the appropriateness of such fair values using more current information such as, recent security news, recent market transactions, updated corporate action information and/or other macro or security specific events. Also, when observable inputs become available, the Valuation Committee conducts back testing of Level 3 financial instruments to substantiate the unobservable inputs used to value those investments. Such back testing includes comparing Level 3 investment values to observable inputs such as exchange-traded prices, transaction prices, and/or vendor prices.

The following is a summary of the fair valuations according to the inputs used as of March 31, 2013 in valuing each Fund's assets:

Notes to Financial Statements (continued)

There were no Level 3 securities during the fiscal year ended March 31, 2013.

No transfers between Level 1 or Level 2 fair value measurements occurred during the fiscal year ended March 31, 2013.

Derivatives and Hedging Disclosure Codification Topic 815 (ASC 815), Derivatives and Hedging, requires qualitative disclosures about objectives and strategies for using derivatives, quantitative disclosures about fair value amounts of gains and losses on derivative instruments, and disclosures about credit-risk-related contingent features in derivative agreements. The Funds did not invest in derivative instruments during the fiscal year ended March 31, 2013.

Investment Transactions and Investment Income Investment transactions are recorded as of the date that the securities are purchased or sold (trade date). Realized gains and losses on sales of portfolio securities are calculated using the identified-cost method. Dividend income is recognized on the ex-dividend date. Interest income is accrued daily. The value of additional securities received as dividend payments is recorded as income and as an increase to the cost basis of such securities.

Expenses Under the investment advisory agreement for each Fund, WTAM has agreed to pay all expenses of each Fund, except for: (i) brokerage expenses and other expenses (such as stamp taxes) connected with the execution of portfolio transactions or in connection with creation and redemption transactions; (ii) legal fees or expenses in connection with any arbitration, litigation or pending or threatened arbitration or litigation, including any settlements in connection therewith; (iii) compensation and expenses of Trustees who are not interested persons of the Funds (Independent Trustees); (iv) compensation and expenses of counsel to the Independent Trustees; (v) compensation and expenses of the Trust's Chief Compliance Officer (CCO); (vi) extraordinary expenses; (vii) distribution fees and expenses paid by the Trust under any distribution plan adopted pursuant to Rule 12b-1 under the 1940 Act; and (viii) the advisory fee payable to WTAM.

Pursuant to a separate contractual arrangement, WTAM arranges for the provision of CCO services with respect to each Fund, and is liable and responsible for, and administers, payments to the CCO, the Independent Trustees and counsel to the Independent trustees. WTAM receives a fee, as shown on the Statements of Operations under Service fees , of up to 0.0044% of each Fund's average daily net assets for providing such services and paying such expenses. WTAM provides CCO services to the Trust.

Securities Lending Each Fund may lend portfolio securities to certain creditworthy borrowers, including the Funds' securities lending agent. It is the Funds' policy that, at origination, all loans are secured by collateral of at least 102% of the value of U.S. securities loaned and 105% of the value of foreign securities loaned. Collateral in the form of cash and/or high grade debt obligations, equivalent to at least 100% of the market value of securities, is maintained at all times. The cash collateral can be invested in certain money market mutual funds which also have exposure to the fluctuations of the market. The value of the investment of cash collateral for securities on loan along with the obligation to return such collateral are included on the Statements of Assets and Liabilities. Each Fund receives compensation for lending its securities from interest or dividends earned on the cash or U.S. government securities held as collateral, net of fee rebates paid to the borrower plus reasonable administrative and custody fees. The securities lending income earned by the Funds is disclosed on the Statements of Operations. The dividend and interest income earned on the securities loaned is accounted for in the same manner as other dividend and interest income. The borrower pays to the Funds an amount equal to any dividends or interest received on loaned securities. The Funds retain all or a portion of the interest received on investment of cash collateral or receive a fee from the borrower. Lending portfolio securities could result in a loss or delay in recovering each Fund's securities if the borrower defaults.

Short-Term Investments Each Fund may invest a portion of its assets in high-quality money market instruments on an ongoing basis to provide liquidity or for other reasons. The instruments include short-term obligations issued by the U.S. Government, its agencies, non-U.S. Government agencies, negotiable certificates of deposit (CDs), fixed time deposits and bankers' acceptances of U.S. and foreign banks and similar institutions, commercial papers, repurchase agreements and money market funds. CDs are short-term negotiable obligations of commercial banks. Time deposits are non-negotiable deposits maintained in banking institutions for specified periods of time at stated interest rates. Bankers' acceptances are time drafts drawn on commercial banks by borrowers, usually in connection with international transactions.

Tax Information and Dividends and Distributions to Shareholders It is each Fund's policy to comply with all requirements of the Internal Revenue Code of 1986, as amended (the Code). Each Fund intends to qualify for and to elect treatment as a separate Regulated Investment Company (RIC) under Subchapter M of the Code. It is the policy of each Fund to pay out dividends, if any, to investors at least annually. There can be no guarantee that a Fund will pay dividends. Taxable net realized gains from investment transactions, reduced by capital loss carryforwards, if any, are declared and distributed to shareholders at least annually. The capital loss carryforward amount, if any, is available to

Edgar Filing: WisdomTree Trust - Form N-CSR

offset future net capital gains. The Funds may occasionally be required to make supplemental distributions at some other time during the year. The Trust reserves the right to declare special distributions if, in its reasonable discretion, such action is necessary or advisable to preserve the status of each Fund as a RIC or to avoid imposition of income or excise taxes on undistributed income. Dividends and distributions to shareholders are recorded on the ex-dividend date. The amount of dividends and distributions from net investment income and net realized capital gains are determined in accordance with U.S. Federal income tax regulations which may differ from GAAP. These book/tax differences are either considered

Table of Contents**Notes to Financial Statements** (continued)

temporary or permanent in nature. To the extent these differences are permanent in nature, such amounts are reclassified within the components of net assets based on their U.S. Federal tax basis treatment; temporary differences do not require reclassification. Dividends and distributions, which exceed earnings and profit for tax purposes, are reported as a tax return of capital to the extent of a shareholder's tax basis and thereafter as a capital gain.

3. ADVISORY FEES AND TRANSACTIONS

WTAM has overall responsibility for the general management and administration of the Trust. WTAM provides an investment program for each Fund. WTAM has arranged for Mellon Capital Management Corporation (MCM) to provide sub-advisory services to the Funds. MCM is compensated by WTAM at no additional cost to the Funds. WTAM also arranges for transfer agency, custody, fund administration, securities lending and all other non-distribution related services necessary for the Funds to operate. Under the investment advisory agreement for each Fund, WTAM agrees to pay all expenses of the Funds, except for certain expenses described in Note 2.

Pursuant to a separate contractual arrangement, also described in Note 2, WTAM arranges for the provision of CCO services with respect to each Fund and is liable and responsible for, and administers, payments to the CCO, the Independent Trustees and counsel to the Independent Trustees in exchange for a fee of up to 0.0044% of each Fund's average daily net assets. WTAM expects to receive advisory fees from each Fund, based on a percentage of the Fund's average daily net assets, as shown in the following table.

| Fund | Advisory Fee Rate |
|-----------------------------|--------------------------|
| Total Dividend Fund | 0.28% |
| Equity Income Fund | 0.38% |
| LargeCap Dividend Fund | 0.28% |
| Dividend ex-Financials Fund | 0.38% |
| MidCap Dividend Fund | 0.38% |
| SmallCap Dividend Fund | 0.38% |

Each Fund may purchase shares of affiliated exchange traded funds in secondary market transactions. For the fiscal year ended March 31, 2013, WTAM waived its advisory fees for each of the Fund's investments in affiliated Funds net of any incremental costs as a result of these transactions (fund accounting, safekeeping, transaction fees, etc.) that are paid by WTAM out of the advisory fee received from the affiliated Funds. The table below indicates the waiver amounts. Please see Note 7 for additional information on Other Affiliated Parties and Transactions.

| Fund | Advisory Fees Waived |
|-----------------------------|-----------------------------|
| Total Dividend Fund | \$ 345 |
| Equity Income Fund | 1,844 |
| LargeCap Dividend Fund | 3,262 |
| Dividend ex-Financials Fund | 1,588 |
| MidCap Dividend Fund | 1,080 |
| SmallCap Dividend Fund | 2,171 |

4. CAPITAL SHARE TRANSACTIONS

As of March 31, 2013, there were an unlimited number of \$0.001 par value shares of beneficial interest authorized by the Trust. Shares are issued and redeemed by each Fund only in creation units or multiples thereof. Except when aggregated in creation units, shares of each Fund are not redeemable. Transactions in shares for each Fund are disclosed in detail in the Statements of Changes in Net Assets. The consideration for the purchase of creation units of a Fund generally consists of the in-kind contribution of a designated portfolio of equity securities constituting a portfolio sampling representation of the securities included in the relevant Fund's underlying Index and an amount of cash. Investors purchasing and redeeming creation units may be charged a purchase transaction fee and a redemption transaction fee to offset transfer and other transaction costs associated with the issuance and redemption of creation units.

* Under the recently enacted Regulated Investment Company Modernization Act of 2010, a Fund is permitted to carry forward any new capital losses for an unlimited period. Additionally, such capital losses that are carried forward will retain their character as either short-term or long-term capital losses rather than being considered all short-term as under previous law. The character of these losses is noted above.

Capital losses incurred after October 31 (post-October capital losses) and within the taxable year are deemed to arise on the first business day of each Funds' s next taxable year.

During the fiscal year ended March 31, 2013, the following Funds incurred and will elect to defer post-October capital losses as follows:

| Fund | Short-Term Post-October Capital Losses | Long-Term Post-October Capital Losses |

At March 31, 2013, the effect of permanent book/tax reclassifications resulted in increases (decreases) to the components of net assets as follows:

| Fund | Undistributed Net Investment Income/(Loss) | Accumulated Net Realized Gain (Loss) | Paid -in Capital |
|-----------------------------|---|---|-------------------------|
| Total Dividend Fund | \$ 63,816 | \$ (9,291,003) | \$ 9,227,187 |
| Equity Income Fund | 347,611 | (22,878,342) | 22,530,731 |
| LargeCap Dividend Fund | 56,196 | (96,133,167) | 96,076,971 |
| Dividend ex-Financials Fund | 938,361 | (129,411,586) | 128,473,225 |
| MidCap Dividend Fund | 2,091 | (18,876,872) | 18,874,781 |
| SmallCap Dividend Fund | 514,460 | (27,397,777) | 26,883,317 |

These differences are primarily due to redemptions-in-kind, taxable overdistributions and non-dividend distributions from underlying investments.

GAAP provides guidance on tax provisions that prescribe a minimum threshold for financial statement recognition of the benefit of a tax position taken or expected to be taken in a tax return. Foreign taxes are provided for based on each Fund's understanding of the tax rules and rates that exist in the foreign markets in which it invests. Taxes are accrued and applied to net investment income, net realized capital gains and net unrealized appreciation, as applicable, as the income is earned or capital gains are recorded. As of and during the fiscal year ended March 31, 2013, the Funds did not have any liabilities for unrecognized tax benefits. If applicable, the Funds will recognize interest accrued related to unrecognized tax benefits in interest expense and penalties in Other expenses on the Statements of Operations. The Funds file tax returns with the Internal Revenue Service, the State of New York, and various other states. Generally, each of the tax years in the four-year period ended March 31, 2013, remains subject to examination by taxing authorities.

8. NEW ACCOUNTING PRONOUNCEMENTS

In December 2011, FASB issued Accounting Standards Update No. 2011-11 Disclosures about Offsetting Assets and Liabilities (ASU 2011-11). These disclosures are intended to help investors and other financial statement users to better assess the effect or potential effect of offsetting arrangements on a company's financial position. They also improve transparency in the reporting of how companies mitigate credit risk, including disclosure of related collateral pledged or received. In addition, ASU 2011-11 facilitates comparisons between those entities that prepare their financial statements on the basis of US GAAP and those entities that prepare their financial statements on the basis of international financial reporting standards. ASU 2011-11 requires entities to disclose (i) gross and net information about both instruments and transactions eligible for offset in the financial statements and (ii) instruments and transactions subject to an agreement similar to a master netting agreement. ASU 2011-11 is effective for fiscal years beginning on or after January 1, 2013, and interim periods within those annual periods.

On January 31, 2013, FASB issued Accounting Standards Update No. 2013-01 Clarifying the Scope of Disclosures about Offsetting Assets and Liabilities (ASU 2013-01). ASU 2013-01 limits the scope of the new balance sheet offsetting disclosures to the following financial instruments, to the extent they are offset in the financial statements or subject to an enforceable master netting arrangement or similar agreement: (i) recognized derivative instruments accounted for under ASC 815 (Derivatives and Hedging); (ii) repurchase agreements and reverse repurchase agreements; and (iii) securities borrowing and securities lending transactions. The disclosures are required irrespective of whether the transactions are offset in the statement of assets and liabilities. The effective date and transition of the disclosure requirements in ASU 2011-11 remain unchanged.

At this time, management is evaluating the implications of ASU 2011-11 and ASU 2013-01 and their impact on the Trust's financial statements.

9. LEGAL MATTER

On December 1, 2011, Research Affiliates, LLC (Research Affiliates) filed a complaint in the United States District Court for the Central District of California, naming the Trust, WTAM, and its parent company, WisdomTree Investments, along with other parties, as defendants. The complaint alleged that the fundamentally weighted investment methodology developed by WisdomTree Investments and employed by the Trust infringes three of plaintiff's patents. The complaint sought both unspecified monetary damages to be determined and an injunction to prevent further infringement.

Notes to Financial Statements (concluded)

On November 7, 2012, Research Affiliates agreed to withdraw its suit and defendants agreed to withdraw their counterclaims and entered into a settlement agreement. Under the settlement, all parties exchanged releases for all existing claims. The other material terms of the settlement are as follows:

Research Affiliates agreed not to sue the Trust, WTAM and WisdomTree Investments (the WisdomTree Parties) for any future claims arising under any current patents held by Research Affiliates, as well as any future patents relating to fundamentally-weighted indexes and strategies that may issue under existing or future patent applications that may be filed by Research Affiliates within the next eight years, subject to reduction by up to three years if Research Affiliates is acquired. The covenant not to sue extends to service providers and customers of the WisdomTree Parties in connection with their products and services.

The WisdomTree Parties agreed not to sue Research Affiliates for any future claims arising under any current patents held by the WisdomTree Parties, as well as any future patents relating to fundamentally-weighted indexes and strategies that may issue under existing or future patent applications that may be filed by the WisdomTree Parties within the next eight years, subject to reduction by up to three years if any of the WisdomTree Parties are acquired. The covenant not to sue extends to service providers and customers of Research Affiliates in connection with Research Affiliates' products and services.

Research Affiliates and the WisdomTree Parties agreed that the covenants not to sue do not include a right under each party's patents to copy the other party's methodologies. They have further agreed that it is not copying if Research Affiliates introduces an index or strategy that uses at least three fundamental factors to weight its indexes and they are not predominantly dividend- or earnings-weighted, or any of the WisdomTree Parties introduces an index or strategy that is weighted by less than three fundamental factors.

The parties also agreed not to challenge the other party's patents or patent applications.

Research Affiliates agreed to a one-time payment of \$0.7 million to WisdomTree Investments. The WisdomTree Parties and the other defendants were not required to make any current or future payments to Research Affiliates.

All other terms of the settlement are confidential and the settlement will not affect the current methodologies and fees for any of the Trust's Funds.

WTAM and WisdomTree Investments had previously contractually agreed to indemnify the Trust and pay any losses, claims and damages (including legal fees) incurred by the Trust or a Fund in connection with the complaint so the Trust incurred no out-of-pocket expense in connection with this lawsuit.

Report of Independent Registered Public Accounting Firm

The Board of Trustees and Shareholders of WisdomTree Trust:

We have audited the accompanying statements of assets and liabilities, including the schedules of investments, of WisdomTree Total Dividend Fund, WisdomTree Equity Income Fund, WisdomTree LargeCap Dividend Fund, WisdomTree Dividend ex-Financials Fund, WisdomTree MidCap Dividend Fund and WisdomTree SmallCap Dividend Fund (six of the investment funds constituting the WisdomTree Trust (the "Trust")) as of March 31, 2013, and the related statements of operations for the year then ended, the statements of changes in net assets for each of the two years in the period then ended, and the financial highlights for each of the five years in the period then ended. These financial statements and financial highlights are the responsibility of the Trust's management. Our responsibility is to express an opinion on these financial statements and financial highlights based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements and financial highlights are free of material misstatement. We were not engaged to perform an audit of the Trust's internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Trust's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements and financial highlights, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. Our procedures included confirmation of securities owned as of March 31, 2013, by correspondence with the custodian and brokers or by other appropriate auditing procedures where replies from brokers were not received. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements and financial highlights referred to above present fairly, in all material respects, the financial position of WisdomTree Total Dividend Fund, WisdomTree Equity Income Fund, WisdomTree LargeCap Dividend Fund, WisdomTree Dividend ex-Financials Fund, WisdomTree MidCap Dividend Fund and WisdomTree SmallCap Dividend Fund of WisdomTree Trust at March 31, 2013, the results of their operations for the year then ended, the changes in their net assets for each of the two years in the period then ended, and the financial highlights for each of the five years in the period then ended, in conformity with U.S. generally accepted accounting principles.

Approval of Investment Advisory and Sub-Advisory Agreement (unaudited)

Approval of the Investment Advisory Agreement between the Trust and WTAM. The Trust and WTAM have entered into an investment advisory agreement, dated November 20, 2012, covering each of the Funds (the "Investment Advisory Agreement"). At a meeting held on March 1, 2012, the Board of Trustees approved the Investment Advisory Agreement to go into effect in the event of a change in control of WTAM with respect to each of the Funds. Subsequently, the Investment Advisory Agreement was approved by shareholders at a special meeting held on June 29, 2012 and reconvened on August 8, 2012. A change in control of WTAM took place on November 20, 2012, and the Investment Advisory Agreement became effective on that same date. The Investment Advisory Agreement approved by the Board of Trustees has fees, services and terms that are identical to the fees, services and terms of the investment advisory agreement between the Trust and WTAM that was in effect immediately prior to the change in control.

In approving the Investment Advisory Agreement, the Board of Trustees reviewed and analyzed the factors it deemed relevant, including: (i) the nature, quality, and extent of the services to be provided by WTAM to the Funds; (ii) Fund expenses and the investment performance of the Funds and WTAM; (iii) the costs of services to be provided and the profits to be realized by WTAM from its relationships with the Funds; (iv) the extent to which economies of scale would be realized as the Funds grow; and (v) whether the fee levels reflect these economies of scale for the benefit of investors.

The Board of Trustees also considered the nature and quality of the services to be provided by WTAM to the Funds, recognizing WTAM's operational capabilities and resources. The Board of Trustees also noted the extensive responsibilities that WTAM has as investment adviser to the Funds, including the selection of the Funds' Sub-Advisers, oversight of the Sub-Advisers' compliance with Fund policies and objectives, oversight of general Fund compliance with federal and state laws, and the implementation of Board directives as they relate to the Funds.

The Board of Trustees gave substantial consideration to the fees payable to WTAM. The Board of Trustees examined the fees to be paid by each Fund in light of fees paid to other investment managers by comparable funds and the method of computing each Fund's fee. After comparing the fees with those of comparable funds and in light of the quality and extent of services to be provided and the costs anticipated to be incurred by WTAM, the Board of Trustees concluded that the level of the fees paid to WTAM with respect to each Fund is fair and reasonable. The Board of Trustees evaluated WTAM's costs and profitability in serving as investment adviser to the existing Funds, including the costs associated with the personnel, systems and equipment necessary to manage the Funds and the costs associated with compensating the Sub-Advisers.

Approval of the Sub-Advisory Agreement between WTAM and MCM. At the March 1, 2012 Board Meeting, the Board of Trustees also approved a new sub-advisory agreement between WTAM and MCM to go into effect in the event of a change in control of WTAM, using many of the same considerations it used in connection with the approval of the Investment Advisory Agreement, as well as consideration of potential "fall-out" benefits to MCM and its affiliates (i.e., ancillary benefits that may be realized by MCM and its affiliates from MCM's relations with the Funds, such as other service contracts). The sub-advisory agreement approved on March 1, 2012 had fees, services and terms that were identical to the fees, services and terms of the sub-advisory agreement between WTAM and MCM that was in effect on the date of the March 1, 2012 meeting, with the Board noting that WTAM, not the Funds, pays the fees to MCM under the sub-advisory agreement for each Fund. Subsequently, the new sub-advisory agreement was approved by shareholders at a special meeting held on June 29, 2012 and reconvened on August 8, 2012. At the same special meeting and adjournment, the shareholders approved manager of managers relief for each of the Funds, which permits WTAM and the Funds to retain sub-advisers and amend sub-advisory contracts without shareholder approval, subject to certain conditions. As noted above, a change in control of WTAM took place on November 20, 2012, and the new sub-advisory agreement approved by the Board of Trustees on March 1, 2012 became effective on November 20, 2012.

Based on these considerations and the overall high quality of the personnel, operations, financial condition, investment advisory capabilities, methodologies, and performance of WTAM and MCM, the Board of Trustees determined that the approval of the Investment Advisory Agreement and the sub-advisory agreements, as applicable, was in the best interests of each Fund. After full consideration of these and other factors, the Board of Trustees, including a majority of the Independent Trustees, with the assistance of independent counsel, approved the Investment Advisory Agreement and sub-advisory agreements, as applicable, for each Fund.

Market Environment Overview

The U.S. equity market, as measured by the S&P 500 Index, returned 13.96% for the 12-month period ended March 31, 2013 (the period). After bottoming in March of 2009, the S&P 500 recorded its fourth straight year of gains. Measured from March 31, 2009 through March 31, 2013, the four year cumulative total return on the S&P 500 Index was 114.24%. This represents a substantial recovery in the equity markets as earnings and dividend levels reached and surpassed previous levels. In fact, this was also enough for the S&P 500 Index to surpass its prior October 2007 peak value.

While the overall return for the period was positive, it was marked by several bouts of volatility. One of the major events during the period that created an uncertainty overhang was the U.S. presidential election. Following the re-election of President Barack Obama, there was concern the U.S. government would not be able to solve a series of tax hikes and spending decreases often referred to as the Fiscal Cliff. Many feared that the 2003 Bush tax cuts for dividend taxes and capital gains taxes were expiring on January 1st. However, in the final hours of 2012, a deal came together that excited the market: the 2003 Bush tax cuts with respect to dividends were made permanent for the majority of tax payers. As a result, the first quarter of 2013 had a good tailwind supporting the markets.

WisdomTree Funds' Performance Overview

With the resolution of the dividend-tax issue, as well as continued monthly asset purchases from the U.S. Federal Reserve Bank, the path was cleared for the S&P 500 Index to reach its highest levels in history during the first quarter of 2013.

The following table reflects the WisdomTree Funds' performance versus their performance benchmark indexes:

| Ticker | WisdomTree Fund | 1-Year NAV Return | Performance Benchmark | 1-Year Return | Difference |
|--------|-----------------------------------|-------------------------|---------------------------|------------------|------------|
| EXT | WisdomTree Total Earnings Fund | 13.23% | Russell 3000® Index | 14.56% | -1.33% |
| EPS | WisdomTree Earnings 500 Fund | 12.66% | S&P 500® Index | 13.96% | -1.30% |
| EZM | WisdomTree MidCap Earnings Fund | 17.75% | S&P MidCap 400® Index | 17.83% | -0.08% |
| EES | WisdomTree SmallCap Earnings Fund | 14.20% | Russell 2000® Index | 16.30% | -2.10% |
| EZY | WisdomTree LargeCap Value Fund | 12.81% | Russell 1000® Value Index | 18.77% | -5.96% |
| EPI | WisdomTree India Earnings Fund | -5.80% | MSCI India Index | 2.25% | -8.05% |

Interestingly, the top-performing performance benchmark within the aforementioned chart was the Russell 1000 Value Index, indicating that value stocks—specifically large cap value stocks—delivered strong performance. All of the U.S. performance benchmarks delivered double-digit returns; the S&P 500 Index was actually the lowest with a return of 13.96%. The MSCI India Index is notable for its lackluster 2.25% return over the period, trailing the U.S. equity performance benchmarks by a significant margin.

WisdomTree's earnings-weighted funds are designed to track indexes based on the earnings stream generated by companies included in the underlying WisdomTree Index. The earnings stream is defined as the total dollar level of earnings for all companies within each Index. There are two primary factors that drove performance differentials of the WisdomTree Funds and Indexes versus their performance benchmarks. The first is aggregate exposure to one or more sectors. The second is stock selection within each sector. Both of these are determined as part of WisdomTree's rules-based index methodology. These exposures are not subjectively determined. Rather, they are objectively determined at the Index rebalancing dates based on the earnings stream.

Nine of ten sectors represented within the S&P 500 Index experienced positive performance over the period. The best-performing sector over the period was the Telecommunication Services sector, with Health Care and Consumer Staples close behind. Each of these sectors delivered a return greater than 20% over the period. The single negatively performing sector over the period was Information Technology. Similar

to how Apple drove strong performance for this sector from March 31, 2011 to March 31, 2012, the significant weight to this company, combined with negative performance from March 31, 2012 to March 31, 2013, drove this ultimate result. Materials was also a relative laggard, the only positively performing sector to deliver a single-digit return over the period. With little question, the strongest performance came from the more defensively oriented sectors.

The performance of each WisdomTree Fund compared to its performance benchmark was unfavorable over the period. The worst performing Fund of those shown relative to its performance benchmark was the WisdomTree India Earnings Fund, lagging the MSCI India Index by more than 8% over the period. The closest margin over the period was seen with the WisdomTree MidCap Earnings Fund, which lagged the S&P MidCap 400 Index by less than 0.10%.

Each of the WisdomTree Funds shown here tracks an underlying WisdomTree Index that focuses solely on generating exposure to the performance of companies that have generated positive profits on a cumulative basis leading up to the Index screening date. As such, during certain years, like the period shown here, companies that may not have generated such positive earnings leading up to the Index screening date can certainly provide strong performance. Of the domestic Funds shown, relative performance was hurt by not necessarily tilting more weight to defensively oriented sectors relative to the performance benchmarks, as well as missing exposure to deeper value firms that may not have generated positive profits prior to the Index screening date but which demonstrated an ability to rally. With respect to India, overall volatility saw small cap Indian firms underperforming large cap Indian firms. The WisdomTree India Earnings Fund tracks an Index that generates exposure to the performance of India's equities across all capitalization sizes, whereas the MSCI India Index is predominantly exposed to large caps.

Fund performance assumes reinvestment of dividends and capital gain distributions. An index is a statistical measure of a specified financial market or sector. An index does not actually hold a portfolio of securities, incur expenses or pay any transaction costs. Therefore, index returns do not reflect deductions for fees or expenses and are not available for direct investment. In comparison, the Funds' performance is negatively impacted by these deductions. Fund returns do not reflect brokerage commissions or taxes on transactions in Fund shares or that a shareholder would pay on Fund distributions. Past performance is no guarantee of future results. The WisdomTree LargeCap Value Fund (the Fund) seeks to track the price and yield performance, before fees and expenses, of the WisdomTree LargeCap Value Index.

The Fund returned 12.81% at net asset value (NAV) for the fiscal year ending March 31, 2013 (for more complete performance information please see the chart below). The Fund's performance benefited most from its position in the Consumer Discretionary sector. The Fund's position in the Information Technology sector created the greatest drag on performance.

The following performance chart is provided for comparative purposes and represents the period noted. The Fund's per share NAV is the value of one share of the Fund and is calculated by dividing the value of total assets less total liabilities by the number of shares outstanding. The NAV return is based on the NAV of the Fund and the market price return is based on the market price per share of the Fund. The price used to calculate market price returns is the mid-point of the highest bid and lowest offer for Fund shares as of the close of trading on the exchange where Fund shares are listed. NAV and market price returns assume that dividends and capital gain distributions have been reinvested in the

Fund at NAV and market price, respectively. As with other ETFs, NAV returns and market price returns may differ because of factors such as the supply and demand for Fund shares and investors' assessments of the underlying value of a Fund's portfolio securities.

An index is a statistical measure of a specified financial market or sector. An index does not actually hold a portfolio of securities, incur expenses or pay any transaction costs. Therefore, index returns do not reflect deductions for fees or expenses and the index is not available for direct investment. In comparison, the Fund's performance is negatively impacted by these deductions. Fund returns do not reflect brokerage commissions or taxes on transactions in Fund shares or that a shareholder would pay on Fund distributions. **As of the Fund's current prospectus dated July 30, 2012, as last revised March 25, 2013, the Fund's annual expense ratio was 0.38%.**

Shareholder Expense Examples (unaudited)

As a shareholder of a WisdomTree Fund, you incur two types of costs: (1) transaction costs, including brokerage commissions on purchases and sales of your Fund shares and (2) ongoing costs, including management fees and other Fund expenses. The following example is intended to help you understand your ongoing costs (in dollars and cents) of investing in a Fund and to compare these costs with the ongoing costs of investing in other funds.

The example is based on an investment of \$1,000 invested at the beginning of the period and held for the entire period from October 1, 2012 to March 31, 2013.

Actual expenses

The first line under each Fund in the table on the next page provides information about actual account values and actual expenses. You may use the information in this line, together with the amount you invested, to estimate the expenses that you paid over the period. Simply divide your account value by \$1,000 (for example, an \$8,600 account value divided by \$1,000 = 8.6), then multiply the result by the number in the first line for your Fund under the heading entitled *Expenses Paid During the Period 10/01/12 to 3/31/13* to estimate the expenses you paid on your account during this period.

Hypothetical example for comparison purposes

The second line under each Fund in the table on the next page provides information about hypothetical account values and hypothetical expenses based on each Fund's actual expense ratio and an assumed rate of return of 5% per year before expenses, which is not the Fund's actual return. The hypothetical account values and expenses may not be used to estimate the actual ending account balance or expenses you paid for the period. You may use this information to compare the ongoing costs of investing in your Fund and other funds. To do so, compare this 5% hypothetical example with the 5% hypothetical examples that appear in the shareholder reports of the other funds.

Please note that the expenses shown in the table are meant to highlight your ongoing costs only and do not reflect any transactional costs, such as brokerage commissions paid on purchases and sales of Fund shares. Therefore, the second line under each Fund in the table is useful in comparing ongoing Fund costs only and will not help you determine the relative total costs of owning different funds. In addition, if these transactional costs were included, your costs would have been higher.

Total return calculated for a period of less than one year is not annualized. The total return would have been lower if certain expenses had not been reimbursed/waived by the investment adviser (Notes 2 and 3).

³ The ratios to average net assets do not include net investment income (loss) or expenses of other Funds in which the Fund invests.

⁴ Portfolio turnover rate is not annualized and excludes the value of portfolio securities received or delivered as a result of in-kind creations or redemptions of the Fund's capital shares.

Table of Contents**Notes to Financial Statements****1. ORGANIZATION**

WisdomTree Trust (the **Trust**) is registered under the Investment Company Act of 1940, as amended (the **1940 Act**), as an open-end management investment company. The Trust was established as a Delaware statutory trust on December 15, 2005. As of March 31, 2013, the Trust offered 47 investment funds (each a **Fund**, collectively, the **Funds**). These notes relate only to the Funds listed in the table below:

| Fund | Commencement of Operations |
|---|-----------------------------------|
| WisdomTree Total Earnings Fund (Total Earnings Fund) | February 23, 2007 |
| WisdomTree Earnings 500 Fund (Earnings 500 Fund) | February 23, 2007 |
| WisdomTree MidCap Earnings Fund (MidCap Earnings Fund) | February 23, 2007 |
| WisdomTree SmallCap Earnings Fund (SmallCap Earnings Fund) | February 23, 2007 |
| WisdomTree LargeCap Value Fund (LargeCap Value Fund) | February 23, 2007 |
| WisdomTree India Earnings Fund (India Earnings Fund) | February 22, 2008 |

The India Earnings Fund makes its investments through the WisdomTree India Investment Portfolio, Inc. (the **Portfolio**), a wholly owned subsidiary organized in the Republic of Mauritius. The Portfolio is advised by WisdomTree Asset Management, Inc. (**WTAM**) and is sub-advised by Mellon Capital Management Corporation (**MCM**). For the India Earnings Fund, the accompanying financial statements reflect the financial position of the Fund and the results of operations on a consolidated basis with the Portfolio. All inter-company accounts and transactions have been eliminated in consolidation. This structure should permit the India Earnings Fund to benefit from a tax treaty between India and Mauritius. The Supreme Court of India upheld the validity of this tax treaty in response to a lower court challenge contesting the treaty's applicability to entities such as the India Earnings Fund. In March of 2012, the Indian Finance Minister introduced a new chapter to the Indian Income Tax Act 1961, which would include certain General Anti-Avoidance Rules (**GAAR**). The implementation of these rules has been postponed and would be effective April 1, 2015 (Indian tax year 2015-2016) and it is presently unclear if these rules will have any impact on the Fund's ability to benefit from the tax treaty. No assurance can be given that the terms of the treaty will not be subject to re-negotiation in the future or subject to an adverse interpretation under GAAR. Any change in the provision of this treaty or in its applicability to the India Earnings Fund could result in the imposition of withholding and other taxes on the India Earnings Fund by tax authorities in India. This would reduce the return to the India Earnings Fund on its investments and the return received by India Earnings Fund shareholders. References to investments by the India Earnings Fund herein should be understood to refer to investments by the Portfolio.

Each Fund seeks to track the price and yield performance, before fees and expenses, of a particular index (**Index**) developed by WisdomTree Investments, Inc. (**WisdomTree Investments**). WisdomTree Investments is the parent company of WTAM, the investment adviser to each Fund and the Trust. **WisdomTree** is a registered mark of WisdomTree Investments and has been licensed for use by the Trust. Each Fund described herein is considered to be non-diversified. The securities in each Index are weighted based on earnings or earnings yield.

2. SIGNIFICANT ACCOUNTING POLICIES

The Financial Accounting Standards Board (**FASB**) Accounting Standards Codification (the **Codification**) is the exclusive reference of authoritative U.S. generally accepted accounting principles (**GAAP**) recognized by the FASB to be applied by nongovernmental entities. Rules and interpretive releases of the Securities and Exchange Commission (**SEC**) under authority of federal laws are also sources of authoritative GAAP for SEC registrants.

The following is a summary of significant accounting policies followed by the Funds:

Guarantees In the normal course of business the Funds may enter into contracts that contain a variety of representations or that provide indemnification for certain liabilities. The Funds' maximum exposure under these arrangements is unknown, as this would involve future claims that may be made against the Funds that have not yet occurred. However, the Funds have not had prior claims or losses pursuant to these contracts and expect the risk of loss to be remote. Therefore, no liabilities have been recorded in connection with these indemnifications.

Use of Estimates The preparation of financial statements in conformity with GAAP, requires management to make certain estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of increases and decreases in the net assets from operations during the reporting period. Actual results could

Edgar Filing: WisdomTree Trust - Form N-CSR

differ from those estimates.

Investment Valuation The net asset value (NAV) of each Fund s shares is calculated each day the national securities exchanges are open for trading as of the close of regular trading on the New York Stock Exchange, generally 4:00 p.m. New York time. NAV per

WisdomTree Domestic and International Earnings Funds 69

Table of Contents**Notes to Financial Statements** (continued)

share is calculated by dividing a Fund's net assets by the number of Fund shares outstanding. Transactions in Fund shares will be priced at NAV only if you purchase or redeem shares directly from a Fund in creation units, which are typically in blocks of 50,000 shares or more. Fund shares are purchased or sold on a national securities exchange at market prices, which may be higher or lower than NAV. In calculating each Fund's NAV, investments are valued under policies approved by the Board of Trustees.

Securities traded on any recognized U.S. or non-U.S. exchange are valued at the last sale price or official closing price on the exchange or system on which they are principally traded. Events occurring after the close of trading on non-U.S. exchanges may result in adjustments to the valuation of foreign securities to more accurately reflect their fair value as of the close of regular trading on the New York Stock Exchange. The Funds may rely on an independent fair valuation service in adjusting the valuations of foreign securities. Unlisted equity securities are valued at the last quoted sale price or, if no sale price is available, at the mean between the highest bid and lowest ask prices. Securities for which market quotations are not readily available are valued at fair value as determined by management and in accordance with procedures approved by the Board of Trustees. Short-term securities with 60 days or less remaining to maturity are valued using the amortized cost method, which approximates fair value. Forward foreign currency contracts are valued daily using WM/Reuters closing spot and forward rates as of 4:00 p.m. London time for Europe and the Americas, and Tullett Prebon closing spot and forward rates as of 2:00 p.m. Singapore time for Asia. Fixed income securities generally are valued at current market quotations or mean prices obtained from dealers or independent pricing services. Dealers or independent pricing services, in determining the value of securities may consider such factors as recent transactions, indications from dealers, yields and prices on similar securities, and market sentiment for the type of security.

In certain instances, such as when reliable market valuations are not readily available or are not deemed to reflect current market values, a Fund's investments will be valued in accordance with the Fund's pricing policy and procedures. Securities that may be valued using fair value pricing may include, but are not limited to, securities for which there are no current market quotations, securities whose issuer is in default or bankruptcy, securities subject to corporate actions (such as mergers or reorganizations), securities subject to non-U.S. investment limits or currency controls, and securities affected by significant events. An example of a significant event is an event occurring after the close of the market in which a security trades but before a Fund's next NAV calculation time that may materially affect the value of a Fund's investment (e.g., government action, natural disaster, or significant market fluctuation). Price movements in U.S. markets that are deemed to affect the value of foreign securities, or reflect changes to the value of such securities, also may cause securities to be fair valued. When fair value pricing is employed, the prices of securities used by a Fund to calculate its NAV may differ from quoted or published prices for the same securities. Each Fund may invest in money market funds which are valued at their NAV per share and affiliated ETFs which are valued at their last sale or official closing price on the exchange on which they are principally traded.

Fair Value Measurement In accordance with Codification Topic 820 (ASC 820), Fair Value Measurements and Disclosures, fair value is defined as the price that each Fund would receive upon selling an investment in an orderly transaction to an independent buyer in the principal or most advantageous market of the investment. ASC 820 established a three-tier hierarchy to maximize the use of observable market data and minimize the use of unobservable inputs and to establish classifications of fair value measurements for disclosure purposes. Inputs refer broadly to the assumptions that market participants would use in pricing the asset or liability, including assumptions about risk—for example, the risk inherent in a particular valuation technique used to measure fair value (such as a pricing model) and/or the risk inherent in the inputs to the valuation technique. Inputs may be observable or unobservable. Observable inputs reflect the assumptions market participants would use in pricing the asset or liability. Observable inputs are based on market data obtained from sources independent of the reporting entity. Unobservable inputs reflect the reporting entity's own assumptions about the assumptions market participants would use in pricing the asset or liability. Unobservable inputs are based on the best information available in the circumstances. The three-tier hierarchy of inputs is summarized in the three broad levels listed below:

Level 1 quoted prices in active markets for identical securities

Level 2 other significant observable inputs (including quoted prices for similar securities, interest rates, prepayment speeds, credit risk, etc.)

Level 3 significant unobservable inputs (including each Fund's assumption in determining the fair value of investments)

The inputs or methodology used for valuation are not necessarily an indication of the risk associated with investing in those investments.

Investments that use Level 2 or Level 3 inputs may include, but are not limited to: (i) an unlisted security related to corporate actions; (ii) a restricted security (e.g., one that may not be publicly sold without registration under the Securities Act of 1933, as amended); (iii) a security

Edgar Filing: WisdomTree Trust - Form N-CSR

whose trading has been suspended or which has been de-listed from its primary trading exchange; (iv) a security that is thinly traded; (v) a security in default or bankruptcy proceedings for which there is no current market quotation; (vi) a security affected by currency controls or restrictions; and (vii) a security affected by a significant event (e.g., an event that occurs after the close of the markets on which the security is traded but before the time as of which a Fund's NAV is computed and that may materially affect the value of the Fund's investments).

The valuation techniques and significant inputs used in determining the fair market value measurements for Level 2 and Level 3 positions are as follows:

Financial instruments are valued by pricing service providers that use broker dealer quotations, reported trades or valuation estimates from their internal pricing models. Depending on the type of financial instrument, the service providers' internal models use inputs that are observable such as issuer details, interest rates, yield curves, prepayment speeds, credit risks/spreads, default rates and quoted prices for similar assets. Securities that use similar valuation techniques and inputs as described above are categorized as Level 2 of the fair value hierarchy. Short-term investments having a maturity of 60 days or less are generally valued at amortized cost which approximates fair market value. These investments are categorized as Level 2 of the fair value hierarchy. Over-the-counter financial derivative instruments, such as forward foreign currency contracts derive their value from underlying asset prices, indices, reference rates, and other inputs or a combination of these factors. These contracts are normally valued on the basis of broker dealer quotations or pricing service providers. Depending on the product and the terms of the transaction, the value of the financial derivative contracts can be estimated by a pricing service provider using a series of techniques, including simulation pricing models. The pricing models use inputs that are observed from actively quoted markets such as issuer details, indices, spreads, interest rates, curves, dividends and exchange rates. Financial derivatives that use similar valuation techniques and inputs as described above are categorized as Level 2 of the fair value hierarchy.

WTAM, the investment adviser to each Fund and the Trust, has established a fair valuation committee (the Valuation Committee) which is comprised of senior representatives of WTAM and which reports to the Board of Trustees on a quarterly basis. In the event that a financial instrument cannot be valued based upon a price from a national securities exchange, pricing service provider or broker quotation, or such prices are deemed to not reflect current market value, WTAM may value the financial instrument in good faith under the policies and procedures approved by the Board of Trustees based on current facts and circumstances. Determination of this value may include significant unobservable inputs and therefore would be reflected as a Level 3 of the fair value hierarchy. The Valuation Committee may employ a market-based valuation approach which may use related or comparable securities, recent transactions, market multiples, book values, and other relevant information to determine fair value. The Valuation Committee may also use an income-based valuation approach in which anticipated future cash flows of the financial instrument are discounted to calculate fair value. The Valuation Committee meets at least on a monthly basis to review and discuss the appropriateness of such fair values using more current information such as, recent security news, recent market transactions, updated corporate action information and/or other macro or security specific events. Also, when observable inputs become available, the Valuation Committee conducts back testing of Level 3 financial instruments to substantiate the unobservable inputs used to value those investments. Such back testing includes comparing Level 3 investment values to observable inputs such as exchange-traded prices, transaction prices, and/or vendor prices.

The following is a summary of the fair valuations according to the inputs used as of March 31, 2013 in valuing each Fund's assets:

The following is a summary of transfers between Level 1 and Level 2 fair value measurements that occurred during the fiscal year ended March 31, 2013. All transfers between Level 1 and Level 2 fair value measurements are done using the beginning of period method.

| Fund | Transfers from Level 1 to Level 1¹ | Transfers from Level 2 to Level 1² |

² Transfers from Level 2 to Level 1 are as a result of the availability of a quoted price in an active market for an identical investment.

Derivatives and Hedging Disclosure Codification Topic 815 (ASC 815), Derivatives and Hedging, requires qualitative disclosures about objectives and strategies for using derivatives, quantitative disclosures about fair value amounts of gains and losses on derivative instruments, and disclosures about credit-risk-related contingent features in derivative agreements. The India Earnings Fund has invested in derivatives, specifically forward currency contracts, during the fiscal year ended March 31, 2013, which are detailed in the table below. Risks may arise upon entering into forward foreign currency contracts from the potential inability of a counterparty to meet the terms of their contracts and from unanticipated movements in the value of foreign currencies relative to the U.S. dollar or each other. The Fund's derivative agreements contain credit-risk-related contingent features which include, but are not limited to, a percentage decline in the Fund's NAV or net assets over a specified time period. If an event occurred at March 31, 2013 that triggered a contingent feature, the counterparty to the agreement may require the Fund to post additional collateral or terminate the derivative positions and demand payment. Any collateral posted with respect to the derivative positions would be used to offset or reduce the payment. The maximum exposure to derivatives agreements with the credit-risk-related contingent features would be the total of derivatives in net liability positions for the Fund. At March 31, 2013, the Funds did not receive or post collateral with any counterparty for derivatives and no event occurred that triggered a credit-risk-related contingent feature.

During the fiscal year ended March 31, 2013, the volume of derivative activity by average notional was as follows:

| Fund | Average Notional | |
|---|--|--|
| | Forward Foreign currency contracts (to deliver) | Forward Foreign currency contracts (to receive) |
| Derivative Type | | |
| India Earnings Fund (consolidated) | | |
| Foreign exchange contracts | \$ 257,952 | \$ 65,075 |

Investment Transactions and Investment Income Investment transactions are recorded as of the date that the securities are purchased or sold (trade date). Realized gains and losses on sales of portfolio securities are calculated using the identified-cost method. Dividend income is recognized on the ex-dividend date, net of any foreign taxes withheld. Interest income including amortization of premiums and discounts, is accrued daily. The value of additional securities received as dividend payments is recorded as income and as an increase to the cost basis of such securities.

Foreign Currency Translation The accounting records of the Funds are maintained in U.S. dollars. Foreign currencies, as well as investment securities and other assets and liabilities denominated in foreign currencies, are translated into U.S. dollars using exchange rates prevailing on the respective dates of such transactions that are deemed appropriate by WTAM. Realized and unrealized foreign exchange gains and losses on investments are included as a component of net realized gain (loss) from investment transactions and net change in unrealized appreciation (depreciation) from investment transactions, respectively, on the Statement of Operations. Net realized and unrealized foreign exchange gains or losses arising from sales of foreign currencies, including gains and losses of forward foreign currency contracts, currency gains or losses recognized between the trade and settlement dates on investment transactions, and the difference between the amounts of dividends and foreign withholding taxes recorded on the Funds' books and the U.S. dollar equivalent of the amounts actually received or paid are included in net realized gain (loss) from forward foreign currency contracts and foreign currency related transactions and/or net change in unrealized appreciation (depreciation) from forward foreign currency contracts and translation of assets and liabilities denominated in foreign currencies on the Statement of Operations. Certain foreign exchange gains and losses included in realized and unrealized gains or losses are included in, or are a reduction of, ordinary income in accordance with U.S. Federal income tax regulations.

Expenses Under the investment advisory agreement for each Fund, WTAM has agreed to pay all expenses of each Fund, except for: (i) brokerage expenses and other expenses (such as stamp taxes) connected with the execution of portfolio transactions or in connection with creation and redemption transactions; (ii) legal fees or expenses in connection with any arbitration, litigation or pending or threatened arbitration or litigation, including any settlements in connection therewith; (iii) compensation and expenses of trustees who are not interested persons of the Funds (Independent Trustees); (iv) compensation and expenses of counsel to the Independent Trustees; (v) compensation and expenses of the Trust's Chief Compliance Officer (CCO); (vi) extraordinary expenses; (vii) distribution fees and expenses paid by the Trust under any distribution plan adopted pursuant to Rule 12b-1 under the 1940 Act; and (viii) the advisory fee payable to WTAM.

Prior to August 8, 2012, for the India Earnings Fund, WTAM was responsible for paying only the sub-advisory fee. All other expenses were paid by the Fund. However, WTAM had contractually agreed, prior to August 8, 2012, to limit total annual operating expenses from exceeding 0.88% of the average daily net assets of the Fund. Subsequent to August 8, 2012, WTAM has agreed to pay all expenses of the Fund, except for certain expenses described above.

Pursuant to a separate contractual arrangement, WTAM arranges for the provision of CCO services with respect to each Fund, and is liable and responsible for, and administers, payments to the CCO, the Independent Trustees and counsel to the Independent Trustees. WTAM receives a fee, as shown on the Statements of Operations under Service fees, of up to 0.0044% of each Fund's average daily net assets for providing such services and paying such expenses. WTAM provides CCO services to the Trust.

Currency Transactions The India Earnings Fund may enter into forward foreign currency contracts to facilitate local securities settlements or to protect against currency exposure in connection with distributions to shareholders. The India Earnings Fund does not expect to engage in currency transactions for the purpose of hedging against declines in the value of the Fund's assets that are denominated in one or more foreign currencies. The India Earnings Fund may not enter into such contracts for speculative purposes.

Edgar Filing: WisdomTree Trust - Form N-CSR

Forward Foreign Currency Transactions A forward foreign currency contract (Forward Contract) involves an obligation to purchase or sell a specific currency at a future date, which may be any fixed number of days from the date of the contract agreed upon by the parties, at a price set at the time of the contract. These contracts are principally traded in the inter-bank market conducted directly between currency traders (usually large, commercial banks) and their customers. A Forward Contract generally has no margin deposit requirement, and no commissions are charged at any stage for trades.

Table of Contents**Notes to Financial Statements** (continued)

Fluctuations in the value of open Forward Contracts are recorded for book purposes as unrealized gains or losses on Forward Contracts by the Funds. Realized gains and losses on Forward Contracts include net gains or losses recognized by the Funds on contracts which have matured.

There were no Forward Contracts open at March 31, 2013.

Securities Lending Each Fund may lend portfolio securities to certain creditworthy borrowers, including the Funds' securities lending agent. It is the Funds' policy that, at origination, all loans are secured by collateral of at least 102% of the value of U.S. securities loaned and 105% of the value of foreign securities loaned. Collateral in the form of cash and/or high grade debt obligations, equivalent to at least 100% of the market value of securities, is maintained at all times. The cash collateral can be invested in certain money market mutual funds which also have exposure to the fluctuations of the market. The value of the investment of cash collateral for securities on loan along with the obligation to return such collateral are included on the Statements of Assets and Liabilities. Each Fund receives compensation for lending its securities from interest or dividends earned on the cash or U.S. government securities held as collateral, net of fee rebates paid to the borrower plus reasonable administrative and custody fees. The securities lending income earned by the Funds is disclosed on the Statements of Operations. The dividend and interest income earned on the securities loaned is accounted for in the same manner as other dividend and interest income. The borrower pays to the Funds an amount equal to any dividends or interest received on loaned securities. The Funds retain all or a portion of the interest received on investment of cash collateral or receive a fee from the borrower. Lending portfolio securities could result in a loss or delay in recovering each Fund's securities if the borrower defaults.

Short-Term Investments Each Fund may invest a portion of its assets in high-quality money market instruments on an ongoing basis to provide liquidity or for other reasons. The instruments include short-term obligations issued by the U.S. Government, its agencies, non-U.S. Government agencies, negotiable certificates of deposit (CDs), fixed time deposits and bankers' acceptances of U.S. and foreign banks and similar institutions, commercial papers, repurchase agreements and money market funds. CDs are short-term negotiable obligations of commercial banks. Time deposits are non-negotiable deposits maintained in banking institutions for specified periods of time at stated interest rates. Bankers' acceptances are time drafts drawn on commercial banks by borrowers, usually in connection with international transactions.

Tax Information and Dividends and Distributions to Shareholders It is each Fund's policy to comply with all requirements of the Internal Revenue Code of 1986, as amended (the Code). Each Fund intends to qualify for and to elect treatment as a separate Regulated Investment Company (RIC) under Subchapter M of the Code. It is the policy of each Fund to pay out dividends, if any, to investors at least annually. There can be no guarantee that a Fund will pay dividends. Taxable net realized gains from investment transactions, reduced by capital loss carryforwards, if any, are declared and distributed to shareholders at least annually. The capital loss carryforward amount, if any, is available to offset future net capital gains. The Funds may occasionally be required to make supplemental distributions at some other time during the year. The Trust reserves the right to declare special distributions if, in its reasonable discretion, such action is necessary or advisable to preserve the status of each Fund as a RIC or to avoid imposition of income or excise taxes on undistributed income. Dividends and distributions to shareholders are recorded on the ex-dividend date. The amount of dividends and distributions from net investment income and net realized capital gains are determined in accordance with U.S. Federal income tax regulations which may differ from GAAP. These book/tax differences are either considered temporary or permanent in nature. To the extent these differences are permanent in nature, such amounts are reclassified within the components of net assets based on their U.S. Federal tax basis treatment; temporary differences do not require reclassification. Dividends and distributions which exceed earnings and profit for tax purposes are reported as a tax return of capital to the extent of a shareholder's tax basis and thereafter as a capital gain. The India Earnings Fund has filed an election to treat the Portfolio as a pass-through entity for tax purposes.

3. ADVISORY FEES AND TRANSACTIONS

WTAM has overall responsibility for the general management and administration of the Trust. WTAM provides an investment program for each Fund. WTAM has arranged for MCM to provide sub-advisory services to the Funds. MCM is compensated by WTAM at no additional cost to the Funds. WTAM also arranges transfer agency, custody, fund administration, securities lending and all other non-distribution related services necessary for the Funds to operate. Under the investment advisory agreement for each Fund, WTAM agrees to pay all expenses of the Funds (other than for the India Earnings Fund prior to August 8, 2012), except for certain expenses described in Note 2. On August 8, 2012, shareholders of the India Earnings Fund approved a new advisory agreement. Like the other WisdomTree Funds, under the new advisory agreement, WTAM is responsible for paying all Fund expenses except for certain expenses described in Note 2. Prior to the respective shareholder approval date, the advisory fee was 0.68% for the India Earnings Fund, but the advisory fee did not cover other Fund expenses, and total operating expenses were capped at 0.88%.

74 WisdomTree Domestic and International Earnings Funds

Table of Contents**Notes to Financial Statements** (continued)

Pursuant to a separate contractual arrangement, as also described in Note 2, WTAM arranges for the provision of CCO services with respect to each Fund, and is liable and responsible for, and administers, payments to the CCO, the Independent Trustees and counsel to the Independent Trustees in exchange for a fee of up to 0.0044% of each Fund's average daily net assets. WTAM expects to receive advisory fees from each Fund, based on a percentage of the Fund's average daily net assets, as shown in the following table:

| Fund | Advisory Fee Rate |
|---|----------------------|
| Total Earnings Fund | 0.28% |
| Earnings 500 Fund | 0.28% |
| MidCap Earnings Fund | 0.38% |
| SmallCap Earnings Fund | 0.38% |
| LargeCap Value Fund | 0.38% |
| India Earnings Fund (<i>consolidated</i>) | 0.83%* |

* Prior to the respective shareholder approval date of the new investment advisory agreement on August 8, 2012, the advisory fee rate as a percentage of average daily net assets was 0.68% for the India Earnings Fund, but the advisory fee did not cover other Fund expenses, and total expenses were capped at 0.88%.

Each Fund may purchase shares of affiliated exchange traded funds in secondary market transactions. For the fiscal year ended March 31, 2013, WTAM waived its advisory fees for each of the Fund's investment in affiliated Funds net of any incremental costs as a result of these transactions (fund accounting, safekeeping, transaction fees, etc.) that are paid by WTAM out of the advisory fee received from the affiliated Funds. Please see Note 8 for additional information on Other Affiliated Parties and Transactions. In addition, prior to the shareholder approval date of the new advisory agreement for the India Earnings Fund, WTAM had agreed to limit India Earnings Fund's total annual operating expenses from exceeding 0.88% of the average net assets of the Fund. The table below indicates the waiver and expense reimbursements.

| | Advisory Fees Waived/Expense Reimbursement |
|---|--|
| Total Earnings Fund | \$ |
| Earnings 500 Fund | 12 |
| MidCap Earnings Fund | 655 |
| SmallCap Earnings Fund | 1,033 |
| LargeCap Value Fund | |
| India Earnings Fund (<i>consolidated</i>) | 162,800 |

4. CAPITAL SHARE TRANSACTIONS

As of March 31, 2013, there was an unlimited number of \$0.001 par value shares of beneficial interest authorized by the Trust. Shares are issued and redeemed by each Fund only in creation units or multiples thereof. Except when aggregated in creation units, shares of each Fund are not redeemable. Transactions in shares for each Fund are disclosed in detail in the Statements of Changes in Net Assets. The consideration for the purchase of creation units of a Fund generally consists of the in-kind contribution of a designated portfolio of equity securities constituting a portfolio sampling representation of the securities included in the relevant Fund's underlying Index and an amount of cash. The India Earnings Fund issues and redeems shares on a cash basis only. Investors purchasing and redeeming creation units may be charged a purchase transaction fee and a redemption transaction fee to offset transfer and other transaction costs associated with the issuance and redemption of creation units.

5. INVESTMENT PORTFOLIO TRANSACTIONS

* Under the recently enacted Regulated Investment Company Modernization Act of 2010, a Fund is permitted to carry forward any new capital losses for an unlimited period. Additionally, such capital losses that are carried forward will retain their character as either short-term or long-term capital losses rather than being considered all short-term as under previous law. The character of these losses is noted above.

Capital losses incurred after October 31 (post-October capital losses) and within the taxable year are deemed to arise on the first business day of each Fund s next taxable year.

During the fiscal year ended March 31, 2013, the following Funds incurred and will elect to defer post October capital losses as follows:

| Fund | Short-Term Post-October Capital Losses | Long-Term Post-October Capital Losses |
|------------------------------------|---|--|
| Total Earnings Fund | \$ | \$ 238,600 |

These differences are primarily due to redemption-in-kind, foreign currency transactions, non-dividend distributions from underlying funds and Passive Foreign Investment Companies (PFICs).

GAAP provides guidance on tax provisions that prescribe a minimum threshold for financial statement recognition of the benefit of a tax position taken or expected to be taken in a tax return. Foreign taxes are provided for based on each Fund's understanding of the tax rules and rates that exist in the foreign markets in which it invests. Taxes are accrued and applied to net investment income, net realized capital gains and net unrealized appreciation, as applicable, as the income is earned or capital gains are recorded. As of

and during the fiscal year ended March 31, 2013, the Funds did not have any liabilities for unrecognized tax benefits. If applicable, the Funds will recognize interest accrued related to unrecognized tax benefits in interest expense and penalties in Other expenses on the Statements of Operations. The Funds file tax returns with the Internal Revenue Service, the State of New York, and various other states, and with respect to the India Earnings Fund, the Republic of Mauritius. Generally, each of the tax years in the four-year period ended March 31, 2013, remains subject to examination by taxing authorities.

7. MAURITIUS INCOME TAX

The taxable profits derived from the worldwide income of the wholly owned subsidiary of the India Earnings Fund, the Portfolio, is subject to income tax at the rate of 15% in the Republic of Mauritius. As with all Mauritian tax residents, the Portfolio is entitled to a foreign tax credit (FTC) on its foreign sourced income. The FTC is based on the lower of the Mauritian tax or the foreign taxes suffered. Where documentary evidence is not available to substantiate the foreign taxes suffered, the FTC can be presumed to be 80% of the Mauritius tax on its foreign source income. The presumed FTC effectively reduces the Mauritian income tax rate on the foreign sourced income of the Portfolio to a maximum of 3%. Interest income on call and deposit accounts with Mauritian banks is exempt from tax, and there is no tax on capital gains in Mauritius. Effective August 8, 2012, in connection with the new advisory agreement, the Mauritius income tax is paid by WTAM.

8. OTHER AFFILIATED PARTIES AND TRANSACTIONS

Affiliated holdings are Funds which are managed by the Trust or an affiliate of the Trust. Transactions with affiliated companies during the fiscal year ended March 31, 2013 are as follows:

9. LOAN

During the fiscal year ended March 31, 2013, the India Earnings Fund had a demand note agreement with Morgan Stanley Bank, N.A. which allowed the Fund to borrow up to \$120,000,000 until the stated maturity date of October 26, 2012. During the fiscal year ended March 31, 2013, the Fund utilized the demand note and borrowed for a period of 13 days with an average outstanding loan balance of \$39,421,154 and a weighted average interest rate of 2.555% per annum. Interest expense related to the loan for the fiscal year ended March 31, 2013 was \$35,775. At March 31, 2013, the Fund did not have any loan amounts outstanding.

10. NEW ACCOUNTING PRONOUNCEMENTS

In December 2011, FASB issued Accounting Standards Update No. 2011-11 Disclosures about Offsetting Assets and Liabilities (ASU 2011-11). These disclosures are intended to help investors and other financial statement users to better assess the effect or potential effect of offsetting arrangements on a company's financial position. They also improve transparency in the reporting of how companies mitigate credit risk, including disclosure of related collateral pledged or received. In addition, ASU 2011-11 facilitates comparisons between those entities that

Edgar Filing: WisdomTree Trust - Form N-CSR

prepare their financial statements on the basis of US GAAP and those entities that prepare their financial statements on the basis of international financial reporting standards. ASU 2011-11 requires entities to disclose (i) gross and net information about both instruments and transactions eligible for offset in the financial statements and (ii) instruments and transactions subject to an agreement similar to a master netting agreement. ASU 2011-11 is effective for fiscal years beginning on or after January 1, 2013, and interim periods within those annual periods.

Notes to Financial Statements (concluded)

On January 31, 2013, FASB issued Accounting Standards Update No. 2013-01 Clarifying the Scope of Disclosures about Offsetting Assets and Liabilities (ASU 2013-01). ASU 2013-01 limits the scope of the new balance sheet offsetting disclosures to the following financial instruments, to the extent they are offset in the financial statements or subject to an enforceable master netting arrangement or similar agreement: (i) recognized derivative instruments accounted for under ASC 815 (Derivatives and Hedging); (ii) repurchase agreements and reverse repurchase agreements; and (iii) securities borrowing and securities lending transactions. The disclosures are required irrespective of whether the transactions are offset in the statement of assets and liabilities. The effective date and transition of the disclosure requirements in ASU 2011-11 remain unchanged.

At this time, management is evaluating the implications of ASU 2011-11 and ASU 2013-01 and their impact on the Trust's financial statements.

11. LEGAL MATTER

On December 1, 2011, Research Affiliates, LLC (Research Affiliates) filed a complaint in the United States District Court for the Central District of California, naming the Trust, WTAM, and its parent company, WisdomTree Investments, along with other parties, as defendants. The complaint alleged that the fundamentally weighted investment methodology developed by WisdomTree Investments and employed by the Trust infringes three of plaintiff's patents. The complaint sought both unspecified monetary damages to be determined and an injunction to prevent further infringement.

On November 7, 2012, Research Affiliates agreed to withdraw its suit and defendants agreed to withdraw their counterclaims and entered into a settlement agreement. Under the settlement, all parties exchanged releases for all existing claims. The other material terms of the settlement are as follows:

Research Affiliates agreed not to sue the Trust, WTAM and WisdomTree Investments (the WisdomTree Parties) for any future claims arising under any current patents held by Research Affiliates, as well as any future patents relating to fundamentally-weighted indexes and strategies that may issue under existing or future patent applications that may be filed by Research Affiliates within the next eight years, subject to reduction by up to three years if Research Affiliates is acquired. The covenant not to sue extends to service providers and customers of the WisdomTree Parties in connection with their products and services.

The WisdomTree Parties agreed not to sue Research Affiliates for any future claims arising under any current patents held by the WisdomTree Parties, as well as any future patents relating to fundamentally-weighted indexes and strategies that may issue under existing or future patent applications that may be filed by the WisdomTree Parties within the next eight years, subject to reduction by up to three years if any of the WisdomTree Parties are acquired. The covenant not to sue extends to service providers and customers of Research Affiliates in connection with Research Affiliates' products and services.

Research Affiliates and the WisdomTree Parties agreed that the covenants not to sue do not include a right under each party's patents to copy the other party's methodologies. They have further agreed that it is not copying if Research Affiliates introduces an index or strategy that uses at least three fundamental factors to weight its indexes and they are not predominantly dividend- or earnings-weighted, or any of the WisdomTree Parties introduces an index or strategy that is weighted by less than three fundamental factors.

The parties also agreed not to challenge the other party's patents or patent applications.

Research Affiliates agreed to a one-time payment of \$0.7 million to WisdomTree Investments. The WisdomTree Parties and the other defendants were not required to make any current or future payments to Research Affiliates.

Edgar Filing: WisdomTree Trust - Form N-CSR

All other terms of the settlement are confidential and the settlement will not affect the current methodologies and fees for any of the Trust s Funds.

WTAM and WisdomTree Investments had previously contractually agreed to indemnify the Trust and pay any losses, claims and damages (including legal fees) incurred by the Trust or a Fund in connection with the complaint so the Trust incurred no out-of-pocket expense in connection with this lawsuit.

Report of Independent Registered Public Accounting Firm

The Board of Trustees and Shareholders of WisdomTree Trust:

We have audited the accompanying statements of assets and liabilities, including the schedules of investments, of WisdomTree Total Earnings Fund, WisdomTree Earnings 500 Fund, WisdomTree MidCap Earnings Fund, WisdomTree SmallCap Earnings Fund, WisdomTree LargeCap Value Fund and WisdomTree India Earnings Fund (six of the investment funds constituting the WisdomTree Trust (the Trust)) as of March 31, 2013, and the related statements of operations for the year then ended, the statements of changes in net assets for each of the two years in the period then ended, and the financial highlights for each of the five years in the period then ended. These financial statements and financial highlights are the responsibility of the Trust's management. Our responsibility is to express an opinion on these financial statements and financial highlights based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements and financial highlights are free of material misstatement. We were not engaged to perform an audit of the Trust's internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Trust's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements and financial highlights, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. Our procedures included confirmation of securities owned as of March 31, 2013, by correspondence with the custodian and brokers or by other appropriate auditing procedures where replies from brokers were not received. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements and financial highlights referred to above present fairly, in all material respects, the financial position of WisdomTree Total Earnings Fund, WisdomTree Earnings 500 Fund, WisdomTree MidCap Earnings Fund, WisdomTree SmallCap Earnings Fund, WisdomTree LargeCap Value Fund and WisdomTree India Earnings Fund of WisdomTree Trust at March 31, 2013, the results of their operations for the year then ended, the changes in their net assets for each of the two years in the period then ended, and the financial highlights for each of the five years in the period then ended, in conformity with U.S. generally accepted accounting principles.

Approval of Investment Advisory and Sub-Advisory Agreement (unaudited)

Approval of the Investment Advisory Agreement between the Trust and WTAM. The Trust and WTAM have entered into an investment advisory agreement, dated November 20, 2012, covering each of the Funds (the "Investment Advisory Agreement"). At a meeting held on March 1, 2012, the Board of Trustees approved the Investment Advisory Agreement to go into effect in the event of a change in control of WTAM with respect to each of the Funds. Subsequently, the Investment Advisory Agreement was approved by shareholders at a special meeting held on June 29, 2012 and reconvened on August 8, 2012. A change in control of WTAM took place on November 20, 2012, and the Investment Advisory Agreement became effective on that same date. The Investment Advisory Agreement approved by the Board of Trustees has fees, services and terms that are identical to the fees, services and terms of the investment advisory agreement between the Trust and WTAM that was in effect immediately prior to the change in control.

In approving the Investment Advisory Agreement, the Board of Trustees reviewed and analyzed the factors it deemed relevant, including: (i) the nature, quality, and extent of the services to be provided by WTAM to the Funds; (ii) Fund expenses and the investment performance of the Funds and WTAM; (iii) the costs of services to be provided and the profits to be realized by WTAM from its relationships with the Funds; (iv) the extent to which economies of scale would be realized as the Funds grow; and (v) whether the fee levels reflect these economies of scale for the benefit of investors.

The Board of Trustees also considered the nature and quality of the services to be provided by WTAM to the Funds, recognizing WTAM's operational capabilities and resources. The Board of Trustees also noted the extensive responsibilities that WTAM has as investment adviser to the Funds, including the selection of the Funds' Sub-Advisers, oversight of the Sub-Advisers' compliance with Fund policies and objectives, oversight of general Fund compliance with federal and state laws, and the implementation of Board directives as they relate to the Funds.

The Board of Trustees gave substantial consideration to the fees payable to WTAM. The Board of Trustees examined the fees to be paid by each Fund in light of fees paid to other investment managers by comparable funds and the method of computing each Fund's fee. After comparing the fees with those of comparable funds and in light of the quality and extent of services to be provided and the costs anticipated to be incurred by WTAM, the Board of Trustees concluded that the level of the fees paid to WTAM with respect to each Fund is fair and reasonable. The Board of Trustees evaluated WTAM's costs and profitability in serving as investment adviser to the existing Funds, including the costs associated with the personnel, systems and equipment necessary to manage the Funds and the costs associated with compensating the Sub-Advisers.

Approval of the Sub-Advisory Agreement between WTAM and MCM. At the March 1, 2012 Board Meeting, the Board of Trustees also approved a new sub-advisory agreement between WTAM and MCM to go into effect in the event of a change in control of WTAM, using many of the same considerations it used in connection with the approval of the Investment Advisory Agreement, as well as consideration of potential "fall-out" benefits to MCM and its affiliates (i.e., ancillary benefits that may be realized by MCM and its affiliates from MCM's relations with the Funds, such as other service contracts). The sub-advisory agreement approved on March 1, 2012 had fees, services and terms that were identical to the fees, services and terms of the sub-advisory agreement between WTAM and MCM that was in effect on the date of the March 1, 2012 meeting, with the Board noting that WTAM, not the Funds, pays the fees to MCM under the sub-advisory agreement for each Fund. Subsequently, the new sub-advisory agreement was approved by shareholders at a special meeting held on June 29, 2012 and reconvened on August 8, 2012. At the same special meeting and adjournment, the shareholders approved manager of managers relief for each of the Funds, which permits WTAM and the Funds to retain sub-advisers and amend sub-advisory contracts without shareholder approval, subject to certain conditions. As noted above, a change in control of WTAM took place on November 20, 2012, and the new sub-advisory agreement approved by the Board of Trustees on March 1, 2012 became effective on November 20, 2012.

Based on these considerations and the overall high quality of the personnel, operations, financial condition, investment advisory capabilities, methodologies, and performance of WTAM and MCM, the Board of Trustees determined that the approval of the Investment Advisory Agreement and the sub-advisory agreements, as applicable, was in the best interests of each Fund. After full consideration of these and other factors, the Board of Trustees, including a majority of the Independent Trustees, with the assistance of independent counsel, approved the Investment Advisory Agreement and sub-advisory agreements, as applicable, for each Fund.

Investors should consider the investment objectives, risks, charges and expenses of the Funds carefully before investing. A prospectus, containing this and other information, is available at www.wisdomtree.com, or by calling 1-866-909-WISE (9473). Investors should read the prospectus carefully before investing. There are risks associated with investing, including possible loss of principal. Past performance does not guarantee future results. Indexes are unmanaged and you cannot invest directly in an index.

There are risks associated with investing, including possible loss of principal. Funds focusing their investments on certain sectors and/or smaller companies increase their vulnerability to any single economic or regulatory development. This may result in greater share price volatility. Foreign investing involves special risks, such as risk of loss from currency fluctuation or political or economic uncertainty. The WisdomTree India Earnings Fund focuses its investments in India, thereby increasing the impact of events and developments associated with the region which can adversely affect performance. Investments in emerging, offshore or frontier markets such as India are generally less liquid and less efficient than investments in developed markets and are subject to additional risks, such as risks of adverse governmental regulation and intervention or political developments. Due to the investment strategy of certain Funds they may make higher capital gain distributions than other ETFs. Please read the Fund s prospectus for specific details regarding the Fund s risk profile.

Transactions in Fund shares will result in brokerage commissions and will generate tax consequences. Shares may be sold through brokerage accounts, but may be redeemed from the Funds only in large amounts of 50,000 shares or more.

Item 2. Code of Ethics.

- (a) The registrant, as of the end of the period covered by this report, has adopted a code of ethics that applies to the registrant's principal executive officer, principal financial officer, principal accounting officer or controller, or persons performing similar functions, regardless of whether these individuals are employed by the registrant or a third party.
- (c) There have been no amendments, during the period covered by this report, to a provision of the code of ethics that applies to the registrant's principal executive officer, principal financial officer, principal accounting officer or controller, or persons performing similar functions, regardless of whether these individuals are employed by the registrant or a third party, and that relates to any element of the code of ethics description.
- (d) The registrant has not granted any waivers, including an implicit waiver, from a provision of the code of ethics that applies to the registrant's principal executive officer, principal financial officer, principal accounting officer or controller, or persons performing similar functions, regardless of whether these individuals are employed by the registrant or a third party, that relates to one or more of the items set forth in paragraph (b) of this item's instructions.

Item 3. Audit Committee Financial Expert.

The Registrant's Board of Trustees has determined that the Registrant has one audit committee financial expert, as that term is defined under Item 3(b) and 3(c), serving on its audit committee. The audit committee financial expert serving on the Registrant's audit committee is Victor Ugolyn, who is an independent Trustee of the Trust, as that term is defined under Item 3(a) (2).

Item 4. Principal Accountant Fees and Services.

Audit Fees

- (a) The aggregate fees billed for each of the last two fiscal years for professional services rendered by the principal accountant for the audit of the registrant's annual financial statements or services that are normally provided by the accountant in connection with statutory and regulatory filings or engagements for those fiscal years are \$785,733 for 2013 and \$732,480 for 2012.

Audit-Related Fees

- (b) The aggregate fees billed in each of the last two fiscal years for assurance and related services by the principal accountant that are reasonably related to the performance of the audit of the registrant's financial statements and are not reported under paragraph (a) of this Item are \$0 for 2013 and \$0 for 2012.

Table of Contents

Tax Fees

- (c) The aggregate fees billed in each of the last two fiscal years for professional services rendered by the principal accountant for tax compliance, tax advice, and tax planning are \$396,220 for 2013 and \$438,490 for 2012.

All Other Fees

- (d) The aggregate fees billed in each of the last two fiscal years for products and services provided by the principal accountant, other than the services reported in paragraphs (a) through (c) of this Item are \$0 for 2013 and \$0 for 2012.

- (e)(1) Disclose the audit committee's pre-approval policies and procedures described in paragraph (c)(7) of Rule 2-01 of Regulation S-X.

Per Rule 2-01(c) (7) (A), the Registrant's audit committee charter provides that the audit committee shall select and approve in advance the retention of independent accountants to annually audit and provide their opinion on the Registrant's financial statements. The audit committee must also approve prior to appointment the engagement of the principal accountant to provide other audit services to the Registrant or to provide non-audit services to the Registrant, its investment adviser, or any entity controlling, controlled by, or under common control with its investment adviser (adviser/affiliate) that provides ongoing services to the Registrant, if the engagement by the investment adviser or adviser affiliate relates directly to the operations and financial reporting of the Registrant. The audit committee must also, prior to appointment of the engagement of the principal accountant, review and approve the fees proposed to be charged to the Registrant by the auditors for each audit and non-audit service. The audit committee must also consider whether non-audit services provided by the Registrant's principal accountant to the Registrant's investment adviser, or adviser/affiliate that provides ongoing services to the Trust are compatible with maintaining the auditor's independence.

- (e)(2) The Registrant's Audit Committee has approved 100% of services described in each of Items 4(b) through (d) pursuant to paragraph (c) (7) (A) of Rule 2-01 of Regulation S-X.

- (f) The percentage of hours expended on the principal accountant's engagement to audit the registrant's financial statements for the most recent fiscal year that were attributed to work performed by persons other than the principal accountant's full-time, permanent employees was 0%.

- (g) The aggregate non-audit fees billed by the registrant's accountant for services rendered to the registrant, and rendered to the registrant's investment adviser (not including any sub-adviser whose role is primarily portfolio management and is subcontracted with or overseen by another investment adviser), and any entity controlling, controlled by, or under common control with the adviser that provides ongoing services to the registrant for each of the last two fiscal years of the registrant was \$436,220 for 2013 and \$438,490 for 2012.

(h) Not applicable.
