## **CGG Begins Multi-Client Survey of Espirito Santo Basin**

*Paris, France May 15, 2014*

CGG announced today that it has started acquiring a large BroadSeis™ 3D multi-client survey program in the deep and ultra-deep waters of the Espirito Santo Basin. The project has received high prefunding from major industry players.

The *Espirito Santo Phase III* survey will cover an area of over 9,500 km<sup>2</sup>. The high-end BroadSeis data will be processed at CGG's Latin America subsurface imaging hub in Rio de Janeiro through advanced PSDM workflows in order to meet the specific imaging challenges of the Espirito Santo Basin sub-salt plays.

Jean-Georges Malcor, CEO, CGG, said: We are delighted to conduct this new multi-client project in the Espirito Santo Basin where CGG's recognized broadband imaging solutions will help to further unlock the fantastic potential of this basin. This program will add to the recent success of our broadband technology in the Santos Basin where CGG owns the largest 3D multi-client seismic library.

### **About CGG**

*CGG (www.cgg.com) is a fully integrated Geoscience company providing leading geological, geophysical and reservoir capabilities to its broad base of customers primarily from the global oil and gas industry.
