- D. Major Businesses
- (1) Wireless business

The Company provides wireless telecommunications services, characterized by its competitive strengths in handheld devices, affordable pricing, network coverage and an extensive contents library. Since the introduction of services employing LTE technology in July 2011, the telecommunications market for such services has grown as demand for fast data transfer speeds and differentiated services has increased. Having reached one million subscribers by January 2012 and over 10 million subscribers by April 2013, the Company has solidified its leadership position in LTE services as it has done with its 3G services. In June 2013, the Company became the first telecommunications service provider in the world to provide commercial LTE-Advanced (LTE-A) services using carrier aggregation technology, and in June 2014, the Company reaffirmed the Company s technological leadership by becoming the first to provide commercial 225 Mbps wideband LTE-A services, which is three times faster than LTE. In line with such efforts, the Company set forth its vision under the name of ICTnomics which is derived from the meaning of information and communication technology (ICT), and launched unlimited LTE data plans and other innovative data plans such as Rush hour / Subway Free plans that are unlimited data plans based on time, place and occasion (or, TPO). The Company plans to increase profitability by transforming into a telecommunications company fit for the age of big data and strengthening its fundamental competitive edges.

By pioneering services that provide differentiated customer experience, including the T-Phone, the Company expects to become a leader in ICT.

In the business-to-business area, the Company is strengthening its solutions business through the implementation of five main solution products: Smart Store, Smart Work, Smart Cloud, Green & Safety and M Ad & Payment. Since the commercial launch of its mobile IPTV services, B tv Mobile, in October 2012, the Company has gained over one million paying subscribers as of March 2014. The Company is the first telecommunications services provider in the world to provide full high definition streaming services using its LTE-A network. With increasing video on demand usage and the potential to expand into other business areas such as advertising and shopping, the Company expects that the mobile IPTV services business will grow in the mid- to long-term. The Company also plans to create and fortify new businesses including health care, and seek out new growth engines in existing businesses, including the intelligence business, by utilizing its technologies relating to big data.

In addition, in order to strengthen our sales channels, the Company has been offering a variety of fixed-line and wireless telecommunication convergence products to its customers through PS&Marketing Co., Ltd. (PS&Marketing), one of its subsidiaries. Through Service Ace Co., Ltd., another subsidiary, the Company operates customer service centers in Seoul and provides telemarketing services. Furthermore, Network O&S Co., Ltd., the Company s subsidiary responsible for the operation of the Company s 2G to 4G networks (including its CDMA, WCDMA and LTE networks), provides customers with quality network services and provides the Company with technological know-how in network operations.

(2) Fixed-line business

SK Broadband Co., Ltd. (SK Broadband) is engaged in providing telecommunications, broadcasting and new media services and various other services that are permitted to be carried out by SK Broadband under relevant regulations, as well as business activities that are directly or indirectly related to providing those services. In 1999, SK Broadband launched its high-speed Internet service in Seoul, Busan, Incheon and Ulsan, and currently provides such service nationwide. SK Broadband also commercialized its TV-Portal service in July 2006 and its IPTV service in January 2009 upon receipt of permit in September 2008.

(3) Other businesses

With respect to the Company s e-commerce business, 11th Street, a platform service that connects various sellers and purchasers online, continues to gain market share. In the commerce platform business area, the Company, utilizing the existing network of partner businesses of OK Cashbag, Korea s largest loyalty mileage program with 37 million members, consumer information from big data, information technology, and other sources of competitive edges that can lead the industry, launched Syrup to provide smart shopping services to consumers and Syrup Store to provide integrated marketing solutions to partner businesses in June 2014. Syrup, a mobile wallet service upgraded and rebranded from the Smart Wallet, reached 11.7 million users as of June 30, 2014 and leads the online-to-offline commerce. In the location-based services business area, users of the Company s T-Map Navigation service reached 19.2 million as of June 30, 2014. T-Map Navigation provides real time traffic information and various local information. Utilizing location-based service technology in other services, including leisure, logistics and travel services, the Company provides increased convenience and added value to customers. In the digital contents business area, the Company provides high-quality digital contents in its leading mobile contents marketplace, T Store, which had 22.7 million subscribers as of June 30, 2014 and which the Company plans to expand. In the media business area, the Company provides Hoppin service that enables subscribers to access various multimedia contents through personal computers, mobile devices and other digital devices. In the advertising business area, the Company is engaged in advertisement production, promotion services and research and consulting services to substantively help businesses increase their value in a rapidly evolving business environment. Through M&Service Co., Ltd. (M&Service), one of its subsidiaries, the Company also develops, supplies and provides technical support for system software relating to commerce platforms, and provides other online information services.

SK Communications Co., Ltd. (SK Communications) provides integrated Internet portal services through NATE and instant messaging services through NATE-ON. Key sources of revenue for SK Communications are display advertising, search engine-based advertising, and contents and other services. Display advertising consists of image, video and Flash-based multimedia advertising carried on NATE and NATE-ON and aims to give greater exposure to the advertiser s brand name to the public. The increased effectiveness of online media as an advertising outlet has resulted in a greatly expanded advertiser base, and the increasing variety in the format of advertising has contributed to the growth of display advertising. Search engine-based advertising refers to the type of advertising that embeds advertisements within search results produced by searches of certain keywords on the NATE portal site. Search engine-based advertising has a certain appeal to small and medium-sized advertisers. Contents and other services include contents sales and providing certain types of services. Revenues from contents and other services are generated through revenues from NATE-ON instant messaging, custom decorations for mobile phones, cartoon strips, fortunetelling, movies and other contents services. In addition, SK Planet Co., Ltd. (SK Planet) receives revenue from its services agreement with the Company in connection with operation of WAP wireless NATE services and application development.

4. Disposition of shares of Service-In

On November 19, 2012, SK Communications sold all of its shares (80,000 common shares) in Service-In Co., Ltd., its subsidiary, to the chief executive officer of Service-In Co., Ltd., pursuant to a resolution of its board of directors of October 31, 2012.

[PS&Marketing]

On February 20, 2014, the board of directors of PS&Marketing resolved to acquire the retail distribution business, including related assets, liabilities, contracts and human capital of the information technology and mobile wing of SK Networks. On the same day, the board of directors of PS&Marketing also resolved to acquire retail stores, including their assets and liabilities, of LCNC Co., Ltd (LCNC). The acquisitions were completed on April 30, 2014 at a purchase price of Won 124.5 billion for the assets acquired from SK Networks and a purchase price of Won 10 billion for the assets acquired from LCNC.

[M&Service]

Upon the merger between SK Marketing & Company, which held 100% equity stake in M&Service, and SK Planet on February 1, 2013, SK Planet holds 100% equity stake in M&Service.

E. Other Important Matters related to Management Activities

[SK Telecom]

(1) Issuance of bonds

On April 23, 2013, the Company issued two tranches of fixed-rate unsecured bonds in the principal amounts of Won 230 billion (with an annual interest rate of 3.03% and a maturity date of April 23, 2023) and Won 130 billion (with an annual interest rate of 3.22% and a maturity date of April, 23, 2033).

On May 14, 2014, the Company issued four tranches of fixed-rate unsecured bonds in the principal amounts of Won 50 billion (with an annual interest rate of 3.301% and a maturity date of May 14, 2019), Won 150 billion (with an annual interest rate of 3.637% and a maturity date of May 14, 2024), Won 50 billion (with embedded options, an annual interest rate of 4.725% and a maturity date of May 14, 2029), and Won 50 billion (with embedded options, an annual interest rate of 4.72% and a maturity date of May 14, 2029).

(2) Issuance of hybrid securities

On June 7, 2013, the Company issued Won 400 billion principal amount of hybrid securities in the form of unguaranteed subordinated bonds with an annual interest rate of 4.21%, which interest rate is adjusted five years after the date of issuance. The Company classified the hybrid securities as equity as there is no contractual obligation to deliver financial assets to the bondholders. The maturity date of the hybrid securities is June 7, 2073, which can be extended by the Company without any notice or announcement.

(3) Conversion of convertible notes

On April 7, 2009, the Company issued convertible notes with a maturity of five years in the principal amount of US\$332,528,000 with an annual interest rate of 1.75%. In 2013, holders exercised their conversion rights with respect to an aggregate principal amount of US\$326,023,000 of the convertible notes. The Company delivered 1,241,337 treasury shares in respect of US\$170,223,000 of the exercised aggregate principal amount and delivered cash in respect of the remainder due to the limit on foreign ownership. In connection with such conversion, the Company recognized Won 135,108 million in financial expenses in 2013. On November 13, 2013, the Company exercised its early redemption right and on December 13, 2013, redeemed the US\$6,505,000 principal amount of convertible notes not converted by noteholders. A 20-day volume weighted average pricing formula was used for the delivery of cash made in place of treasury shares. Due to such calculation, the Company still had US\$91,108,507 outstanding in payables as of December 31, 2013. The amount was delivered in full as of January 6, 2014 and currently has no amount outstanding.

[SK Broadband]

SK Broadband acquired subscriberships of regional cable and other service providers on several different occasions. Such acquisitions were intended to secure a stable subscriber base for its broadband Internet service and, at the same time, increase the service coverage area. Because such acquisitions were conducted on a relatively small scale and involved purchase of subscriberships, SK Broadband did not believe such acquisitions rose to the level of purchasing an entire business line from another company or were likely to have a material impact on its business, and therefore decided that such acquisitions did not require resolutions of its shareholders.

[SK Communications]

In July 2011, there was a leak of personal information of subscribers of NATE and Cyworld websites operated by SK Communications. As of June 30, 2014, 22 lawsuits were filed against SK Communications, alleging that the leak was caused by its poor management of subscribers personal information and seeking damages of approximately Won 2.0 billion. With respect to a few of the lawsuits, the relevant district courts have rendered judgments for the relevant plaintiffs claims in part and SK Communications has appealed such judgments to the applicable high courts, where the cases are currently pending. Other cases remain pending at various district courts in Korea.

[Wireless Business]

A. Industry Characteristics

As of December 31, 2013, the Korean mobile communication market can be considered to have reached its maturation stage with more than a 100% penetration rate. However, the Korean mobile communications market continues to improve in the quality of services with the help of advances in network-related technology and the development of highly advanced LTE-A, LTE and 3G smartphones which enable the provision of convergence services for multimedia contents, mobile commerce, telematics, new media and other related services. In addition, through the commercialization of LTE network in July 2011 and LTE-A network in June 2013, B2B businesses, such as the corporate connected workforce business which can directly contribute to an enhancement in productivity, are expected to grow rapidly. In the first half of 2014, wideband LTE-A service was commercialized and by late 2014, technology will progress for the commercialization of the 3band LTE-A service, which bundles three different bandwidths to allow faster network service.

C. Domestic and Overseas Market Conditions

The Korean mobile communication market includes the entire population of Korea with mobile communication service needs, and almost every Korean is considered a potential user. Sales revenue related to data services is expected to increase due to the increasing popularity of smartphones and high-speed wireless networks. The importance of the business-to-business segment, which creates added value by selling and developing various solutions, is also growing. Seasonal and economic fluctuations have much less impact on the Korean mobile communication market compared to other industries.

D. Business Overview and Competitive Strengths

The Company is seeking to transform itself from a telecommunications service provider into a comprehensive ICT service provider. It has continued to innovate the scope of its services and achieved strong growth in subscribers amid fierce competition and rate cuts. As a result, for the six months ended June 30, 2014, the Company recorded Won 8.5 trillion in revenue and Won 800 billion in operating income on a consolidated basis and Won 6.5 trillion in revenue and Won 780 billion in operating income on a separate basis.

The number of subscribers (including MVNO subscribers) as of June 30, 2014 was 27.89 million, an increase of approximately 80,000 from the previous quarter. In particular, the number of smartphone subscribers as of June 30, 2014 was 18.93 million, an increase of approximately 110,000 from the previous quarter, including 15.38 million LTE subscribers, solidifying the Company s market leadership. Following the launch of commercial LTE services in July 2011, the Company became the first telecommunications service provider in the world to launch commercial wideband LTE-A services in June 2014. By launching various high quality services utilizing the LTE-A and wideband LTE networks such as group video conference call services, full high definition mobile IPTV streaming services, and T Baseball Multiview, which allows users to watch multiple baseball games on one screen, the Company plans to provide an innovative user experience, enhance customer satisfaction and increase profitability.

The Company has proved that it has superior network quality compared to its competitors according to the Korea Communications Commission quality evaluations. The Company has also proved to be the leader in Korea s top three customer satisfaction indices: according to the National Customer Satisfaction Index, Korean Customer Satisfaction Index and Korean Standard Service Quality Index, the Company has continued to hold the leading position for 17 years, 16 years and 15 years, respectively.

SK Telink, a consolidated subsidiary of the Company, expanded its operations to the MVNO business based on its technical expertise and know-how obtained in its international telecommunications business and launched its MVNO service, 7Mobile, which is offered at reasonable rates and provides excellent quality. SK Telink is increasing its efforts to develop low-cost distribution channels and create niche markets through targeted marketing towards customers with lower average revenue per user. An MVNO leases the networks of a mobile network operator (MNO) and provides wireless telecommunication services under its own brand and fee structure, without owning telecommunication networks or frequencies.

Network O&S, a subsidiary of the Company responsible for the operation of the Company s base stations and related transmission and power facilities, offers quality fixed-line and wireless network services to customers, including mobile office products to business customers.

PS&Marketing, a subsidiary of the Company, provides a sales platform for products of the Company and SK Broadband including fixed-line and wireless telecommunication products which address customers needs for various convergence products. PS&Marketing provides differentiated service to clients through the establishment of new sales channels and product development.

[Fixed-line Business]

A. Industry Characteristics

As subscribers to various bundled wireless and fixed-line products are continuing to increase, the IPTV business is evolving to satisfy diverse customer needs for media services through differentiated service offerings including mobile IPTV, bundled wireless and IPTV products and smart set-top box services for smart televisions. The market for our corporate business is also growing with cloud computing, mobile offices and other new information and communications technologies being commercialized. The increased usage of smartphones and tablet computers, the pilot programming of commercial ultra-high definition television broadcasting services and competition for wideband LTE services has greatly increased data traffic, thereby further emphasizing the importance of fixed-line network infrastructure that is capable of handling large capacities of data traffic with stability and efficiency.

High-speed Internet, fixed-line telephone and IPTV services are mature markets that are generally not sensitive to cyclical economic changes due to the easing of competition resulting from the decrease in differentiation between service providers and the nature of the respective services. The telecommunications services market overall is not expected to be particularly affected by economic downturns due to the low income elasticity of demand for telecommunication services.

Set forth below is the historical market share of the Company.

In 1999, the Company was the first in the world to commence commercial ADSL services and on the back of its premium technology and enhanced competitiveness achieved through bundled products, it is currently expanding subscriber base across all of its businesses, including broadband Internet, telephone and IPTV. In particular, SK Broadband has positioned itself to focus on corporate customer services and IPTV services as key strategic areas for mid- to long-term growth, exploiting opportunities in new ICT-based businesses that have led to revenue growth, and providing differentiated contents in its IPTV business by securing popular programming which includes exclusive children s channels and live broadcasts of Major League Baseball games. In addition, in September 2013, the Company developed technology that compresses videos for its ultra-high definition IPTV services. During the first quarter of 2014, the Company commercialized new transmission technology that can more efficiently transmit signals on the hybrid fiber-coaxial network despite its limited frequency. Furthermore, the Company solidified its technological leadership for providing ultra-high definition broadcasting for wireless and fixed line in the IPTV industry by commercializing a unique ultra-high-definition service that can be provided directly to smart televisions without the installation of smart set-top boxes in April 2014 and started transmitting ultra-high definition contents to mobile IPTV in May 2014.

SK Telink provides international telecommunications service. SK Telink has been able to establish itself as a market leader as a result of its affordable pricing, proactive marketing and the quality of its services. It launched a mobile phone-based international calling service under the brand name 00700 in 1998, creating a new niche market within the long-distance telephony market that was otherwise dominated by existing service providers. In 2003, SK Telink was designated a common carrier for international calling services, which allowed us to expand our international calling services to fixed-line international calling services. SK Telink plans to strategically target the convergence of wireless and fixed-line telecommunications and strengthen its existing business, including international and long-distance calling services, value-added services for local calling and B2B services, and video conference call services while aiming to satisfy the diverse needs of customers through the provision of quality solutions at reasonable prices.

A. Industry Characteristics

As the number of smartphones distributed in Korea exceeds 30 million, the growth in various mobile devices has spurred the rise of the service provider with a strong platform business as the leader in the ICT market. It is becoming increasingly important to enhance competitiveness by building a platform with large data capacity to handle the increase in data transmission.

A platform business acts as an intermediary by promoting interactions among various customer groups, thereby generating new values. It is important for a platform business to continually attract subscribers and users and to create an ecosystem with certain lock-in effects. A platform can exist in various forms, including as a technological standard (iOS, Android OS), a subscriber-based service platform (Facebook, Twitter) or a marketplace (Amazon, T Store). Platform businesses are evolving and expanding globally.

A platform business has strong growth potential due to its connectivity with related services and ease of global expansion. Apple became a world-leading smartphone producer based on its innovative design and the competitive strength of its App Store platform. Google has created a new ecosystem of long-tail advertising by attracting millions of third parties to its advertising platform, as well as showing strong growth in mobile markets with its competitive platform based on Android OS. It is becoming increasingly important to enhance competitiveness through a database that can register and analyze purchase patterns of customers across all areas and a platform with large data capacity to utilize this database and provide differentiated services to customers.

B. Growth Potential

The scope and value generated by the platform business, including application and content marketplaces and N-screen services, continues to increase, as smartphones and tablet computers become more popular and the bandwidth and speed of network infrastructure improve. As the wireless network evolves to LTE, business opportunities for the platform business exist, including multimedia streaming, N-screen service based on cloud technology and high-definition location-based services. Since the platform business realizes profit by connecting with advertisements or commerce sites after building a critical mass of subscribers and traffic, the recent growth in the advertising and commerce markets is expected to present an opportunity for platform businesses. The importance of building a platform with large data capacity that is connected to various digital contents and commerce is expected to increase in the future.

C. Domestic and Overseas Market Conditions

(1) Commerce markets

The Company expects that online commerce markets will continue to grow due to the growth potential of the Internet shopping population, the strengthening of online business models by off-line operators, and the rapid rise of mobile commerce. Recently, due to the widespread use of smartphones and social media, the commercialization of location-based services and the development of big data technology, online to offline (or, O2O) business, which is a concept of attracting customers to offline stores using online and mobile environments, is being highlighted as a new field in the online commerce market industry.

(2) Digital contents

The growth of application marketplaces, which started with Apple s App Store, provides the platform business with new opportunities for revenue generation. The competitive paradigm is shifting from a competition among platform operators toward a competition among eco-systems that include application developers as well as platform operators.

Due to an increase in the number of devices owned by each user and an increase in network speed, each user can now enjoy music or video files anywhere and anytime by storing them in cloud servers, which is called N-screen service. Users can recommend music to other users through social networking services and this is expected to become a distribution model for digital media contents. Various service providers are competing in this market expecting a strong growth in the online and mobile video market.

D. Business Overview and Competitive Strengths

The Company plans to expand its platform ecosystem focusing on its Open & Collaboration motto in operating its commerce business such as 11th Street, Syrup, and OK Cashbag, its digital contents business such as T Store and Hoppin, and its location-based service business such as T-Map Navigation, thereby ultimately increasing its enterprise value.

(1) Commerce

11th Street, an online marketplace, has continued its growth through effective marketing and customer satisfaction. Despite its later entry into the online commerce market (launched in 2008) which was already divided between Auction and G-Market, it is leading the domestic e-commerce market and is also rapidly growing in the mobile commerce market. Growth plans involving overseas joint ventures based on 11th Street s business expertise have resulted in the successful launch of an open online commerce market in Turkey in partnership with Doğuş Group in March 2013. In Indonesia, an open market platform was successfully launched through a joint venture established in July 2013 with PT XM Axiata Tbk, a wireless telecommunications company in Indonesia.

Syrup is a consumer-oriented commerce service and its goal is to minimize its customers time and efforts while maximizing the economic benefits provided by providing information about coupons and events based on time, place and occasion. To achieve this goal, Syrup combines location-based services, such as geo-fencing, a virtual perimeter technology using a global positioning system (or, GPS) and Bluetooth Low Energy (or, BLE), with big data analysis of consumption patterns. Syrup s business partners can benefit from cost-effective marketing through Syrup by utilizing statistics and analysis regarding consumers frequency of visits, preferred products, and consumption patterns.

OK Cashbag is a point-based loyalty marketing program which has grown to become a global top-tier loyalty marketing program since its inception in 1999. Customers have access to increased benefits through accumulation of loyalty reward points and partner companies use OK Cashbag as a marketing resource. With 37 million subscribers, OK Cashbag maintains a leading position in the industry and plans to continue strengthening its position by providing customized services befitting customers needs and market conditions.

(2) Location-based services

T-Map Navigation provides map, local information, real-time traffic information and navigation services. With cumulative subscribers of 19.19 million as of June 30, 2014, T-Map Navigation is one of the leading location-based service platforms in Korea. The Company is broadening the range of its location-based services by also providing infotainment systems to commercial vehicle businesses as well as providing localized content on its products, such as region-specific information and advertisements. The Company plans to further develop the T-Map Navigation platform by initiating open application programming interface-based services, providing services to more diverse types of devices and providing local area-based services.

(3) Digital contents

T Store, launched in September 2009, reached 22.69 million subscribers and cumulative downloads of 2.2 billion as of June 30, 2014, solidifying its leadership position in the application market and plans to widen its services to tablets and navigation devices. The Company intends to further develop T Store into a personalized gateway and mobile playground through expansion of the scope of serviceable devices, reinforcement of digital content offerings and enhancement of search services, among other things.

The Company s Hoppin service enables subscribers to enjoy wide-ranging video on demand contents. Through continual service improvements and stable service provision, Hoppin has become the leading mobile video on demand service.

(4) Social networking services (SNS) and Internet portal services

The Company s instant messenger service, Nate-On, had the largest market share of 36.8% in the instant messenger market in Korea with 6 million net users during June 2014. The Company s Internet search portal service, Nate, had a page-view market share of 5.1% as of June 30, 2014. (Source: Korean Click, based on fixed-line access)

Satellite DMB service

The Company launched its Hanbyul satellite in 2004 and received government approval in December 30, 2004 to provide satellite DMB services. Broadcasting through satellite DMB commenced in May 2005 and satellite DMB services expanded nationwide thereafter. On August 23, 2012, the board of directors of SK Telink resolved to discontinue operation of its satellite DMB services due to the rapid decrease in satellite DMB subscribers and the continued burden of fixed costs.

B. Changes to Accounting Standards Adopted During 2012

(1) Financial Instruments: Disclosures

Basic Earnings Per Share (Won)

Diluted Earnings Per Share (Won)

The Company has applied the amendments to K-IFRS No.1107, Financial Instruments: Disclosures since January 1, 2012. The amendments require disclosing the nature of transferred assets, their carrying amount, and the description of risks and rewards for each class of transferred financial assets that are not derecognized in their entirety. If the Company derecognizes transferred financial assets but still retains their specific risks and rewards, the amendments require additional disclosures of their risks.

(2) Presentation of Financial Statements

The Company adopted the amendments pursuant to the amended K-IFRS No. 1001, Presentation of Financial Statements starting with the year ended December 31, 2012. The Company s operating income is calculated as operating revenue less operating expense. Operating expense represents expense incurred from the Company s main operating activities and includes cost of products that have been resold and selling, general and administrative expenses.

- C. Changes to Accounting Standards Adopted During 2013
- (1) Presentation of Financial Statements

The Company has applied the amendments to K-IFRS No. 1001, Presentation of Financial Statements since January 1, 2013, classified items within other comprehensive income by nature and presented items that are not subsequently recycled through profit or loss and items that are subsequently reclassified if certain conditions are met as a group.

(2) Consolidated Financial Statements

The Company has applied the amendments to K-IFRS No. 1110, Consolidated Financial Statements since January 1, 2013. The standard introduces a single control model to determine whether an investee should be consolidated. Subsidiary is an entity that is controlled by a controlling entity or a subsidiary of a controlling company. A controlling entity or a subsidiary of a controlling company controls a subsidiary when the controlling entity or the subsidiary of the controlling company is exposed, or has rights, to variable returns from its involvement with the subsidiary and has the ability to affect those returns through its power over the subsidiary.

(3) Joint Arrangements

The Company has applied the amendments to K-IFRS No. 1111, Joint Arrangements since January 1, 2013. The standard classifies joint arrangements into two types joint operations and joint ventures. A joint operation is a joint arrangement whereby the parties that have joint control of the arrangement (i.e. joint operators) have rights to the assets, and obligations for the liabilities, relating to the arrangement. A joint venture is a joint arrangement whereby the parties that have joint control of the arrangement (i.e. joint operators) have rights to the assets, and obligations for the liabilities, relating to the arrangement. A joint venture is a joint arrangement whereby the parties that have joint control of the arrangement (i.e. joint ventures) have rights to the net assets of the arrangement. The standard requires a joint operator to recognize and measure the assets and liabilities (and recognize the related revenues and expenses) in relation to its interest in the arrangement in accordance with relevant IFRSs applicable to the particular assets, liabilities, revenues and expenses. The standard requires a joint venture to recognize an investment and to account for that investment using the equity method.

(4) Disclosure of Interests in Other Entities

The Company has applied the amendments to K-IFRS No. 1112, Disclosure of Interests in Other Entities since January 1, 2013. The standard brings together into a single standard all the disclosure requirements about an entity s interests in subsidiaries, joint arrangements, associates and unconsolidated structured entities. The Company is currently assessing the disclosure requirements for interests in subsidiaries, interests in joint arrangements and associates and unconsolidated structured entities in comparison with the existing disclosures. The standard requires the disclosure of information about the nature, risks and financial effects of these interests.

(5) Employee Benefits

The Company has applied the amendments to K-IFRS No. 1019, Employee Benefits since January 1, 2013. The standard requires recognition of actuarial gains and losses immediately in other comprehensive income and to calculate expected return on plan assets based on the rate used to discount the defined benefit obligation.

(6) Fair Value Measurement

The Company has applied the amendments to K-IFRS No. 1113, Fair Value Measurement since January 1, 2013. The standard defines fair value and a single framework for fair value, and requires disclosures about fair value measurements.

D. Impact of Changes in Accounting Policies

(1) Consolidated Financial Statements

In accordance with the transitional provision on K-IFRS No. 1110, the Company assessed control on investees as of January 1, 2013, the initial adoption date of the standard, and there have been no changes in subsidiaries upon adoption of the standard.

[SK Telecom]

A. Material Legal Proceedings

(1) Claim for copyright license fees regarding Coloring services

On May 7, 2010, Korea Music Copyright Association (KOMCA) filed a lawsuit with the court demanding that the Company pay KOMCA license fees for the Company s Coloring services. The court rendered a judgment against the Company ordering the Company to pay Won 570 million to KOMCA, which was affirmed by the appellate court on October 26, 2011. The Company filed an appeal at the Supreme Court of Korea and the judgment was overturned on July 11, 2013. The case was remanded down to the appellate court and the Company expects to successfully defend the suit, based on recent decisions in similar suits involving KT and LGU+. While the Company does not expect this litigation to have an immediate impact on the Company s business or results of operation as the final outcome of this litigation has not been determined, the Company may be required to pay increased annual license fees to KOMCA if the final judgment is rendered against the Company.

- * Actual impact on the Company s business and financial condition from the litigation may be different from the Company s expectation stated above.

Independent Auditors Review Report

Based on a report originally issued in Korean

To The Board of Directors and Shareholders

SK Telecom Co., Ltd.:

Reviewed financial statements

We have reviewed the accompanying condensed consolidated interim financial statements of SK Telecom Co., Ltd. and its subsidiaries (the Group), which comprise the condensed consolidated statement of financial position as of June 30, 2014, the related condensed consolidated statements of income and comprehensive income for the three-month and six-month periods ended June 30, 2014 and 2013, the condensed consolidated interim statements of changes in equity and cash flows for the six-month periods ended June 30, 2014 and 2013, and notes to the interim financial statements.

Management s responsibility

Management is responsible for the preparation and fair presentation of these condensed consolidated interim financial statements in accordance with Korean International Financial Reporting Standards (K-IFRS) No.1034, Interim Financial Reporting, and for such internal controls as management determines necessary to enable the preparation of condensed consolidated interim financial statements that are free from material misstatement, whether due to fraud or error.

Auditors responsibility

Our responsibility is to issue a report on these condensed consolidated interim financial statements based on our reviews.

We did not review the financial statements of SK Broadband Co., Ltd., a domestic subsidiary, and an associate, whose financial statements constitute 11.8% of the Group s consolidated operating revenue and 23.5% of the Group s profit before income tax for the six-month period ended June 30, 2013. Other auditors reviewed those financial statements and our report, insofar as it relates to the amounts included for these entities, is based solely on the reports of other auditors.

We conducted our reviews in accordance with the Review Standards for Quarterly and Semiannual Financial Statements established by the Securities and Futures Commission of the Republic of Korea. A review of interim financial statements consists principally of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with auditing standards generally accepted in the Republic of Korea and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our reviews and the reports of other auditors, nothing has come to our attention that causes us to believe that the accompanying condensed consolidated interim financial statements referred to above are not prepared fairly, in all material respects, in accordance with K-IFRS No.1034 Interim Financial Reporting .

Highlights

As discussed in note 36 to the condensed consolidated interim financial statements, the Group disposed of a controlling equity interest in Loen Entertainment, Inc., during the year ended December 31, 2013. The Group presented the results of operations of Loen Entertainment, Inc. as a discontinued operation and accordingly restated the comparative information for the three and six-month period ended June 30, 2013.

Other matters

The consolidated statement of financial position of the Group as of December 31, 2013, and the related consolidated statements of income, comprehensive income, changes in equity and cash flows for the year then ended, which are not accompanying this report, were audited by us and our report thereon, dated February 21, 2014, expressed an unqualified opinion. The accompanying condensed consolidated statement of financial position of the Group as of December 31, 2013, presented for comparative purposes, is not different from that audited by us in all material respects.

The procedures and practices utilized in the Republic of Korea to review such condensed consolidated interim financial statements may differ from those generally accepted and applied in other countries.

SK TELECOM CO., LTD. and Subsidiaries

Notes to the Condensed Consolidated Interim Financial Statements

For the six-month periods ended June 30, 2014 and 2013

2. Basis of Preparation

(1) Statement of compliance

The condensed consolidated interim financial statements have been prepared in accordance with Korean International Financial Reporting Standards (K-IFRS), as prescribed in *the Act on External Audits of Stock Companies*.

These condensed consolidated interim financial statements were prepared in accordance with K-IFRS No. 1034, Interim Financial Reporting as part of the period covered by the Group s K-IFRS annual financial statements. Selected explanatory notes are included to explain events and transactions that are significant to an understanding of the changes in financial position and performance of the Group since the last annual consolidated financial statements as at and for the year ended December 31, 2013. These condensed consolidated interim financial statements do not include all of the disclosures required for full annual financial statements.

(2) Use of estimates and judgments

1) Assumptions and estimation uncertainties

The preparation of the condensed consolidated interim financial statements in conformity with K-IFRS requires management to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates.

In preparing these condensed consolidated interim financial statements, the significant judgments made by management in applying the Group s accounting policies and the key sources of estimation uncertainty were the same as those that applied to the consolidated financial statements as of and for the year ended December 31, 2013.

2) Fair value measurement

The Group establishes fair value measurement policies and procedures as its accounting policies and disclosures require fair value measurements for the majority of financial and non-financial assets and liabilities. Such policies and procedures are executed by the valuation division, which is responsible for the review of significant fair value measurements including fair value classified as level 3 in the fair value hierarchy and the results of which are directly reported to the finance executive.

The valuation division regularly reviews unobservable significant inputs and valuation adjustments. If third party information such as prices available from an exchange, dealer, broker, industry group, pricing service or regulatory agency is used for fair value measurements, the valuation division reviews whether the valuation based on third party information includes classification by levels within the fair value hierarchy and meets the requirements for the relevant standards.

2. Basis of Preparation, Continued

The Group uses the best observable inputs in market when measuring fair values of assets or liabilities. Fair values are classified within the fair value hierarchy based on inputs used in valuation method, as follows:

- ü Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities
- ü Level 2: inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices)
- ü Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs)

If various inputs used to measure fair value of assets or liabilities are transferred between levels of the fair value hierarchy, the Group classifies the assets and liabilities at the lowest level of inputs among the fair value hierarchy which is significant to the entire measured value and recognizes transfers between levels at the end of the reporting period of which such transfers occurred.

Information about assumptions used for fair value measurements are included in Note 34.

(3) Common control transactions

SK Holdings Co., Ltd. (the Ultimate Controlling Entity) is the ultimate controlling entity of the Parent Company because it has de facto control of the Parent Company. Accordingly, gains and losses from business acquisitions and dispositions involving entities that are under the control of the Ultimate Controlling Entity are accounted for as common control transactions within equity.

3. Significant Accounting Policies

Except as described below, the accounting policies applied by the Group in these condensed consolidated interim financial statements are the same as those applied by the Group in its consolidated financial statements as of and for the year ended December 31, 2013. The following changes in accounting policy are also expected to be reflected in the Group s consolidated financial statements as at and for the year ending December 31, 2014.

(1) Changes in accounting policies

1) Offsetting financial assets and financial liabilities

The Group has applied the amendments to K-IFRS No.1032, Financial instruments: Presentation since January 1, 2014. This standard requires financial assets and financial liabilities being offset and the presentation of financial assets and financial liabilities on a net basis when, and only when, the Group currently has a legally enforceable right to set off the recognized amounts and intends either to settle on a net basis, or to realize the asset and settle the liability simultaneously.

The right of set-off that cannot be contingent on a future event, and must be legally enforceable in all of the following circumstances: (i) the normal course of business; (ii) an event of default; and (iii) an event of insolvency or bankruptcy of the entity or any of the counterparties.

To meet the net settlement criterion, all settlements need to remove or reduce credit risk or liquidity risk as minor level. In case of single payment or payment period which can handle bonds and payables, settlement result needs to be paid as same as practical settle net.

There is no material impact of the application of this amendment on the consolidated financial statements.

4. Operating Segments

The Group s operating segments have been determined to be each business unit, for which the Group provides independent services and merchandise. The Group s reportable segments are: 1) cellular services, which include cellular voice service, wireless data service and wireless internet services, and 2) fixed-line telecommunication services, which include telephone services, internet services, and leased line services. All other operating segments, which include the Group s internet portal services and other operations, do not meet the quantitative thresholds to be considered reportable segments and are presented as other.

Cellular services include cellular voice service, wireless data service and wireless internet services. Fixed-line telecommunication services include telephone services, internet services, and leased line services. Other includes the Group s Internet portal services, game manufacturing and other immaterial operations.

Segment information of the Group for the six-month period ended June 30, 2013 has been retrospectively restated to exclude discontinued operations.

Intersegment sales and purchases are conducted on an arms-length basis and eliminated on consolidation. Since there are no intersegment sales of inventory, there is no unrealized intersegment profit to be eliminated on consolidation. The Group principally operates its business in its domestic market in Korea and the amounts outside of Korea are immaterial, therefore no entity-wide geographical information is presented.

No single customer contributed 10% or more to the Group s total revenue for the six-month periods ended June 30, 2014 and 2013.

Notes to the Condensed Consolidated Interim Financial Statements

For the six-month periods ended June 30, 2014 and 2013

12. Investments in Associates and Joint Ventures, Continued

- (*1) The Group classified the investments in SK China Company Ltd as investments in associates as the Group can exercise significant influence on these investees through participation of their board of directors.
- (*2) Investment in Korea IT Fund was classified as investment in associates as the Group has less than 50% of voting rights, and therefore does not have control over Korea IT Fund under the agreement.
- (*3) Reclassified as available-for-sale financial assets in 2014 as the Group lost the right to appoint directors of this investee and lost significant influence on the investee.
- (*4) Ownership percentage has reduced due to disproportionate paid-in capital increase during the six-month period ended June 30, 2014.
- (*5) The carrying amount has increased due to the additional investment and the conversion of convertible bonds during the six-month period ended June 30, 2014.
- (*6) Ownership percentage has been decreased due to the conversion of convertible bonds issued by SK hynix Inc.
- (*7) The carrying amount has increased due to additional investment during the six-month period ended June 30, 2014.

- (*5) As of June 30, 2014, SOR rate is 0.22%.
- (*6) On April 7, 2009, the Group issued exchangeable bonds with a maturity of five years in the principal amount of USD 332,528,000 for USD 326,397,463 with a coupon rate of 1.75%.

The Group may redeem the principal amount after three years from the issuance date if the market price exceeds 130% of the exchange price during a predetermined period. The exchange right may be exercised during the period from May 18, 2009 to March 24, 2014.

Exchanges of notes for common shares may be prohibited under the Telecommunications Law or other legal restrictions which restrains foreign governments, individuals and entities from owning more than 49% of the Group s voting stock. If such 49% ownership limitation is violated due to the exercise of exchange rights, the Group will pay the bond holder a cash settlement which will be determined at the average price of one day after a holder exercises its exchange right or the weighted average price for the following five or twenty business days. Unless either previously redeemed or exchanged, the notes are redeemable at 100% of the principal amount at maturity.

As of December 31, 2013, the principal amount and the fair value of the remaining exchangeable bonds were USD 57,046,000 and USD 91,108,508, respectively. Exchange for the remaining entire bonds was claimed during 2013 and has been redeemed by cash during the six-month period ended June 30, 2014.

(*7) The Group settled the difference of the measurement bases of accounting profit or loss between the bonds and related derivatives by appointing the structured bonds as designated financial liabilities at fair value through profit or loss.

The difference between the carrying amount of the designated financial liabilities at fair value through profit or loss and the amount required to pay at maturity is 7,793 million as of June 30, 2014.

34. Financial Risk Management

(1) Financial risk management

The Group is exposed to credit risk, liquidity risk and market risk. Market risk is the risk related to the changes in market prices, such as foreign exchange rates, interest rates and equity prices. The Group implements a risk management system to monitor and manage these specific risks.

The Group s financial assets under financial risk management consist of cash and cash equivalents, financial instruments, financial assets available-for-sale, trade and other receivables. Financial liabilities consist of trade and other payables, borrowings, and debentures.

- 1) Market risk
- (i) Currency risk

The Group is exposed to currency risk mainly on exchange fluctuations on recognized assets and liabilities. The Group manages currency risk by currency forward, etc. if needed to hedge currency risk on business transactions. Currency risk occurs on forecasted transaction and recognized assets and liabilities which are denominated in a currency other than the functional currency of the respective Group entities.

(iii) Interest rate risk

Edgar Filing: SK TELECOM CO LTD - Form 6-K

Since the Group s interest bearing assets are mostly fixed-interest bearing assets, as such, the Group s revenue and operating cash flow are not influenced by the changes in market interest rates. However, the Group still has interest rate risk arising from borrowings and debentures.

Accordingly, the Group performs various analysis of interest rate risk, which includes refinancing, renewal, alternative financing and hedging instrument option, to reduce interest rate risk and to optimize its financing.

34. Financial Risk Management, Continued

(1) Financial risk management, Continued

The Group s interest rate risk arises from floating-rate borrowings and debentures. As of June 30, 2014, floating-rate borrowings and debentures amount to 78,519 million and 610,688 million respectively, the Group has entered into interest rate swaps to hedge interest rate risk related to floating-rate debentures. (Refer to Note 22) If interest rate only increases (decreases) by 1%, income before income taxes for the six-month period ended June 30, 2014 would have been changed 393 million due to the interest expense from floating-rate borrowings.

2) Credit risk

Credit risk is the risk of financial loss to the Group if a customer or counterparty to a financial instrument fails to meet his/her contractual obligations. The maximum credit exposure as of June 30, 2014 and December 31, 2013 are as follows:

| (In millions of won) | | |
|---|-----------|-------------------|
| | June 30, | |
| | 2014 | December 31, 2013 |
| Cash and cash equivalents | 1,330,977 | 1,398,548 |
| Financial instruments | 328,900 | 319,616 |
| Available-for-sale financial assets | 16,547 | 35,174 |
| Accounts receivable trade | 2,495,965 | 2,270,470 |
| Loans and receivables | 1,198,818 | 1,044,529 |
| Derivative financial assets | 15,336 | 41,712 |
| Financial assets at fair value through profit or loss | 6,017 | 20,532 |
| | | |
| | 5,392,560 | 5,130,581 |

To manage credit risk, the Group evaluates the credit worthiness of each customer or counterparty considering the party s financial information, its own trading records and other factors; based on such information, the Group establishes credit limits for each customer or counterparty.

For the six-month period ended June 30, 2014, the Group has no trade and other receivables or loans which have indications of significant impairment loss or are overdue for a prolonged period. As a result, the Group believes that the possibility of default is remote. Also, the Group s credit risk can rise due to transactions with financial institutions related to its cash and cash equivalents, financial instruments and derivates. To minimize such risk, the Group has a policy to deal with high credit worthy financial institutions. The amount of maximum exposure to credit risk of the Group is the carrying amount of financial assets as of June 30, 2014.

In addition, the aging of trade and other receivables that are overdue at the end of the reporting period but not impaired is stated in Note 6 and the analysis of financial assets that are individually determined to be impaired at the end of the reporting period is stated in Note 30.

(2) Capital management

The Group manages its capital to ensure that it will be able to continue as a business while maximizing the return to shareholders through the optimization of its debt and equity balance. The overall strategy of the Group is the same as that of the group as of and for the year ended 31 December 2013.

The Group monitors its debt-equity ratio as a capital management indicator. This ratio is calculated as total debt divided by total equity; the total debt and equity is extracted from the financial statements.

Debt-equity ratio as of June 30, 2014 and December 31, 2013 are as follows:

| (In millions of won) | June 30, | |

(3) Fair value, Continued

Fair value of the financial instruments that are traded in an active market is measured based on the quoted market price at the end of the reporting date. Disclosed market price of the financial assets held by the Group is the bid price.

Fair value of the financial instruments that are not traded in an active market is determined using the valuation method. The Group uses the various valuation methods and makes assumptions that are mainly based on market conditions existing at the end of each reporting period. Fair value of financial instruments such as long-term liabilities is measured using the various methods including estimated discounted cash flow method.

Fair values of accounts receivable trade, and accounts payable trade are considered to be carrying amount less impairment and fair value of financial liabilities for the disclosure purpose is estimated by discounting contractual future cash flows using the current market interest rate used for the similar financial instruments by the Group.

Interest rates used by the Group for the fair value measurement as of June 30, 2014 are as follows:

| | Interest rate |
|---------------------------|---------------|
| Derivative instruments | 2.30 ~ 2.73% |
| Borrowings and debentures | 3.10 ~ 3.28% |

There have been no transfers from Level 2 to Level 1 for the six-month period ended June 30, 2014 and changes of financial assets classified as Level 3 for the six-month period ended June 30, 2014 are as follows:

Management s responsibility

Management is responsible for the preparation and fair presentation of these condensed separate interim financial statements in accordance with Korean International Financial Reporting Standards (K-IFRS) No.1034 Interim Financial Reporting, and for such internal controls as management determines necessary to enable the preparation of condensed separate interim financial statements that are free from material misstatement, whether due to fraud or error.

Auditors responsibility

Our responsibility is to issue a report on these condensed separate interim financial statements based on our reviews.

We conducted our reviews in accordance with the Review Standards for Quarterly and Semiannual Financial Statements established by the Securities and Futures Commission of the Republic of Korea. A review of interim financial statements consists principally of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with auditing standards generally accepted in the Republic of Korea and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our reviews, nothing has come to our attention that causes us to believe that the accompanying condensed separate interim financial statements referred to above are not prepared fairly, in all material respects, in accordance with K-IFRS No.1034 Interim Financial Reporting.

Other matters

The separate statement of financial position of the Company as of December 31, 2013, and the related separate statements of income, comprehensive income, changes in equity and cash flows for the year then ended, which are not accompanying this report, were audited by us and our report thereon, dated February 21, 2014, expressed an unqualified opinion. The accompanying condensed separate statement of financial position of the Company as of December 31, 2013, presented for comparative purposes, is not different from that audited by us in all material respects.

The procedures and practices utilized in the Republic of Korea to review such condensed separate interim financial statements may differ from those generally accepted and applied in other countries.

SK TELECOM CO., LTD.

Notes to the Condensed Separate Interim Financial Statements

For the six-month periods ended June 30, 2014 and 2013

1. Reporting Entity

SK Telecom Co., Ltd. (the Company) was incorporated in March 1984 under the laws of the Republic of Korea (Korea) to engage in providing cellular telephone communication services in Korea. The Company mainly provides wireless telecommunications in Korea. The Company s common shares and depositary receipts (DRs) are listed on the Stock Market of Korea Exchange, the New York Stock Exchange and the London Stock Exchange. As of June 30, 2014, the Company s total issued shares are held by the following:

| | Number of shares | Percentage of total shares issued (%) |
|---|---------------------|---------------------------------------|
| SK Holdings Co., Ltd. | 20,363,452 | 25.22 |
| National Pension Service, other institutional investors and | | |

| Treasury stock | 9,809,375 | 12.15 |
| | | |
| Total number of shares | 80,745,711 | 100.00 |

2. Basis of Presentation

(1) Statement of compliance

The condensed separate interim financial statements have been prepared in accordance with Korean International Financial Reporting Standards (K-IFRS), as prescribed in the Act on External Audits of Stock Companies.

These condensed separate interim financial statements were prepared in accordance with K-IFRS No. 1034, Interim Financial Reporting as part of the period covered by the Company s K-IFRS annual financial statements. Selected explanatory notes are included to explain events and transactions that are significant to an understanding of the changes in financial position and performance of the Company since the last annual separate financial statements as at and for the year ended December 31, 2013. These condensed separate interim financial statements do not include all of the disclosures required for full annual financial statements.

These condensed interim financial statements are separate interim financial statements prepared in accordance with K-IFRS No.1027, Separate Financial Statements presented by a parent, an investor in an associate or a venturer in a joint venture, in which the investments are accounted for on the basis of the direct equity interest rather than on the basis of the reported results and net assets of the investees.

(2) Use of estimates and judgments1) Assumptions and estimation uncertainties

The preparation of the condensed separate interim financial statements in conformity with K-IFRS requires management to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates.

In preparing these condensed separate interim financial statements, the significant judgments made by management in applying the Company s accounting policies and the key sources of estimation uncertainty were the same as those that applied to the financial statements as of and for the year ended December 31, 2013.

SK TELECOM CO., LTD.

Notes to the Condensed Separate Interim Financial Statements

For the six-month periods ended June 30, 2014 and 2013

2. Basis of Presentation, Continued

- (2) Use of estimates and judgments, Continued
- 2) Fair value measurement

The Company establishes fair value measurement policies and procedures as its accounting policies and disclosures require fair value measurements for the majority of financial and non-financial assets and liabilities. Such policies and procedures are executed by the valuation division, which is responsible for the review of significant fair value measurements including fair value classified as level 3 in the fair value hierarchy and the results of which are directly reported to the finance executive.

The valuation division regularly reviews unobservable significant inputs and valuation adjustments. If third party information such as prices available from an exchange, dealer, broker, industry group, pricing service or regulatory agency is used for fair value measurements, the valuation division reviews whether the valuation based on third party information includes classification by levels within the fair value hierarchy and meets the requirements for the relevant standards.

The Company uses the best observable inputs in market when measuring fair values of assets or liabilities. Fair values are classified within the fair value hierarchy based on inputs used in valuation method, as follows:

- ü Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities
- Level 2: inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices)

ü Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs)
 If various inputs used to measure fair value of assets or liabilities are transferred between levels of the fair value hierarchy, the Company classifies the assets and liabilities at the lowest level of inputs among the fair value hierarchy which is significant to the entire measured value and recognizes transfers between levels at the end of the reporting period of which such transfers occurred.

Information about assumptions used for fair value measurements are included in Note 28.

(3) Common control transactions

SK Holdings Co., Ltd. (the Ultimate Controlling Entity) is the Ultimate Controlling Entity of the Company because it controls the Company. Accordingly, gains and losses from business acquisitions and dispositions involving entities that are under the control of the Ultimate Controlling Entity are accounted for as common control transactions within equity.

SK TELECOM CO., LTD.

Notes to the Condensed Separate Interim Financial Statements

For the six-month periods ended June 30, 2014 and 2013

3. Significant Accounting Policies

Except as described below, the accounting policies applied by the Company in these condensed separate interim financial statements are the same as those applied by the Company in its separate financial statements as of and for the year ended December 31, 2013. The following changes in accounting policy are also expected to be reflected in the Company s separate financial statements as at and for the year ending December 31, 2014.

(1) Changes in accounting policies1) Offsetting financial assets and financial liabilities

The Company has applied the amendments to K-IFRS No.1032, Financial instruments: Presentation since January 1, 2014. This standard requires financial assets and financial liabilities being offset and the presentation of financial assets and financial liabilities on a net basis when, and only when, the Company currently has a legally enforceable right to set off the recognized amounts and intends either to settle on a net basis, or to realize the asset and settle the liability simultaneously.

The right of set-off that cannot be contingent on a future event, and must be legally enforceable in all of the following circumstances: (i) the normal course of business; (ii) an event of default; and (iii) an event of insolvency or bankruptcy of the entity or any of the counterparties.

To meet the net settlement criterion, all settlements need to remove or reduce credit risk or liquidity risk as minor level. In case of single payment or payment period which can handle bonds and payables, settlement result needs to be paid as same as practical settle net.

There is no material impact of the application of this amendment on the Company s financial statements.

Notes to the Condensed Separate Interim Financial Statements

For the six-month periods ended June 30, 2014 and 2013

12. Borrowings and Debentures, Continued

(*3) On April 7, 2009, the Company issued exchangeable bonds with a maturity of five years in the principal amount of USD 332,528,000 for USD 326,397,463 with a coupon rate of 1.75%.

The Company may redeem the principal amount after three years from the issuance date if the market price exceeds 130% of the exchange price during a predetermined period. The exchange right may be exercised during the period from May 18, 2009 to March 24, 2014.

Exchanges of notes for common shares may be prohibited under the Telecommunications Law or other legal restrictions which restrains foreign governments, individuals and entities from owning more than 49% of the Company s voting stock. If such 49% ownership limitation is violated due to the exercise of exchange rights, the Company will pay the bond holder a cash settlement which will be determined at the average price of one day after a holder exercises its exchange right or the weighted average price for the following five or twenty business days. Unless either previously redeemed or exchanged, the notes are redeemable at 100% of the principal amount at maturity.

As of December 31, 2013, the principal amount and the fair value of the remaining exchangeable bonds were USD 57,046,000 and USD 91,108,508, respectively. Exchange for the remaining entire bonds was claimed during 2013 and has been
