This Report of Foreign Private Issuer on Form 6-K is deemed filed for all purposes under the Securities Act of 1933, as amended, and the Securities Exchange Act of 1934, as amended.

On December 30, 2014, Korea Electric Power Corporation ( KEPCO ) completed the sales of 49 properties (including residential properties, storage spaces, and substation lots that are located in Korea) which are not directly related to its operations for an aggregate sale price of approximately Won 55.9 billion, representing 0.04% of its total assets as of December 31, 2013. The counterparties include, among others, Hanguk Housing Construction Co. Ltd.

The foregoing sales reflect KEPCO 's plans to improve its financial soundness through debt reduction and enhance its management efficiency, selling noncore properties that have no direct relations to electricity facilities. Given that sales of these properties are subject to a number of restrictions arising from the public nature of KEPCO 's business as an electricity utility provider and in consideration of prevailing conditions of the Korean real estate market, KEPCO has entered into multiple sales arrangements over time after full and careful consideration of all relevant factors.

For further details on relating to above-mentioned topics, see Form 6-K furnished to the Securities and Exchange Commission on August 21, 2014.
