The percentage shown for each investment category in the Portfolio of Investments is based on net assets.

At December 31, 2018, the concentration of the Fund's investments in the various states and territories, determined as a percentage of total investments, is as follows:

New York	14.4%
Texas	10.5%
Others, representing less than 10% individually	75.1%

The Fund invests primarily in debt securities issued by municipalities. The ability of the issuers of the debt securities to meet their obligations may be affected by economic developments in a specific industry or municipality. In order to reduce the risk associated with such economic developments, at December 31, 2018, 22.9% of total investments are backed by bond insurance of various financial institutions and financial guaranty assurance agencies. The aggregate percentage insured by an individual financial institution or financial guaranty assurance agency ranged from 0.3% to 6.2% of total investments.

- (1) Security represents the municipal bond held by a trust that issues residual interest bonds.
- (2) Variable rate demand obligation that may be tendered at par on any day for payment the same or next business day. The stated interest rate, which generally resets daily, is determined by the remarketing agent and represents the rate in effect at December 31, 2018.

At December 31, 2018, the Fund had sufficient cash and/or securities to cover commitments under open derivative contracts.

The Fund is subject to interest rate risk in the normal course of pursuing its investment objectives. Because the Fund holds fixed-rate bonds, the value of these bonds may decrease if interest rates rise. The Fund enters into U.S. Treasury futures contracts to hedge against changes in interest rates.

At December 31, 2018, the aggregate fair value of open derivative instruments (not considered to be hedging instruments for accounting disclosure purposes) in a liability position and whose primary underlying risk exposure is interest rate risk was \$1,570,024.

Under generally accepted accounting principles for fair value measurements, a three-tier hierarchy to prioritize the assumptions, referred to as inputs, is used in valuation techniques to measure fair value. The three-tier hierarchy of inputs is summarized in the three broad levels listed below.

Level 1 quoted prices in active markets for identical investments

Level 2 other significant observable inputs (including quoted prices for similar investments, interest rates, prepayment speeds, credit risk, etc.)

Level 3 significant unobservable inputs (including a fund's own assumptions in determining the fair value of investments)

In cases where the inputs used to measure fair value fall in different levels of the fair value hierarchy, the level disclosed is determined based on the lowest level input that is significant to the fair value measurement in its entirety. The inputs or methodology used for valuing securities are not necessarily an indication of the risk associated with investing in those securities.

At December 31, 2018, the hierarchy of inputs used in valuing the Fund's investments and open derivative instruments, which are carried at value, were as follows:

Asset Description	Level 1	Level 2	Level 3	Total
Tax-Exempt Investments	\$	\$ 1,551,871,560	\$	\$ 1,551,871,560
Total Investments	\$	\$ 1,551,871,560	\$	\$ 1,551,871,560
Liability Description				
Futures Contracts	\$ (1,570,024)	\$	\$	\$ (1,570,024)
Total	\$ (1,570,024)	\$	\$	\$ (1,570,024)

Reorganizations

As of the close of business on December 14, 2018, the Fund acquired the net assets of Eaton Vance Massachusetts Municipal Bond Fund (Massachusetts Fund) and Eaton Vance Michigan Municipal Bond Fund (Michigan Fund) pursuant to Agreements and Plans of Reorganization approved by the respective shareholders of Massachusetts Fund and Michigan Fund. The investment portfolios of Massachusetts Fund and Michigan Fund, with a fair value of \$38,996,775 and \$34,639,956, respectively, and identified cost of \$37,519,639 and \$33,730,348, respectively, were the principal assets acquired by the Fund. For financial reporting purposes, assets received and shares issued by the Fund were recorded at fair value; however, the identified cost of the investments received from Massachusetts Fund and Michigan Fund were carried forward to align ongoing reporting of the Fund's realized and unrealized gains and losses with amounts distributable to shareholders for tax purposes. The aggregate net assets of the Fund immediately before the acquisition were \$877,422,524. The net assets of Massachusetts Fund and Michigan Fund at that date of \$25,238,430 and \$21,836,875, respectively, were combined with those of the Fund, resulting in combined net assets of \$924,497,829.

Subsequent Events

On December 20, 2018, the shareholders of Eaton Vance Ohio Municipal Bond Fund (Ohio Fund), Eaton Vance New Jersey Municipal Bond Fund (New Jersey Fund) and Eaton Vance Pennsylvania Municipal Bond Fund (Pennsylvania Fund) approved Agreements and Plans of Reorganization providing for the reorganization of the Ohio Fund, New Jersey Fund and Pennsylvania Fund into the Fund. The transactions were completed as of the close of business on January 18, 2019.

The Special Meeting of Shareholders held on December 20, 2018 relating to the reorganization of Eaton Vance Municipal Bond Fund II into the Fund was adjourned until January 24, 2019. At the January 24, 2019 reconvened meeting, the meeting was further adjourned until February 8, 2019, at which time the meeting was adjourned to February 28, 2019.
