2018 Financial Highlights

2018 was a successful year for us. In 2018, we had strong financial and operating performance, significantly expanded our business, implemented a number of strategic capital projects to enhance our operations and continued to return capital to our shareholders via dividend payments.

In 2018, we:

generated record Operating EBITDA* of \$364.6 million and net income of \$128.6 million, a 44% and 82% increase, respectively, over the prior year;

generated Return on Assets and Return on Equity of 7.9% and 22.6%, a 49% and 52% increase respectively over the prior year;

achieved improved safety performance including a reduction in our Total Recordable Incident Rate to 2.86 as compared to 2.89 in the prior year;

significantly expanded our pulp operations by acquiring Mercer Peace River Pulp Ltd. (MPR) in December 2018 for approximately \$345 million. This acquisition increased our annual aggregate pulp production capacity by 42% and our electrical generation capacity by 29%;

issued \$350 million of 7.375% senior notes due 2025 to finance acquiring MPR and consolidated, extended and expanded our revolving credit facilities including establishing a new pan-German 200 million facility with a five year term;

implemented \$86.9 million of capital projects at our mills to reduce costs, increase production and improve efficiencies and reliability;

expanded our operations through the acquisition of Indian sandalwood plantations in Western Australia; and

returned \$32.6 million to our shareholders through the declaration of regular dividend payments.

*Operating EBITDA is defined as operating income plus depreciation and amortization and non-recurring capital asset impairment charges. Operating EBITDA is not a measure of financial performance under accounting principles generally accepted in the United States (GAAP) and should not be considered in isolation or as a substitute for analysis of our results as reported under GAAP. We use Operating EBITDA as a benchmark measurement of our own operating results and as a benchmark relative to our competitors. We consider it to be a meaningful supplement to

operating income as a performance measure primarily because depreciation expense and non-recurring capital asset impairment charges are not actual cash costs, and depreciation expense varies widely from company to company in a manner that we consider largely independent of the underlying cost efficiency of our operating facilities. In addition, we believe Operating EBITDA is commonly used by securities analysts, investors and other interested parties to evaluate our financial performance. For a reconciliation of net income to Operating EBITDA, please see page viii hereof.

Advisory Resolution to Approve Our Executive Compensation

We are asking shareholders to approve, on an advisory basis, our executive compensation policies and practices as described in our Compensation Discussion and Analysis, accompanying tables and related narrative contained in this proxy statement. The advisory vote, commonly referred to as a “say-on-pay vote”, gives shareholders the opportunity to vote on the compensation for our NEOs that is disclosed in this proxy statement. This vote is not intended to address any specific item of executive compensation, but rather the overall compensation for our NEOs and the philosophy, policies and practices described in this proxy statement.

Since this say-on-pay vote is advisory, it will not be binding on our board of directors (the “Board”) or our Compensation and Human Resources Committee. However, both the Board and such committee value the opinion of shareholders and will review the voting results and take them into consideration when making future decisions regarding executive compensation.

The non-binding resolution approving our executive compensation was approved by approximately 99.7% of the votes cast by shareholders present or represented by proxy at our 2018 annual meeting of shareholders.

Attending the Meeting will not, in and of itself, constitute revocation of a Proxy.

The holders of one-third of the outstanding Shares entitled to vote at the Meeting, present in person or represented by Proxy, constitutes a quorum for the Meeting. Shares represented by proxies that reflect abstentions or broker non-votes (i.e., Shares held by a broker/dealer or other nominee that are not voted because the broker/dealer or other nominee does not have the authority to vote on a particular matter) will be counted as Shares that are present and entitled to

vote for the purposes of determining the presence of a quorum for the Meeting.

In accordance with rules of the Securities and Exchange Commission (the "SEC"), we are furnishing our proxy materials related to the Meeting primarily via the Internet, instead of mailing printed copies of those materials to each Shareholder. Beginning on or around April 18, 2019, we will mail a Notice of Internet Availability to our Shareholders (other than those who had previously requested electronic or paper delivery) containing instructions on how to access our proxy materials, including this Proxy Statement and our annual report for 2018 (the "2018 Annual Report"), which includes our annual report on Form 10-K for the fiscal year ended December 31, 2018 (the "Form 10-K" or "2018 Form 10-K"). The Notice of Internet Availability also instructs you on how to vote over the Internet. This process is designed to expedite Shareholders' receipt of proxy materials, lower the cost of the Meeting and help conserve natural resources. However, if you would prefer to receive printed proxy materials, please follow the instructions included in the Notice of Internet Availability. If you have previously elected to receive our proxy materials electronically, you will continue to receive these materials via e-mail unless you elect otherwise. This Proxy Statement, accompanying Proxy and the 2018 Annual Report will be available on or around April 20, 2018 on our corporate website and at www.proxyvote.com and www.investorvote.com/merc for Shareholders.

Proxies may also be solicited by mail, telephone, facsimile or personal contact by our directors, officers or regular employees without additional compensation. All proxy-soliciting expenses in connection with the solicitation of votes for the Meeting will be borne by the Company.

You are entitled to attend the Meeting only if you were a Shareholder as of the close of business on the Record Date, or hold a valid Proxy for the Meeting. In order to be admitted to the Meeting, you must

Industry and related business experience. Senior leadership experience. We believe that it is important for our directors to have served in senior leadership roles at other organizations, which demonstrates strong abilities to motivate and manage others, to identify and develop leadership qualities in others and to manage organizations.

Public company board experience. Directors who have served on other public company boards can offer advice and perspective with respect to board dynamics and operations, oversight and leadership, the relationship between the board and management and other matters, including corporate governance, executive compensation and oversight of strategic, risk-management, operational and compliance-related matters.

Capital markets and financial experience. Directors who have capital markets experience can offer advice and perspective on investor expectations and perspectives, capital raising, financing strategic transactions, including mergers and acquisitions and financial statements and financial reporting matters.

International business experience. We operate internationally and all of our employees and operations are outside the United States and primarily in Canada and Germany and, to a lesser extent, Australia. Further, a significant majority of our customers are located in Europe and China. Accordingly, international business experience is desirable for our directors to have.

Majority Withheld Policy in Uncontested Director Elections

In order to provide Shareholders with a meaningful role in the outcome of director elections, our Board has adopted a provision on voting for directors in uncontested elections as part of our Corporate Governance Guidelines (the Governance Guidelines). This provision provides that any nominee in an uncontested election who receives more votes Withheld for his or her election than votes For his or her election shall have his or her term as a director terminate on the earliest to occur of: (i) 90 days after the date the election results are

certified; (ii) the date such director resigns; or (iii) the date the Board fills the position. We have amended our bylaws to reflect such provision.

The complete terms of this provision are included in our Governance Guidelines which can be found at the Investors - Governance link on our website at www.mercerint.com.

The election of directors at the Meeting is an uncontested election.

Board Composition and Tenure

The following table provides summary information about each director nominee. Each director nominee is elected annually by a majority of votes cast.

Director Tenure

Age Distribution

Gender

Board Tenure and Refreshment

Maintaining an appropriate balance of tenure among directors is part of the Board's consideration. Longer serving directors bring valuable experience and knowledge with respect to our business, industry and strategic and operational challenges.

Newer directors bring, along with their own personal experiences, fresh perspective and ideas.

Over the last couple of years, we have identified and Shareholders have elected three new directors to the Board.

We do not believe that directors should be subject to term or age limits. While term and age limits could facilitate fresh ideas and viewpoints being consistently brought to the Board, we believe they are

counter-balanced by the disadvantage of causing the loss of directors who, over a period of time, have developed insight into our strategies, operations and risks and continue to provide valuable contributions to Board deliberations. We believe that our decision not to establish term or age limits is consistent with the prevailing practice among companies in the S&P 500. We recognize that certain governance stakeholders have suggested that longer-serving directors may have decreased independence and objectivity; however, we believe that arbitrarily removing knowledgeable directors and the oversight consistency they bring—particularly during periods of management change—weighs against strict restrictions on director tenure. Ultimately, it is our Board's responsibility to establish board refreshment policies, using its discretion in the best interests of the Company and our Shareholders.

Board Leadership Structure

Our Board is responsible for overseeing the exercise of corporate power and seeing that our business and affairs are managed to meet our own stated goals and objectives and that the long-term interests of our Shareholders are served.

The Governance and Nominating Committee, which is made up entirely of independent directors, is responsible for the continuing review of the governance structure of the Board, and for recommending to the Board governance structures

and practices best suited for our particular situation. This committee determines what leadership structure it deems appropriate, based on factors such as experience of the applicable individuals and the current business environment.

In 2019, after its review of our Governance Guidelines, the Committee recommended and our Board adopted new amended and restated Governance Guidelines.

Our Board Leadership Structure

Practices

Leadership:

Our Board leadership structure includes practices such as:

Executive Chairman

a Lead Director, who provides leadership to our independent directors, assists in establishing agendas for Board and committee meetings and chairs executive sessions of our independent directors; and

Lead Director

Audit, Compensation and Human Resources and Governance and Nominating Committees led by and composed solely of independent directors

holding regular executive sessions at each Board meeting to allow for the active engagement of independent directors and appropriate oversight of management.

Active engagement by all directors

The Board believes our leadership structure and practices provide an optimal framework to guide the Company and maintain the focus required to achieve our long-term business goals.

Our Board believes that it should maintain flexibility to select our Chairman and its board leadership structure from time to time and our policies do not preclude our CEO from also serving as Chairman of the Board. Our Executive Chairman, Mr. Lee, was formerly our CEO until 2015 when he became Executive Chairman. Our Board believes Mr. Lee serving as Executive Chairman allows the Board to benefit from Mr. Lee's in-depth knowledge of our business and industry as well as leadership in formulating and implementing strategic initiatives.

In considering its leadership structure, the Board has taken a number of factors into account. In particular,

the Governance and Nominating Committee has sought to ensure that independent backgrounds and opinions dominate both the Board and the Board's committees. Consequently, the Board, which currently consists of seven independent directors out of nine, who are highly qualified and experienced, exercises a strong, independent oversight function. This oversight function is enhanced by the fact that all of the Chairs of our Board committees are independent directors, and the Audit Committee, Compensation and Human Resources Committee and Governance and Nominating Committee are composed entirely of independent directors.

Table of Contents

Our Board leadership structure and practices, including the appointment of a Lead Director for a three-year term and meetings in executive sessions, support the independence of our non-employee

directors. Meetings are also held formally and informally from time to time with our Executive Chairman and Chief Executive Officer for discussion of relevant subjects.

Our independent directors have robust and candid discussions at these executive sessions, during which they evaluate the performance of the Chief Executive Officer, Executive Chairman and other senior officers, our governance practices, the reports of our independent registered public accountants, the meetings themselves and any other relevant matter.

Mr. Purchase was appointed our Lead Director effective June 1, 2018. After his appointment, he chaired all four executive sessions of our independent directors. Our independent directors generally hold two executive sessions at each meeting of the Board, both before and after such meetings.

Risk Oversight

The Board oversees the proper safeguarding of the assets of the Company, the maintenance of appropriate financial and other internal controls and our compliance with applicable laws and regulations and proper governance. Inherent in these responsibilities is the Board's understanding and oversight of the various risks facing us. The Board does not view risk in isolation. Risks are considered

in virtually every business decision and as part of our business strategy. The Board recognizes that it is neither possible nor prudent to eliminate all risk. Indeed, purposeful and appropriate risk-taking is essential for us to be competitive on a global basis and to achieve our long-term strategic business objectives.

Table of Contents

Oversight of Risk

The Board oversees risk management.

Board committees, which meet regularly and report back to the full Board, play significant roles in carrying out the risk oversight function.

Management is charged with managing risk, through robust internal processes and effective internal controls.

Effective risk oversight is an important priority of the Board. The Board has implemented a risk governance framework designed to:

understand critical risks in our business and strategy;

allocate responsibilities for risk oversight among the full Board and its committees;

evaluate our risk management processes and whether they are functioning adequately;

facilitate open communication between management and directors; and

foster an appropriate culture of integrity and risk awareness.

While the Board oversees risk management, our management is charged with managing risk.

We have robust internal processes and an effective internal control environment which facilitate the identification and management of risks and regular communication with the Board. These include an enterprise risk management program under the leadership of the Chief Financial Officer, regular internal management disclosure committee meetings, a Code of Business Conduct and Ethics and other policies, strong internal controls and a comprehensive external audit process. The Board and the Audit Committee monitor and oversee the evaluation of the effectiveness of the internal controls and the risk management program. Management communicates routinely with the Board, Board committees and individual directors on the significant risks identified and how they are being managed. Directors are free to, and indeed often do, communicate directly with senior management.

The Board implements its risk oversight function both as a whole and through delegation to Board committees, which meet regularly and report back to the full Board. Board committees assist in carrying out the risk oversight function as follows:

Audit Committee: Oversees risks related to our financial statements, the financial reporting process and accounting and legal matters. The committee oversees the audit function, our ethics programs, including the Code of Business Conduct and Ethics, our Whistleblower Policy and our quality, safety, environmental assurance and information technology security programs. The committee periodically receives reports on and discusses oversight of our risk management process and reviews significant risks and exposures identified by management or the independent auditors (whether financial, operating or otherwise), and management's steps to address them. In connection with its oversight of these matters, the committee members will regularly meet separately with representatives of the independent auditors.

Compensation and Human Resources Committee: Evaluates the risks and rewards associated with our compensation philosophy and programs. As discussed in more detail in the Compensation Discussion and Analysis herein, the committee reviews and approves compensation programs with features that mitigate risk without diminishing the incentive nature of the compensation. Management discusses with the committee the procedures that have been put in place to identify and mitigate potential risks in compensation. This committee also oversees management development and succession planning across senior management positions.

Environmental, Health and Safety Committee: Oversees our environmental, health and safety policies and environmental compliance programs and associated risks relating thereto. In connection with such oversight, the committee regularly visits and tours our mills and meets with mill-level managers, superintendents and other employees.

Governance and Nominating Committee: Oversees our governance practices, director succession and committee leadership to manage risks associated with corporate governance.

The full Board regularly evaluates and discusses risk, risk mitigation strategies and our internal control environment. Topics examined at this meeting include, but are not limited to, financial risks, political and regulatory risks, legal risks, information technology risks, economic risks, risks relating to growth strategies, social licence risks and risks related to our productivity and reinvestment efforts. Because overseeing risk is an ongoing process and inherent in our strategic decisions, the Board also discusses risk throughout the year.

Table of Contents

We believe that our Board leadership structure, previously discussed herein, supports the risk oversight function of the Board. We have an Executive Chairman, a Chief Executive Officer, a Lead Director and strong directors chairing the various committees involved with risk oversight. There is open communication between management and directors and all directors are actively involved in the risk oversight function.

To learn more about risks facing us, you can review the factors included in Part 1, Item 1A. Risk Factors in the Form 10-K. The risks described in the Form 10-K are not the only risks facing the Company. Additional risks and uncertainties not currently known or that may currently be deemed to be immaterial also may materially adversely affect the Company's business, financial condition or results of operations in future periods.

During fiscal 2018, risk areas of particular Board and committee focus included:

industry supply and demand balances including new pulp capacity and the outlook and potential changes and disruptions in fiber supply;

expansion and growth of our business in the pulp and related or ancillary businesses, including our acquisition of MPR, the financing thereof and the acquisition of Indian sandalwood plantations in Western Australia;

cybersecurity;

the uncertain global economic environment, including potential issues regarding international trade, including tariffs, and its effects on our business;

Shareholder distributions; and

our continuing succession planning.

Our Director Nominations Process

Our Board is responsible for approving candidates for Board membership. The Board has delegated the screening and recruitment process to our Governance and Nominating Committee.

Criteria for Directors

Our Board believes that certain criteria should be met by director nominees to ensure effective corporate governance, support our strategies and businesses, account for individual director attributes and the effect of the overall mix of those attributes on the Board's effectiveness, and support the successful recruitment of qualified candidates for the Board. Qualified candidates are those who, in the judgment of the Governance and Nominating Committee,

possess certain personal attributes and a sufficient mix of experience and related attributes to assure effective service on the Board. The personal attributes of director nominees that the Governance and Nominating Committee considers include:

Best Interests of All Shareholders. Each candidate must be prepared to represent the best interests of all Shareholders and not just one particular constituency;

Integrity. Each candidate shall be an individual who has demonstrated integrity and ethics in his or her personal and professional life and has established a record of professional accomplishment in his or her chosen field;

Independence. No candidate, or family member (as defined in NASDAQ rules) or affiliate or associate (as defined in federal securities laws) of a candidate, shall have any material personal, financial or professional interest in any present or potential competitor of the Company;

Experience. Each candidate should possess professional and personal experiences and expertise relevant to our goals of being one of the world's leading forest products companies focused on kraft pulp, energy and chemical production, lumber and extractives;

Active Participation. Each candidate must be prepared to participate fully in Board activities, including active membership on at least one Board committee and attendance at, and active participation in, meetings of the Board and the committee(s) of which he or she is a member, and not have other personal or professional commitments that would, in the Governance and Nominating Committee's sole judgment, interfere with or limit his or her ability to do so;

Collegiality. Each candidate should contribute positively to the existing chemistry and collegial culture among Board members; and

Diversity. Each candidate should contribute to the Board's overall diversity—diversity being broadly construed to mean a variety of viewpoints, perspectives, personal and professional experiences and backgrounds, such as nationality, gender and ethnicity differences.

The Board prefers a mix of backgrounds and experiences among its members. The Board does not follow any ratio or formula to determine the appropriate mix. Rather, it uses its judgment to identify and determine nominees whose backgrounds, attributes and experiences, taken as a whole, will contribute to high standards of Board service.

Processes for Identifying Director Candidates

Our Governance and Nominating Committee has two principal methods for identifying potential Board candidates (other than those proposed by Shareholders, as discussed below). First, such Committee solicits ideas for possible candidates from a number of sources, including other members of the Board, senior executives, individuals personally known to Board members and research. Additionally, the Governance and Nominating Committee may, from time to time, use its authority under its charter to retain, at our expense, one or more search firms to identify candidates (and to approve such firms' fees and other retention terms). The Governance and Nominating Committee did not retain a search firm during fiscal 2018.

Our Governance and Nominating Committee will also consider nominees recommended by Shareholders as candidates for Board membership. A Shareholder wishing to nominate a candidate for Board membership should provide written notice to the Governance and Nominating Committee in the care of the Secretary, Mercer International Inc., Suite 1120, 700 West Pender Street, Vancouver, B.C., Canada V6C 1G8. To nominate a candidate for election to the Board at an annual meeting, the notice must be received not less than 120 days before the first anniversary of the date of the Company's Proxy Statement released to Shareholders in connection with the annual meeting held in the prior year. The notice should contain information about both the nominee and the Shareholder making the nomination, including such information regarding each nominee required to be included in a proxy statement filed pursuant to SEC rules and regulations and such other information sufficient to allow the Governance and Nominating Committee to determine if the candidate meets the criteria for Board membership described above. The Governance and Nominating Committee may require that the proposed nominee furnish additional information to determine that person's eligibility to serve as a director. All recommendations will be brought to the attention of the Governance and Nominating Committee.

Evaluation of Director Candidates

The Governance and Nominating Committee will consider and evaluate all candidates identified through the processes described above, including incumbents and candidates proposed by Shareholders.

If, based upon the Governance and Nominating Committee's initial evaluation, the candidate continues to be of interest, members of the committee will interview the candidate and communicate their

evaluation to the rest of its members and the Executive Chairman and Chief Executive Officer. Additional meetings between the candidate and other members of the Governance and Nominating Committee and the Executive Chairman and Chief Executive Officer may also be arranged. Ultimately, background and reference checks will be conducted by the Governance and Nominating Committee.

As a result of its work and consideration of potential candidates, the Governance and Nominating Committee endeavors to maintain an evergreen list of potential candidates.

Recommendation and Nomination

After consideration, the Governance and Nominating Committee will finalize its list of recommended candidates to the Board for its consideration. Candidates who are then recommended by the Governance and Nominating Committee and approved by our Board are included in our recommended slate of director nominees in our proxy statement.

With Mr. Picchi electing not to stand for re-election at the Meeting, the Governance and Nominating Committee recommended and the Board unanimously approved that the number of directors serving on the Board for the ensuing year be fixed at eight.

Potential Future Changes to Nomination Process

Our nomination policies are intended to provide a flexible set of guidelines for the effective functioning of our director nomination process. Our Governance and Nominating Committee reviews the nomination policy at least annually to consider and make such modifications as may be required to reflect our then needs and circumstances and to address any changes in applicable legal or listing standards. Our Governance and Nominating Committee may amend the nomination policy at any time, in which case the most current version will be available on our website.

Talent Management and Succession Planning

In light of the importance of executive leadership, we have a succession planning process which is held at least semi-annually. The process encompasses a broad group of managers and executives up to and including the Chief Executive Officer.

Our Compensation and Human Resources Committee, together with our Chief Executive Officer, reviews our executive succession planning procedures, including management development activities. We generally strive to appoint our most senior executives from within. To this end,

Table of Contents

individuals who are identified as having potential for senior executive positions are evaluated by the Compensation and Human Resources Committee. The careers of such persons are monitored to ensure that, over time, they have appropriate exposure to our Board and interact with the Board in various ways, including through participation in certain Board meetings and other Board-related activities and meetings with individual directors, both in connection with director visits to our mills and otherwise. In addition, selected executives are provided with continuing management education through attendance at senior level educational programs, courses and seminars.

Director Education

New Director Education

Our new director orientation program covers our vision, strategies, risks, financial matters, internal controls, corporate governance practices and policies, succession planning and non-director compensation. As part of such orientation, new directors visit our mills to better understand our operations.

Continuing Education

Our continuing education program consists of regular visits to our operating facilities, meetings and social engagements with our operating personnel, customer visits both in Europe and China and other meetings and visits on topical matters such as at research and development facilities. In some years, select

directors, along with management representatives, have attended meetings with customers and other market participants, including in China, to broaden their understanding of our key markets. We provide updates to our Board on relevant topics at meetings throughout the year. We also provide ongoing education to our directors through participation in the NYSE Board Program. We also reimburse directors who attend education programs and institutions for fees and related expenses.

Director Evaluation

Our Board annually reviews the effectiveness of the Board, its committees and individual directors as part of its ongoing commitment to improve their oversight, guidance and review of senior management.

This evaluation process is conducted by our Governance and Nominating Committee, which conducts an annual evaluation of our Board, Board committees and directors. The evaluation also evaluates our Executive Chairman, CEO and Lead Director. The process is led by the Lead Director, who is also the Chair of the Governance and Nominating Committee. These evaluations help the Board develop priorities, form part of our assessment of the skills and competences needed by the Board to support our strategic objectives, consider potential director nominee candidates and refine our corporate governance practices.

Expectations of our Directors

In assessing our director effectiveness, we consider the following to be key criteria in each individual's performance:

Shareholder Engagement

We believe that effective corporate governance should include regular, constructive conversations with our Shareholders. Over the past year, we have continued our engagement of shareholders, including through the following:

Our NEOs meet regularly with financial analysts, investors and shareholders and attend and present at investor conferences.

We broadcast live quarterly and annual earnings calls and archive them on our website.

Shareholders are encouraged to attend our annual meetings, where they have the opportunity to direct questions to our Chief Executive Officer and other NEOs. We have implemented a process for Shareholders to attend the Meeting through the Internet in order to better facilitate Shareholder participation.

Shareholders can communicate with the Board as described below under **Shareholder Communications with Board**.

We also annually evaluate proxy season trends, corporate governance best practices, regulatory developments, shareholder feedback and our current practices.

Shareholder Communications with Board

Shareholders who wish to communicate with the Board (other than with respect to a complaint or concern regarding accounting, internal accounting controls or auditing matters which must be directed to the Audit Committee as described below) should send written correspondence to the Board in the care of the Secretary, Mercer International Inc., Suite 1120, 700 West Pender Street, Vancouver, B.C., Canada V6C 1G8. The correspondence should indicate that the person sending the correspondence is a Shareholder and set out the purpose of such communication. The secretary will: (i) forward the correspondence to the director to whom it is addressed or, in the case of correspondence addressed to the Board generally, to the Lead Director; (ii) attempt to handle the inquiry directly where it is a request for information about the Company; or (iii) not forward the correspondence if it is primarily commercial in nature or if it relates to an improper topic. All such correspondence will be summarized for the Board periodically, and each such correspondence will be made available to any director upon request.

Complaint Procedure

The Audit Committee has established procedures for: (i) the receipt, retention and treatment of complaints received by the Company regarding accounting, internal accounting controls or auditing matters; and (ii) the confidential and anonymous submission by the Company's employees and others of concerns regarding questionable accounting or auditing matters. A person wishing to notify the Company of such a complaint or concern should send a written notice thereof, marked **Private & Confidential**, to the Chair of the Audit Committee, Mercer International Inc., Suite 1120, 700 West Pender Street, Vancouver, B.C., Canada V6C 1G8.

Shareholding Guideline for Non-Employee Directors and NEOs

We have a target shareholding guideline in place for our non-employee directors which provides each non-employee director should, within three years of becoming a director, own a minimum number of Shares which is equal in value to three times the amount of their annual cash retainer. As of the Record Date, all of our non-employee directors who have been directors for at least three years as of such date, including our Lead Director, met the guideline amount.

In 2019, we adopted a share ownership policy for our NEOs which requires our CEO and Executive Chairman to hold Shares having a value equal to at least five times their base salary and our other NEOs to hold Shares with a value equal to three times their base salary. NEOs will have five years to achieve the required threshold.

Review and Approval of Related Party Transactions

The Board recognizes that related party transactions can present a heightened risk of potential or actual conflicts of interest and may create the appearance that decisions are based on considerations other than our and our Shareholders best interests. As a result, the Board prefers to avoid related party transactions. However, the Board recognizes that there are situations where related party transactions may be in, and not inconsistent with, our and our Shareholders best interests.

As a result, pursuant to our Governance Guidelines and its Charter, the Board has delegated to the Audit Committee responsibility for reviewing and approving the terms and conditions of all proposed transactions between us, any of our officers, directors or Shareholders who beneficially own more than 5%

Table of Contents

of our outstanding Shares, or relatives or affiliates of any such officers, directors or Shareholders, to ensure that such related party transactions are fair and are in our overall best interest and that of our Shareholders.

In the case of transactions with employees, a portion of the review authority is delegated to supervising employees pursuant to the terms of our Code of Business Conduct and Ethics.

The Audit Committee has not adopted any specific procedures for conduct of reviews and considers each transaction in light of the facts and circumstances. In the course of its review and approval of a transaction, the Audit Committee considers, among other factors it deems appropriate:

whether the transaction is fair and reasonable to us;

the business reasons for the transaction;

whether the transaction would impair the independence of one of our non-employee directors; and

whether the transaction is material, taking into account the significance of the transaction.

The Audit Committee has the authority to approve a related party transaction if the committee determines that the transaction is on terms that are not inconsistent with our and our Shareholders' best interests.

Any member of the Audit Committee who is a related person with respect to a transaction under review may not participate in the deliberations or vote respecting approval or ratification of the transaction, provided, however, that such director may be counted in determining the presence of a quorum at a meeting of the committee that considers the transaction.

Our lead director and other non-employee directors are annually awarded restricted stock with a grant date fair value of \$100,000 and \$70,000, respectively.

In fiscal 2018, we also reimbursed our directors for expenses incurred in connection with their duties as our directors. Our directors do not receive fees for attendance at meetings of the Board or a committee.

REPORT OF THE AUDIT COMMITTEE

Our Audit Committee monitors and oversees our financial reporting process on behalf of our Board. Management has primary responsibility for our financial statements and the financial reporting process, including the Company's system of internal controls.

The Audit Committee has met and held discussions with management and our independent registered public accounting firm, PricewaterhouseCoopers LLP, regarding the fair and complete presentation of our results and the assessment of our internal control over financial reporting. The Audit Committee has discussed significant accounting policies we applied in our financial statements, as well as alternative treatments. Management represented to the Audit Committee that our consolidated financial statements were prepared in accordance with accounting principles generally accepted in the United States, and the Audit Committee has reviewed and discussed the consolidated financial statements with management and PricewaterhouseCoopers LLP. The Audit Committee discussed with PricewaterhouseCoopers LLP the matters required to be discussed by Statement on Auditing Standards No. 61, as amended (AICPA, *Professional Standards*, Vol. 1 AU Section 380), as adopted by the Public Company Accounting Oversight Board in Rule 3200T.

In addition, the Audit Committee has discussed with PricewaterhouseCoopers LLP the registered public accounting firm's independence from the Company and its management, including the matters in the written disclosures required by Independence

Standards Board Standard No. 1. The Audit Committee also has considered whether PricewaterhouseCoopers LLP's provision of non-audit services to the Company is compatible with the registered public accounting firm's independence. COMPENSATION AND HUMAN RESOURCES COMMITTEE INTERLOCKS AND INSIDER PARTICIPATION

No member of the Compensation and Human Resources Committee is a current or former employee of the Company or has had any relationship requiring disclosure by the Company under the SEC's rules requiring disclosure of certain relationships and related party transactions. None of our current executive officers has ever served as a

member of the board or compensation committee (or other board committee performing equivalent functions) of any other entity that has or has had one or more of its executive officers serve as a member of our Board or our Compensation and Human Resources Committee.

INDEPENDENT COMPENSATION CONSULTANTS

The Compensation and Human Resources Committee has the authority to engage independent compensation consultants. It has in the past and may in the future engage an outside consultant to assist it in assessing the Company's executive compensation programs. In 2018, in connection with its annual compensation review and in particular with respect to its review of annual bonuses and our short-term incentive plan, the Committee engaged Willis Towers Watson (WTW) as its compensation consultant. WTW was paid a fee of \$78,077 for such consulting work.

In furtherance of maintaining the independence of the committee's compensation consultants, the committee has sole authority to retain, terminate and obtain the advice of any selected consultant. Additionally, the

committee's consultant will not perform any services for management unless approved by the committee.

In 2018, WTW provided ongoing annual services in connection with the salaried pension plan for our Celgar mill and was paid \$289,582 for such services. Such services are ongoing until terminated by us and have been provided by WTW for several years.

Based on the policies and procedures implemented by the Compensation and Human Resources Committee and by WTW to ensure the objectivity of WTW's executive compensation consulting services, the committee believes that the consulting advice it received from WTW is objective and not influenced by WTW's other relationships with us.

REPORT OF THE COMPENSATION AND HUMAN RESOURCES COMMITTEE

COMPENSATION DISCUSSION AND ANALYSIS

This Compensation Discussion and Analysis provides information on our executive compensation programs. It discusses considerations and reasons driving the Compensation and Human Resources Committee's decisions on compensation for our NEOs in 2018, as well as the key objectives, policies, elements and designs of our executive compensation program. In this discussion and under Executive Compensation Tables, Committee or Compensation Committee means the Compensation and Human Resources Committee.

Named Executive Officers (NEOs)

Jimmy S.H. Lee, Executive Chairman and Director;

Adolf Koppensteiner, Chief Operating Officer; and

David M. Gandossi, President, Chief Executive Officer
and Director;

Wolfram Ridder, Vice President of Business
Development.

David K. Ure, Chief Financial Officer and Secretary;

Foreign Currency Compensation

All of the cash compensation, being primarily salary and annual bonuses, for our NEOs is paid in either euros (as to Messrs. Lee, Koppensteiner and Ridder) or Canadian dollars (as to Messrs. Gandossi and Ure). Such amounts are then translated into dollars using the average Federal Reserve Bank of New York spot rate for the appropriate period. As a result, reported compensation amounts decline in periods when the dollar strengthens against the euro and Canadian dollar and conversely increase when the dollar declines versus such currencies.

Amounts reported in the Executive Compensation Tables are in dollars.

Timing of Executive Compensation Decisions

Our executive compensation decisions are generally made after the end of our fiscal year and when our financial statements for such year are finalized. Thus, in February 2019, the Committee approved bonuses and awards for fiscal 2018, together with fixed base salaries for 2019. During each year, the Committee monitors performance and evaluates comparison group compensation data which it uses to finalize awards and decisions made after the fiscal year end.

In this regard, it is important to note that the Summary Compensation Table appearing on page 43 and the Grants of Plan-Based Awards Table appearing on page 45 only reflect plan-based awards actually issued in fiscal 2018, which were based on fiscal 2017 performance.

Fiscal 2018 Executive Summary

2018 was a successful year for us. In 2018, we had strong financial and operating performance, significantly expanded our business, implemented a number of strategic capital projects to enhance our operations and continued to return capital to our shareholders via dividend payments.

In fiscal 2018, we:

generated record Operating EBITDA of \$364.6 million and net income of \$128.6 million, a 44% and 82% increase, respectively, over the prior year;

generated Return on Assets and Return on Equity of 7.9% and 22.6%, a 49% and 52% increase respectively over the prior year;

achieved improved safety performance including a reduction in our Total Recordable Incident Rate to 2.86 as compared to 2.89 in the prior year;

significantly expanded our pulp operations by acquiring MPR in December 2018 for approximately \$345 million. This acquisition increased our annual aggregate pulp production capacity by 42% and our electrical generation capacity by 29%;

issued \$350 million of 7.375% senior notes due 2025 to finance acquiring MPR and consolidated, extended and expanded our revolving credit facilities including establishing a new pan-German 200 million facility with a five year term;

implemented \$86.9 million of capital projects at our mills to reduce costs, increase production and improve efficiencies and reliability;

expanded our operations through the acquisition of Indian sandalwood plantations in Western Australia; and

returned \$32.6 million to our shareholders through the declaration of regular dividend payments.

Table of Contents**Fiscal 2018 Compensation Decisions**

In accordance with our emphasis on pay for performance, fiscal 2018 compensation awarded to our NEOs reflected record Operating EBITDA, our overall strong operating performance, improved safety performance, in-line production, reasonable cost control in a rising cost environment particularly for fiber costs, a significant expansion of our business through acquisitions, including MPR and other complementary investments, and new capital projects to reduce costs and improve our operating efficiencies.

In making decisions on performance-based compensation for fiscal 2018, the Committee also weighed and considered our generally favorable performance against our Peer Group Companies (as

hereinafter defined) and the return of capital to shareholders pursuant to our regular quarterly dividends.

For fiscal 2018, the Committee did not rely upon any predetermined formulas or limited set of criteria when it evaluated the performance of our NEOs, but rather focused on individual objectives and their effects in respect of our overall business goals.

Following fiscal 2018, based on a review of our compensation practices by the Committee and its independent compensation consultant, the Committee implemented a new short-term incentive program (the 2019 STIP), which will be effective for fiscal 2019 and thereafter. See New Short-Term Incentive Plan on page 37.

Base Salaries. The Committee generally reviews and adjusts base salaries annually at its February meeting with any adjustments generally commencing at the start of the following month. The Committee also makes periodic adjustments, as required, in connection with promotions, changes in position or competitive changes in market pay levels.

In February 2019, the Committee adjusted the salaries of our NEOs for 2019 as follows:

Name	2019 Base Salary	2018 Base Salary	(%) Increase
Jimmy S.H. Lee	\$ 572,939	\$ 547,743	4.6
David M. Gandossi	\$ 631,082	\$ 601,030	5.0
David K. Ure	\$ 368,572	\$ 357,143	3.2

Adolf Koppensteiner	\$ 450,366	\$ 437,249	3.0
Wolfram Ridder	\$ 392,427	\$ 380,997	3.0

The Committee effected adjustments to the salaries of our NEOs as a result of general industry compensation practices and trends and in recognition of their accomplishments in the last fiscal year.

Short-Term Annual Cash Bonuses. In making its compensation decisions regarding annual bonuses for our NEOs in respect of their fiscal 2018 performance, the Committee reviewed and considered:

Operating EBITDA which we view as one of the best indicators of our ability to successfully manage our business, including our ability to invest in our business, pursue growth opportunities, service our financial obligations, provide competitive compensation to our employees and return capital to our Shareholders through dividends;

our financial performance, with focus on production and operating costs, relative to prior performance, budgeted forecasts and to Peer Group Companies;

health and safety performance as providing a safe working environment for our employees is critical for our business and is directly correlated to efficient operations and manufacturing performance;

expansion of our business through acquisitions such as those of MPR and the Australian sandalwood plantations;

successfully financing the acquisition of MPR and improving our overall liquidity by extending and enlarging our revolving credit facilities;

executing capital projects to improve efficiency, reduce costs and improve our operations; and

each NEO's achievement of their individual and our overall 2018 performance objectives.

leading and implementing a disciplined approach to identify, analyze and execute large capital projects to enhance our operating performance;

leading and helping to drive improved productivity, including long-term culture change at our mills; focusing on and leading the development of our management talent including our next level of younger managers; and

For fiscal 2018, the bonuses paid to our NEOs reflect the Committee's assessment of the individual and overall Company factors discussed above.

Incentive Equity Grants or Awards. Our 2010 Plan allows the Committee to grant equity awards to our executives in the form of options, stock appreciation rights, restricted stock, restricted stock rights, performance shares and performance share units.

Pursuant to our long-term incentive compensation program (the LTIP), the Committee primarily uses performance stock units, or PSUs, to provide long-term equity based compensation to our executives, including our NEOs.

Such PSUs vest after a three-year period and, as such, are designed to reward sustained performance over the period, rather than over a single year. As a result, we believe PSUs incentivize executives to drive long-term performance, thereby aligning our executives' interests with the long-term interest of Shareholders. Although the value of PSUs is impacted by our Share price during the vesting period, PSUs also serve to retain executives as they are generally perceived by the recipients as being more valuable than stock options.

Pursuant to the LTIP, we make annual grants of PSUs to our executives that vest based on the Committee's assessment of the achievement of certain prescribed three-year performance criteria. Until 2019, the performance criteria were comprised of:

Absolute Return on Average Assets ;

Total Shareholder Return ; and

New Business Initiatives ,
(the Performance Criteria).

Each element is weighted equally. To incentivize performance, each component of Performance Criteria has a sliding scale so that an executive can achieve from 0% to 200% of the target award amount.

See Narrative Disclosure to Grants of Plan-Based Awards Table on page 44 for a discussion of such performance criteria.

The Committee assesses the applicable performance criteria for PSUs based upon the audited financial statements of a completed three-year performance period.

The Committee believes that: (i) having a multi-year performance period increases executive focus on long-term performance and better aligns the interests of our executives with our Shareholders; and (ii) the components of the applicable performance criteria are important measures of our overall business performance.

The annual granting of PSUs ensures the continuity of these incentives, as the performance periods of PSUs granted in different years overlap and expired or vested awards are replaced each year with new grants. Each PSU is equivalent to one Share. As a result, the number of PSUs issued to executives was 200% of the target level, being the maximum amount of Shares that our executives may earn.

Our PSU awards and vesting of Shares occurs as follows:

31

Table of Contents

In February 2019, the Committee amended the Performance Criteria to delete the New Business Initiatives component (the Amended Performance Criteria). The Committee amended such criteria in order to better ensure that such criteria are best aligned with Shareholder interests. After consideration, the Committee further determined that successful New Business Initiatives originate yearly and are better recognized in the annual individual

performance assessments of relevant executives and through the payment of short term annual bonuses. If such individuals create value for Shareholders, they will be measured in the Amended Performance Criteria. Additionally, commencing in 2019, the Committee increased the target level and maximum award our Executive Chairman can earn as a percentage of his base salary from 100% to 150% and 200% to 300%, respectively.

Fiscal 2018 PSU Grant

For fiscal 2018, the Committee issued an aggregate of 652,548 PSUs (the 2018 PSUs) to our executives which are eligible to vest over a three-year performance period ending on December 31, 2020.

The following table sets forth the target level and number of 2018 PSUs awarded to our NEOs for fiscal 2018:

Name	Target Level for 2018 PSUs ⁽¹⁾⁽²⁾	Target Level as a Percentage of 2018 Base Salary ⁽¹⁾	Maximum 2018 PSUs ⁽¹⁾⁽²⁾	Maximum 2018 PSUs as a Percentage of 2018 Base Salary ⁽¹⁾
Jimmy S.H. Lee	44,834	100	89,668	200
David M. Gandossi	49,798	100	99,596	200
David K. Ure Adolf	21,709	75	43,418	150
Koppensteiner	17,895	50	35,790	100
Wolfram Ridder	15,593	50	31,186	100

(1) Each 2018 PSU awarded on February 14, 2018 was valued at \$12.75, which was the closing market price of the Shares on the date of the award.

(2) These awards are eligible to vest after December 31, 2020, based upon the Performance Criteria.

Vesting of Fiscal 2016 PSUs

The three-year performance period for an initial 991,552 PSUs awarded by the Committee for fiscal 2016 (the 2016 PSUs) to our executives, including our NEOs, ended on December 31, 2018.

In February 2019, the Board, based on the recommendation of the Committee, approved the vesting and awarding of 449,395 Shares to our executives (including our NEOs) pursuant to the then outstanding 2016 PSUs. This vesting represents the Committee's assessment of achievement against the three Performance Criteria as follows:

Component	Achievement to Target
Absolute Return on Average Assets	140%
Total Shareholder Return	60%
New Business Initiatives	100%
The vesting on a weighted basis was equal to 100% of the potential share award within a range of 0% to 200%.	

Compensation Framework and Components

Our compensation framework for our NEOs is principally performance-based to support our overall business objectives and increase long-term Shareholder value. It is focused on the following principles:

Emphasize Variable Pay. Our executive compensation program emphasizes and focuses on performance-based and at risk compensation, especially compensation for our Executive Chairman and CEO, rather than on fixed compensation.

Pay for Performance. We believe that it is appropriate for certain components of compensation to decline during periods of economic stress, reduced Operating EBITDA and net income and significantly lower Share prices as well as to increase during periods of increased Operating EBITDA and net income and higher Share prices.

Align executive interests with long-term interests of Shareholders. A significant portion of the total compensation opportunity for senior executives is directly linked to the performance of our Shares.

Table of Contents

Our executive compensation program is designed to achieve the following key objectives using the following principles:

Compensation Objectives	Compensation Principles
Attract and retain top talent by competing effectively for high quality individuals whose efforts and judgments are vital to our continued success.	<i>Market Competitiveness.</i> Total compensation levels should be competitive and at market median with other comparable companies operating within the forest products industry and other companies with which the Company competes for executive talent.
Closely align compensation with our business purpose and commitment to shareholder value creation by focusing on long-term sustainable growth.	<i>At Risk Incentive Pay.</i> A greater percentage of compensation for senior management should be tied to performance against measurable objectives, the majority of which are directly tied to our performance, to achieve payouts.
Create an environment in which our executives are motivated to achieve and maintain superior performance levels and goals consistent with our overall business strategy.	<i>Pay-for-Performance.</i> Compensation should be linked to both individual and overall Company performance.
Reward and compensate our executives for their contribution to our overall success and for their individual performance during the relevant fiscal year.	<i>Shareholder Alignment.</i> Rewards should be linked to the creation of long-term Shareholder value through the use of equity-based awards as a meaningful portion of our executives' compensation.
Align the interests of our executives with the long-term interests of our Shareholders.	<i>Flexible Short-Term and Long-Term Incentives.</i> Fixed and variable and short and long-term compensation programs should be balanced to reinforce a performance-based culture.
Given the cyclical nature of the industry in which we operate, provide the Board the discretion to modify compensation plans to meet business needs at the time.	<i>Simple Pay Programs.</i> Overall compensation simplicity should be maintained to ensure broad employee understanding and acceptance and control

costs.

Clear Communication. Compensation should clearly communicate desired behavior and incentive pay programs should reward the achievement of performance goals by executives.

Compensation Mix

We seek to accomplish our executive compensation objectives through an appropriate mix of short-term and long-term compensation, by providing a larger percentage of our executive officers' total compensation opportunity in the form of equity compensation and by ensuring that a significant portion of our executive officers' total pay opportunity is in the form of performance-based or at risk compensation.

In general, employees with more ability to directly influence overall business performance have a greater portion of:

variable, performance-based pay at risk; and

overall compensation provided through long-term incentives and equity incentive programs.

Fixed vs. Performance-based Compensation. We believe our mix of fixed (primarily base salary) and a significant weighting of performance-based compensation (primarily annual cash incentive bonuses and PSUs), supports our overall pay-for-performance culture and drives superior business

performance. The percentage of an executive's compensation opportunity that is performance-based, versus fixed, is based primarily on the employee's role.

For fiscal 2018, our CEO's and Executive Chairman's percentage of variable performance based compensation to total compensation was 71% and 68%, respectively.

Short-term vs. Long-term Compensation. We believe our total compensation mix of short-term (primarily base salary and annual cash incentive bonuses) along with long-term (primarily PSUs) incentives, encourages focus on both long-term strategic objectives and shorter-term business objectives without excessive risk.

Cash vs. Equity Compensation. We believe our mix of cash (base salary and annual cash incentive bonuses) and equity (primarily PSUs) compensation, with a significant portion of each executive officer's total compensation opportunity coming through

Table of Contents

equity incentive grants, closely aligns the interests of our executives with those of our Shareholders.

Compensation Components. To achieve our objectives, we use a mix of four compensation

components, being base salary, annual incentive bonuses, long-term equity incentives and other perquisites intended to be competitive in the market and with our competitors.

The following tables provide information regarding the components of our overall compensation of our NEOs.

Base Salary

Form

Objectives and Basis

Cash

Attract and retain high quality executives to drive our success.

Provide base compensation for day-to-day performance.

Based primarily upon job responsibilities, level of experience and skill as well as performance compared with annually established financial or individual objectives.

Consideration given to impact an NEO is expected to make to our business in the future.

Targeted within the median range of our Peer Group Companies and consideration given to the markets in which we operate.

Provide a consistent cash flow to employees assuming acceptable levels of performance.

Committee normally considers salary adjustments for executive officers annually in the first quarter of the year.

Increases in salaries generally are based on the market level salary for the role an executive serves, overall budgets and specific talent needs. Small periodic adjustments are also made to reflect cost of living increases.

Annual Incentive Bonuses

Form

Objectives and Basis

Cash

Provide incentives and motivate performance of NEOs to advance, with some urgency, our current year's business goals and encourage superior performance.

Provide assessment criteria that are simple, consistent, transparent and representative of individual and team performance.

Based on the expectations of the Board and management for our financial and operating performance in a particular period and the contribution of an NEO in achieving the Company's goals as well as the individual goals which are established for each NEO based upon such NEO's position and responsibility.

Measure our NEOs' performance in achieving the Company's financial, strategic and other goals as benchmarked against the Company's business plan for the forthcoming year.

Bonuses, which up to and including fiscal 2018, were awarded on a discretionary basis without a predetermined formula or specific weighting for any particular factor. In 2019, the Committee adopted a new short-term incentive plan. See New Short-Term Incentive Plan on page 37.

Consideration of recommendations by our Chief Executive Officer for bonuses to be paid to our NEOs other than our Executive Chairman and Chief Executive Officer.

Administration, Process and Role of the Compensation Committee

The Committee is comprised entirely of independent directors and determines our compensation objectives, philosophy and forms of compensation and benefits for executives. The Committee submits key compensation elements for our executives to the independent members of the Board for their review and approval. Executive compensation decisions are generally made by the Committee after our fiscal year end and when our financial statements for such year are finalized.

The Committee continually reviews and considers best practices in executive compensation, Shareholder expectations and compensation practices of peer group companies in making its decisions regarding appropriate compensation levels.

Individual Officer Performance Evaluations. In making compensation decisions, the Committee annually evaluates the performance and individual accomplishments of our Chief Executive Officer and our other NEOs. Such evaluation is a subjective analysis conducted, in part, with reference to the performance measures discussed herein and partly against each NEO's annual performance goals which were previously provided to and accepted by the Committee. The Committee also meets and reviews with our Chief Executive Officer his evaluation of the performance of each of the other NEOs (other than the Executive Chairman).

Management's Role in the Executive Compensation Process. With the exception of our Chief Executive Officer, our NEOs do not play a role in evaluating or determining executive compensation programs or levels. Our Chief Executive Officer annually submits for consideration to the Committee performance evaluations for our other NEOs (other than the Executive Chairman) and recommendations as to their compensation levels, including salaries and bonuses. These recommendations are both subjective determinations and objective recommendations based upon performance against their annual performance goals. Such recommendations are also consistent with our compensation objectives. The Committee approves each NEO's compensation in an executive session of the independent directors without management present.

The Committee did not request, and management did not provide, specific recommendations for fiscal 2018 compensation for our CEO or Executive Chairman. In accordance with NASDAQ rules, neither our Executive Chairman nor our CEO were present when their compensation was being discussed or approved, did not vote on executive compensation

matters and neither they nor other members of management attended executive sessions of the Committee.

In making its compensation decisions the Committee considered, among other information, our overall financial results and operating performance metrics provided by our Chief Financial Officer which includes revenues, total mill production and sales, operating costs, energy generation and sales, mill margins, Operating EBITDA and net income measured against both budgets and our competitors' performances. In addition, senior executives provide certain mill performance metrics relating to our operations, including environmental performance and health and safety measures and how they measure against targets, prescribed requirements and against our competitors (to the extent available).

Geographic Considerations. As our operations are located primarily in Europe and Canada and recently partially in Australia, we also consider local market demands, availability of qualified management and the local cost of living.

Use of Board Discretion. The Board, through the Committee, retains the discretion to lower the compensation of our executives, including NEOs, even when the performance goals or targets of any aspect of the plans are achieved. In making such decisions, the Committee will consider a number of factors including the recommendation of the CEO, the financial condition of the company, the state of the markets generally, and any other factor the Committee considers relevant.

Use of Consultants in Executive Compensation Process. For fiscal 2018, the Committee engaged WTW as its outside independent compensation consultant. The consultant attends meetings and has telephonic consultations with the Committee and its members as requested by the Committee Chair. During fiscal 2018, WTW assisted in reviewing and considering our:

total direct compensation for our NEOs (primarily base salaries);

short-term incentives and plans (primarily annual cash incentive bonuses);

long-term equity incentives and plans (primarily PSUs);

Share ownership policy for our NEOs; and

selecting an appropriate group of peer companies for benchmarking and comparative purposes.

Table of Contents

The consultant assisted the Committee in reviewing the foregoing compensation elements on a relative basis to that of the Peer Group Companies. Additionally, the consultant provided input in reviewing and validating information, programs and recommendations.

Peer Group Companies and Benchmarking. The Committee reviews executive compensation levels and programs at least annually at certain peer group companies. For fiscal 2018, such peer group companies were principally comprised of small cap and mid-cap North American forest and paper products companies (companies with equity capitalization ranging between \$150 million and \$5 billion).

For fiscal 2018, using information provided by its independent compensation consultant, WTW, and public filings, the Committee used for benchmarking the following companies:

Canfor Corporation;

Cascades Inc.;

Clearwater Paper Corporation;

Interfor Corporation;

Domtar Corporation;

Neenah, Inc.;

P.H. Glatfelter Company;

Resolute Forest Products Inc.;

Schweitzer-Mauduit International, Inc.; and

West Fraser Timber Co. Ltd.,
(collectively the Peer Group Companies).

The Committee, with the assistance of WTW, reviewed the performance of the Peer Group Companies because their industries, businesses, size, geographic location and general business challenges make them comparable to us and to ensure that our compensation levels are within the range of comparative norms. In addition, these companies have complete executive compensation data publicly available. Additionally, the Committee, with the assistance of WTW,

reviewed the compensation of senior executives in a broad swath of companies of equivalent size and activity in Canada and Northern Europe.

We generally target salaries, bonuses and incentive compensation towards a median level or 50th percentile range on a size and geographic adjusted basis relative to peer companies for similar experienced executives performing similar duties.

Generally, awards are made within this range, although our program is flexible enough to allow the Committee to provide compensation above or below the 50th percentile in cases of exceptional individual and corporate performance or other individual factors relating to an NEO's performance. We benchmark against median compensation because it allows us to attract and retain executives, provides an incentive for executives to strive for better than average performance to earn better than average compensation and helps us to manage the overall cost of our compensation program.

While the Committee believes it is important to periodically review benchmarking data to determine how our executive compensation program compares to the programs used by our Peer Group Companies, such reference points are only one element it uses in structuring our executive compensation program.

New Short-Term Incentive Plan. In February 2019, based upon its review of our compensation goals, market and industry practices, including the Peer Group Companies and with the assistance of WTW, the Committee adopted the 2019 STIP, which will take effect starting in fiscal 2019.

The 2019 STIP provides that:

awards will be based upon three components, being an overall corporate component, a team component and an individual component;

the corporate component will comprise 40% of the 2019 STIP for all executives and be measured by how our Operating EBITDA achievement compares to the target Operating EBITDA (STIP Target EBITDA) as it is established and determined by the Committee and which for fiscal 2019 is targeted to generate a 6.0% return on assets. At the end of the year, actual Operating EBITDA will be compared to the STIP Target EBITDA, as determined by the Committee, and the achievement of the corporate component will be measured as follows:

% of STIP Target EBITDA Achieved	Payout of Target
<60%	0%
100%	100%
>150%	200%

the team component will include different elements depending upon an executive's particular role or job function (e.g., the team component for a corporate manager will differ from that of a mill manager). Overall weighting for the team component will vary between 10% and 40%. The team component will contain a

10% weighting for health and safety for all eligible executives. The achievement of the health and safety element will be measured as follows:

Health & Safety Target	Payout of Target
TRIR ⁽¹⁾ exceeding highest TRIR in last 3 years	0%
TRIR is equal or better than 90% of the average of last 3 years	100%
TRIR is equal to or better than 90% of lowest TRIR in any of past 3 years	200%

the individual component will vary between 20% to 50% based upon the role of the executive. The individual component will be measured against annual goals and performance targets provided by management and accepted by the Committee;

the measurement period will be a fiscal year and awards will be determined after year-end audited financial statements have been provided to and reviewed by the Committee; and

the initial awards under the 2019 STIP will be determined in February 2020 for fiscal 2019.

In the case of our CEO, Executive Chairman, CFO and COO, individual components will be weighted at 20% and they will participate in the overall 40% weighting for STIP Target EBITDA (measured as aforesaid). Each of their team components will be weighted 10% for divisional achievements of health and safety (measured as aforesaid) and 20% for divisional achievements of productivity and 10% for divisional achievements for costs measured as follows:

<95%	0%

Mr. Ridder's 2019 STIP components will be based 40% on STIP Target EBITDA, 10% on health and safety achievements and 50% on his individual component. For each of the 2019 STIP components,

the Committee will interpolate performance within ranges.

The following sets out the annual bonus opportunities of our NEOs as a percentage of their 2019 base salary upon achieving the 2019 STIP Target components:

Target**Maximum**

Jimmy S.H. Lee	100%	200%
David M. Gandossi	100%	200%
David K. Ure	67%	134%
Adolf Koppensteiner	50%	100%
Wolfram Ridder	35%	70%

The Committee has discretion to lower awards under the 2019 STIP if it determines that circumstances so warrant.

The Committee determined that the 2019 STIP would more closely align with Shareholder interests than its predecessor program. The 2019 STIP is designed to reward our NEOs and executives by producing objective outcomes that are closely aligned with the interests of Shareholders. The Committee also determined that the 2019 STIP is more transparent to executives and Shareholders and less subjective than its predecessor.

Total Compensation. At least annually, the Committee reviews total compensation levels for our NEOs, including each element of compensation and its proportion of total compensation. In determining the appropriate target total compensation for each NEO, the Committee reviews each individual separately and considers a variety of factors in establishing his or her target compensation. These factors may include the NEO's time in position, unique contribution or value to our recent performance, geographic location and market practices and whether there is a particular need to strengthen the retention aspects of the NEO's compensation. In its review of total compensation, the Committee also considers benchmarking information with respect to our Peer Group Companies.

The Committee has no predetermined specific policies on the percentage of total compensation that should be cash versus equity or short-term versus long-term. The Committee's practice is to consider Peer Group Company data and these relationships in the context of our compensation philosophy to determine the overall balance and reasonableness of our NEOs' total compensation packages.

Variable Pay at Risk

Our executive compensation program provides that a majority of compensation awarded to our NEOs, especially our Executive Chairman and CEO, is variable, performance-based compensation and at risk. The percentage of our executives' compensation opportunity that is variable or at risk versus fixed is based primarily upon the executive's role and, to a lesser extent, geographic location. Generally, executives with more ability to directly influence overall performance have a greater portion of pay at risk through both short- and long-term incentive programs. Further, as a result of local market practices and customs, our North American

executives generally have a greater portion of their compensation at risk, including the opportunity to earn greater rewards, than our European-based executives.

The graph below shows the balance of the elements that comprised total direct compensation for our Executive Chairman, Chief Executive Officer and our other NEOs, as a group, paid in 2018, including the percentage of variable compensation. The percentage of variable compensation listed below each chart is calculated by dividing (i) the value of variable compensation by (ii) the amount of total direct compensation, which includes variable compensation plus fiscal 2018 base salary.

Fiscal 2018 Total Direct Compensation Paid

Post-Retirement Compensation

We provide retirement benefits to our NEOs (other than our Executive Chairman) through our North American and European retirement programs.

The North American program is a defined contribution type structure whereby a contribution of 10% of base salary, along with 5% of any cash bonus paid, is remitted to an investment account held in the name of the employee on a tax deferred basis. To the extent that the contributions exceed limits established by tax legislation, the amount that exceeds the limit is credited to an unfunded account. Our Chief Executive Officer and Chief Financial Officer are the NEOs participating in the North American program.

The European program is a defined contribution type structure whereby we make contributions to a German government regulated pension plan in an amount equal to 10% of a combined total of each

participating German executive officer's gross salary and half of such executive's cash bonus payments. To the extent that the contributions exceed limits established by tax statute, the amount that exceeds the limit is paid to a fund managed by a third party where it is held on the employee's behalf. Messrs. Koppensteiner and Ridder are the NEOs participating in the European program.

Performance Measures

For fiscal 2018, as part of the annual performance evaluations it conducts for our NEOs, the Committee, among other things, considered the following performance measures:

Operating EBITDA We consider Operating EBITDA to be the leading and best indicator of our ability to successfully manage our business. It is a meaningful supplement to net income as a performance measure primarily because

Table of Contents

depreciation expense and non-recurring capital asset management charges are not actual cash costs, and depreciation expense varies widely from company to company in a manner we consider largely independent of the underlying cost efficiency of their operating facilities. We also measure Operating EBITDA versus applicable Peer Group Companies, both on an absolute basis and on an Operating EBITDA per tonne of NBSK pulp production basis;

Performance Criteria Our NEOs' performance in respect of the Performance Criteria comprising: Absolute Return on Average Assets, Total Shareholder Return and the contribution of our NEOs to the successful undertaking of New Business Initiatives;

Major Transactions The completion of major transactions such as material acquisitions or financing related transactions;

Operating, Environmental and Health and Safety Performance The operating performance of our mills, including pulp and energy production, environmental and health and safety performance and operating production and costs, and the contributions of our NEOs in achieving these targets. We believe health and safety is critical for our business and directly correlated to efficient operations and manufacturing performance; and

Individual Goals Our NEOs' progress on meeting pre-set and approved individual goals for the fiscal year. For fiscal 2018, the above performance measures were evaluated based on the overall judgment of the Committee without giving fixed or specific weighting to any particular measure with respect to salaries, perquisites and annual cash bonuses.

With respect to the vesting of PSUs and awards of shares thereunder pursuant to our LTIP, the components of the Performance Criteria and the Amended Performance Criteria, as applicable, are equally weighted as to each component thereof.

Commencing with fiscal 2019, short term cash incentives will be determined pursuant to the 2019 STIP.

Risk Considerations. We have designed our total direct compensation (base salary, annual incentive bonus, long-term equity incentive compensation and perquisites) to encourage our executives to take appropriate risks to improve our performance and enhance long-term Shareholder value. We believe that the design and objectives of our executive

compensation program provides an appropriate balance of incentives for executives and avoids inappropriate risks. In this regard, our executive compensation program includes, among other things, the following design features:

a balanced mix of fixed versus variable compensation and cash-based versus equity-based compensation;

variable compensation based on a variety of performance goals, including overall corporate and individual performance goals;

a balanced mix of short-term and long-term incentives;

performance and time-based vesting requirements for long-term performance awards such as our PSUs;

Committee discretion to lower annual incentive award amounts;

a prohibition on hedging and pledging Company stock; and

clawback provisions for performance and variable pay.

Management and the Committee have considered and assessed our compensation objectives, philosophy, and forms of compensation for our executives to determine whether the risks arising from such policies or practices are reasonably likely to have a material adverse effect on us. Based upon such review, we have determined that our compensation practices and policies do not create risks that are reasonably likely to have a material adverse effect on us.

Internal Pay Equity. The Committee considers internal pay equity, among other factors, when making compensation decisions. However, the Committee does not use a fixed ratio or formula when comparing compensation among executive officers. Our Chief Executive Officer is compensated at a higher level than other executive officers due to his significantly higher level of responsibility and accountability. Our Executive Chairman is also compensated at a higher level than our other NEOs due to his leadership role, focus on strategy and growth opportunities and his overall experience. Both our CEO and Executive Chairman generally receive more of their pay in the form of long-term incentive equity compensation and at risk compensation relative to the other NEOs. As a result of our CEO's responsibility for our overall performance, the Committee and our independent directors believe that compensating the CEO at a higher level than other executives and weighting the CEO's total compensation more heavily towards long-term equity

Table of Contents

incentive compensation and at risk compensation is consistent with our compensation objectives, market practices and appropriately reflects his contribution.

We believe the fiscal 2018 target total direct compensation for the NEOs other than the CEO in relation to the compensation targeted for the CEO and to one another was reasonable and appropriate

Change of Control and Severance Agreements

A number of the employment agreements we have entered into with our NEOs provide for specified payments and other benefits in the event of a change of control. Such change of control provisions are described in greater detail under Employment Agreements with our Named Executive Officers beginning on page 44 and under Potential Payments upon Termination or Change of Control beginning on page 50 of this Proxy Statement. The purpose of the change of control agreements is to encourage key management personnel to remain with us and to help avoid distractions and conflicts of interest in the event of a potential or actual change of control so that the executives will focus on a fair and impartial review of any proposal on the maximization of value. We believe that we have structured agreements to be reasonable and to provide a temporary level of protection to our NEOs in the event of employment loss due to a change of control. In addition, our 2010 Plan provides that upon the termination of employment of any NEO within 12 months of a change in control, each outstanding option and stock appreciation right held by such NEO shall automatically become fully and immediately vested and exercisable, each share of restricted stock or restricted stock right shall become fully and immediately vested and all forfeiture and transfer restrictions thereon shall lapse, and each outstanding performance share or performance share unit shall become immediately payable. The accelerated vesting and exercisability in the event of a termination of employment occurring subsequent to a change in control is intended to allow executives to recognize the value of their contributions to us and not affect management decisions following termination.

The employment agreements of our NEOs provide for severance payments in certain circumstances. The specific amounts that a particular NEO would receive as a severance payment are described under Potential Payments upon Termination or Change of Control beginning on page 50 of this Proxy Statement.

given each such executive's responsibilities and our financial and operating performance for the year. The differences in compensation among our NEOs relative to each other and our CEO are based on market differences for the particular job, job responsibilities and scope, professional experience, geographic compensation practices and adjustments for individual performance.

Limitations on Deductibility of Compensation

Prior to December 22, 2017, when the Tax Cuts and Jobs Act of 2017 (the TCJA) was signed into law, Section 162(m) of the Internal Revenue Code generally disallowed a tax deduction to publicly held companies for compensation paid to certain executive officers in excess of \$1 million per officer in any year that did not qualify as performance-based. In connection with fiscal 2018 compensation decisions, the Compensation Committee considered the effects of Section 162(m). Because we believe that it is important to preserve flexibility in administering compensation programs in a manner designed to attract, retain and reward high-performing executives or promote varying corporate goals, we did not adopt a policy for 2018 that all compensation must qualify as deductible under Section 162(m). Therefore, certain amounts paid in 2018 under our compensation programs, including salaries, bonuses and long-term incentive plan grants, may not qualify thereunder as compensation excluded from the limitation on deductibility. The committee has discretion to award compensation that may not qualify as tax deductible.

Under the TCJA, the performance-based exception has been repealed and the \$1 million deduction limit now applies to anyone serving as the chief executive officer or the chief financial officer at any time during the taxable year and the top three other highest compensated executive officers serving at the end of the fiscal year. The new rules generally apply to taxable years beginning after December 31, 2017, but do not apply to remuneration provided pursuant to a written binding contract in effect on November 2, 2017 that is not modified in any material respect after that date.

Other Applicable Policies and Provisions

Clawback Policy. Our Clawback Policy allows us to seek reimbursement with respect to incentive compensation paid or awarded to executive officers where the payment of a bonus or equity award or the vesting of such award was predicated upon the achievement of financial results that were the product of fraudulent activity or that were subsequently the subject of a material negative restatement.

Table of Contents

Anti-Hedging Policy. Our Hedging Transactions Policy prohibits senior executives from engaging in hedging transactions designed to offset decreases in the market value of our stock, including certain forms of hedging and monetization transactions.

Anti-Pledging Policy. Our Securities Law Compliance Policy prohibits executives from holding our stock in a margin account or pledging our stock as collateral for loans.

Timing of Equity Awards. Equity awards are made by the Compensation Committee generally only on dates that the Committee meets. Committee meetings are normally scheduled well in advance and are not scheduled with an eye to announcements of material information. The Committee sometimes makes an award with an effective date in the future, which may be contingent or designed to take effect after the announcement of material information. The Committee may make an award by unanimous written consent if the proposed award has previously been reviewed by the Committee.

NEO Share Ownership Policy. In 2019, we adopted a share ownership policy for our NEOs which requires our CEO and Executive Chairman to hold Shares having a value equal to at least five times their base salary and our other NEOs to hold Shares with a value equal to three times their base salary. NEOs will have five years to achieve the required threshold.

Summary

We believe that our executive compensation program has been appropriately designed to achieve our compensation objectives and does not create risks that are reasonably likely to have a material adverse effect on us.

Our executive compensation program is competitive, performance driven, consistent with Shareholder interests and fair and reasonable overall. We believe that our compensation levels fairly reflect our operating and financial performance and are appropriate relative to our Peer Group Companies.

How the Committee Considered the 2018 Advisory Vote on Our Compensation Program

We provided Shareholders a say on pay advisory vote on our executive compensation in 2018. At our 2018 annual meeting of Shareholders, Shareholders expressed very substantial support for the compensation of our NEOs, with approximately 99.7% of the votes cast for approval of the say-on-pay advisory vote on executive compensation. Our Compensation Committee and Board value the opinions of our Shareholders and consider those opinions when making compensation decisions. To the extent we receive a significant vote against the compensation of our NEOs, we will consider our

Shareholders' concerns and the Committee will evaluate whether any actions are necessary to address those concerns. The Committee also considered many other factors in evaluating our assessment of the interaction of our compensation programs with our business objectives, including reviewing data of a comparison group of peers. While all of these factors weighed on the Committee's decisions regarding our NEOs' compensation, the Committee did not make any changes to our executive compensation program and policies as a result of the 2018 say-on-pay advisory vote.

Table of Contents**EXECUTIVE COMPENSATION TABLES****Summary Compensation Table**

The following table sets forth information regarding the fiscal 2018, 2017 and 2016 compensation awarded to, earned by, or paid to our NEOs. It is important to note that the Summary Compensation Table and the Grants of Plan-Based Awards table appearing on page 45 only reflect plan-based awards actually issued in fiscal 2018.

All of our NEOs are paid in currencies other than dollars. Messrs. Gandossi and Ure are paid in Canadian dollars and the remaining NEOs are paid in euros. In this Proxy Statement, unless otherwise

noted, such amounts have been converted into dollars using the relevant average exchange rate for the year based on the noon buying rates as certified for customs purposes by the Federal Reserve Bank of New York and posted by the Federal Reserve Board of Governors. Based upon the exchange rate as at December 31, 2018, the dollar had decreased by approximately 5% in value against the euro and decreased by approximately 0.2% against the Canadian dollar since December 31, 2017.
- (2) The amount reported in this column for each NEO reflects the dollar amount of base salary paid, including salary increases.
- (3) Stock awards awarded to NEOs consist primarily of PSUs issued under the 2010 Plan. The amounts shown do not reflect whether the recipient has actually realized or will realize a financial benefit from such awards. The amounts shown represent the aggregate grant date fair values during the indicated fiscal year of the awards granted to our NEOs in 2018 and prior fiscal years as determined in accordance with ASC 718 and based on the assumptions and methodologies set forth in the Notes to the Consolidated Financial Statements in our Annual Reports on Form 10-K for the years ended December 31, 2018, 2017 and 2016, respectively. On February 14, 2018, we granted 2018 PSUs to all our NEOs. The grant date fair values are reported based upon the Share price of \$12.75, which was the closing market price on the date of grant, and the probable outcome of the Performance Criteria for such awards as of the date of grant in accordance with SEC rules. The values of the 2018 PSUs granted in February 2018, assuming maximum vesting of 200% (and not target of 100%) of the performance awards, would have been: (i) Mr. Lee - \$1,143,268; (ii) Mr. Gandossi - \$1,269,850; (iii) Mr. Ure - \$553,580; (iv) Mr. Koppensteiner - \$456,322; and (v) Mr. Ridder - \$397,622. Details on the awards can be found in the Grants of Plan-Based Awards Table on page 45 of this Proxy Statement.
- (4) The amounts set forth in this column for Mr. Gandossi and Mr. Ure reflect the annual change in the value, including interest, of their respective unfunded accounts, which accounts record those retirement plan contributions in excess of the applicable statutory limit.

Employment Agreements with our Named Executive Officers

We have entered into employment agreements with each of our NEOs. The following summary of certain material terms of such agreements is not complete and is qualified by reference to the full text of each agreement on file with the SEC.

Executive Chairman. Mr. Lee is a party to a second amended and restated employment agreement with us dated September 29, 2015, which provides for an initial annual base salary of \$463,500 (which amount is reviewed by the Board annually), participation in our bonus program and long-term incentive plan as well as certain other benefits and perquisites, including a housing and living allowance not to exceed in the aggregate \$75,000 per annum. The agreement continues in effect until Mr. Lee's employment with us is terminated. Mr. Lee may terminate his employment with us at any time for good reason within 180 days after the occurrence of any good reason event and we may terminate his employment with cause. Mr. Lee's agreement contains a provision giving us the ability to deduct and clawback any compensation paid to Mr. Lee thereunder that is subject to recovery under law, government regulation or a stock exchange listing requirement.

Chief Executive Officer. Mr. Gandossi is a party to an amended and restated employment agreement with us dated September 29, 2015, which provides for an initial annual base salary of C\$590,000 (which amount is reviewed by the Board annually),

If threshold performance is not satisfied, an NEO's rights with respect to the award are forfeited. The **Target** amount reported represents the number of Shares issuable if performance objectives are achieved (as determined by the Committee) and the **Maximum** amount reported represents vesting of 200% of the performance award if the maximum objective is achieved (as determined by the Committee).
- (2) Stock awards awarded to NEOs in 2018 consist of the 2018 PSUs granted to all our NEOs on February 14, 2018. Pursuant to ASC 718, grant date fair values of the 2018 PSUs granted in February 2018 are based on the Share price of \$12.75, which was the closing market price on the date of grant, and the probable outcome of the Performance Criteria for such awards as at the date of grant in accordance with SEC rules.

Table of Contents**Narrative Disclosure to Grants of Plan-Based Awards Table**

All equity awards shown in the table were granted under our 2010 Plan. Annual incentive plan awards reflect the potential threshold, target and maximum incentive awards payable to our NEOs based upon the achievement of the Performance Criteria. Amounts shown are calculated as a percentage of base salary. Target bonus amounts assume the achievement of the Performance Criteria at the target amounts. Maximum bonus amounts assume the achievement of the Performance Criteria at the maximum amount of 200%. The actual equity bonus payments received by NEOs are set out in the Non-Equity Incentive Plan Compensation column of the Summary Compensation Table.

In February 2018, we issued an aggregate of 652,548 2018 PSUs to our executives, including an aggregate of 299,658 2018 PSUs to our NEOs.

Each PSU represents one Share. As a result, the number of 2018 PSUs issued to NEOs was 200% of the target level of performance share units, being the maximum number of Shares that our NEOs may earn pursuant to the LTIP.

The number of PSUs that actually vest and the Shares actually earned will be based on the achievement of the applicable performance criteria established by the Committee described below. The Performance Criteria for the PSUs granted in 2018, 2017 and 2016 are the same. The performance period for 2018 PSUs is three years and the Performance Criteria is assessed by the Committee after receipt of our audited financial statements for the last completed fiscal year of a performance period. The performance period for the 2018 PSUs ends December 31, 2020.

The Committee has the opportunity to assess the effectiveness of the LTIP each year and make adjustments, if needed, to the LTIP.

Determinations as to the achievement of the Performance Criteria by an NEO and the number of PSUs that actually vest and Shares that are actually earned are made by the Committee with reference to Performance Criteria consisting of the following three equally weighted components:

- (1) *Absolute Return on Average Assets* (ROAA). Calculated by dividing our net income by average assets, with the result for the three-year performance period being a simple average of the ROAA for each of the three years. The ROAA component for the PSUs granted in 2018, 2017 and 2016 is as follows:

Three-Year Average ROAA	Payout of Target
<3%	0%
3.00% to 4.99%	50% to 90%
5.00% to 6.99%	100% to 199%
>7.00%	200%

In February 2019, the Committee amended the ROAA component to increase the ranges at each payout level for PSUs granted on and after 2019.

- (2) *Total Shareholder Return* (TSR). The return on the Shares, including price appreciation and dividend payouts, over the three-year performance period compared to the TSR Group Companies (as listed below) and determined as follows:

TSR Percentile Ranking to Peers	Payout of Target
<33 rd percentile	0%
33 rd to 65 th percentile	50% to 90%
66 th to 90 th percentile	100% to 199%
>90 th percentile	200%

The TSR Group Companies are:

Borregaard ASA;

Canfor Pulp Products Inc.;

Domtar Corporation;

ENCE Energia y Celulosa SA;

Fibria Celulose SA;

Resolute Forest Products Inc.;

Rottneros AB;

Stora Enso Oyj;

UPM-Kymmene Oyj; and

West Fraser Timber Co. Ltd.

The TSR Group Companies against which relative TSR is measured were selected to ensure a close alignment with our business in terms of both product mix and geographic footprint which we believe is the best comparator for shareholder returns.

(3) *New Business Initiatives* (NBIs). NBIs are new business initiatives being undertaken by management which the Committee has approved as qualifying for the NBI component of the Performance Criteria. In connection with the Committee's approval of a business initiative as an NBI under this component, the Committee establishes metrics to assess and determine whether such NBI was successfully implemented and its subsequent effect on the Company's business and operations. Not all business initiatives that management or we undertake qualify as an NBI under this component.

As some NBIs may take time to develop and successful implementation could extend beyond the three-year performance period, the Committee uses its judgment in awarding a payout under this component of the Performance Criteria.

The quality of NBIs is rated by the Committee on a scale of 1 to 4, with 1 being no NBIs proposed and 4 being NBIs proposed and approved by the Board and measures initiated and successfully implemented to metrics approved by the Committee, as follows:

NBI Rating	Payout of Target
1	0%
2	50%
3	100%
4	200%

For each of the three components of the Performance Criteria, the Committee will interpolate performance between ranges. For the TSR component, the Committee uses, as the starting price of the various securities, the average trading price of the securities for the first 20 days of trading of 2018 and, as the end price, the average trading price of the securities for the last 20 days of trading in 2020. Any awards under the LTIP that do not vest pursuant to the Performance Criteria are forfeited.

In 2017, the Committee awarded an aggregate of 542,788 PSUs (the 2017 PSUs) which are eligible to vest following the end of a three-year performance period ending on December 31, 2019.

In February 2019, our Board, based upon the Committee's assessment of the achievement of the Performance Criteria, approved the vesting and awarding of 449,395 Shares to our executives (including our NEOs) pursuant to the 2016 PSUs. The 449,395 Shares represent 100% of the potential Share award range previously set at between 0% and 200%. See *Vesting of Fiscal 2016 PSUs* on page 32 hereof.

In February 2019, the Committee determined that the vesting of PSUs issued in 2019 and thereafter will be based upon the Committee's assessment of achievement of the Amended Performance Criteria.

Under the 2010 Plan, PSUs vest immediately upon the occurrence of a triggering event occurring within 12 months of a change of control. See *Narrative Discussion on Potential Payments upon Termination or Change of Control* .

As at December 31, 2018, the vesting of such awards was contingent upon the achievement of the Performance Criteria at the end of a three-year performance period measured from January 1, 2018 and ending on December 31, 2020, in the case of the 2018 PSUs, from January 1, 2017 and ending on December 31, 2019, in the case of the 2017 PSUs, and from January 1, 2016 and ending on December 31, 2018, in the case of the 2016 PSUs. Non-Qualified Deferred Compensation				

We do not maintain a retirement program for our Executive Chairman. We maintain two separate retirement programs for our other North American and European executive officers.

Under the terms of our North American program, we make a contribution to a registered retirement savings plan (RRSP) account with a financial institution in the name of the executive officer in an amount equal to 10% of a

combined total of 100% of gross salary and 50% of cash bonus payments up to the annual maximum RRSP limit (C\$26,230 in 2018). Amounts in excess of the annual maximum RRSP limit, are

credited to an unfunded account and earn interest based on a notional growth rate of 3.83%. While the value of the unfunded account grows on a tax-free basis while retained in the Company, the executive officer will be subject to full taxation on the balance at the time the funds are withdrawn (upon retirement or termination of employment).

Our Chief Executive Officer and Chief Financial Officer participate in our North American program. In 2018, we contributed or accrued \$20,255 on each of their behalves under the terms of the program.

Table of Contents

Similarly, under the terms of our European program, we make contributions to a German government regulated pension plan in an amount equal to 10% of a combined total of 100% of each participating German executive officer's gross salary and 50% of such executive's cash bonus payments. In addition, to the extent that such statutory pension is limited by an annual cap (€ 6,473 in 2018), contributions in excess of this amount are remitted to a third party fund and held in an account in the executive officer's name.

While the value of such account grows on a tax-free basis while retained with the third party fund, the executive officer will be subject to full taxation of the balance at the time the funds are withdrawn (upon retirement or termination of employment).

The NEOs participating in our European program are Messrs. Koppensteiner and Ridder, on whose behalf, in 2018, we contributed \$39,734 and \$37,607, respectively, under the terms of the program.

Non-Qualified Deferred Compensation Table

The following table sets forth information regarding contributions, earnings and account balances described above for our NEOs under our retirement programs.

(1) Amounts in this column reflect our contributions to each of our NEOs' respective retirement plan which is in excess of the amount permitted by applicable tax statute. We also account for these amounts in the Summary Compensation Table on page 43 of this Proxy Statement, under the "Change in Pension Value and Non-Qualified Deferred Compensation Earnings" column for Messrs. Gandossi and Ure and under the "All Other Compensation" column for all of our other NEOs.

(2) The amount in this column reflects interest accrued based on a notional growth rate of 3.83%. We account for Messrs. Gandossi and Ure's amounts in the Summary Compensation Table on page 43 under the "Change in Pension Value and Non-Qualified Deferred Compensation Earnings" column.

(3)

No amounts are shown in this column for the NEOs participating in our European retirement program, as contributions in excess of statutory limits are remitted to a third party fund and the Company no longer has any obligation in respect thereof.

- (4) Of this balance, \$448,558 and \$48,020 were previously reported as compensation to Mr. Gandossi and Mr. Ure, respectively, in the Non-Qualified Deferred Compensation Table in the prior year's proxy statement. The information in this footnote is provided to clarify the extent to which amounts payable as deferred compensation represent compensation reported in our prior proxy statements rather than additional currently earned compensation.

Narrative Discussion on Potential Payments upon Termination or Change of Control

2010 Plan

Under the 2010 Plan, all unvested performance awards granted under the plan will vest if a triggering event occurs within 12 months following a change of control. The 2010 Plan has detailed definitions of change of control and triggering event. Generally speaking, under the 2010 Plan, a change of control occurs if: (i) we sell or otherwise dispose of all or substantially all of our assets; (ii) someone acquires 50% or more of our Shares; or (iii) we complete a merger, consolidation or reorganization, following which 50% or more of the voting shares of the continuing or surviving entity and the parent company of such entity are held by persons who were

not Shareholders prior to such merger, consolidation or reorganization. Any one of the following events would constitute a triggering event under our 2010 Plan: (i) the termination of the relevant employee without cause; (ii) the occurrence of constructive termination; or (iii) in connection with a change of control, any outstanding awards are not assumed, replaced, converted or otherwise continued by the Company or a successor entity thereof. Due to the number of factors that affect the nature and amount of any benefits provided upon the happening of such events, any actual amounts paid or distributed may be different. Factors that could affect these amounts include the achievement of performance thresholds and the Company's stock price.

Contractual Obligations

Jimmy Lee

Termination without cause or voluntary termination for good reason. The terms of his employment agreement provide that, if Mr. Lee is terminated without cause or voluntarily terminates his employment for good reason, he will be entitled to a severance payment equal to three times the sum of: (A) his then annual salary; and (B) the higher of (i) his current annual bonus and (ii) the highest variable pay and incentive bonus received during the three years last ending prior to his termination. This amount is payable in substantially equal installments over a twelve-month period, unless (i) a change of control occurs following such termination, in which case the unpaid portion of such severance amount is payable in full in a lump sum cash payment immediately following such change of control, or (ii) such termination occurs in contemplation of, at the time of, or within three years after a change of control, in which case this amount is payable in a lump sum cash payment immediately following such termination. The terms of his employment agreement provide that, if Mr. Lee is terminated for cause or voluntarily terminates his employment without good reason, he is not entitled to any additional payments or benefits, other than accrued benefits (including, but not limited to, any then vested stock options and other equity grants) and a prorated bonus, which is payable immediately upon such termination.

Death or termination for disability. The terms of his employment agreement provide that, in the event of Mr. Lee's death or if Mr. Lee is terminated in connection with a disability, he is not entitled to any additional payments or benefits, other than accrued benefits, any amounts payable under the Company's incentive plan then in effect, and a prorated bonus, which is payable at the same time as the Company's other senior executives are paid under any cash bonus or long-term incentive plan. This amount is payable in substantially equal installments over an eighteen-month period, unless a change of control occurs following such termination, in which case the unpaid portion of such severance amount is payable in full in a lump sum cash payment immediately following such change of control.

The terms of his employment agreement further provide that, if Mr. Gandossi is terminated without cause or voluntarily terminates his employment for good reason in contemplation of, at the time of, or within twelve months after a change of control, instead of the amounts and payment terms described above, he will be entitled to a lump sum severance payment equal to three times the sum of: (A) his then annual salary; and (B) the higher of (i) his current annual bonus, (ii) the highest variable pay and

This amount is payable in substantially equal installments over a twelve-month period, unless a change of control occurs following such termination, in which case the unpaid portion of such severance amount is payable in full in a lump sum cash payment immediately following such change of control.

The terms of his employment agreement further provide that, if Mr. Ure is terminated without cause or voluntarily terminates his employment for good reason in contemplation of, at the time of, or within twelve months after a change

of control, instead of the amounts and payment terms described above, he will be entitled to a lump sum severance payment equal to one and a half times the sum of: (A) his then annual salary; and (B) the higher of (i) his current annual bonus and (ii) the highest variable pay and average incentive bonus received during the two years last ending prior to his termination.

Mr. Ure's employment agreement defines a change of control as the occurrence of any of certain specified events including: (1) the receipt by the Company of a Schedule 13D or other statement filed under Section 13(d) of the Exchange Act indicating that any person, directly or indirectly, (a) has become the beneficial owner of more than 50% of the outstanding Shares or (b) has sole and/or shared voting or dispositive power over more than 50% of the outstanding Shares; (2) a change in the composition of the Board occurring within a two-year

Table of Contents

period prior to such change as a result of which fewer than a majority of the Board members are incumbent Board members; (3) the consummation of a merger, amalgamation or consolidation of the Company with or into another entity if more than 50% of the combined voting power of the continuing entity's securities outstanding immediately after such event are owned by persons who were not Shareholders prior to such event; (4) the sale of all or substantially all of our assets; (5) the commencement by or against us of a bankruptcy proceeding; or (6) the approval by our Shareholders of a plan of complete liquidation or dissolution. Notwithstanding, a change of control in respect of items (1) to (4) above will not be deemed to occur unless such transaction constitutes a change in ownership of the Company or a change in effective control of the Company.

Termination for cause or voluntary termination without good reason. The terms of his employment agreement provide that, if Mr. Ure is terminated for cause or voluntarily terminates his employment without good reason, he is not entitled to any additional payments or benefits, other than accrued benefits (including, but not limited to, any then vested stock options and other equity grants) and a prorated bonus, which is payable immediately upon such termination.

Death or termination for disability. The terms of his employment agreement provide that, in the event of Mr. Ure's death or if Mr. Ure is terminated in connection with a disability, he is not entitled to any additional payments or benefits, other than accrued

benefits, any amounts payable under the Company's incentive plan then in effect, and a prorated bonus, which is payable at the same time as the Company's other senior executives are paid under any cash bonus or long-term incentive plan. In addition, all Mr. Ure's unvested rights in any stock options and any other equity awards will vest in full and become immediately exercisable.

Adolf Koppensteiner

The terms of Mr. Koppensteiner's employment agreement provide for a 12 month notice period in case of termination by either party. The agreement does not contain a change of control provision.

Wolfram Ridder

The terms of Mr. Ridder's employment agreement provide for a six-month notice period in case of termination and 12 months in the event of a change of control, which is defined as a direct or indirect change in majority ownership of Stendal Pulp Holding GmbH. In addition to the terms provided for in the individual employment agreements, our 2010 Plan contains provisions for accelerated vesting and exercisability of options, stock appreciation rights, restricted stock, restricted stock rights and performance awards upon termination of employment within 12 months of a change of control. The Committee also has the discretion to vest and make exercisable any outstanding award previously issued under the 2010 Plan upon the closing of a transaction that results in a change of control.

CEO Pay Ratio

As required by Section 953(b) of the Dodd-Frank Wall Street Reform and Consumer Protection Act, and Item 402(u) of Regulation S-K, we are providing the following information about the relationship of the annual total compensation of our employees and the annual total compensation of Mr. David Gandossi, our President and Chief Executive Officer:

For 2018, our last completed fiscal year:

the annual total compensation of the employee identified at median of our company (other than Mr. Gandossi), was \$56,148;

the annual total compensation of Mr. Gandossi for purposes of determining the pay ratio was \$2,168,088; and

the ratio of the annual total compensation of Mr. Gandossi, to the median of the annual total compensation of all employees was estimated to be 39 to 1.

This pay ratio is a reasonable estimate calculated in a manner consistent with SEC rules based on our payroll and employment records and the methodology described below.

The SEC rules for identifying the median compensated employee and calculating the pay ratio based on that employee's annual total compensation allow companies to adopt a variety of methodologies, to apply certain exclusions, and to make reasonable estimates and assumptions that reflect their compensation practices. As such, the pay ratio reported by other companies may not be comparable to the pay ratio reported above, as other companies

Table of Contents

may have different employment and compensation practices and may utilize different methodologies, exclusions, estimates and assumptions in calculating their own pay ratios.

To identify the median employee, we determined that, as of December 31, 2018, our employee population consisted of approximately 1,900 individuals globally. To identify the median employee from our employee population, we collected actual base salary, bonus paid, and any overtime paid during the year ended December 31, 2018. In making this determination, we annualized the compensation of all newly hired permanent employees during this period. We did not include employees of MPR and Santanol, which we acquired during the 2018 fiscal year.

Table of Contents**PROPOSAL 2 - INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM****Ratification of Independent Registered Public Accounting Firm**

The Board requests that Shareholders ratify the selection of PricewaterhouseCoopers LLP as our independent registered public accounting firm as a matter of good corporate practice.

We initially appointed PricewaterhouseCoopers LLP as our independent registered public accounting firm effective May 10, 2007 and received Shareholder ratification of such appointment at our annual meeting held in June 2007. The appointment of PricewaterhouseCoopers LLP was approved by the Audit Committee and by the Board.

Representatives of PricewaterhouseCoopers LLP are not expected to be present at the Meeting but have been given an opportunity to make a statement if they so desire and will be available should any matter arise requiring their participation at the Meeting.

The selection of PricewaterhouseCoopers LLP must be ratified by a majority of the votes cast at the Meeting, in person or by Proxy, in favor of such ratification.

**OUR BOARD RECOMMENDS A VOTE FOR THE RATIFICATION OF
PRICEWATERHOUSECOOPERS LLP AS OUR INDEPENDENT
REGISTERED PUBLIC ACCOUNTING FIRM.**

In the event PricewaterhouseCoopers LLP are not ratified as our registered public accounting firm at the Meeting, the Audit Committee will consider whether to retain PricewaterhouseCoopers LLP or select another firm. The Audit Committee may select another firm as our registered public accounting firm without the approval of Shareholders, even if Shareholders ratify the selection of PricewaterhouseCoopers LLP at the Meeting.

Policy on Audit Committee Pre-Approval of Audit and Permitted Non-Audit Services

Our Audit Committee is responsible for appointing, setting compensation for and overseeing the work of PricewaterhouseCoopers LLP. The committee has established a policy requiring its pre-approval of all audit and permissible non-audit services provided by PricewaterhouseCoopers LLP. The Audit Committee from time to time will provide a general pre-approval of specific types of services and provide specific guidance as to the specific services which may be eligible for pre-approval and will obtain appropriate cost estimations for each type of service. The Audit

Committee also specifically pre-approves all other permitted services. For all pre-approval of services, the Audit Committee considers whether such services are consistent with the rules of the SEC on registered public accounting firm independence. Under the policy, the Audit Committee must pre-approve services prior to the commencement of the specified service. In 2017 and 2018, all services provided by our independent registered public accounting firm, PricewaterhouseCoopers LLP, had been pre-approved by the Audit Committee.

PROPOSAL 3 - ADVISORY VOTE ON EXECUTIVE COMPENSATION

The Company believes that the compensation policies for our NEOs are designed to attract, motivate and retain talented executive officers and are aligned with the long-term interests of our Shareholders. This advisory Shareholder vote, commonly referred to as a "say-on-pay" vote, gives you as a Shareholder the opportunity to approve or not approve the compensation of our NEOs that is disclosed in this Proxy Statement. This advisory Shareholder vote occurs every year and will next occur at our annual meeting of Shareholders to be held in 2020 (the "2020 Annual Meeting"). The non-binding resolution approving our executive compensation was approved by 99.7% of the Shareholders present or represented by proxy at our 2018 annual meeting of Shareholders. This vote is not intended to address any specific item of executive compensation, but rather the overall compensation of our NEOs and the philosophy, policies and practices described in this Proxy Statement. Accordingly, the Company asks that you indicate your support for our executive compensation policies and practices as described in the Company's Compensation Discussion and

Analysis, accompanying tables and related narrative contained in this Proxy Statement by voting **FOR** the following resolution:

RESOLVED that the Company's Shareholders approve, on an advisory basis, the compensation of the Company's executives named in the Summary Compensation Table, as disclosed in the Company's 2019 Proxy Statement pursuant to the executive compensation disclosure rules of the Securities and Exchange Commission, which disclosure includes the Compensation Discussion and Analysis, compensation tables, narrative disclosure and other related tables and disclosure.

Since this say-on-pay vote is advisory, it will not be binding on the Board or the Compensation and Human Resources Committee. However, the Board and our Compensation and Human Resources Committee value the opinions of our Shareholders and will review the voting results and take them into consideration when making future decisions regarding executive compensation. The affirmative vote of the holders of a majority of the Shares represented in person or by proxy entitled to vote on the proposal will be required for approval.

OUR BOARD RECOMMENDS A VOTE FOR THIS PROPOSAL.

SECTION 16(a) BENEFICIAL OWNERSHIP REPORTING COMPLIANCE

Section 16(a) of the Exchange Act requires that our officers and directors and persons who own more than 10% of our Shares file reports of ownership and changes in ownership with the SEC and furnish us with copies of all such reports that they file. Based solely upon a review of the copies of these reports received by us, and upon written representations by

our directors and officers regarding their compliance with the applicable reporting requirements under Section 16(a) of the Exchange Act, we believe that all of our directors and officers filed all required reports under Section 16(a) in a timely manner for the year ended December 31, 2018.

COMMONLY ASKED QUESTIONS AND ANSWERS

Q: Why am I receiving these materials?

A: This Proxy Statement describes the proposals upon which you, as a Shareholder, will vote at the Meeting. It also gives you information on the proposals, as well as other information so that you can make an informed decision.

Q: Why did I receive a Notice of Internet Availability instead of a full set of proxy materials?

A: Rules adopted by the SEC allow companies to choose the method for delivering proxy materials to shareholders. We have elected to mail a notice regarding the availability of proxy materials on the Internet rather than sending a full set of these materials in the mail to our Shareholders (other than those who had previously requested electronic or paper delivery). This notice will be mailed to our Shareholders beginning on or around April 20, 2018, and our proxy materials will be posted on both our corporate website (www.mercerint.com) and the website referenced in the notice (www.proxyvote.com) on the same day. Utilizing this method of delivery expedites receipt of proxy materials by our Shareholders and lowers the cost of the Meeting. If you are a Shareholder and would like to receive a paper or email copy of the proxy materials, you should follow the instructions in the notice for requesting copies.

Q: What is the Proxy?

A: If you requested to receive printed proxy materials, these materials include an accompanying Proxy. The Proxy enables you to appoint Jimmy S.H. Lee and David M. Gandossi as your representatives at the Meeting. By completing and returning the Proxy, you are authorizing Mr. Lee and Mr. Gandossi to vote your Shares at the Meeting as you have instructed them on the Proxy. This way your Shares will be voted whether or not you attend the Meeting. Even if you plan to attend the Meeting, it is a good idea to complete and return your Proxy before the date of the Meeting just in case your plans change.

Q: Who can vote at the Meeting?

A: Registered Shareholders who own our Shares on the Record Date may attend and vote at the Meeting. Each Share is entitled to one vote. There were 65,651,056 Shares outstanding on the Record Date. If you own your Shares through a brokerage account or in another nominee form, you must provide instructions to the broker or nominee as to how your Shares should be voted. Your broker or nominee will generally provide you with the appropriate forms at the time you receive this Proxy Statement. If you own your Shares through a brokerage account or nominee, you cannot vote in person at the Meeting, (including through the virtual meeting), unless you receive a Proxy from the broker or the nominee.

Q: What am I voting on?

A: We are asking you to vote: (i) for the election of the Company's directors for the ensuing year; (ii) for the ratification of the selection of PricewaterhouseCoopers LLP as our independent registered public accounting firm for fiscal year 2019; and (iii) for the approval, on a non-binding advisory basis, of the compensation disclosed in this Proxy Statement of the Company's executive officers who are named herein in the Summary Compensation Table.

**OUR BOARD OF DIRECTORS
RECOMMENDS A VOTE FOR EACH
OF THESE PROPOSALS.**

Q: How do I vote?

A: Registered Shareholders may vote on the Internet, by mail, in person at the Meeting or by phone.

Voting on the Internet. Go to www.investorvote.com/merc (registered shareholders) or www.proxyvote.com (beneficial holders) or scan the QR code provided in your Proxy with your smartphone.

Follow the instructions to obtain your records and submit an electronic ballot. You should have your Proxy in hand when you access the website.

Voting by Mail. Complete, date, sign and mail the Proxy in the enclosed postage pre-paid envelope (if you received a paper copy of the proxy materials by mail). If you mark your voting instructions on the Proxy, your Shares will be voted as you instruct. Please see the Proxy for voting instructions.

Voting in Person. If you are a registered Shareholder and attend the Meeting, you may vote in person as instructed at the Meeting. However, if you hold your Shares in street name and you wish to attend and vote your Shares at

Table of Contents

the Meeting, you will first need to obtain a legal proxy from your broker, bank or other intermediary that is the holder of record of your Shares and bring it with you to the Meeting. Otherwise, you will not be permitted to vote in person at the Meeting.

Virtual Meeting. If you are a registered Shareholder, you may also attend and vote at the Meeting via the Internet. In order to do so, please follow the instructions in the accompanying Proxy and Meeting materials.

Voting by Telephone. Call 1-800-652-VOTE (8683) from any touch-tone telephone and follow the instructions. You should have your Proxy in hand when you call.

If you own your Shares through a brokerage account or in other nominee form, you should follow the instructions you receive from the record holder to see which voting methods are available.

Q: What does it mean if I receive more than one Proxy?

A: It means that you hold Shares in multiple accounts. Please complete and return all Proxies to ensure that all your Shares are voted in accordance with your instructions.

Q: What if I change my mind after returning my Proxy?

A: If you are a registered Shareholder, you may revoke your Proxy and change your vote at any time before it is voted at the Meeting. You may do this by:

 sending a signed notice of revocation of proxy to our registrar and transfer agent at the address set out above stating that the Proxy is revoked;

 submitting another Proxy with a later date over the Internet, by telephone or to our registrar and transfer agent at the address set out above; or

 voting at the Meeting.

Your Proxy will not be revoked if you attend the Meeting but do not vote.

If you own your Shares through a broker or other nominee and wish to change your vote, you must send those instructions to your broker or nominee.

Q: Will my Shares be voted if I do not sign and return my Proxy?

A: If your Shares are registered in your name, they will not be voted unless you submit your Proxy or vote in person at the Meeting. If your Shares are held in street name, your broker/dealer or other nominee will not have the

authority to vote your Shares unless you provide instructions. If you do not instruct such broker/dealer or other nominee as to how to vote your Shares, NASDAQ rules allow such nominee to vote your Shares only on routine matters. Proposal 2, the ratification of the selection of the Company's independent registered public accounting firm for fiscal 2019, is the only matter for consideration at the Meeting that NASDAQ rules deem to be routine. For all other proposals, you must submit voting instructions to the nominee that holds your Shares if you want your vote to count.

Q: Who will count the votes?

A: Agents of the Company will tabulate the Proxies. Additionally, votes cast by Shareholders voting in person at the Meeting are tabulated by a person who is appointed by our management before the Meeting.

Q: How many Shares must be present to hold the Meeting?

A: To hold the Meeting and conduct business, at least one-third of the outstanding Shares entitled to vote at the Meeting must be present at the Meeting. This is called a quorum.

Votes are counted as present at the Meeting if a Shareholder either:

is present and votes in person at the Meeting; or

has properly submitted a Proxy.

Abstentions and broker non-votes (i.e., Shares held by a broker/dealer or other nominee that are not voted because the broker/dealer or other nominee does not have the authority to vote on a particular matter) will be counted for the purposes of determining the presence of a quorum.

Q: How many votes are required to elect directors?

A: The affirmative vote of a majority of the Shares voted at the Meeting is required to elect our directors. However, our Governance Guidelines provide that in uncontested directors' elections

Table of Contents

any nominee for director who receives more votes Withheld than For for his or her election will have his or her term as a director terminate on the earlier to occur of: (i) 90 days after the election results are certified; (ii) the date such director resigns; or (iii) the date the Board fills the position.

Q: How many votes are required to adopt the other proposals?

A: The ratification of the appointment of PricewaterhouseCoopers LLP and the non-binding approval of the compensation of our executive officers named herein will require the affirmative vote of a majority of the Shares represented at the Meeting and entitled to vote thereon.

Q: What is the effect of withholding votes or abstaining ?

A: You can withhold your vote for any nominee in the election of directors. Withheld votes will be excluded entirely from the vote and will have no effect on the outcome (other than potentially triggering the majority voting requirements set forth in our Governance Guidelines and as described above). On other proposals, you can Abstain . If you abstain, your Shares will be counted as present at the Meeting for purposes of that proposal and your abstention will have the effect of a vote against the proposal.

Q: How are votes counted?

A: You may vote For or Withhold your vote on the proposal to elect directors. You may vote For or Against Abstain on the proposals to ratify the selection of our independent registered public accounting firm and approve the compensation of our executive officers named herein. If you withhold or abstain from voting on a proposal, it will have the practical effect of voting against the proposal.

If you sign and return your Proxy without voting instructions, your Shares will be voted in accordance with the Board's recommendations for the proposals described in this Proxy Statement.

Q: Could other matters be discussed at the Meeting?

A: We do not know of any other matters to be brought before the Meeting other than those referred to in this Proxy Statement. If other matters are properly presented at the Meeting for consideration, the persons named in the Proxy will have the discretion to vote on those matters on your behalf.

Q: Where and when will I be able to find the voting results?

A: You can find the official results of voting at the Meeting in a current report on Form 8-K filed with the SEC within four business days of the Meeting.

Even if you plan to attend our annual meeting in person or through the virtual meeting, please cast your vote as soon as possible by:
