**GOLDCORP TO AMEND SILVER PURCHASE AGREEMENT WITH SILVER WHEATON;
INCREASING OWNERSHIP OF SILVER WHEATON TO 62%**

Vancouver, BC, February 13, 2006-Goldcorp Inc. (TSX: G; NYSE: GG) is pleased to announce that it has agreed with Silver Wheaton Corp. (TSX: SLW; AMEX: SLW) to amend their existing silver purchase agreement in connection with an increase in Goldcorp's investment in exploration and development at its San Dimas mine in Mexico.

Under the existing silver purchase agreement dated October 15, 2004, Silver Wheaton is entitled to purchase all of the silver produced by Goldcorp's Mexican operations, Luismin, for a per ounce cash payment of the lesser of US\$3.90 and the prevailing market price (subject to an inflationary adjustment commencing in 2007). Further, Luismin is required to deliver a minimum of 120 million ounces of silver over the 25 year contract period and Silver Wheaton is obligated to pay 50% of any capital expenditures made by Luismin at its mining operations in excess of 110% of the projected capital expenditures outlined in the agreement.

Goldcorp and Silver Wheaton have agreed to amend the existing agreement, increasing the minimum number of ounces of silver to be delivered over the 25 year contract period by 100 million ounces, to 220 million ounces, and waiving any capital expenditure contributions previously required to be paid by Silver Wheaton. In consideration for these amendments, Silver Wheaton will issue to Goldcorp 18 million common shares, representing 9.8% of the outstanding shares of Silver Wheaton, and a US\$20 million promissory note, increasing Goldcorp's ownership to 62%, or 126 million common shares of Silver Wheaton. Goldcorp does not have any present intention to acquire ownership of, or control over, any additional securities of Silver Wheaton. The total consideration of US\$150 million is equal to the approximate value of Silver Wheaton's share of the future capital expenditures estimated over the remaining life of the existing agreement.

Luismin plans to increase its investment in exploration and development at the San Dimas mine, in order to improve ore production (gold and silver) at the mine by approximately 35% by 2009.

Closing of the transaction is conditional upon completion of definitive documentation and receipt of all requisite regulatory approvals, including the approval of the Toronto Stock Exchange.

Randy Smallwood, P. Eng., Director, Project Development of Goldcorp is the “qualified person” as defined in National Instrument 43-101 who has reviewed the proposed expansion of ore production at Luismin and has reviewed and approved of the contents of this news release.

Goldcorp is the world’s lowest cost and fastest growing gold producer, and is unhedged. Gold production in 2006 is forecast to be approximately 2 million ounces, on an annualized basis, at a cash cost of approximately US\$150 per ounce.
