Item 7.01 Regulation FD Disclosure

On February 2, 2012, the Company issued a press release announcing 20 additional located mining claims covering approximately 400 acres have been staked at the Copper Hills, New Mexico copper, silver project.

The 2011 geophysical survey revealed several chargeability anomalies on the property, with the largest anomaly being south and west of the main Copper Hills surface oxide showings. The company has therefore extended the property approximately 700 m to the west to fully cover the western extent of the large chargeability anomaly.

A copy of the news release is filed as exhibit 99.1 to this current report and is hereby incorporated by reference.
