July 23, 2008

Driven by double digit operating income growth from our Latincentro and Mercosur divisions, combined with a cost and expense control across our territories, consolidated operating income increased 8.9% to Ps. 3,169 million for the second quarter of 2008. Without giving effect to the acquisition of Remil, operating income would have increased 7.9% to Ps. 3,138 million and our operating margin would have been 17.3% for the second quarter of 2008. Consolidated majority net income increased 3.9% to Ps. 1,844 million in the second quarter of 2008, resulting in earnings per share of Ps. 1.00 in the second quarter of 2008. Excluding non-recurring expenses recorded in our Mexico division during the quarter, consolidated majority net income grew 10.8% .

Mexico City (July 23, 2008), Coca-Cola FEMSA, S.A.B. de C.V. (BMV: KOFL, NYSE: KOF) (Coca-Cola FEMSA or the Company), the largest Coca-Cola bottler in Latin America and the second-largest Coca-Cola bottler in the world in terms of sales volume, announces results for the second quarter of 2008.

"Supported by our execution across our territories and our ability to keep costs under control, we were able to increase operating income for the second quarter, despite one-time events such as unusually bad weather in Mexico in June and operating disruptions in Venezuela. Also, during the second quarter of 2008, we have closed the acquisition of The Coca-Cola Company's Refrigerantes Minas Gerais Ltda. ("Remil") franchise territory. This transaction will enable us to increase the number of clients and customers that we serve in Brazil through a complete and balanced portfolio of high-quality beverages. Through our joint venture, with The Coca-Cola Company, we continued to distribute Jugos del Valle beverages in Mexico as planned, and also began to distribute these products in Costa Rica." said Carlos Salazar Lomelin, Chief Executive Officer of the company.

CONSOLIDATED RESULTS

Until December 31, 2007, we applied inflationary accounting for all of our operations. Beginning January 1, 2008, in accordance with changes in the Mexican Financial Reporting Standards related to inflation effects, we discontinued inflation accounting for our subsidiaries in Mexico, Guatemala, Panama, Colombia and Brazil. For the rest of our subsidiaries (Argentina, Venezuela, Costa Rica and Nicaragua) we will continue applying the inflationary accounting method. The figures for 2007 are stated in Mexican pesos with purchasing power at December 31, 2007 (instead of being restated as of June 30, 2008 as would have been the case under the previous methodology) taking into account local inflation of each country with reference to the consumer price index and converted from local currency to Mexican pesos using the official exchange rate of December 31, 2007 published by the local central bank of each country.

Beginning with the first quarter of 2008, we have decided to align our quarterly disclosure based on the way we manage the business. We have regrouped our operations into three divisions: (i) Mexico division, (ii) Latincentro division, which is comprised of the territories we operate in Colombia, Venezuela, Guatemala, Nicaragua, Costa Rica and Panama, and (iii) Mercosur division, which is comprised of the territories we operate in Brazil and Argentina.

Our consolidated total revenues increased 6.7% to Ps. 18,544 million in the second quarter of 2008, compared to the second quarter of 2007, as a result of increases in our Mexico and Mercosur divisions, including the consolidation of one month of the recently acquired Refrigerantes Minas Gerais, Ltda. (Remil). Our consolidated average price per unit case increased 2.5% to Ps. 32.69 (US\$ 3.17) in the second quarter of 2008 as compared to the same period of 2007, as a result of higher average prices in all of our divisions.

Total sales volume increased 3.2% to 552.9 million unit cases in the second quarter of 2008 as compared to the same period of 2007; excluding Remil, total sales volume increased 1.8% mainly driven by incremental volumes from the bottled water business and still beverages. Sparkling beverages sales volume increased 1.2% on a consolidated basis during the quarter, although this number would have been flat without the effect of the inclusion of Remil. Bottled water, including bulk water, grew 6.6% representing 50% of the incremental volume in the quarter, and still beverages sales volume grew more than 50%, representing the balance, mainly driven by incremental volumes from the Jugos del Valle brand in our Mexico and Latincentro divisions.

Our gross profit increased 7.7% to Ps. 8,946 million in the second quarter of 2008, compared to the second quarter of 2007, driven by increases in all of our divisions and the inclusion of Remil in the 2008 period, with the Mercosur division contributing the majority of the growth. Gross margin reached 48.2% in the second quarter of 2008 from 47.8% in the same period of 2007. Lower sweetener costs in our Mexico and Mercosur divisions, combined with the appreciation of some of the local currencies applied to our U.S. denominated raw materials costs allowed us to expand gross margin by 40 basis points.

Our consolidated operating income increased 8.9% to Ps. 3,169 million in the second quarter of 2008, mainly driven by double-digit operating income growth in our Latincentro and Mercosur divisions. Our operating margin was 17.1% in the second quarter of 2008, an improvement of 40 basis points. Higher revenues, lower sweetener cost in our main operations in conjunction with our ability to tighten our consolidated expenses contributed to this growth. Excluding Remil, operating margin was 17.3% .

During the second quarter of 2008, we recorded non-recurring expenses related to one-time events; these expenses were allocated on the other expenses line in our consolidated income statement. In compliance with Mexican antitrust authorities, we recorded fines related to events brought in prior periods in the amount of Ps.126 million. In addition, we reclassified fixed costs related to disruptions in our Venezuelan operations into this line in the amount of Ps. 50 million which was classified as incidental cost.

Our integral result of financing in the second quarter of 2008 recorded an expense of Ps. 51 million as compared to an expense of Ps. 185 million in the same period of 2007, mainly due to a more favorable monetary position driven by non-inflationary accounting applied to certain divisions of our business, combined with lower interest expenses.

During the second quarter of 2008, income tax, as a percentage of income before taxes, was 28.3%, compared to 26.0% in the same quarter of 2007. This difference was driven mainly by tax credits applied during the second quarter of 2007, which reduced the tax base.

Our consolidated majority net income increased by 3.9% to Ps. 1,844 million in the second quarter of 2008 compared to the second quarter of 2007, driven by an increase in our operating income in conjunction with lower integral result of financing recorded this quarter compared to the second quarter of 2007. Earnings per share (EPS) were Ps. 1.00 (US\$ 0.97 per ADR) computed on the basis of 1,846.5 million shares outstanding (each ADR represents 10 local shares). Excluding one-time charges recorded in our Mexico division, consolidated majority net income grew 10.8% .

BALANCE SHEET

As of June 30, 2008, Coca-Cola FEMSA had a cash balance of Ps. 4,965 million (US\$ 481 million), a decrease of Ps. 2,577 million (US\$ 250 million), compared to December 31, 2007, mainly as a result of cash used in the Remil acquisition.

Total short-term bank debt, was Ps. 4,237 million (US\$ 411 million) and long-term debt was Ps. 14,407 million (US\$ 1,398 million). Total debt decreased Ps. 272 million ⁽¹⁾ (US\$ 26 million) compared with year end 2007. Net debt increased approximately Ps. 2,305 million (US\$ 224 million) compared to year end 2007, mainly as a result of cash we generated from our operations and resources we used in the Remil acquisition.

The weighted average cost of debt for the quarter was 7.91% . The following charts sets forth the Company's debt profile by currency and interest rate type and by maturity date as of June 30, 2008:

MEXICO DIVISION OPERATING RESULTS

In November 2007, Coca-Cola FEMSA together with The Coca-Cola Company and the rest of the bottlers in Mexico acquired 100% of Jugos de Valle S.A.B de C.V. As of February 2008, we are distributing the Jugos del Valle portfolio in our Mexico division through the traditional channel. Volume, average price per unit case, cost of goods sold and some operating expenses related to these products are recorded in our consolidated and Mexico division operating results. We do not expect to capture any profits from this line of business during 2008.

Revenues

Total revenues from our Mexico division increased 3.2% to Ps. 9,047 million in the second quarter of 2008, as compared to the same period of the previous year. Incremental volumes accounted for the majority of the incremental revenues during the quarter. Average price per unit case remained stable at Ps. 29.20 (US\$ 2.83), as compared to the second quarter of 2007, reflecting higher average price per unit case from the *Jugos del Valle* portfolio, which partially compensated for lower volumes in sparkling beverages. Excluding bulk water under the brand *Ciel*, our average price per unit case was Ps. 34.41 (US\$ 3.34), a 0.8% increase as compared to the same period of 2007.

Total sales volume increased 2.8% to 308.9 million unit cases in the second quarter of 2008, as compared to the second quarter of 2007, resulting from (i) more than 8% volume growth in our bottled water business and (ii) incremental volumes in the still beverage category driven by the *Jugos del Valle* product line, which more than compensated for a slight sales volume decline in sparkling beverages.

Operating Income

Our gross profit increased by 2.6% to Ps. 4,656 million in the second quarter of 2008 as compared to the same period of 2007 as a result of lower cost of sweeteners year-over-year which more than compensated for higher costs of PET combined with the second stage of the previously announced concentrate increase. Gross margin decreased from 51.8% in the second quarter of 2007 to 51.5% in the same period of 2008, resulting from higher costs from the Jugos del Valle portfolio, as expected this year.

Operating income increased 0.8% to Ps. 1,858 million in the second quarter of 2008, as compared to Ps. 1,844 million in the same period of 2007, as a result of higher revenues and tight controlled operating expenses. Our operating margin was 20.5% in the second quarter of 2008, a decrease of 50 basis points as compared to the same period of 2007.

LATINCENTRO DIVISION OPERATING RESULTS (Colombia, Venezuela, Guatemala, Nicaragua, Costa Rica and Panama)

As of May 2008, Coca-Cola FEMSA is distributing the Jugos del Valle portfolio in Costa Rica. Volume, average price per unit case, cost of goods sold and some operating expenses related to these products are recorded in our consolidated and Latincentro division operating results.

Revenues

Total revenues reached Ps. 5,286 million in the second quarter of 2008, remaining stable as compared to the same period of 2007. An increase of 1.3% in the average price per unit case compensated for lower Latincentro division consolidated volumes. Average price per unit case increased to Ps. 40.80 (US\$ 3.96) in the second quarter of 2008, as compared to the second quarter of 2007, as a result of higher pricing implemented during the quarter in the majority of our territories in the Latincentro division in addition to a positive currency impact.

Total sales volume in our Latincentro division declined 1.1% to 129.5 million unit cases in the second quarter of 2008, as compared to the same period of 2007. Volume decline was driven by operating disruptions in Venezuela and a more competitive environment in Colombia, which were partially compensated by incremental volumes from Central America.

Operating Income

Gross profit reached Ps. 2,434 million, an increase of 3.6% in the second quarter of 2008, as compared to the same period of 2007, driven by (i) lower sweetener costs in our Colombian operation, (ii) the yearly appreciation of some local currencies as applied to our U.S. dollar-denominated raw material costs, and (iii) lower cost of sales in Venezuela due to operating disruptions.⁽¹⁾ Gross margin increased from 44.5% in the second quarter of 2007 to 46.0% in the same period of 2008, an increase of 150 basis points.

Our operating income increased 18.9% to Ps. 747 million in the second quarter of 2008, as compared to the second quarter of 2007 as a result of lower costs of sales and a tight control of operating expenses. Our operating margin reached 14.1% in the second quarter of 2008, expanding 220 basis points as compared to the same period of 2007.

⁽¹⁾ We recorded in the other expense line of our consolidated income statement Ps. 50 million of non-recurrent fixed costs related to the operating disruptions in Venezuela during the second quarter of 2008.

MERCOSUR DIVISION OPERATING RESULTS (Brazil and Argentina)

As of June 2008, Coca-Cola FEMSA is including one month of the Remil operations in its Mercosur division. Volume and average price per unit case exclude beer results.

Revenues

Net revenues increased 25.8% to Ps. 4,160 million in the second quarter of 2008, as compared to the same period of 2007. Excluding beer, net revenues increased 23.2% to Ps. 3,771 million in the second quarter of 2008, as compared to the same period of 2007, mainly driven by higher average price per unit case implemented during the quarter. Average price per unit case, excluding beer, increased 12.4% to Ps. 32.93 (US\$ 3.20) during the second quarter of 2008. Excluding Remil and beer, net revenues increased 12.7% reaching Ps. 3,451 million. Total revenues from beer in Brazil were Ps. 389 million in the second quarter of 2008, including Remil.

Sales volume, excluding beer, increased 9.6% to 114.5 million unit cases in the second quarter of 2008, as compared to the second quarter of 2007. Sales volume, excluding Remil and beer increased 2.4% to reach 107.0 million unit cases. Sparkling beverages sales volume growth, excluding Remil, accounted for more than 70% of the incremental volumes, mainly driven by Coca-Cola brand and the strong performance of *Coca-Cola Zero*. Bottled water and still beverages provided the balance. Argentina contributed the majority of the growth during the quarter, excluding Remil.

Operating Income

In the second quarter of 2008, our gross profit increased 30.9% to Ps. 1,856 million, as compared to the same period of the previous year. Our Mercosur gross margin improved 140 basis points to 44.1% in the second quarter of 2008. Excluding Remil, our gross profit increased 19.7% driven by (i) higher revenues across our territories, (ii) lower sweetener costs in Brazil, and (iii) the appreciation of the Brazilian real as applied to our US denominated raw material costs; that more than compensated for higher resin and high fructose corn syrup cost in Argentina.

Operating income increased 29.1% reaching Ps. 564 million in the second quarter of 2008, as compared to Ps. 437 million in the same period of 2007. Our operating margin was 13.4% in the second quarter of 2008, an increase of 20 basis points as compared to the second quarter of 2007. Operating income, excluding Remil, grew 22.0% reaching Ps. 533 million due to an expansion in gross margin that compensated for higher expenses relating to (i) an increase in sales force to strengthen our presence and execution in certain retail segments in Brazil, (ii) higher expenses related to expansion in our cooler coverage and renewal of our distribution fleet in Brazil, and (iii) higher labor costs in Argentina.

SUMMARY OF SIX-MONTH RESULTS

Our consolidated total revenues increased 6.8% to Ps. 35,864 million in the first half of 2008, as compared to the first half of 2007, as a result of growth in all of our divisions; Mexico and Mercosur divisions represented the majority of this growth. Excluding Remil, our consolidated total revenues increased 5.6% to Ps. 35,483 million. Consolidated average price per unit case increased 2.5% to Ps. 32.66 (US\$ 3.17) in the first half of 2008. Higher average prices per unit case in sparkling beverages, mainly in our Mercosur division, combined with the integration of the Jugos del Valle line of business in our Mexico division, which more than off-set incremental volumes from jug water in Mexico, which carry lower average unit price per unit case.

Total sales volume increased 3.5% to 1,070.6 million unit cases in the first half of 2008, as compared to the same period of the previous year. Sales volume growth in our Mexico and Mercosur divisions accounted for the majority of our incremental volumes. Sparkling beverages sales volume accounted for more than half of incremental volumes and our water business and still beverages represented the balance. Excluding Remil, total sales volume increased 2.7% to reach 1,063.1 million unit cases.

Our gross profit increased 8.7% to Ps. 17,239 million in the first half of 2008, as compared to the first half of the previous year, driven by gross profit growth across all of our divisions. Gross margin increased to 48.1% during the first half of 2008 from 47.2% in the first half of 2007, due to lower cost of sugar in our main operations and the appreciation of some local currencies as applied to our US dollar denominated raw material costs.

Our consolidated operating income increased 11.9% to Ps. 5,992 million in the first half of 2008, as compared to the first half of 2007. Our Latincentro and Mercosur divisions accounted for almost 80% of this growth and our Mexico division represented the balance. Our operating margin improved 80 basis points to 16.7% in the first half of 2008, mainly driven by the improved operating leverage that resulted from higher revenues and a controlled cost and expense structure.

Our consolidated majority net income was Ps. 3,444 million in the first half of 2008 an increase of 13.2% compared to the first half of 2007, due to higher operating income combined with lower integral result of financing mainly driven by the appreciation of the Mexican peso as applied to our dollar denominated net liabilities. EPS were Ps. 1.87 (US\$ 1.81 per ADR) in the first half of 2008, computed on the basis of 1,846.5 million shares outstanding (each ADR represents 10 local shares). Excluding one-time charges recorded in our Mexico division in the second quarter, consolidated majority net income grew 17.3% .

RECENT DEVELOPMENTS

- On July 17, 2008 Coca-Cola FEMSA closed the transaction to acquire the Agua de los Angeles jug water business in the Valley of Mexico. Subsequently, this business will be merged into our current jug water business under the brand *Ciel*.
Agua de los Angeles jug water business in the Valley of Mexico, recorded revenues of approximately Ps. \$146 million in 2007 and sold approximately 21 million unit cases in the same period.
- During the second quarter, we announced that we had closed the transaction with The Coca-Cola Company to acquire its Remil franchise territory. The transaction is subject to the customary approval of the antitrust local authorities. The aggregate value of this transaction was US\$364.1 million dollars. Founded in 1948 in Belo Horizonte, Remil sold 114 million unit cases of sparkling beverages, water, still beverages and beer in 2007. This franchise serves the cities of Belo Horizonte, Contagem, Curvelo, Divinópolis, Governador Valadares, Ipatinga, Juiz de Fora, Lavras, Leopoldina, Mariana, Montes Claros, Janaúba, and Petrópolis.
- On May 6, 2008 Coca-Cola FEMSA paid a dividend in the amount of Ps. 945 million, representing Ps. 0.5120 for each ordinary share, equivalent to Ps. 5.12 per ADR, an increase of 12% in real terms as compared to the dividend paid for 2006.
