To Shareholders, Board Members and Management of:

Telefônica Brasil S.A.

São Paulo – SP

Introduction

We have reviewed the individual and consolidated interim accounting information of Telefônica Brasil S.A. and subsidiaries, contained in the ITR (Quarterly Information Form), referring to the quarter ended on June 30, 2014, which comprises the balance sheet of June 30, 2014 and the respective statements of income, of comprehensive income for the period so three and six months then ended and of changes in shareholders' equity and of cash flows for the three-month period then ended, including the notes.

The management is responsible for the preparation of the individual interim financial information in accordance with Technical Pronouncement CPC 21 (R1) – Interim Statements, and the consolidated interim financial information in accordance with CPC 21 (R1) and international standard IAS 34 – Interim Financial Reporting, issued by the International Accounting Standards Board – IASB, as well as for the presentation of the information in accordance with the standards issued by CVM (Comissão de Valores Mobiliários – Brazilian SEC), applicable to the preparation of Interim Information – ITR. Our responsibility is to express a conclusion on the interim accounting information based on our review.

Scope of review

We have conducted our review according to the Brazilian and International standards of review for interim information (NBC TR 2410 - Revisão de Informações Intermediárias Executada pelo Auditor da Entidade and ISRE 2410 - “Review of Interim Financial Information Performed by the Independent Auditor of the Entity”, respectively). A review of interim information consists of queries, especially to those responsible for financial and accounting matters and the application of analytical procedures and other review procedures.

The scope of a review is significantly smaller than the scope of an audit conducted in accordance with audit standards and, consequently, it did not allow us to obtain assurance that we were aware of all significant matters which could be identified in an audit. Consequently, we did not express an audit opinion.

Conclusion on the individual interim information

Based on our review, we are not aware of any fact which could lead us to believe that the individual interim financial information included in the quarterly information referred to above were not prepared, in all relevant aspects, in accordance with CPC 21 (R1), applicable to the preparation of the Quarterly Information – ITR, and presented according to the standards issued by CVM.

Conclusion on the consolidated interim financial information

Based on our review, we are not aware of any fact which could lead us to believe that the consolidated interim financial information included in the quarterly information referred to above were not prepared, in all relevant aspects, in accordance with CPC 21 (R1), and IAS 34, applicable to the preparation of the Quarterly Information – ITR, and presented according to the standards issued by CVM.

Other matters

Interim information of value added

We have also reviewed, the interim statement of value added (SVA), individual and consolidated, related to the three-month period ended on June 30, 2014, prepared under the Entity's management responsibility, the presentation of which, in the interim information, is required according to the standards issued by CVM applicable to the preparation of Quarterly Information – ITR, and considered as supplementary information by the IFRSs, which do not require the presentation of the SVA. These statements were submitted to the same review procedures previously described and, based on our review, we are not aware of any fact which could lead us to believe that they were not prepared, in all material aspects, in accordance with the individual and consolidated interim financial information as a whole.

Audit and review of previous year's comparative amounts

The individual and consolidated Quarterly Information (ITR), mentioned in the first paragraph include the financial information corresponding to income, comprehensive income, changes in shareholders' equity, cash flow and value added of the quarter ended June 30, 2013, obtained from the Quarterly Information (ITR) of that semester and from the balance sheet as of December 31, 2013, obtained from the financial statements of December 31, 2013, presented for comparison purposes. The review of the Quarterly Information of the quarter ended on March 31, 2013 and the exam of the financial statements of the period ended on December 31, 2013 were conducted under the responsibility of the independent auditors, who issued review and audit reports dated July 22, 2013 and February 25, 2014, with no changes.

1. Operations

a. Background information

Telefônica Brasil S.A. (Company or Telefônica Brasil) is a publicly-traded corporation operating in telecommunication services and in the performance of activities that are necessary or useful in the rendering of such services, in conformity with the concessions and authorizations it has been or granted.

The Company, headquartered at Avenida Engenheiro Luiz Carlos Berrini, nº 1376, in the city and State of São Paulo, Brazil, is a member of Telefónica Group, the telecommunications industry leader in Spain, also being present in various European and Latin American countries.

At June 30, 2014 and December 31, 2013, Telefónica S.A., holding company of the Group, held a total of 73.81% direct and indirect interest in the Company, being 91.76% of common shares and 64.60% of preferred shares (See Note 21).

b. Operations

The Company is primarily engaged in the rendering of land-line telephone and data services in the state of São Paulo, under Fixed Switched Telephone Service Concession Arrangement (STFC) and Multimedia Communication Service (SCM) authorization, respectively. Also, the Company is authorized to render STFC services in Regions I and II of the General Service Concession Plan (PGO) and other telecommunications services, such as SCM (data communication, including broadband *internet*), SMP (Personal Communication Services) and SEAC (Conditional Access Audiovisual Services) (especially by means of DTH and cable technologies).

Service concessions and authorizations are granted by Brazil's Telecommunications Regulatory Agency (ANATEL), under the terms of Law No. 9472 of July 16, 1997 - General Telecommunications Law ("Lei Geral das Telecomunicações" - LGT), amended by Laws No. 9986 of July 18, 2000 and No. 12485 of

September 12, 2011. Operation of such concessions and authorizations is subject to supplementary regulations and plans issued.

STFC service concession arrangement

The Company is the grantee on an STFC concession to render land-line services in the local network and national long distance calls originated in sector 31 of Region III, which comprises the state of São Paulo (except for cities within sector 33), as established in the General Service Concession Plan (PGO).

The Company's current STFC service concession arrangement is effective until December 31, 2025, and may be subject to reviews on December 31, 2015 and December 31, 2020.

In accordance with the service concession arrangement, every two years, during the arrangement's 20-year term, the Company shall pay a fee equivalent to 2% of its prior-year STFC revenue, net of applicable taxes and social contributions.

Authorizations and frequencies to SMP

Frequency authorizations granted by ANATEL for mobile telephone services may be renewed only once, over a 15-year period, through payment, every two years after the first renewal, of fees equivalent to 2% of the Company's prior-year revenue, net of taxes and social contributions, related to the application of the Basic and Alternative Plans of Service.

The Company operates SMP services, in accordance with the authorizations it has been given. Information on operation areas (regions) and expirations of radiofrequency authorizations is the same as in Note 1.c - "Operations", disclosed in the financial statements as at December 31, 2013.

c. Corporate restructuring

In order to streamline the Company's organizational structure, to rationalize the services provided by its subsidiaries and to concentrate service provision in two operating entities, namely the Company and its wholly-owned subsidiary Telefônica Data S.A. (TData or Subsidiary), the Company carried out a corporate restructuring approved by ANATEL, under the terms of Act No. 3043 of May 27, 2013, as published in the Federal Official Gazette (DOU) of May 29, 2013, subject to the conditions thereunder.

The Board of Directors' meeting held on June 11, 2013 approved the terms and conditions of the corporate restructuring process involving the Company's wholly-owned subsidiaries and subsidiaries.

Company Annual General Meeting held on July 1, 2013 approved the aforementioned corporate restructuring, which included spin-offs and mergers of subsidiaries and of companies directly or indirectly controlled by the Company, so that the economic activities other than telecommunications services, including the provision of Value Added Services as defined in article 61 of the General Telecommunications Law (LGT) (with such activities being jointly and generally referred to as SVAs), provided by the various wholly-owned subsidiaries/subsidiaries were concentrated in TData and the telecommunication services were consolidated by the Company.

All of the spin-offs or split-ups, as the case may be, and the merger of the net assets of the companies involved in the restructuring process took place on the same date and had the same reporting date (April 30, 2013), as follows: the Company merged (i) the net assets of TData, arising from its spin-off, corresponding to the activities related to the provision of service of Multimedia Communication Service (SCM); (ii) the net assets of Vivo S.A. (Vivo), arising from its split-up, corresponding to the use of Personal Communication Services (SMP), Multimedia Communication Services (SCM) and STFC in local, domestic

and international long distance calls in regions I and II of the General Service Concession Plan (PGO), and the net assets of SVAs and other services other than telecommunications services were merged into TData and Vivo's operations were ceased; (iii) the net assets of ATelecom S.A. (ATelecom), arising from its split-up, corresponding to the activities related to the provision of Conditional Access Audiovisual Services (SEAC) (through DTH technology) and SCM, and the net assets of SVAs and other services other than telecommunications services were merged into TData, thus ATelecom's operations were ceased; and (iv) Telefônica Sistema de Televisão S.A. (TST), which concentrated the activities related to the provision of SEAC and SCM services before its merger into the Company, due to the full merger of Lemontree Participações S.A. (Lemontree), GTR-T Participações e Empreendimentos S.A. (GTR-T), Ajato Telecomunicações Ltda (Ajato), Comercial Cabo TV São Paulo S.A. (CaTV) e TVA Sul Paraná S.A. (Sul Paraná), thus TST, Lemontree, GTR-T, Ajato, CaTV and Sul Paraná had its operations ceased.

The merger of companies and net assets previously described did not result in any capital increase or issue of new Company shares; accordingly, the corporate restructuring did not result in any changes in ownership interest currently held by Company shareholders.

There is no question of replacing shares of noncontrolling shareholders of the spun-off companies with shares of the merging company, since the Company was, upon the merger of net assets and/or companies, as the case may be, the sole shareholder of the companies spun off/ merged. Accordingly, an equity valuation report at market price was not prepared for calculating the noncontrolling share replacement ratio as defined in article 264 of Law No. 6404/76, and article 2, paragraph 1, item VI of CVM Rule No. 319/99, based on recent understandings expressed by the Brazilian Securities and Exchange Commission (CVM) regarding consultations in connection with similar restructuring processes and based on CVM Rule No. 559 of November 18, 2008.

The corporate restructuring was described in detail in Note 1b) - "Corporate restructuring" disclosed in the financial statements as at December 31, 2013.

d. Share trading on stock exchanges

The Company is listed in the Brazilian Securities and Exchange Commission (CVM) as a publicly-held company under Category A (issuers authorized to trade any marketable securities) and has shares traded on the São Paulo Stock Exchange (BM&FBovespa). It is also listed in the US Securities and Exchange Commission (SEC), and its level II American Depositary Shares (ADS), backed by preferred shares only, are traded on the *New York Stock Exchange* (NYSE).

e. Agreement between Telefónica S.A. and Telecom Italia

TELCO S.p.A. (in which Telefónica S.A. held a 46.18% interest) has a 22.4% interest with voting rights in Telecom Italia., and is the majority shareholder of this company.

Telefónica S.A. holds indirect control in Telefônica Brasil, and Telecom Italia, S.p.A. holds an indirect interest in TIM S.A. (TIM), a Brazilian telecommunications company. Neither Telefónica S.A., nor Telefônica Brasil or any other affiliate of Telefónica S.A. interfere in, are involved with or have decision-making powers over TIM operations in Brazil, also being lawfully and contractually forbidden to exercise any type of political power derived from indirect interest held as concerns operations in Brazil, directly related to TIM operations. TIM (Brazil) and Telefônica Brasil compete in all markets in which they operate in Brazil under permanent competitive stress and, in this context, as well as in relation to the other economic players in the telecommunications industry, maintain usual and customary contractual relations with one another (many of which are regulated and inspected by ANATEL) and/or which, as applicable, are informed to ANATEL and Brazil's Administrative Council for Economic Defense (CADE), concerning the commitments assumed before these agencies so as to ensure total independence of their operations.

On September 24, 2013, Telefónica S.A., entered into an agreement with the other shareholders of the Italian company TELCO S.p.A. whereby Telefónica S.A. subscribed and paid up capital in TELCO, S.p.A. through a contribution of 324 million euros, receiving shares without voting rights of TELCO, S.p.A. as consideration. As a result of this capital increase, the share capital of Telefónica S.A. voting in TELCO, S.p.A. remaining unchanged (remaining at 46.18%), although their economic participation rose to 66%. Thus, the governance of TELCO S.p.A., as well as the obligations of Telefónica S.A. to abstain from participating in or influencing the decisions that impact the industries where they both operate, remained unchanged.

In the same document, Italian shareholders of TELCO S.p.A. granted Telefónica S.A. an option to purchase all of their shares in TELCO S.p.A. Exercising this call option was subject to obtaining the required previous approvals from antitrust authorities and telecommunications regulatory agencies as applicable (including Brazil and Argentina), beginning eligible after January 1, 2014, whenever the Shareholders' Agreement remains in full force and effect, except (i) between June 1 and June 30, 2014 and between January 15 and February 15, 2015; and (ii) during certain periods in case the Italian shareholders of TELCO, S.p.A. request the entity's spin-off.

On December 4, 2013, the CADE announced the following decisions:

1) Approve, subject to the limitations described below, the acquisition, by Telefónica S.A., of the total interest held by Portugal Telecom, SGPS SA and PT Móveis – Serviços de Telecomunicações, SGPS, SA (PT) in Brasilcel NV, which controlled Brazilian mobile telecommunications operator Vivo Participações S.A. (Vivo Part.).

The transaction has been approved by ANATEL and its completion (requiring no prior approval from CADE at the time) took place immediately after approval from ANATEL, on September 27, 2010.

The limitations imposed by CADE on its decision are as follow:

a) A new shareholder share control over Vivo Part. with Telefónica S.A., adopting the same conditions applied to PT when it held an interest in Brasilcel NV.; or

b) Telefónica S.A. shall cease to have, either directly or indirectly, an equity interest in TIM Participações S.A.

2) Impose a R\$ 15 million fine on Telefónica S.A. for violating the will and purpose of the agreement executed by and between Telefónica S.A. and CADE, as a requirement to approve the initial purchase transaction of Telecom Italia in 2007, due to the subscription and payment, by Telefónica S.A., of TELCO S.p.A. nonvoting shares in the context of its recent capital increase. This decision also requires Telefónica S.A. to dispose of its nonvoting shares held in TELCO S.p.A.

The deadline for compliance with the conditions and obligations imposed by CADE in both decisions were classified as confidential by CADE.

At December 13, 2013, Telefónica S.A. published a material news release regarding the decisions made by CADE in the meeting held on December 4, 2013, stating that it considered the measures imposed by that agency to be unreasonable, thus started applicable legal proceedings in July, 2014.

In this context, and in order to strengthen its firm commitment to the obligations previously assumed by Telefónica S.A. to keep away from Telecom Italia's business in Brazil, Telefónica S.A. pointed out, in a material news release that Mr. César Alierta Izuel and Mr. Julio Linares López had decided to resign with immediate effect, from the position of Directors at Telecom Itália S.p.A. .Additionally, Mr. Julio Linares López decided to resign, with immediate effect, from his position on the list presented by TELCO S.p.A. for a potential re-election to the Board of Directors of Telecom Itália, S.p.A.

Likewise, Telefônica S.A., notwithstanding the rights defined in the Shareholders' Agreement of TELCO S.p.A, stated in a material news release it decided not to exercise, for now, its right to appoint or suggest two Directors at Telecom Itália, S.p.A.

On June 16, 2014, the Italian shareholders of TELCO, S.p.A. decided to exercise their rights to request the spin-off ensured by the Shareholders' Agreement of the company. The implementation of this spin-off was approved at the Annual General Meeting of TELCO, S.p.A. on July 9, 2014, and is subject to the previous authorization by competente authorities, including CADE and ANATEL in Brazil. Whenever authorized, the spin-off will be implemented through the transfer of all current interest held by TELCO, S.p.A. in the Telecom Itália, S.p.A. capital, to four (4) new companies, which are wholly owned by one of the current shareholders of TELCO, S.p.A., and which are designed to hold interest in the capital of Telecom Itália, S.p.A., proportionally to the current economic interest of their respective future controlling shareholder in the capital of TELCO, S.p.A.

Regulatory approvals in Brazil to the spin-off of TELCO, S.p.A. mentioned above have been required from relevant agencies as the applicable corporate documents are completed in Italy.

2. BASIS OF PREPARATION AND PRESENTATION OF QUARTERLY INFORMATION

2.a) Basis of presentation

The Company's Quarterly Information (ITR) for the six-month period ended June 30, 2014 is presented in thousands of reais (unless otherwise stated) and was prepared under a going concern assumption.

This quarterly information compares the six-month periods ended June 30, 2014 and 2013, except for balance sheets that compare the positions at June 30, 2014 with December 31, 2013.

Notes to Quarterly Information

June 30, 2014

(In thousands of reais)

On account of the net assets received in the corporate restructuring process occurred on July 1, 2013, described in Note 1c), the individual information of the income statements at June 30, 2014 and 2013 is not comparable.

The individual quarterly information (Company) was prepared and is presented in accordance with accounting practices adopted in Brazil, which comprise the rules issued by the Brazilian Securities and Exchange Commission (CVM) and CPC 21 - Interim Financial Reporting, issued by the Brazilian FASB (CPC), which are in accordance with the International Financial Reporting Standards (IFRS), issued by the International Accounting Standards Board (IASB), except for investments in subsidiaries, which are measured by the equity method, while for IFRS purposes it would be measured at cost or fair value.

The consolidated quarterly information (Consolidated) was prepared and is presented in accordance with CPC 21 and IAS 34 - Interim Financial Reporting, issued by the IASB, and CVM rules.

At the meeting held on July 21, 2014, the Executive Board authorized the issue of this quarterly information, which was ratified by the Board of Directors at a meeting held on July 29, 2014.

This Quarterly Information (ITR) was prepared in accordance with accounting principles, practices and criteria consistent with those adopted in the preparation of the financial statements for the financial year ended December 31, 2013, in addition to the new pronouncements, interpretations and amendments that became effective from January 1, 2014, as follows:

IFRS 10, IFRS 12 and IAS 27 Investment Entities: These amendments became effective for annual periods beginning on or after January 1, 2014, providing an exception to the consolidation requirements for a reporting entity that meets the definition of an investment entity under IFRS 10. This exception requires an investment entity to account for its investments in subsidiaries at fair value in P&L. The application of these amendments does not entail impacts on the Company's financial position, given that its subsidiary is not qualified as an investment entity.

IAS 32 Offsetting Financial Assets and Financial Liabilities: This amendment became effective for annual periods beginning on or after January 1, 2014 and clarifies the meaning of “currently has a legally enforceable right to set off the recognized amounts” and the criteria that would qualify for settlement the settlement mechanisms of clearing house systems that are not simultaneous. The application of this amendment does not entail significant impacts on the Company’s financial position.

IAS 36 Recoverable Amount Disclosures for Non Financial Assets (Impairment of Assets): This amendment became effective for annual periods beginning on or after January 1, 2014 and eliminates unintended consequences of IFRS 13 Fair Value Measurement on disclosures required by IAS 36. In addition, these amendments require the disclosure of recoverable amounts of assets or Cash Generating Units (CGU) for which a provision for impairment has been recognized over the period. The application of this amendment does not impact the Company’s disclosures.

IAS 39 Novation of Derivatives and Continuation of Hedge Accounting: This amendment became effective for annual periods beginning on or after January 1, 2014 and introduces a relief regarding discontinuance of hedge accounting where a derivative, which is designated as hedging instrument, is novated if specific conditions are met. The application of this amendment does not entail significant impacts on the Company’s financial position.

Notes to Quarterly Information

June 30, 2014

(In thousands of reais)

IFRIC 21 Levies: This amendment became effective for annual periods beginning on or after January 1, 2014 and provides guidance on when to recognize a liability for a tax or levy when the obligating event occurs. For a levy that is triggered upon reaching a minimum threshold, the interpretation clarifies that no liability is recognized before the specified minimum threshold is reached. The application of this standard does not entail significant impacts on the Company's financial position.

On the preparation date of this quarterly information, the following IFRS amendments had been published; however, their application was not compulsory:

IFRS 2 Share Based Payments: These amendments changed the settings relating to the purchase conditions and its implementation is effective beginning on or after July 1, 2014. The Company does not believe that these amendments may significantly impact its financial position.

IFRS 3 Business Combination: The amendments changed the accounting for contingent consideration in a business combination. Contingent consideration on acquisition of a business that is not classified as equity is subsequently measured at fair value through profit or loss, whether or not included in the scope of IFRS 9 Financial Instruments. These changes are effective for new business combinations after July 1, 2014. The Company consider the application of these changes to any business combinations that occur beginning on or after 1 July 2014.

IFRS 8 Operating Segments: These amendments are related to the aggregation of operating segments, which can be combined / aggregated whether they are in accordance with the criteria of the rule, in other words, if the segments have similar economic characteristics and are similar in other qualitative aspects. If they are combined, the entity shall disclose the economic characteristics used to assess whether the segments are similar. These amendments will become effective beginning on or after July 1, 2014. Considering the fact that the Company and its subsidiary operate in a sole operating segment, significant impact on their financial position is not expected.

IFRS 9 Financial Instruments: IFRS 9, as issued, is the first step in IASB's project to replace IAS 39 and applies to classification and measurement of financial assets and liabilities as defined by IAS 39. Initially,

the pronouncement would become effective for annual periods beginning on or after January 1, 2013, but Amendments to IFRS 9: Mandatory Effective Date of IFRS 9 and Transition Disclosures, issued in December 2011, postponed the effective date of IFRS 9 to January 1, 2018. In the subsequent steps, IASB will tackle issues such as hedge accounting and provision for impairment of financial assets. Adoption of the first step of IFRS 9 will affect the classification and measurement of the Company's financial assets, but will have no impact on the classification and measurement of its financial liabilities. The Company will quantify such effects together with the effects from other phases of IASB's project once the final consolidated standard is issued.

IFRS 13 Fair Value Measurement: This amendment is related to the application of the exception to financial assets portfolio, financial liabilities and other contracts. It will become effective for annual periods beginning on or after July 1, 2014. The Company will evaluate the effect of the application on new transactions after July 1, 2014.

IAS 16 Property, Plant and Equipment and IAS 38 Intangible Assets: The amendments to IAS 16.35 (a) and IAS 38.80 (a) clarifies that a revaluation can be made as follows: i) adjust the gross carrying amount of the asset at market value or, ii) determine the market value and adjust the gross carrying amount proportionally, so that the resulting carrying amount is equal to the market value. IASB also clarified that the accumulated depreciation / amortization is the difference between the gross carrying amount and the book value of the asset (i.e. gross carrying amount - accumulated depreciation / amortization = book value). The amendment to IAS 16.35 (b) and IAS 38.80 (b) clarifies that the accumulated depreciation / amortization is eliminated so that the gross carrying amount and the book value is equal to market value. These amendments will become effective beginning on or after 1 July 2014 retrospectively.

Implementation of these amendments has no impact on the financial or operating positions of the Company at the time. Whereas the reassessment of property and equipment and intangible assets is not allowed in Brazil, the Company does not expect impact on its financial position.

IAS 24 Related Party Disclosures: The amendment clarifies that an entity's providing management services to other entity that provides key management personnel to provide management services is a subject relating to related party disclosures. In addition, an entity that uses a management entity shall disclose the expenses incurred by management services. The amendments will become effective beginning on or after 1 July 2014 retrospectively. The Company does not expect these amendments significantly impact its financial position.

IAS 40 Investment Property: This amendment clarifies the relationship between the definitions of IFRS 3 and IAS 40 on the classification of the investment property or owner-occupied property. The description of ancillary services in IAS 40 that differentiates between investment properties and owner-occupied property (IFRS 3) is used to determine whether the transaction is a purchase of an asset or a business combination. This amendment will become effective beginning on or after 1 July 2014 prospectively. The Company will evaluate any possible impact in case of transactions occur after the effective date.

The Company does not early adopt any pronouncement, interpretation or amendment that has been issued, whose application is not compulsory.

2.b) Subsidiaries (wholly-owned and jointly-controlled subsidiaries)

At June 30, 2014, the consolidated balance of judicial deposits amounted to R\$ 99,892 (R\$ 96,736 at December 31, 2013).

- Unemployment Compensation Fund (FGTS)

The Company filed an injunction in order to represent its right not to pay surtax of 0.5% and 10% for FGTS introduced by Supplementary Law No. 110/2001 levied on deposits made by employers (the proceedings did not result in any reduction of FGTS deposits mad by the Company on behalf of its employees).

At June 30, 2014, the consolidated balance of judicial deposits amounted to R\$ 73,443 (R\$ 70,697 at December 31, 2013).

- Tax on Net Income (ILL)

The Company filed an injunction in order to represent its right to offset amounts unduly paid for ILL purposes against future IRPJ payments.

On December 19, 2013 the Company settled the debt under discussion by including it in the Federal Tax Recovery Program (REFIS), using the judicial deposit then restricted. The Company is now awaiting conversion into income by the Federal Government.

At June 30, 2014, the consolidated balance of judicial deposits amounted to R\$ 53,123 (R\$ 51,648 at December 31, 2013).

- Universal Telecommunication Services Fund (FUST)

The Company and its subsidiary filed writ of mandamus in order to have their right declared not to include expenses with interconnection (ITX) and Industrial Use of Dedicated Line (EILD) in FUST tax base, according to Abridgment No. 7 of December 15, 2005, as it does not comply with the provisions contained in sole paragraph of article 6 of Law No. 9998, of August 17, 2000.

At June 30, 2014, the consolidated balance of judicial deposits amounted to R\$ 381,039 (R\$ 371,373 at December 31, 2013).

(a) The Company and its subsidiary recognized a provision for potential obsolescence of materials used in PE maintenance, based on levels of historical use and expected future use.

(b) The addition from depreciation costs and expenses are stated under "Depreciation and amortization" in Note 23.

Telefônica Brasil S. A.**Notes to Quarterly Information****June 30, 2014****(In thousands of reais)**

c) Depreciation rates

In accordance with CPC 27, jointly with a specialized company, the Company reviewed the useful lives applied to its property and equipment through the direct comparative method of market data. This method indicated the need to change the useful life and annual depreciation rates of certain items in the following classes of assets:

| Description | Annual depreciation rates | |
|------------------------------------|----------------------------------|--------------------------------|
| | Previous | Reviewed |
| Switching equipment | 12.50 / 14.29 | 10.00 / 10.00 |
| Transmission equipment and media | 10.00 / 12.50 / 12.50 / 14.29 | 5.00 / 5.00 / 10.00 / 10.00 |
| Infrastructure | 2.86 / 4.00 / 4.00 | 2.50 / 2.50 / 5.00 |
| Other property and equipment items | 14.29 / 20.00 | 10.00 / 25.00 |

Since this event relates to changes in accounting estimates, the effects of these changes were recorded prospectively from May 2014. As stated in the table above, these changes represented both an extension and a decrease, as the case may be, in the useful life terms in relation to those earlier adopted, generating a reduction in depreciation expense of R\$ 264,498 for the six-month period ended June 30, 2014.

The Company's and its subsidiary's property and equipment are depreciated on a straight-line basis, at the following annual rates:

| Description | Annual depreciation rates | |
|---------------------|---------------------------|----------------|
| | Previous | Reviewed |
| Switching equipment | 10.00 to 33.33 | 10.00 to 20.00 |

| | | |
|------------------------------------|----------------|----------------|
| Transmission equipment and media | 5.00 to 20.00 | 5.00 to 20.00 |
| Terminal equipment/modem | 10.00 to 66.67 | 10.00 to 66.67 |
| Infrastructure | 2.86 to 66.67 | 2.50 to 66.67 |
| Other property and equipment items | 10.00 to 20.00 | 10.00 to 20.00 |

d) Property and equipment items given in guarantee

At June 30, 2014, the Company had property and equipment items given in guarantee for lawsuits, amounting to R\$ 146,217 (R\$ 187,025 at December 31, 2013).

e) Capitalization of borrowing costs

At June 30, 2014 and December 31, 2013, the Company did not capitalize borrowing costs, as there were no qualifying assets.

f) Reversible assets

The service concession arrangement establishes that all assets owned by the Company and that are indispensable to the provision of the services described in the referred to arrangement are considered reversible assets and are deemed to be part of the service concession assets. These assets will be automatically returned to ANATEL upon termination of the service concession arrangement, according to the regulation in force. At June 30, 2014, the residual balance of reversible assets was R\$ 7,259,847 (R\$ 6,988,202 at December 31, 2013), comprising switching and transmission equipment, terminals for public use, external network equipment, energy equipment, and system and operation support equipment.

d) Amortization rates

In accordance with CPC 4, jointly with a specialized company, the Company reviewed the useful lives applied to its finite-lived intangible assets through the direct comparative method of market data. This method indicated the need to change the useful life and annual amortization rates of software from 10.00 to 20.00.

Since this event relates to a change in accounting estimates, the effects of such change were recorded prospectively from May 2014, generating an increase in amortization expense of R\$ 1,623 for the six month-period ended June 30, 2014.

The Company's and its subsidiary's finite-lived intangible assets are amortized on a straight-line basis, at the following annual rates:

| Description | Annual amortization rates | |

| | Previous | Reviewed |
| Software | 10.00 to 20.00 | 10.00 to 20.00 |

Loans and financing

National Bank for Economic and Social Development (BNDES)

- In October 2007, a credit facility was approved for the Company to finance investment in products and services that are produced domestically. All of these funds have been withdrawn and investment thereof has been proven and accepted by BNDES.

- In August 2007, a R\$ 1,530,459 credit facility was taken out from BNDES. All of these funds have already been withdrawn (in installments) for the purpose of financing investment projects for implementation and expansion of the wireless capacity all over Brazil. The agreement is effective for seven years. Principal will be repaid in 60 consecutive monthly installments as from September 15, 2009, after a two-year grace period.

- On October 14, 2011, a R\$ 3,031,110 credit facility was taken out, which was adjusted to R\$ 2,152,098 in 2013 in view of new negotiations of credit lines and products with the bank. These funds were used in investments in expansion and improvement of the current network, implementation of the infrastructure required for new technologies, from 2011 to 2013, and construction of a data center in the city of Tamboré (São Paulo State) and social projects.

This agreement is effective for eight years, whose grace period matures on July 15, 2014, when only interest will be paid, on a quarterly basis. After this period, interest and amortization of principal shall be repaid in 60 consecutive monthly installments. Up to June 30, 2014, the amount of R\$ 2,059,717 (R\$ 2,059,717 at December 31, 2013) had been released.

As the interest rates applied to two of the five subloan of this financing are lower than those prevailing in the market (TJLP and TJLP + 1.48%), this operation falls within the scope of IAS 20/CPC 7. Accordingly, the government grant by BNDES was adjusted to present value and deferred over the useful life of the financed asset item, resulting in a balance amounting to R\$ 34,562 at June 30, 2014 (R\$ 19,950 at December 31, 2013).

- In January 2010, a R\$ 319,927 credit facility was approved through the Investment Maintenance Program (BNDES PSI). Funds borrowed were used to improve the network capacity through acquisition of domestic equipment previously registered with BNDES (subject to Finame), and released as that investment is evidenced. Up to December 31, 2012, the amount of R\$ 184,489 was released and the remaining balance of R\$ 135,438 was canceled.

As the interest rates applied are lower than those prevailing in the market (4.5% to 5.5% fixed), this operation falls within the scope of IAS 20/CPC 7. Accordingly, the government grant by BNDES was adjusted to present value and deferred over the useful life of the financed asset item, resulting in a balance amounting to R\$ 16,180 at June 30, 2014 (R\$ 18,745 at December 31, 2013).

- In November 2010 and in March 2011, credit facilities amounting to R\$ 41,950 were approved. On December 28, 2012, more than R\$ 9,493 were approved, repayable in 36 months, with six-month grace period for principal, fully released as the investments made are proved. Through June 30, 2014, R\$ 51,443 (R\$ 51,443 at December 31, 2013) had been released.

As the interest rates applied are lower than those prevailing in the market (2.5% to 5.5% fixed), this operation falls within the scope of IAS 20/CPC 7. Accordingly, the government grant by BNDES was adjusted to present value, resulting in a balance amounting to R\$ 1,412 at June 30, 2014 (R\$ 1,858 at December 31, 2013).

- In December 2010, a R\$ 5,417 credit facility was approved through the Investment Maintenance Program (BNDES PSI).

As the interest rates applied are lower than those prevailing in the market (5.5% fixed), this operation falls within the scope of IAS 20/CPC 7. Accordingly, the government grant by BNDES was adjusted to present value, resulting in a balance amounting to R\$ 265 at June 30, 2014 (R\$ 287 at December 31, 2013).

- On December 28, 2012, R\$ 21,783 and R\$ 331,698 financing facilities were approved at the rate of 2.5% p.a., for 60 months, with a 24-month grace period for principal, and released as the investments made are proved. Through June 30, 2014, R\$ 112,068 (R\$ 18,184 at December 31, 2013) had been released.
- On August 1, 2013, financing facilities totaling R\$ 4,030 were approved at annual interest rate of 3.5%, for 60 months, with a 24-month grace period for principal, and released as the investments made are proved. Through June 30, 2014, R\$ 4,030 (R\$ 4,030 at December 31, 2013) had been released.

“Médiocrédito”

Loan taken out in 1993 by Telecomunicações Brasileiras S.A. (Telebrás) from *Instituto Centrale per il Credito a Médio Termine (Mediocredito Centrale)* amounting to US\$ 45,546, with semiannual repayments. This loan was taken in order to build rural telephony via satellite in Mato Grosso State. In February 2014, this agreement was fully settled by the Company.

At December 31, 2013, this agreement amounted to R\$ 3,547.

Banco Europeu de Investimentos - BEI

A credit facility of € 250 million was taken out (equivalent to US\$ 365 million at contract date). Funds were released in two installments, the first of which on December 19, 2007, and the second on February 28, 2008. The agreement will be effective for seven years, with principal amount repayment in two installments, on December 19, 2014 and March 2, 2015. Interest is collected on a semiannual basis, according to each release date. This financing is secured with a swap agreement that converts the currency risk into a percentage of CDI variation.

At June 30, 2014, this agreement amounted to R\$ 829,248 (R\$ 885,176 at December 31, 2013).

Banco do Nordeste – BNB

On January 29, 2007 and October 30, 2008, credit facilities amounting to R\$ 247,240 and R\$ 389,000, respectively, were taken out. Funds borrowed were used to expand coverage and increase mobile network capacity in the Northeastern region of Brazil. This agreement will be effective for ten years, with principal to be repaid in 96 installments, after a two-year grace period.

At June 30, 2014, this agreement amounted to R\$ 173,471 (R\$ 224,958 at December 31, 2013).

Finance lease

Finance leases, whereby all risks and rewards of ownership of the leased item are substantially transferred to the Company, are capitalized at the inception of the lease at fair value of the leased asset or, if lower, the present value of minimum lease payments. Initial direct costs incurred in the transaction are added to costs, where applicable.

The Company has entered into agreements classified as finance lease as a lessee, for: i) lease of towers and rooftops, deriving from a sale and finance leaseback transaction; ii) lease of IT equipment; and iii) lease of infrastructure and transmission media deriving from construction projects in conjunction with another operator, based on optical network associated to the power transmission grid, connecting cities in the Northern region of Brazil to the domestic backbone of the Company. The net book value of referred to assets remained unaltered through sale thereof and a liability corresponding to the present value of the mandatory minimum payments under said agreements was recognized.

Amounts recorded in property and equipment are depreciated over the shorter of the estimated economic useful lives of assets and the expected lease term.

Funds obtained through this issue were used for payment of the full principal amount of the debt represented by the 6th issue of promissory notes and to support the working capital.

On October 15, 2012, the Company reset the terms for the 1st series at 106.00% of CDI as approved by the Board of Directors in a meeting held on July 24, 2012. The total amount reset was R\$ 93,150 and the Company redeemed debentures held by dissenting debenture holders in the amount of R\$ 4,850, and kept them in treasury for later cancellation.

On October 15, 2013, the Company reset all terms for the 2nd series as approved by the Board of Directors in a meeting held on September 19, 2013. The total amount reset was R\$ 640 million at 106.80% CDI, and a new term was scheduled, namely, October 15, 2015.

Transaction costs related to these issues, amounting to R\$ 22 at June 30, 2014 (R\$ 55 at December 31, 2013) were allocated in a reducing account in liabilities as costs to be incurred and are recognized as financial expenses, according to the contractual maturities of this issue. The effective rate of this issue, considering transaction costs, is 112.13% of CDI.

3rd series is expected to be reset on October 15, 2014.

At June 30, 2014, total balance was R\$ 849,603 (R\$ 843,584 at December 31, 2013).

Debentures (1st issue) - Minas Comunica

Abiding by the SMP Service Agreement, in compliance with Public Selection No. 001/07, the state of Minas Gerais, through the State Department for Economic Development, has undertaken to subscribe debentures within the scope of the "Minas Comunica" Program, using proceeds from the Fund for Universal Access to

Telecommunications Services (Fundo de Universalização do Acesso a Serviços de Telecomunicações) - FUNDOMIC. Under the terms of this program, SMP services would be available to 134 locations in the areas registered under Nos. 34, 35 and 38.

Also under the program, 5,550 junior unsecured registered nonconvertible debentures, with no stock certificates issued, would be issued in up to five series.

In consideration for the certification by the State Department of Economic Development of the service to be provided to 15 locations, 621 debentures were issued in the 1st series of the 1st issue, amounting to R\$ 6,210. In March 2008, for the service in 42 locations, 1,739 debentures were issued in the 2nd series of the 1st issue, amounting to R\$ 17,390. At December 31, 2008, for the service in 77 locations, 3,190 debentures were issued in the 3rd series of the 1st issue, amounting to R\$ 31,900, thus completing the program to provide services to 134 locations in the state of Minas Gerais.

(In thousands of reais)

On September 10, 2012, total 200,000 (two hundred thousand) junior unsecured registered nonconvertible debentures were issued in a single series, with par value of R\$ 10,000.00 (ten thousand reais), totaling R\$ 2 billion, under the terms of CVM Rule No. 476, of January 16, 2009, for public distribution with limited placement efforts.

Remuneration is 100.00% of CDI, plus a spread of 0.75% p.a., based on 252 working days. These debentures yield interest with semiannual payments, with interest accrual period of five years, maturing on September 10, 2017. The par value of the debentures will be fully repaid in a lump sum, at maturity date.

Debentures are not subject to scheduled reset.

Funds obtained through this limited offering were allocated to direct investments in 4G wireless telephony services, more specifically to settle the price of the authorization obtained in the 4G auction, and for sustaining liquidity and rescheduling of other debts already assumed by the Company.

Transaction costs in connection with this issue, amounting to R\$ 674 at June 30, 2014 (R\$ 780 at December 31, 2013), were allocated to a contra-liabilities account as deferred cost and are recognized as financial expenses, under the contractual terms of this issue.

At June 30, 2014, total balance was R\$ 2,067,167 (R\$ 2,060,444 at December 31, 2013).

4th issue of Debentures

On April 11, 2013, Company Board of Directors approved a proposal to raise funds in the local market by issuing junior nonconvertible debentures in the amount of R\$ 1.3 billion, so as to maintain the Company's liquidity to honor its future financial commitments.

The net proceeds from this issue will be fully used in amortizing future debts, in capital expenditures for the projects developed and in improving the Company's financial liquidity.

Total 130,000 debentures were issued, with par value of R\$ 10,000.00. The debentures have a five-year (5) maturity as from their issue date, April 25, 2013, thereby maturing at April 25, 2018. The par value of debentures will not be monetarily restated. The balance due of debentures par value will be subject to interest corresponding to 100% of the one-day extra-group accumulated variation of average daily rates of interbank deposits (DI), expressed as an yearly percentage, based on 252 working days, calculated and published daily by CETIP S.A. – Organized Markets (CETIP), plus spread of 0.68% p.a., based on 252 working days (Remuneration). The Remuneration shall be calculated exponentially and cumulatively on a *pro rata* temporis by working days elapsed since the issue date or the remuneration payment date immediately before that, as the case may be, until the effective payment date. Banco Itaú BBA S.A. was the lead coordinator. The transaction costs associated with this issue amounted R\$ 1,059 at June 30, 2014 (R\$ 1,200 at December 31, 2013).

At June 30, 2014, total balance was R\$ 1,325,057 (R\$ 1,322,900 at December 31, 2013).

Provisions and labor contingencies involve labor claims filed by former employees and employees at outsourced companies (the later alleging joint or subsidiary liability) claiming for, among other issues, overtime, salary equalization, post-retirement salary supplements, job hazard premium, additional for unhealthy work conditions and claims related to outsourced services.

The Company is also defendant in labor claims filed by retired former employees regarding the Medical Care Plan for Retired Employees (PAMA), which require, among other issues, the annulment of the change occurred in such plan. The claims await decision by the Regional Labor Court of São Paulo. Based on the opinion of its legal advisors and the current jurisdictional benefits, management considers this claim as a possible risk. No amount has been allocated for these claims, since in the case of loss, it is not possible to estimate the corresponding amount payable by the Company.

Additionally, the Company is party to public civil actions filed by the Department of Labor, in respect to the decision to restrain the Company from continuing to hire outsourced companies to carry out the Company's main activities. No amounts were allocated to the possible likelihood of an unfavorable outcome related to these public civil actions in the table above, since in these phases, in the event of loss, it is not possible to estimate the Company's monetary loss.

Municipal taxes

At June 30, 2014, the Company and its subsidiary were parties to various administrative and judicial proceedings, at the municipal level, which are ongoing in various court levels.

Key proceedings refer to: (i) ISS – secondary activities, value added and supplementary services; (ii) withholding ISS; (iii) IPTU; (iv) Land Use Fee; (v) municipal fees; (vi) tariff for Use of Mobile Network (TUM), infrastructure lease; (vii) advertising services; (viii) services provided by third parties; (ix) business management consulting services provided by Telefônica Internacional (TISA); and (x) ISS tax levied on caller ID services and on cell phone activation and (xi) ISS on continuous rendered service, provision, reversal and cancelled invoices.

At June 30, 2014, total consolidated provisions amounted to R\$ 628,180 (R\$ 580,853 at December 31, 2013).

ANATEL

Universal Telecommunication Services Fund (FUST)

Injunction was filed in order to have the right declared not to include expenses with interconnection and Industrial Use of Dedicated Line in FUST tax base for landline phone carriers and not to include revenues from ITX and EILD in FUST tax base for mobile phone carriers, according to Abridgment No. 7, of December 15, 2005, as it does not comply with the provisions contained in sole paragraph of article 6 of Law No. 9998, awaiting judgment in 2nd court level.

A number of delinquency notices referring to debit entry issued by ANATEL at the administrative level to set up the tax credit related to interconnection, EILD and other revenues that are not earned from the provision of telecommunications services.

At June 30, 2014, total consolidated provisions amounted to R\$ 2,217,695 (R\$ 2,185,034 at December 31, 2013).

Telecommunications Technology Development Fund (FUNTTEL)

At June 30, 2014, the Company and its subsidiary were parties to administrative and judicial proceedings which are waiting to be tried at the lower administrative court and the court of appeals. Such proceedings concern the collection of contributions to FUNTTEL on other revenues (not related to telecom services), as well as on income and expenses transferred to other operators (interconnection).

At June 30, 2014, total consolidated provisions amounted to R\$ 690,364 (R\$ 664,386 at December 31, 2013).

Telecommunications Inspection Fund (FISTEL)

Upon extension of the effective license period to use telephone switches in connection with use of STFC (landline phone carriers) and extension of the right to use radiofrequency in connection with wireless service (wireless carriers), ANATEL charges the Installation Inspection Fee (TFI).

This collection is based on ANATEL's understanding that such extension would represent a taxable event for TFI. The Company understands that such collection is unjustified, and separately challenged the aforesaid fee in court.

At June 30, 2014, total consolidated provisions amounted to R\$ 1,886,491 (R\$ 1,811,104 at December 31, 2013), without the respective judicial deposit.

Public Price for Numbering Resource Management (PPNUM)

The Company, along with other wireless carriers in Brazil, is challenging in court the tariff charged by ANATEL for use by such carriers of the numbering resources managed by the agency. In view of the collections, the Company made a judicial deposit referring to the amounts due. On April 23, 2009, the carriers received a favorable sentence and the lawsuit is currently waiting to be tried at the court of appeals.

At June 30, 2014, total consolidated provisions amounted to R\$ 2,308 (R\$ 2,242 at December 31, 2013).

Provisions for probable civil contingencies

- The Company is party to proceedings that involve right to receive supplementary amounts from shares calculated in relation to the network expansion plan after 1996 (supplement of shares proceedings). These proceedings involve various phases: 1st level, Court of Justice and Supreme Court of Justice. At June 30, 2014, considering the degree of risk involved, consolidated provision amounted to R\$ 41,163 (R\$ 37,191 at December 31, 2013).

- The Company is party to proceedings of a civil nature, in the administrative and judicial spheres, the subject of which are rights relating to the provision of services. These proceedings are filed by individual consumers, civil associations representing consumer rights, PROCON, as well as the State and Federal Public Prosecutor's Offices. Similarly, the Company is defendant or plaintiff in other proceedings the subject of which relates to matters other than those under the normal course of business. At June 30, 2014, total consolidated provisions amounted to R\$ 531,092 (R\$ 469,149 at December 31, 2013).

- The Company is also involved in various lawsuits filed by individual consumers, with similar characteristics, which individually are not considered to be material, based on provision analysis, the historical average of losses in similar proceedings. At June 30, 2014, total consolidated provisions amounted to R\$ 103,872 (R\$ 93,528 at December 31, 2013).

Provisions for probable regulatory contingencies

The Company is party to administrative proceedings against ANATEL, which were filed based on alleged noncompliance with obligations set forth in industry regulations, as well as in legal claims discussing sanctions by ANATEL at the administrative level. At June 30, 2014, the consolidated provisioned amount was R\$ 451,962 (R\$ 370,535 at December 31, 2013).

Possible civil contingencies

According to the Company's management and legal counsel, the likelihood of loss of the following proceedings is possible:

- Telephony Community Plan (PCT): This refers to the Civil Public Proceeding in which the Company is involved referring to PCT, about the right for indemnification of the acquirers of expansion plans, not receiving shares for financial investments made in the city of Mogi das Cruzes, whose total consolidated amount approximates to R\$ 311,071 at June 30, 2014 (R\$ 281,059 at December 31, 2013). São Paulo Court of Justice (TJSP) changed its decision, and judged this matter groundless. Mogi das Cruzes Telephony Association (claimant) filed a special appeal against TJSP decision, which is awaiting judgment.
- Collective Action filed by SISTEL Participants' Association (ASTEL) in the state of São Paulo, in which SISTEL associates in the state of São Paulo challenge the changes made in the Medical Care Plan for Retired Employees (PAMA) and claim for the reestablishment of the prior status quo. This claim is still in its appeal stage, at the upper-court-level decision that modified the prior decision whereby this claim was deemed unfounded. The amount cannot be estimated, and the claims cannot be settled due to their unenforceability, in that it entails a return to the prior plan conditions.

Telefônica Brasil S. A.

Notes to Quarterly Information

June 30, 2014

(In thousands of reais)

- Civil Public Claims filed by ASTEL, in the state of São Paulo, and by FENAPAS, both against SISTEL and other carriers, in order to annul spin-off of the private pension plan PBS, alleging, in short, the “*windup of the supplementary private pension plan of SISTEL Foundation*”, which led to various specific mirror PBS plans, corresponding to allocation of funds from technical surplus and tax contingencies existing at the time of the spin-off. The amount cannot be estimated, and the claims cannot be settled due to their unenforceability because this involves the return of the spun-off assets of SISTEL referring to telecommunication carries of the former Telebrás System.

- The Public Prosecutor’s Office of São Paulo State began a public class action claiming moral and property damages suffered by all consumers of telecommunications services from 2004 to 2009 due to the bad quality of services and failures of the communications system. The Public Prosecutor’s Office suggested that the indemnification to be paid should be R\$ 1 billion. The decision handed down on April 20, 2010 imposes the payment of indemnification for damages caused to all consumers who have filed a suit for such damages.

Conversely, in the event that the number of claiming consumers is not in line with the extent of damages, after the lapsing of one year, the judge determined that the amount of R\$ 60 million should be deposited in the Special Expenses Fund to Recover Natural Rights Damages (Fundo Especial de Despesa de Reparação de Interesses Difusos Lesados). It is not possible to estimate the number of consumers who will individually file suits nor the amounts claimed thereby. The parties filed an appeal on the merits of the case. The judgment effects are in abeyance. No amount has been assigned to the possible likelihood of an unfavorable outcome in connection with this action, since, in the case of loss, estimating the corresponding amount payable by the Company is not practicable at this time. Likewise, establishing a provision for contingency equivalent to the amount sought is not possible.

- The Company is involved in other civil claims, at several levels, related to service rendering. Such claims have been filed by individual consumers, civil associations representing consumer rights or by the Bureau of Consumer Protection (PROCON), as well as by the Federal and State Public Prosecutor’s Office. It is also involved in other claims of several types related to the normal course of business. Total contingency amounts to R\$ 1,523,706 at June 30, 2014 (R\$1,383,932 at December 31, 2013).

- The Company has received fines regarding the noncompliance with SAC Decree. We currently have various actions (administrative and judicial proceedings). At June 30, 2014, a consolidated amount of R\$ 13,797 (R\$ 16,459 at December 31, 2013).

- Intellectual Property: Lune Projetos Especiais Telecomunicação Comércio e Ind. Ltda (Lune), a Brazilian company, proposed the lawsuit on November 20, 2001 against 23 wireless carriers claiming to own the patent for caller ID and the trademark "Bina". The purpose of that lawsuit it to interrupt provision of such service by carriers and to seek indemnification equivalent to the amount paid by consumers for using the service.

Telefônica Brasil S. A.

Notes to Quarterly Information

June 30, 2014

(In thousands of reais)

An unfavorable sentence was passed determining that the Company should refrain from selling mobile phones with Caller ID service (Bina), subject to a daily fine of R\$ 10,000.00 (ten thousand reais) in case of noncompliance. Furthermore, according to the sentence passed, the Company must pay indemnification for royalties to be calculated in settlement. Motions for Clarification were opposed by all parties and Lune's motions for clarification were accepted since an injunctive relief in this stage of the proceedings was deemed applicable. Bill of review appeal in view of the current decision which granted a stay of execution suspending that unfavorable decision until final judgment of the review. Bill of review for appeal at sentence phase pending decision. We believe that the likelihood of an unfavorable outcome has been assessed by legal advisors as possible. There is no way to determine the extent of potential liabilities with respect to this claim.

- Validity of prepaid plan: The Company and other wireless carriers are defendants in several lawsuits filed by the Public Prosecutor's Office and consumer associations to challenge imposition of a period to use prepaid minutes. The plaintiffs allege that the prepaid minutes should not expire after a specific period. Conflicting decisions were handed down by courts on the matter, even though we believe that our criteria for the period determination comply with ANATEL standards. Based on the legal counsel's opinion, collective actions against Teleming (merged into Vivo S.A.) have a remote likelihood of loss.

Possible regulatory contingencies

According to the Company's management and legal counsel, the likelihood of loss of the following civil proceedings is possible:

- The Company is party to administrative proceedings filed by ANATEL alleging noncompliance with the obligations set forth in industry regulations, as well as legal claims which discuss the sanctions applied by ANATEL at the administrative level, rating the likelihood of loss as possible, at June 30, 2014, amounting to R\$1,782,805 (R\$ 1,685,257 at December 31, 2013).
- Administrative proceedings discussing payment of 2% charge on revenue from interconnection services due to the extension of right of use of SMP-related radiofrequencies. Under clause 1.7 of the Authorization Terms that grant right of use of SMP-related radiofrequencies, the extension of right of use of such frequencies entails payment every two years, during the extension period (15 years), of a 2% charge

calculated on net revenue from the basic and alternative service plans of the service company, determined in the year before that of payment.

However, ANATEL determined that the 2% charge should be calculated on revenue from service plans and also on revenue from interconnection services, which is not provided for by clause 1.7 of the referred to Authorization Terms.

Considering, based on the provisions of the Authorization Terms, that revenue from interconnection services should not be included in the calculation of the 2% charge for radiofrequency use right extension, the Company filed administrative proceedings challenging these charges, based on ANATEL's position.

Telefônica Brasil S. A.**Notes to Quarterly Information****June 30, 2014****(In thousands of reais)****18.4 Guarantees**

The Company and its subsidiaries granted guarantees for tax, civil and labor proceedings, as follows:

According to its bylaws, the Company is authorized to increase its capital up to the limit of 1,350,000,000 (one billion three hundred and fifty million) shares, common or preferred. The capital increase and consequent issue of new shares are to be approved by the Board of Directors, subject to the authorized capital limit. However, the Brazilian Corporation Law – Law No. 6404/76, article 166, IV – establishes that capital may be increased through a Special Shareholders' Meeting resolution held to decide about amendments to the Articles of Incorporation, if authorized capital increase limit has been reached.

Capital increases do not necessarily have to observe the proportion between the numbers of shares of each type. However, the number of preferred shares, nonvoting or with restricted voting, must not exceed 2/3 of the total shares issued.

Preferred shares are nonvoting, except in the cases described in Articles 9 and 10 of its bylaws, but have priority in the reimbursement of capital, without premium, and are entitled to dividends 10% higher than those paid on common shares, as per article 7 of the Company's Articles of Incorporation and clause II, paragraph 1, article 17, of Law No. 6404/76.

Preferred shares are also entitled to full voting right whenever the Company fails to pay minimum dividends to which they are entitled for 3 (three) consecutive fiscal years. This right will be retained until payment of dividends.

b) Premium paid on acquisition of interest from non-controlling shareholders

In accordance with the accounting practices adopted in Brazil prior to the adoption of the IFRS/CPC, goodwill was recorded when shares were acquired at a higher value than their book value, generated by the difference between the book value of shares acquired and the transaction's fair value. With the adoption of IAS 27R (IFRS 10 since 2013)/CPC 35 and 36, the effects of all acquisition of shares from non-controlling shareholders are recorded under equity when there is no change in the shareholding. Consequently, these transactions no longer generate goodwill or income, and the goodwill previously generated from acquisition from non-controlling shareholders were adjusted based on the Company's equity. The balance of this account at June 30, 2014 and December 31, 2013 was R\$70,448.

c) Capital reserves

Special goodwill reserve

This represents the tax benefit generated by the merger of Telefonica Data do Brasil Ltda. which will be capitalized in favor of the controlling shareholders after the tax credits are realized under the terms of CVM Ruling No. 319/99. The balance of this account at June 30, 2014 and December 31, 2013 was R\$63,074.

Other capital reserves

Other capital reserves are issue or capitalization in excess, in relation to the basic share value on the issue date. The balance of this account at June 30, 2014 and December 31, 2013 was R\$2,735,930.

Treasury stock

These represent the Company's treasury shares arising from: i) merger of TDBH (in 2006); ii) merger of Vivo Part. (in 2011), and iii) repurchase of common and preferred shares. As of June 30, 2014 and December 31, 2013, balance in this account amounted to R\$ 112,107.

d) Income reserves

Legal reserve

This reserve is compulsorily set up by the Company at the ratio of 5% of net income for the year, limited to 20% of paid-in capital. Legal reserve will only be used to increase capital and offset accumulated losses. The balance of this account at June 30, 2014 and December 31, 2013 was R\$1,285,797.

Tax incentive reserve

This reserve refers to the a 75% income tax reduction benefit to be applied on Profit from Tax Incentive Operations (PTIO) in the following areas: North of Minas Gerais State, Vale do Jequitinhonha and the states of Acre, Amapá, Amazonas, Maranhão, Mato Grosso, Pará, Rondônia and Roraima.

Pursuant to article 195-A of Law No. 6404/76, the portion of profit subject to the incentive was also excluded from dividend calculation, and may be used only in the event of capital increase or loss absorption.

The balance of this account at June 30, 2014 and December 31, 2013 was R\$1,699.

e) Dividends and interest on equity

On February 25, 2014, the Company's Board of Directors approved the allocation of interim dividend amounting to R\$1,043,000, based on income recorded in the fourth quarterly balance of 2013, equivalent to R\$ 0.871008413012 per common share, and R\$ 0.958109254313 per preferred share, to common and preferred shareholders enrolled with the Company through the end of March 10, 2014. Payment of these dividends started on March 27, 2014.

On April 23, 2014, the Annual General Meeting approved the allocation of additional proposed dividends in year 2013, not yet paid, amounting to R\$ 132,538, equivalent to R\$ 0.110682844154 per common share and R\$ 0.121751128569 per preferred shares, to holders of common and preferred shares registered at the end of the AGM day.

According to article 287, item II, item "a" of Law No. 6404, of December 15, 1976, dividends and interest on equity not claimed by shareholders expire in three years as from the initial payment date. The Company reverses the amount of dividends and interest on equity prescribed to equity upon their expiration.

f) Other comprehensive income

- Financial instruments available for sale: This refers to variations in fair value of financial assets available for sale. Balance at June 30, 2014 was (R\$ 7,787) and (R\$ 2,658 at December 31, 2013).
- Derivative transactions: Derivative transactions refer to the effective part of cash flow hedges until balance sheet date. The balance at June 30, 2014 was R\$7,662 (R\$6,610 at December 31, 2013).
- Currency translation difference of investments abroad: Refers to currency translation differences arising from the conversion of financial statements of Aliança (jointly controlled subsidiary). Balance at June 30, 2014 was R\$ 9,880 (R\$ 12,897 at December 31, 2013).

(a) The consolidated amounts of the first half of 2013 include R\$40,831 from disposal of 93 non - strategic transmission towers. After the sale of these assets, a lease agreement was entered into for a portion of the towers disposed of to continue the data transmissions necessary for rendering mobile telecommunications services.

Such transaction was treated as a sale and leaseback transaction, under IAS 17. The leaseback of each asset disposed of was reviewed by management and classified as operating or finance lease, considering the qualitative and quantitative requirements provided for in IAS 17. The risks and rewards of such towers were transferred to the buyers.

Telefônica Brasil S. A.

Notes to Quarterly Information

June 30, 2014

(In thousands of reais)

28.b) Management compensation

Consolidated management compensation paid by the Company to its Board of Directors and Statutory Officers for the six-month periods ended June 30, 2014 and 2013 amounted to approximately R\$11,267 and R\$21,724, respectively. Of this amount, R\$8,650 (R\$19,488 at June 30, 2013) correspond to salaries, benefits and social charges and R\$2,617 (R\$2,236 at June 30, 2013) to variable compensation.

These amounts were carried as labor costs, according to the function in the groups of Costs of Services Rendered, Selling Expenses and General and Administrative Expenses (Note 23).

For the six-month periods ended June 30, 2014 and 2013, our Directors and Officers did not receive any pension, retirement pension or other similar benefits.

29. INSURANCE COVERAGE

The policy of the Company and its subsidiary, as well as of Telefónica Group, includes maintenance of insurance coverage for all assets and liabilities involving significant and high-risk amounts, based on management's judgment and following Telefónica S.A.'s corporate program guidelines. Risk assumptions adopted, given their nature, are not included in the financial statements audit scope and, as a result, were not reviewed by our independent auditors.

Maximum limits of claims (established pursuant the agreements of each company consolidated by the Company) for significant assets, liabilities or interests covered by insurance and their respective amounts are as follows:

Insurance line

| | Maximum indemnity limits |
|---|-----------------------------|
| Operational risks (with loss of profit) | 679,810 |
| General civil liability | 21,160 |

30. SHARE-BASED COMPENSATION PLANS

The Company's controlling shareholder, Telefónica S.A., has different share-based compensation plans, which were also offered to management and employees of its subsidiaries, among which are Telefónica Brasil and TData.

Fair value of options is estimated on the grant date, based on the binomial model for pricing options which considers terms and conditions of instruments granted.

The Company refunds Telefónica S.A. for the fair value of the benefit granted to management and employees on grant date.

Significant plans effective as of June 30, 2014 and December 31, 2013 are detailed below:

a) Telefónica S.A. share incentive plan: Performance Share Plan (PSP)

The General Shareholders' Meeting of Telefónica S.A., held on June 21, 2006, approved the adoption of a long-term incentive plan to executive officers of Telefónica S.A. and its subsidiaries, which consists of granting them, after fulfillment of the requirements set forth in the plan, with a given number of shares of Telefónica S.A., as variable compensation.

Telefônica Brasil S. A.

Notes to Quarterly Information

June 30, 2014

(In thousands of reais)

Initially, the plan is expected to remain effective for seven years. The plan is divided into five cycles, of three years each, each starting on July 1 ("Start Date") and ending on June 30 of the third year following the Start Date ("End Date"). At the beginning of each cycle, the number of shares to be granted to plan beneficiaries will be determined based on fulfillment of objectives set. Shares will be granted, as the case may be, after the End Date of each cycle. Cycles are independent, with the first one starting on July 1, 2006 (with shares granted on July 1, 2009), and the fifth cycle, on July 1, 2010 (with shares granted, as the case may be, as from July 1, 2013).

Granting of shares is conditional upon:

- Beneficiaries staying with the company for the three years of each cycle, subject to certain special conditions in relation to terminations.
- The actual number of shares granted at the end of each cycle will depend on the level of success and maximum number of shares granted to each executive officer. The level of success is based on the comparison of the evolution of shareholder remuneration considering price and dividends (Total Shareholder Return - TSR) of Telefônica shares, vis-à-vis the evolution of TSRs corresponding to a number of companies quoted in the telecommunications industry, which correspond to the Comparison Group. Each employee enrolled with the plan is granted, at the beginning of each cycle, a maximum number of shares, and the actual number of shares granted at the end of the cycle is calculated by multiplying this number by the maximum level of success on the date. This will be 100% if the evolution of Telefonica's TSR is equal to or greater than the third quartile of the Comparison Group, and 30% if this evolution is equal to the average. If the evolution is maintained between the two values, a linear interpolation will be made, and, if below the median, nothing will be granted.

At June 30, 2013, the fifth cycle (5th cycle July 1, 2010) of this incentive plan ended. Due to a failure to reach TSR limits the shares were not distributed to the executives.

b) Performance & Investment Plan (PIP)

The General Shareholders' Meeting of Telefónica S.A., held on May 18, 2011, approved a long-term program to acknowledge the commitment, differentiated performance and high potential of its executive officers at global level, by granting them Telefónica S.A. shares.

Participants of the plan need not pay for the shares initially granted to them and may increase the number of shares receivable by the end of the plan if they decide for a joint investment in their PIP. Co-investment requires that the participant buy and maintain, to the end of the cycle, a number equivalent to 25% of shares initially granted thereto by Telefónica S.A. On participant's co-investment, Telefónica S.A. will increase initial shares by 25%.

Initially, the plan is expected to remain effective for three years. The cycle began on July 1, 2011 and will be effective until June 30, 2014. The number of shares is reported at the beginning of the cycle and, after three years from the grant date, shares are transferred to the participant if goals are achieved.

Granting of shares is conditional upon:

- maintenance of active employment relationship within the Telefónica Group on the cycle consolidation date;

Telefônica Brasil S. A.

Notes to Quarterly Information

June 30, 2014

(In thousands of reais)

- achievement, by Telefónica, of results representing fulfillment of the objectives established for the plan: the level of success is based on the comparison of the evolution or shareholder compensation, obtained through (TSR) to the evolution of the TSRs of the previously defined Comparison Group companies:

Ø 100% are granted if the TSR of Telefónica S.A exceeds the TSR of companies representing 75% of capitalization on the Comparison Group stock exchange.

Ø 30% are granted if the TSR of Telefónica S.A is equivalent to the TSR of companies representing 50% of capitalization on the Comparison Group stock exchange.

Ø determined by linear interpolation if the TSR of Telefónica S.A ranges from 50% to 75% of the capitalization of the Comparison Group stock exchange.

Ø no shares are granted if the TSR of Telefónica S.A is below the TSR of companies representing 50% of capitalization on the Comparison Group stock exchange.

The maximum number of shares attributed in the first three outstanding cycles at June 30, 2014 is as follows:

| <u>Cycles</u> | Number of shares | Unit value in euros | Maturity date |
|--------------------------|------------------|---------------------|---------------|
| 1st cycle – July 1, 2011 | 380,663 | 8.28 | June 30, 2014 |
| 2nd cycle – July 1, 2012 | 672,675 | 8.28 | June 30, 2015 |
| 3rd cycle – July 1, 2013 | 477,010 | 10.39 | June 30, 2016 |

c) Global share incentive plan of Telefónica S.A.: Global Employee Share Plan (GESP)

The General Shareholders' Meeting of Telefónica S.A. held on May 18, 2011, approved the share option incentive plan of Telefónica S.A. for Telefonica Group's employees, on a global level, including employees

of Telefonica Brasil and its subsidiary. Through this plan, they are offered the possibility of acquiring shares of Telefónica S.A., which agrees to freely grant participants with a certain number of its shares, whenever certain requirements are fulfilled.

Initially, the plan is expected to remain effective for two years. Employees enrolled with the plan could acquire Telefónica S.A. shares through monthly contributions of up to 100 Euros (or equivalent in local currency), with maximum of 1,200 Euros over twelve months (vesting period). Shares will be granted, as the case may be, after the vesting period, beginning December 1, 2014, and is conditional upon:

- Beneficiaries staying with the company for the two years of the program (vesting period), subject to certain special conditions in relation to terminations.
- The exact number of shares to be granted at the end of the vesting period will rely upon the number of shares acquired and held by employees. Thus, employees enrolled with the plan, continuing with the Group, and who have held the shares acquired for additional twelve months after the vesting period, are entitled to receive one free share for each share they have acquired and held through the end of the vesting period.

The vesting period started in November 2012 and the total number of employees of Telefônica Brasil and its subsidiaries enrolled with the plan totaled 1,839.

 Hybrid = Plan that offers both DB and DC-type benefits.

The Company, together with other companies from former Telebrás System, sponsors private pension plans and post-employment medical benefits, as follows: i) PBS-A; ii) PAMA; iii) CTB; iv) Telefônica BD (which incorporated plans PBS-Telesp, PBS-Telesp Celular, PBS-TCO and PBS Tele Leste Celular); v) PBS Tele Sudeste Celular and; vi) Plano TCP Prev, TCO Prev and CelPrev; and vi) Plano de Benefícios Visão Telefônica and Visão Celular – Celular CRT, Telerj Celular, Telest Celular, Telebahia Celular and Telergipe Celular.

The Company individually sponsors defined benefit retirement plans - Plano PBS, managed by Visão Prev. In addition, a multiemployer retirement plan (PBS-A) and health care plan (PAMA) are provided by the Company and its subsidiary to retired employees and their dependents (managed by Fundação Sistel, with constituted fund and participants contributions), at shared costs. Contributions to the PBS Plans are determined based on actuarial valuations prepared by independent actuaries, in accordance with the rules in force in Brazil. The funding procedure is the capitalization method and the sponsor's contribution is a fixed percentage of payroll of employees covered by the plan, as described below:

| <u>Plan</u> | <u>%</u> |

For other employees of the Company and its subsidiary, there is an individual defined contribution plan - Visão Benefit Plan, which is managed by Visão Prev Companhia de Previdência Complementar. These plans are funded by contributions made by participants (employees) and by sponsors, which are credited to members' individual accounts. The Company and its subsidiary are responsible for funding all administrative and maintenance expenses of such plans, including members' death and disability risks. The contributions made by the Company and its subsidiary to those plans are equal to those of the participants, which range from 2% to 9% of their salaries, and from 0% to 8% of the contribution salary of Vivo Prev participants, based on the percentage chosen by the employee.

Additionally, the Company supplements the retirement benefits of certain employees of the former Companhia Telefônica Brasileira (CTB).

The Company also sponsors the CelPrev. The participant may contribute to the plan in three ways, to wit: (a) normal basic contribution: percentage ranging from 0% to 2% of their participation salary; (b) normal additional contribution: percentage ranging from 0% to 6% of part of their participation salary exceeding 10 Standard Reference Units of the Plan; and (c) volunteer contribution: percentage freely chosen by the participant, and applied on their participation salary. The sponsor may contribute in four ways, to wit: (a) normal basic contribution: contribution equal to the normal basic contribution of the participant, less contribution to fund the health allowance benefit and administrative expenses; (b) normal additional contribution: equal to the normal additional contribution of the participant, less administrative expenses; (c) volunteer contribution: volunteer contribution and with frequency determined by the sponsor, and (d) special contribution: contribution solely to sponsor's employees not belonging to PBS and who enrolled with the plan 90 days from the day CelPrev became effective.

All revenue and expenses relating to the defined benefit plan and the hybrid benefit plan as well as the employee contributions, cost of current services, interest on the net actuarial liabilities are recognized directly in the Company's operating income and that of its subsidiary.

Actuarial gains and losses from the defined benefit plan and the hybrid benefit plan, further to recoverability and surplus limits for reimbursement or reduction of future contributions are being immediately recognized as other comprehensive income and do not generate any impact in the Company's operational income or that of its subsidiary.

Consolidated changes in plans that generate surplus and deficit are as follows:

32. FINANCIAL INSTRUMENTS

The Company and its subsidiary measured their financial assets and liabilities in relation to market values based on available information and appropriate valuation methodologies. However, both interpretation of market information and selection of methodologies require considerable judgment and reasonable estimates in order to produce adequate realizable values. Consequently, the estimates presented do not necessarily indicate the amounts that could be realized in the current market. The use of different market hypothesis and/or methodologies may have a significant effect on the estimated realizable values. At June 30, 2014 and December 31, 2013, the Company did not identify any significant and prolonged impairment in recoverable amount of its financial instruments.

Capital management

The objective of the Company's capital management is to ensure that a solid credit rating is sustained before the institutions, as well as an optimum capital ratio, in order to support the Company's businesses and maximize the value to its shareholders.

The Company manages its capital structure by making adjustments and fitting into current economic conditions. For this purpose, the Company may pay dividend, raise new loans, issue promissory notes and contract derivative transactions. For the six-month period ended June 30, 2014, there were no changes in the Company's objectives, policies or capital structure processes.

The Company includes in the net debt structure the following balances: loans, financing, debentures and finance lease (Note 16) operations with derivatives (Note 32), net of cash and cash equivalents (Note 3) and short-term investments as a guarantee of the BNB financing.

Consolidated net indebtedness rates on Company's equity are as follows:

Risk management policy

The Company is exposed to several market risks as a result of its commercial operations, debts obtained to finance its activities and debt-related financial instruments.

The key market risk factors that affect the business of the Company are detailed below:

a. Currency risk

This risk arises from the possibility that the Company may incur losses due to exchange rate fluctuations, which would increase the financial expenses stemming from loans denominated in foreign currency.

At June 30, 2014, 15.7% (15.9% at December 31, 2013) of the financial debt was denominated in foreign currency. The Company has entered into derivative transactions (exchange rate hedge) with financial institutions to hedge against exchange rate variation on its gross debt in foreign currency (R\$1,307,356 and R\$1,394,523 at June 30, 2014 and December 31, 2013, respectively). In view of this, total debt was covered by long position on currency hedge transactions (swap for CDI) on those dates.

There is also the exchange rate risk related to non-financial assets and liabilities in foreign currency, which can lead to a lower amount receivable or higher amount payable, depending on exchange rate variation in the period.

Hedge transactions were taken out to minimize the exchange rate risk related to these non-financial assets and liabilities in foreign currency. This balance suffers daily alteration due to the dynamics of the Company's business however, it intends to cover the net balance of these rights and obligations (US\$20,041 thousand and €1,668 thousand payable at June 30, 2014 and US\$34,500 thousand and €2,490

thousand payable at December 31, 2013) to minimize the related foreign exchange risk.

b. Interest rate and inflation risk

This risk arises from the possibility of the Company incurring losses due to an unfavorable change in internal interest rates, which may negatively affect financial expenses connected with part of debentures pegged to CDI and derivative short position (exchange rate hedge and IPCA) taken out at floating interest rates (CDI).

The debt taken out from BNDES is indexed by the TJLP (Long Term Interest Rate) quarterly set by the National Monetary Council, which was kept at 6% p.a. from July 2009 to June 2012. From July to December 2012, the TJLP was 5.5% p.a., and reduced to 5% p.a. as from January 2013.

The risk of inflation arises from the debentures of 1st Issue - Minas Comunica, indexed by the IPCA, which may adversely affect our financial expenses in the event of an unfavorable change in this index.

To reduce exposure to local floating interest rates (CDI), the Company and its subsidiary invest cash surplus of R\$5,437,426 (R\$6,442,015 at December 31, 2013), mainly in short-term financial investments (Bank Deposit Certificates) based on CDI variation. The carrying amount of these instruments approximates market value, since they are redeemable within short term.

c. Liquidity risk

Liquidity risk derives from the possibility that the Company and its subsidiary do not have sufficient resources to meet their commitments according to the different currencies and terms of execution/settlement of their rights and obligations.

The Company structures the maturity dates of the non-derivative financial agreements, as shown in Note 16, and their respective derivatives as shown in the payments schedule disclosed in the referred note, in such manner as not to affect their liquidity.

The control over the Company's liquidity and cash flow is monitored daily by management, in such way as to ensure that the operating cash generation and the available lines of credit, as necessary, are sufficient to meet their schedule of commitments, not generating liquidity risks.

d. Credit risk

This risk arises from the possibility that the Company may incur losses due to the difficulty in receiving amounts billed to its customers and sales of devices and pre-activated pre-paid cards to the distributor's network.

The credit risk on accounts receivable is dispersed and minimized by a strict control of the customer base. The Company constantly monitors the level of accounts receivable of post-paid plans and limit the risk of past-due accounts, interrupting access to telephone lines for past due bills. The mobile customer base predominantly uses the prepaid system, which requires prior charging and consequently entails no credit risk. Exceptions are made for telecommunication services that must be maintained for security or national defense reasons.

The credit risk in the sale of devices and “pre-activated” prepaid cards is managed under a conservative credit policy, by means of modern management methods, including the application of “credit scoring” techniques, analysis of financial statements and information, and consultation to commercial data bases, in addition to request of guarantees.

At June 30, 2014 and December 31, 2013, the customer portfolio of the Company had no customers whose receivables were individually higher than 1% of total accounts receivable from services.

The Company is also subject to credit risk arising from short-term investments, letters of guarantee received as collateral in connection with certain transactions and receivables from derivative transactions. The Company controls the credit limit granted to all counterparties and diversifies such exposure among first-tier financial institutions, according to credit policy of financial counterparties in force.

Derivatives and risk management policy

All the Company’s derivative financial instruments are intended to hedge against the currency risk arising from assets and liabilities in foreign currency, against inflation risk from its debenture and lease indexed to IPCA (inflation rate) with shorter term, and against the risk of changes in TJLP of a debt with the BNDES. As such, any changes in risk factors generate an opposite effect on the hedged end. Therefore, there are no derivative instruments for speculative purposes and the Company is hedged against currency risk.

(In thousands of reais)

The Company has internal controls over its derivative instruments, which, according to management, are appropriate to control the risks associated with each market strategy. The Company's results derived from its derivative financial instruments indicate that the risks have been adequately managed.

The Company determines the effectiveness of the derivative instruments entered into, to hedge its financial liabilities at the beginning of the operation and on an ongoing basis (on a quarterly basis). At June 30, 2014 and December 31, 2013, derivative instruments taken out were effective for the hedged debts. Provided that these derivative contracts qualify as hedge accounting, the hedged risk may also be adjusted at fair value, according to hedge accounting rules.

The Company entered into swap contracts in foreign currency at different exchange rates hedging its assets and liabilities in foreign currency.

At June 30, 2014 and December 31, 2013, the Company had no embedded derivative contracts.

Derivative contracts have specific provisions for penalty in case of breach of contract. A breach of contract provided for in the agreements made with financial institutions is characterized by breach of a clause, resulting in the early settlement of the contract.

Fair value of financial instruments

The discounted cash flow method was used to determine the fair value of financial liabilities (when applicable) and derivative instruments, considering expected settlement of liabilities or realization of assets and liabilities at the market rates prevailing at balance sheet date.

Fair values are calculated by projecting future operating flows, using BM&FBovespa curves, and discounting to present value through market DI rates for *swaps*, as informed by BM&FBovespa.

The market values of exchange rate derivatives were obtained through market currency rates in force at the balance sheet date and projected market rates were obtained from currency coupon curves. The coupon

for positions indexed to foreign currencies was determined using the 360-calendar-day straight-line convention; the coupon for positions indexed by CDI was determined using the 252-workday exponential convention.

The consolidated derivative financial instruments shown below are registered with CETIP. All of them are classified as swaps and do not require margin deposits.

b) Swap of foreign currency (Euro and Dollar) and (CDI vs. EUR) (R\$48,821) – swap contracts entered into with maturities until August 28, 2014, in order to hedge against foreign exchange variation for net amounts payable in Euro and Dollar (carrying amount of R\$44,139 in US Dollar and R\$5,017 in Euro).

c) Swap of IPCA vs. CDI percentage (R\$100,360) – swap transactions with annual maturity dates until 2014 to hedge against the cash flow identical to the debentures (4th issue – 3rd series) pegged to the IPCA (market value R\$100,360).

d) Swap of TJLP vs. CDI (R\$675,200) – *swap* transactions contracted with maturity dates until 2019, to hedge against foreign exchange variation of TJLP for loans with the BNDES (financial debt carrying amount of R\$694,504).

e) Swap of IPCA vs. CDI (R\$202,759) – swap transactions maturing in 2033 for the purpose of protecting from the IPCA variation risk of finance lease (market balance of R\$203,343).

The maturities of swap contracts as of June 30, 2014 are as follows:

For the purpose of preparing the financial statements, the Company and its subsidiary adopted hedge accounting for its foreign currency swaps vs. CDI, IPCA vs. CDI and TJLP vs. CDI swap transactions providing financial debt hedge. Under this methodology, both the derivative and the risk covered are stated at fair value.

At June 30, 2014, ineffectiveness amounted to R\$1,786 (R\$965 at December 31, 2013).

Notes to Quarterly Information

June 30, 2014

(In thousands of reais)

At June 30, 2014 and 2013, derivative transactions generated a consolidated loss of R\$115,676 and gain of R\$88,845, respectively, under Note 25.

Sensitivity analysis of the Company's risk variables

CVM Deliberation 604/09 requires listed companies to disclose, in addition to the provisions of Technical Pronouncement CPC No. 40 - Financial Instruments: Disclosure (equivalent to IFRS 7), a table showing the sensitivity analysis of each type of market risk inherent in financial instruments considered relevant by management and to which the Company is exposed at the closing date of each reporting period, including all operations involving derivative financial instruments.

In compliance with the foregoing, all the operations involving derivative financial instruments were evaluated considering a probable scenario and two scenarios that may adversely impact the Company.

The assumption taken into consideration under the probable scenario was to keep, the maturity date of each transaction, what has been signaled by the market through BM&FBovespa market curves (currencies and interest rates). Accordingly, the probable scenario does not provide for any impact on the fair value of the derivative financial instruments mentioned above. For scenarios II and III, risk variables contemplated 25% and 50% deterioration, respectively, pursuant to the applicable CVM Rule.

Considering that the Company has derivative instruments only to cover its assets and liabilities in foreign currency, changes in scenarios are offset by changes in the related hedged items, thus indicating that the effects are nearly null. For these operations, the Company reported the value of the hedged item and of the derivative financial instrument in separate lines in the sensitivity analysis table in order to provide information on consolidated net exposure for each of the three scenarios mentioned, as follows:
