## **Report on review of quarterly information**

To the Board of Directors and Shareholders

Telefônica Brasil S.A.

### **Introduction**

We have reviewed the accompanying parent company and consolidated interim accounting information of Telefônica Brasil S.A. ("Company"), included in the Quarterly Information Form (ITR) for the quarter ended March 31, 2017, comprising the balance sheet at that date and the statements of income, comprehensive income, changes in equity and cash flows for the quarter then ended, and a summary of significant accounting policies and other explanatory information.

Management is responsible for the preparation of the parent company interim accounting information in accordance with the accounting standard CPC 21, Interim Financial Reporting, of the Brazilian Accounting Pronouncements Committee (CPC), and of the consolidated interim accounting information in accordance with CPC 21 and International Accounting Standard (IAS) 34 - Interim Financial Reporting issued by the International Accounting Standards Board (IASB), as well as the presentation of this information in accordance with the standards issued by the Brazilian Securities Commission (CVM), applicable to the preparation of the Quarterly Information (ITR). Our responsibility is to express a conclusion on this interim accounting information based on our review.

### **Scope of review**

We conducted our review in accordance with Brazilian and International Standards on Reviews of Interim Financial Information (NBC TR 2410 - Review of Interim Financial Information Performed by the Independent Auditor of the Entity and ISRE 2410 - Review of Interim Financial Information Performed by the Independent Auditor of the Entity, respectively). A review of interim information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Brazilian and International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

### **Conclusion on the parent company interim information**

Based on our review, nothing has come to our attention that causes us to believe that the accompanying parent company interim accounting information included in the Quarterly Information referred to above has not been prepared, in all material respects, in accordance with CPC 21 applicable to the preparation of the Quarterly Information, and presented in accordance with the standards issued by the CVM.

### **Conclusion on the consolidated interim information**

Based on our review, nothing has come to our attention that causes us to believe that the accompanying consolidated interim accounting information included in the Quarterly Information referred to above has not been prepared, in all material respects, in accordance with CPC 21 and IAS 34 applicable to the preparation of the Quarterly Information, and presented in accordance with the standards issued by the CVM.

### **Other matters**

### **Statements of value added**

We have also reviewed the parent company and consolidated statements of value added for the quarter ended March 31, 2017. These statements are the responsibility of the Company's management and are required to be presented in accordance with standards issued by the CVM applicable to the preparation of Quarterly Information (ITR) and are considered supplementary information under IFRS, which do not require the presentation of the statement of value added. These statements have been submitted to the same review procedures described above and, based on our review, nothing has come to our attention that causes us to believe that they have not been prepared, in all material respects, in a manner consistent with the parent company and consolidated interim accounting information taken as a whole.

### **Audit and review of prior-year information**

The Quarterly Information Form (ITR) mentioned in the first paragraph includes accounting information, presented for comparison purposes, related to the statements of income, changes in equity, cash flow and value added for the quarter ended March 31, 2016, obtained from the Quarterly Information Form (ITR) for that quarter, and also to the balance sheet as at December 31, 2016, obtained from the financial statements at December 31, 2016. The review of the Quarterly Information (ITR) for the quarter ended March 31, 2016 and the audit of the financial statements for the year ended December 31, 2016 were conducted by other independent auditors, whose unqualified review and audit reports were dated April 25, 2016 and February 17, 2017, respectively.

**1) THE COMPANY AND ITS OPERATIONS**

**a) Background information**

Telefônica Brasil S.A. ("Company" or "Telefônica Brasil") is a publicly-traded corporation operating in telecommunication services and in the performance of activities that are necessary or useful in the rendering of such services, in conformity with the concessions, authorizations and permissions it has been granted. The Company, headquartered at Avenida Engenheiro Luiz Carlos Berrini, No. 1376, in the city and State of São Paulo, Brazil, is a member of Telefónica Group ("Group"), the telecommunications industry leader in Spain, also present in various European and Latin American countries.

At March 31, 2017 and December 31, 2016, Telefónica S.A. ("Telefónica"), the Group holding company based in Spain, held total direct and indirect interest in the Company of 73.58%, including treasury shares (Note 21).

The Company is listed in the Brazilian Securities and Exchange Commission ("CVM") as a publicly-held company under Category A (issuers authorized to trade any marketable securities) and has shares traded on the B3 (company originated from the merger between BM&FBovespa and CETIP, occurred on March 30, 2017). The Company is also listed in the Securities and Exchange Commission ("SEC"), of the United States of America, and its American Depositary Shares ("ADSs") are classified under level II, backed only by preferred shares and traded on the New York Stock Exchange ("NYSE").

**b) Operations**

The Company operates in the rendering of services: i) Fixed Switched Telephone Service Concession Arrangement ("STFC"), except for the municipalities identified on sector 33 of such agreement; (ii) Multimedia Communication Service ("SCM", data communication, including broadband internet); (iii)

Personal Mobile Service ("SMP"); and iv) Pay TV (conditioned access service - SEAC), throughout Brazil, through concessions and authorizations, as established in the General Plan of Concessions ("PGO").

In accordance with the STFC service concession agreement, in every two years, during the agreement's 20-year term, the Company shall pay a fee equivalent to 2% of its prior-year STFC revenue, net of applicable taxes and social contribution taxes (Note 20). The Company's current STFC concession agreement is valid until December 31, 2025.

In accordance with the authorization terms for the usage of frequencies associated with SMP, in every two years after the first renewal of these agreements, the Company shall pay a fee equivalent to 2% of its prior-year SMP revenue, net of applicable taxes and social contribution taxes, and in the 15th year the Company will pay 1% of its prior-year revenue. The calculation will consider the net revenue from the application of Basic and Alternative Services Plans (Note 20). These agreements can be extended only once for a term of 15 years.

The information on the operation areas (regions) and due dates of the radiofrequency authorizations for SMP services is the same of Note 1b) Operations as disclosed in the financial statements for the year ended December 31, 2016.

Service concessions and authorizations are granted by the Brazil's Telecommunications Regulatory Agency ("ANATEL"), the agency responsible for the regulation of the Brazilian telecommunications sector under the terms of Law No. 9472 of July 16, 1997 - General Telecommunications Law ("Lei Geral das Telecomunicações" - LGT), amended by Laws No. 9986, of July 18, 2000, and No. 12485, of September 12, 2011. The operation of such concessions is subject to supplementary regulations and plans.

**c) Acquisition of GVT Participações S.A. ("GVTPart")**

The information on the acquisition process of GVTPart, which occurred in May 2015, is the same of Note 4) Acquisition of GVT Participações S.A. ("GVTPart"), as disclosed in the financial statements for the fiscal year ended December 31, 2016.

**d) Corporate restructuring**

The Shareholders' Meeting held on April 1, 2016, approved corporate restructuring in accordance with the terms and conditions proposed on March 14, 2016. The information on the Corporate Restructuring is the same as in Note 1c) Corporate Restructuring, as disclosed in the financial statements for the fiscal year ended December 31, 2016.

**2) BASIS OF PREPARATION AND PRESENTATION OF THE QUARTERLY FINANCIAL STATEMENTS**

**a) Statement of compliance**

The individual (Company) and consolidated quarterly financial Statements were prepared and are presented in accordance with the accounting practices adopted in Brazil, which comprise CVM standards and CPC (Accounting Pronouncements Committee) pronouncements, in compliance with the International Financial Accounting Reporting Standards (IFRS), issued by the International Accounting Standards Board (IASB).

All significant information in the financial statements - and solely such information - is disclosed and corresponds to that used by Company management for administration purposes.

The consolidated IFRS (Consolidated) have been prepared and are presented in accordance with CPC 21 (R1) Interim Statements and IAS 34 - Interim Financial Reporting issued by the IASB and standards

established as Resolution nº 739/15 of the CVM.

**b) Basis of preparation and presentation**

The Company's quarterly financial statements for the three-month period ended March 31, 2017 are presented in thousands of *Reais* (unless otherwise stated), which is the functional currency of the Company.

Management has assessed the Company's ability to continue operating normally and is convinced that it has the resources to continue its business in the future. In addition, Management is not aware of any material uncertainties that could generate significant doubts about its ability to continue operating. Therefore, these quarterly financial statements were prepared based on the assumption of continuity.

These quarterly financial statements compares the quarters ended March 31, 2017 and 2016, except for the balance sheets, that compare the positions as of March 31, 2017 and December 31, 2016.

The Board of Directors authorized the issue of these individual and consolidated financial statements at the meeting held on May 9, 2017.

Business segments are defined as components of a company for which separate financial information is available and regularly assessed by the operational decision making professional in decisions on how to allocate funds to an individual segment and in the assessment of segment performance. Considering that : (i) all officers and managers' decisions are based on consolidated reports; (ii) the Company and subsidiaries' mission is to provide their customers with quality telecommunications services; and (iii) all decisions related to strategic planning, finance, purchases, short- and long-term investments are made consolidated on a consolidated basis, the Company and subsidiaries operate in a single operating segment, namely the provision of telecommunications services.

These quarterly financial statements were prepared following the preparation basis and accounting policies consistent with those adopted in the preparation of the financial statements as of December 31, 2016, and should therefore be read with such statements. The information in the notes to the financial statements that did not significantly change or present irrelevant disclosures as compared to December 31, 2016 were not fully restated in these quarterly financial statements. In the meantime, the Company selected and included information to explain the main events and transactions occurring during the three-month period ended March 31, 2017, in order to understand the changes in the Company's financial position and performance.

**NOTES TO THE QUARTERLY FINANCIAL STATEMENTS**

**Three-month period ended March 31, 2017**

**(In thousands of *Reais*, unless otherwise stated)**

In this context, the Company indicates below the number of the notes disclosed in the annual financial statements as of December 31, 2016 and not fully restated in these quarterly financial statements:

- Note 1 - Operations
- Note 2 - Basis of Preparation and Presentation of Financial Statements
- Note 3 - Summary of Significant Accounting Practices
- Note 4 - Acquisition of GVT Participações S.A. (“GVTPart”)
- Note 9 - Judicial Deposits and Garnishments
- Note 14 - Intangible Assets, Net
- Note 21 - Loans, Financing and Debentures
- Note 23 - Equity
- Note 31 - Share-Based Payment Plans
- Note 32 – Pension Plans and Other Post-Employment Benefits

The accounting standards adopted in Brazil require the presentation of the Statement of Value Added (“SVA”), individual and consolidated, while IFRS does not require presentation. As a result, under IFRS standards, the SVA is being presented as supplementary information, without prejudice to the overall quarterly financial statements.

As a result of the Corporate Restructuring process (Note 1d), which occurred on April 1, 2016, the individual quarterly financial statements for the three-month period ended March 31, 2017 and 2016 are not comparable.

The quarterly financial statements were prepared in accordance with the principles, practices and accounting criteria consistent with those adopted in the preparation of the financial statements for the fiscal year ended December 31, 2016 (Note 3) Summary of Significant Accounting Practices) and should be analyzed in conjunction with these Financial statements, in addition to the new pronouncements, interpretations and amendments, which came into effect as of January 1, 2017, as described below:

IAS 7 - Cash Flow. amendments: The changes are part of the IASB disclosure initiative and require an entity to provide disclosures that enable users of financial statements to assess changes in liabilities arising from financing activities, including both. The changes stemming from cash flows, such as changes that do not affect cash. At the initial adoption of the amendment, entities are not required to provide comparative information for prior periods. The application of the changes in this standard did not cause any material impact on the Company's cash flow disclosures.

IAS 12 - Income Taxes. amendments: The amendments clarify that an entity should consider whether tax legislation restricts sources of taxable income against which it may make deductions on the reversal of that deductible temporary difference. In addition, the amendments provide guidance on how an entity should determine future taxable income and explain the circumstances under which taxable income may include the recovery of some assets for amounts greater than their carrying amount. If an entity adopts the changes for an earlier period, it should disclose that fact. The application of the changes in this standard did not have a material impact on the Company's financial position.

On the date of preparation of these quarterly financial statements, the following IFRS amendments had been published; however, their application was not mandatory. The Company does not adopt early any pronouncement, interpretation or amendment that has been issued, before application is mandatory.

<b>Standards and Amendments to the Standards</b>	<b>Effective as of:</b>
IFRS 9 Financial Instruments, issued	January 1, 2018
IFRS 15 Revenue from Contracts with Customers, as issued	January 1, 2018
IFRS 2 Classification and Valuation of Share Based Transactions, as amended	January 1, 2018

IFRS 16 Leases, as issued	January 1, 2019
IFRS 10, 12 and IAS 28 Investment Entities: Applying the Consolidation Exception, as amended	TBD

Based on preliminary, the Company expects the implementation of many of these standards, changes and interpretations will not have a significant impact on the financial statements in the initial period of application. However, the Company expects the following standards issued, but not yet mandatory, may have a significant impact on the Company's consolidated financial statements at the time of its application and prospectively.

IFRS 9 - Financial Instruments. Issue: In July 2014, the IASB issued the final version of IFRS 9, which replaces IAS 39 and all previous versions of IFRS 9.

IFRS 9 applies to financial assets and liabilities and establishes the classification, valuation, losses and write-off criteria for recognition of such items, as well as a new hedge accounting model. The Company estimates that major changes will occur in the documentation of hedge policies and strategies, as well as in the estimation of expected losses on financial assets. The changes introduced by IFRS 9 will affect the recognition of financial assets and derivative financial instruments as of January 1, 2018. The Company is carrying out the process of implementing the new criteria, but due to the relevance of the potentially affected items and the complexity of the estimates, understands that it is not reasonably possible to quantify the impacts of the application of this standard on the closing date of the quarterly financial statements.

IFRS 15 - Revenue from Contracts with Customers. Issuance: IFRS 15 establishes criteria's for the accounting of revenues from customer contracts. The Company is currently in the process of estimating the impacts of this new standard on its contracts. This analysis identified a number of expected impacts related to the following aspects, among others:

- Under the current accounting policy, the Company offers commercial packages that combine equipment's and services of telephony, fixed and mobile, data, internet and television, total revenue of services is distributed among its elements identified based on their respective fair values.

Under IFRS 15, amounts will be allocated to each element based on the basis of the independent selling prices of each individual component in relation to the total price of the package and will be recognized when (and the measure) the obligation is satisfied. Consequently, the application of the new criteria will mean an acceleration in the recognition of equipment sales revenues, which are generally recognized at the time of delivery to the final consumer. To the extent that the packages are marketed at a discount, the difference between the profit on sales of equipment and the amount received from the customer at the inception of the contract will be recognized as a contractual asset.

**NOTES TO THE QUARTERLY FINANCIAL STATEMENTS**

**Three-month period ended March 31, 2017**

**(In thousands of *Reais*, unless otherwise stated)**

- According to the criteria currently in force, all costs directly related to obtaining commercial contracts (sales commissions and other expenses with third parties) are accounted as expenses when incurred. On the other hand, IFRS 15 requires the recognition of an asset for the amounts incurred by these concepts and its subsequent accounting to the income statement according to the period of the respective agreement. Likewise, certain costs related to the performance of the contract, currently recognized as expenses, when incurred, will be deferred when associated with compliance obligations over the period of contract.

- Compared to the current standard, IFRS 15 establishes much more detailed requirements on the accounting treatment of contract changes. Thus, certain changes will be recorded retrospectively and others prospectively as a separate or contract resulting from the redistribution of revenues among the various performance obligations identified.

The Company is advancing in the process of implementing the new criteria, but due to the high number of transactions affected, the high volume and dispersion of the necessary information and the complexity of the estimates, the Company understands that at the closing date of the quarterly financial statements cannot reliably measure the impact of the application of this standard.

However, considering the current commercial offers as well as the volume of affected contracts, the Company estimates that the changes introduced by IFRS 15 will have a significant impact on its financial statements at the date of its initial application. In addition, the Company's financial statements will include more quantitative disclosures of revenue-related accounts.

IFRS 16 - Leasing. Issuance: IFRS 16 establishes that companies acting as lessees must recognize in the balance sheet the assets and liabilities arising from all lease agreements (except for short-term lease agreements and those for low value assets).

The Company has a very large number of leases as a lessee of various assets, such as third-party towers, circuits, real estate and land (where the towers are primarily located). Under the current standard, significant portions of such contracts are classified as operating leases, where payments are generally recorded on a straight-line basis over the contract term.

The Company is currently in the process of estimating the impact of this new standard on such contracts. In this analysis, the estimate of the term of the lease is included, considering the non-cancellable period and the periods covered if exercised the option to extend the lease for those cases in which exist reasonable certainty, which will depend, of the expected use of the Company's assets installed in the leased assets.

In addition to the term of the lease, assumptions will be used to calculate the discount rate, which will depend mainly on the incremental financing rate for the estimated periods. In addition to the previous estimates, the standard allows two transition methods, being: i) full retrospective for each comparative period presented; and (ii) modified retrospective with the cumulative effect of the initial application of the recognized standard at the date of initial application. In addition, it is possible to choose specific practical relieves at the time of applying the standard on measurement of liability, discount rate, losses, leases ending within twelve months after the first application, initial direct costs, and lease duration. Thus, depending on the transition method to be chosen, the impacts will be different.

Due to the different alternatives, as well as the complexity of the estimates and the high number of contracts, the Company has not yet completed the implementation process, so that at the closing date of the quarterly financial statements it is not possible to estimate the impact of the application of this standard.

However, considering the volume of contracts affected, the Company estimates that the changes introduced by IFRS 16 will have a significant impact on its financial statements from the date of adoption, including the recognition of the right to use and the corresponding obligations in respect to the contracts which, under the current standard, are classified as operating leases. In addition, depreciation of the right to use the assets and recognition of interest on the lease obligation will replace a significant portion of the amount recognized as expenses in the income statement of the operating lease. The classification of payments in the statement of cash flows will also be affected by the adoption of IFRS 16.

**Telefônica Brasil S. A.****NOTES TO THE QUARTERLY FINANCIAL STATEMENTS****Three-month period ended March 31, 2017****(In thousands of *Reais*, unless otherwise stated)****c) Basis of consolidation**

At March 31, 2017 and December 31, 2016, the Company held the following equity interests on the respective dates:

Investees	Type of investment	At 03.31.17	At 12.31.16	Country (Headq
Telefônica Data S.A. ("TData")	Wholly-owned subsidiary	100.00%	100.00%	
POP Internet Ltda ("POP") (note 1c)	Wholly-owned subsidiary	100.00%	100.00%

**(1) This refers to the amounts recorded which, in accordance with Brazilian tax legislation, may be offset to the limit of 30% of the tax bases computed for the following years, with no expiry date.**

**(2) This refers to tax benefits arising from corporate restructuring of goodwill for expected future profitability, where tax use complies with the limit set forth in tax legislation.**

**Telefônica Brasil S. A.****NOTES TO THE QUARTERLY FINANCIAL STATEMENTS****Three-month period ended March 31, 2017****(In thousands of *Reais*, unless otherwise stated)**

**(3) This refers to amounts that will be realized upon payment of provisions, effective impairment losses for trade accounts receivable, or realization of inventories, as well as upon reversal of other provisions.**

**(4) These refer to deferred taxes arising from other temporary differences, such as deferred income, renewal of licenses burden, subsidy on the sale of mobile phones, among others.**

At March 31, 2017, deferred tax credits (income and social contribution tax losses) were not recognized in indirect subsidiary (Innoweb) accounting records, in the amount of R\$3,071 (R\$2,993 at December 31, 2016), as it is not probable that future taxable profits shall be available for these subsidiaries to benefit from such tax credits.

**7) JUDICIAL DEPOSITS AND GARNISHMENTS**

In some situations, in connection with a legal requirement or presentation of guarantees, judicial deposits are made to secure the continuance of the claims under discussion. These judicial deposits may be required for claims where the likelihood of loss was analyzed by the Company and its subsidiaries, grounded on the opinion of its legal advisors as a probable, possible or remote loss.

**Telefônica Brasil S. A.****NOTES TO THE QUARTERLY FINANCIAL STATEMENTS****Three-month period ended March 31, 2017****(In thousands of *Reais*, unless otherwise stated)**

(1) The Company and its subsidiaries recognized estimated losses for potential obsolescence of materials used in property and equipment maintenance, based on levels of historical use and expected future use.

(2) Net write-offs regarding “Infrastructure and Assets and Facilities under Construction” for the year ended March 31, 2016, include the amount of R\$99,210 regarding the disposal of 1,655 towers owned by the Company to Telxius Torres Brasil Ltda, a directly controlled Telefônica subsidiary.

**b) Depreciation rates**

In the last quarter of 2016, in accordance with IAS 16 / CPC 27, the Company performed, in conjunction with a specialized company, valuations of useful lives applied to its property, plant and equipment using the direct comparative method of market data. The studies indicated the need for changes in useful life and annual depreciation rates for some items of asset classes.

The following table sets forth the depreciation rates of property, plant and equipment of the Company and its subsidiaries, which are depreciated on a straight-line basis at the annual rate, as follows:

Description	Annual depreciation rate (%)			
	Company	Revised / Current	Consolidated	Revised / Current
	Previous 10.00 to 14.29		Previous	
Switching equipment		5.00 to 14.29	8.33 to 20.00	5.00 to 20.00
Transmission equipment and media	5.00 to 14.29	2.50 to 25.00	2.50 to 25.00	2.50 to 25.00
