Item 2.05 Costs Associated with Exit or Disposal Activities.

On December 15, 2008, the Board of Directors of Teleflex Incorporated (the "Company") approved certain restructuring initiatives with respect to the Company's Commercial Segment (the "Commercial Segment Restructuring") to address an expected continuation of weakness in the marine and industrial markets. These initiatives will involve the consolidation of operations and a related reduction in workforce at certain of the Company's facilities in North America and Europe.

The Company currently estimates that the total amount of one-time charges to be recorded in connection with the program will be in the range of \$10 million to \$12 million before taxes, of which approximately 50% are expected to be non-cash charges. The Company expects that \$2 million of these charges will be incurred in the fourth quarter of 2008 and that the remaining charges will be incurred over the next 12 months. The total charges are comprised of the following:

- approximately \$3.2 million to \$3.5 million in connection with employee severance costs;
- approximately \$0.3 million to \$0.4 million in connection with contract terminations, primarily relating to leases;
- approximately \$4.1 million to \$4.9 million in connection with asset impairments; and
- approximately \$2.4 to \$3.2 million relating to other costs, including environmental, relocation and moving and other miscellaneous costs.

As the program progresses, management will re-evaluate the estimated costs set forth above, and may revise its estimates and the accounting charges relating thereto, as appropriate, consistent with generally accepted accounting principles.

This report contains forward-looking statements, including, but not limited to statements relating to planned actions under the restructuring initiatives; costs expected to be recorded in connection with the initiatives; timing of the initiatives; and anticipated charges to be recorded over the next 12 months. Actual results could differ materially from those described in the forward-looking statements due to, among other things, unanticipated expenditures in connection with the initiatives; costs and length of time required to comply with legal requirements applicable to certain initiatives; unanticipated difficulties in connection with consolidation of manufacturing and administrative functions; and other factors described in the Company's periodic filings with the Securities and Exchange Commission.

Item 7.01 Regulation FD Disclosure.

On December 17, 2008, the Company issued a press release (the "Press Release") announcing its plans to initiate the Commercial Segment Restructuring. A copy of the Press Release is furnished as Exhibit 99.1 to this Current Report.
