Quarterly Report Pursuant To Section 13 Or 15(d) Of The Securities Exchange Act Of 1934
For the quarterly period ended April 5, 2015

OR

Transition Report Pursuant To Section 13 Or 15(d) Of The Securities Exchange Act Of 1934
For the transition period from _____ to _____

Commission file number: 0-24020

SYPRIS SOLUTIONS, INC.

(Exact name of registrant as specified in its charter)

Delaware

(State or other jurisdiction of incorporation or organization)

61-1321992

(I.R.S. Employer Identification No.)

101 Bullitt Lane, Suite 450

Louisville, Kentucky 40222

(502) 329-2000

(Address of principal executive offices) (Zip code) (Registrant's telephone number, including area code)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to rule 405 of Regulation S-T during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such reports). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer or a smaller reporting company. See the definitions of "large accelerated filer," "accelerated filer" and "smaller reporting company" in Rule 12b-2 of the Exchange Act.

Large accelerated filer Accelerated filer Non-accelerated filer Smaller reporting company

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act).
Yes No

As of May 1, 2015, the Registrant had 20,791,544 shares of common stock outstanding.

Sypris Solutions, Inc.

Notes to Consolidated Financial Statements

(1) Nature of Business

All references to “Sypris,” the “Company,” “we” or “our” include Sypris Solutions, Inc. and its wholly-owned subsidiaries. Sypris is a diversified provider of outsourced services and specialty products. The Company performs a wide range of manufacturing, engineering, design, and other technical services, often under multi-year, sole-source contracts with corporations and government agencies in the markets for truck components and assemblies and aerospace and defense electronics. The Company provides such services through its two segments, Sypris Technologies, Inc. (Sypris Technologies) and Sypris Electronics, LLC (Sypris Electronics). See Note 12, “Segment Data,” to the consolidated financial statements.

(2) Basis of Presentation

The accompanying unaudited consolidated financial statements include the accounts of Sypris Solutions, Inc. and its wholly-owned subsidiaries, and have been prepared by the Company in accordance with the rules and regulations of the Securities and Exchange Commission. The Company’s operations are domiciled in the United States (U.S.), Mexico and the United Kingdom (U.K.) and serve a wide variety of domestic and international customers. All intercompany transactions and accounts have been eliminated. These unaudited consolidated financial statements reflect, in the opinion of management, all material adjustments (which include only normal recurring adjustments) necessary to fairly state the results of operations, financial position and cash flows for the periods presented, and the disclosures herein are adequate to make the information presented not misleading. Preparing financial statements requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, revenue and expenses. Actual results for the three months ended April 5, 2015 are not necessarily indicative of the results that may be expected for the year ending December 31, 2015. These unaudited consolidated financial statements should be read in conjunction with the consolidated financial statements, and notes thereto, for the year ended December 31, 2014 as presented in the Company’s Annual Report on Form 10-K.

(3) Recent Accounting Pronouncements

In April 2014, the Financial Accounting Standards Board (“FASB”) issued guidance that revises the definition of a discontinued operation. The revised definition limits discontinued operations reporting to disposals of components of an entity that represent strategic shifts that have (or will have) a major effect on operations and financial results. The guidance also requires new disclosures of both discontinued operations and certain other disposals that do not meet the definition of a discontinued operation. The guidance will apply to covered transactions that occur after 2014 and was

optional for the initial reporting of disposals completed or approved in 2014.

In May 2014, the FASB issued Accounting Standards Update (“ASU”) No. 2014-09, “Revenue from Contracts with Customers.” This ASU supersedes the revenue recognition requirements in “Accounting Standard Codification 605 - Revenue Recognition” and most industry-specific guidance. The standard requires that entities recognize revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which a company expects to be entitled in exchange for those goods or services. The new guidance will also require new disclosures about the nature, amount, timing and uncertainty of revenue and cash flows arising from contracts with customers. This ASU is effective for fiscal years beginning after December 15, 2016, and for interim periods within those fiscal years and early adoption is not permitted. The guidance allows for either a full retrospective or a modified retrospective transition method. The Company is currently assessing the impact of the adoption of ASU 2014-09 on its results of operations, financial position and cash flows.

In August 2014, the FASB issued ASU No. 2014-15 Presentation of Financial Statements—Going Concern (Subtopic 205-40): Disclosure of Uncertainties about an Entity’s Ability to Continue as a Going Concern, which requires management to evaluate whether there are conditions or events that raise substantial doubt about the entity’s ability to continue as a going concern, and to provide certain disclosures when it is probable that the entity will be unable to meet its obligations as they become due within one year after the date that the financial statements are issued. ASU 2014-15 is effective for the annual period ended December 31, 2016 and for annual periods and interim periods thereafter with early adoption permitted. We are currently evaluating the new guidance to determine the impact it may have on our consolidated financial statements.

(4) Loss of a Key Customer and Management's Recovery Plans

Our supply agreement with Dana Holding Corporation ("Dana") was originally scheduled to expire on December 31, 2014. For the year ended December 31, 2014, Dana represented approximately 59% of our net revenue.

In July 2013, Sypris and Dana signed an amended and restated supply agreement to extend the supply agreement term beyond December 31, 2014, the binding effect of which is currently in dispute. Dana has repudiated this July 2013 agreement, and Dana has ceased ordering any components from us effective December 31, 2014. Sypris disputes Dana's ability to do so and is seeking to recover its lost margins and additional remedies with respect to the revenues to which Sypris was entitled under the renewed agreement.

Dana initiated an ancillary action in Ohio state court challenging the arbitrability of the existence and enforceability of the amended and restated July 2013 supply agreement on January 17, 2014. The parties have conducted discovery, and the Ohio trial court has granted an initial motion for judgment on the pleadings or summary judgment, which Sypris has appealed. If the case goes to trial and if ruled in the Company's favor, the dispute would revert to an arbitrator to determine damages.

Additionally, the parties have also asserted various damages claims against each other arising out of their prior supply agreement and have sought the assistance of an arbitrator in connection with these disputes. The parties had an arbitration hearing in January 2015, and the ruling was received on April 29, 2015, awarding Sypris \$505,000.

As a result of the dispute with Dana and the loss of the Dana business, the Company has taken significant actions during the fourth quarter of 2014 and the first quarter of 2015, including but not limited to the following: (i) bid on significant new business opportunities with existing and potential customers resulting from the strength of the commercial vehicle market and a perceived shift in market share among tier one suppliers, (ii) reduced workforce at the locations most impacted by the loss of Dana, (iii) reduced employment costs by reduced work schedules, senior management pay reductions, deferral of merit increases and certain benefit payments, and (iv) utilized labor for preventative maintenance on equipment and facilities, deployment of Toyota Production System management and production practices and refurbished the overall appearance of facilities to attract customers. The Company has engaged an investment banking firm to provide financial advisory services in connection with its effort to secure new subordinated debt. The Company has also engaged a commercial real estate firm to provide advisory and brokerage services related to the potential disposition of certain real property owned by the Company. However, there can be no assurance that our plans to mitigate the loss and to effectively manage our costs during the transition will be successful. Additionally, the Company amended its Credit Facility in March 2015 to support management's plans and provide liquidity through January 2016 (see Note 11 "Debt," to the consolidated financial statements).

(5) Milestone Revenue Recognition

The Company periodically enters into research and development contracts with customers related primarily to key encryption products. When the contracts provide for milestone or other interim payments, the Company will recognize revenue under the milestone method in accordance with Accounting Standards Codification (“ASC”) 605-28 *Revenue Recognition, Milestone Method*. The milestone method requires the Company to deem all milestone payments within each contract as either substantive or non-substantive. That conclusion is determined based upon a thorough review of each contract and the deliverables to which the Company has committed in each contract. For substantive milestones, the Company concludes that upon achievement of each milestone, the amount of the corresponding defined payment is commensurate with the effort required to achieve such milestone or the value of the delivered item. The payment associated with each milestone relates solely to past performance and is deemed reasonable upon consideration of the deliverables and the payment terms within the contract. Milestones may include, for example, the successful completion of design review or technical review, the submission and acceptance of technical drawings, delivery of hardware, software or regulatory agency certifications. The Company had one such milestone contract in process at December, 31, 2014. All milestones under that contract were deemed substantive. During the first quarters ended April 5, 2015 and March 30, 2014, revenue recognized through the achievement of multiple milestones amounted to \$300,000 and \$1,275,000, respectively. There are no performance, cancellation, termination or refund provisions in the arrangement that contain material financial consequences to the Company. As of April 5, 2015, all contracts utilizing the milestone method were completed.

(6) Dana Claim

On March 3, 2006, Dana and 40 of its U.S. subsidiaries, filed voluntary petitions for reorganization under Chapter 11 of the U.S. Bankruptcy Code in the U.S. Bankruptcy Court for the Southern District of New York. On August 7, 2007, the Company entered into a comprehensive settlement agreement with Dana to resolve all outstanding disputes between the parties, terminate previously approved arbitration payments and replace three existing supply agreements with a single, revised contract running through 2014. In addition, Dana provided the Company with an allowed general unsecured non-priority claim in the face amount of \$89,900,000 (the “Claim”).

The Claim provided to the Company was agreed to by the Company and Dana as consideration for the aggregate economic impact of the various elements the two parties were negotiating. After the aggregate Claim value of \$89,900,000 was established, the Company recorded the claim at the estimated fair value of \$76,483,000 and allocated the estimated fair value to each commercial issue negotiated. The revenues and resulting net income associated with each of those issues requiring the Company’s continued involvement were deferred and were recognized over the applicable period of the involvement. For the three months ended March 30, 2014, the Company recognized into revenue \$2,164,000 related to the Claim. The Claim was fully amortized as of December 31, 2014.

(7) Other (Income), Net

During the three months ended April 5, 2015, the company recognized net foreign currency related gains of \$134,000 related to the U.S. dollar denominated monetary asset position of our Mexican subsidiaries for which the Mexican peso is the functional currency. During the three months ended March 30, 2014, the Company recognized net gains of \$591,000 within Sypris Technologies from the receipt of federal grant funds for improvements made under a flood relief program. Additionally, the Company recognized foreign currency related losses of \$31,000 in the three months ended March 30, 2014. These gains and losses are included in other (income), net on the consolidated statements of operations.

(8) (Loss) Earnings Per Common Share

The Company computes earnings per share using the two-class method, which is an earnings allocation formula that determines earnings per share for common stock and participating securities. Restricted stock granted by the Company is considered a participating security since it contains a non-forfeitable right to dividends.

Our potentially dilutive securities include potential common shares related to our stock options and restricted stock. Diluted earnings per share considers the impact of potentially dilutive securities except in periods in which there is a

loss because the inclusion of the potential common shares would have an anti-dilutive effect. Diluted earnings per share excludes the impact of common shares related to our stock options in periods in which the option exercise price is greater than the average market price of our common stock for the period. For the three months ended April 5, 2015, diluted weighted average common shares do not include the impact of any outstanding stock options and unvested compensation-related shares because the effect of these items on diluted net loss would be anti-dilutive. There were 858,000 potential common shares excluded from diluted earnings per share for the three months ended March 30, 2014.

A reconciliation of the weighted average shares outstanding used in the calculation of basic and diluted (loss) earnings per common share is as follows (in thousands):

	Three Months Ended	
	April 5, 2015	March 30, 2014
	(Unaudited)	
(Loss) income attributable to stockholders:		
Net (loss) as reported	\$(13,033)	\$1,652
Less distributed and undistributed earnings allocable to restricted awarded holders	0	(54)
Less dividends declared attributed to restricted awarded holders	0	(14)
Net (loss) income allocable to common stockholders	\$(13,033)	\$1,584

	Three Months Ended	
	April 5, 2015	March 30, 2014
	(Unaudited)	
(Loss) income per common share attributable to stockholders:		
Basic	\$(0.66)	\$0.08
Diluted	\$(0.66)	\$0.08
Weighted average shares outstanding – basic	19,650	19,417
Weighted average additional shares assuming conversion of potential common shares	0	29
Weighted average shares outstanding – diluted	19,650	19,446

(9) Inventory

Inventory consists of the following (in thousands):

	April 5, 2015	December 31, 2014
	(Unaudited)	
Raw materials	\$ 16,797	\$ 16,687
Work in process	13,564	11,702
Finished goods	6,051	6,991
Reserve for excess and obsolete inventory	(6,420)	(6,349)
	\$ 29,992	\$ 29,031

(10) Property, Plant and Equipment

Property, plant and equipment consists of the following (in thousands):

	April 5, 2015	December 31, 2014
	(Unaudited)	
Land and land improvements	\$ 2,703	\$2,770
Buildings and building improvements	25,947	26,055

Edgar Filing: SYPRIS SOLUTIONS INC - Form 10-Q

Machinery, equipment, furniture and fixtures	159,050	158,816
Construction in progress	1,079	2,100
	188,779	189,741
Accumulated depreciation	(153,153)	(152,087)
	\$ 35,626	\$ 37,654

Sypris Technologies performed an asset recoverability test for one of its asset groups totaling approximately \$31,331,000 as of April 5, 2015. The Company concluded that the undiscounted sum of estimated future cash flows exceeded the carrying value for such asset group, and accordingly, no impairment was recognized.

(11) Debt

Debt consists of the following:

	April 5, 2015 (Unaudited)	December 31, 2014
Revolving credit facility	\$ 15,949	\$ 17,000
Note payable – related party	4,000	0
	\$ 19,949	\$ 17,000

The Credit Facility was amended during the first quarter of 2015 to, among other things: (i) waive certain existing or potential events of default, (ii) limit total borrowings to \$25,000,000, (iii) restrict the payment of dividends, (iv) increase the applicable margin on borrowings which will result in an initial interest rate of approximately 6% and increasing by 50 basis points beginning June 2015 and each month thereafter to an estimated interest rate of 10% in January 2016, (v) revise the maturity date to January 15, 2016, (vi) revise certain financial covenants to include a minimum cumulative free cash flow covenant, (vii) establish minimum excess availability of \$1,000,000 initially, through May 31, 2015, and then in the amount of up to \$5,000,000 on or before September 30, 2015, and (viii) require the Company to raise new capital by securing subordinated debt or divesting certain real property or a combination thereof on or before September 30, 2015 (and, if earlier than September 30, 2015, to maintain minimum excess availability of up to \$5,000,000 thereafter).

The Company engaged an investment banking firm on March 20, 2015 to provide financial advisory services in connection with its effort to secure new subordinated debt. The Company also engaged a commercial real estate firm to provide advisory and brokerage services related to a potential transaction involving certain real property owned by the Company.

As a result of the aforementioned modification, the Company incurred \$440,000 of loan costs, which are included in other assets in the consolidated balance sheets.

The Credit Facility is secured by substantially all domestic assets of the Company. In addition to the aforementioned pursuit of capital sources, the Company is also considering opportunities to support its cash flow from operations in 2015 through sources of cash from either investing or financing activities. The Company is exploring alternatives to monetize certain assets of the Company for values in excess of the availability being provided under the Credit facility, thereby generating additional sources of capital to the Company.

In connection with the amendment, the Company has received the proceeds of subordinated indebtedness from Gill Family Capital Management in an amount of \$4,000,000. Gill Family Capital Management is an entity controlled by our president and chief executive officer, Jeffrey T. Gill and one of our directors, R. Scott Gill. Gill Family Capital Management, Inc., Jeffrey T. Gill and R. Scott Gill are significant beneficial stockholders of the Company. The promissory note bears interest at a rate of 8.00% per year and matures on April 12, 2016. All principal and interest on the promissory note will be due and payable on the maturity date.

Actual borrowing availability under the Credit Facility is determined by a daily borrowing base collateral calculation that is based on specified percentages of the value of eligible accounts receivable, inventory and machinery and equipment, less certain reserves and subject to certain other adjustments. Based on that calculation, at April 5, 2015, we had actual total borrowing availability under the Credit Facility of \$20,922,000, of which we had drawn \$15,948,000, leaving \$4,219,000 available for borrowing, after accounting for the letter of credit. Standby letters of credit up to a maximum of \$5,000,000 could be issued under the Credit Facility of which \$755,000 were issued at April 5, 2015 and December 31, 2014. Obligations under the Credit Facility are guaranteed by all of our U.S. subsidiaries and are secured by a first priority lien on substantially all domestic assets of the Company.

The Credit Facility contains a number of covenants that, among other things, limit or restrict our ability to dispose of assets, incur additional indebtedness, incur guarantee obligations, engage in sale and leaseback transactions, prepay other indebtedness, modify organizational documents and certain other agreements, create restrictions affecting subsidiaries, make dividends and other restricted payments without bank approval, create liens, make investments, make acquisitions, engage in mergers, change the nature of our business and engage in certain transactions with affiliates.

Non-compliance with the covenants would provide the debt holder with the ability to demand immediate repayment of all outstanding borrowings under the amended Credit Facility. Accordingly, the inability to comply with covenants, obtain waivers for non-compliance, or obtain alternative financing would have a material adverse effect on the Company's financial position, results of operations and cash flows.

(12) Segment Data

The Company is organized into two business groups, Sypris Technologies and Sypris Electronics. These segments are each managed separately because of the distinctions between the products, services, markets, customers, technologies and workforce skills of the segments. Sypris Technologies provides manufacturing services for a variety of customers that outsource forged and finished steel components and subassemblies. Sypris Technologies also manufactures high-pressure closures and other fabricated products. Sypris Electronics provides manufacturing and technical services as an outsourced service provider and manufactures complex data storage systems, trusted solutions for identity management, cryptographic key distribution and cyber analytics. There was no intersegment net revenue recognized in any of the periods presented.

The following table presents financial information for the reportable segments of the Company (in thousands):

	Three Months Ended	
	April 5,	March 30,
	2015	2014
	(Unaudited)	
Net revenue from unaffiliated customers:		
Sypris Technologies	\$28,070	\$75,839
Sypris Electronics	8,939	8,405

(13) Commitments and Contingencies

The provision for estimated warranty costs is recorded at the time of sale and periodically adjusted to reflect actual experience. The Company's warranty liability, which is included in accrued liabilities in the accompanying balance sheets, as of April 5, 2015 and December 31, 2014 was \$811,000 and \$825,000, respectively. The Company's warranty expense for the three months ended April 5, 2015 and March 30, 2014 was \$64,000 and \$67,000, respectively.

Additionally, the Company sells three and five-year extended warranties for certain link encryption products. The revenue from the extended warranties is deferred and recognized ratably over the contractual term. As of April 5, 2015 and December 31, 2014, the Company had deferred revenue of \$749,000 and \$839,000, respectively, related to extended warranties.

The Company bears insurance risk as a member of a group captive insurance entity for certain general liability, automobile and workers' compensation insurance programs and a self-insured employee health program. The Company records estimated liabilities for its insurance programs based on information provided by the third-party plan administrators, historical claims experience, expected costs of claims incurred but not paid, and expected costs to settle unpaid claims. The Company monitors its estimated insurance-related liabilities on a quarterly basis. As facts change, it may become necessary to make adjustments that could be material to the Company's consolidated results of operations and financial condition. The Company believes that its present insurance coverage and level of accrued liabilities are adequate.

The Company is involved in certain litigation and contract issues arising in the normal course of business. While the outcome of these matters cannot, at this time, be predicted in light of the uncertainties inherent therein, management does not expect that these matters will have a material adverse effect on the consolidated financial position or results of operations of the Company, although the loss of the Dana business, which is the subject of current litigation, could have such an effect (see Note 4 “Loss of a Significant Customer and Management’s Recovery Plans”).

The Company has various current and previously-owned facilities subject to a variety of environmental regulations. The Company has received certain indemnifications either from companies previously owning these facilities or from purchasers of those facilities. As of April 5, 2015 and December 31, 2014, no amounts were accrued for any environmental matters.

As of April 5, 2015, the Company had outstanding purchase commitments of approximately \$5,542,000, primarily for the acquisition of inventory and manufacturing equipment. As of April 5, 2015, the Company also had outstanding letters of credit approximating \$755,000 primarily under the aforementioned captive insurance program.

(14) Income Taxes

The provision for income taxes includes federal, state, local and foreign taxes. The Company’s effective tax rate varies from period to period due to the proportion of foreign and domestic pre-tax income expected to be generated by the Company. The Company provides for income taxes for its domestic operations at a statutory rate of 35% and for its foreign operations at a statutory rate of 30% in 2015 and 2014. Reconciling items between the federal statutory rate and the effective tax rate also include the expected usage of federal net operating loss carryforwards, state income taxes, valuation allowances and certain other permanent differences.

The Company recognizes liabilities or assets for the deferred tax consequences of temporary differences between the tax bases of assets or liabilities and their reported amounts in the financial statements in accordance with ASC 740, *Income Taxes*. These temporary differences will result in taxable or deductible amounts in future years when the reported amounts of assets or liabilities are recovered or settled. ASC 740 requires that a valuation allowance be established when it is more likely than not that all or a portion of a deferred tax asset will not be realized. The Company evaluates its deferred tax position on a quarterly basis and valuation allowances are provided as necessary. During this evaluation, the Company reviews its forecast of income in conjunction with other positive and negative evidence surrounding the realizability of its deferred tax assets to determine if a valuation allowance is needed. Based on its current forecast, the Company has established a valuation allowance against the domestic net deferred tax asset. Until an appropriate level and characterization of profitability is attained, the Company expects to continue to maintain a valuation allowance on its net deferred tax assets related to future U.S. and certain non-U.S. tax benefits.

The Company expects to repatriate available non-U.S. cash holdings in 2015 and 2016 to support management's strategic objectives and fund ongoing U.S. operational cash flow requirements; therefore current earnings from non-U.S. operations are not treated as permanently reinvested. The U.S. income tax recorded in 2015 on these non-U.S. earnings is expected to be offset by the benefit of a partial release of a valuation allowance on U.S. net operating loss carryforwards. Should the U.S. valuation allowance be released at some future date, the U.S. tax on foreign earnings not permanently reinvested might have a material effect on our effective tax rate. For the year ending December 31, 2015, the Company expects any additional tax expense from non-U.S. withholding and other taxes expected to be incurred on repatriation of current earnings would not be material.

(15) Employee Benefit Plans

Pension expense (benefit) consisted of the following (in thousands):

	Three Months Ended	
	April	March
	5,	30,
	2015	2014
	(Unaudited)	
Service cost	\$4	\$ 6
Interest cost on projected benefit obligation	434	447
Net amortizations of actuarial loss	170	142
Expected return on plan assets	(564)	(607)
	\$44	\$ (12)

(16) Accumulated Other Comprehensive Loss

The Company's accumulated other comprehensive loss consists of employee benefit related adjustments and foreign currency translation adjustments.

Accumulated other comprehensive loss consisted of the following (in thousands):

	April 5,	December
		31,
	2015	2014
	(Unaudited)	
Foreign currency translation adjustments	\$ (7,923)	\$ (7,265)
Employee benefit related adjustments – U.S.	(17,584)	(17,584)
Employee benefit related adjustments – Mexico	(186)	(186)
Accumulated other comprehensive loss	\$ (25,693)	\$ (25,035)

(17) Fair Value of Financial Instruments

Cash, accounts receivable, accounts payable and accrued liabilities are reflected in the consolidated financial statements at their carrying amount which approximates fair value because of the short-term maturity of those

instruments. The carrying amount of debt outstanding at April 5, 2015 under the Credit Facility and the related party note payable approximates fair value because borrowings mature in January 2016 and April 2016, respectively.

(18) Subsequent Events

On December 30, 2013, Sypris filed a Notice of Supplemental Claims in an arbitration proceeding, seeking up to approximately \$9.0 million in damages for Dana's alleged breach of the parties' original 2007 supply agreement; Dana filed a counterclaim for certain unpaid price rebates in the amount of approximately \$3.0 million. The parties had an arbitration hearing in January 2015, and the ruling was received on April 29, 2015, awarding Sypris \$505,000.

ITEM 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Overview

We are a diversified provider of outsourced services and specialty products. We perform a wide range of manufacturing, engineering, design and other technical services, often under sole-source contracts with corporations and government agencies principally in the markets for industrial manufacturing and aerospace and defense electronics.

We are organized into two business groups, Sypris Technologies and Sypris Electronics. Sypris Technologies, which is comprised of Sypris Technologies, Inc. and its subsidiaries, generates revenue primarily from the sale of manufacturing services to customers in the market for truck components and assemblies and from the sale of products to the energy and chemical markets. Sypris Electronics, which is comprised of Sypris Electronics, LLC and one subsidiary, generates revenue primarily from the sale of manufacturing services, technical services and products to customers in the market for aerospace and defense electronics, trusted solutions for identity management, cryptographic key distribution and cyber analytics.

We focus on those markets where we have the expertise, qualifications and leadership position to sustain a competitive advantage. We target our resources to support the needs of industry leaders that embrace multi-year contractual relationships as a strategic component of their supply chain management. These contracts, many of which are sole-source by part number and, historically, have been renewed for terms of five years or more, enable us to invest in leading-edge processes or technologies to help our customers remain competitive. The productivity, flexibility and economies of scale that can result offer an important opportunity for differentiating ourselves from our competitors when it comes to cost, quality, reliability and customer service.

Sypris Technologies Outlook

In North America, production levels for light, medium and heavy duty trucks have steadily increased over the past five years from a low in the depressed economic environment of 2008 and 2009. The commercial vehicle industry overall is expecting modest growth in production levels through 2015. Oil and gas markets, served by our engineered products line of Tube Turns® products, have been impacted to some degree as some of our customers' revenues, and near term capital expenditures, appear to have declined along with oil prices generally.

More specifically, Sypris Technologies' production levels are expected to decline significantly in 2015. Our shipments to Dana ceased on December 31, 2014, in the context of a dispute over the enforceability of a five-year contract

renewal signed by the parties in 2013. In 2014, Dana represented approximately 59% of our net revenue. In July 2013, Sypris and Dana signed an amended and restated supply agreement to extend the supply agreement term beyond December 31, 2014, the binding effect of which is currently in dispute. Dana has repudiated this July 2013 agreement, and Dana has ceased ordering any components from us effective December 31, 2014. Sypris disputes Dana's ability to do so and is seeking to recover its lost margins and additional remedies with respect to the revenues to which Sypris was entitled under the renewed agreement.

Dana initiated an ancillary action in Ohio state court challenging the arbitrability of the existence and enforceability of the amended and restated July 2013 supply agreement on January 17, 2014. The parties have conducted discovery, and the Ohio trial court has granted an initial motion for judgment on the pleadings or summary judgment, which Sypris has appealed. If the case goes to trial and if ruled in the Company's favor, the dispute would revert to the arbitrator to determine damages.

The parties have also asserted various damages claims against each other arising out of their prior supply agreement and have sought the assistance of an arbitrator in connection with these disputes. The parties had an arbitration hearing in January 2015, and the ruling was received on April 29, 2015, awarding Sypris \$0.5 million.

The loss of Dana's revenues will create significant challenges for the Company, especially in the near-term as we seek to control our costs while rebuilding and diversifying our customer base.

Revenue Recovery Plans

As a result of the dispute with Dana and the loss of the Dana business, the Company has taken significant actions during the fourth quarter of 2014 and the first quarter of 2015 to pursue new business opportunities with existing and potential customers, identify alternative uses for the related assets and certain other contingency plans. For example, since January 1, 2015, a variety of prospective and existing customers, seeking new or expanded relationships with suppliers that have available manufacturing capacity, have toured our operating plants in Kentucky, North Carolina and Mexico as part of their due diligence efforts in connection with a number of potential projects in the commercial vehicle, agricultural equipment and off-highway vehicle component markets. These markets are generally experiencing strong current demand and limited available manufacturing capacity. As a result, the Company is aggressively targeting these new opportunities to utilize our excess capacity for future growth. For our high pressure closures and related engineered products lines, we are aggressively seeking to expand our customer base beyond the oil and gas pipeline markets as well as broadening our market share within those markets. However, there can be no assurance that our plans to mitigate the loss and to effectively manage our costs during the transition will be successful. See Note 4 “Loss of a Key Customer and Management’s Recovery Plans” to the consolidated financial statements in this Form 10-Q.

Sypris Electronics Outlook

We continue to face challenges within Sypris Electronics, such as the uncertainty in the worldwide macroeconomic climate and its impact on aerospace and defense spending patterns globally, the emergence of new competitors to our product and service offerings, as well as federal government spending uncertainties in the U.S. and the allocation of funds by the U.S. Department of Defense.

Sypris Electronics’ revenue has declined year-over-year since 2009 primarily due to our inability to replace the declining demand for certain legacy products and services with competitive new offerings. While we have begun to generate revenue from the ramp-up of new electronic manufacturing services and other technical service programs, the process of fully replacing our legacy programs will continue through 2015 and 2016. The Company is continuing to develop new products and pursuing new programs to attempt to replenish its revenue stream within Sypris Electronics.

The U.S. Government's continued focus on addressing federal budget deficits and the growing national debt exacerbates this challenging environment for Sypris Electronics. It is likely that U.S. government discretionary spending levels for Fiscal Year 2016 and beyond will continue to be subject to significant pressure, including risk of future sequestration cuts. Significant uncertainty also continues with respect to program-level appropriations for the U.S. Department of Defense (U.S. DoD) and other government agencies within the overall budgetary framework described above. Future budget cuts, including cuts mandated by sequestration, or future procurement decisions associated with the authorization and appropriations process could result in reductions, cancellations and/or delays of existing contracts or programs. Congress and the Administration continue to debate these long and short-term funding

issues, but reductions in U.S. DoD spending could materially and adversely affect the results of our Sypris Electronics, and we expect that certain military and defense programs will experience delays while the receipt of government approvals remain pending.

As a result, the Company expects ongoing uncertainty within this segment for at least the next twelve months. For the longer term, we are continuing to evaluate new investments in products and programs to further improve the attractiveness of our business portfolio, with a specific emphasis on trusted solutions for identity management, cryptographic key distribution and cyber analytics. There can be no assurance that the Company's investment in and efforts to introduce new products and services will result in new business or revenue. In addition, while the Company continues to evaluate and implement cost reduction measures in this segment, the Company's currently contemplated cost reduction measures may not be able to reduce its cost structure to offset the impact of lower revenues. Should revenues fail to increase in future periods, the Company is considering further cost reductions or other downsizing measures, which could be costly and adversely impact our financial performance.

Results of Operations

The table below compares our segment and consolidated results for the first quarterly period of operations of 2015 to the first quarterly period of operations of 2014. It presents the results for each period, the change in those results from 2014 to 2015 in both dollars and as a percentage, as well as the results for each period as a percentage of net revenue.

The first two columns in the table show the absolute results for each period presented.

The columns entitled “Year Over Year Change” and “Year Over Year Percentage Change” show the change in results, both in dollars and percentages. These two columns show favorable changes as positive and unfavorable changes as negative. For example, when our net revenue increases from one period to the next, that change is shown as a positive number in both columns. Conversely, when expenses increase from one period to the next, that change is shown as a negative number in both columns.

The last two columns in the table show the results for each period as a percentage of net revenue. In these two columns, the cost of sales and gross profit for each segment are given as a percentage of that segment’s net revenue. These amounts are shown in italics.

In addition, as used in the table, “NM” means “not meaningful.”

Three Months Ended April 5, 2015 Compared to Three Months Ended March 30, 2014

	Three Months Ended,		Year Over Year Change	Year Over Year Percentage Change	Results as Percentage of Net Revenue for the Three Months Ended

Net Revenue. Sypris Technologies primarily derives its revenue from manufacturing services and product sales. Net revenue for Sypris Technologies decreased 63.0% or \$47.8 million for the first quarter of 2015 compared to the first quarter of 2014. The loss of the Dana business accounted for \$50.1 million of this decline for the first quarter of 2015. Partially offsetting this was an increase in other volumes of \$3.0 million attributable to favorable demand from our commercial vehicle market customers.

Sypris Electronics derives its revenue from product sales and technical outsourced services. Net revenue Sypris Electronics for the first quarter of 2015 increased 6.4% or \$0.5 million compared to the same period in 2014, reflecting the ramp up of a new electronic manufacturing service program, partially offset by declines in engineering services due to the completion of a program during the period. Despite the increase over the prior year period, Sypris Electronics' outlook continues to be negatively affected by our inability to replace the declining demand for certain legacy products and services with competitive new offerings and budgetary and funding uncertainty within the U.S. DoD.

Gross Profit. Sypris Technologies' gross profit decreased \$15.3 million to a loss of \$4.1 million in the first quarter of 2015 as compared to gross profit of \$11.2 million in the first quarter of 2014. The net decrease in sales volumes resulted in a decrease in gross profit of approximately \$11.5 million. Additionally, productivity challenges experienced primarily due to the significant loss of business from Dana resulted in a decrease in gross profit of \$3.7 million, when compared to the prior year period. See Note 4 "Loss of a Key Customer and Management's Recovery Plans" to the consolidated financial statements in this Quarterly Report on Form 10-Q.

Sypris Electronics' gross profit increased \$1.5 million to \$0.9 million in the first quarter of 2015 as compared to a loss of \$0.6 million for the first quarter of 2014. The improvement in gross profit was primarily as a result of a favorable mix in sales of higher margin products and services.

Selling, General and Administrative. In the first quarter of 2015, selling, general and administrative expense increased \$1.1 million as compared to the same period in 2014 as a result of an increase in legal expenses regarding contract negotiations and litigation partially offset by a decrease in employee compensation related expenses (see Note 4 "Loss of a Key Customer and Management's Recovery Plans" to the consolidated financial statements in this Quarterly Report on Form 10-Q). We expect legal fees for the remainder of 2015 to decrease as compared to 2014 based on the current status of litigation with Dana. Selling, general and administrative expense increased as a percentage of revenue to 24.6% for the first three months of 2015 as compared to 9.5% for the prior year period.

Research and Development. Research and development costs were \$0.3 million in the first quarter of 2015 as compared to \$0.2 million for the same period of 2014 in support of the Sypris Electronics' self-funded product and technology development activities. The Company expects total research and development costs to increase for the year ending December 31, 2015 compared to 2014.

Severance. Severance costs were \$0.3 million for the first quarter of 2015 and were comprised exclusively of headcount reductions related to the cessation of shipments to Dana within Sypris Technologies. See Note 4 "Loss of a Key Customer and Management's Recovery Plans" to the consolidated financial statements in this Quarterly Report on Form 10-Q.

Interest Expense. Interest expense for the first quarter of 2015 increased to \$0.3 million. The weighted average interest rate increased to 4.7% in the first quarter of 2015 as compared to 2.4% in the first quarter of 2014. The increase in interest expense is a result of recent amendments to the Credit Facility in 2015, which increased the Company's interest rate structure. Interest expense is expected to increase going forward (see Note 11 "Debt" to the consolidated financial statements in this Quarterly Report on Form 10-Q). Additionally, our weighted average debt outstanding increased to \$16.5 million for the first quarter of 2015 from \$14.0 million during the first quarter of 2014.

Other (Income), Net. The Company recognized other income, net of \$0.2 million for the first quarter of 2015 compared to \$0.5 million for the first quarter of 2014. Other income, net for the first quarter of 2015 includes foreign currency related gains of \$0.1 million related to the net U.S. dollar denominated monetary asset position of our Mexican subsidiaries for which the Mexican peso is the functional currency. Other expense, net for the first quarter of 2014 includes gains of \$0.6 million within Sypris Technologies from the receipt of federal grant funds for improvements made under a flood relief program.

Income Tax (Benefit) Expense. Income tax (benefit) expense, net for the first quarter of 2015 was negligible as compared to \$1.2 million of expense in the first quarter of 2014. The \$1.2 million income tax expense for the first quarter of 2014 included \$1.1 million of tax on foreign operations at the statutory rate of 30% and \$0.1 million of state tax from U.S. operations. In the U.S., our recent history of operating losses does not allow us to satisfy the "more likely than not" criterion for recognition of deferred tax assets. Therefore, there is generally no federal income tax recognized on the pre-tax income or losses in the U.S., as valuation allowance adjustments offset the associated tax effect. However, the Company has provided for certain state taxes expected to be paid in the U.S.

Liquidity, Capital Resources

There are numerous risks and uncertainties relating to the global economy and the commercial vehicle and aerospace and defense industries that could materially affect our financial condition, future results of operations and liquidity. These risks and uncertainties could result in decreased sales, limited access to credit, rising costs, increased competition, customer or supplier bankruptcies, delays in customer payment terms and acceleration of supplier payments, growing inventories and failure to meet debt covenants. The loss of Dana as a customer will require us in 2015 to cut costs significantly, invest in equipment or make other capital expenditures to support new business and incur other costs. As a result, the Company is forecasting reduced levels of available liquidity in 2015 which will require closer monitoring of the timing of capital expenditures and cash flows in order to manage its business operations.

In response to the dispute with Dana and the loss of the Dana business as of January 1, 2015, we have taken significant actions during the fourth quarter of 2014 and the first quarter of 2015 to pursue new business opportunities with existing and potential customers, identify alternative uses for the related assets and other contingency plans. Based on our current forecast for 2015, we expect to be able to meet the financial covenants of our amended Credit Facility and have sufficient liquidity to finance our operations through 2015. Although we believe the assumptions underlying our current forecast are reasonable, we have considered the possibility of even lower revenues and other risks. If we are unable to achieve our forecasted revenue or if our costs are higher than expected, we may be required to sell assets to repay indebtedness. Any such sale of assets may hinder or delay our plans to increase our revenues.

Our ability to service our indebtedness will require a significant amount of cash. Our ability to generate this cash will depend largely on future operations including the success of our revenue recovery plans. As disclosed elsewhere in this report, our 2015 results are expected to be significantly impacted by the loss of Dana. However, based upon our current level of operations and our 2015 business plan, we expect to be able to meet the financial covenants of our amended Credit Facility and we believe that we will have sufficient liquidity to finance our operations throughout 2015. However, changing business, competitive, regulatory and economic conditions and other factors could cause our actual results to vary from our forecasts.

If we have insufficient cash flow to fund our liquidity needs and are unable to refinance our indebtedness or raise additional capital, we would risk being in default under our existing amended Credit Facility, unless our lender agreed to modify or waive such requirements. In such circumstances, we believe that the Company would have the ability to sell certain of its assets, particularly its underutilized manufacturing facilities, if necessary to repay its outstanding indebtedness. However, if we sold such facilities we may be unable to pursue certain opportunities for new revenues that are part of our recovery plan and we may be required to defer our planned capital expenditures.

Actual borrowing availability under the Credit Facility is determined by a daily borrowing base collateral calculation that is based on specified percentages of the value of eligible accounts receivable, inventory and machinery and

equipment, less certain reserves and subject to certain other adjustments. Based on that calculation, at April 5, 2015, we had actual total borrowing availability under the Credit Facility of \$20.9 million, of which we had drawn \$15.9 million, leaving \$4.2 million available for borrowing, after accounting for the letter of credit. Standby letters of credit up to a maximum of \$5.0 million can be issued under the Credit Facility of which \$0.8 million were issued at April 5, 2015 and December 31, 2014. Obligations under the Credit Facility are guaranteed by all of our U.S. subsidiaries and are secured by a first priority lien on substantially all domestic assets of the Company.

We also had purchase commitments totaling approximately \$5.5 million at April 5, 2015, primarily for manufacturing equipment and inventory.

As of December 31, 2014, the Company was in compliance with all covenants under the Credit Facility. However, during the first quarter of 2015, the Company faced potential defaults under certain covenants of the Credit Facility caused primarily by the loss of Dana as a customer (see Note 4 “Loss of a Key Customer and Management’s Recovery Plans” to the consolidated financial statements in this Form 10-Q). The Credit Facility was amended (the “Amendment”) during the first quarter of 2015 to, among other things, (i) waive certain existing or potential events of default, (ii) limit total borrowings to \$25.0 million, (iii) restrict the payment of dividends, (iv) increase the applicable margin on borrowings which will result in an initial interest rate of approximately 6% and increasing by 50 basis points beginning June 2015 and each month thereafter to an estimated interest rate of 10% in January 2016, (v) revise the maturity date to January 15, 2016, (vi) revise certain financial covenants to include a minimum cumulative free cash flow covenant, (vii) establish minimum excess availability of \$1.0 million initially, through May 31, 2015, and then in the amount of \$5.0 million on or before September 30, 2015, and (viii) require the Company to raise new capital by securing subordinated debt or divesting certain real property or a combination thereof on or before September 30, 2015 (and, if earlier than September 30, 2015, to maintain minimum excess availability of \$5 million thereafter).

In connection with the Amendment, the Company has received the proceeds of new subordinated indebtedness from Gill Family Capital Management, Inc. ("Gill Family Capital Management") in an amount of \$4.0 million. Gill Family Capital Management is an entity controlled by our president and chief executive officer, Jeffrey T. Gill and one of our directors, R. Scott Gill. Gill Family Capital Management, Inc., Jeffrey T. Gill and R. Scott Gill are significant beneficial stockholders of the Company. The promissory note bears interest at a rate of 8.00% per year and matures on April 12, 2016. All principal and interest on the promissory note will be due and payable on the maturity date.

The Credit Facility contains a number of covenants that, among other things, limit or restrict our ability to dispose of assets, incur additional indebtedness, incur guarantee obligations, engage in sale and leaseback transactions, prepay other indebtedness, modify organizational documents and certain other agreements, create restrictions affecting subsidiaries, make dividends and other restricted payments without bank approval, create liens, make investments, make acquisitions, engage in mergers, change the nature of our business and engage in certain transactions with affiliates.

Financial Condition

Operating Activities. Net cash used in operating activities was \$5.3 million in the first quarter of 2015, as compared to net cash provided of \$2.5 million in the same period of 2014. The aggregate decrease in accounts receivable including the collection of Dana accounts receivable in 2015 provided cash of \$17.3 million. Similarly, decreases in accounts payable, including amounts paid to Dana under a rebill arrangement for inventory, resulted in a usage of cash of \$7.0 million. Cash of \$1.0 million was used to finance an increase in inventory during the first quarter of 2015 primarily due to a timing delay on shipments within our engineered products product line. Additionally, accrued liabilities decreased and used \$0.9 million primarily as a result of tax payments by our Mexican subsidiaries made during the first quarter of 2015.

Investing Activities. Net cash used in investing activities was \$0.3 million for the first quarter of 2015 as compared to \$0.6 million for the first quarter of 2014. Capital expenditures in both periods represented maintenance levels of investment.

Financing Activities. Net cash provided by financing activities was \$2.0 million in the first quarter of 2015 as compared to net cash used of \$1.6 million during the first quarter of 2014. Net cash used in financing activities in the first quarter of 2015 included proceeds from the subordinated note from Gill Family Capital Management of \$4.0 million partially offset by a debt reduction of \$1.1 million on the Credit Facility, dividend payments of \$0.4 million and payments of \$0.1 million for minimum statutory tax withholdings on stock-based compensation. Additionally, we paid \$0.4 million in financing fees in conjunction with the amendment of our Credit Facility in the first quarter of 2015. Net cash used in financing activities in the first quarter of 2014 included a debt reduction of \$1.0 million on the Credit Facility, dividend payments of \$0.4 million and payments of \$0.1 million for the repurchase of stock and minimum statutory tax withholdings on stock-based compensation.

Critical Accounting Policies

See the information concerning our critical accounting policies included under Item 7, “Management’s Discussion and Analysis of Financial Condition and Results of Operation - Critical Accounting Policies and Estimates” in our Annual Report on Form 10-K for the fiscal year ended December 31, 2014. There have been no significant changes in our critical accounting policies during the three months ended April 5, 2015.

Forward-looking Statements

This Quarterly Report on Form 10-Q, and our other oral or written communications, may contain “forward-looking” statements. These statements may include our expectations or projections about the future of our industries, business strategies, potential acquisitions or financial results and our views about developments beyond our control, including domestic or global economic conditions, trends and market developments. These statements are based on management’s views and assumptions at the time originally made, and, except as required by law, we undertake no obligation to update these statements, even if, for example, they remain available on our website after those views and assumptions have changed. There can be no assurance that our expectations, projections or views will come to pass, and undue reliance should not be placed on these forward-looking statements.

A number of significant factors could materially affect our specific business operations and cause our performance to differ materially from any future results projected or implied by our prior statements. Many of these factors are identified in connection with the more specific descriptions contained throughout this report. Other factors which could also materially affect such future results currently include: our failure to develop and implement plans to mitigate the impact of loss of revenues from Dana or to adequately diversify our revenue sources on a timely basis; the costs and supply of, or access to, debt, equity capital, or other sources of liquidity; fees, costs or other dilutive effects of refinancing, or compliance with covenants; volatility of our customers’ forecasts, scheduling demands and production levels which negatively impact our operational capacity and our effectiveness to integrate new customers; reliance on major customers or suppliers; the cost, quality, timeliness, efficiency and yield of our operations and capital investments, including working capital, production schedules, cycle times, scrap rates, injuries, wages, overtime costs, freight or expediting costs; our ability to successfully develop, launch or sustain new products and programs; dependence on, retention or recruitment of key employees especially in challenging markets; inventory valuation risks including excessive or obsolescent valuations; potential impairments, non-recoverability or write-offs of assets or deferred costs; our inability to successfully complete definitive agreements for our targeted acquisitions due to negative due diligence findings or other factors; declining revenues and backlog in our Sypris Electronics business lines as we attempt to transition from legacy products and services into new market segments and technologies; the costs of compliance with our auditing, regulatory or contractual obligations; our inability to patent or otherwise protect our inventions or other intellectual property from potential competitors; our reliance on third party vendors and sub-suppliers; adverse impacts of new technologies or other competitive pressures which increase our costs or erode our margins; cost and availability of raw materials such as steel, component parts, natural gas or utilities; regulatory actions or sanctions (including FCPA, OSHA and Federal Acquisition Regulations, among others); potential weaknesses in internal controls over financial reporting and enterprise risk management; disputes or litigation involving customer, supplier, employee, lessor, landlord, creditor, stockholder, product liability or environmental claims; U.S. government spending on products and services that Sypris Electronics provides, including the timing of budgetary decisions; changes in licenses, security clearances, or other legal rights to operate, manage our work force or import and export as needed; breakdowns, relocations or major repairs of machinery and equipment; pension valuation, health care or other benefit costs; labor relations; strikes; union negotiations; cyber security threats and disruptions; changes or delays in customer budgets, funding or programs; failure to adequately insure or to identify environmental or other insurable risks; revised contract prices or estimates of major contract costs; risks of foreign operations; currency exchange rates; war, terrorism, or political uncertainty; unanticipated or uninsured disasters, losses or business risks; inaccurate data about markets, customers or business conditions; or unknown risks and uncertainties and the risk factors disclosed in Item 1A of our Annual Report on Form 10-K for the fiscal year ended December 31, 2014.

Item 3. Quantitative and Qualitative Disclosures about Market Risk

We are a smaller reporting company as defined in Item 10(f)(1) of Regulation S-K and thus are not required to provide the quantitative and qualitative disclosures about market risk specified in Item 305 of Regulation S-K.

ITEM 4. CONTROLS AND PROCEDURES

(a) *Evaluation of disclosure controls and procedures.* Based on the evaluation of our disclosure controls and procedures (as defined in Securities Exchange Act of 1934 Rules 13a-15(e) or 15d-15(e)) required by Securities Exchange Act Rules 13a-15(b) or 15d-15(b), our Chief Executive Officer and our Principal Financial Officer have concluded that as of the end of the period covered by this report, our disclosure controls and procedures were effective.

(b) *Changes in internal controls.* There were no changes in our internal control over financial reporting that occurred during our most recent fiscal quarter that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

Part II. Other Information

Item 1. Legal Proceedings

We are involved from time to time in litigation and other legal or environmental proceedings incidental to our business. On November 25, 2013, Sypris Technologies, Inc. initiated an arbitration proceeding against Dana Limited under the Non-Administered Arbitration Rules of the International Institute for Conflict Prevention & Resolution alleging that Dana Limited had entered and then repudiated a five year extension of the parties' long term supply agreement, to run through 2019. Sypris seeks contractual damages associated with Dana's repudiation of the extended agreement and the resulting loss of these revenues. On January 17, 2014, Dana initiated a declaratory judgment action in the Court of Common Pleas for Lucas County, Ohio challenging the arbitrability of the existence and enforceability of the extended supply agreement and seeking a ruling that the extended agreement was unenforceable. On February 28, 2015, the Lucas County Court granted Dana's motion, and Sypris has initiated an appellate review of that ruling in the Sixth District Court of Appeals for Ohio.

On December 30, 2013, Sypris filed a Notice of Supplemental Claims in an arbitration proceeding, seeking up to approximately \$9.0 million in damages for Dana's alleged breach of the parties' original 2007 supply agreement; Dana filed a counterclaim for certain unpaid price rebates in the amount of approximately \$3.0 million. The parties had an arbitration hearing in January 2015, and the ruling was received on April 29, 2015, awarding Sypris \$0.5 million.

ITEM 1A. RISK FACTORS

Information regarding risk factors appears in Part I — Item 2, "Management's Discussion and Analysis of Financial Condition and Results of Operations — Forward-Looking Statements," in this Quarterly Report on Form 10-Q, and in Part I — Item 1A, "Risk Factors," in our Annual Report on Form 10-K for the fiscal year ended December 31, 2014. There have been no material changes during the fiscal quarter from the risk factors disclosed in our Annual Report on Form 10-K.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

The following table summarizes our shares of common stock repurchased during the first quarter ended April 5, 2015 (dollars in thousands except per share data):

Period			Total Number of Shares Purchased as a Part of Publicly Announced Plans or Programs	Average Price Paid per Share	Total Number of Shares Purchased as a Part of Publicly Announced Plans or Programs	Maximum Dollar Value of Shares that May Yet Be Purchased Under the Plans or Programs (b)
			Purchased (a)			
1/1/2015	—	2/1/2015	24,814	\$ 2.66	—	\$ 3,877
2/2/2015	—	3/1/2015	4,185	\$ 2.60	—	\$ 3,877
3/2/2015	—	4/5/2015	—	\$ —	—	\$ 3,877

The total number of shares purchased includes shares purchased under the Executive Equity Repurchase (a) Agreement (described below) and shares of stock withheld for the payment of withholding taxes upon the vesting of restricted stock. Shares withheld to satisfy tax withholding obligations were immediately cancelled.

On December 20, 2011, our Board of Directors approved and we announced an authorization for the repurchase of up to \$5.0 million of our outstanding shares of common stock over the next twelve months. The Board also authorized an Executive Equity Repurchase Agreement whereby management, including officers and directors, (b) would grant the Company a first right to purchase shares at current market prices (calculated as the average of several days' closing prices) at any time such a party to the agreement departed the Company or intended to sell more than 1,500 shares of common stock. The agreement has a five-year term, subject to earlier termination by the Company, and participation by each individual is voluntary.

The amended Credit Facility contains restrictions on our ability to repurchase shares of our Common Stock. The Company does not expect to repurchase shares of its common stock in 2015 except in connection with shares withheld or repurchased to satisfy withholding obligations in connection with outstanding equity awards.

Item 3. Defaults Upon Senior Securities

None.

Item 4. Mine Safety Disclosures

Not applicable.

Item 5. Other Information

None.

ITEM 6. EXHIBITS

<u>Exhibit Number</u>	<u>Description</u>
10.1.1	Joinder and Amendment No. 1 to Loan Documents between PNC Bank, National Association, Sypris Solutions, Inc., Sypris Technologies, Inc., Sypris Electronics, LLC, Sypris Data Systems, Inc., Sypris Technologies Marion, LLC, Sypris Technologies Kenton, Inc., Sypris Technologies Mexican Holdings, LLC, Sypris Technologies Northern, Inc., Sypris Technologies Southern, Inc. and Sypris Technologies International, Inc. dated as of February 10, 2015 (incorporated by reference to Exhibit 10.1.1 to the Company's Form 10-K filed on March 31, 2015 (Commission File No. 000-24020)).
10.1.2	Amendment No. 2 to Loan Documents between PNC Bank, National Association, Sypris Solutions, Inc., Sypris Technologies, Inc., Sypris Electronics, LLC, Sypris Data Systems, Inc., Sypris Technologies Marion, LLC, Sypris Technologies Kenton, Inc., Sypris Technologies Mexican Holdings, LLC, Sypris Technologies Northern, Inc., Sypris Technologies Southern, Inc. and Sypris Technologies International, Inc. dated as of March 12, 2015 (incorporated by reference to Exhibit 10.1.2 to the Company's Form 10-K filed on March 31, 2015 (Commission File No. 000-24020)).
10.2	Promissory Note between Gill Family Capital Management, Inc., Sypris Solutions, Inc., Sypris Technologies, Inc., Sypris Electronics, LLC, Sypris Data Systems, Inc., Sypris Technologies Marion, LLC, Sypris Technologies Kenton, Inc., Sypris Technologies Mexican Holdings, LLC, Sypris Technologies Northern, Inc., Sypris Technologies Southern, Inc. and Sypris Technologies International, Inc. dated as of March 12, 2015 (incorporated by reference to Exhibit 10.2 to the Company's Form 10-K filed on March 31, 2015 (Commission File No. 000-24020)).
31(i).1	CEO certification pursuant to Section 302 of Sarbanes - Oxley Act of 2002.
