Form 10-Q
July 25, 2017

UNITED STATES

SECURITIES AND EXCHANGE COMMISSION

Washington, D.C. 20549

Form 10-Q

(Mark One)

Quarterly Report Pursuant to Section 13 or 15(d) of the Securities Exchange Act of 1934
For the quarterly period ended June 30, 2017

or

Transition Report Pursuant to Section 13 or 15(d) of the Securities Exchange Act of 1934
For the transition period from to

Commission File Number 1-32729

POTLATCH CORPORATION

(Exact name of registrant as specified in its charter)

Delaware 82-0156045
(State or other jurisdiction of (IRS Employer
incorporation or organization) Identification No.)

601 West First Avenue, Suite 1600
Spokane, Washington 99201
(Address of principal executive offices) (Zip Code)

(509) 835-1500

(Registrant's telephone number, including area code)

Edgar Filing: POTLATCH CORP - Form 10-Q

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, smaller reporting company, or an emerging growth company. See the definitions of “large accelerated filer,” “accelerated filer,” “smaller reporting company,” and “emerging growth company” in Rule 12b-2 of the Exchange Act.

Large accelerated filer

Accelerated filer

Non-accelerated filer (Do not check if a smaller reporting company) Smaller reporting company

Indicate by check mark whether the registrant is an emerging growth company as defined in Rule 405 of the Securities Act of 1933 (§230.405 of this chapter) or Rule 12b-2 of the Securities Exchange Act of 1934 (§240.12b-2 of this chapter).

Emerging growth company

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act).

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange act).

Yes No

The number of shares of common stock of the registrant outstanding as of July 20, 2017 was 40,610,865.

The accompanying notes are an integral part of these condensed consolidated financial statements.

Notes to Condensed Consolidated Financial Statements

NOTE 1. BASIS OF PRESENTATION

For purposes of this report, any reference to “Potlatch,” “the company,” “we,” “us,” and “our” means Potlatch Corporation and all of its wholly-owned subsidiaries, except where the context indicates otherwise.

The accompanying unaudited condensed consolidated financial statements have been prepared pursuant to the rules and regulations of the Securities and Exchange Commission pertaining to interim financial statements; certain disclosures normally provided in accordance with generally accepted accounting principles in the United States have been omitted. This Quarterly Report on Form 10-Q should be read in conjunction with our Annual Report on Form 10-K for the year ended December 31, 2016, as filed with the Securities and Exchange Commission on February 17, 2017. We believe that all adjustments necessary for a fair statement of the results of such interim periods have been included and all such adjustments are of a normal recurring nature.

Certain 2016 amounts on the Condensed Consolidated Statements of Cash Flows within Cash Flows from Operating Activities have been reclassified to conform to the 2017 presentation. There is no change to previously reported net cash from operating activities.

NOTE 2. RECENT ACCOUNTING PRONOUNCEMENTS

In March 2016, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) No. 2016-09, Improvements to Employee Share-Based Payment Accounting, which changes several aspects of the accounting for share-based payment award transactions, including accounting for income taxes, diluted shares outstanding, classification of excess tax benefits on the statement of cash flows, forfeitures and minimum statutory tax withholding requirements. We prospectively adopted the provisions of this ASU on January 1, 2017, which include recording the tax effects related to share-based payments through the income statement. As a Real Estate Investment Trust (REIT), we are generally not subject to federal and state corporate income taxes, except through our taxable REIT subsidiaries. Therefore, the adoption of this guidance was not material to our consolidated financial statements. We will continue to estimate forfeitures each period. We consider many factors when estimating expected forfeitures, including types of awards, employee class and historical experience.

In May 2014, the FASB issued ASU No. 2014-09, Revenue from Contracts with Customers: Topic 606 (ASU No. 2014-09), which requires an entity to recognize revenue when promised goods or services are transferred to customers in an amount that reflects the consideration that is expected to be received for those goods or services. ASU 2014-09 also included other guidance, including the presentation of a gain or loss recognized on the sale of a long-lived asset or a nonfinancial asset. Subsequent ASU's have been issued that provide clarity, technical corrections and improvements to Topic 606. In August 2015, the FASB issued ASU No. 2015-14, Revenue from Contracts with Customers (Topic 606) - Deferral of the Effective Date, which deferred the effective date of ASU No. 2014-09 by one year. ASU No. 2014-09 is effective for us on January 1, 2018. For most of our sales, which consist of logs, manufactured wood products, residual by-products and real estate, we expect there will be no change to the timing or amount of revenue recognized because our contracts are legally enforceable, the transaction price is fixed and performance is completed at a point in time, typically when risk of loss and title pass. We are continuing to assess and document the effect on our other sales, which include stumpage contracts, timber deeds, land use permits, royalties and carbon sequestration credits. A material change in our controls over financial reporting is not anticipated. We expect our expanded disclosures will disaggregate revenues along the lines of the sales categories mentioned above. The guidance permits a retrospective application of the new standard with certain practical expedients or retrospective

application with a cumulative effect adjustment to the beginning balance of retained earnings. While we have not yet determined our transition method, the adoption of this guidance is not expected to have a significant effect on our consolidated financial statements.

In March 2017, the FASB issued ASU No. 2017-07, Compensation – Retirement Benefits (Topic 715), Improving the Presentation of Net Periodic Pension Cost and Net Periodic Postretirement Benefit Cost, which requires an entity to present service cost within compensation expense and the other components of net benefit cost outside of income from operations. This ASU is effective for us on January 1, 2018. The amendments in this update require retrospective presentation in the income statement. Changes to the capitalized portion of both service cost and the other components of net benefit cost within inventory will be applied prospectively. In 2016, net periodic pension and other postretirement employee benefit cost reported within operating income totaled \$15.7 million of which \$6.5 million represented service cost.

NOTE 3. EARNINGS PER SHARE

The following table reconciles the number of shares used in calculating basic and diluted earnings per share:

	Three Months Ended		Six Months Ended June 30,	
(Dollars in thousands, except per share amounts)	June 30, 2017	2016	2017	2016
Net income (loss)	\$24,244	\$(31,238)	\$41,165	\$(31,081)
Basic weighted-average shares outstanding	40,822,726	40,784,129	40,802,057	40,836,503
Incremental shares due to:				
Performance shares	355,844	—	305,625	—
Restricted stock units	40,399	—	36,013	—
Diluted weighted-average shares outstanding	41,218,969	40,784,129	41,143,695	40,836,503
Basic net income (loss) per share	\$0.59	\$(0.77)	\$1.01	\$(0.76)
Diluted net income (loss) per share	\$0.59	\$(0.77)	\$1.00	\$(0.76)

For the three and six months ended June 30, 2017, there were 0 and 18,289 stock-based awards that were excluded from the calculation of diluted earnings per share because they were anti-dilutive. For the three and six months ended June 30, 2016, no dilutive potential shares were included in the computation of diluted net income (loss) per share due to the net loss. Anti-dilutive stock-based awards could be dilutive in future periods.

NOTE 4. CERTAIN BALANCE SHEET COMPONENTS

INVENTORIES

(Dollars in thousands)	June 30, 2017	December 31, 2016
Logs	\$9,108	\$ 23,342
Lumber, plywood and veneer	21,996	20,500
Materials and supplies	9,020	8,780

(Dollars in thousands)	June 30, 2017	December 31, 2016
Property, plant and equipment	\$255,907	\$ 250,913
Less: accumulated depreciation	(181,236)	(178,093)
Total property, plant and equipment, net	\$74,671	\$ 72,820

TIMBER AND TIMBERLANDS

	June 30,	December 31,
(Dollars in thousands)	2017	2016
Timber and timberlands	\$570,341	\$ 572,273
Logging roads	68,837	69,583
Total timber and timberlands, net	\$639,178	\$ 641,856

LOSS ON SALE OF CENTRAL IDAHO TIMBER AND TIMBERLANDS

On April 21, 2016, we sold approximately 172,000 acres of timberlands located in central Idaho for \$114 million. The company purchased the property in 2007 and 2008 for the purpose of growing and harvesting timber and selling rural recreation parcels. The sale freed up capital without having to wait for the rural recreation real estate market in central Idaho to recover. We recorded a loss of \$48.5 million before taxes in our Real Estate segment in the second quarter of 2016. Historical earnings generated by the property were positive, but not material.

NOTE 5. DERIVATIVE INSTRUMENTS

From time to time, we enter into derivative financial instruments to manage certain cash flow and fair value risks.

Derivatives designated and qualifying as a hedge of the exposure to changes in the fair value of an asset or liability to a particular risk, such as interest rate risk, are considered fair value hedges. We have five fair value interest rate swaps to convert interest payments on fixed-rate debt to variable-rate 3-month LIBOR plus a spread.

Derivatives designated and qualifying as a hedge of the exposure to variability in the cash flows of a specific asset or liability that is attributable to a particular risk, such as interest rate risk, are considered cash flow hedges. We have one interest rate swap to convert variable-rate debt, comprised of 3-month LIBOR plus a spread, to fixed-rate debt. Our cash flow hedge is expected to be highly effective in achieving offsetting cash flows attributable to the hedged interest rate risk through the term of the hedge. Therefore, changes in the fair value of the interest rate swap are recorded as a component of other comprehensive income and will be recognized in earnings when the hedged interest rate affects earnings. The amounts paid or received on this interest rate hedge will be recognized as adjustments to interest expense. As of June 30, 2017, the amount of net losses expected to be reclassified into earnings in the next 12 months is \$0.1 million.

Derivatives not designated as hedges are not speculative and are used to manage our exposure to interest rate movements, commodity price movements or other identified risks, but do not meet the strict hedge accounting requirements. Changes in the fair value of derivatives not designated in hedging relationships are recorded directly into income. In April 2017, we entered into a lumber price swap to fix the price on a total of 36 million board feet (mmbf) of southern yellow pine with an effective date of July 1, 2017 and a termination date of December 31, 2017. Under the contract, cash settlement on 6 mmbf occurs monthly.

The following table presents the gross fair values of derivative instruments on our Condensed Consolidated Balance Sheets:

(Dollars in thousands)	Location	Asset Derivatives		Location	Liability Derivatives	
		June 30, 2017	December 31, 2016		June 30, 2017	December 31, 2016
Derivatives designated in fair value hedging relationships:						
Interest rate contracts	Other assets, current	\$99	\$ 32		\$—	\$ —
	Other assets,			Other long-term obligations		
Interest rate contracts	non-current	—	215		115	91
		\$99	\$ 247		\$ 115	\$ 91
Derivatives designated in cash flow hedging relationships:						
	Other assets,					
Interest rate contracts	non-current	\$924	\$ 1,148		\$—	\$ —
Derivatives not designated as hedging instruments:						
Lumber price swap	Other assets, current	\$3,265	\$ —		\$—	\$ —

The following table details the effect of derivatives on our Consolidated Statements of Income (Loss):

(Dollars in thousands)		Three Months Ended June 30,		Six Months Ended June 30,	
	Location	2017	2016	2017	2016
Derivatives designated in fair value hedging relationships:					
Interest rate contracts					
Realized gain on interest rate contracts ¹	Interest expense	\$ 123	\$ 214	\$ 290	\$ 456
Derivatives designated in cash flow hedging relationships:					
Interest rate contracts					
Loss recognized in other comprehensive income, net of tax (effective portion)		\$(226)	\$(490)	\$(228)	\$(654)
Loss reclassified from accumulated other comprehensive income (effective portion) ¹	Interest expense	\$(41)	\$(77)	\$(91)	\$(77)
Derivatives not designated as hedging instruments:					
Lumber price contracts					
Realized gain on lumber price swap		\$—	\$—	\$—	\$—
Unrealized gain on lumber price swap	Gain on lumber price swap	3,265	—	3,265	—
Net gain on lumber price contracts		\$3,265	\$—	\$3,265	\$—

¹ Realized gain on hedging instruments consists of net cash settlements and interest accruals on the fair value interest rate swaps during the periods. Net cash settlements are included in the supplemental cash flow information within interest, net of amounts capitalized in the Condensed Consolidated Statements of Cash Flows.

NOTE 6. FINANCIAL INSTRUMENTS

The following table presents the estimated fair values of our financial instruments:

(Dollars in thousands)	June 30, 2017		December 31, 2016	
	Carrying	Fair	Carrying	Fair
	Amount	Value	Amount	Value
Cash and cash equivalents (Level 1)	\$ 110,324	\$ 110,324	\$ 82,584	\$ 82,584
Derivative assets related to interest rate swaps (Level 2)	\$ 1,023	\$ 1,023	\$ 1,395	\$ 1,395
Derivative liabilities related to interest rate swaps (Level 2)	\$(115)	\$(115)	\$(91)	\$(91)
Derivative asset related to lumber price swap (Level 2)	\$ 3,265	\$ 3,265	\$—	\$—
Long-term debt, including current portion (Level 2):				
Term loans	\$(349,500)	\$(353,882)	\$(349,500)	\$(350,909)
Senior notes	(149,399)	(162,750)	(149,271)	(164,250)

Edgar Filing: POTLATCH CORP - Form 10-Q

Revenue bonds	(65,735)	(65,209)	(65,735)	(62,205)
Medium-term notes	(17,250)	(18,563)	(22,250)	(23,926)
Total long-term debt ¹	\$(581,884)	\$(600,404)	\$(586,756)	\$(601,290)
Company owned life insurance asset (COLI) (Level 3)	\$1,114	\$1,114	\$70	\$70

¹The carrying amount of long-term debt includes principal and unamortized discounts.

For cash and cash equivalents and revolving line of credit borrowings, the carrying amount approximates fair value due to the short-term nature of these financial instruments.

The fair value of interest rate and lumber price swaps are determined using discounted cash flow analysis on the expected cash flows of each derivative. The analysis reflects the contractual terms of the derivatives, including the period to maturity, and uses observable market-based inputs, including interest rate and commodity price forward curves.

The fair value of our long-term debt is estimated based upon quoted market prices for similar debt issues or estimated based on average market prices for comparable debt when there is no quoted market price.

The contract value of our COLI, the amount at which it could be redeemed, is used to estimate fair value because market prices are not readily available.

NOTE 7. PENSION AND OTHER POSTRETIREMENT EMPLOYEE BENEFITS

The following tables detail the components of net periodic cost (benefit) of our pension plans and other postretirement employee benefits (OPEB):

(Dollars in thousands)	Three Months Ended June 30,			
	Pension		OPEB	
	2017	2016	2017	2016
Service cost	\$1,515	\$1,747	\$4	\$2
Interest cost	3,967	4,258	310	355
Expected return on plan assets	(4,601)	(4,734)	—	—
Amortization of prior service cost (credit)	72	129	(2,220)	(2,218)
Amortization of actuarial loss	3,386	4,253	371	430
Net periodic cost (benefit)	\$4,339	\$5,653	\$(1,535)	\$(1,431)

(Dollars in thousands)	Six Months Ended June 30,			
	Pension		OPEB	
	2017	2016	2017	2016
Service cost	\$3,377	\$3,254	\$7	\$7
Interest cost	8,048	8,510	631	710
Expected return on plan assets	(9,204)	(9,500)	—	—
Amortization of prior service cost (credit)	144	259	(4,439)	(4,438)
Amortization of actuarial loss	7,242	8,170	769	858
Net periodic cost (benefit)	\$9,607	\$10,693	\$(3,032)	\$(2,863)

During the six months ended June 30, 2017 and 2016, we paid non-qualified supplemental pension benefits of \$0.8 million and \$0.7 million and OPEB benefits of \$1.6 million and \$1.9 million, respectively.

The following tables detail the pension and OPEB changes in accumulated other comprehensive loss (AOCL) on our Condensed Consolidated Balance Sheets, net of tax:

(Dollars in thousands)	Three Months Ended June 30,		
	2017		
	Pension	OPEB	Total
Balance at March 31	\$118,231	\$(8,071)	\$110,160

Balance at June 30	\$ 123,103	\$ (11,558)	\$ 111,545

¹ Amortization of prior service credit (cost) and amortization of actuarial loss are included in the computation of net periodic cost (benefit).

NOTE 8. COMPONENTS OF ACCUMULATED OTHER COMPREHENSIVE LOSS

The following table details the changes in our accumulated other comprehensive loss (AOCL) on our Condensed Consolidated Balance Sheets for the six months ended June 30, 2017, net of tax.

(Dollars in thousands)	Gains and losses on cash flow hedge	Pension and other postretirement employee benefits	Total
Balance at January 1	\$ (701)	\$ 111,445	\$ 110,744
Other comprehensive (income) loss before reclassifications	228	(2,267)	(2,039)
Amounts reclassified from accumulated other comprehensive loss	(91)	-	(91)
Net current period other comprehensive (income) loss	137	(2,267)	(2,130)
Balance at June 30	\$ (564)	\$ 109,178	\$ 108,614

Amounts in parenthesis indicate credits.

See Note 5: Derivative Instruments and Note 7: Pension and Other Postretirement Employee Benefits for additional information.

NOTE 9. EQUITY-BASED COMPENSATION

As of June 30, 2017, we had two stock incentive plans under which performance shares, restricted stock units (RSUs) and deferred compensation stock equivalent units were outstanding. These plans have received shareholder approval. We were originally authorized to issue up to 1.6 million shares and 1.0 million shares under our 2005 Stock Incentive Plan and 2014 Stock Incentive Plan, respectively. At June 30, 2017, approximately 1.0 million shares were authorized for future use. We issue new shares of common stock to settle performance shares, restricted stock units and deferred compensation stock equivalent units.

The following table details equity-based compensation expense and the related income tax benefit:

(Dollars in thousands)	Three Months Ended June 30,		Six Months Ended June 30,	
	2017	2016	2017	2016
Employee equity-based compensation expense:				
Performance shares	\$905	\$951	\$1,773	\$1,705
Restricted stock units	286	271	575	471
Total employee equity-based compensation expense	\$1,191	\$1,222	\$2,348	\$2,176
Deferred compensation stock equivalent units expense	\$161	\$220	\$322	\$420
Total tax benefit recognized for share-based expense	\$96	\$89	\$189	\$155

PERFORMANCE SHARES

The following table presents the key inputs used in the Monte Carlo simulation to calculate the fair value of the performance share awards in 2017 and 2016:

	Six Months Ended June 30,	
	2017	2016
Stock price as of valuation date	\$43.60	\$25.92
Risk-free rate	1.61 %	0.88 %
Expected volatility	24.22 %	23.82 %
Expected dividends	3.44 %	5.79 %
Expected term (years)	3.00	3.00
Fair value	\$53.85	\$30.02

The following table summarizes outstanding performance share awards as of June 30, 2017, and changes during the six months ended June 30, 2017:

(Dollars in thousands, except grant date fair value)	Shares	Weighted-Avg. Grant Date	
		Fair Value	Aggregate Intrinsic Value
Unvested shares outstanding at January 1	203,788	\$ 32.59	
Granted	78,033	\$ 53.85	
Forfeited	(2,187)	\$ 39.15	
Unvested shares outstanding at June 30	279,634	\$ 38.47	\$ 12,779

As of June 30, 2017, there was \$5.8 million of unrecognized compensation cost related to unvested performance share awards, which is expected to be recognized over a weighted-average period of 1.5 years.

RESTRICTED STOCK UNITS

The following table summarizes outstanding RSU awards as of June 30, 2017, and changes during the six months ended June 30, 2017:

		Weighted-Avg.	Aggregate
		Grant Date	Intrinsic
(Dollars in thousands, except grant date fair value)	Shares	Fair Value	Value
Unvested shares outstanding at January 1	71,420	\$ 31.61	
Granted	26,507	\$ 43.64	
Vested	(2,000)	\$ 32.85	
Forfeited	(728)	\$ 32.70	
Unvested shares outstanding at June 30	95,199	\$ 34.93	\$ 4,351

The fair value of each RSU equaled our common share price on the date of grant. The total fair value of RSU awards that vested during the six months ended June 30, 2017 was de minimis. As of June 30, 2017, there was \$1.6 million of total unrecognized compensation cost related to unvested RSU awards, which is expected to be recognized over a weighted-average period of 1.4 years.

DEFERRED COMPENSATION STOCK EQUIVALENT UNITS

A long-term incentive award is granted annually to our directors and payable upon a director's separation from service. Directors may also elect to defer their quarterly retainers, which may be payable in the form of stock. All stock unit equivalent accounts are credited with dividend equivalents. As of June 30, 2017, there were 136,226 shares outstanding that will be distributed in the future to directors as common stock.

Issuance of restricted stock units awarded to certain officers and select employees may also be deferred. All stock unit equivalent accounts are credited with dividend equivalents. As of June 30, 2017, there were 72,942 RSUs which had vested, but issuance of the related stock had been deferred.

NOTE 10. INCOME TAXES

As a real estate investment trust (REIT), we generally are not subject to federal and state corporate income taxes on income of the REIT that we distribute to our shareholders. We conduct certain activities through our taxable REIT subsidiaries (TRS), which are subject to corporate level federal and state income taxes. These taxable activities are principally comprised of our wood products manufacturing operations and certain real estate investments. Therefore, income tax expense or benefit is primarily due to income or loss of the TRS, as well as permanent book versus tax differences.

NOTE 11. COMMITMENTS AND CONTINGENCIES

In January 2007, the Environmental Protection Agency (EPA) notified us that we are a potentially responsible party under the Comprehensive Environmental Response, Compensation and Liability Act of 1980 (CERCLA) and the Clean Water Act for cleanup of a site known as Avery Landing in northern Idaho. We own a portion of the land at the Avery Landing site, which we acquired in 1980 from the Milwaukee Railroad. The land we own at the site and adjacent properties were contaminated with petroleum as a result of the Milwaukee Railroad's operations at the site prior to 1980. On July 5, 2011, the EPA issued an Action Memorandum for the Avery Landing Site selecting contaminant extraction and off-site disposal as the remedial alternative. On May 23, 2012, we signed a consent order with the EPA pursuant to which we agreed to provide \$1.75 million in funding for EPA cleanup on a portion of our property (including the adjacent riverbank owned by the Idaho Department of Lands). The EPA cleanup was completed in October 2012. On April 4, 2013, the EPA issued a unilateral administrative order requiring us to remediate the portion of the Avery Landing site that we own. Our remediation was completed in October 2013. In 2016, the EPA confirmed that Potlatch had completed the cleanup and subsequent monitoring required by the unilateral order. On September 25, 2015, the EPA sent us a letter asserting that the EPA and the Department of Transportation (the current owner of a portion of the adjacent property remediated by the EPA) (DOT) had incurred \$9.8 million in unreimbursed response costs associated with the site and that we were liable for such costs. We executed a tolling agreement with the EPA and DOT suspending the statute of limitations on the claim until September 2016 in order to facilitate negotiations of a final settlement and release. In September, the parties agreed to extend the tolling agreement through October 6, 2016. The tolling agreement was further extended through February 22, 2017; in January 2017, the tolling agreement was extended through May 22, 2017; and in May 2017 the tolling agreement was extended through September 22, 2017. Settlement negotiations continue. If settlement efforts prove to be unsuccessful, we believe we have meritorious defenses to this claim and we intend to defend ourselves vigorously. We accrued \$0.2 million for this matter in the first quarter of 2016 and an additional \$0.8 million for this

matter in the second quarter of 2016. It is reasonably possible that our liability may exceed our accrual by up to approximately \$2 million. We have reserved all of our rights to seek reimbursement for the costs of remediation from all parties potentially responsible.

NOTE 12. SEGMENT INFORMATION

The following table summarizes information by business segment:

(Dollars in thousands)	Three Months Ended June 30,		Six Months Ended June 30,	
	2017	2016	2017	2016
Revenues:

Real Estate	\$1,047	\$3,509	\$5,856	\$5,754
Eliminations and adjustments	(65)	(122)	(84)	(333)
Total basis of real estate sold	\$982	\$3,387	\$5,772	\$5,421

¹ Intersegment revenues are based on prevailing market prices of logs sold by our Resource segment to the Wood Products segment.

² In the second quarter of 2016, we sold approximately 172,000 acres of timberlands located in central Idaho for \$114 million at a loss of \$48.5 million before taxes.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Forward-Looking Information

This report contains, in addition to historical information, certain forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995, including without limitation, fair value of swaps, expected return on pension assets, recognition of compensation costs relating to our performance shares and RSUs, 2017 capital spending and similar matters. Words such as “anticipate,” “expect,” “will,” “intend,” “plan,” “target,” “project,” “believe,” “see,” “schedule,” “estimate,” “could,” “can,” “may” and similar expressions are intended to identify such forward-looking statements. These forward-looking statements reflect our current views regarding future events based on estimates and assumptions and are therefore subject to known and unknown risks and uncertainties and are not guarantees of future performance. Our actual results of operations could differ materially from our historical results or those expressed or implied by forward-looking statements contained in this report. For a nonexclusive listing of forward-looking statements and potential factors affecting our business, refer to “Cautionary Statement Regarding Forward-Looking Information” on page 1 and “Risk Factors” in Part I, Item 1A of our Annual Report on Form 10-K for the year ended December 31, 2016.

Forward-looking statements contained in this report present our views only as of the date of this report. Except as required under applicable law, we do not intend to issue updates concerning any future revisions of our views to reflect events or circumstances occurring after the date of this report.

Results of Operations

Our business is organized into three business segments: Resource, Wood Products and Real Estate. Our Resource segment supplies our Wood Products segment with a portion of its wood fiber needs. These intersegment revenues are based on prevailing market prices and typically represent a significant portion of the Resource segment’s total revenues. Our other segments generally do not generate intersegment revenues.

In our discussions of consolidated results of operations, our revenues are reported after elimination of intersegment revenues. In our discussion by business segment, each segment's revenues are presented before the elimination of intersegment revenues.

The operating results of our Resource, Wood Products and Real Estate business segments have been and will continue to be influenced by a variety of factors, including cyclical fluctuations in the forest products industry, changes in timber prices and in harvest levels from our timberlands, weather conditions, competition, timberland valuations, demand for our non-strategic timberland for higher and better use purposes, changes in lumber prices, the efficiency and level of capacity utilization of our wood products manufacturing operations, changes in our principal expenses such as log costs, asset dispositions or acquisitions and other factors.

Overview

Increased lumber demand coupled with duties on Canadian exports to the United States have pushed lumber prices higher, contributing to strong results in our Wood Products and Resource segments. Our Real Estate segment completed a large conservation sale in Alabama in the first quarter of 2017.

In April 2016, we sold approximately 172,000 acres of non-strategic timberlands located in central Idaho for \$114 million in our Real Estate segment.

Consolidated Results

The following table sets forth changes in our Consolidated Statements of Income (Loss). Our Business Segment Results provide a more detailed discussion of our segments.

(Dollars in thousands)	Three Months Ended June 30,			Six Months Ended June 30,		
	2017	2016	% Change	2017	2016	% Change
Revenues	\$163,229	\$141,495	15%	\$312,910	\$269,391	16%
Costs and expenses:						
Cost of goods sold	111,556	113,377	(2%)	224,339	223,192	1%
Selling, general and administrative expenses	14,165	13,824	2%	27,154	26,833	1%
Gain on lumber price swap	(3,265)	—	*	(3,265)	—	*
Loss on sale of central Idaho timber and timberlands	—	48,522	*	—	48,522	*

* Percentage change not meaningful.

Revenues

Three months ended June 30, 2017 compared with three months ended June 30, 2016

Revenues increased \$21.7 million primarily due to higher lumber prices and increased shipments. Harvest volumes declined in the second quarter of 2017, compared with 2016 where we had favorable dry spring hauling conditions in Idaho.

Six months ended June 30, 2017 compared with six months ended June 30, 2016

Revenues increased \$43.5 million primarily due to higher lumber prices and increased shipments and the sale of more real estate acres at higher average prices. Lower harvest volumes were more than offset by higher Northern region sawlog prices. Harvest volumes declined in the first half of 2017, compared with 2016 where we experienced a relatively mild winter and dry spring, as well as due to the sale of central Idaho timberlands in the second quarter of 2016.

Cost of goods sold

Three months ended June 30, 2017 compared with three months ended June 30, 2016

Cost of goods sold decreased 2% due to lower harvest volumes and the geographic mix of real estate sold, partially offset by higher lumber shipments.

Six months ended June 30, 2017 compared with six months ended June 30, 2016

Cost of goods sold increased 1% due to higher lumber shipments and the geographic mix of real estate sold, partially offset by lower harvest volumes and lower depletion due to unfavorable hauling conditions in 2017 and the sale of central Idaho timberlands in the second quarter of 2016.

Selling, general and administrative expenses

Three months ended June 30, 2017 compared with three months ended June 30, 2016

The 2% increase in selling, general and administrative expenses was the result of higher accrued annual incentive compensation expense and higher workers' compensation expense, substantially offset by lower pension expense resulting from updated mortality tables and the 2016 second quarter accrual of \$0.8 million related to Avery Landing.

Six months ended June 30, 2017 compared with six months ended June 30, 2016

The 1% increase in selling, general and administrative expenses was the result of higher accrued annual incentive compensation expense and workers' compensation expenses, substantially offset by the 2016 accrual of \$1.0 million related to Avery Landing and lower pension expense in 2017 resulting from updated mortality tables.

See Note 11: Commitments and Contingencies for a more detailed discussion of Avery Landing.

Lumber price swap

In April 2017, we entered into a lumber price swap to fix the price on a total of 36 million board feet (mmbf) of southern yellow pine with an effective date of July 1, 2017 and a termination date of December 31, 2017. Under the contract, beginning in July, cash settlement on 6 mmbf occurs each month. Changes in the fair value of derivatives not designated in hedging relationships are recorded directly into income. Therefore, the \$3.3 million gain on lumber price swap reflects the fair value of the contract at June 30, 2017.

See Note 5: Derivative Instruments for a more detailed discussion of the lumber price swap.

Loss on sale of central Idaho timber and timberlands

In April 2016, we sold approximately 172,000 acres of non-strategic timberlands located in central Idaho for \$114 million, less selling costs of \$2.5 million. This divestiture resulted in a \$48.5 million loss before income taxes.

Interest expense, net

Three months ended June 30, 2017 compared with three months ended June 30, 2016

Interest expense decreased due to the 2016 repayment of \$42.6 million in Minnesota revenue bonds and the refinancing of \$65.7 million in Idaho revenue bonds.

Six months ended June 30, 2017 compared with six months ended June 30, 2016

Interest expense decreased due to the 2016 repayment of \$42.6 million in Minnesota revenue bonds and the refinancing of \$65.7 million in Idaho revenue bonds.

Income tax provision

Three months ended June 30, 2017 compared with three months ended June 30, 2016

Income taxes are primarily due to income or loss from our taxable REIT subsidiaries (TRS). For the second quarter of 2017, the income tax provision of \$9.2 million was the result of the TRS's income before income tax of \$25.9 million, partially offset by permanent book versus tax differences. For the second quarter of 2016, the income tax benefit of \$11.2 million was the result of the TRS's loss before income tax of \$31.1 million, partially offset by discrete tax items.

Six months ended June 30, 2017 compared with six months ended June 30, 2016

For the first half of 2017, the income tax provision of \$11.2 million was the result of the TRS's income before income tax of \$31.6 million, partially offset by permanent book versus tax differences. For the first half of 2016, the income tax benefit of \$12.3 million was the result of the TRS's loss before income tax of \$33.2 million, partially offset by discrete tax items.

¹Prior to elimination of intersegment fiber revenues of \$15.4 million and \$14.2 million for the three months ended June 30, 2017 and 2016 and \$27.5 million and \$23.8 million for the six months ended June 30, 2017 and 2016, respectively.

- ² Sawlog and pulpwood sales prices are on a delivered basis, which includes contracted logging and hauling costs charged to the customer. Stumpage sales provide our customers the right to harvest standing timber. As such, the customer contracts the logging and hauling and bears such costs.

18

Revenues

Three months ended June 30, 2017 compared with three months ended June 30, 2016

Resource segment revenues increased 2% in the second quarter of 2017, compared with the same period last year, primarily due to higher Northern region sawlog prices, including a greater mix of cedar. Total harvest volumes decreased 10% due to a seasonally wet spring in both regions, compared with 2016 where we had an early spring breakup in the Northern regions that occurred in the first quarter and favorable second quarter hauling conditions.

Southern sawlog and pulpwood prices decreased 7% and 12%, respectively, due primarily to the oversupply of logs and high pulp mill inventories. Prices fluctuate based on the mix of sawlog size and volume and the mix of hardwood and softwood.

Six months ended June 30, 2017 compared with six months ended June 30, 2016

Resource segment revenues increased 4% in the first half of 2017, compared with the same period last year, primarily due to higher Northern region sawlog prices, including a greater mix of cedar. Total harvest volumes decreased 7% due to a seasonally wet spring in both regions, compared with more favorable hauling conditions in 2016. The decrease in 2017 volumes was also the result of the sale of central Idaho timberlands in the second quarter of 2016.

Southern sawlog and pulpwood prices decreased 2% and 6%, respectively, due to the oversupply of logs and high pulp mill inventories. Prices fluctuate based on the mix of sawlog size and volume and the mix of hardwood and softwood.

Cost of Goods Sold

Three months ended June 30, 2017 compared with three months ended June 30, 2016

Decreased harvest volumes resulted in less logging and hauling and lower depletion and amortization, partially offset by increased costs for spring road repair.

Six months ended June 30, 2017 compared with six months ended June 30, 2016

Lower harvest volumes resulted in less logging and hauling and lower depletion and amortization, partially offset by increased costs for spring road repair. Other expenses in 2016 included a higher number of acres fertilized in our Southern region.

Lumber sales prices (\$ per MBF)	\$431	\$351	23%	\$410	\$338	21%

*Percentage change not meaningful

¹ Prior to elimination of intersegment fiber costs of \$15.4 million and \$14.2 million for the three months ended June 30, 2017 and 2016 and \$27.5 million and \$23.8 million for the six months ended June 30, 2017 and 2016, respectively.

Revenues

Three months ended June 30, 2017 compared with three months ended June 30, 2016

Revenues increased 26% due to higher lumber shipments and higher lumber sales prices.

Six months ended June 30, 2017 compared with six months ended June 30, 2016

Revenues increased 21% due to higher lumber shipments and higher lumber sales prices.

Cost of Goods Sold

Three months ended June 30, 2017 compared with three months ended June 30, 2016

Cost of goods sold fluctuated based on the following factors:

- ✦ Fiber costs increased \$5.7 million due to higher production volumes.
- ✦ Freight costs increased as a result of higher lumber shipments and residual sales.
- ✦ Increased manufacturing costs were the result of higher production volumes. Manufacturing costs in the second quarter of 2016 included scheduled maintenance at our Warren, Arkansas mill, which was completed in conjunction with the installation of a capital project, which resulted in 12 days of downtime.
- ✦ Finished goods inventory fluctuates based on a combination of production volume, fiber costs, manufacturing costs and shipments.

Six months ended June 30, 2017 compared with six months ended June 30, 2016

Cost of goods sold fluctuated based on the following factors:

- ✦Fiber costs increased \$9.4 million due to higher production volumes.
- ✦Freight costs increased as a result of higher lumber shipments and residual sales.

20

Increased manufacturing costs were the result of higher production volumes and included maintenance costs associated with a scheduled boiler maintenance shutdown and capital project at our Warren, Arkansas lumber mill in the first quarter of 2017. Manufacturing costs in the first half of 2016 included scheduled maintenance at our Warren mill which resulted in 12 days of downtime in the second quarter, and 11 days of downtime at our St. Maries, Idaho sawmill in the first quarter of 2016 due to log shortages resulting from an unseasonably warm winter.

Finished goods inventory fluctuates based on a combination of production volume, fiber costs, manufacturing costs and shipments.

	2017		2016	
	Average		Average	
	Acres Sold	Price/Acre	Acres Sold	Price/Acre
Higher and better use (HBU)	5,328	\$ 2,530	4,436	\$ 2,226
Rural real estate	6,263	\$ 1,399	3,770	\$ 1,331
Non-strategic timberland	383	\$ 1,046	797	\$ 785
	11,974	\$ 1,891	9,003	\$ 1,724
Central Idaho timberland	—	\$ —	171,598	\$ 665
Total	11,974	\$ 1,891	180,601	\$ 718

Three months ended June 30, 2017 compared with three months ended June 30, 2016

During the second quarter of 2017, we sold 5,409 acres, with about 80% of the acres comprised of Minnesota rural real estate.

In the second quarter of 2016, we sold approximately 172,000 acres of timberlands located in central Idaho for \$114 million, resulting in a loss of \$48.5 million before tax. The company purchased the property in 2007 and 2008 for the purpose of growing and harvesting timber and selling rural recreation parcels. The sale freed up capital without having to wait for the rural recreation real estate market in central Idaho to recover. During the second quarter of 2016, we also sold 5,530 acres, which included a large conservation sale in Alabama.

The average price per acre fluctuates based on both the geographic area of the real estate and product mix.

Six months ended June 30, 2017 compared with six months ended June 30, 2016

During the first half of 2017, we sold 11,974 acres, which included a large conservation sale in Alabama.

We sold 9,003 acres in the first half of 2016, which included a large conservation sale in Alabama, in addition to the sale of central Idaho timberlands.

The average price per acre fluctuates based on both the geographic area of the real estate and product mix.

Liquidity and Capital Resources

Overview

As of June 30, 2017, our cash and cash equivalents were \$110.3 million, an increase of \$27.7 million from December 31, 2016. The increase in cash and cash equivalents was primarily the result of net income. Long-term debt was reduced \$5.0 million and we had no borrowings outstanding under our revolving line of credit.

Net Cash from Operations

Net cash provided from operating activities was \$79.4 million for the first six months of 2017, compared with \$45.7 million in the first six months of 2016. This \$33.7 million increase in net cash provided by operating activities was primarily attributable to \$46.4 million additional cash received from customers. All of our business segments had increased revenue and income. A more detailed discussion of segment revenues and income is located in our Business Segment Results.

Partially offsetting the increases in customer receipts in 2017 from 2016 were:

- Higher cash operating costs of \$3.6 million primarily due to increased lumber production.

- Cash tax payments of \$4.9 million in 2017 compared to a refund of \$1.7 million in 2016.

Net Cash Flows from Investing Activities

Net cash used in investing activities was \$14.9 million for the six months ended June 30, 2017, compared with \$101.4 million provided in 2016.

- For the six months ended June 30, 2017, capital expenditures for property, plant and equipment and timberlands reforestation and roads were \$11.7 million and capital expenditures for the acquisition of timber and timberlands were \$3.1 million. Total capital spending for 2017 is expected to be \$27 million, excluding acquisitions.

- In 2016, the net proceeds from the sale of central Idaho timber and timberlands were \$111.5 million, partially offset by \$10.2 million used for total capital expenditures.

Net Cash Flows from Financing Activities

Net cash used in financing activities was \$36.7 million and \$89.6 million for the six months ended June 30, 2017 and 2016, respectively.

-

In the first half of 2017, net cash used in financing activities was primarily attributable to the \$30.5 million of dividends to stockholders and \$5.0 million repayment of long term debt.

In the first half of 2016, net cash used in financing activities was primarily attributable to the \$77.6 million repayment of borrowings, \$30.5 million of dividends to stockholders and \$6.0 million in the repurchase of common stock, partially offset by \$27.5 million in proceeds from the issuance of long-term debt.

Credit and Term Loan Agreements

As of June 30, 2017, approximately \$0.9 million of capacity under our credit agreement was utilized by outstanding letters of credit, resulting in \$249.1 million available for additional borrowings.

The following table sets forth the financial covenants in the credit and term loan agreements and our status with respect to these covenants as of June 30, 2017:

		Actuals at
	Covenant Requirement	June 30, 2017
Interest coverage ratio	≥ 3.00 to 1.00	6.34
Leverage ratio	≤ 40%	24%
Allowable acres that may be sold - credit agreement	480,000	228,325
Allowable acres that may be sold - term loan agreement ¹	480,000	16,059

¹ The term loan agreement, as amended from the aggregate covenant requirement in February 2016, allows for an exclusion of up to 250,000 acres sold in the fiscal years ending December 31, 2016 and 2017.

Senior Notes

The terms of our senior notes limit our ability and the ability of any subsidiary guarantors to enter into restricted transactions, which include the ability to borrow money, pay dividends, redeem or repurchase capital stock, enter into sale and leaseback transactions and create liens. However, such restricted transactions are permitted if the balance of our cumulative Funds Available for Distribution (FAD) and a FAD basket amount provide sufficient funds to cover such restricted payments. At June 30, 2017, our cumulative FAD was \$224.4 million and the FAD basket was \$90.1 million.

Contractual Obligations

There have been no material changes to our contractual obligations in the six months ended June 30, 2017 outside the ordinary course of business.

Off-Balance Sheet Arrangements

We currently are not a party to off-balance sheet arrangements that would require disclosure under this section.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Our exposures to market risk have not changed materially since December 31, 2016. For quantitative and qualitative disclosures about market risk, see Item 7A – “Quantitative and Qualitative Disclosure about Market Risk” in our 2016 Annual Report on Form 10-K.

Quantitative Information about Market Risks

The table below provides information about our outstanding long-term debt, weighted-average interest rates and interest rate swaps as of June 30, 2017. For debt obligations, the table presents principal cash flows and related weighted-average interest rates by expected maturity dates. For interest rate swaps, the table presents notional amounts and weighted-average interest rates by expected (contractual) maturity dates. Notional amounts are used to calculate the contractual payments to be exchanged under the contract. Weighted-average variable rates are based on implied forward rates in the yield curve.

(Dollars in thousands)	EXPECTED MATURITY DATE										FAIR VALUE

In April 2017, we entered into a commodity swap contract to fix the price on 36 million board feet (mmbf) of southern yellow pine with an effective date of July 1, 2017 and a termination date of December 31, 2017. Under the contract, cash settlement on 6 mmbf occurs monthly.

ITEM 4. CONTROLS AND PROCEDURES

Disclosure Controls and Procedures

We conducted an evaluation (pursuant to Rule 13a-15(b) of the Securities Exchange Act of 1934 (the Exchange Act)), under the supervision and with the participation of management, including the Chief Executive Officer (CEO) and Chief Financial Officer (CFO), of the effectiveness of our disclosure controls and procedures (as defined in Rule 13a-15(e) of the Exchange Act) as of June 30, 2017. These disclosure controls and procedures are designed to ensure that information required to be disclosed in our reports that are filed or submitted under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission's rules and forms. Our disclosure controls and procedures include, without limitation, controls and procedures designed to ensure that this information is accumulated and communicated to management, including the principal executive and principal financial officers, or persons performing similar functions, as appropriate, to allow timely decisions regarding required disclosure. Based on the evaluation, the CEO and CFO have concluded that these disclosure controls and procedures were effective as of June 30, 2017.

There are inherent limitations to the effectiveness of any system of disclosure controls and procedures, including the possibility of human error and the circumvention or overriding of the controls and procedures. Accordingly, even effective disclosure controls and procedures can only provide reasonable assurance of achieving their control objectives.

Internal Control over Financial Reporting

In the three months ended June 30, 2017, there were no changes in our internal control over financial reporting that occurred that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

Part II – OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

Other than the environmental proceeding described in Note 11: Commitments and Contingencies in the Notes to Condensed Consolidated Financial Statements, which is incorporated herein by reference, we believe there is no pending or threatened litigation that could have a material adverse effect on our financial position, operations or liquidity.

ITEM 1A. RISK FACTORS

There have been no material changes in the risk factors previously disclosed in “Risk Factors” in Part I, Item 1A of our Annual Report on Form 10-K for the year ended December 31, 2016.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

Issuer Purchases of Equity Securities

On April 26, 2016, the company announced that its Board of Directors had authorized management to repurchase up to \$60 million of common stock over a period of 24 months (the “Repurchase Plan”).

No shares were repurchased during the first six months of 2017. As of June 30, 2017, the maximum dollar values of shares that may yet be purchased under the plan is approximately \$54 million. Transaction costs are not counted against authorized funds under the Repurchase Plan.

We record share repurchases upon trade date, as opposed to the settlement date when cash is disbursed. We record a liability to account for repurchases that have not been settled. There were no unsettled repurchases as of June 30, 2017.

ITEM 6. EXHIBITS

Exhibits are listed in the Exhibit Index.
