EXPLANATORY NOTE

This Quarterly Report on Form 10-Q combines the Quarterly Reports on Form 10-Q for the quarter ended September 30, 2017 of Physicians Realty Trust (the “Trust”), a Maryland real estate investment trust, and Physicians Realty L.P. (the “Operating Partnership”), a Delaware limited partnership. Unless otherwise indicated or unless the context requires otherwise, all references in this report to “we,” “us,” “our,” and the “Company,” refer to the Trust, together with its consolidated subsidiaries, including the Operating Partnership. References to the “Operating Partnership” mean collectively the Operating Partnership, together with its consolidated subsidiaries. In this report, all references to “common shares” refer to the common shares of the Trust and references to “our shareholders” refer to shareholders of the common shares of the Trust, the term “OP Units” refers to partnership interests of the Operating Partnership and the term “Series A Preferred Units” refers to Series A Participating Redeemable Preferred Units of the Operating Partnership. As of October 31, 2017, no Series A Preferred Units are outstanding.

The Trust is a self-managed real estate investment trust (“REIT”) formed primarily to acquire, selectively develop, own, and manage healthcare properties that are leased to physicians, hospitals, and healthcare delivery systems. The Trust’s operations are conducted through the Operating Partnership and wholly-owned and majority-owned subsidiaries of the Operating Partnership. The Trust, as the general partner of the Operating Partnership, controls the Operating Partnership and consolidates the assets, liabilities, and results of operations of the Operating Partnership.

The Trust conducts substantially all of its operations through the Operating Partnership. As of September 30, 2017, the Trust held a 97.1% interest in the Operating Partnership and owns no Series A Preferred Units. Apart from this ownership interest, the Trust has no independent operations.

Noncontrolling interests in the Operating Partnership, shareholders’ equity of the Trust and partners’ capital of the Operating Partnership are the primary areas of difference between the consolidated financial statements of the Trust and those of the Operating Partnership. OP Units not owned by the Trust are accounted for as limited partners’ capital in the Operating Partnership’s consolidated financial statements and as noncontrolling interests in the Trust’s consolidated financial statements. The differences between the Trust’s shareholders’ equity and the Operating Partnership’s partners’ capital are due to the differences in the equity issued by the Trust and the Operating Partnership, respectively.

The Company believes combining the Quarterly Reports of the Trust and the Operating Partnership, including the notes to the consolidated financial statements, into this single report results in the following benefits:

- a combined report enhances investors’ understanding of the Trust and the Operating Partnership by enabling investors to view the business as a whole in the same manner as management views and operates the business;
- a combined report eliminates duplicative disclosure and provides a more streamlined and readable presentation, as a substantial portion of the Company’s disclosure applies to both the Trust and the Operating Partnership; and
- a combined report creates time and cost efficiencies through the preparation of one combined report instead of two separate reports.

To help investors understand the significant differences between the Trust and the Operating Partnership, this report presents the following separate sections for each of the Trust and the Operating Partnership:

- the consolidated financial statements in Part I, Item 1 of this report;
- certain accompanying notes to the consolidated financial statements, including Note 3 (Acquisitions and Dispositions) and Note 14 (Earnings Per Share and Earnings Per Unit);
- controls and procedures in Part I, Item 4 of this report; and
- the certifications of the Chief Executive Officer and the Chief Financial Officer included as Exhibits 31 and 32 to this report.

CAUTIONARY STATEMENT REGARDING FORWARD-LOOKING STATEMENTS

This Quarterly Report on Form 10-Q contains forward-looking statements made pursuant to safe harbor provisions of the Private Securities Litigation Reform Act of 1995. All statements other than statements of historical facts may be forward-looking statements within the meaning of the federal securities laws. In particular, statements pertaining to our capital resources, property performance and results of operations contain forward-looking statements. Likewise, all of our statements regarding anticipated growth in our funds from operations and anticipated market conditions, demographics and results of operations are forward-looking statements. You can identify forward-looking statements by the use of forward-looking terminology such as “believe,” “expect,” “outlook,” “continue,” “project,” “may,” “will,” “should,” “approximately,” “intend,” “plan,” “pro forma,” “estimate” or “anticipate” or the negative of these words and phrases or similar words or phrases which are predictions of or indicate future events or trends and which do not relate solely to historical matters. You can also identify forward-looking statements by discussions of strategy, plans, expectations or intentions.

These forward-looking statements reflect the views of our management regarding current expectations and projections about future events and are based on currently available information. These forward-looking statements are not guarantees of future performance and involve numerous risks and uncertainties and you should not rely on them as predictions of future events. Forward-looking statements depend on assumptions, data or methods which may be incorrect or imprecise and we may not be able to realize them. We do not guarantee that the transactions and events described will happen as described (or that they will happen at all). The following factors, among others, could cause actual results and future events to differ materially from those set forth or contemplated in the forward-looking statements:

- general economic conditions;
- adverse economic or real estate developments, either nationally or in the markets where our properties are located;
- our failure to generate sufficient cash flows to service our outstanding indebtedness, or our ability to pay down or refinance our indebtedness;
- fluctuations or increases in interest rates;
- fluctuations or increases in operating costs;
- the availability, terms and deployment of debt and equity capital, including our unsecured revolving credit facility;
- our ability to make distributions on our common shares;
- general volatility of the market price of our common shares;
- our increased vulnerability economically due to the concentration of our investments in healthcare properties;
- our geographic concentration in Texas causes us to be particularly exposed to downturns in the Texas economy or other changes in Texas market conditions;
- changes in our business or strategy;
- our dependence upon key personnel whose continued service is not guaranteed;

our ability to identify, hire and retain highly qualified personnel in the future;

the degree and nature of our competition;

changes in governmental regulations or interpretations thereof, such as real estate and zoning laws and increases in real property tax rates and taxation of REITs, and similar matters;

defaults on or non-renewal of leases by tenants;

decreased rental rates or increased vacancy rates;

difficulties in identifying healthcare properties to acquire and completing acquisitions;

1

Table of Contents

• competition for investment opportunities;

• any adverse effects to Catholic Health Initiatives' ("CHI") business, financial position or results of operations that impact the ability of affiliates of CHI to pay us rent;

• our failure to successfully develop, integrate and operate acquired properties and operations;

• the impact of our investments in joint ventures;

• the financial condition and liquidity of, or disputes with, any joint venture and development partners with whom we may make co-investments in the future;

• cybersecurity incidents could disrupt our business and result in the compromise of confidential information;

• our ability to operate as a public company;

• changes in accounting principles generally accepted in the United States (GAAP);

- lack of or insufficient amounts of insurance;

• other factors affecting the real estate industry generally;

• our failure to maintain our qualification as a REIT for U.S. federal income tax purposes;

• limitations imposed on our business and our ability to satisfy complex rules in order for us to qualify as a REIT for U.S. federal income tax purposes; and

• various other factors that may materially adversely affect us, or the per share trading price of our common shares, including:

• the number of our common shares available for future issuance or sale;

• our issuance of equity securities or the perception that such issuance might occur;

• future debt;

• failure of securities analysts to publish research or reports about us or our industry; and

• securities analysts' downgrade of our common shares or the healthcare-related real estate sector.

While forward-looking statements reflect our good faith beliefs, they are not guarantees of future performance. We disclaim any obligation to publicly update or revise any forward-looking statement to reflect changes in underlying assumptions or factors, new information, data or methods, future events or other changes after the date of this report, except as required by applicable law. You should not place undue reliance on any forward-looking statements that are based on information currently available to us or the third parties making the forward-looking statements. For a further discussion of these and other factors that could impact our future results, performance or transactions, see Part II, Item 1A (Risk Factors) of this report, Part I, Item 1A (Risk Factors) of our Annual Report on Form 10-K for the fiscal year ended December 31, 2016 (the "2016 Annual Report"), and Part II, Item 1A (Risk Factors) of our Quarterly Report on Form 10-Q for the quarterly periods ended March 31, 2017 (the "First Quarterly Report"), and June 30, 2017 (the "Second Quarterly Report", and together with the First Quarterly Report, the "2017 Quarterly Reports").

Notes to Consolidated Financial Statements**

Unless otherwise indicated or unless the context requires otherwise the use of the words “we,” “us,” “our,” and the “Company,” refer to Physicians Realty Trust, together with its consolidated subsidiaries, including Physicians Realty L.P.

Note 1. Organization and Business

Physicians Realty Trust (the “Trust”) was organized in the state of Maryland on April 9, 2013. As of September 30, 2017, the Trust was authorized to issue up to 500,000,000 common shares of beneficial interest, par value \$0.01 per share (“common shares”). The Trust filed a Registration Statement on Form S-11 with the Securities and Exchange Commission (the “Commission”) with respect to a proposed underwritten initial public offering (the “IPO”) and completed the IPO of its common shares and commenced operations on July 24, 2013.

The Trust contributed the net proceeds from the IPO to Physicians Realty L.P. (the “Operating Partnership”), and is the sole general partner of the Operating Partnership. The Trust and the Operating Partnership are managed and operated as one entity. The Trust has no significant assets other than its investment in the Operating Partnership. The Trust’s operations are conducted through the Operating Partnership and wholly-owned and majority-owned subsidiaries of the Operating Partnership. The Trust, as the general partner of the Operating Partnership, controls the Operating Partnership and consolidates the assets, liabilities, and results of operations of the Operating Partnership. Therefore, the assets and liabilities of the Trust and the Operating Partnership are the same.

The Trust is a self-managed real estate investment trust (“REIT”) formed primarily to acquire, selectively develop, own, and manage healthcare properties that are leased to physicians, hospitals, and healthcare delivery systems.

Equity Offerings

In March 2017, the Trust completed a follow-on public offering of 17,250,000 common shares of beneficial interest, including 2,250,000 common shares issued upon exercise of the underwriters’ overallotment option, resulting in net proceeds to it of approximately \$300.8 million. The Trust contributed the net proceeds of this offering to the Operating Partnership in exchange for 17,250,000 OP Units, and the Operating Partnership used the net proceeds of the public offering to repay borrowings under its unsecured revolving credit facility and for general corporate purposes, including working capital and funding acquisitions.

In July 2017, the Trust completed a follow-on public offering of 21,500,000 common shares of beneficial interest, including 1,500,000 common shares issued upon partial exercise of the underwriters’ option to purchase additional shares, resulting in net proceeds to it of approximately \$420.7 million. The Trust contributed the net proceeds of this offering to the Operating Partnership in exchange for 21,500,000 OP Units, and the Operating Partnership used the net proceeds of the public offering to repay borrowings under its unsecured revolving credit facility and for general corporate purposes, including working capital and funding acquisitions.

ATM Program

On August 5, 2016, the Trust and the Operating Partnership entered into separate At Market Issuance Sales Agreements (the “Sales Agreements”) with each of KeyBanc Capital Markets Inc., Credit Agricole Securities (USA) Inc., JMP Securities LLC, Raymond James & Associates, Inc., and Stifel Nicolaus & Company, Incorporated (the “Agents”), pursuant to which the Trust may issue and sell, from time to time, its common shares having an aggregate offering price of up to \$300 million, through the Agents (the “ATM Program”). In accordance with the Sales

Edgar Filing: Physicians Realty Trust - Form 10-Q

Agreements, the Trust may offer and sell its common shares through any of the Agents, from time to time, by any method deemed to be an “at the market offering” as defined in Rule 415 under the Securities Act of 1933, as amended, which includes sales made directly on the New York Stock Exchange or other existing trading market, or sales made to or through a market maker. With the Trust’s express written consent, sales may also be made in negotiated transactions or any other method permitted by law.

Table of Contents

During the quarterly periods ended March 31, 2017, June 30, 2017 and September 30, 2017, the Trust's issuance and sale of common shares pursuant to the ATM Program is as follows (in thousands, except common shares and price):

	Common shares sold	Weighted average price	Net proceeds
Quarterly period ended March 31, 2017	—	\$—	\$—
Quarterly period ended June 30, 2017	4,150,000	20.07	82,440
Quarterly period ended September 30, 2017	—	—	—
Year to date	4,150,000	\$20.07	\$82,440

As of October 31, 2017, the Trust has \$216.7 million remaining available under the ATM Program.

Note 2. Summary of Significant Accounting Policies

The accompanying unaudited consolidated financial statements reflect all adjustments which are, in the opinion of management, necessary for a fair presentation of the results for the periods ended September 30, 2017 and 2016 pursuant to the instructions to Form 10-Q and Article 10 of Regulation S-X. All such adjustments are of a normal recurring nature. Certain information and footnote disclosures normally included in financial statements prepared in accordance with accounting principles generally accepted in the United States ("GAAP") have been condensed or omitted pursuant to such rules and regulations. These financial statements should be read in conjunction with the audited financial statements included in the Trust's and the Operating Partnership's combined Annual Report on Form 10-K for the year ended December 31, 2016, filed with the Commission on February 24, 2017.

Principles of Consolidation

GAAP requires us to identify entities for which control is achieved through means other than voting rights and to determine which business enterprise is the primary beneficiary of variable interest entities ("VIEs"). ASC 810 broadly defines a VIE as an entity in which either (i) the equity investors as a group, if any, lack the power through voting or similar rights to direct the activities of such entity that most significantly impact such entity's economic performance or (ii) the equity investment at risk is insufficient to finance that entity's activities without additional subordinated financial support. We identify the primary beneficiary of a VIE as the enterprise that has both of the following characteristics: (i) the power to direct the activities of the VIE that most significantly impact the entity's economic performance, and (ii) the obligation to absorb losses or receive benefits of the VIE that could potentially be significant to the entity. We consolidate our investment in a VIE when we determine that we are the VIE's primary beneficiary. We may change our original assessment of a VIE upon subsequent events such as the modification of contractual arrangements that affect the characteristics or adequacy of the entity's equity investments at risk and the disposition of all or a portion of an interest held by the primary beneficiary. We perform this analysis on an ongoing basis.

For property holding entities not determined to be VIEs, we consolidate such entities in which the Operating Partnership owns 100% of the equity or has a controlling financial interest evidenced by ownership of a majority voting interest. All intercompany balances and transactions are eliminated in consolidation. For entities in which the Operating Partnership owns less than 100% of the equity interest, the Operating Partnership consolidates the property if it has the direct or indirect ability to control the entities' activities based upon the terms of the respective entities' ownership agreements. For these entities, the Operating Partnership records a noncontrolling interest representing equity held by noncontrolling interests.

Noncontrolling Interests

Edgar Filing: Physicians Realty Trust - Form 10-Q

The Company presents the portion of any equity it does not own in entities that it controls (and thus consolidates) as noncontrolling interests and classifies such interests as a component of consolidated equity, separate from the Company's total shareholders' equity, on the consolidated balance sheets.

Operating Partnership: Net income or loss is allocated to noncontrolling interests (limited partners) based on their respective ownership percentage of the Operating Partnership. The ownership percentage is calculated by dividing the number of OP Units held by the noncontrolling interests by the total OP Units held by the noncontrolling interests and the Trust. Issuance of additional common shares and OP Units changes the ownership interests of both the noncontrolling interests and the Trust. Such transactions and the related proceeds are treated as capital transactions.

Table of Contents

During the three months ended March 31, 2017, the Operating Partnership partially funded a property acquisition by issuing an aggregate of 2,247,817 OP Units valued at approximately \$44.3 million. The acquisition had a total purchase price of approximately \$78.6 million.

In addition, on January 31, 2017, the Operating Partnership redeemed the noncontrolling interest in a joint venture between the Operating Partnership and Medical Center of New Albany I, LLC, an Ohio limited liability company. As consideration, the Operating Partnership paid approximately \$2.1 million in cash and issued 38,641 OP Units, representing an aggregate \$2.8 million.

No acquisitions were funded through the issuance of OP units during the three months ended June 30, 2017 or September 30, 2017.

Noncontrolling interests in the Company include OP Units held by other investors. As of September 30, 2017, the Trust held a 97.1% interest in the Operating Partnership. As the sole general partner and the majority interest holder, the Trust consolidates the financial position and results of operations of the Operating Partnership.

Holdings of OP Units may not transfer their OP Units without the Trust's prior written consent, as general partner of the Operating Partnership. Beginning on the first anniversary of the issuance of OP Units, OP Unit holders may tender their units for redemption by the Operating Partnership in exchange for cash equal to the market price of the Trust's common shares at the time of redemption or for unregistered common shares on a one-for-one basis. Such selection to pay cash or issue common shares to satisfy an OP Unit holder's redemption request is solely within the control of the Trust. Accordingly, the Trust presents the OP Units of the Operating Partnership held by investors other than the Trust as noncontrolling interests within equity in the consolidated balance sheets.

Partially Owned Properties: The Trust and Operating Partnership reflect noncontrolling interests in partially owned properties on the balance sheet for the portion of consolidated properties that are not wholly owned by the Company. The earnings or losses from those properties attributable to the noncontrolling interests are reflected as noncontrolling interests in partially owned properties in the consolidated statements of income.

Redeemable Noncontrolling Interests - Series A Preferred Units and Partially Owned Properties

On February 5, 2015, the Company entered into a Second Amended and Restated Agreement of Limited Partnership (the "Partnership Agreement") which provides for the designation and issuance of the newly designated Series A Participating Redeemable Preferred Units of the Operating Partnership ("Series A Preferred Units"). Series A Preferred Units have priority over all other partnership interests of the Operating Partnership with respect to distributions and liquidation. Holders of Series A Preferred Units are entitled to a 5% cumulative return and upon redemption, the receipt of one common share and \$200. The holders of the Series A Preferred Units have agreed not to cause the Operating Partnership to redeem their Series A Preferred Units prior to one year from the issuance date. In addition, Series A Preferred Units are redeemable at the option of the holders which redemption obligation may be satisfied, at the Trust's option, in cash or registered common shares. Instruments that require settlement in registered common shares may not be classified in permanent equity as it is not always completely within an issuer's control to deliver registered common shares. Due to the redemption rights associated with the Series A Preferred Units, the Company classifies the Series A Preferred Units in the mezzanine section of the consolidated balance sheets.

The Series A Preferred Units were evaluated for embedded features that should be bifurcated and separately accounted for as a freestanding derivative. The Company determined that the Series A Preferred Units contained features that require bifurcation. The Company records the carrying amount of the redeemable noncontrolling interests, less the value of the embedded derivative, at the greater of the carrying value or redemption value in the consolidated balance sheets.

On February 5, 2015, the acquisition of a medical office building located in Minnetonka, Minnesota (the “Minnetonka MOB”) was partially funded with the issuance of 44,685 Series A Preferred Units which were valued at \$9.7 million. On December 17, 2015, the acquisition of a medical office building located in Nashville, Tennessee (the “Nashville MOB”) was partially funded with the issuance of 91,236 Series A Preferred Units which were valued at \$19.7 million.

On April 1, 2016, the Series A Preferred Units issued in conjunction with the Minnetonka MOB acquisition were redeemed for a total value of \$9.8 million. The fair value of the embedded derivative associated with the previously outstanding Series A Preferred Units was \$2.7 million which was derecognized in the course of the redemption.

Table of Contents

On January 12, 2017, the Series A Preferred Units issued in conjunction with the Nashville MOB acquisition were redeemed for a total value of \$20.0 million. The fair value of the embedded derivative associated with the previously outstanding Series A Preferred Units was \$5.6 million which was derecognized in the course of the redemption.

As of September 30, 2017, no Series A Preferred Units are outstanding.

In connection with the acquisition of the Minnetonka MOB, the Trust received a \$5 million equity investment from a third party, effective March 1, 2015. This investment earns a 15% cumulative preferred return. At any point subsequent to the third anniversary of the investment, the holder can require the Trust to redeem the instrument at a price for which the investor will realize a 15% internal rate of return. Due to the redemption provision, which is outside of the control of the Trust, the Trust classifies the investment in the mezzanine section of its consolidated balance sheet. The Trust records the carrying amount of the redeemable noncontrolling interests at the greater of the carrying value or redemption value.

In connection with the acquisition on December 29, 2015 of a medical office building located on the campus of the Great Falls Clinic and Hospital in Great Falls, Montana (the "Great Falls Clinic"), physicians affiliated with the seller retained a non-controlling interest which may, at the holders' option, be redeemed at any time. Due to the redemption provision, which is outside of the control of the Trust, the Trust classifies the investment in the mezzanine section of its consolidated balance sheet. The Trust records the carrying amount of the redeemable noncontrolling interests at the greater of the carrying value or redemption value. In the three months ended September 30, 2017, Great Falls Clinic redeemed for cash \$1.1 million of its non-controlling interest.

Dividends and Distributions

On September 21, 2017, the Trust announced that its Board of Trustees authorized and the Trust declared a cash dividend of \$0.23 per common share for the quarterly period ended September 30, 2017. The distribution was paid on October 18, 2017 to common shareholders and OP Unit holders of record as of the close of business on October 3, 2017.

All distributions paid by the Operating Partnership are declared and paid at the same time as dividends are distributed by the Trust to common shareholders. It has been the Operating Partnership's policy to declare quarterly distributions so as to allow the Trust to comply with applicable provisions of the Internal Revenue Code of 1986, as amended (the "Code"), governing REITs. The declaration and payment of quarterly distributions remains subject to the review and approval of the Trust's Board of Trustees.

Our shareholders are entitled to reinvest all or a portion of any cash distribution on their common shares by participating in our Dividend Reinvestment and Share Purchase Plan ("DRIP"), subject to the terms of the plan.

Tax Status of Dividends and Distributions

Our distributions of current and accumulated earnings and profits for U.S. federal income tax purposes generally are taxable to shareholders as ordinary income. Distributions in excess of these earnings and profits generally are treated as a non-taxable reduction of the shareholders' basis in the shares to the extent thereof (non-dividend distributions) and thereafter as taxable gain.

Any cash distributions received by an OP Unit holder in respect of its OP Units generally will not be taxable to such OP Unit holder for U.S. federal income tax purposes, to the extent that such distribution does not exceed the OP Unit holder's basis in its OP Units. Any such distribution will instead reduce the OP Unit holder's basis in its OP Units (and OP Unit holders will be subject to tax on the taxable income allocated to them by the Operating Partnership in respect

of their OP Units when such income is earned by the Operating Partnership, with such income allocation increasing the OP Unit holders' basis in their OP Units).

Purchases of Investment Properties

A property acquired not subject to an existing lease is treated as an asset acquisition and recorded at its purchase price, inclusive of acquisition costs, allocated between the acquired tangible and intangible assets and assumed liabilities based upon their relative fair values at the date of acquisition. A property acquired with an existing lease is accounted for as a business combination pursuant to the acquisition method in accordance with ASC Topic 805, *Business Combinations* ("ASC 805"), and assets acquired and liabilities assumed, including identified intangible assets and liabilities, are recorded at fair value.

Table of Contents

The determination of fair value involves the use of significant judgment and estimation. The Company makes estimates of the fair value of the tangible and intangible acquired assets and assumed liabilities using information obtained from multiple sources as a result of pre-acquisition due diligence and generally includes the assistance of a third party appraiser. The Company estimates the fair value of buildings acquired on an “as-if-vacant” basis and depreciates the building value over the estimated remaining life of the building. The Company determines the allocated value of other fixed assets, such as site improvements, based upon the replacement cost and depreciates such value over the assets’ estimated remaining useful lives as determined at the applicable acquisition date. The fair value of land is determined either by considering the sales prices of similar properties in recent transactions or based on internal analyses of recently acquired and existing comparable properties within the Company’s portfolio.

In recognizing identified intangible assets and liabilities in connection with a business combination, the value of above or below-market leases is estimated based on the present value (using an interest rate which reflected the risks associated with the leases acquired) of the difference between contractual amounts to be received pursuant to the leases and management’s estimate of market lease rates measured over a period equal to the estimated remaining term of the lease. The capitalized above-market or below-market lease intangibles are amortized as a reduction or addition to rental income over the estimated remaining term of the respective leases plus the term of any renewal options that the lessee would be economically compelled to exercise.

In determining the value of in-place leases, management considers current market conditions and costs to execute similar leases in arriving at an estimate of the carrying costs during the expected lease-up period from vacant to existing occupancy. In estimating carrying costs, management includes real estate taxes, insurance, other operating expenses, estimates of lost rental revenue during the expected lease-up periods, and costs to execute similar leases, including leasing commissions, tenant improvements, legal, and other related costs based on current market demand. The values assigned to in-place leases are amortized to amortization expense over the estimated remaining term of the lease. If a lease terminates prior to its scheduled expiration, all unamortized costs related to that lease are written off, net of any required lease termination payments.

The Company calculates the fair value of any long-term debt assumed by discounting the remaining contractual cash flows on each instrument at the current market rate for those borrowings, which the Company approximates based on the rate it would expect to incur on a replacement instrument on the date of acquisition, and recognizes any fair value adjustments related to long-term debt as effective yield adjustments over the remaining term of the instrument.

Based on these estimates, the Company recognizes the acquired assets and assumed liabilities at their estimated fair values, which are generally determined using Level 3 inputs, such as market rental rates, capitalization rates, discount rates, or other available market data. Initial valuations are subject to change until the information is finalized, no later than 12 months from the acquisition date. The Company expenses transaction costs associated with acquisitions accounted for as business combinations in the period incurred.

Impairment of Intangible and Long-Lived Assets

The Company periodically evaluates its long-lived assets, primarily consisting of investments in real estate, for impairment indicators or whenever events or changes in circumstances indicate that the recorded amount of an asset may not be fully recoverable. If indicators of impairment are present, the Company evaluates the carrying value of the related real estate properties in relation to the undiscounted expected future cash flows of the underlying operations. In performing this evaluation, management considers market conditions and current intentions with respect to holding or disposing of the real estate property. The Company adjusts the net book value of real estate properties to fair value if the sum of the expected future undiscounted cash flows, including sales proceeds, is less than book value. The Company recognizes an impairment loss at the time it makes any such determination. If the Company determines that an asset is impaired, the impairment to be recognized is measured as the amount by which the recorded amount of the

asset exceeds its fair value. Fair value is typically determined using a discounted future cash flow analysis or other acceptable valuation techniques, which are based, in turn, upon Level 3 inputs, such as revenue and expense growth rates, capitalization rates, discount rates, or other available market data.

The Company did not record impairment charges in the three and nine month periods ended September 30, 2017 and 2016.

Assets Held for Sale and Discontinued Operations

The Company may sell properties from time to time for various reasons, including favorable market conditions. The Company classifies certain long-lived assets as held for sale once the criteria, as defined by GAAP, has been met.
Long-lived

Table of Contents

assets to be disposed of are reported at the lower of their carrying amount or fair value minus cost to sell, and are no longer depreciated. No properties were classified as held for sale as of September 30, 2017.

Investments in Unconsolidated Entities

The Company reports investments in unconsolidated entities over whose operating and financial policies it has the ability to exercise significant influence under the equity method of accounting. Under this method of accounting, the Company's share of the investee's earnings or losses is included in its consolidated statements of income. The initial carrying value of investments in unconsolidated entities is based on the amount paid to purchase the equity interest.

Real Estate Loans Receivable

Real estate loans receivable consists of eleven mezzanine loans and two term loans as of September 30, 2017. Generally, each mezzanine loan is collateralized by an ownership interest in the respective borrower, while the two term loans are secured by equity interests in two medical office building developments, respectively. Interest income on the loans is recognized as earned based on the terms of the loans, subject to evaluation of collectability risks, and is included in the Company's consolidated statements of income. On a quarterly basis, the Company evaluates the collectability of its loan portfolio, including related interest income receivable, and establishes a reserve for loan losses, if necessary. No such losses have been recognized to date.

Cash and Cash Equivalents

Cash and cash equivalents consist of cash on hand and short-term investments with maturities of three or fewer months from the date of purchase. The Company is subject to concentrations of credit risk as a result of its temporary cash investments. The Company places its temporary cash investments with high credit quality financial institutions in order to mitigate this risk.

Escrow Reserves

The Company is required to maintain various escrow reserves on certain notes payable to cover future property taxes and insurance and tenant improvements costs as defined in each loan agreement. The total reserves as of September 30, 2017 and December 31, 2016 are \$1.7 million and \$4.3 million, respectively, which are included in other assets in the consolidated balance sheets.

Deferred Costs

Deferred costs consist primarily of fees paid to obtain financing and costs associated with the origination of long-term leases on real estate properties. After the purchase of a property, lease commissions incurred to extend in-place leases or generate new leases are added to deferred lease costs. Deferred lease costs are included as a component of other assets and are amortized on a straight-line basis over the terms of their respective agreements. Deferred financing costs are shown as a direct reduction from the related debt liability. The Company amortizes deferred financing costs as a component of interest expense over the terms of the related borrowings using a method that approximates a level yield.

Rental Revenue

Rental revenue is recognized on a straight-line basis over the terms of the related leases when collectability is reasonably assured. Recognizing rental revenue on a straight-line basis for leases may result in recognizing revenue for amounts more or less than amounts currently due from tenants. Amounts recognized in excess of amounts

Edgar Filing: Physicians Realty Trust - Form 10-Q

currently due from tenants, net of related allowances, are included in other assets and were approximately \$42.5 million and \$32.0 million as of September 30, 2017 and December 31, 2016, respectively. If the Company determines that collectability of straight-line rents is not reasonably assured, the Company limits future recognition to amounts contractually owed and, where appropriate, establishes an allowance for estimated losses. Allowances recognized against straight line rent were approximately \$4.7 million and \$0.6 million as of September 30, 2017 and December 31, 2016, respectively. Rental revenue is adjusted by amortization of lease inducements and above or below market rents on certain leases. Lease inducements and above or below market rents are amortized over the remaining life of the lease.

Table of Contents

Expense Recoveries

Expense recoveries relate to tenant reimbursement of real estate taxes, insurance, and other operating expenses that are recognized as expense recovery revenue in the period the applicable expenses are incurred. The reimbursements are recorded at gross, as the Company is generally the primary obligor with respect to real estate taxes and purchasing goods and services from third-party suppliers, has discretion in selecting the supplier, and bears the credit risk of tenant reimbursement.

The Company has certain tenants with absolute net leases. Under these lease agreements, the tenant is responsible for operating and building expenses. For absolute net leases, the Company does not recognize expense recoveries.

Derivative Instruments

When the Company has derivative instruments embedded in other contracts, it records them either as an asset or a liability measured at their fair value unless they qualify for a normal purchase or normal sale exception. When specific hedge accounting criteria are not met, changes in the Company's derivative instruments' fair value are recognized currently in earnings. Changes in the fair market values of the Company's derivative instruments are recorded in the consolidated statements of income if the derivative instruments do not qualify for, or the Company does not elect to apply for, hedge accounting. If hedge accounting is applied to a derivative instrument, such changes are reported in accumulated other comprehensive income within the consolidated statement of equity, exclusive of ineffectiveness amounts, which are recognized as adjustments to net income.

To manage interest rate risk for certain of its variable-rate debt, the Company uses interest rate swaps as part of its risk management strategy. These derivatives are designed to mitigate the risk of future interest rate increases by providing a fixed interest rate for a limited, pre-determined period of time. Interest rate swaps designated as cash flow hedges involve the receipt of variable-rate amounts from a counterparty in exchange for the Company making fixed-rate payments over the life of the agreements without exchange of the underlying notional amount. As of September 30, 2017, the Company had five outstanding interest rate swap contracts that are designated as cash flow hedges of interest rate risk. For presentational purposes, they are shown as one derivative due to the identical nature of their economic terms. Further detail is provided in Note 7 (Derivatives).

The effective portion of the change in the fair value of derivatives designated and that qualify as cash flow hedges is recorded in accumulated other comprehensive income ("AOCI") on the consolidated balance sheets and is subsequently reclassified into earnings as interest expense for the period that the hedged forecasted transaction affects earnings. The ineffective portion of the change in fair value of the derivatives is recognized directly in earnings. For the nine months ended September 30, 2017, the Company recognized a \$0.2 million loss as a result of hedge ineffectiveness. Hedge ineffectiveness was insignificant for the three months ended September 30, 2017 and for the three and nine months ended September 30, 2016. The Company expects hedge ineffectiveness to be insignificant in the next 12 months.

Income Taxes

The Trust elected to be taxed as a REIT for federal tax purposes commencing with the filing of its tax return for the short taxable year ending December 31, 2013. The Trust had no taxable income prior to electing REIT status. To qualify as a REIT, the Trust must meet certain organizational and operational requirements, including a requirement to distribute at least 90% of its annual REIT taxable income to its shareholders (which is computed without regard to the dividends paid deduction or net capital gain and which does not necessarily equal net income as calculated in accordance with GAAP). As a REIT, the Trust generally will not be subject to federal income tax to the extent it distributes qualifying dividends to its shareholders. If the Trust fails to qualify as a REIT in any taxable year, it will be subject to federal income tax (including any applicable alternative minimum tax) on its taxable income at regular

corporate income tax rates and generally will not be permitted to qualify for treatment as a REIT for federal income tax purposes for the four taxable years following the year during which qualification is lost, unless the Internal Revenue Service grants the Trust relief under certain statutory provisions. Such an event could materially adversely affect the Trust's net income and net cash available for distribution to shareholders. However, the Trust intends to continue to operate in such a manner as to continue qualifying for treatment as a REIT. Although the Trust continues to qualify for taxation as a REIT, in various instances, the Trust is subject to state and local taxes on its income and property, and federal income and excise taxes on its undistributed income.

As discussed in Note 1 (Organization and Business), the Trust conducts substantially all of its operations through the Operating Partnership. As a partnership, the Operating Partnership generally is not liable for federal income taxes. The income and loss from the operations of the Operating Partnership is included in the tax returns of its partners, including the Trust, who are responsible for reporting their allocable share of the partnership income and loss. Accordingly, no provision for income taxes has been made on the accompanying consolidated financial statements.

Table of Contents

Tenant Receivables, Net

Tenant accounts receivable are stated net of the applicable allowance. Rental payments under these contracts are primarily due monthly. The Company assesses the collectability of tenant receivables, including straight-line rent receivables, and defers recognition of revenue if collectability is not reasonably assured. The Company bases its assessment of the collectability of rent receivables on several factors, including, among other things, payment history, the financial strength of the tenant, and current economic conditions. If management's evaluation of these factors indicates it is probable that the Company will be unable to recover the full value of the receivable, the Company provides a reserve against the portion of the receivable that it estimates may not be recovered. At September 30, 2017 and December 31, 2016, the allowance for doubtful accounts was \$1.2 million and \$2.4 million, respectively.

Management Estimates

The preparation of consolidated financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities as of the date of the consolidated financial statements and the amounts of revenue and expenses reported in the period. Significant estimates are made for the fair value assessments with respect to purchase price allocations, impairment assessments, and the valuation of financial instruments. Actual results could differ from these estimates.

Contingent Liabilities

The Company records liabilities for contingent consideration (included in accrued expenses and other liabilities on its consolidated balance sheets) at fair value as of the acquisition date and reassesses the fair value at the end of each reporting period, with any changes being recognized in earnings. Increases or decreases in the fair value of contingent consideration can result from changes in discount periods, discount rates, and probabilities that contingencies will be met.

Reclassifications

Certain prior period amounts have been reclassified to conform to the current financial statement presentation, with no effect on the previously reported consolidated balance sheets or consolidated statements of income.

Segment Reporting

Under the provision of Codification Topic 280, *Segment Reporting*, the Company has determined that it has one reportable segment with activities related to leasing and managing healthcare properties.

New Accounting Pronouncements

In May 2014, the FASB issued ASU 2014-09, *Revenue from Contracts with Customers*, which creates a new Topic, Accounting Standards Codification Topic 606. The standard is principle-based and provides a five-step model to determine when and how revenue is recognized. The core principle is that a company should recognize revenue when it transfers promised goods or services to customers in an amount that reflects the consideration to which the company expects to be entitled in exchange for those goods or services. This standard is effective for interim or annual periods beginning after December 15, 2017 and allows for either full retrospective or modified retrospective adoption. Early adoption of this standard is permitted for reporting periods beginning after December 15, 2016. The Company anticipates that adoption of ASU 2014-09 will take place on January 1, 2018 via the modified retrospective approach. Under the full retrospective method, the standard would be applied retrospectively to all reporting periods represented

on the financial statements. The modified retrospective approach applies the standard in the year of initial application and presents the cumulative effect of prior periods with an adjustment to beginning retained earnings, with no restatement of comparative periods. As leasing arrangements (which are excluded from ASU 2014-09) represent the primary source of revenue for the Company, the impact of adoption will be limited to the Company's recognition and presentation of non-lease revenues, which are currently reflected as a component of other income. The Company continues to evaluate the impact of ASU 2014-09 to its consolidated financial statements.

In February 2016, the FASB issued ASU 2016-02, *Leases*. The update amends the existing accounting standards for lease accounting, including requiring lessees to recognize most leases on their balance sheets and making targeted changes to lessor accounting. The standard requires a modified retrospective transition approach for all leases existing at, or entered into after, the date of initial application, with an option to use certain transition relief. ASU 2016-02 will be effective for annual reporting periods beginning after December 15, 2018. Early adoption is permitted. As a result of adopting ASU 2016-02, the

Table of Contents

Company will recognize all of its operating leases for which it is the lessee, including ground leases, on its consolidated balance sheets. The Company is evaluating the impact of the adoption of ASU 2016-02 on January 1, 2019 to its consolidated financial statements. We expect that certain executory and non-lease components, such as common area maintenance, will need to be accounted for separately from the lease component of the lease, with the lease component continuing to be recognized on a straight-line basis over the lease term. Based on current guidance within the ASU, we intend to account for the executory and non-lease components under the new revenue recognition guidance in ASU 2014-09, upon our adoption of ASU 2016-02. When the revenue for such items is not separately stipulated in the lease, we will separate the lease components of revenue due under leases from the non-lease components.

In March 2016, the FASB issued ASU 2016-09, *Improvements to Employee Share-Based Payment Accounting*. This update simplifies several aspects of accounting for share-based payment transactions, including income tax consequences, classification of awards as either equity or liabilities, and classification on the statements of cash flows. ASU 2016-09 is effective for fiscal years, and for interim periods within those fiscal years, beginning after December 15, 2016. The Company adopted ASU 2016-09 on January 1, 2017, with no material effect on its consolidated financial statements with no adjustments made to prior periods.

In January 2017, the FASB issued ASU 2017-01, *Clarifying the Definition of a Business*, that clarifies the framework for determining whether an integrated set of assets and activities meets the definition of a business. The revised framework establishes a screen for determining whether an integrated set of assets and activities is a business and narrows the definition of a business, which is expected to result in fewer transactions being accounted for as business combinations. Acquisitions of integrated sets of assets and activities that do not meet the definition of a business are accounted for as asset acquisitions. ASU 2017-01 will be effective for fiscal years, and for interim periods within those fiscal years, beginning after December 15, 2017. Upon adoption of ASU 2017-01, the Company anticipates it will classify most prospective real estate acquisitions as asset acquisitions, rather than business combinations, and direct acquisition costs associated with these acquisitions will be capitalized. This is due to the fact that substantially all of the fair value of the gross assets the Company acquires are concentrated in a single asset or group of similar identifiable assets.

Note 3. Acquisitions and Dispositions

During the nine months ended September 30, 2017, the Company completed acquisitions of 29 operating healthcare properties, 2 condominium units, and 1 parking deck located in 15 states for an aggregate purchase price of approximately \$984.0 million. In addition, the Company completed \$38.8 million of loan transactions and \$3.9 million of noncontrolling interest buyouts, resulting in total investment activity of approximately \$1.0 billion.

Investment activity for the three months ended September 30, 2017 is summarized below:

Property (1)	Location	Acquisition Date	Purchase Price (in thousands)
Clearview Cancer Institute	(2) Huntsville, AL	August 4, 2017	\$ 53,250

(1) "MOB" means medical office building and "ASC" means ambulatory surgery center.

(2)

Edgar Filing: Physicians Realty Trust - Form 10-Q

The Company accounted for three of these facilities as asset acquisitions and capitalized total acquisition costs of \$0.1 million. The remaining six facilities were accounted for as business combinations pursuant to the acquisition method, with acquisition expense totaling \$2.2 million, which includes costs related to properties pursued but not acquired.

(3) Loan investments listed here include two separate transactions at a weighted average interest rate of 8.0%.

(4) The Company acquired an additional 3.2% interest in the Great Falls Clinic joint venture from the predecessor owner, increasing the Company's total interest to 85.0%.

Table of Contents

For the three months ended September 30, 2017, the Company recorded revenues and net income from its 2017 acquisitions of \$18.5 million and \$5.2 million, respectively. For the nine months ended September 30, 2017, the Company recorded revenues and net income from its 2017 acquisitions of \$25.8 million and \$3.0 million, respectively.

The following table summarizes the acquisition date fair values of the assets acquired and the liabilities assumed, which the Company determined using Level 2 and Level 3 inputs (in thousands):

	1st Quarter	2nd Quarter	3rd Quarter	Total

For acquisitions classified as a business combination, preliminary allocations are subject to revision within the measurement period, not to exceed one year from the date of the acquisitions.

Dispositions

On February 23, 2017, the Company executed an agreement to sell a portfolio of four medical office buildings located in Georgia (the “Georgia Portfolio”), representing an aggregate 80,292 square feet, for approximately \$18.2 million. On April 7, 2017, the Company closed on the sale of the Georgia Portfolio for a gain of \$5.3 million.

The following table summarizes revenues and net income related to the Georgia Portfolio for the periods presented (in thousands):

On August 15, 2017, the Company completed the disposition of land with a carrying value of \$7.7 million in a sale-leaseback at the Peachtree Dunwoody Medical Center. The Company entered into a 90 year term ground lease at closing with all rent prepaid in consideration of the full present value of rent owed. There was no gain or loss recognized as a result of this transaction.

Increase in operating expense related to below market ground leases	208	158	581	299

For the three months ended September 30, 2017, the Company wrote-off in-place lease intangible assets of approximately \$0.4 million with accumulated amortization of \$0.1 million, for a net loss of approximately \$0.3 million to rental income from intangible amortization.

For the nine months ended September 30, 2017, the Company wrote-off in-place lease intangible assets of approximately \$3.1 million with accumulated amortization of \$1.9 million as well as certain above market lease intangible assets and below market lease intangible liabilities. Intangible write-offs for the nine months ended September 30, 2017 resulted in an aggregate net loss of approximately \$1.3 million to rental income from intangible amortization.

Future aggregate net amortization of the acquired lease intangibles as of September 30, 2017, is as follows (in thousands):

	Net Decrease in Revenue	Net Increase in Expenses
2017	\$ (762)	\$ 9,336
2018	(2,849)	34,468

Edgar Filing: Physicians Realty Trust - Form 10-Q

Variable interest mortgage notes, bearing variable interest of LIBOR plus 2.25% to 3.25%, with a weighted average interest rate of 3.68% and due in 2017 and 2018, collateralized by 4 properties with a net book value of \$45.6 million.

The Trust's borrowings under the term loan feature of the Credit Agreement bear interest at a rate which is (5) determined by the Trust's credit rating, currently equal to LIBOR + 1.80%. The Trust has entered into a pay-fixed receive-variable interest rate swap, fixing the LIBOR component of this rate at 1.07%.

Table of Contents

On June 10, 2016, the Operating Partnership, as borrower, and the Trust entered into an amended and restated Credit Agreement with KeyBank National Association, as administrative agent, KeyBanc Capital Markets Inc., BMO Capital Markets, and Citizens Bank N.A., as joint lead arrangers and co-book runners, BMO Capital Markets and Citizens Bank N.A., as co-syndication agents, and the lenders party thereto (the “Credit Agreement”) which increased the maximum principal amount available under an unsecured revolving credit facility from \$750 million to \$850 million. The Credit Agreement contains a 7-year term loan feature allowing the Operating Partnership to borrow in a single drawing up to \$250 million, increasing the borrowing capacity to an aggregate \$1.1 billion. The Credit Agreement also includes a swingline loan commitment for up to 10% of the maximum principal amount and provides an accordion feature allowing the Trust to increase borrowing capacity by up to an additional \$500 million, subject to customary terms and conditions, resulting in a maximum borrowing capacity of \$1.6 billion.

On July 7, 2016, the Operating Partnership borrowed \$250.0 million under the 7-year term loan feature of the Credit Agreement. Borrowings under the term loan feature of the Credit Agreement bear interest on the outstanding principal amount at a rate which is determined by the Trust’s credit rating, currently equal to LIBOR + 1.80%. The Trust simultaneously entered into a pay-fixed receive-variable rate swap for the full borrowing amount, fixing the LIBOR component of the borrowing rate to 1.07%, for an all-in fixed rate of 2.87%. Both the borrowing and pay-fixed receive-variable swap have a maturity date of June 10, 2023.

The Credit Agreement has a maturity date of September 18, 2020 and includes a one year extension option. Borrowings under the Credit Agreement bear interest on the outstanding principal amount at an adjusted LIBOR rate, which is based on the Trust’s investment grade rating under the Credit Agreement. As of September 30, 2017, the Trust had an investment grade rating of Baa3 from Moody’s and BBB- from S&P. As such, borrowings under the revolving credit facility of the Credit Agreement accrued interest on the outstanding principal at a rate of LIBOR plus 1.20%. The Credit Agreement includes a facility fee equal to 0.25% per annum, which is also determined by the Trust’s investment grade rating.

The Credit Agreement contains financial covenants that, among other things, require compliance with leverage and coverage ratios and maintenance of minimum tangible net worth, as well as covenants that may limit the Trust’s and the Operating Partnership’s ability to incur additional debt or make distributions. The Company may, at any time, voluntarily prepay any revolving or swingline loan under the Credit Agreement in whole or in part without premium or penalty. Prepayments of term borrowings require payment of premiums of up to 2.0% of the amount of prepayment, dependent on the date of such prepayment. As of September 30, 2017, the Company was in compliance with all financial covenants related to the Credit Agreement.

The Credit Agreement includes customary representations and warranties by the Trust and the Operating Partnership, and imposes customary covenants on the Operating Partnership and the Trust. The Credit Agreement also contains customary events of default, and if an event of default occurs and continues, the Operating Partnership is subject to certain actions by the administrative agent, including without limitation, the acceleration of repayment of all amounts outstanding under the Credit Agreement.

The Credit Agreement provides for revolving credit and term loans to the Trust and the Operating Partnership. Base Rate Loans, Adjusted LIBOR Rate Loans, and Letters of Credit (each, as defined in the Credit Agreement) will be subject to interest rates, based upon the Trust’s investment grade rating as follows:

Credit Rating	Margin for Revolving Loans: Adjusted LIBOR Rate Loans and Letter of Credit Fee	Margin for Revolving Loans: Base Rate Loans	Margin for Term Loans: Adjusted LIBOR Rate Loans and Letter of Credit Fee	Margin for Term Loans: Base Rate Loans
At Least A- or A3	LIBOR + 0.85%	— %	LIBOR + 1.40%	0.40 %

Below BBB- or BAA3	LIBOR + 1.55%	0.60	%	LIBOR + 2.25%	1.25	%

As of September 30, 2017, the company had \$139.0 million of borrowings outstanding under its unsecured revolving credit facility, and \$250.0 million of borrowings outstanding under the term loan feature of the Credit Agreement. The Company also issued a letter of credit for \$17.0 million as of September 30, 2017 with no outstanding balance as of September 30, 2017. As defined by the Credit Agreement, \$694.0 million is available to borrow without adding additional properties to the unencumbered borrowing base of assets.

Table of Contents

On January 7, 2016, the Operating Partnership issued and sold \$150.0 million aggregate principal amount of senior notes, comprised of (i) \$15.0 million aggregate principal amount of 4.03% Senior Notes, Series A, due January 7, 2023, (ii) \$45.0 million aggregate principal amount of 4.43% Senior Notes, Series B, due January 7, 2026, (iii) \$45.0 million aggregate principal amount of 4.57% Senior Notes, Series C, due January 7, 2028, and (iv) \$45.0 million aggregate principal amount of 4.74% Senior Notes, Series D, due January 7, 2031. On August 11, 2016, the note agreement for these notes was amended to make certain changes to its terms, including certain changes to affirmative covenants, negative covenants and definitions contained therein. Interest on each respective series of the January 2016 Senior Notes is payable semi-annually.

On August 11, 2016, the Operating Partnership issued and sold \$75.0 million aggregate principal amount of senior notes, comprised of (i) \$25.0 million aggregate principal amount of 4.09% Senior Notes, Series A, due August 11, 2025, (ii) \$25.0 million aggregate principal amount of 4.18% Senior Notes, Series B, due August 11, 2026, and (iii) \$25.0 million aggregate principal amount of 4.24% Senior Notes, Series C, due August 11, 2027. Interest on each respective series of the August 2016 Senior Notes is payable semi-annually.

On March 7, 2017, the Operating Partnership issued and sold \$400.0 million aggregate principal amount of 4.30% Senior Notes which will mature on March 15, 2027. The Senior Notes began accruing interest on March 7, 2017 and began paying interest semi-annually beginning September 15, 2017. The Senior Notes were sold at an issue price of 99.68% of their face value, before the underwriters' discount. Our net proceeds from the offering, after deducting underwriting discounts and expenses, were approximately \$396.1 million.

Certain properties have mortgage debt that contains financial covenants. As of September 30, 2017, the Trust is in compliance with all mortgage debt financial covenants, except with respect to a certain \$7.8 million mortgage loan from Bank SNB National Association for the Oklahoma City, Oklahoma medical office building formerly leased by a wholly-owned subsidiary of Foundation Healthcare, Inc. (OTC: FDNH). The Trust and the bank have reached a tentative resolution which is pending the bank's loan committee approval.

Scheduled principal payments due on debt as of September 30, 2017, are as follows (in thousands):

2017	\$504
2018	54,195
2019	44,022
2020	168,483
2021	8,048
Thereafter	908,322
Total Payments	\$1,183,574

As of September 30, 2017, the Company had total consolidated indebtedness of approximately \$1.2 billion. The weighted average interest rate on consolidated indebtedness was 3.81% (based on the 30-day LIBOR rate as of September 30, 2017, of 1.24%).

For the three month periods ended September 30, 2017 and 2016, the Company incurred interest expense on its debt, exclusive of deferred financing cost amortization, of \$11.4 million and \$6.5 million, respectively. For the nine month periods ended September 30, 2017 and 2016, the Company incurred interest expense on its debt, exclusive of deferred financing cost amortization, of \$31.6 million and \$14.0 million, respectively.

Note 7. Derivatives

In the normal course of business, a variety of financial instruments are used to manage or hedge interest rate risk. The Company has implemented ASC 815, *Derivatives and Hedging* (ASC 815), which establishes accounting and reporting standards requiring that all derivatives, including certain derivative instruments embedded in other contracts, be recorded as either an asset or a liability measured at their fair value unless they qualify for a normal purchase or normal sales exception.

When specific hedge accounting criteria are not met, ASC 815 requires that changes in a derivative's fair value be recognized currently in earnings. Changes in the fair market values of the Company's derivative instruments are recorded in the consolidated statements of income if such derivatives do not qualify for, or the Company does not elect to apply for, hedge accounting. If hedge accounting is applied to a derivative instrument, such changes are reported in accumulated other

Table of Contents

comprehensive income within the consolidated statement of equity, exclusive of ineffectiveness amounts, which are recognized as adjustments to net income.

To manage interest rate risk for certain of its variable-rate debt, the Company uses interest rate swaps as part of its risk management strategy. These derivatives are designed to mitigate the risk of future interest rate increases by providing a fixed interest rate for a limited, pre-determined period of time. Interest rate swaps designated as cash flow hedges involve the receipt of variable-rate amounts from a counterparty in exchange for the Company making fixed-rate payments over the life of the agreements without exchange of the underlying notional amount. As of September 30, 2017, the Company had five outstanding interest rate swap contracts that are designated as cash flow hedges of interest rate risk. For presentational purposes, they are shown as one derivative due to the identical nature of their economic terms.

The effective portion of the change in the fair value of derivatives designated and that qualify as cash flow hedges is recorded in accumulated other comprehensive income (“AOCI”) on the consolidated balance sheets and is subsequently reclassified into earnings as interest expense for the period that the hedged forecasted transaction affects earnings. The ineffective portion of the change in fair value of the derivatives is recognized directly in earnings. For the nine months ended September 30, 2017, the Company recognized a \$0.2 million loss as a result of hedge ineffectiveness. Hedge ineffectiveness was insignificant for the three months ended September 30, 2017 and for the three and nine months ended September 30, 2016. The Company expects hedge ineffectiveness to be insignificant in the next 12 months.

The following table summarizes the location and aggregate fair value of the interest rate swaps on the Company’s consolidated balance sheets (in thousands):

Total notional amount	\$ 250,000
Effective fixed interest rate	(1)2.87 %
Effective date	7/7/2016
Maturity date	6/10/2023

Asset balance at December 31, 2016 (included in Other assets)	\$ 13,881

(1) 1.07% effective swap rate plus 1.80% spread per Credit Agreement.

On January 26, 2017, the Company entered into a \$300.0 million notional amount forward starting swap to reduce the exposure to fluctuations in interest rates related to the forecasted issuance of the 4.30% senior notes due in 2027. Upon the issuance of the senior notes on March 7, 2017, the forward starting swap was terminated and the Company realized a \$0.8 million loss which will be recognized over the life of the notes utilizing the effective interest method.

Note 8. Accrued Expenses and Other Liabilities

Table of Contents**Note 9. Stock-based Compensation**

The Company follows ASC 718, *Compensation - Stock Compensation* (“ASC 718”), in accounting for its share-based payments. This guidance requires measurement of the cost of employee services received in exchange for stock compensation based on the grant-date fair value of the employee stock awards. This cost is recognized as compensation expense ratably over the employee’s requisite service period. Incremental compensation costs arising from subsequent modifications of awards after the grant date must be recognized when incurred. Share-based payments classified as liability awards are marked to fair value at each reporting period. Any common shares issued pursuant to the Company’s incentive equity compensation and employee stock purchase plans will result in the Operating Partnership issuing OP Units to the Trust on a one-for-one basis, with the Operating Partnership receiving the net cash proceeds of such issuances.

Certain of the Company’s employee stock awards vest only upon the achievement of performance targets. ASC 718 requires recognition of compensation cost only when achievement of performance conditions is considered probable. Consequently, the Company’s determination of the amount of stock compensation expense requires a significant level of judgment in estimating the probability of achievement of these performance targets. Subsequent changes in actual experience are monitored and estimates are updated as information is available.

In connection with the IPO, the Trust adopted the 2013 Equity Incentive Plan (“2013 Plan”), which made available 600,000 common shares to be administered by the Compensation and Nominating Governance Committee of the Board of Trustees. On August 7, 2014, at the Annual Meeting of Shareholders of Physicians Realty Trust, the Trust’s shareholders approved an amendment to the 2013 Plan to increase the number of common shares authorized for issuance under the 2013 Plan by 1,850,000 common shares, for a total of 2,450,000 common shares authorized for issuance.

Restricted Common Shares

Restricted common shares granted under the 2013 Plan are eligible for dividends as well as the right to vote. In the nine month period ended September 30, 2017, the Trust granted a total of 143,593 restricted common shares with a total value of \$2.8 million to its officers and certain of its employees, which have vesting periods ranging from one to three years.

A summary of the status of the Trust’s non-vested restricted common shares as of September 30, 2017 and changes during the nine month period then ended follow:

	Common Shares	Weighted Average Grant Date Fair Value
Non-vested at December 31, 2016	296,785	\$ 16.16
Granted	143,593	19.74
Vested	(254,395)	16.04
Forfeited	(550)	18.78
Non-vested at September 30, 2017	185,433	\$ 19.08

For all service awards, the Company records compensation expense for the entire award on a straight-line basis over the requisite service period. For the three month periods ended September 30, 2017 and 2016, the Company recognized non-cash share compensation of \$0.8 million and \$0.9 million, respectively. For the nine month periods ended September 30, 2017 and 2016, the Company recognized non-cash share compensation of \$2.3 million and \$2.8 million, respectively. Unrecognized compensation expense at September 30, 2017 was \$1.8 million.

Restricted Share Units

In March 2017, under the 2013 Plan, the Trust granted restricted share units at a target level of 174,320 to its officers and certain employees and 32,831 to its trustees, which are subject to certain performance, timing, and market conditions and a three-year and two-year service period for officers/employees and trustees, respectively. In addition, each restricted share unit contains one dividend equivalent. The recipient will accrue dividend equivalents on awarded share units equal to the cash dividend that would have been paid on the awarded share unit had the awarded share unit been an issued and outstanding common share on the record date for the dividend.

Table of Contents

Approximately 70% of the restricted share units issued to officers and certain employees vest based on certain market conditions. The market conditions were valued with the assistance of independent valuation specialists. The Company utilized a Monte Carlo simulation to calculate the weighted average grant date fair value of \$33.43 per unit for the March 2017 grant using the following assumptions:

Volatility	21.5	%
Dividend assumption	reinvested	
Expected term in years	2.8	
Risk-free rate	1.68	%
Share price (per share)	\$ 19.80	

The remaining 30% of the restricted share units issued to officers and certain employees, and 100% of restricted share units issued to trustees, vest based upon certain performance or timing conditions. With respect to the performance conditions of the March 2017 grant, the grant date fair value of \$19.80 per unit was based on the share price at the date of grant. The combined weighted average grant date fair value of the March 2017 restricted share units issued to officers and certain employees is \$29.34 per unit.

The following is a summary of the activity in the Trust's restricted share units during the nine months ended September 30, 2017:

	Executive Awards		Trustee Awards	
	Restricted Share Units	Weighted Average Grant Date Fair Value	Restricted Share Units	Weighted Average Grant Date Fair Value
Non-vested at December 31, 2016	235,483	\$ 21.84	57,260	\$ 17.03
Granted	174,320	29.34	32,831	19.80
Vested	(55,680)	(1) 16.94	(38,871)	16.72
Non-vested at September 30, 2017	354,123	\$ 26.30	51,220	\$ 19.04

(1) Restricted units vested by Company executives in 2017 resulted in the issuance of 105,792 common shares, less 50,112 common shares withheld to cover minimum withholding tax obligations, for multiple employees.

For the three month periods ending September 30, 2017 and 2016, the Trust recognized non-cash share restricted unit compensation expense of \$1.0 million and \$0.6 million, respectively. For the nine month periods ended September 30, 2017 and 2016, the Trust recognized non-cash share unit compensation expense of \$2.7 million and \$1.5 million, respectively. Unrecognized compensation expense at September 30, 2017 was \$6.0 million.

Note 10. Fair Value Measurements

ASC Topic 820, *Fair Value Measurement* ("ASC 820"), requires certain assets and liabilities be reported and/or disclosed at fair value in the financial statements and provides a framework for establishing that fair value. The framework for determining fair value is based on a hierarchy that prioritizes the valuation techniques and inputs used to measure fair value.

In general, fair values determined by Level 1 inputs use quoted prices in active markets for identical assets or liabilities that the Company has the ability to access. Fair values determined by Level 2 inputs use other inputs that are observable, either directly or indirectly. These Level 2 inputs include quoted prices for similar assets and liabilities in active markets, and other inputs such as interest rates and yield curves that are observable at commonly quoted intervals.

Level 3 inputs are unobservable inputs, including inputs that are available in situations where there is little, if any, market activity for the related asset. These Level 3 fair value measurements are based primarily on management's own estimates using pricing models, discounted cash flow methodologies, or similar techniques taking into account the characteristics of the asset or liability. In instances where inputs used to measure fair value fall into different levels of the fair value hierarchy, fair value measurements in their entirety are categorized based on the lowest level input that is significant to the valuation. The assessment of the significance of particular inputs to these fair value measurements requires judgment and considers factors specific to each asset or liability.

The Company's derivative instruments as of September 30, 2017 consist of five interest rate swaps. For presentational purposes, the Company's interest rate swaps are shown as a single derivative due to the identical nature of their economic

Table of Contents

terms, as detailed in the Derivative Instruments section of Note 2 (Summary of Significant Accounting Policies) and Note 7 (Derivatives).

The Company's interest rate swaps are not traded on an exchange. The Company's derivative assets and liabilities are recorded at fair value based on a variety of observable inputs including contractual terms, interest rate curves, yield curves, measure of volatility, and correlations of such inputs. The Company measures its derivatives at fair value on a recurring basis. The fair values are based on Level 2 inputs described above. The Company considers its own credit risk, as well as the credit risk of its counterparties, when evaluating the fair value of its derivatives.

The Company also has assets that under certain conditions are subject to measurement at fair value on a non-recurring basis. This generally includes assets subject to impairment. There were no such assets measured at fair value as of September 30, 2017.

The carrying amounts of cash and cash equivalents, tenant receivables, payables, and accrued interest are reasonable estimates of fair value because of the short term maturities of these instruments. Fair values for real estate loans receivable and mortgage debt are estimated based on rates currently prevailing for similar instruments of similar maturities and are based primarily on Level 2 inputs.

The following table presents the fair value of the Company's financial instruments (in thousands):

	September 30, 2017		December 31, 2016	
	Carrying Amount	Fair Value	Carrying Amount	Fair Value

Note 11. Tenant Operating Leases

The Company is lessor of medical office buildings and other healthcare facilities. Leases have expirations from 2017 through 2045. As of September 30, 2017, the future minimum rental payments on non-cancelable leases, exclusive of expense recoveries, were as follows (in thousands):

2017	\$67,739
2018	269,984
2019	266,191
2020	261,454
2021	256,090
Thereafter	1,565,112
Total	\$2,686,570

Note 12. Rent Expense

Edgar Filing: Physicians Realty Trust - Form 10-Q

The Company leases the rights to parking structures at two of its properties, the air space above one property, and the land upon which 75 of its properties are located from third party land owners pursuant to separate leases. In addition, the Company leases four individual office spaces.

Table of Contents

The Company's leases require fixed rental payments and may also include escalation clauses and renewal options. These leases have terms of up to 98 years remaining, excluding extension options.

As of September 30, 2017, the future minimum lease obligations under non-cancelable parking, air, ground, and office leases were as follows (in thousands):

2017	\$580
2018	2,401
2019	2,328
2020	2,270
2021	2,283
Thereafter	106,531
Total	\$116,393

Rent expense for the parking, air, and ground leases of \$0.6 million and \$0.5 million for the three month periods ended September 30, 2017 and 2016, respectively, and \$1.8 million and \$1.3 million for the nine month periods ended September 30, 2017 and 2016, respectively, are reported in operating expenses in the consolidated statements of income. Rent expense for office leases was insignificant for the three and nine month periods ended September 30, 2017 and 2016, and is reported within general and administrative expenses in the consolidated statements of operations.

Note 13. Credit Concentration

The Company uses annualized base rent ("ABR") as its credit concentration metric. Annualized base rent is calculated by multiplying contractual base rent for the month ended September 30, 2017 by 12, excluding the impact of concessions and straight-line rent. The following table summarizes certain information about the Company's top five tenant credit concentrations as of September 30, 2017 (in thousands):

Tenant	Total ABR	Percent of ABR
CHI - Nebraska	\$16,018	5.9 %
CHI - KentuckyOne Health	13,120	4.8 %
Baylor Scott and White Health	7,402	2.7 %
US Oncology	6,689	2.5 %
CHI - St. Alexius (North Dakota)	6,235	2.3 %
Remaining portfolio	221,917	81.8 %
Total	\$271,381	100.0%

Annualized base rent collected from the Company's top five tenant relationships comprises 18.2% of its total annualized base rent for the period ending September 30, 2017. Total annualized base rent from CHI affiliated tenants totals 19.5%, including the affiliates disclosed above. Consolidated financial statements of CHI, the parent of the subsidiaries and affiliates of the entities party to master lease agreements, are publicly available on the Catholic Health Initiatives website (www.catholichealthinitiatvies.org/). Information included on the CHI website is not incorporated by reference within this Quarterly Report on Form 10-Q.

Item 2. Management’s Discussion and Analysis of Financial Condition and Results of Operations

The following discussion should be read in conjunction with our unaudited consolidated financial statements, including the notes to those statements, included in Part I, Item 1 of this report, and the Section entitled “Cautionary Statement Regarding Forward-Looking Statements” in this report. As discussed in more detail in the Section entitled “Cautionary Statement Regarding Forward-Looking Statements,” this discussion contains forward-looking statements, which involve risks and uncertainties. Our actual results may differ materially from the results discussed in the forward-looking statements. Factors that might cause those differences include those discussed in Part II, Item 1A (Risk Factors) of this report, and Part I, Item 1A (Risk Factors) of our 2016 Annual Report, and Part II, Item 1A (Risk Factors) of our 2017 Quarterly Reports.

Overview

We are a self-managed healthcare real estate company organized in April 2013 to acquire, selectively develop, own, and manage healthcare properties that are leased to physicians, hospitals, and healthcare delivery systems. We invest in real estate that is integral to providing high quality healthcare services. Our properties are typically located on a campus with a hospital or other healthcare facilities or strategically located and affiliated with a hospital or other healthcare facilities. We believe the impact of government programs and continuing trends in the healthcare industry create attractive opportunities for us to invest in healthcare related real estate. In particular, we believe the demand for healthcare will continue to increase as a result of the aging population as older persons generally utilize healthcare services at a rate well in excess of younger people. Our management team has significant public healthcare REIT experience and has long established relationships with physicians, hospitals, and healthcare delivery system decision makers that we believe will provide quality investment and growth opportunities. Our principal investments include medical office buildings, outpatient treatment facilities, acute and post-acute care hospitals, as well as other real estate integral to health care providers. We seek to invest in stabilized medical facility assets with initial cash yields of 5.0% to 9.0%, although we invested in certain medical facility assets in 2017 with anticipated initial cash yields below 5.0% and we may invest in other medical facility assets with initial cash yields outside of this range. We seek to generate attractive risk-adjusted returns for our shareholders through a combination of stable and increasing dividends and potential long-term appreciation in the value of our properties and our common shares.

We have grown our portfolio of gross real estate investments from approximately \$124 million at the time of our IPO in July 2013 to approximately \$3.9 billion as of September 30, 2017. Since the date of our IPO through to September 30, 2017, our compounded annual growth rate was 130%. While we expect to continue to grow through property acquisitions and investments as our asset base continues to increase, we expect our annual growth rate to decelerate in the future.

As of September 30, 2017, our portfolio consisted of 270 healthcare properties located in 30 states with approximately 12,969,653 net leasable square feet, which were approximately 96.6% leased with a weighted average remaining lease term of approximately 8.4 years. As of September 30, 2017, approximately 80% of the net leasable square footage of our portfolio was either on campus with a hospital or other healthcare facility or strategically located and affiliated with a hospital or other healthcare facility. We expect to acquire between \$1.2 billion and \$1.4 billion of real estate during 2017, including the 2017 acquisitions described in this report, subject to favorable capital market conditions.

We receive a cash rental stream from these healthcare providers under our leases. Approximately 91.3% of the annualized base rent payments from our properties as of September 30, 2017 are from triple-net leases, pursuant to which the tenants are responsible for all operating expenses relating to the property, including but not limited to real estate taxes, utilities, property insurance, routine maintenance and repairs, and property management. This structure helps insulate us from increases in certain operating expenses and provides more predictable cash flow. Approximately 6.4% of the annualized base rent payments from our properties as of September 30, 2017 are from

modified gross base stop leases which allow us to pass through certain increases in future operating expenses (e.g., property tax and insurance) to tenants for reimbursement, thus protecting us from increases in such operating expenses.

We seek to structure our triple-net leases to generate attractive returns on a long-term basis. Our leases typically have initial terms of 5 to 15 years and include annual rent escalators of approximately 1.5% to 3.0%. Our operating results depend significantly upon the ability of our tenants to make required rental payments. We believe that our portfolio of medical office buildings and other healthcare facilities will enable us to generate stable cash flows over time because of the diversity of our tenants, staggered lease expiration schedule, long-term leases, and low historical occurrence of tenants defaulting under their leases. As of September 30, 2017, leases representing 0.5%, 3.5%, and 4.0% of leasable square feet in our portfolio will expire in 2017, 2018, and 2019, respectively.

Table of Contents

We intend to grow our portfolio of high-quality healthcare properties leased to physicians, hospitals, healthcare delivery systems and other healthcare providers primarily through acquisitions of existing healthcare facilities that provide stable revenue growth and predictable long-term cash flows. We may also selectively finance the development of new healthcare facilities through joint venture or fee arrangements with premier healthcare real estate developers. Generally, we only expect to make investments in new development properties when approximately 70% or more of the development property has been pre-leased before construction commences. We seek to invest in properties where we can develop strategic alliances with financially sound healthcare providers and healthcare delivery systems that offer need-based healthcare services in sustainable healthcare markets. We focus our investment activity on the following types of healthcare properties:

- medical office buildings;
 - outpatient treatment and diagnostic facilities;
- physician group practice clinics;
- ambulatory surgery centers; and
- specialty hospitals and treatment centers.

We believe that shifting consumer preferences, limited space in hospitals, the desire of patients and healthcare providers to limit non-essential services provided in a hospital setting, and cost considerations, among other trends, continue to drive the industry trend of performing procedures in outpatient facilities that have traditionally been performed in hospitals, such as surgeries and other invasive medical procedures. As these trends continue, we believe that demand for medical office buildings and similar healthcare properties will continue to rise, and that our investment strategy accounts for these trends.

We may invest opportunistically in life science facilities, assisted living, and independent senior living facilities and in the longer term, senior housing properties, including skilled nursing. Consistent with our qualification as a REIT, we may also opportunistically invest in companies that provide healthcare services, and in joint venture entities with operating partners, structured to comply with the REIT Investment Diversification Act of 2007 (“RIDEA”).

In each of December 2015, December 2016, March 2017 and June 2017, the U.S. Federal Reserve raised its benchmark interest rate by a quarter of a percentage point, and we expect interest rates to continue to rise at a measured pace. In addition, in the latter part of 2016, U.S. government bond prices fell significantly, which is generally inversely correlated with rising interest rates. In September 2017, the U.S. Federal Reserve announced that in October 2017, it will initiate a plan to reduce its approximately \$4.5 trillion portfolio of bonds acquired after the 2008 fiscal crisis in a program commonly known as quantitative easing, which could cause interest rates to rise. An increase in interest rates will affect our cost of borrowing (including with respect to our currently outstanding debt not subject to a fixed interest rate) and could adversely affect our business, our financial results and our ability to complete property acquisitions.

The Trust is a Maryland real estate investment trust and elected to be taxed as a REIT for U.S. federal income tax purposes. We conduct our business through an UPREIT structure in which our properties are owned by our Operating Partnership directly or through limited partnerships, limited liability companies or other subsidiaries. The Trust is the sole general partner of our Operating Partnership and, as of September 30, 2017, owned approximately 97.1% of the OP Units. As of October 31, 2017, there were 179,218,618 common shares outstanding.

Key Transactions in Third Quarter 2017

Investment Activity

Edgar Filing: Physicians Realty Trust - Form 10-Q

During the three months ended September 30, 2017, we completed acquisitions of 9 operating healthcare properties located in 7 states with approximately 481,773 net leasable square feet for an aggregate purchase price of approximately \$158.9 million. In addition, we completed \$30.3 million of loan transactions, and \$1.1 million of noncontrolling interest buyouts, resulting in total investment activity of approximately \$190.2 million. Acquisitions are detailed in Note 3 (Acquisitions and Dispositions) to our consolidated financial statements included in Part I, Item 1 of this report.

Table of Contents*Follow-on Public Offering*

In July 2017, the Trust completed a follow-on public offering of 21,500,000 common shares of beneficial interest, including 1,500,000 common shares issued upon partial exercise of the underwriters' option to purchase additional shares, resulting in net proceeds to it of approximately \$420.7 million. The Trust contributed the net proceeds of this offering to the Operating Partnership in exchange for 21,500,000 OP Units, and the Operating Partnership used the net proceeds of the public offering to repay borrowings under its unsecured revolving credit facility and for general corporate purposes, including working capital and funding acquisitions.

Assets Slated for Disposition

We consider 11 properties in five states, representing an aggregate of approximately 411,953 square feet of gross leasable area, to be slated for disposition as of September 30, 2017. These assets consist of five assets affiliated with Foundation Healthcare, Inc. (OTC: FDNH) ("Foundation Healthcare") and six additional properties which we believe no longer meet our core business strategy from a size, age, geography or line of business perspective.

Recent Developments*Quarterly Distribution*

On September 21, 2017, we announced that our Board of Trustees authorized and declared a cash distribution of \$0.23 per common share for the quarterly period ended September 30, 2017. The distribution was paid on October 18, 2017 to common shareholders and OP Unit holders of record as of the close of business on October 3, 2017.

Investment Activity

Since September 30, 2017, the Trust, through subsidiaries of its Operating Partnership, completed the acquisition of three healthcare properties with approximately 82,652 net leasable square feet for an aggregate purchase price of approximately \$28.7 million. Investment activity since September 30, 2017 is summarized below.

Property (1)	Location	Acquisition Date	Purchase Price (in thousands)
Franklin MOB & ASC	Franklin, TN	October 10, 2017	\$ 9,950
Davis Portfolio 2.0 (2 MOB's)	Minneapolis, MN	October 31, 2017	18,749
			\$ 28,699

(1) "MOB" means medical office building and "ASC" means ambulatory surgery center.

Components of Our Revenues, Expenses, and Cash Flow**Revenues**

Revenues consist primarily of the rental revenues and property operating expense recoveries we collect from tenants pursuant to our leases. Additionally, we recognize certain cash and non-cash revenues. These cash and non-cash revenues are highlighted below.

Rental revenues. Rental revenues represent rent under existing leases that is paid by our tenants, straight-lining of contractual rents and below-market lease amortization reduced by lease inducements and above-market lease amortization.

Edgar Filing: Physicians Realty Trust - Form 10-Q

Expense recoveries. Certain of our leases require our tenants to make estimated payments to us to cover their proportional share of operating expenses, including but not limited to real estate taxes, property insurance, routine maintenance and repairs, utilities, and property management expenses. We collect these estimated expenses and are reimbursed by our tenants for any actual expenses in excess of our estimates or reimburse tenants if our collected estimates exceed our actual operating expenses. The net reimbursed operating expenses are included in revenues as expense recoveries.

We have certain tenants with absolute net leases. Under these lease agreements, the tenant is responsible for operating and building expenses. For absolute net leases, we do not recognize operating expense or expense recoveries.

Table of Contents

Interest income on real estate loans and other. Represents interest income on mezzanine loans, term loans, notes receivable, income generated on tenant improvements, changes in the fair value of derivative instruments, and other. Interest income on the loans are recognized as earned based on the terms of the loans subject to evaluation of collectability risks.

Expenses

Expenses consist primarily of interest expense, general and administrative costs associated with operating our properties, operating expenses of our properties, depreciation and amortization, and costs we incur to acquire properties.

Interest expense. We recognize the interest expense we incur on our borrowings as interest expense. Additionally, we incur amortization expense for charges such as legal fees, commitment fees, and arrangement fees that reflect costs incurred with arranging certain debt financings. We generally recognize these costs over the term of the respective debt instrument for which the costs were incurred as a component of interest expense.

General and administrative. General and administrative expenses include certain expenses such as compensation, accounting, legal, and other professional fees as well as certain other administrative and travel costs, and expenses related to bank charges, franchise taxes, corporate filing fees, exchange listing fees, officer and trustee insurance costs, and other costs associated with being a public company.

Operating Expenses. Operating expenses include property operating expenses such as real estate taxes, property insurance, routine maintenance and repairs, utilities, and third party property management expenses, some of which are reimbursed to us by tenants under the terms of triple net and modified gross base stop leases.

Depreciation and amortization. We incur depreciation and amortization expense on all of our long-lived assets. This non-cash expense is designed under generally accepted accounting principles, or GAAP, to reflect the economic useful lives of our assets.

Acquisition expenses. Acquisition costs are costs we incur in pursuing and closing property acquisitions accounted for as business combinations. These costs include legal, accounting, valuation, other professional or consulting fees, and the compensation of certain employees who dedicate substantially all of their time to acquisition related job functions. We account for acquisition-related costs as expenses in the period in which the costs are incurred and the services are received.

Equity in income of unconsolidated entities. We recognize our share of earnings and losses from unconsolidated joint venture investments in Arizona and Louisiana.

Cash Flow

Cash flows from operating activities. Cash flows from operating activities are derived largely from net income by adjusting our revenues for those amounts not collected in cash during the period in which the revenue is recognized and for cash collected that was billed in prior periods or will be billed in future periods. Net income is further adjusted by adding back expenses charged in the period that are not paid for in cash during the same period. We expect to make our distributions based largely from cash provided by operations.

Cash flows from investing activities. Cash flows from investing activities consist of cash that is used during a period for making new investments and capital expenditures, offset by cash provided from sales of real estate investments.

Cash flows from financing activities. Cash flows from financing activities consist of cash we receive from debt and equity financings. This cash provides the primary basis for investments in new properties and capital expenditures. While we may invest a portion of our cash from operations into new investments, as a result of the distribution requirements to maintain our REIT status, it is likely that additional debt or equity financings will finance the majority of our investment activity. Cash used in financing activities consists of repayment of debt and distributions paid to shareholders and OP Unit holders.

Revenues

Total revenues increased \$23.0 million, or 32.8%, for the three months ended September 30, 2017 as compared to the three months ended September 30, 2016. An analysis of selected revenues follows.

Rental revenues. Rental revenues increased \$16.1 million, or 30.2%, from \$53.3 million for the three months ended September 30, 2016 to \$69.4 million for the three months ended September 30, 2017. The increase in rental revenues primarily resulted from our 2017 and 2016 acquisitions in the last twelve months which resulted in additional rental revenue of \$13.0 million and \$6.2 million, respectively. Revenues during the three months ended September 30, 2017 were partially offset by declines in rental income recognized at the Kennewick medical office building located in Kennewick, Washington (the “Kennewick MOB”) of \$1.7 million and at certain of our Foundation Healthcare buildings of \$0.9 million.

Expense recoveries. Expense recoveries increased \$6.7 million, or 46.9%, for the three months ended September 30, 2017 as compared to the three months ended September 30, 2016. The increase in expense recoveries primarily resulted from our 2017 and 2016 acquisitions which resulted in additional expense recoveries of \$4.9 million and \$2.0 million, respectively, partially offset by reduced expense recoveries on prior period acquisitions.

Interest income on real estate loans and other. Interest income on real estate loans and other increased \$0.2 million, or 7.2%, for the three months ended September 30, 2017 as compared to the three months ended September 30, 2016. The increase is attributable to \$0.8 million of interest earned on the Company’s outstanding real estate loans receivable and deposit accounts and \$0.5 million of income from tenant improvements build outs in excess of allowance given. Additionally, we recognized a decrease of \$0.9 million of other income related to an expired contingent liability.

Expenses

Total expenses increased by \$20.7 million, or 34.7%, for the three months ended September 30, 2017 as compared to the three months ended September 30, 2016. An analysis of selected expenses follows.

Table of Contents

Interest expense. Interest expense for the three months ended September 30, 2017 was \$12.0 million compared to \$7.3 million for the three months ended September 30, 2016, representing an increase of \$4.7 million, or 64.4%. An increase of \$4.4 million resulted from the issuance of our senior unsecured notes in March 2017.

General and administrative. General and administrative expenses increased \$0.9 million or 19.2%, from \$4.9 million during the three months ended September 30, 2016 to \$5.9 million during the three months ended September 30, 2017. Increased costs were largely attributable to professional service fees and employee salaries and benefits.

Operating expenses. Operating expenses increased \$8.3 million or 43.4%, from \$19.2 million during the three months ended September 30, 2016 to \$27.5 million during the three months ended September 30, 2017. The increase is primarily due to our 2017 and 2016 property acquisitions which resulted in additional operating expenses of \$5.3 million and \$3.3 million, respectively, partially offset by a reduction in operating expenses associated with prior period acquisitions.

Depreciation and amortization. Depreciation and amortization increased \$9.0 million, or 37.6%, from \$24.0 million during the three months ended September 30, 2016 to \$33.0 million during the three months ended September 30, 2017. The increase is primarily due to our 2017 and 2016 property acquisitions which resulted in additional depreciation and amortization of \$6.5 million and \$2.7 million, respectively, partially offset by a reduction in depreciation and amortization associated with prior period acquisitions.

Acquisition expenses. Acquisition expenses decreased \$2.2 million, or 50.3%, from \$4.4 million during the three months ended September 30, 2016 to \$2.2 million during the three months ended September 30, 2017. During the three months ended September 30, 2017 and 2016, we acquired \$145.4 million and \$166.6 million, respectively, of real estate that were considered business combinations and as such, the related acquisition costs were expensed, including costs related to properties pursued but not acquired.

Equity in income of unconsolidated entities. The change in equity income from unconsolidated entity for the three months ended September 30, 2017 compared to the three months ended September 30, 2016 is not significant.

Nine months ended September 30, 2017 compared to the nine months ended September 30, 2016.
