PROXY STATEMENT

GENERAL

This Proxy Statement is furnished to our shareholders in connection with the solicitation of proxies by our Board of Directors to be voted at the Annual Meeting of Shareholders to be held on April 8, 2008 at 11:00 a.m., or any adjournment or adjournments thereof. The cost of this solicitation will be borne by us, Butler National Corporation (the "Company"). In addition to solicitation by mail, our officers, directors and employees may solicit proxies by telephone, telegraph, or in person. We may also request banks and brokers to solicit their customers who have a beneficial interest in our Common Stock registered in the names of nominees and will reimburse such banks and brokers for their reasonable out-of-pocket expenses.

Any proxy may be revoked at any time before it is voted by written notice to the Secretary, by receipt of a proxy properly signed and dated subsequent to an earlier proxy, or by revocation of a written proxy by request in person at the Annual Meeting; but if not so revoked, the shares represented by such proxy will be voted. The mailing of this proxy statement to our shareholders commenced on or about March 3, 2008. Our corporate offices are located at 19920 W. 161st Street, Olathe, Kansas 66062 and our telephone number is (913) 780-9595.

We have outstanding only one class of Common Stock, par value \$0.01 per share ("Common Stock"), 54,133,896 of which 53,855,323 shares were issued, outstanding and entitled to vote at the Annual Meeting. Each share is entitled to one vote. Shareholders may not cumulate votes in the election of directors. Only shareholders of record at the close of business on February 26, 2008, will be entitled to vote at the meeting. The presence in person or by proxy of the holders of 35% of the shares of Common Stock entitled to vote at the Annual Meeting of Shareholders constitutes a quorum for the transaction of business. The shares represented by the enclosed proxy will be voted if the proxy is properly signed and received prior to the meeting.

VOTING

Our Bylaws require that 35% of the votes of the shares of Common Stock issued, outstanding and entitled to vote at the Annual Meeting be present in person or represented by Proxy at the Annual Meeting in order to constitute a quorum for the transaction of business. Provided a quorum is present, the affirmative vote of a plurality of the votes cast by the holders of our Common Stock present in person or represented by Proxy at the Annual Meeting and entitled to vote on the subject matter is required for the election of directors and for

the approval of the actions described herein. Votes that are cast against the proposals are counted both for purposes of determining the presence or absence of a quorum for the transaction of business and for purposes of determining the total number of votes cast on a given proposal. Abstentions will be counted for purposes of determining both the presence or absence of a quorum for the transaction of business and the total number of votes cast on a given proposal, and therefore will have the same effect as a vote against a given proposal. Broker non-votes (i.e., a proxy card returned by a holder on behalf of its beneficial owner that is not voted on a particular matter because voting instructions have not been received and the broker has no discretionary authority to vote) will be counted as present or represented for purposes of determining the presence or absence of a quorum for the transaction of business but will not be counted for purposes of determining the number of votes cast with respect to a particular proposal for which authorization to vote was withheld. Accordingly, broker non-votes will not be considered as votes cast and thus will not affect the outcome of voting on a proposal.

SHAREHOLDER PROPOSALS

The proxy rules of the Securities and Exchange Commission permit shareholders of a company, after timely notice to the company, to present proposals for shareholder action in the company's proxy statements where such proposals are consistent with applicable law, pertain to matters appropriate for shareholder action and are not properly omitted by company action in accordance with the proxy rules.

The Butler National Corporation 2008 Annual Meeting of Shareholders is expected to be held on or about October 6, 2008, and proxy materials in connection with that meeting are expected to be mailed on or about September 2, 2008. Shareholder proposals prepared in accordance with the proxy rules must be received by the Company on or before May 3, 2008.

EXECUTIVE COMPENSATION

COMPENSATION DISCUSSION AND ANALYSIS:

Our compensation programs are designed to support our business goals and promote both short-term and long-term growth. This section of the proxy statement explains how our compensation programs are designed and operate in practice with respect to our listed officers. Our listed officers are the CEO, CFO, and three most highly compensated executive officers in a particular year. The "Executive Compensation" section presents compensation earned by the listed officers for fiscal years ending April 30, 2007, 2006 and 2005.

The Compensation Committee of the Board of Directors determines the compensation for Butler National's executive officers. Our executive officers have the broadest job responsibilities and policy-making authority in the company. The Committee reviews and determines all components of executive officers' compensation, including making individual compensation decisions and reviewing and revising the executive officer compensation plans, programs, and guidelines as appropriate. The Committee also consults with management regarding non-executive employee compensation programs.

Our Compensation Philosophy

The core element of our overall compensation philosophy is the alignment of pay and performance. Total compensation varies with individual performance and Butler National's performance in achieving financial and non-financial objectives. Our equity plans are designed to ensure that executive compensation is aligned with the long-term interests of our stockholders. The Committee and our management believe that compensation should help to recruit, retain, and motivate the employees that the company will depend on for current and future success. The Committee and our management also believe that the proportion of "at risk" compensation (variable cash compensation and equity) should rise as an employee's level of responsibility increases. This philosophy is reflected in the following key design priorities that govern compensation decisions:

- ◆ pay for performance
- ◆ employee recruitment, retention, and motivation
- ◆ cost management
- ◆ egalitarian treatment of employees
- ◆ alignment with stockholders' interests
- ◆ continued focus on corporate governance

Each element of compensation reflects one or more of these design priorities. In most cases, our employees, including executive officers, are employed at will, without employment agreements, severance payment arrangements (except as required by local law), or payment arrangements that would be triggered by a "change in control" of Butler National. Retirement plan programs are broad-based; Butler National does not provide special retirement plans or benefits solely for executive officers.

Total compensation for the majority of our employees including executive officers, includes two or more of the following components:

- ◆ base salary
- ◆ annual and semiannual incentive cash payments
- ◆ equity grants (no grants since fiscal 2003)
- ◆ Employee stock purchase plan
- ◆ retirement benefits
- ◆ health and welfare benefits

The Compensation Committee and management continue to believe that a similar method of compensating all employees with cash, equity and retirement benefits supports a culture of fairness, collaboration, and egalitarianism.

Determining Executive Compensation

The Committee reviews and determines the compensation for Butler's executive officers. The Committee's process for determining compensation includes a review of Butler's executive compensation and practices, and an analysis, for each Butler executive officer, of all elements of compensation. The Committee compares these compensation components separately and in total to compensation in the industry and each geographic location. In determining base salary the Committee reviews company and individual performance information.

Base Salary

The Committee establishes executive officers' base salaries at levels that it believes are reasonable for comparable positions. When the Committee determines the executive officers' base salaries during the first quarter of the year, the Committee takes into account each officer's role and level of responsibility at the company. In general, executive officers with the highest level and amount of responsibility have received the highest base salaries. In January 2007, the Committee increased base salaries for the listed officers based on the Committee's

review of the officers' current performance and expected future contributions.

PAY COMPONENT	BRIEF DESCRIPTION
Base Salary	Described in detail in separate paragraph above titled Base Salary.
Annual and Semiannual Incentive Cash Payments	Paid as discretionary cash bonuses to individual employees for outstanding performance of a task.
Equity Grants	Regulatory provisions since 2003 are too complex to allow us to safely award equity grants.
Employee Stock Purchase Plan	Any employee may purchase the Company stock at the fair market value at the date of purchase without broker or issue fees. The stock is restricted and not considered a stock reward. We have the 1981 Employee Stock Purchase plan. No shares have been purchased under this plan since 1988.
Retirement Benefits	We pay the required federal and state retirement contributions, the required unemployment contributions and match the employee's contribution to their account in the Butler National Corporation 401(k) plan.
Health and Welfare Benefits	We pay a share of the health, dental, vision and life insurance costs for the employee.

COMPENSATION COMMITTEE REPORT ON EXECUTIVE COMPENSATION

On an annual basis, the Compensation Committee reviews the salaries and performance adjustments of the executive officers and oversees the administration of our compensation program.

In accordance with Securities and Exchange Commission rules designed to enhance disclosure of companies' policies toward executive compensation, the following report is submitted by the below listed committee members in their capacity as the Board's Compensation Committee. The report addresses our Company's compensation policy as it related to the executive officers for fiscal 2007.

General Compensation Policy. The Compensation Committee of the Board of Directors was, and continues to be, guided by a belief that executive compensation should reflect our performance (as evidenced by revenue, operating ratio (operating expenses divided by operating revenue), operating income and earnings per share), while at the same time considering surrounding competitive pressures, retention of key executive officers and individual performance as evidenced by informal evaluations. The Compensation Committee has not yet adopted a policy with respect to the \$1,000,000 limitation on deductibility of executive compensation under Section 162(m) of the Internal Revenue Code of 1986, as amended.

2007 Compensation. To meet the goals of our compensation policy, the executive compensation package integrates (i) annual base salary, (ii) current year performance adjustments to such salary, and (iii) stock option grants under our 1989, 1993 and 1995 Plans. The overall compensation policy, as implemented, endeavors to enhance our profitability (and, thus, shareholder value) by tying the financial interests of the management with our financial interests.

Base Salary. The Compensation Committee, upon the recommendation of the CEO, initially determines the amount of executive officer base salary based on factors such as prior level of pay, quality of experience, responsibilities of position and salary levels of similarly positioned executives in other companies.

For all officers, raises are determined subjectively by recommendation of the CEO and are approved by the Compensation Committee. Such raises are based upon informal evaluation by the CEO and, to a lesser extent, other executive officers.

Performance Adjustments. Once base salary has been determined, the Compensation Committee divides the executive officers into two groups: Operating Officers and Administrative Officers. The Operating Officers consist of Mr. Stewart (CEO), Mr. Franke (Vice President-Aircraft Modifications), Mr. Wagoner (Vice President-Avionics), and Mr. Beadle, (President-BNSI). For Mr. Beadle we have in place a Performance Plan which couples the executive's cash compensation with specific improvements in our operating income. Each Performance Plan is specific to the Operating Officer's segment. Generally, the incentive bonus is five percent (5%) of the business segment net income before income taxes from the business segment currently under the control of the officer. Business segment net income is defined to include all ordinary and necessary business expenses associated with the operations and financing of the business segment but does not include an allocation of corporate overhead.

In 2007, Mr. Beadle received performance adjustments.

Administrative Officers do not participate in the Performance Plan and, thus, do not receive a performance incentive bonus.

Stock Option Awards. The Compensation Committee may also award stock options to executive officers under the 1989, 1993 and 1995 Plans. In general, the Committee believes that stock options are an effective incentive for executive to create value for shareholders since the value of an option bears a direct relationship to appreciation in our stocks price. Obviously, when shareholder value decreases, the stock options granted to executives either decrease in value or have no value.

In 2006, the Compensation Committee did not grant any options to executive officers or employees.

President and CEO Compensation. Clark D. Stewart, our President and CEO, has an employment agreement with our Company through December 31, 2013.

Summary. The Compensation Committee believes that our executive officers are dedicated to achieving significant improvements in long-term financial performance and that the compensation policies and programs contribute to achieving this senior management focus. The Compensation Committee believes that the compensation levels during 2007 adequately reflect our compensation goals and policies.

PROPOSAL TO AMEND THE COMPANY'S ARTICLE OF INCORPORATION

TO EFFECT A REVERSE STOCK SPLIT AT A RATIO BETWEEN
ONE-FOR-TWO AND ONE-FOR-THIRTY SHARES

(Item No. 3)

General

The Board of Directors has approved, declared advisable and recommends that our stockholders vote **FOR** the proposal to amend our certificate of incorporation to implement a reverse split (the "Reverse Stock Split") at a ratio of between 1-for-2 (1:2) and 1-for-30 (1:30) in the form set forth in Exhibit A to this Proxy Statement (the "Amendment"). A vote **FOR** this Proposal will constitute approval of the Amendment providing for the combination of any whole number of shares of Company common stock, par value \$0.01 (the "Common Stock") between and including two (2) and thirty (30) into one share of Common Stock and will grant the Board of Directors the discretionary authority to select which of the approved Reverse Stock Split ratios within that range will be implemented. **If the stockholders approve this Proposal, the Board of Directors will have the authority, but not the obligation, in its sole and absolute discretion, and without further action on the part of the stockholders, to select one of the approved split ratios and effect the approved Reverse Stock Split by filing the Amendment with the Kansas Secretary of State at any time after the Board's approval of the Reverse Stock Split ratio.** If the Amendment has not been filed with the Kansas Secretary of State by the close of business April 7, 2010, the Board of Directors will abandon the Amendment constituting the Reverse Stock Split. If the Reverse Stock Split is implemented, the Amendment would not reduce the number of authorized shares of our Common Stock and would not change the par value of a share of our Common Stock. Each stockholder will hold the same percentage of Common Stock outstanding immediately prior to the Reverse Stock Split as such stockholder held immediately prior to the Reverse Stock Split but for any fractional shares created from the Reverse Stock Split being rounded up to the nearest whole share of Common Stock.

Purpose and Background of the Reverse Stock Split

Relisting. The Common Stock was previously listed on the NASDAQ Capital Market (formerly the NASDAQ SmallCap Market). The Reverse Stock Split is an attempt to raise the per share trading price of our Common Stock in an effort to gain relisting on the NASDAQ Capital Market. The Board of Directors believes that the relisting of the Company's Common Stock on the NASDAQ Capital Market may be important for the marketability of the Common Stock and the prestige of the Company in the financial community. The Common Stock was delisted on January 18, 1999, and has been traded on the OTC Bulletin Board since the delisting.

Before our Common Stock may be listed on the NASDAQ Capital Market, we must satisfy certain listing requirements. One of these listing requirements is that our Common Stock must have a minimum bid price of \$4.00 per share. On December 31, 2007, the closing bid price of our Common Stock on the OTC Bulletin Board was \$0.35. However, whether we are relisted or not is beyond the control of the Company and may depend on a number of factors in addition to the quantitative criteria discussed herein, and there can be no assurance that the Common Stock will be relisted on the Nasdaq Capital Market even if a Reverse Stock Split is effected. Furthermore, there can be no assurance that the market price of the Common Stock will increase to, or remain above, the required continuous listing price per share after a Reverse Stock Split. The Company is aware that following a reverse stock split, a company's stock price may frequently fail to reach or sustain a price equal to the pre-split price multiplied by the reverse split multiple.

We believe that the ability of others, namely investment firms, to disseminate relevant information about our business is inhibited by the speculative image and sometimes classification of a low-priced stock. Moreover, the market for a low-priced, unlisted stock is often exaggerated, with significant volatility and insufficient liquidity. A market such as this may become inaccessible for stockholders and the general public alike. This potentially affects the performance of a stock and return on the investment. Also noteworthy, many reputable

investment firms do not allow the solicitation or marketing of a stock under a minimum price and/or not trading on a listed exchange. In some cases the price limitation is on stocks trading below \$1.00 per share, others \$3.00 per share and, less commonly, \$5.00 per share.

Theoretically, the number of shares outstanding should not, by itself, affect the marketability of the Common Stock, the nature of investors who acquire it, or the Company's reputation in the financial community. However, in practice this is not necessarily the case, as certain investors view low-priced stock as unattractive or, as a matter of policy, may not extend margin credit on stock trading at low prices, although certain other investors may be attracted to low-priced stock because of the greater trading volatility sometimes associated with such securities. Many brokerage houses are reluctant to allow trading of lower-priced stock, recommend lower-priced stock to their clients or to hold it in their own portfolios. Further, a variety of brokerage house policies and practices discourage individual brokers within those firms from dealing in low-priced stock because of the time-consuming procedures that make the handling of low-priced stock unattractive to brokerage houses from an economic standpoint. We hope that the decrease in the number of shares of outstanding Common Stock resulting from the reverse stock split, and the anticipated increase in the per share trading price, will encourage greater interest in our Common Stock among members of the financial community and the investing public and possibly create a more liquid market for our stockholders. However, the possibility exists that stockholder liquidity may be adversely affected by the reduced number of shares which would be outstanding if the reverse stock split is affected, particularly if the price per share of our Common Stock begins a declining trend after the reverse stock split is affected.

Growth Potential. The Board of Directors believes that the Company will need to raise and make considerable capital investments to properly support the Entertainment/Gaming business segment and to support the growth potential of the Aviation and Avionics business segments. A higher trading price for the Company's Common Stock should improve our access to capital and therefore better enable us to develop these businesses.

Certain Risk Factors Associated with the Reverse Stock Split

Reduced Market Capitalization. As noted above, one purpose of the Reverse Stock Split, if implemented, will be to raise the price of our Common Stock to obtain a listing on the NASDAQ Capital Market. We cannot assure you, however, that the Reverse Stock Split will accomplish this objective. While we expect that the reduction in our outstanding shares of Common Stock will increase the market price of our Common Stock, we cannot assure you that the Reverse Stock Split will increase the market price of our Common Stock by a multiple equal to the number of pre-Reverse Stock Split shares in the Reverse Stock Split ratio determined by the Board of Directors, or result in any permanent increase in the market price, which can be dependent upon many factors, including our business and financial performance and prospects. Should the market price decline after implementation of the Reverse Stock Split, the percentage decline may be greater, due to the smaller number of shares outstanding, than it would have been prior to the Reverse Stock Split. In some cases the share price of companies that have implemented reverse stock splits has subsequently declined back to pre-reverse split levels. Accordingly, we cannot assure you that the market price of our Common Stock immediately after the effective date of the proposed Reverse Stock Split will be maintained for any period of time or that the ratio of post and pre-split shares will remain the same after the Reverse Stock Split is effected, or that the Reverse Stock Split will not have an adverse effect on our stock price due to the reduced number of shares outstanding after the Reverse Stock Split. A reverse stock split is often viewed negatively by the market and, consequently, can lead to a decrease in our overall market capitalization. If the per share price does not increase proportionately as a result of the Reverse Stock Split, then our overall market capitalization will be reduced.

Increased Transaction Costs. The number of shares held by each individual stockholder will be reduced if the Reverse Stock Split is implemented. This will increase the number of stockholders who hold less than a "round lot," or 100 shares. Typically, the transaction costs to stockholders selling "odd lots" are higher on a per share

basis. Consequently, the Reverse Stock Split could increase the transaction costs to existing stockholders in the event they wish to sell all or a portion of their position.

Liquidity. Although the Board of Directors believes that the decrease in the number of shares of our Common Stock outstanding as a consequence of the Reverse Stock Split and the anticipated increase in the price of our Common Stock could encourage interest in our Common Stock and possibly promote greater liquidity for our stockholders, such liquidity could also be adversely effected by the reduced number of shares outstanding after the Reverse Stock Split.

No Appraisal Rights

Under the Kansas General Corporation Code, our stockholders are not entitled to appraisal rights with respect the Reverse Stock Split, and the Company is not independently providing and has not so provided stockholders with any such right.

Determination of the Ratio for the Reverse Stock Split

The ratio of the Reverse Stock Split will be determined by the Board of Directors, in its sole discretion. However, the ratio will not exceed a ratio of one-for-thirty (1:30) or be less than a ratio of one-for-two (1:2). In determining the Reverse Stock Split ratio, the Board of Directors will consider numerous factors including the historical and projected performance of the Common Stock, prevailing market conditions and general economic trends, and will place emphasis on the expected closing price of the Common Stock in the period following the effectiveness of the Reverse Stock Split. The Board of Directors will also consider the impact of the Reverse Stock Split ratio on investor interest. The purpose of selecting a range is to give the Board of Directors the flexibility to meet business needs as they arise, to take advantage of favorable opportunities and to respond to a changing corporate environment. Based on the number of shares of Common Stock issued and outstanding as of the Record Date, after completion of the Reverse Stock Split, we will have approximately between 26.9 million and 2.7 million shares of issued and outstanding Common Stock, depending on the ratio of the Reverse Stock Split determined by the Board of Directors. The following table sets forth the approximate number of issued and outstanding shares of Common Stock, and net profit per share for the year ended April 30, 2007, assuming each possible Reverse Stock Split outcome:

Effective Date; Exchange Act Registration Status

The proposed Reverse Stock Split of our Common Stock may be implemented by the Board of Directors at any time prior to close of business on the last day twenty-four (24) months following the date of this Annual Meeting. Meeting. The Reverse Stock Split would become effective as of 11:59 p.m., Central Standard Time (the "Effective Date"), on the date of filing the Amendment with the Kansas Secretary of State. On the Effective Date, shares of the Common Stock issued and outstanding immediately prior thereto will be combined, automatically and without any action on the part of the stockholders, into one share of the Common Stock in accordance with the Reverse Stock Split ratio determined by the Board. Any fractional shares will be rounded-up to the nearest whole number of shares. After the Effective Date, the Common Stock will have a new committee on uniform securities identification procedures ("CUSIP") number, which is a number used to identify our equity securities, and stock certificates with the old CUSIP number will need to be exchanged for stock certificates with the new CUSIP number by following the procedures described below. After the Effective Date, we will continue to be subject to periodic reporting and other requirements of the Securities Exchange Act of 1934, and our Common Stock will continue to be traded on the OTC Bulletin Board.

Effects of the Proposed Reverse Stock Split on Authorized Shares; Possible Anti-Takeover Effects

The Reverse Stock Split will affect all of our stockholders uniformly and will not change the proportionate equity interests of our stockholders, nor will the respective voting rights and other rights of stockholders be altered, except for possible changes due to the rounding-up into whole shares of Common Stock any fractional shares of Common Stock resulting from the Reverse Stock Split. Common Stock issued and outstanding pursuant to the Reverse Stock Split will remain fully paid and non-assessable. If implemented, the Reverse Stock Split would have the effect of increasing the amount of authorized, but unissued shares of our Common Stock that could be issued in the future by our Board of Directors without further stockholder approval. The proportion of unissued authorized shares to issued shares could, under certain circumstances, have an anti-takeover effect. For example, the issuance of a large block of our Common Stock could dilute the stock ownership of a person seeking to make a change in the composition of the Board of Directors or contemplating a tender offer or other transaction for the combination of the Company with another company. However, the authorization for the Board to implement the Reverse Stock Split is not being proposed in response to any effort of which we are aware to accumulate shares of Common Stock or obtain control of the Company, nor is it part of a plan by management to recommend to the Board and stockholders a series of amendments to our certificate of incorporation.

Exchange of Stock Certificates

The combination and reclassification of shares of Common Stock pursuant to the Reverse Stock Split will occur automatically on the Effective Date without any action on the part of stockholders of the Company and without regard to the date certificates representing shares of Common Stock prior to the Reverse Stock Split are physically surrendered for new certificates.

As soon as practicable after the Effective Date, transmittal forms will be mailed to each holder of record of certificates for shares of Common Stock to be used in forwarding such certificates for surrender and exchange for certificates representing the number of shares of Common Stock such stockholder is entitled to receive as a consequence of the Reverse Stock Split. The transmittal forms will be accompanied by instructions specifying other details of the exchange. Upon receipt of such transmittal form, each stockholder should surrender the certificates representing shares of Common Stock prior to the Reverse Stock Split, in accordance with the applicable instructions. Each holder who surrenders certificates will receive new certificates representing the number of shares of Common Stock that he or she holds as a result of the Reverse Stock Split. **STOCKHOLDERS SHOULD NOT SEND THEIR STOCK CERTIFICATES UNTIL THEY RECEIVE A TRANSMITTAL FORM.**

After the Effective Date, each certificate representing shares of Common Stock outstanding prior to the Effective Date (an "Old Certificate") will, until surrendered and exchanged as described above, be deemed, for all corporate purposes, to evidence ownership of the whole number of shares of Common Stock, into which the shares of Common Stock evidenced by such certificate have been converted by the Reverse Stock Split, except that the holder of such unexchanged certificates will not be entitled to receive any dividends or other distributions payable by the Company after the Effective Date, until the Old Certificates have been surrendered. Such dividends and distributions, if any, will be accumulated, and at the time of surrender of the Old Certificates, all such unpaid dividends or distributions will be paid without interest.

Effect on Registered and Beneficial Stockholders

Upon the Effective Date of the Reverse Stock Split, we intend to treat stockholders holding the Common Stock in "street name," through a bank, broker or other nominee, in the same manner as registered stockholders whose shares are registered in their names. Banks, brokers or other nominees will be instructed to affect the Reverse Stock Split for their beneficial holders holding the Common Stock in "street name." However, these banks, brokers or other nominees may apply their own specific procedures for processing the Reverse Stock Split. If you hold your shares with a bank, broker or other nominee, and if you have any questions in this regard, we encourage you to contact your nominee.

Procedures for Implementing the Reverse Stock Split

If our stockholders approve the proposal and our Board of Directors decides to implement a Reverse Stock Split, we will promptly file the Amendment with the Kansas Secretary of State. The Reverse Stock Split will become effective as set forth in the section captioned "Effective Date; Exchange Act Registration Status" above. As of the Effective Date of the Reverse Stock Split, each certificate representing shares of our Common Stock before the Reverse Stock Split would be deemed, for all corporate purposes, to evidence ownership of the reduced number of shares of our Common Stock resulting from the Reverse Stock Split. **However, a holder of any unexchanged certificates would not be entitled to receive any dividends or other distributions payable by us after the Effective Date, until the old certificates have been surrendered. Subject to the various escheat laws, such dividends and distributions, if any, would be accumulated, and at the time of surrender of the old certificates, all such unpaid dividends or distributions will be paid without interest.** All shares underlying options, warrants, convertible notes and other securities would also be automatically adjusted on the Effective Date. As soon as practicable after the Effective Date, stockholders and holders of stock options exercisable for our Common Stock would be notified of the effectiveness of the Reverse Stock Split. Stockholders of record would receive a letter of transmittal requesting them to surrender their old stock certificates for new stock certificates, which will bear a different CUSIP number, reflecting the adjusted number of shares as a result of the Reverse Stock Split. Persons who hold their shares in brokerage accounts or "street name" would not be required to take any further action to effect the exchange of their shares. No new certificates would be issued to a stockholder until such stockholder has surrendered any

outstanding certificates together with the properly completed and executed letter of transmittal to the exchange agent. Until surrender, each certificate representing shares before the Reverse Stock Split would continue to be valid and would represent the adjusted number of shares based on the ratio of the Reverse Stock Split. **Stockholders should not destroy any stock certificate and should not submit any certificates until they receive a letter of transmittal.**

Reservation of Right to Abandon the Reverse Stock Split

We reserve the right to abandon the Reverse Stock Split without further action by our stockholders at any time before the Effective Date of the Amendment, even if the Reverse Stock Split has been authorized by our stockholders at the Annual Meeting. **By voting in favor of the Reverse Stock Split, you are expressly also authorizing the Board of Directors to determine not to proceed with, and abandon, the Reverse Stock Split if it should so decide.**

Accounting Matters

The Reverse Stock Split will not change total stockholders' equity on our balance sheet. However, because the par value of the Common Stock will remain unchanged on the Effective Date, the components that make up total stockholders' equity will change by offsetting amounts. Depending on the size of the Reverse Stock Split the Board of Directors decides to implement, the stated capital component will be reduced to an amount between one-half (1/2) and one-thirtieth (1/30) of its present amount, and the additional paid-in capital component will be increased with the amount by which the stated capital is reduced. The per share net income or loss and net book value of the Common Stock will be increased because there will be fewer shares of our Common Stock outstanding. In addition, the historical amounts of net income or loss per common share previously reported by us, as well as all reference to Common Stock share amounts, will be restated to reflect the Reverse Stock Split as if it had been in effect as of the earliest reported period.

Federal Income Tax Consequences of the Reverse Stock Split

The following discussion describes certain material federal income tax considerations relating to the Reverse Stock Split. This discussion is based upon the Internal Revenue Code of 1986, as amended (the "Code"), existing and proposed regulations thereunder, legislative history, judicial decisions, and current administrative rulings and practices, all as amended and in effect on the date hereof. Any of these authorities could be repealed, overruled, or modified at any time. Any such change could be retroactive and, accordingly, could cause the tax consequences to vary substantially from the consequences described herein. No ruling from the Internal Revenue Service (the "IRS") with respect to the matters discussed herein has been requested, and there is no assurance that the IRS would agree with the conclusions set forth in this discussion.

This discussion may not address certain federal income tax consequences that may be relevant to particular stockholders in light of their personal circumstances (such as persons subject to the alternative minimum tax) or to certain types of stockholders (such as dealers in securities, insurance companies, foreign individuals and entities, financial institutions, and tax-exempt entities) who may be subject to special treatment under the federal income tax laws. This discussion also does not address any tax consequences under state, local, or foreign laws.

STOCKHOLDERS ARE URGED TO CONSULT THEIR TAX ADVISORS AS TO THE PARTICULAR TAX CONSEQUENCES TO THEM OF THE REVERSE STOCK SPLIT, INCLUDING THE APPLICABILITY OF ANY STATE, LOCAL, OR FOREIGN TAX LAWS, CHANGES IN APPLICABLE TAX LAWS, AND ANY PENDING OR PROPOSED LEGISLATION.

The Company should not recognize any gain or loss as a result of the Reverse Stock Split. No gain or loss should be recognized by a stockholder who receives only Common Stock upon the Reverse Stock Split. The aggregate tax basis of the shares of Common Stock held by a stockholder following the Reverse Stock Split will equal the stockholder's aggregate basis in the Common Stock held immediately prior to the Reverse Stock Split and generally will be allocated among the shares of Common Stock held following the Reverse Stock Split on a pro-rata basis. However, the IRS may take the position that the receipt of additional shares in lieu of fractional shares is a taxable dividend, in which case a stockholder would recognize dividend income equal to the fair market value of the additional shares received. Stockholders should consult their own tax advisors regarding the tax consequences to them in such case.

Vote Required for Approval of the Proposal

The affirmative vote of a majority of the shares of our Common Stock outstanding as of the record date is required to approve this proposal to amend our certificate of incorporation. Abstentions and broker non-votes will have the same effect as a vote against this proposal.
