HAVERTY FURNITURE COMPANIES, INC. AND SUBSIDIARIES
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(Unaudited)

NOTE A – Business and Reporting Policies

Haverty Furniture Companies, Inc. ("Havertys," "the Company," "we," "our," or "us") is a retailer of a broad line of residential furniture in the middle to upper-middle price ranges. We operate all of our stores using the Havertys brand and do not franchise our concept. We operate in one reportable segment, home furnishings retailing. The accompanying unaudited condensed consolidated financial statements have been prepared in accordance with the instructions to Form 10-Q and, therefore, do not include all information and footnotes required by U.S. generally accepted accounting principles ("U.S. GAAP") for complete financial statements. The financial statements include the accounts of the Company and its wholly-owned subsidiary. All significant intercompany accounts and transactions have been eliminated in consolidation. We believe all adjustments, normal and recurring in nature, considered necessary for a fair presentation have been included.

The preparation of condensed consolidated financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, disclosures of contingent assets and liabilities, and reported amounts of revenue and expenses. Actual results could differ from those estimates.

The Company is subject to various claims and legal proceedings covering a wide range of matters that arise in the ordinary course of its business activities. We believe that any liability that may ultimately result from the resolution of these matters will not have a material adverse effect on our financial condition, results of operations or cash flows.

Changes to U.S. GAAP are established by the Financial Accounting Standards Board (FASB) in the form of accounting standards updates (ASU's) to the FASB's Accounting Standards Codification. The Company considers the applicability and impact of all ASU's. Newly effective ASU's not noted herein were assessed and determined to be either not applicable or are expected to have minimal impact on our consolidated financial position or results of operations.

For further information, refer to the consolidated financial statements and footnotes thereto included in Havertys' Annual Report on Form 10-K for the year ended December 31, 2014.

NOTE B – Restricted Cash and Cash Equivalents

Our insurance carrier requires us to collateralize a portion of our workers' compensation obligations. These escrowed funds are shown as restricted cash and cash equivalents on our consolidated balance sheet and are investments in money market funds held by an agent. The annual agreement with our carrier governing these funds expires on December 31, 2015.

NOTE C – Investments

We have purchased certificates of deposit held for investment with original maturities greater than three months. The fair values of the certificates of deposit approximates their carrying amounts. Certificates of deposit with remaining maturities less than one year totaled \$6,250,000 and are classified as current and those with remaining maturities greater than one year totaled \$2,750,000 and are included in other assets.

NOTE D – Accounts Receivable

Amounts financed under our in-house credit programs were, as a percent of net sales, approximately 2.9% and 3.3% during the first three months of 2015 and 2014, respectively. The in-house credit program selected most often by our customers is "12 months no interest with equal monthly payments." The terms of the other programs vary as to payment terms (30 days to three years) and interest rates (0% to 21%). The receivables are collateralized by the merchandise sold.

HAVERTY FURNITURE COMPANIES, INC.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

Accounts receivable balances resulting from certain credit promotions have scheduled payment amounts which extend beyond one year. These receivable balances have been historically collected earlier than the scheduled dates. The amounts due per the scheduled payment dates approximate as follows: \$6.5 million in one year, \$0.7 million in two years, and \$0.2 million beyond two years for receivables outstanding at March 31, 2015.

Accounts receivable are shown net of the allowance for doubtful accounts of \$0.3 million at March 31, 2015 and \$0.4 million at December 31, 2014. We provide an allowance utilizing a methodology which considers the balances in problem and delinquent categories of accounts, historical write-offs, existing economic conditions and management judgment. Interest assessments are continued on past-due accounts but no "interest on interest" is recorded. Delinquent accounts are generally written off automatically after the passage of nine months without receiving a full scheduled monthly payment. Accounts are written off sooner in the event of a discharged bankruptcy or other circumstances that make further collections unlikely.

We believe that the carrying value of existing customer receivables, net of allowances, approximates fair value because of their short average maturity. Concentrations of credit risk with respect to customer receivables are limited due to the large number of customers comprising our account base and their dispersion across 16 states.

NOTE E – Interim LIFO Calculations

An actual valuation of inventory under the LIFO method can be made only at the end of each year based on actual inventory levels. Accordingly, interim LIFO calculations must necessarily be based on management's estimates. Since these estimates may be affected by factors beyond management's control, interim results are subject to change based upon the final year-end LIFO inventory valuations.

NOTE F – Income Taxes

Our tax provision for interim periods is determined using an estimate of our annual effective tax rate, adjusted for discrete items, if any, that are taken into account in the relevant period. Each quarter we update our estimate of the annual effective tax rate, and if our estimated tax rate changes, we make a year to date adjustment.

Our effective tax rate for the three months ended March 31, 2015 and 2014 was 38.4%. The primary difference in the effective rate and the statutory rate is due to state income taxes.

NOTE G – Fair Value of Financial Instruments

The fair values of our cash and cash equivalents, restricted cash and cash equivalents, accounts receivable, accounts payable and customer deposits approximate their carrying values due to their short-term nature. The assets related to our self-directed, non-qualified deferred compensation plans for certain executives and employees are valued using quoted market prices multiplied by the number of shares held, a Level 1 valuation technique. The assets related to our deferred compensation plans totaled approximately \$3.3 million at March 31, 2015 and \$2.7 million at December 31, 2014 and are included in other assets. The related liability of the same amount is included in other liabilities.

NOTE H – Pension Plans

On May 13, 2014, our defined benefit plan (the "Pension Plan") was terminated effective July 20, 2014. During the fourth quarter of 2014 Pension Plan participants received their earned benefits through the payment of lump-sum cash distributions, roll-over payments to other retirement accounts, and the purchase of annuity contracts from a third-party

insurance company. The Pension Plan was fully funded so no company contributions were required in 2014 to completely settle our obligations. Additional

HAVERTY FURNITURE COMPANIES, INC.
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(Unaudited)

information regarding the settlement of the Pension Plan can be found in our Annual Report on Form 10-K for the year ended December 31, 2014.

We also have a non-qualified, non-contributory supplemental executive retirement plan (SERP) for employees whose retirement benefits are reduced due to their annual compensation levels. The SERP limits the total amount of annual retirement benefits that may be paid to a participant in the SERP from all sources (Retirement Plan, Social Security and the SERP) to \$125,000. The SERP is not funded so we pay benefits directly to participants.

Net pension costs included the following components (in thousands):

	SERP Three Months Ended March 31, 2015 2014		Pension Plan Three Months Ended March 31, 2015 2014	
Service cost-benefits earned during period	\$—	\$—	\$N/A	\$31
Interest cost on projected benefit obligations	—	—		954
Expected return on plan assets	—	—		(1,214)
Amortization of prior service costs	52	52		—
Amortization of actuarial (gain) loss	29	—		79
Net pension costs	\$81	\$ 52	\$N/A	\$(150)

NOTE I – Stock Based Compensation Plan

As more fully discussed in Note 12 of the notes to the consolidated financial statements in our 2014 Annual Report on Form 10-K, we have awards outstanding for Common Stock under stock-based employee compensation plans.

The following table summarizes our award activity during the three months ended March 31, 2015:

	Restricted Stock Awards		Stock-Settled Appreciation Rights	
	Shares or Units	Weighted-Average Award Price	Rights	Weighted-Average Award Price
Outstanding at December 31, 2014	321,322	\$ 20.49	129,975	\$ 16.04
Granted	171,485	24.00	—	—
Restrictions lapsed or exercised	—	—	(19,100)	8.74
Forfeited	(2,802)	24.74	—	—
Outstanding at March 31, 2015	490,005	\$ 21.69	110,875	\$ 17.29
Exercisable at March 31, 2015	—	—	32,875	\$ 15.28

Grants of equity awards are made to certain officers and key employees under stockholder approved long-term incentive plans. The restrictions on most of the awards generally lapse annually, primarily over four year periods. During 2015, the Company granted 52,377 awards for which the shares ultimately issued will be based upon the achievement of various performance measures. The restricted units earned under most of these awards vest after three years. The compensation is being charged to selling, general and administrative expense over the respective grants' vesting periods, primarily on a straight-line basis. Stock based compensation expense for the three months ended March 31, 2015 and March 31, 2014, was approximately \$1.1 million and \$0.9 million, respectively. The aggregate intrinsic value of outstanding restricted common stock grants was \$12.2 million at March 31, 2015. The aggregate

intrinsic value of vested and outstanding stock-settled appreciation rights at March 31, 2015 was approximately \$0.3 million and \$0.8 million, respectively.

HAVERTY FURNITURE COMPANIES, INC.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

As of March 31, 2015, the remaining unamortized compensation cost related to unvested equity awards was approximately \$7.5 million and scheduled to be recognized over a weighted-average period of 2.5 years.

NOTE J – Earnings Per Share

We report our earnings per share using the two-class method. The income per share for each class of common stock is calculated assuming 100% of our earnings are distributed as dividends to each class of common stock based on their contractual rights.

The Common Stock of the Company has a preferential dividend rate of at least 105% of the dividend paid on the Class A Common Stock. The Class A Common Stock, which has ten votes per share as opposed to one vote per share for the Common Stock (on all matters other than the election of directors), may be converted at any time on a one-for-one basis into Common Stock at the option of the holder of the Class A Common Stock.

The following is a reconciliation of the earnings and number of shares used in calculating the diluted earnings per share for Common Stock and Class A Common Stock (in thousands):

	Three Months Ended March 31, 2015 2014	
Numerator:		
Common:		
Distributed earnings	\$1,646	\$1,610
Undistributed earnings	3,938	3,905
Basic	5,584	5,515
Class A Common earnings	535	614
Diluted	\$6,119	\$6,129
Class A Common:		
Distributed earnings	\$156	\$179
Undistributed earnings	379	435
	\$535	\$614
Denominator:		
Common:		
Weighted average shares outstanding - basic	20,569	20,157
Assumed conversion of Class A Common Stock	2,081	2,358
Dilutive options, awards and common stock equivalents	327	413
Total weighted-average diluted Common Stock	22,977	22,928
Class A Common:		
Weighted average shares outstanding	2,081	2,358

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Net Sales

Our sales are generated by customer purchases of home furnishings. Revenue is recognized upon delivery to the customer.

The following outlines our sales and comp-store sales increases and decreases for the periods indicated (dollars in millions, amounts and percentages may not always add to totals due to rounding):

Period	2015					2014				
	Net Sales		Comp-Store Sales			Net Sales		Comp-Store Sales		
	Total	%	\$	%	\$	Total	%	\$	%	\$
	Dollars	Change	Change	Change	Change	Dollars	Change	Change	Change	Change
Q1	\$191.3	5.3	% \$ 9.6	3.8%	\$ 6.6	\$181.7	(2.3)%	\$ (4.4)	(0.9)%	\$ (1.6)

Stores are non-comparable if open for less than one year or if the selling square footage has been changed significantly during the past 12 full months. Large clearance sales events from warehouse or temporary locations are excluded from comparable store sales as are periods when stores are closed.

Sales for the first quarter showed growth in all product categories. We experienced some imported product availability issues resulting from the West Coast port slowdown. This hampered both delivery throughput and our ability to predict future delivery dates for potential sales. We expect lead times to stabilize over the remainder of the second quarter of the year.

Our average written ticket was up 4.8% for the first quarter compared to the 2014 period as our design staff was involved in more transactions. The custom order segment of our upholstery continued to show strength as written business increased 11.1% in the first quarter of 2015.

Gross Profit

Gross profit for the first quarter of 2015 was 53.6%, down 20 basis points compared to the prior year period and slightly better than our estimates. The impact of increased freight costs associated with the port congestion resulting from the West Coast labor issues was not as great as we expected however we did have lower delivery fee revenues. We had a larger than normal number of new merchandise group introductions over the last six months. The closeout sales of the replaced products contributed to slightly lower margins in the first quarter and will have additional impact during the next two quarters.

We do not expect to be aggressive in our promotional strategy in the next few quarters but will likely have pressure on margins due to increased competition in the Dallas market beginning in the second quarter of 2015. Our expectation for annual gross profit margins for 2015 remains unchanged at approximately 53.3%.

Substantially all of our occupancy and home delivery costs are included in selling, general and administrative expenses as are a portion of our warehousing expenses. Accordingly, our gross profit may not be comparable to those entities that include these costs in cost of goods sold.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations (Continued)

Selling, General and Administrative Expenses

Selling, general and administrative ("SG&A") expenses are comprised of five categories: selling; occupancy; delivery and certain warehousing costs; advertising and marketing; and administrative.

Our SG&A costs as a percent of sales was unchanged at 48.2% for the three months ended March 31, 2015 and 2014. Total SG&A dollars for the first quarter of 2015 increased \$4.6 million compared to the prior year period. Our selling costs increased \$2.4 million in 2015 over 2014 due mainly to greater sales commissions, the training and additional staffing in our new stores, the expansion of our in-home design program, and higher third party creditor costs. Occupancy expense rose \$1.1 million primarily due to increases in depreciation. Our warehouse and delivery expense rose \$0.8 million in the current year period as we incurred additional personnel costs due to disruptions in the supply chain and from winter storms. Advertising and marketing expenses were \$0.5 million lower in the first quarter of 2015 as we changed the timing and mix of our media spending. Administrative costs rose \$1.1 million or 5.3% primarily from higher management and administrative salaries, data communications, and professional services.

Our normal fixed and discretionary type expenses within SG&A costs are expected to be approximately \$239.0 million to \$241.0 million for the full year 2015 versus the \$230.5 million, for the same costs in 2014. The increase is due to new stores, and higher advertising and personnel costs. The fixed and discretionary expenses were \$57.9 million for the first quarter of 2015 and should increase to an average of approximately \$60.0 to \$61.5 million per quarter for the rest of the year in connection with store expansion and marketing activity. The variable type costs within SG&A for the first quarter of 2015 were 18.0% and are anticipated to be approximately 17.5% to 17.7% percent of sales for the full year.

Liquidity and Capital Resources

Our primary cash requirements include working capital needs, contractual obligations, income tax obligations and capital expenditures. We have funded these requirements primarily through cash generated from operations. We have no funded debt and our lease obligations are primarily due to arrangements that are not considered capital leases but must be recorded on our balance sheets. We believe funds generated from our expected results of operations and available cash and cash equivalents will be sufficient to fund our primary obligations, dividends, stock repurchases and complete capital projects that we have underway or currently contemplate.

We also have a \$50.0 million revolving credit facility. Availability fluctuates under a borrowing base calculation and is reduced by outstanding letters of credit. The borrowing base was \$52.7 million and there were no outstanding letters of credit at March 31, 2015. Amounts available are based on the lesser of the borrowing base of \$52.7 million or the \$50.0 million line amount and reduced by \$6.2 million since a fixed charge coverage ratio test was not met for the immediately preceding twelve months, resulting in a net availability of \$43.8 million. There were no borrowed amounts outstanding under the facility at March 31, 2015.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations (Continued)

Summary of Cash Activities

Our cash flows provided by operating activities totaled \$13.6 million in the first three months of 2015 compared to \$8.4 million for the same period of 2014. This increase was primarily due to inventories being relatively flat in 2015 compared to a \$4.5 million increase in 2014 and a smaller decrease in accounts payable and accrued liabilities in 2015 compared to 2014. For additional information about the changes in our assets and liabilities refer to our Balance Sheet Changes discussion.

Our cash flows used in investing activities totaled \$5.7 million in the first three months of 2015 versus \$5.1 million for the same period of 2014. This increase was primarily due to increased capital expenditures in 2015.

Financing activities provided \$0.8 million in the first three months of 2015 compared to a use of cash of \$2.0 million for the same period of 2014. This difference was primarily the result of the receipt of \$3.3 million in construction allowances in 2015 from landlords at stores where Havertys is considered the owner of the property during the construction period.

Balance Sheet Changes for the Three Months Ended March 31, 2015

Our balance sheet as of March 31, 2015, as compared to our balance sheet as of December 31, 2014, changed as follows:

- decrease in other current assets of \$3.9 million primarily due to the receipt of construction allowances;
- increase in property and equipment of \$3.8 million primarily due to capital expenditures and additional leased properties recorded on our balance sheet;
- increase in customer deposits of \$5.9 million as special order and undelivered sales increased;
- decrease in accrued liabilities of \$4.3 million due to timing of payments; and
- increase in lease obligations of \$2.6 million as additional assets were recorded on our balance sheet.

Store Plans and Capital Expenditures

Our current plans for 2015 include opening four stores, two of which will be in new markets within our distribution network, and one store closure. During the first quarter we opened a new store in Coconut Creek, Florida. Our Rogers, Arkansas store opened in April and in May the Waco, Texas location should open, both new markets for Havertys. The 2015 planned changes will increase net selling square footage by 3.2% with our store count increasing to 122. Total capital expenditures are estimated to be in the \$32 to \$35 million range in 2015 depending on the timing of spending for new projects.

Off-Balance Sheet Arrangements

As of March 31, 2015 we had no off-balance sheet arrangements or obligations.

Critical Accounting Estimates

Critical accounting estimates are those that we believe are both significant and that require us to make difficult, subjective or complex judgments, often because we need to estimate the effect of inherently uncertain matters. We base our estimates and judgments on historical experiences and various other factors that we believe to be appropriate under the circumstances. Actual results may differ from these estimates, and we might obtain different estimates if we used different assumptions or conditions. Our critical accounting estimates are identified and described in our annual report on Form 10-K for the year ended December 31, 2014. We had no significant changes in those critical accounting estimates since our last annual report.

Forward-Looking Information

Certain of the statements in this Form 10-Q, particularly those anticipating future performance, business prospects, growth and operating strategies and similar matters, and those that include the words "believes," "anticipates," "estimates" or similar expressions constitute "forward-looking statements" within the meaning of Section 27A of the Securities Act of 1933, as amended and Section 21E of the Securities Exchange Act of 1934, as amended. For those statements, Havertys claims the protection of the safe harbor for forward-looking statements contained in the Private Securities Litigation Reform Act of 1995. There can be no assurance that the forward-looking statements will be accurate because they are based on many assumptions, which involve risks and uncertainties. The following important factors could cause future results to differ: changes in the economic environment; changes in the housing market; changes in industry conditions; competition; merchandise costs; energy costs; timing and level of capital expenditures; introduction of new products; rationalization of operations; and other risks identified in Havertys' SEC reports and public announcements.

10

Item 3. Quantitative and Qualitative Disclosures about Market Risk

There have been no material changes with respect to our financial instruments and their related market risks since the date of the Company's most recent annual report.

Item 4. Controls and Procedures

As of the end of the period covered by this report, an evaluation was performed under the supervision and with the participation of our management, including the Chief Executive Officer (CEO) and Chief Financial Officer (CFO), of the effectiveness of the design and operation of the Company's disclosure controls and procedures. Based on that evaluation, our management, including the CEO and CFO, concluded that the Company's disclosure controls and procedures were effective as of the end of the period covered by this report to provide reasonable assurance that information required to be disclosed in the reports the Company files or submits under the Securities Exchange Act of 1934 is recorded, processed, summarized, and reported within the time periods specified in the Securities and Exchange Commission's rules and forms and that such information is accumulated and communicated to our management, including the CEO and CFO, as appropriate, to allow timely decisions regarding disclosure.

There were no changes in our internal control over financial reporting that occurred during the quarter ended March 31, 2015 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II. OTHER INFORMATION

Item 1A. Risk Factors

In addition to the other information set forth in this report, you should carefully consider the factors discussed in Part I, "Item 1A. Risk Factors" in our Annual Report on Form 10-K for the year ended December 31, 2014, which could materially affect our business, financial condition or future results. The risks described in this report and in our Annual Report on Form 10-K are not the only risks facing the Company. Additional risks and uncertainties not currently known to us or that we currently deem to be immaterial also may materially adversely affect our business, financial condition or future results.

Item 6.Exhibits

(a) Exhibits

The exhibits listed below are filed with or incorporated by reference into this report (those filed with this report are denoted by an asterisk). Unless otherwise indicated, the exhibit number of documents incorporated by reference corresponds to the exhibit number in the referenced documents.
