All subsequent written and oral forward-looking statements attributable to the Company, or persons acting on its behalf, are expressed qualified in their entirety by these cautionary statements. The Company disclaims any obligation to update any forward-looking statements whether as a result of new information, future events or otherwise.

Important factors that may include, but are not limited to: the risk of a significant natural disaster, the inability of the Company to insure against certain risks, fluctuations in commodity prices, the inherent limitations in the ability to estimate oil and gas reserves, changing government regulations, as well as general market conditions, competition and pricing, and other risks detailed from time to time in the Company's SEC reports, copies of which are available upon request from the Company.

Results of Operations -

Total revenue for the first fiscal quarter increased 27 percent from \$401,774 in fiscal 2004 to \$509,946 in fiscal 2005. The increase in revenue was due primarily to an increase in oil and gas sales, and royalty revenue of \$126,624. No project and lease sales income occurred in the first fiscal quarter of 2005 as opposed to \$18,750 in income for fiscal 2004.

Total oil and gas sales (including royalty revenue) increased from \$381,822

Edgar Filing: PIONEER OIL & GAS - Form 10QSB

(2004) to \$508,446 (2005) in the first quarter. This increase was primarily due to higher product prices. Average oil prices for the quarter increased over the first quarter of fiscal 2004 from \$26.98 bbl to \$32.95 bbl while gas prices increased from \$4.20 MCF to \$5.86 MCF. For the quarter oil production increased 38 percent due to more oil production on our Hunter Mesa property and gas production was essentially unchanged.

Project and lease sales income for the quarter decreased from \$18,750 to \$0. The Company expects substantial project and lease income from the partial sale of our central Utah overthrust play next quarter.

Costs of operations decreased from \$181,906 (2004) to \$142,906 (2005) for the quarter due to less repair costs associated with the producing properties.

General and administrative expenses increased from \$79,830 to \$87,084.

The Company's net income for the first quarter increased from \$62,708 for fiscal 2004 to \$270,838 for fiscal 2005 an increase of \$208,130. Earnings per share for the first quarter of fiscal 2005 were \$.03. This compares to earnings of \$.01 for the same period last year.

Liquidity and Capital Resources

During the first quarter of fiscal 2004 net cash used in operating activities was \$90,094 while investing activities used \$67,719 in cash. Financing activities provided \$199,126 from utilization of the Company's line of credit. One of the larger uses of cash was \$360,312 for the purchase of resale leases to increase the Company's inventory of acreage for future development and sale. Cash at the end of the quarter increased from \$481,512 (Dec. 31, 2003) to \$532,403 (Dec. 31, 2004).
