ITEM 5. OTHER EVENTS

On July 1, 2004, General Motors Corporation (GM) issued a news release announcing June 2004 sales. The release is as follows:

GM Reports June Sales of 380,267, Down 15 Percent

Cadillac Sales Up 10 Percent in June, 11 Percent for Calendar Year-to-Date

DETROIT - General Motors dealers sold 380,267 new cars and trucks in June, down 15 percent compared to June 2003. GM's truck sales (218,558) were down 15 percent and car sales (161,709) were down 15 percent. Total sales through June (2,295,621) were up 1.0 percent. Truck sales through the first six months (1,350,083) were up 3 percent compared to year-ago levels, and car sales (945,538) declined 3 percent.

"Coming off strong May sales, GM's June sales were weaker than we expected," said John Smith, group vice president North America Vehicle Sales, Service and Marketing. "For the first half of the year, our sales were up slightly, led by growing truck sales and launch vehicles. For the second half of the year, we need to accelerate our selling pace and produce stronger results."

GM Truck Sales

GM truck sales in June declined 15 percent compared to industry record truck deliveries last year. Calendar year-to-date truck sales were up 3 percent and running at industry-record levels.

Although total utility sales (94,016) were down 19 percent in June compared to industry-record sales in 2003, deliveries for the first six months were up 7 percent (620,160) and remain on a record-setting pace. Deliveries of small utilities (14,779) climbed 11 percent in June and 35 percent in the first half of the year (82,048), paced by Chevrolet Equinox and Saturn Vue.

Sales of full-size vans (Chevrolet Express and GMC Savana) were up 6 percent for the month (14,000) and 21 percent for the calendar year-to-date (79,517).

GM Car Sales

GM car sales in June were down 15 percent. Economy car sales continued to build with 4,479 Chevrolet Aveo deliveries, its second best sales month since launch. Luxury car sales (20,858) gained 2 percent, led by the Cadillac CTS, which had 4,743 deliveries, up 3 percent.

Divisional Highlights

Chevrolet - Chevrolet sales for the calendar year-to-date (1,312,279) were up 4 percent. Malibu had solid sales in June with 15,593 deliveries, up 34 percent over May and up 10 percent for the first six months (66,154). Corvette sales (3,398) were up 44 percent for the month. On the truck side, Colorado deliveries

exceeded 10,000 units for the third consecutive month (10,166). Equinox sales were 6,964.

Cadillac - Cadillac sales through six months improved 11 percent (105,992). Cadillac posted strong sales in June (17,289), up 10 percent, paced by truck sales (6,705), which gained 45 percent. The Escalade portfolio had 4,614 deliveries, and the ESV had record June sales (1,246) and first-half sales (6,860). SRX had 2,091 deliveries. CTS continued its sales momentum with 4,743 deliveries, up 3 percent, setting new monthly and first-half (29,233) sales records.

GMC - GMC had 283,122 deliveries through June, an 8 percent increase over year-ago levels. Yukon had 42,107 deliveries in the first six months, establishing a new sales record. Sierra sales increased 8 percent in the first half (98,370). Canyon sales reached 1,875 units in June.

HUMMER - HUMMER sales were 2,175. H2 deliveries were 2,111.

Pontiac - Pontiac sales for the calendar year-to-date (255,636) were up 13 percent. Pontiac Vibe deliveries reached 6,130 units, a 6 percent increase compared to year-ago levels and a new monthly record. Grand Prix sales through June were 70,890, up 35 percent compared to year-ago levels. Bonneville sales (2,777) improved 55 percent in June and 20 percent for the calendar year (15,647), due in part to GXP sales.

Saturn - Vue sales for the calendar year-to-date (48,279) gained 16 percent compared to the same period last year and set a sales record

Buick - Buick truck sales (4,908) gained 18 percent compared to last June. Calendar year-to-date truck sales (43,389) were up 28 percent. Rainier had 1,399 deliveries.

GM Certified Used Vehicles, the industry's top-selling manufacturer-certified used brand, set a strong pace with June sales of 37,471 units, up 3.0 percent from the previous month and up 22 percent from June 2003. GM Certified Used Vehicles continued to lead all certified pre-owned brands industry-wide with 2004 sales of 201,948 units through June, an increase of 8 percent from the same period last year.

"GM is growing its leading position in the certified pre-owned segment, with GM Certified Used Vehicles recording its second-best monthly sales performance ever, and Used Cars from Saturn posting an increase of more than 23 percent from year-ago figures," Smith said. "GM continues to drive the certified pre-owned industry, with year-to-date sales up 8 percent from the same period in 2003."
