About Forward-Looking Statements

This Report on Form 8-K/A contains forward-looking statements that are based on management's expectations, estimates, projections and assumptions. These statements involve inherent risks and uncertainties that are difficult to predict and are not guarantees of future performance. The cost estimates contained in this Current Report on Form 8-K/A are forward-looking statements. Actual future results may differ materially from what is projected due to a variety of factors, including, but not limited to difficulties in completing the transactions for the disposition of our home equity and equipment leasing businesses as contemplated (which might result in an increase or decrease in estimates of amounts to be incurred) including: selling or otherwise reducing risk associated with home equity loans on our balance sheet; selling the assets or platform of our small-ticket equipment leasing business, including the completion of due diligence satisfactory to the purchaser; obtaining third party consents for the transfer of assets, platforms or servicing; satisfying conditions necessary to release purchase price proceeds from escrow in the home equity and equipment leasing transactions; obtaining the desired tax treatment for any dispositions associated with the home equity and equipment leasing transactions; or encountering regulatory constraints. We undertake no obligation to update publicly any of these statements in light of future events, except as required in subsequent reports we file with the SEC.
