Table of ContentsFLOW INTERNATIONAL CORPORATION
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(All tabular dollar amounts in thousands, except per share amounts)

(Unaudited)

Note 1: Basis of Presentation

In the opinion of the management of Flow International Corporation (the “Company”), the accompanying unaudited condensed consolidated financial statements (“financial statements”) are prepared in accordance with Generally Accepted Accounting Principles (“GAAP”) for interim financial information and rules and regulations of the Securities and Exchange Commission. Accordingly, certain information and footnote disclosures usually found in financial statements prepared in accordance with GAAP have been condensed or omitted. The unaudited financial statements reflect all adjustments, which in the opinion of management are necessary to fairly state the financial position, results of operations and cash flows for the interim periods presented. These financial statements should be read in conjunction with the audited consolidated financial statements and related notes included in the Company’s Annual Report on Form 10-K for the fiscal year ended April 30, 2012.

The preparation of these interim condensed consolidated financial statements requires management to make estimates and judgments that affect the reported amount of assets and liabilities, revenues and expenses, and related disclosure of contingent assets and liabilities at the date of the Company’s financial statements. Operating results for the three and six months ended October 31, 2012 may not be indicative of future results.

Fair Value of Financial Instruments

The carrying value of the Company’s current assets and liabilities approximate fair values due to the short-term maturity of these assets and liabilities. Nonfinancial assets and liabilities measured on a nonrecurring basis that are included in the Company’s Condensed Consolidated Balance Sheets consist of long-lived assets and a cost-method investment. Such nonfinancial assets are measured at fair value when impairment indicators exist. Due to significant unobservable inputs, the fair value measures used to evaluate impairment and to calculate a prevailing market interest rate are Level 3 inputs. There were no impairments identified for the three and six months ended October 31, 2012.

Note 2: Receivables, Net

Net receivables consisted of the following:

	October 31, 2012	April 30, 2012
Trade Accounts Receivable	\$36,814	\$36,802
Unbilled Revenues	11,831	11,152
	48,645	47,954
Less: Allowance for Doubtful Accounts	(1,012) (1,124
Receivables, net	\$47,633	\$46,830

Unbilled revenues do not contain any amounts which are expected to be collected after one year.

Note 3: Inventories

Inventories consisted of the following:

	October 31, 2012	April 30, 2012
Raw Materials and Parts	\$28,356	\$26,247
Work in Process	3,518	3,313
Finished Goods	9,786	10,509
Inventories	\$41,660	\$40,069

Note 4: Debt

Credit Facility

The Company has a \$25.0 million Credit Facility that matures March 2, 2014. Under the terms of the Credit Facility in effect as of October 31, 2012, the Company was required to maintain a maximum consolidated leverage ratio of 2.75x, and a

8

Table of Contents

minimum fixed charge coverage ratio of 1.75x. The terms of the Credit Facility define the leverage ratio as the ratio of consolidated indebtedness, excluding its outstanding subordinated notes, to consolidated adjusted Earnings Before Interest, Taxes, Depreciation and Amortization and other non-cash charges, which includes such items as stock-based compensation expense, foreign currency gains or losses, and other allowable add backs pursuant to our Credit Facility Agreement ("Adjusted EBITDA") for the most recent four fiscal quarters. The Fixed Charge Coverage Ratio is defined as the ratio of Adjusted EBITDA, less cash payments for income taxes and maintenance capital expenditures, during the most recent four fiscal quarters to the sum of certain interest charges during the most recent four quarters and scheduled debt repayments in the next four quarters.

The financial covenants are measured on a quarterly basis. The Company's leverage ratio and fixed charge coverage ratio were 0.56 and 46.4, respectively as of the fiscal quarter ended October 31, 2012. The Company's calculations of these financial ratios are reported in Exhibit No. 99.1 of this quarterly report on Form 10-Q. A violation of any of the Credit Facility covenants would result in an event of default and accelerate the repayment of all unpaid principal and interest and the termination of any letters of credit. The Company was in compliance with all of its financial covenants as of October 31, 2012. All of the Company's domestic assets and certain interests in some foreign subsidiaries are pledged as collateral under the three-year Credit Facility Agreement. In addition, the terms of the Credit Facility limit the Company's ability to pay dividends.

Interest on the Credit Facility is based on the bank's prime rate or LIBOR rate plus a percentage spread between 0.00% and 2.25% depending on whether it uses the bank's prime rate or LIBOR rate and based on the Company's current leverage ratio. The Company also pays an annual letter of credit fee ranging from 1.25% to 2.25% of the amount available to be drawn under each outstanding stand-by letter of credit. The annual letter of credit fee is payable quarterly in arrears and varies depending on the Company's leverage ratio.

There were no outstanding borrowings on the Company's Credit Facility as of October 31, 2012. Consequently, the Company had \$20.4 million available under this Credit Facility, net of \$4.6 million in outstanding letters of credit.

Revolving Credit Facility

The Company also maintains an unsecured credit facility in Taiwan for a total commitment of \$1.4 million at October 31, 2012, bearing interest at 2.5%. There were no outstanding balances under the Company's unsecured Taiwan credit facility as of October 31, 2012.

Subordinated Notes

The Company issued subordinated notes in fiscal year 2010 with a principal value of \$10.0 million and a 2% annual interest rate. The notes were originally recorded at a discount as the stated interest rate was below the Company's incremental borrowing rate, and the discount is being amortized to interest expense through maturity of the notes. The principal balance and accrued interest on the notes will aggregate to \$10.8 million when due in August 2013. As of October 31, 2012, the Company's subordinated notes and related interest of \$10.1 million are classified as current.

Note 5: Commitments and Contingencies

Warranty Obligations

The Company believes that its warranty accrual as of October 31, 2012, which is included in the Other Accrued Liabilities line item in the Condensed Consolidated Balance Sheets, is sufficient to cover expected warranty costs. The following table presents the Company's warranty obligation activity:

	Six Months Ended
	October 31,
	2012
	2011

Edgar Filing: FLOW INTERNATIONAL CORP - Form 10-Q

Beginning Balance	\$3,013	\$2,804
Increase in warranty liability on fiscal year sales	3,034	1,972
Reduction in warranty liability for claims in fiscal year	(2,605) (1,907
Ending Balance	\$3,442	\$2,869

9

Table of Contents

Legal Proceedings

At any time, the Company may be involved in legal proceedings arising in the normal course of conducting business. The Company's policy is to routinely assess the likelihood of any adverse judgments or outcomes related to legal matters, as well as ranges of probable losses. A determination of the amount of the reserves required, if any, for these contingencies is based on historical experience and an analysis of each known issue. The Company records reserves related to legal matters for which it is probable that a loss has been incurred and the range of such loss can be estimated. With respect to other matters, management has concluded that a loss is only reasonably possible or remote and, therefore, no liability is recorded. Management discloses the facts regarding material matters assessed as reasonably possible and potential exposure, if determinable. Costs incurred defending claims are expensed as incurred. Other than those described below, the Company does not believe that the resolution of any such matters will have a material adverse effect on its consolidated financial position, results of operations or cash flows.

In litigation arising out of a June 2002 incident at a Crucible Metals' ("Crucible") facility, the Company's excess insurance carrier is contesting its obligation to provide coverage for property damage. The suits over insurance coverage, Flow Autoclave Systems, Inc., Flow Pressure Systems, ABB Pressure Systems, Avure Technologies AB and Avure Technologies, Inc. v. Lumbermens Mutual Casualty and Kemper Insurance Co., and Lumbermens Mutual Casualty Company v. Flow International Corporation, Flow Autoclave Systems, Inc., Flow Pressure Systems, ABB Pressure Systems, Avure Technologies AB and Avure Technologies, Inc., were originally filed in Supreme Court of the State of New York, County of Onondaga, Index No. 2005-2126 in 2005, and sought a declaratory judgment of the rights of the parties under the insurance policy issued by the carrier. The carrier, Lumbermens Mutual Casualty Company, has settled the claims relating to this incident for a total of approximately \$3.4 million and is now seeking a declaratory judgment that it was not obligated to pay the claim, Lumbermens Mutual Casualty Company v. Flow International Corporation, Flow Autoclave Systems, Inc., Flow Pressure Systems, ABB Pressure Systems, Avure Technologies AB, Avure Technologies, Inc., Travelers Property Casualty Company of America and Zurich American Insurance Company as subrogees of Crucible Materials Corporation, and Crucible Materials Corporation, filed in United States District Court for the Northern District of New York on August 13, 2008, case number 08-CV-865. The trial originally scheduled for October 2012 has been postponed and is currently scheduled for January 2013. The Company is vigorously contesting the carrier's claim; however, the ultimate outcome or likelihood of this specific claim cannot be determined at this time and an unfavorable outcome ranging from \$0 to \$3.4 million is reasonably possible.

Other Claims or Assessments

In fiscal year 2009, the Company was notified by the purchaser of its Avure business (reported as a discontinued operation for the year ended April 30, 2006), that the Swedish Tax Authority was conducting an audit which included periods when the Company had owned the business. In the sale agreements, the Company made commitments to indemnify the purchaser for certain claims, including tax matters relating to the periods when it owned the business. The Swedish tax authority concluded its audit and issued a final report in November 2009 initially asserting that Avure owes 19.5 million Swedish Krona, approximately \$2.8 million at the initial date of assessment, in additional taxes, penalties and fines. In April 2010, the Company, on behalf of Avure, filed an appeal to contest the Swedish tax authority's assertion. Since the filing of the Company's appeal, there has been a hearing before the Swedish district court regarding our appeal. In August 2012, the Company received notice that the Swedish district court issued a ruling in favor of the Swedish tax authority. The Company continues to contest the findings and filed an appeal with the Administrative Court of Stockholm in September 2012. A charge was recorded in the first quarter of fiscal year 2010 related to the periods when the Company owned Avure. This charge was accounted for as an adjustment to the loss on the disposal of the Avure business and is reported as a charge to discontinued operations in the Company's Condensed Consolidated Statements of Operations. As of October 31, 2012, the Company has accrued \$1.3 million related to the Avure matter. The balance of the accrued liability will fluctuate period over period with changes in

foreign currency rates until such time as the matter is ultimately resolved.

Note 6: Shareholders' Equity

The Company maintains a stock-based compensation plan (the "2005 Plan") which was adopted to attract and retain talented employees and promote the growth and success of the business by aligning long-term interests of employees with those of shareholders. Shares are issuable in the form of common stock, restricted stock, performance stock units, stock options, stock appreciation rights, or cash awards.

Table of Contents

Stock Options

The following table summarizes stock option activities for the six months ended October 31, 2012:

	Number of Options	Weighted-Average Exercise Price	Aggregate Intrinsic Value	Weighted-Average Remaining Contractual Term (Years)
Outstanding at April 30, 2012	388,168	\$ 10.47	\$—	5.4
Granted	—	—		
Exercised	—	—		
Expired or forfeited	(13,140) 5.71		
Outstanding at October 31, 2012	375,028	\$ 10.64	\$—	5.1
Exercisable as of October 31, 2012	375,028	\$ 10.64	\$—	5.1
Vested and expected to vest as of October 31, 2012	375,028	\$ 10.64	\$—	5.1

The Company recognized compensation expense related to stock options of \$0.2 million for the six months ended October 31, 2011. There was no compensation expense recognized for options for the six months ended October 31, 2012 and all outstanding options are vested.

Service and Performance-Based Stock Awards

The Company grants stock awards to employees of the Company with service and/or performance conditions, and it also grants stock awards to non-employee directors. Each non-employee director is eligible to receive and is granted fully vested common stock worth \$40,000 annually. Performance-based stock awards are granted to executive officers and certain employees in management to align compensation with shareholder interests. Such awards generally vest over time; however, for certain awards, vesting occurs only when certain operating income targets are achieved. The compensation cost of the service-based common stock or restricted stock units are based on their fair value at the grant date and recognized ratably over the service period. The compensation cost of performance-based stock awards is measured based on their fair value at the grant date multiplied by the estimated percentage of performance stock units earned, and recognized ratably over the performance period.

The following table summarizes the service and performance-based stock award activities for employees for the six months ended October 31, 2012:

	Number of Shares	Weighted-Average Grant-date Fair Value
Nonvested at April 30, 2012	1,779,265	\$ 3.25
Granted	736,461	2.84
Vested	(574,248) 3.17
Forfeited	(41,717) 4.05
Nonvested at October 31, 2012	1,899,761	\$ 3.10

For the respective six months ended October 31, 2012 and 2011, the Company recognized compensation expense related to service and performance-based stock awards of \$1.3 million and \$1.0 million. As of October 31, 2012, total unrecognized compensation cost related to service and performance-based stock awards of \$4.9 million is expected to be recognized over a weighted average period of 2.6 years.

Note 7: Basic and Diluted Income per Share

Basic income per share is calculated by dividing income from continuing operations by the weighted average number of common shares outstanding during the period. Diluted income per share is calculated by dividing income from continuing operations by the weighted average number of common shares and potential common shares outstanding during the period. Potential dilutive common shares consist of the incremental common shares issuable upon the exercise of outstanding

11

Table of Contents

employee stock options and non-vested restricted stock units as determined under the treasury stock method, except where their inclusion would be antidilutive.

The following table sets forth the computation of basic and diluted income from continuing operations per share:

	Three Months Ended		Six Months Ended	
	October 31,		October 31,	
	2012	2011	2012	2011
Income from Continuing Operations	\$2,175	\$2,731	\$4,382	\$3,385
Weighted average shares used in computing basic income per share	48,368	47,800	48,203	47,666
Dilutive potential common shares from employee stock options and restricted stock units	536	—	738	—
Weighted average shares used in computing diluted income per share	48,904	47,800	48,941	47,666
Basic and diluted income from continuing operations per share	\$0.04	\$0.06	\$0.09	\$0.07

There were 0.4 million and 0.9 million potentially dilutive common shares from employee stock options and restricted stock units which were excluded from the diluted weighted average per share calculation for the respective three and six months ended October 31, 2012 as compared to 0.6 million and 0.6 million antidilutive common shares from employee stock options and restricted stock units for the three and six months ended October 31, 2011 as they were antidilutive.

Note 8: Other Income (Expense), Net

The following table sets forth the detail of Other Income (Expense), net:

	Three Months Ended		Six Months Ended	
	October 31,		October 31,	
	2012	2011	2012	2011
Realized Foreign Exchange Gains (Losses), net	\$129	\$92	\$(240)	\$347
Unrealized Foreign Exchange Losses, net	(212)	(79)	(112)	(483)
Other	(41)	(6)	(37)	9
Other Income (Expense), net	\$(124)	\$7	\$(389)	\$(127)

Note 9: Income Taxes

For the respective three and six months ended October 31, 2012, the Company recorded income tax expense of \$1.4 million and \$2.8 million compared to income tax expense of \$2.1 million and \$2.2 million in the comparative prior year periods.

The Company anticipates generating sufficient future taxable income to realize the benefits of its U.S. and certain of its foreign deferred tax assets while continuing to provide a full valuation allowance against its net operating losses and other net deferred tax assets in certain other foreign tax jurisdictions. The Company's valuation allowance was \$7.8 million at October 31, 2012 and \$7.9 million at April 30, 2012 and is mainly attributable to foreign net operating losses. Most of the foreign losses can be carried forward indefinitely, with certain amounts expiring between fiscal years 2016 and 2020.

As of October 31, 2012, the Company has not made a provision for U.S. or additional foreign withholding taxes for the excess of the financial reporting carrying value over the tax basis of investments in foreign subsidiaries with the exception of its subsidiaries in Taiwan and Switzerland for which it provides deferred taxes.

FLOW INTERNATIONAL CORPORATION
MANAGEMENT'S DISCUSSION AND ANALYSIS OF
FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Forward-looking Statements

Forward-looking statements in this report, including without limitation, statements relating to our plans, strategies, objectives, expectations, intentions, and adequacy of resources, are made pursuant to the safe harbor provisions of the Private Securities Litigation Reform Act of 1995. The words "may," "expect," "believe," "anticipate," "estimate," "plan" and similar expressions are intended to identify forward-looking statements. These statements are no guarantee of future performance and involve certain risks, assumptions, and uncertainties that are difficult to predict. Therefore, actual outcome and results may differ materially from what is expressed or forecasted in such forward-looking statements.

We make forward-looking statements of our expectations which include but are not limited to the following examples:

- statements regarding the effects of global financial and economic conditions, credit and equity market volatility and continued fluctuations in the global economy and the impact this may have on our business and financial condition;
- statements regarding our belief that the diversity of our products and geographic presence along with the expansion of our indirect sales channel and our unmatched customer access will continue to minimize the impact that any one country or economy has on our consolidated results;
- statements regarding our technological leadership position and our belief that our technological capabilities for developing products with superior characteristics provide us potential growth opportunities as well as a competitive advantage;
- statements regarding our continued investments in lead generation, product enhancements, new product development and in our employees which we believe are critical to achieving our strategic objectives;
- statements regarding our belief that we are well positioned to continue growing our business organically over the long-term by enhancing our product offerings and expanding our customer base through our global channels of distribution;
- statements regarding the expectations for our new products in the second half of fiscal year 2013 and beyond;
- statements regarding our ability to mitigate the risk of higher commodity and fuel prices;
- statements regarding our belief that our channels of distribution are unparalleled in our industry and our ability to effectively manage them;
- statements regarding our belief that the changes we have made in our Advanced segment, along with growing our revenue base, will enable us to return to higher gross profit margins and meet our customer requirements in this segment;
- statements regarding our use of cash, cash needs, generation of cash through operations, and ability to raise capital and/or use our Credit Facility;
- statements regarding our belief that our existing cash and cash equivalents, along with the expected proceeds from our operations and available amounts under our Credit Facility, will provide adequate liquidity to fund our operations through at least the next twelve months;
- statements regarding our ability to fund future capital spending through cash from operations and/or from external financing;
- statements regarding our ability to repay our subordinated notes in future periods;
- statements regarding our ability to meet our debt covenants in future periods;
- statements regarding anticipated results of potential or actual litigation; and
-

statements regarding the realizability of our deferred tax assets and our expectation that our unrecognized tax benefits will not change significantly within the next twelve months.

Certain other statements in Management's Discussion and Analysis are forward-looking as defined in the Private Securities Litigation Reform Act of 1995. Our ability to fully implement our strategies and achieve our objective may be influenced by a variety of factors, many of which are beyond our control. For a detailed discussion of risk factors affecting our business and operations, see Item 1A, Risk Factors in our fiscal year 2012 Form 10-K. We undertake no obligation to update any forward-

Table of Contents

looking statements, whether as a result of new information, future events or otherwise. These forward-looking statements should not be relied on as representing our estimates or views as of any subsequent date.

In this discussion and analysis, we discuss and explain our financial condition and results of operations, including:

- Factors which might affect comparability of our results;
- Our earnings and costs in the periods presented;
- Changes in earnings and costs between periods;
- Impact of these factors on our overall financial condition;
- Expected future expenditures for capital projects; and
- Expected sources of cash for future operations and capital expenditures.

As you read this discussion and analysis, refer to our Condensed Consolidated Statements of Operations included in Item 1 - Condensed Consolidated Financial Statements, which presents the results of our operations for the three and six months ended October 31, 2012 and 2011. We analyze and explain the differences between the periods in the specific line items of our Condensed Consolidated Statements of Operations. This discussion and analysis has been organized as follows:

- Executive Summary, including overview and future outlook;
- Significant matters affecting comparability that are important to understanding the results of our operations and financial condition;
- Results of operations beginning with an overview of our results, followed by a detailed review of those results by reporting segment;
- Financial condition addressing liquidity position, sources and uses of cash, capital resources and requirements, commitments, and off-balance sheet arrangements; and
- Critical accounting policies which require management's most difficult, subjective or complex judgment.

Executive Summary

Overview

Flow is a global technology-based manufacturing company committed to providing a world class customer experience. We offer technology leadership and exceptional waterjet performance to a wide-ranging customer base. Our versatile technology benefits many cutting and surface preparation applications, delivering profitable waterjet solutions and dynamic business growth opportunities to our customers.

Second Quarter 2013 Highlights

During the second quarter of fiscal year 2013:

- Overall revenues of \$67.0 million for the three months ended October 31, 2012 represent a new all-time quarterly high and a 4% increase from \$64.5 million in the year-ago quarter;
- Standard segment revenues also reached an all-time record on a quarterly basis at \$63.2 million, a 7% improvement versus the year-ago quarter;
- Sales from our global spare parts business also set a new quarterly record at \$23.0 million, a 13% growth over the year-ago quarter, with strong demand across most of our markets;
- Quarter-over-quarter, our Standard segment gross margins declined by approximately 100 basis points as a result of product and geographic mix. Our Advanced segment gross profits and margins were lower year-over-year due to a sales discount of \$0.7 million to an existing customer that was incurred to facilitate our ability to secure future business, as well as a \$0.4 million charge for an order that was not placed as planned;
- We generated net income of \$2.1 million or earnings per share of \$0.04 which compares to net income of \$2.8 million, or \$0.06 per share in the comparative prior period;
-

We had a net cash position, which we define as cash and cash equivalents, less subordinated notes and any other debt, of \$5.2 million as of October 31, 2012, which compares to a net cash position of \$3.4 million as of April 30, 2012. We believe that future cash flows from operations and our borrowing capacity should provide adequate liquidity to fund our operations, to repay our subordinated notes and fund capital for planned growth.

Table of Contents

Looking Ahead

We continue to build significant and sustainable competitive advantages that capitalize on the waterjet category growth opportunities. We believe that we are well positioned to continue growing our business organically over the long-term through product development, unmatched customer access and continued operating leverage. Although other factors will likely impact us, including some that we do not foresee, we believe that our performance for the remainder of fiscal year 2013 and beyond may be affected by the following:

Economic Climate. The current economic environment continues to affect our business in a number of direct and indirect ways including: consumer demand for our products, differences in customer demand in the different geographic regions in which we operate; profit margins subject to pricing in the different geographic regions, sales mix due to differing products; changes in currency exchange rates; lack of credit availability; inflation; and business disruptions due to difficulties experienced by suppliers and customers.

New Products. We continue to make strategic investments in research and development for existing and new products, and to invest in research and development of advanced and innovative technologies for future application. We believe that delivering innovative and high-value solutions is critical to meeting customer needs and achieving our future growth. We remain positive with regard to our recent global introduction of our Mach 4 and Mach 2 series products and we anticipate stronger contributions from these products.

Distribution Channels. We intend to continue expanding our distribution channels to expand our access to potential customers by continued development of both our direct and indirect distribution channels, which we believe are unparalleled in the industry.

Operations and Manufacturing. We continue to monitor commodity pricing to proactively mitigate the risk of changing commodity and fuel prices. We intend to continue to pursue opportunities for streamlining of distribution, logistics and manufacturing operations, focus on improving inventory management, optimizing transportation costs, and providing a high level of service to our customers.

Advanced Segment. We continue to pursue new contracts and projects within this segment, having recently received new commitments for a significant number of projects, to offset the recent quarterly trends, both in terms of overall revenue and gross profits. In addition to securing future business, we have added or partnered with external resources with the necessary expertise to augment our internal resources and have also reorganized and upgraded our internal organization within this segment. We believe that these changes, along with growing our revenue base, will enable us to return to higher gross profit margins and meet our customer requirements.

Management remains focused on creating long-term shareholder value. We believe that Adjusted EBITDA, which we define as net income (loss), as determined in accordance with accounting principles generally accepted in the United States of America ("GAAP"), excluding the effects of income taxes, depreciation, amortization of intangible assets, interest expense, and other non-cash charges, which includes such items as stock-based compensation expense, foreign currency gains or losses, and other allowable add backs pursuant to our Credit Facility Agreement, is a good measure of our core performance in creating this value. The following table reconciles our Adjusted EBITDA for the respective three and six months ended October 31, 2012 and 2011:

Reconciliation of Adjusted EBITDA to Net Income: (in thousands)	Three Months Ended		Six Months Ended	
	October 31, 2012	2011	October 31, 2012	2011
Net Income	\$2,110	\$2,779	\$4,331	\$3,490
Add Back:				
Depreciation and Amortization	1,413	1,579	2,839	3,151
Income Tax Provision	1,352	2,138	2,829	2,238
Interest Charges	325	309	665	620
Non-Cash Charges (i)	768	558	1,695	1,224
Adjusted EBITDA	\$5,968	\$7,363	\$12,359	\$10,723

(i) Allowable Add backs Pursuant to Credit Facility Agreement

Adjusted EBITDA is a non-GAAP financial measure and the presentation of this non-GAAP financial measure is not intended to be considered in isolation or as a substitute for the financial information presented in accordance with GAAP. The items excluded from this non-GAAP financial measure are significant components of our financial statements and must be considered in performing a comprehensive analysis of our overall financial results. We use this measure, together with our GAAP financial metrics, to assess our financial performance, allocate resources, evaluate our overall progress towards

Table of Contents

meeting our long-term financial objectives, and to assess compliance with our debt covenants. We believe that this non-GAAP financial measure is useful to investors and analysts in allowing for greater transparency with respect to the supplemental information used by us in our financial and operational decision making. Our calculation of Adjusted EBITDA may not be consistent with calculations of similar measures used by other companies.

Matters Affecting Comparability

Our financial performance over the past few years has been driven by several factors, principally the general economic conditions within our global markets, our product and project mix, the impact of strategic investments in our business, and fluctuations in the relationship of foreign currencies to the U.S. dollar. These key factors have impacted the comparability of our results of operations in the past and are likely to affect them in the future.

General Economic Conditions in our Global Markets

Our products and services are available worldwide. Demand for our products depends on the level of new capital investment and planned maintenance by our customers. The level of capital expenditures depends, in turn, on the general economic conditions within that market as well as access to capital at reasonable cost. Our financial performance will continue to be affected by our ability to address a variety of challenges and opportunities that are a consequence of our global operations, including efficiently utilizing our global channels of distribution, manufacturing capabilities, the expansion of market opportunities, and successfully engineering innovative new product applications for end users in a variety of geographic markets. However, we believe that our geographic end markets and product diversification has and will continue to minimize the impact that any one country or economy has on our consolidated results.

Product and Project Mix

Our profit margins vary in relation to the relative product and geographic mix, including the market segments that we serve, the type of product we sell, the geographic location in which the product is sold, the end market for which the product is designed, and the relative percentage of total revenue represented by our Standard systems, Advanced systems, and aftermarket sales.

Investments in Business

We believe that continued investment in lead generation, product enhancements, new product development and in our employees is critical to achieving our strategic objectives in fiscal 2013 and beyond. Comparable period-over-period operating expenses will differ depending on the timing and magnitude of these investments. We expect that we will be able to leverage our overall operating expenses in future periods as our business continues to grow.

Currency Translation

The volatility in the global economic environment continues to result in significant volatility in the global currency markets. Since the majority of our international operations are conducted in currencies other than the U.S. dollar, currency fluctuations can have a significant impact on the translation of our international revenues and earnings into U.S. dollar amounts. During fiscal year 2013, the U.S. dollar strengthened against the average exchange rates for these currencies versus the comparable prior year period, negatively impacting the translation of our international revenues and earnings during the current fiscal year.

In addition, some of our transactions that occur in our international locations are denominated in U.S. dollars, exposing them to exchange rate fluctuations when converted to their local currencies. These transactions include U.S. dollar denominated purchases of inventory and intercompany liabilities. Fluctuations in exchange rates can impact the profitability of our foreign operations and reported earnings and are largely dependent on the transaction timing and magnitude during the period that the currency fluctuates.

Segment Results of Operations

We report our operating results to the chief operating decision maker based on market segments which are consistent with management's long-term growth strategy. Our reportable segments are Standard and Advanced. The Standard segment includes sales and cost of sales related to our cutting, surface preparation and cleaning systems using ultrahigh-pressure water pumps as well as parts and services to sustain these installed systems. Systems included in this segment do not require significant custom configuration. The Advanced segment includes sales and cost of sales related to our complex aerospace and automation systems which require specific custom configuration and advanced features, including robotics, to match unique customer applications as well as parts and services to sustain these installed systems. Segment results are measured based on revenue growth and gross margin.

This section provides a comparison of sales and gross margin for each of our reportable segments for the respective three and six months ended October 31, 2012 and 2011.

	Standard Segment Three Months Ended					Six Months Ended				
	October 31,		Increase (Decrease)			October 31,		Increase (Decrease)

Table of Contents

For the three and six months ended October 31, 2012:

Sales in our Standard segment increased \$4.0 million or 7% , and \$13.0 million or 12% over the prior year comparative periods. Excluding the impact of foreign currency changes, sales in the Standard segment increased \$5.6 million or 9% for the three months ended October 31, 2012 when compared to the prior year comparative period. The quarter-to-date increase was primarily due to the following:

- Growth in system sales volume for most of our geographic regions for an aggregate growth of \$1.4 million or 4% over the prior year comparative period; and
- Consumable parts sales for this segment also increased \$2.6 million or 13% over the prior year comparative period based on higher system utilization by our customers and increased system sales volumes across most of our primary regions.

Gross margin for the three and six months ended October 31, 2012 amounted to \$25.3 million or 40% and \$49.6 million or 40% of sales compared to \$24.2 million or 41% and \$45.9 million and 41% of sales in the prior year comparative periods. Generally, comparison of gross margin rates will vary period over period based on changes in our product sales mix and prices, geographic mix and levels of production volume.

Advanced Segment	Three Months Ended				Six Months Ended			
	October 31,		Increase (Decrease)		October 31,		Increase (Decrease)	
	2012	2011	\$	%	2012	2011	\$	%
Sales	\$3,836	\$5,345	\$(1,509)	(28)%	\$8,054	\$12,371	\$(4,317)	(35)%

Gross Margin	79	1,113	(1,034)	(93)%	626	2,586	(1,960)	(76)%
Gross Margin as % of sales	2	% 21	% NM	(1,900) bpts	8	% 21	% NM	(1,300) bpts

bpts = basis points

NM = not meaningful

Sales in the Advanced segment vary period over period for various reasons, such as the timing of contract awards, timing of project design and manufacturing schedules, the timing of shipments to customers, and installation timing.

For the three and six months ended October 31, 2012, sales in our Advanced segment decreased by \$1.5 million or 28% and \$4.3 million or 35% over the prior year comparative periods. The decrease in sales was primarily driven by the timing of our Advanced contracts and a sales discount of \$0.7 million made to an existing customer to facilitate our ability to secure future business.

Gross margin for the respective three and six months ended October 31, 2012 amounted to \$0.1 million or 2% and \$0.6 million or 8% of sales as compared to \$1.1 million and 21% and \$2.6 million and 21% of sales in the prior year comparative periods. Gross margin as a percentage of sales in the Advanced segment was lower for the three months and six months ended October 31, 2012 in part due to the impact of the lower throughput in our manufacturing plant, as a result of the type of projects and the stages of the projects, and a \$0.4 million charge for an order that was not placed as planned. Advanced segment gross margins will also vary period over period based on changes in product mix, geographic mix and levels of production.

Selling, General, and Administrative Expenses

	Three Months Ended		Six Months Ended	
	October 31,	Increase (Decrease)	October 31,	Increase (Decrease)

Edgar Filing: FLOW INTERNATIONAL CORP - Form 10-Q

	2012	2011	\$	%	2012	2011	\$	%	
Sales and Marketing	\$12,719	\$12,082	\$637	5	% \$25,198	\$24,778	\$420	2	%
Research and Engineering	3,007	2,711	296	11	% 5,218	5,367	(149)	(3)	%
General and Administrative	5,730	5,361	369	7	% 11,599	11,970	(371)	(3)	%
Total Operating Expenses	\$21,456	\$20,154	\$1,302	6	% \$42,015	\$42,115	\$(100)	—	%

Consolidated operating expenses increased for the three months and decreased slightly for the six month periods ended October 31, 2012 compared to the prior year comparative period. The movement for the three months ended October 31, 2012 was primarily driven by increased marketing and related support expense of \$0.5 million, and higher relative labor and compensation related expense of \$0.6 million. For the six months ended October 31, 2012, total operating expense was in line

Table of Contents

with the prior year comparative period and included higher marketing and support expense of \$0.6 million, offset by the benefit of a reimbursement for certain research and engineering costs of \$0.8 million recorded in the first quarter ended July 31, 2012.

Interest Income (Expense), net	Three Months Ended				Six Months Ended					
	October 31,		Increase (Decrease)		October 31,		Increase (Decrease)			
	2012	2011	\$	%	2012	2011	\$	%		
Interest Income	\$12	\$9	\$3	33	%	\$67	\$49	\$18	37	%
Interest Expense	(325)	(309)	16	5	%	(665)	(620)	45	7	%
Net Interest Expense	\$(313)	\$(300)	\$13	4	%	\$(598)	\$(571)	\$27	5	%

Our net interest expense was \$0.3 million and \$0.6 million for the respective three and the six months ended October 31, 2012, in line with the prior year comparative periods with net interest expense of \$0.3 million and \$0.6 million. Our interest expense primarily consists of imputed interest on two subordinated notes that carry a below market interest rate, amortization of deferred debt financing fees and interest charges on the used and unused portion of our Credit Facility as well as outstanding letters of credit.

Other Income (Expense), net	Three Months Ended				Six Months Ended					
	October 31,		Increase (Decrease)		October 31,		Increase (Decrease)			
	2012	2011	\$	%	2012	2011	\$	%		
Realized Foreign Exchange Gains (Losses), net	\$129	\$92	\$37	40	%	\$(240)	\$347	\$(587)	NM	
Unrealized Foreign Exchange Losses, net	(212)	(79)	133	NM		(112)	(483)	(371)	(77)	%
Other	(41)	(6)	35	NM		(37)	9	(46)	NM	
Other Income (Expense), net	\$(124)	\$7	\$(131)	NM		\$(389)	\$(127)	\$262	NM	

NM = not meaningful

During the three months ended October 31, 2012 net Other Expense was \$0.1 million compared to a negligible net Other Income for the three months ended October 31, 2011. For the six months ended October 31, 2012 we recorded net Other Expense of \$0.4 million compared to net Other Expense of \$0.1 million in the prior year comparative period. In general, changes in this balance result from the fluctuation in realized and unrealized foreign exchange gains and losses on revaluation of third party and intercompany settled and unsettled balances for which payment is anticipated in the foreseeable future.

Income Taxes

Our provision for income taxes for the respective three and six months ended October 31, 2012 and 2011 consisted of:

	Three Months Ended				Six Months Ended					
	October 31,		Increase (Decrease)		October 31,		Increase (Decrease)			
	2012	2011	\$	%	2012	2011	\$	%		
Current Tax Expense	\$65	\$890	\$(825)	(93)	%	\$517	\$947	\$(430)	(45)	%
Deferred Tax Expense	1,287	1,248	39	3	%	2,312	1,291	1,021	79	%
Total Tax Expense	\$1,352	\$2,138	\$(786)	(37)	%	\$2,829	\$2,238	\$591	26	%

For the respective three and six months ended October 31, 2012, we recorded income tax expense of \$1.4 million and \$2.8 million compared to income tax expense of \$2.1 million and \$2.2 million in the same period last year.

We anticipate generating sufficient future taxable income to realize the benefits of our U.S. and certain of our foreign deferred tax assets while continuing to provide a full valuation allowance against our net operating losses and other net deferred tax assets in certain other foreign tax jurisdictions. Our valuation allowance was \$7.8 million at October 31, 2012 and \$7.9 million at April 30, 2012 and is mainly attributable to foreign net operating losses. Most of the foreign losses can be carried forward indefinitely, with certain amounts expiring between fiscal years 2016 and 2020.

Table of Contents

As of October 31, 2012, we have not made a provision for U.S. or additional foreign withholding taxes for the excess of the financial reporting carrying value over the tax basis of investments in foreign subsidiaries with the exception of our subsidiaries in Taiwan and Switzerland for which we provide deferred taxes.

Liquidity and Capital Resources

Sources of Cash

Historically, our most significant sources of financing have been funds generated by operating activities, available cash and cash equivalents and available lines of credit. From time to time, we have raised funds through the sale of common stock.

Cash from Operating Activities

Cash generated by operating activities was \$5.4 million and \$6.0 million for the six months ended October 31, 2012 and October 31, 2011, respectively. The change in cash from operations versus the prior year comparative period was driven by comparatively stronger earnings for the six months ended October 31, 2012, and offset by the timing of inventory purchases, customer billings, and receipt of customer deposits.

Available Cash and Cash Equivalents

At October 31, 2012, we had total cash and cash equivalents of \$15.3 million, of which \$9.3 million was held by our foreign subsidiaries. To the extent that our cash needs in the U.S. exceed our cash reserves and availability under our Credit Facility Agreement, we may repatriate cash from certain of our foreign subsidiaries; however, this is not our current intent and could be limited by our ability to repatriate such cash in a tax efficient manner. We believe that our existing cash and cash equivalents as of October 31, 2012, anticipated funds generated from our operations, and financing available under our existing credit facilities will be sufficient to fund our operations for at least the next twelve months and repay our subordinated notes due in August 2013. However, in the event that there are changes in our expectations or circumstances, we may need to raise additional funds through public or private debt or sale of equity to fund our operations. Cash balances which are not available for general corporate purposes are classified as restricted cash and are primarily related to cash which collateralizes commercial letters of credit.

Credit Facilities

We have a \$25.0 million Credit Facility agreement which will mature March 2, 2014. Under the terms of the Credit Facility in effect as of October 31, 2012, we are required to maintain a maximum consolidated leverage ratio of 2.75x, and a minimum fixed charge coverage ratio of 1.75x. The terms of the Credit Facility define the leverage ratio as the ratio of consolidated indebtedness, excluding our outstanding subordinated notes, to consolidated adjusted Earnings Before Interest, Taxes, Depreciation and Amortization and other non-cash charges, which includes such items as stock-based compensation expense, foreign currency gains or losses, and other allowable add backs pursuant to our Credit Facility Agreement ("Adjusted EBITDA") for the most recent four fiscal quarters. The Fixed Charge Coverage Ratio is defined as the ratio of Adjusted EBITDA, less cash payments for income taxes and maintenance capital expenditures, during the most recent four fiscal quarters to the sum of certain interest charges during the most recent four quarters and scheduled debt repayments in the next four quarters.

The financial covenants are measured on a quarterly basis. Our leverage ratio and fixed charge coverage ratio were 0.56 and 46.4, respectively, as of the fiscal quarter ended October 31, 2012. Our calculations of these financial ratios are reported in Exhibit No. 99.1 of this Quarterly Report on Form 10-Q. A violation of any of the covenants above would result in an event of default and accelerate the repayment of all unpaid principal and interest and the termination of any letters of credit. All of our domestic assets and certain interests in some foreign subsidiaries are pledged as collateral under the three-year Credit Facility Agreement. In addition, the terms of the Credit Facility limit our ability to pay dividends. We were in compliance with all our financial covenants as of October 31, 2012.

Interest on the Credit Facility is based on the bank's prime rate or LIBOR rate plus a percentage spread between 0.00% and 2.25% depending on whether it uses the bank's prime rate or LIBOR rate and based on our current leverage ratio. We also pay an annual letter of credit fee ranging from 1.25% to 2.25% of the amount available to be drawn under each outstanding stand-by letter of credit. The annual letter of credit fee is payable quarterly in arrears and varies

depending on our leverage ratio.

We expect to be in compliance with our covenants pursuant to the Credit Facility Agreement for at least the next twelve months. However, in the event that there is a possibility of default, we may institute cost reductions; raise additional funds through public or private debt or sale of equity; possibly seek amendments to our Credit Facility Agreement or a combination of these items.

21

Table of Contents

There were no outstanding borrowings on our Credit Facility as of October 31, 2012. Consequently, we had \$20.4 million available under this Credit Facility, net of \$4.6 million in outstanding letters of credit.

We have an unsecured credit facility in Taiwan and there was no outstanding balances under the credit facility as of October 31, 2012. The unsecured commitment for the Taiwan credit facility totaled \$1.4 million at October 31, 2012, bearing interest at 2.5% per annum.

Subordinated Notes

We have subordinated notes with a principal value of \$10.0 million, accruing interest at 2% annually, for an aggregate amount due of \$10.8 million in August 2013. We expect to pay the subordinated notes, and related interest, using cash generated from our operations or from our existing credit facilities.

Uses of Cash

Capital Expenditures

Our capital spending plans currently provide for outlays ranging from approximately \$6 million to \$8 million over the next twelve months, primarily related to investments in machinery and equipment to support manufacturing, the continued implementation of our ERP system and other information technology related projects, as well as patent and trademark maintenance. It is expected that funds necessary for these expenditures will be generated internally or from available financing. To the extent that sufficient funds cannot be generated through operations or we are unable to obtain financing on reasonable terms, we may reduce our capital expenditures accordingly. Our capital spending for the six months ended October 31, 2012 and 2011 was \$3.8 million and \$2.4 million, respectively.

Repayment of Debt

Our debt primarily consists of our subordinated notes and outstanding borrowings on our Credit Facility. We did not have any borrowings outstanding on our Credit Facility as of October 31, 2012 or April 30, 2012. The subordinated notes, aggregating to \$10.8 million of principal and interest are due August 2013. In prior periods we have had balances outstanding, and therefore had net borrowings or repayments in a particular prior year comparative period.

Off-Balance Sheet Arrangements

We had letter-of-credit agreements totaling \$4.6 million as of October 31, 2012 and April 30, 2012, respectively. These letter-of-credit agreements relate to performance on contracts with our customers and vendors.

Contractual Obligations

During the six months ended October 31, 2012, there were no material changes outside the ordinary course of business in our contractual obligations and minimum commercial commitments as reported in our Annual Report on Form 10-K for the fiscal year ended April 30, 2012.

Critical Accounting Estimates and Judgments

There are no material changes in our critical accounting estimates as disclosed in our Annual Report on Form 10-K for the fiscal year ended April 30, 2012.

Recently Issued Accounting Pronouncements

Item 4. Controls and Procedures

(a) Evaluation of Disclosure Controls and Procedures

The Company's management evaluated, with the participation of our principal executive officer and principal financial officer, the effectiveness of our disclosure controls and procedures, as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as of the end of the period covered by this report. Based on this evaluation, our principal executive officer and principal financial officer have concluded that, as of the end of the period covered by this report, our disclosure controls and procedures were effective to ensure that information we are required to disclose in the reports that we file or submit under the Securities Exchange Act of 1934, as amended, is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission's rules and forms relating to the Company, including our consolidated subsidiaries, and was accumulated and communicated to the Company's management, including the principal executive officer and principal financial officer, as appropriate to allow timely decisions regarding required disclosure.

(b) Changes in Internal Controls

In connection with the evaluation required by paragraph (d) of Rule 13a-15 under the Exchange Act, there was no change identified in our internal control over financial reporting that occurred during the fiscal quarter ended October 31, 2012 that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

PART II—OTHER INFORMATION

Item 1. Legal Proceedings

Refer to Note 5 of the Condensed Consolidated Financial Statements found in Item 1 of Part I of this quarterly report on Form 10-Q for a discussion of the Company's legal proceedings.

Item 1A. Risk Factors

Our business is subject to certain risks and events that, if they occur, could adversely affect our financial condition and results of operations and the trading price of our common stock. For a discussion of these risks, please refer to the "Risk Factors" sections of our Annual Report on Form 10-K for the fiscal year ended April 30, 2012, filed by us with the United States Securities and Exchange Commission on June 28, 2012, and our Quarterly Report on Form 10-Q for the quarter ended July 31, 2012 (the "Form 10-Q"), filed by us with the United States Securities and Exchange Commission on August 30, 2012. Other than the risk factor disclosed in the Form 10-Q, there have been no material changes in the risk factors set forth in our Annual Report on Form 10-K for the fiscal year ended April 30, 2012.

Items 2, 3, 4, and 5 are None or Not Applicable and have been omitted.
