Item 2.02. Results of Operations and Financial Condition.

In a January 25, 2010 press release, Old Republic International Corporation (the “Registrant”) announced the resolution of a previously disclosed third quarter 2009 revenue recognition accounting issue. Registrant had been engaged in discussions with the Staff of the Securities and Exchange Commission’s Office of the Chief Accountant (the “Staff”) and its independent registered public accounting firm, PricewaterhouseCoopers LLP (“PwC”), regarding the appropriate treatment of premiums received in excess of reinsurance related receivables under certain reinsurance commutation agreements. These discussions ended with the conclusion that such amounts should be recognized immediately as income under generally accepted accounting principles. As indicated in its November 3, 2009 press release, Registrant had originally concluded that the economic substance of the reinsurance commutations required the deferral of the premium and recognition of such amount as income over the future periods during which the associated risk would exist and claims would occur. Registrant will restate its financial statements for the quarter and nine months ended September 30, 2009 and the financial statements included in its September 30, 2009 Form 10-Q filed with the SEC on November 6, 2009 should no longer be relied upon.

Item 4.02. Non-Reliance on Previously Issued Financial Statements or a Related Audit Report or Completed Interim Review

- (a) (1) Final conclusions on the appropriate accounting treatment were determined following a telephone conference call on Thursday, January 21, 2010 with the Staff and PwC.
- (2) The facts underlying the disagreement are set forth in Item 2.02 above and the referenced press release (Exhibit 99.1).
- (3) Registrant’s senior management and Audit Committee have discussed the issue with Registrant’s independent registered accounting firm.

Item 9.01. Financial Statements and Exhibits.
