NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

JUNE 30, 2007 (UNAUDITED)

NOTE 1 ORGANIZATION AND ACCOUNTING POLICY

The interim consolidated financial statements furnished herein reflect all adjustments which were, in the opinion of management, necessary to present fairly the financial position, results of operations, and cash flows at June 30, 2007 and for all periods presented. All adjustments made in the interim period were of a normal recurring nature. Certain footnote disclosures which would substantially duplicate the disclosures contained in the audited consolidated financial statements and notes thereto included in the annual report of the Company for the year ended December 31, 2006 have been omitted.

The Company, through its wholly-owned taxable subsidiary, UMH Sales and Finance, Inc. (S&F), conducts manufactured home sales in its communities. This company was established to enhance the occupancy of the communities. The consolidated financial statements of the Company include S&F and all of its other wholly-owned subsidiaries. All intercompany transactions and balances have been eliminated in consolidation.

Employee Stock Options

The Company accounts for its stock option plan under the provisions of SFAS No. 123 (revised 2004), Share-Based Payment (SFAS No. 123R). The Company has selected the prospective method of adoption under the provisions of SFAS No. 148, Accounting for Stock-Based Compensation Transition and Disclosure. SFAS 123R requires that compensation cost for all stock awards be calculated and recognized over the service period (generally equal to the vesting period). This compensation cost is determined using option pricing models, intended to estimate the fair value of the awards at the grant date.

Compensation cost which has been determined consistent with SFAS No. 123R, amounted to \$31,970 and \$63,940 for the three and six months ended June 30, 2007, respectively, and \$29,930 and \$65,627 for the three and six months ended June 30, 2006, respectively.

Edgar Filing: UMH PROPERTIES, INC. - Form 10-Q

The fair value of each option grant is estimated on the date of grant using the Black-Scholes option pricing model with the following weighed-average assumptions used for grants in the following years:

	2007	2006
Dividend yield	6.42%	6.29%
Expected volatility	18.08%	18.57%
Risk-free interest rate	4.66%	4.34%
Expected lives	8	8

6

The weighted-average fair value of options granted during the six months ended June 30, 2007 and 2006 was \$1.36 and \$1.39, respectively.

During the six months ended June 30, 2007, the following stock options were granted:

Date of Grant	Number of Employees	Number of Shares	Option Price	Expiration Date
1/3/07	1	44,200	\$15.51	1/3/15
1/3/07	1	5,800	\$17.06	1/3/15

During the six months ended June 30, 2007, one employee exercised his stock option and purchased 17,812 shares for a total of \$243,521. Additionally, stock options totaling 11,188 shares expired without being exercised. As of June 30, 2007, there were options outstanding to purchase 369,000 shares and 1,158,188 shares were available for grant under the Company's 2003 Stock Option Plan. During the six months ended June 30, 2006, two employees exercised their stock option and purchased 29,000 shares for a total of \$308,213. As of June 30, 2006, there were options outstanding to purchase 317,000 shares and 1,237,000 shares were available for grant under the Company's 2003 Stock Option Plan.

NOTE 2 NET INCOME PER SHARE AND COMPREHENSIVE INCOME

Basic net income per share is calculated by dividing net income by the weighted average shares outstanding for the period. Diluted net income per share is calculated by dividing net income by the weighted average number of common shares outstanding plus the weighted average number of net shares that would be issued upon exercise of stock options pursuant to the treasury stock method. Options in the amount of 10,153 and 13,587 shares for the three and six months ended June 30, 2007, respectively, and 15,030 and 18,002 shares for the three and six months ended June 30, 2006, respectively are included in the diluted weighted average shares outstanding.

The following table sets forth the components of the Company's comprehensive income for the three and six months ended June 30, 2007 and 2006:

The Company had entered into five interest rate swap agreements to effectively convert a portion of its variable rate debt to fixed rate debt. Changes in the fair value of these agreements have been recorded as an increase or deduction from interest expense with corresponding amounts in other assets or other liabilities. The change in the fair value of these agreements for the three and six months ended June 30, 2007 amounted to \$74,286 and \$47,974, respectively, and has been recorded as a deduction from interest expense. NOTE 9 - RECENT ACCOUNTING PRONOUNCEMENTS

In June 2006, the Financial Accounting Standards Board (FASB) issued Interpretation No. 48 Accounting for Uncertainty in Income Taxes (FIN 48). FIN 48 prescribes how we should recognize, measure and present in our financial statements uncertain tax positions that have been taken or are expected to be taken in a tax return. Pursuant to FIN 48, we can recognize a tax benefit only if it is more likely than not that a particular tax position will be sustained upon examination or audit. To the extent the more likely than not standard has been satisfied, the benefit associated with a tax position is measured as the largest amount that is greater than 50% likely of being realized upon settlement.

We are subject to U.S. federal income tax as well as income tax in multiple state and local jurisdictions but, as a REIT, we generally do not pay tax on our net income distributed as dividends to our shareholders. Our taxable subsidiary does not join in our consolidated REIT tax filings and as such is itself subject to federal income tax as well as income tax in multiple state and local jurisdictions. As required, we adopted FIN 48 effective January 1, 2007 and have

concluded that the effect is not material to our consolidated financial statements. Accordingly, we did not record a cumulative effect adjustment related to the adoption of FIN 48.

In February 2007, the FASB issued Statement of Financial Accounting Standards Statement No. 159 The Fair Value Option for Financial Assets and Financial Liabilities, Including an amendment of FASB Statement No. 115 (SFAS 159). SFAS 159 provides companies with an option to report selected financial assets and liabilities at fair value. Furthermore, SFAS 159 establishes presentation and disclosure requirements designed to facilitate comparisons between companies that choose different measurement attributes for similar types of assets and liabilities. SFAS No. 159 is effective for fiscal years beginning after November 15, 2007. The Company is currently evaluating the impact of SFAS 159 on our consolidated financial statements.

NOTE 10 SUBSEQUENT EVENTS

On July 31, 2007, Monmouth Real Estate Investment Corporation (MREIC) and Monmouth Capital Corporation (MCC), both related entities to the Company, completed a strategic combination whereby a wholly-owned subsidiary of MREIC merged with and into MCC, and MCC survived as a wholly-owned subsidiary of MREIC. Each outstanding share of MCC's common stock was converted into and exchanged for 0.655 shares of MREIC's common stock. At the time of the merger, the Company had 107,403 shares of MCC common stock which was converted and exchanged for 70,349 shares of MREIC's common stock. The Company now owns a total of 145,349 shares of MREIC common stock. Additionally, the Company's \$1,000,000 investment in MCC's outstanding 8% Convertible Subordinated Debentures due 2013 is now convertible into MREIC common stock at an adjusted conversion price of \$9.16 per share. The Company's \$5,000,000 investment in MCC's outstanding 8% Convertible Subordinated Debentures due 2015 is now convertible into MREIC common stock at an adjusted conversion price of \$11.45 per share.

On August 2, 2007, the Company obtained a \$10,439,000 mortgage loan on Highland Estates from Column Guaranteed LLC, a Credit Suisse company. This mortgage payable is due on September 1, 2017 with interest at a fixed rate of 6.175%. Proceeds from this mortgage were primarily used to pay down our margin loans and for other corporate purposes.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

OVERVIEW

The following discussion and analysis of the consolidated financial condition and results of operations should be read in conjunction with the Consolidated Financial Statements and notes thereto included elsewhere herein and in our annual report on Form 10-K for the year ended December 31, 2006.

10

The Company is a real estate investment trust (REIT). The Company's primary business is the ownership and operation of manufactured home communities leasing manufactured home spaces on a month-to-month basis to private manufactured home owners. The Company also leases homes to residents and, through, its taxable REIT subsidiary, UMH Sales and Finance, Inc. (S&F), sells and finances homes to residents and prospective residents of our communities. The Company owns twenty-eight communities containing approximately 6,700 sites. These communities are located in New Jersey, New York, Ohio, Pennsylvania and Tennessee.

The Company also holds a portfolio of securities of other REITs with a balance of \$16,168,856 at June 30, 2007. The Company invests in REIT securities on margin from time to time when the Company can achieve an adequate yield spread and when suitable acquisitions of real property cannot be found. At June 30, 2007, the Company's portfolio consisted of 37% preferred stocks, 26% common stocks and 37% debentures. The REIT securities portfolio provides the Company with liquidity and additional income until suitable acquisitions of real property are found.

Total revenues increased by approximately 10% from \$10,343,852 for the quarter ended June 30, 2006 to \$11,351,020 for the quarter ended June 30, 2007. Total revenues increased by approximately 1% from \$19,856,053 for the six months ended June 30, 2006 to \$20,151,366 for the six months ended June 30, 2007. This was primarily due to an increase in the gain on securities transactions, partially offset by a decreased in sales of manufactured homes.

Total expenses increased by approximately 3% and 5% for the quarter and six months, respectively, ended June 30, 2007 as compared to the quarter and six months ended June 30, 2006. This was primarily due to an increase in community operating expenses and interest expense. The increases in community operating expenses are primarily due to the new community purchased in 2006 and an increase in real estate taxes. The increase in interest expense was primarily due to the change in fair value of the Company's interest rate swaps and an increase in the average balance of mortgages and loans payable.

Net income increased by approximately 58% for the quarter ended June 30, 2007 and decreased by approximately 18% for the six months ended June 30, 2007 as compared to the quarter and six months ended June 30, 2006. The increase in net income for the quarter is primarily due to an increase in the gain on securities available for sale transactions, net. The decrease in net income for the six months is primarily due to the decrease in sales of manufactured homes in the first quarter of 2007 and an increase in interest expense.

See PART I, Item 1 Business in the Company's 2006 annual report on Form 10-K for a more complete discussion of the economic and industry-wide factors relevant to the Company and the opportunities and challenges, and risks on which the Company is focused.

CHANGES IN RESULTS OF OPERATIONS

Rental and related income increased from \$5,833,407 for the quarter ended June 30, 2006 to \$5,922,391 for the quarter ended June 30, 2007. Rental and related income increased from \$11,526,089 for the six months ended June 30, 2006 to \$11,752,895 for the six months ended

June 30, 2007. This was primarily due to the purchase of Weatherly Estates in 2006 and rental increases to residents.

The Company has been raising rental rates by approximately 3% to 6% annually. This increase was partially offset by a decrease in home rental income and occupancy. The decrease in home rental income was due to the decrease in rental homes. During 2006, the Company sold many of its older rental homes to the current residents. The Company intends to replace these rental homes in 2007. Occupancy declined from 84% at June 30, 2006 to 82% at both December 31, 2006 and June 30, 2007. The Company has faced many challenges in filling vacant homesites. The relatively low interest rates in 2006 have made site-built housing more accessible.

Interest and dividend income remained relatively stable for the quarter and six months ended June 30, 2007 as compared to the quarter and six months ended June 30, 2006.

Gain (loss) on securities available for sale transactions, net for the three and six months ended June 30, 2007 and 2006 consisted of the following:

	<u>Three Months</u>		<u>Six Months</u>	
	<u>2007</u>	<u>2006</u>	<u>2007</u>	<u>2006</u>
Gain on sale of securities, net	\$261,600	\$283,056	\$355,792	\$339,464
Impairment loss	-0-	(823,249)	-0-	(823,249)
Gain on settled futures contracts	309,908	95,474	188,097	302,745
Loss (gain) on open futures contracts	(107,579)	26,016	(47,110)	75,937
Gain (loss) on securities available for sales transactions, net	\$463,929	(\$418,703)	\$496,779	(\$105,103)

Gain on sale of securities, net remained relatively stable for the three and six months ended June 30, 2007 as compared to the three and six months ended June 30, 2006. The Company had a gain on settled futures contracts.

The Company invests in futures contracts of ten-year treasury notes to mitigate the exposure of interest rate fluctuations on the Company's preferred equity and debt securities portfolio. During 2006, the Company also recognized a loss of \$823,249 due to a write-down to the carrying value of securities available for sale which were considered other than temporarily impaired.

Community operating expenses increased from \$3,015,156 for the quarter ended June 30, 2006 to \$3,222,329 for the quarter ended June 30, 2007. Community operating expenses increased from \$5,683,757 for the six months ended

June 30, 2006 to \$6,264,407 for the six months ended June 30, 2007. This was primarily due to the new community purchased in 2006 and an increase in real estate taxes. General and administrative expenses increased from \$853,873 for the quarter ended June 30, 2006 to \$885,563 for the quarter ended June 30, 2007. General and administrative expenses increased from \$1,654,517 for the six months ended June 30, 2006 to \$1,713,654 for the six months ended June 30, 2007. This was primarily due to an increase in personnel costs. Interest expense increased from \$718,075 for the quarter ended June 30, 2006 to \$750,545 for the quarter ended June 30, 2007. Interest expense increased from \$1,264,605 for the six months ended June 30, 2006 to \$1,605,045 for the six months ended June 30, 2007. This was primarily due to an increase in the average balance of mortgages and loans payable and the change in fair value of the Company's interest rate swaps which decreased

interest expense by \$134,834 and \$353,450 for the quarter and six months ended June 30, 2006, respectively, but only decreased interest expense by \$74,286 and \$47,974 for the quarter and six months ended June 30, 2007, respectively.

Depreciation expense increased from \$857,643 for the quarter ended June 30, 2006 to \$888,648 for the quarter ended June 30, 2007. Depreciation expense increased from \$1,683,358 for the six months ended June 30, 2006 to \$1,775,972 for the six months ended June 30, 2007. This was primarily due to the purchase of the new community and expansions placed in service in 2006. Amortization of financing costs decreased from \$62,370 for the quarter ended June 30, 2006 to \$46,470 for the quarter ended June 30, 2007. Amortization of financing costs decreased from \$124,740 for the six months ended June 30, 2006 to \$96,698 for the six months ended June 30, 2007. This was primarily due to the expiration of our line of credit with PNC Bank.

Sales of manufactured homes amounted to \$3,966,284 and \$3,991,096 for the quarters ended June 30, 2007 and 2006, respectively. Sales of manufactured homes amounted to \$6,244,048 and \$6,737,996 for the six months ended June 30, 2007 and 2006, respectively. Cost of sales of manufactured homes amounted to \$3,275,077 and \$3,094,999 for the quarters ended June 30, 2007 and 2006, respectively. Cost of sales of manufactured homes amounted to \$5,078,455 and \$5,139,715 for the six months ended June 30, 2007 and 2006, respectively. Selling expenses amounted to \$388,673 and \$566,581 for the quarters ended June 30, 2007 and 2006, respectively. Selling expenses amounted to \$918,091 and \$1,006,518 for the six months ended June 30, 2007 and 2006, respectively. Income from sales operations (defined as sales of manufactured homes less cost of sales of manufactured homes less selling expenses) amounted to \$302,534, or 8% of total sales, for the quarter ended June 30, 2007 as compared to \$329,516, or 8% of total sales, for the quarter ended June 30, 2006. Income from sales operations amounted to \$247,502, or 4% of total sales, for the six months ended June 30, 2007 as compared to \$591,763, or 9% of total sales, for the six months ended June 30, 2006. This decrease was primarily due to a decrease in sales. Sales in 2006 included sales into our expansions at Fairview Manor and Highland Estates, which sold out during 2006. These sales had also generated a higher gross profit. The Company believes that sales of new homes into the Company's communities produce new rental revenue and upgrade the communities.

LIQUIDITY AND CAPITAL RESOURCES

The Company's principal liquidity demands have historically been, and are expected to continue to be, distributions to the Company's stockholders, acquisitions, capital improvements, development and expansions of properties, debt service, purchases of manufactured home inventory, investment in debt and equity securities of other REITs and payments of expenses relating to real estate operations. The Company's ability to generate cash adequate to meet these demands is dependent primarily on income from its real estate investments and securities portfolio, the sale of real estate investments and securities, refinancing of mortgage debt, leveraging of real estate investments, availability of bank borrowings, proceeds from the DRIP, and access to the capital markets.

Net cash provided by operating activities decreased from \$3,351,824 for the six months ended June 30, 2006 to net cash used by operating activities of \$1,059,913 for the six months ended June 30, 2007. This decrease was primarily due to an increase in inventory of manufactured homes

and notes and other receivables. The Company received, including dividends reinvested of \$883,270, new capital of \$3,213,927 through its Dividend Reinvestment and Stock Purchase Plan (DRIP). The Company sold \$1,843,131, at cost, and purchased \$258,151 of securities of other real estate investment trusts. Mortgages payable increased by \$5,510,644 and loans payable decreased by \$1,245,501. The Company obtained an \$11,480,000 mortgage on Fairview Manor and paid off the existing Fairview Manor and Laurel Woods mortgages, and paid down our margin loans and lines of credit. The Company believes that funds generated from operations together with the financing and refinancing of its properties will be sufficient to meet its needs over the next several years.

FUNDS FROM OPERATIONS

Funds from Operations (FFO) is defined as net income excluding gains (or losses) from sales of depreciable assets, plus depreciation. FFO should be considered as a supplemental measure of operating performance used by real estate investment trust (REITs). FFO excludes historical cost depreciation as an expense and may facilitate the comparison of REITs which have different cost bases. The items excluded from FFO are significant components in understanding and assessing the Company's financial performance. FFO (1) does not represent cash flow from operations as defined by generally accepted accounting principles; (2) should not be considered as an alternative to net income as a measure of operating performance or to cash flows from operating, investing and financing activities; and (3) is not an alternative to cash flow as a measure of liquidity. FFO, as calculated by the Company, may not be comparable to similarly entitled measures reported by other REITs.

The Company's FFO for the three and six months ended June 30, 2007 and 2006 is calculated as follows:

	Three Months		Six Months	
	2007	2006	2007	2006
Net Income	\$1,928,327	\$1,217,949	\$2,765,568	\$3,358,474
Gain on Sales of				
Depreciable Assets	(34,612)	(42,794)	(66,524)	(59,631)
Depreciation Expense	888,648	857,643	1,775,972	1,683,358
FFO	\$2,782,363	\$2,032,798	\$4,475,016	\$4,982,201

The following are the cash flows provided (used) by operating, investing and financing activities for the six months ended June 30, 2007 and 2006:

	2007	2006
Operating Activities	(\$1,059,913)	\$3,351,824
Investing Activities	(1,810,563)	(2,763,962)
Financing Activities	2,330,689	(3,368,603)
