Section 2 - Financial Information

Item 2.05. Costs Associated With Exit or Disposal Activities.

On June 30, 2006, the Registrant finalized its decision to close its metal container facility in St. Paul, Minnesota. This decision resulted from the Registrant's ongoing efforts to streamline its operations and reduce its operating costs. The Registrant anticipates closing the facility during the second quarter of 2007.

As a result of this decision, the Registrant estimates that it will incur total cash and non-cash pre-tax charges of approximately \$15 million, of which approximately \$11 million will be recorded in 2006 with the majority of the balance to be recorded in 2007. The total pre-tax charges are estimated to include employee severance and benefit cost of approximately \$9 million, the write down in carrying value of assets of approximately \$3 million and plant exit costs of approximately \$3 million. Of these amounts, a total of approximately \$6 million represents incremental pre-tax cash expenditures which will be incurred primarily in 2007 and 2008 in connection with the closing of the facility. The amount of the charges for the closing of the facility will be updated at the time the Registrant announces its earnings results for the second quarter of 2006.

Statements included in this Current Report on Form 8-K which are not historical facts are "forward-looking statements" made pursuant to the safe harbor provisions of the Private Securities Litigation Reform Act of 1995 and Securities Exchange Act of 1934.
