GRUPO SIMEC ANNOUNCES RESULTS OF OPERATIONS FOR THE FIRST NINE MONTHS OF 2007

GUADALAJARA, MEXICO, October 26, 2007- Grupo Simec, S.A.B. de C.V. (AMEX:SIM) (Simec) announced today its results of operations for the nine-month period ended September 30, 2007.

Nine-Month Period Ended September 30, 2007 compared to Nine-Month Period Ended September 30, 2006

Net Sales

Net sales decreased 2% to Ps. 18,035 million in the nine-month period ended September 30, 2007 compared to Ps. 18,365 million in the same period of 2006. Shipments of finished steel products decreased 2% to 2,017 thousand tons in the nine-month period ended September 30, 2007 compared to 2,050 thousand tons in the same period of 2006. Total sales outside of Mexico in the nine-month period ended September 30, 2007 decreased 3% to Ps. 12,594 million compared with Ps. 12,949 million in the same period of 2006, while total Mexican sales increased 0.5% from 5,416 million in the nine-month period ended September 30, 2006 to Ps. 5,441 million in the same period of 2007. The decrease in sales are due to lower shipments during the third quarter 2007, comparing with the second quarter of 2007 (44,000 ton decrease) and comparing against the third quarter of 2006 (a decrease of 45,000 ton) The decline of tons shipped can be explained by the two unexpected stoppages in the rolling lines of the plants in Guadalajara and Apizaco due during the periods from July 5-8, July 10-13 and September 10-15 as a result of the shortage in natural gas due to the explosions on the property of Petroleos Mexicanos

Direct Cost of Sales

Direct cost of sales remained stable from Ps. 14,823 million in the nine-month period ended September 30, 2006 to Ps. 14,860 million in the same period 2007. Direct cost of sales as a percentage of net sales represented at 82% for the nine-month period ended September 30, 2007 compared to 81% in the same period of 2006. The increase in the Direct Cost of Sales is due to two factors: 1) Increase in maintenance costs in the plants located in the United States. The increase was due to the rescheduling of the maintenance stoppages in the second week of August with employees from outside the company instead of during the first weekend of July with company employees, as they are normally scheduled. The rescheduling of the maintenance stoppages was made with the intention of having enough inventories that would permit us to perform our obligations with our customers in view of the termination of the labor agreement between the company and the unionized workers. A tentative agreement was reached on August 16, which was later ratified on September 27. The contract will have a duration of 5 years and will expire in 2012. 2) An increase in the labor costs per ton sold, due to the three unexpected stoppages in the rolling lines of the plants in Guadalajara and Apizaco during the periods from July 5-8, July 10-13 and September 10-15 as a result of the shortage in natural gas due to the explosions on the property of Petroleos Mexicanos.

Gross Profit

Gross profit in the nine-month period ended September 30, 2007 decreased 10% to Ps. 3,175 million compared to Ps. 3,542 million in the same period 2006. Gross profit as a percentage of net sales for the nine-month period ended September 30, 2007 was 18% compared to 19% in the same period of 2006. The decline in gross profit is due to the decrease in sales and the increase in cost of goods sold due to the reasons previously mentioned.

Operating Expenses

Operating expenses increased 3% to Ps. 1,057 million in the nine-month period ended September 30, 2007 compared to Ps. 1,022 million in the same period 2006 (depreciation and amortization increased Ps. 48 million in the nine-month period compared to the same period of 2006) but remained stable at 6% of net sales.

Operating Profit

Operating profit decreased 16% from Ps. 2,520 million in the nine-month period ended September 30, 2006 to Ps. 2,118 million in the same period 2007. Operating profit as a percentage of net sales was 12% for the nine-month period ended September 30, 2007 compared to 14% in the same period of 2006. The decline in operating profit is due to the decrease in sales and the increase in cost of goods sold due to the reasons previously mentioned.

Integral Financial Cost

Integral financial cost in the nine-month period ended September 30, 2007 represented a gain of Ps. 205 million compared with a expense of Ps. 9 million for the same period in 2006. Interest income was Ps. 234 million in the nine-month period ended September 30, 2007, compared with Ps. 39 million in the same period 2006 due to larger cash balances during this year partly reflecting our recent capital increase in February 2007. At the same time we registered an exchange loss of Ps. 2 million in the nine-month period ended September 30, 2007 compared with an exchange loss of Ps. 17 million in the same period of 2006, reflecting a 0.4% increase in the value of the peso versus the dollar in the nine-month period ended September 30, 2007.

Other Expenses (Income) net

The company recorded other income net of Ps. 45 million in the nine-month period ended September 30, 2007 compared to other income, net for Ps. 28 million for the same period of 2006.

Taxes and Profit Sharing

Taxes and profit sharing in the nine-month period ended September 30, 2007 increased to Ps. 730 million compared to Ps. 356 million for the same period of 2006 due to an increase in deferred taxes during the nine-month period ended September 30, 2007. In the nine-month period ended September 30, 2006, we amortized Ps. 350 million of our deferred credit which is non-taxable income. This does not affect the cash flow.

Net Profit

As a result of the foregoing, net profit decreased by 25% to Ps. 1,638 million in the nine-month period ended September 30, 2007 from Ps. 2,183 million in the same period of 2006.

Liquidity and Capital Resources

At September 30, 2007 Simec's total consolidated debt consisted of U.S. \$302,000 of 8 7/8% medium-term notes (MTN's) due 1998 (accrued interest at September 30, 2006 was U.S. \$357,201 dollars). At December 31, 2006, Simec's total consolidated debt consisted of U.S. \$302,000 of 8 7/8% medium-term notes (MTN's) due 1998 (accrued interest at December 31, 2006 was U.S. \$336,525 dollars).

Net resources provided by operations were Ps. 2,004 million in the nine-month period ended September 30, 2007 versus Ps. 1,411 million of net resources provided by operations in the same period of 2006. Net resources provided by financing activities were Ps. 2,343 million in the nine-month period ended September 30, 2007 (which amount includes the capital increase of Ps. 2,387 million in February 2007) versus Ps. 118 million of net resources used by financing activities in the same period of 2006. Net resources used in investing activities (to acquire property, plant and equipment, other non-current assets and liabilities) were Ps. 515 million in the nine-month period ended September 30, 2007 versus net resources provided by investing activities (to acquire property, plant and equipment, other non-current assets and liabilities and proceeds for insurance claim) of Ps. 197 million in the same period of 2006.

Comparative third quarter 2007 vs second quarter 2007

Net Sales

Net sales decreased 9% due to a decrease of 2% in prices and a 7% decrease in sales volume making net sales go from Ps. 6,228 million for the second quarter 2007 to Ps. 5,659 million for the third quarter 2007. Sales in tons of finished steel products decreased 7% to 635 thousand tons in the third quarter 2007 compared with 679 thousand tons in the second quarter 2007. The total sales outside of Mexico for the third quarter 2007 decreased to Ps. 3,983 million compared with Ps. 4,312 million for the second quarter 2007. Total Mexican sales decreased from Ps. 1,916 million in the second quarter 2007 to Ps. 1,676 millions in the third quarter 2007. The decrease in sales can be explained due to lower shipments during the third quarter 2007, comparing with the second quarter of 2007 (44,000 ton decrease) and comparing against the third quarter of 2006 (a decrease of 45,000 tons) The decline of tons shipped can be explained by the two unexpected stoppages in the rolling lines of the plants in Guadalajara and Apizaco due during the periods from July 5-8, July 10-13 and September 10-15 as a result of the shortage in natural gas due to the explosions on the property of Petroleos Mexicanos.

Direct Cost of Sales

Direct cost of sales decreased 4% from Ps. 5,066 million in the second quarter 2007 to Ps. 4,870 million for the third quarter 2007. In the third quarter 2007, the direct cost of sales represented 86% of net sales compared to 81% for the second quarter 2007. The increase in the average cost of raw materials to produce steel products is due to two factors: 1) Increase in maintenance costs in the plants located in the United States. The increase was due to the rescheduling of the maintenance stoppages to the second week of August with employees from outside the company instead of doing them during the first weekend of July with company employees, as they are normally scheduled. The reprogramming of the maintenance stoppages was made with the intention of having enough inventories that would permit us to perform our obligations to our customers in view of the termination of the labor agreement between the company and the unionized workers. A tentative agreement was reached on August 16, which was later ratified on September 27. The contract will have duration of 5 years and will expire in 2012, 2) An increase in the labor costs per ton sold, due to the three unexpected stoppages in the rolling lines of the plants in Guadalajara and Apizaco during the periods from July 5-8, July 10-13 and September 10-15 as a result of the shortage in natural gas due to the explosions on the property of Petroleos Mexicanos.

Gross Profit

Gross profit for the third quarter 2007 decreased 32% to Ps. 789 million compared to Ps. 1,162 million in the second quarter 2007. Gross profit as a percentage of net sales for the third quarter 2007 was 14% compared with 19% for the second quarter 2007. The decline in gross profit is due to the decrease in sales and the increase in the average cost of raw materials to produce steel products due to the reasons previously mentioned.

Operating Expenses

Operating expenses were Ps. 349 million in the third quarter 2007 compared to Ps. 349 million for the second quarter 2007. As a percentage of sales, operating expense represented 6% during the third quarter of 2007 compared to 6% in the second quarter of 2007.

Operating Profit

Operating profit decreased 46% from Ps. 813 million in the second quarter 2007 to Ps. 440 million for the third quarter 2007. Operating profit as a percentage of net sales decreased to 8% in the third quarter 2007 from 13 % in the second quarter 2007. This was due to a decrease of 7% in sales volume and an increase of 3% in the average cost of raw materials.

Integral Financial Cost

Integral financial cost for the second quarter 2007 represented an income of Ps. 38 million compared with an income of Ps. 90 million for the third quarter 2007. Net interest income was Ps. 98 million in the third quarter 2007 compared with Ps. 88 million in the second quarter 2007, due to larger cash balances during this year partly reflecting our recent capital increase in February 2007.

Other Expenses (Income) net

The company recorded other income, net of Ps. 27 million for the third quarter 2007 compared with other expenses net of Ps. 9 million for the second quarter 2007.

Taxes and Profit Sharing

Taxes and profit sharing for the third quarter 2007 were Ps. 196 million compared to Ps. 301 million for the second quarter 2007, due to an increase in deferred taxes which increased from Ps. 102 million registered in the second quarter 2007 compared to Ps. 241 million registered in the third quarter 2007. This does not affect the cash flow.

Net Profit

As a result of the foregoing, net profit decreased by 33% to Ps. 361 million in the third quarter 2007 from Ps. 541 million in the second quarter 2007.

Comparative third quarter 2007 vs. third quarter 2006

Net Sales

Net sales decreased 2% from Ps. 5,774 million for the third quarter 2006 compared with Ps. 5,659 million for the same period 2007. Sales in tons of finished steel decreased 7% to 635 thousand tons in the third quarter 2007 compared with 680 thousand tons in the same period 2006. The total sales outside of Mexico for the third quarter 2007 increased 7% to Ps. 3,983 million compared with Ps. 3,724 million for the same period 2006. The total of national sales decreased 18% to 1,676 million in the third quarter of 2007 from Ps. 2,050 millions in the same period 2006. The decrease in sales can be explained due to lower shipments during the third quarter 2007, comparing with the second quarter of 2007 (44,000 tons decrease) and comparing against the third quarter of 2006 (a decrease of 45,000 tons) The decline of tons shipped can be explained by the three unexpected stoppages in the rolling lines of the plants in Guadalajara and Apizaco during the periods from July 5-8, July 10-13 and September 10-15 as a result from the shortage in natural gas due to the explosions on the property of Petroleos Mexicanos.

Direct Cost of Sales

Direct cost of sales increased 6% from Ps. 4,589 million in the third quarter 2006 to Ps. 4,870 million for the same period 2007. With respect to sales, in the third quarter 2007, the direct cost of sales represents 86% compared to 79% for the same period 2006. The increase in the Direct Cost of Sales is due to two factors: 1) Increase in maintenance costs in the plants located in the United States. The increase was due to the rescheduling of the maintenance stoppages to the second week of August with employees from outside the company instead of during the first weekend of July with company employees, as they are normally scheduled. The rescheduling of the maintenance stoppages was made with the intention of having enough inventories that would permit us to perform our obligations to our customers in view of the termination of the labor agreement between the company and the unionized workers. A tentative agreement was reached on August 16, which was later ratified on September 27. The contract will have duration of 5 years and will expire in 2012. 2) An increase in the labor costs per ton sold, due to the three unexpected stoppages in the rolling lines of the plants in Guadalajara and Apizaco during the periods from July 5-8, July 10-13 and September 10-15 as a result of the shortage in natural gas due to the explosions on the property of Petroleos Mexicanos.

Gross Profit

Gross profit for the third quarter 2007 decreased 33% to Ps. 789 million compared to Ps. 1,185 million in the same period 2006. The gross profit as a percentage of net sales for the third quarter 2007 was 14% compared with 21% for the same period of 2006. The decline in gross profit is due to the decrease in sales and the increase in cost of goods sold due to the reasons previously mentioned.

Operating Expenses

Operating expenses increased 9% to Ps. 349 million in the third quarter 2007 compared to Ps. 321 million for the same period 2006, the depreciation and amortization in the third quarter 2007 was Ps. 123 million compared to Ps. 113 million in the same period of 2006. Operating expenses as a percentage of net sales represented 6% during the third quarter 2007 compared to 6% of the same period 2006.

Operating Profit

Edgar Filing: GROUP SIMEC SA DE CV - Form 6-K

Operating profit decreased 49% from Ps. 864 million in the third quarter 2006 to Ps. 440 million for the same period 2007. The operating profit as a percentage of net sales in the third quarter 2007 was 8% compared to 15% in the same period

2006. The decline in operating profit is due to the decrease in sales and the increase in cost of goods sold due to the reasons previously mentioned.

Integral Financial Cost

Integral financial cost for the third quarter 2007 represented a gain of Ps. 90 million compared with the gain of Ps. 57 million for the same period 2006.

Other Expenses (Income) net

The company recorded other income net for Ps. 27 million for the third quarter 2007 compared with other expenses net for Ps. 7 million for the same period 2006.

Taxes and Profit Sharing

Taxes and profit sharing for the third quarter 2007 decreased to Ps. 196 million compared to Ps. 245 million for the same period 2006.

Net Profit

As a result of the foregoing, net profit decreased by 35% to Ps. 361 million in the third quarter 2007 from Ps. 555 million in the third quarter 2006.

QUARTER: **3** YEAR: **2007**

DIRECTOR REPORT

CONSOLIDATED

Nine-Month Period Ended September 30, 2007 compared to Nine-Month Period Ended September 30, 2006

Net Sales

Net sales decreased 2% to Ps. 18,035 million in the nine-month period ended September 30, 2007 compared to Ps. 18,365 million in the same period of 2006. Shipments of finished steel products decreased 2% to 2,017 thousand tons in the nine-month period ended September 30, 2007 compared to 2,050 thousand tons in the same period of 2006. Total sales outside of Mexico in the nine-month period ended September 30, 2007 decreased 3% to Ps. 12,594 million compared with Ps. 12,949 million in the same period of 2006, while total Mexican sales increased 0.5% from 5,416 million in the nine-month period ended September 30, 2006 to Ps. 5,441 million in the same period of 2007. The decrease in sales are due to lower shipments during the third quarter 2007, comparing with the second quarter of 2007 (44,000 ton decrease) and comparing against the third quarter of 2006 (a decrease of 45,000 ton) The decline of tons shipped can be explained by the two unexpected stoppages in the rolling lines of the plants in Guadalajara and Apizaco due during the periods from July 5-8, July 10-13 and September 10-15 as a result of the shortage in natural gas due to the explosions on the property of Petroleos Mexicanos

Direct Cost of Sales

Direct cost of sales remained stable from Ps. 14,823 million in the nine-month period ended September 30, 2006 to Ps. 14,860 million in the same period 2007. Direct cost of sales as a percentage of net sales represented at 82% for the nine-month period ended September 30, 2007 compared to 81% in the same period of 2006. The increase in the Direct Cost of Sales is due to two factors: 1) Increase in maintenance costs in the plants located in the United States. The increase was due to the rescheduling of the maintenance stoppages in the second week of August with employees from outside the company instead of during the first weekend of July with company employees, as they are normally scheduled. The rescheduling of the maintenance stoppages was made with the intention of having enough inventories that would permit us to perform our obligations with our customers in view of the termination of the labor agreement between the company and the unionized workers. A tentative agreement was reached on August 16, which was later ratified on September 27. The contract will have a duration of 5 years and will expire in 2012. 2) An increase in the labor costs per ton sold, due to the three unexpected stoppages in the rolling lines of the plants in Guadalajara and Apizaco during the periods from July 5-8, July 10-13 and September 10-15 as a result of the shortage in natural gas due to the explosions on the property of Petroleos Mexicanos.

Gross Profit

Gross profit in the nine-month period ended September 30, 2007 decreased 10% to Ps. 3,175 million compared to Ps. 3,542 million in the same period 2006. Gross profit as a percentage of net sales for the nine-month period ended September 30, 2007 was 18% compared to 19% in the same period of 2006. The decline in gross profit is due to the decrease in sales and the increase in cost of goods sold due to the reasons previously mentioned.

Operating Expenses

Edgar Filing: GROUP SIMEC SA DE CV - Form 6-K

Operating expenses increased 3% to Ps. 1,057 million in the nine-month period ended September 30, 2007 compared to Ps. 1,022 million in the same period 2006 (depreciation and amortization increased Ps. 48 million in the nine-month period compared to the same period of 2006) but remained stable at 6% of net sales.

Operating Profit

Operating profit decreased 16% from Ps. 2,520 million in the nine-month period ended September 30, 2006 to Ps. 2,118 million in the same period 2007. Operating profit as a percentage of net sales was 12% for the nine-month period ended September 30, 2007 compared to 14% in the same period of 2006. The decline in operating profit is due to the decrease in sales and the increase in cost of goods sold due to the reasons previously mentioned.

Integral Financial Cost

Integral financial cost in the nine-month period ended September 30, 2007 represented a gain of Ps. 205 million compared with an expense of Ps. 9 million for the same period in 2006. Interest income was Ps. 234 million in the nine-month period ended September 30, 2007, compared with Ps. 39 million in the same period 2006 due to larger cash balances during this year partly reflecting our recent capital increase in February 2007. At the same time we registered an exchange loss of Ps. 2 million in the nine-month period ended September 30, 2007 compared with an exchange loss of Ps. 17 million in the same period of 2006, reflecting a 0.4% increase in the value of the peso versus the dollar in the nine-month period ended September 30, 2007.

Other Expenses (Income) net

The company recorded other income net of Ps. 45 million in the nine-month period ended September 30, 2007 compared to other income, net for Ps. 28 million for the same period of 2006.

Taxes and Profit Sharing

Taxes and profit sharing in the nine-month period ended September 30, 2007 increased to Ps. 730 million compared to Ps. 356 million for the same period of 2006 due to an increase in deferred taxes during the nine-month period ended September 30, 2007. In the nine-month period ended September 30, 2006, we amortized Ps. 350 million of our deferred credit which is non-taxable income. This does not affect the cash flow.

Net Profit

As a result of the foregoing, net profit decreased by 25% to Ps. 1,638 million in the nine-month period ended September 30, 2007 from Ps. 2,183 million in the same period of 2006.

Liquidity and Capital Resources

At September 30, 2007 Simec's total consolidated debt consisted of U.S. \$302,000 of 8 7/8% medium-term notes (MTNs) due 1998 (accrued interest at September 30, 2006 was U.S. \$357,201 dollars). At December 31, 2006, Simec's total consolidated debt consisted of U.S. \$302,000 of 8 7/8% medium-term notes (MTNs) due 1998 (accrued interest at December 31, 2006 was U.S. \$336,525 dollars).

Net resources provided by operations were Ps. 2,004 million in the nine-month period ended September 30, 2007 versus Ps. 1,411 million of net resources provided by operations in the same period of 2006. Net resources provided by financing activities were Ps. 2,343 million in the nine-month period ended September 30, 2007 (which amount includes the capital increase of Ps. 2,387 million in February 2007) versus Ps. 118 million of net resources used by financing activities in the same period of 2006. Net resources used in investing activities (to acquire property, plant and equipment, other non-current assets and liabilities) were Ps. 515 million in the nine-month period ended September 30, 2007 versus net resources provided by investing activities (to acquire property, plant and equipment, other non-current assets and liabilities and proceeds for insurance claim) of Ps. 197 million in the same period of 2006.

Comparative third quarter 2007 vs second quarter 2007

Net Sales

Net sales decreased 9% due to a decrease of 2% in prices and a 7% decrease in sales volume making net sales go from Ps. 6,228 million for the second quarter 2007 to Ps. 5,659 million for the third quarter 2007. Sales in tons of finished steel products decreased 7% to 635 thousand tons in the third quarter 2007 compared with 679 thousand tons in the second quarter 2007. The total sales outside of Mexico for the third quarter 2007 decreased to Ps. 3,983 million compared with Ps. 4,312 million for the second quarter 2007. Total Mexican sales decreased from Ps. 1,916 million in the second quarter 2007 to Ps. 1,676 millions in the third quarter 2007. The decrease in sales can be explained due to lower shipments during the

third quarter 2007, comparing with the second quarter of 2007 (44,000 ton decrease) and comparing against the third quarter of 2006 (a decrease of 45,000 tons) The decline of tons shipped can be explained by the two unexpected stoppages in the rolling lines of the plants in Guadalajara and Apizaco due during the periods from July 5-8, July 10-13 and September 10-15 as a result of the shortage in natural gas due to the explosions on the property of Petroleos Mexicanos.

Direct Cost of Sales

Direct cost of sales decreased 4% from Ps. 5,066 million in the second quarter 2007 to Ps. 4,870 million for the third quarter 2007. In the third quarter 2007, the direct cost of sales represented 86% of net sales compared to 81% for the second quarter 2007. The increase in the average cost of raw materials to produce steel products is due to two factors: 1) Increase in maintenance costs in the plants located in the United States. The increase was due to the rescheduling of the maintenance stoppages to the second week of August with employees from outside the company instead of doing them during the first weekend of July with company employees, as they are normally scheduled. The reprogramming of the maintenance stoppages was made with the intention of having enough inventories that would permit us to perform our obligations to our customers in view of the termination of the labor agreement between the company and the unionized workers. A tentative agreement was reached on August 16, which was later ratified on September 27. The contract will have duration of 5 years and will expire in 2012, 2) An increase in the labor costs per ton sold, due to the three unexpected stoppages in the rolling lines of the plants in Guadalajara and Apizaco during the periods from July 5-8, July 10-13 and September 10-15 as a result of the shortage in natural gas due to the explosions on the property of Petroleos Mexicanos.

Gross Profit

Gross profit for the third quarter 2007 decreased 32% to Ps. 789 million compared to Ps. 1,162 million in the second quarter 2007. Gross profit as a percentage of net sales for the third quarter 2007 was 14% compared with 19% for the second quarter 2007. The decline in gross profit is due to the decrease in sales and the increase in the average cost of raw materials to produce steel products due to the reasons previously mentioned.

Operating Expenses

Operating expenses were Ps. 349 million in the third quarter 2007 compared to Ps. 349 million for the second quarter 2007. As a percentage of sales, operating expense represented 6% during the third quarter of 2007 compared to 6% in the second quarter of 2007.

Operating Profit

Operating profit decreased 46% from Ps. 813 million in the second quarter 2007 to Ps. 440 million for the third quarter 2007. Operating profit as a percentage of net sales decreased to 8% in the third quarter 2007 from 13 % in the second quarter 2007. This was due to a decrease of 7% in sales volume and an increase of 3% in the average cost of raw materials.

Integral Financial Cost

Integral financial cost for the second quarter 2007 represented an income of Ps. 38 million compared with an income of Ps. 90 million for the third quarter 2007. Net interest income was Ps. 98 million in the third quarter 2007 compared with Ps. 88 million in the second quarter 2007, due to larger cash balances during this year partly reflecting our recent capital increase in February 2007.

Other Expenses (Income) net

Edgar Filing: GROUP SIMEC SA DE CV - Form 6-K

The company recorded other income, net of Ps. 27 million for the third quarter 2007 compared with other expenses net of Ps. 9 million for the second quarter 2007.

Taxes and Profit Sharing

Taxes and profit sharing for the third quarter 2007 were Ps. 196 million compared to Ps. 301 million for the second quarter 2007, due to an increase in deferred taxes which increased from Ps. 102 million registered in the second quarter 2007 compared to Ps. 241 million registered in the third quarter 2007. This does not affect the cash flow.

Net Profit

As a result of the foregoing, net profit decreased by 33% to Ps. 361 million in the third quarter 2007 from Ps. 541 million in the second quarter 2007.

Comparative third quarter 2007 vs. third quarter 2006

Net Sales

Net sales decreased 2% from Ps. 5,774 million for the third quarter 2006 compared with Ps. 5,659 million for the same period 2007. Sales in tons of finished steel decreased 7% to 635 thousand tons in the third quarter 2007 compared with 680 thousand tons in the same period 2006. The total sales outside of Mexico for the third quarter 2007 increased 7% to Ps. 3,983 million compared with Ps. 3,724 million for the same period 2006. The total of national sales decreased 18% to 1,676 million in the third quarter of 2007 from Ps. 2,050 millions in the same period 2006. The decrease in sales can be explained due to lower shipments during the third quarter 2007, comparing with the second quarter of 2007 (44,000 tons decrease) and comparing against the third quarter of 2006 (a decrease of 45,000 tons) The decline of tons shipped can be explained by the three unexpected stoppages in the rolling lines of the plants in Guadalajara and Apizaco during the periods from July 5-8, July 10-13 and September 10-15 as a result from the shortage in natural gas due to the explosions on the property of Petroleos Mexicanos.

Direct Cost of Sales

Direct cost of sales increased 6% from Ps. 4,589 million in the third quarter 2006 to Ps. 4,870 million for the same period 2007. With respect to sales, in the third quarter 2007, the direct cost of sales represents 86% compared to 79% for the same period 2006. The increase in the Direct Cost of Sales is due to two factors: 1) Increase in maintenance costs in the plants located in the United States. The increase was due to the rescheduling of the maintenance stoppages to the second week of August with employees from outside the company instead of during the first weekend of July with company employees, as they are normally scheduled. The rescheduling of the maintenance stoppages was made with the intention of having enough inventories that would permit us to perform our obligations to our customers in view of the termination of the labor agreement between the company and the unionized workers. A tentative agreement was reached on August 16, which was later ratified on September 27. The contract will have duration of 5 years and will expire in 2012. 2) An increase in the labor costs per ton sold, due to the three unexpected stoppages in the rolling lines of the plants in Guadalajara and Apizaco during the periods from July 5-8, July 10-13 and September 10-15 as a result of the shortage in natural gas due to the explosions on the property of Petroleos Mexicanos.

Gross Profit

Gross profit for the third quarter 2007 decreased 33% to Ps. 789 million compared to Ps. 1,185 million in the same period 2006. The gross profit as a percentage of net sales for the third quarter 2007 was 14% compared with 21% for the same period of 2006. The decline in gross profit is due to the decrease in sales and the increase in cost of goods sold due to the reasons previously mentioned.

Operating Expenses

Operating expenses increased 9% to Ps. 349 million in the third quarter 2007 compared to Ps. 321 million for the same period 2006, the depreciation and amortization in the third quarter 2007 was Ps. 123 million compared to Ps. 113 million in the same period of 2006. Operating expenses as a percentage of net sales represented 6% during the third quarter 2007 compared to 6% of the same period 2006.

Operating Profit

Edgar Filing: GROUP SIMEC SA DE CV - Form 6-K

Operating profit decreased 49% from Ps. 864 million in the third quarter 2006 to Ps. 440 million for the same period 2007. The operating profit as a percentage of net sales in the third quarter 2007 was 8% compared to 15% in the same period 2006. The decline in operating profit is due to the decrease in sales and the increase in cost of goods sold due to the reasons previously mentioned.

Integral Financial Cost

Integral financial cost for the third quarter 2007 represented a gain of Ps. 90 million compared with the gain of Ps. 57 million for the same period 2006.

Other Expenses (Income) net

The company recorded other income net for Ps. 27 million for the third quarter 2007 compared with other expenses net for Ps. 7 million for the same period 2006.

Taxes and Profit Sharing

Taxes and profit sharing for the third quarter 2007 decreased to Ps. 196 million compared to Ps. 245 million for the same period 2006.

Net Profit

As a result of the foregoing, net profit decreased by 35% to Ps. 361 million in the third quarter 2007 from Ps. 555 million in the third quarter 2006.

GRUPO SIMEC, S.A.B. DE C.V.

QUARTER: 3 YEAR: **2007**

FINANCIAL STATEMENT NOTES

CONSOLIDATED

(1) Operations preparation bases and summary of significant accounting policies:

Grupo Simec, S.A. de C.V. and its Subsidiaries (the Company) are subsidiaries of Industrias CH, S.A. de C.V. (ICH), and their main activities consist of the manufacturing and sale of steel products primarily destined for the construction sector of Mexico and other countries.

Significant accounting policies and practices followed by the Companies which affect the principal captions of the financial statements are described below:

a. Financial statement presentation The consolidated financial statements have been prepared in accordance with principles generally accepted in Mexico, which include the recognition of the effects of inflation on the financial information and the presentation in constant Mexican pesos.

b. Principles of Consolidation As part of the financial debt restructuring agreement into during 1997, Compañía Siderúrgica de Guadalajara, S.A. de C.V. (CSG) assumed all of the debt of the Company in return for an equity interest in its subsidiaries. As a result of the above, the Company is the principal shareholder of CSG, and CSG is the principal shareholder of the other subsidiaries that Grupo Simec, S.A. de C.V. (Simec) controlled before the restructuring.

The main subsidiaries of CSG are the following:

- ° Compañía Siderúrgica de California, S.A. de C.V.
- ° Industrias del Acero y del Alambre, S.A. de C.V.
- ° Pacific Steel Inc.
- ° SimRep Corporation and PAV Republic and Subsidiaries

All significant intercompany balances and transactions have been eliminated in consolidation.

Edgar Filing: GROUP SIMEC SA DE CV - Form 6-K

c. Cash and cash equivalents The Company considers short-term investments with original maturities not greater than three months to be cash equivalent. Cash equivalents include temporary investments and Mexican Government Treasury Bonds, and are stated at market value, which approximates cost plus earned interest. Any increase in market value is credited to operations for the period.

d. Inventories The inventories are originally stated at average cost and subsequently adjusted to replacement value at the balance sheet date. The replacement values do not exceed market and are determined as follows:

Billet finished goods and work in process - At the latest production cost for the month.

Raw materials According to purchase prices prevailing in the market at the balance sheet date.

Materials, supplies and rollers At historical cost, restated by applying the steel industry inflation index.

The Company presents as non-current inventories the rollers and spare parts, which according to historical data and production trends will not be used within a one-year period.

e.- Derivative financial instruments The Company is using derivative financial instruments for hedging risks associated with natural gas prices and conducted studies on historical consumption, future requirements and commitments; thus it

avoided exposure to risks other than the normal operating risks. Management of the Company examines its financial risks by continually analyzing price, credit and liquidity risks.

The Company uses futures contracts for hedging risks from fluctuations in natural gas prices, which are based on demand and supply at the principal international markets.

As applicable, the Company recognized the fair value of instruments either as liabilities or assets. Such fair value and thus, the value of these assets or liabilities were restated at each month s-end. The Company opted for the early Instruments and Hedging ; therefore, at December 31, 2003 the fair value-of natural gas in force during 2004, 2005 and of natural gas in force during 2004, 2005 and 2006 and which effective portions will not be offset against the asset risks until consumed, were recognized within the comprehensive income account in stockholders equity.

f. Property, plant and equipment Property, plant and equipment of domestic origin are restated by using factors derived from The National Consumer Price Index (NCPI) from the date of their acquisition, and imported machinery and equipment are restated by applying devaluation and inflation factors of the country of origin. Depreciation recorded in the consolidated statement of income (loss) is computed based upon the estimated useful life and the restated cost of each asset. In addition, Financial expense incurred during the construction period is capitalized as construction in progress. The capitalized amounts are restated using a factor derived from the NCPI cumulative from the date of capitalization through period-end and are amortized over the average depreciation period of the corresponding assets. The estimated useful lives of assets as of September 30, 2007 are as follows:

	Years
Buildings	15 to 50
Machinery and equipment	10 to 40
Buildings and improvements (Republic)	10 to 25
Land improvements (Republic)	5 to 25
Machinery and equipment (Republic)	5 to 20

g. Other assets Organization and pre-operating expenses are capitalized and restated using a factor derived from the NCPI cumulative from the date of generation through period-end, and their amortization is calculated by the straight-line method over a period of 20 years.

h. Seniority premiums and severance payments According to Federal Labor Law, employees are entitled to seniority premiums after fifteen years or more of services. These premiums are recognized as expenses in the years in which the services are rendered, using actuarial calculations based on the projected unit credit method, and since 1996 by applying real interest and salary increases.

Edgar Filing: GROUP SIMEC SA DE CV - Form 6-K

Any other payments to which employees may be entitled in case of separation, disability or death, are charged to operations in the period in which they become payable.

i. Pension plan Until 1995, the Company provided pension benefits for all personnel with a minimum of 10 years of service and 35 years of age. The Company had established an irrevocable trust for its contributions, which were based on actuarial calculations. In December 1995, the board of directors of the Company, in agreement with the trade union, discontinued these benefits and related contributions to the trust fund. This decision was made because of the new Mexican pension fund system, Administradoras de Fondos para el Retiro, which establishes similar benefits for the employees. The balance of the trust fund will be applied to the retirement benefits of qualifying employees until the fund is exhausted due to the irrevocable status of the fund.

The Company does not have any contractual obligation regarding the payment of pensions of retirements.

j. Cost of sales Cost of sales related to sales of inventory items is recorded at standard cost, which approximates the replacement cost at the date of sale.

k. Income tax and employee profit sharing In 1999, the Mexican Institute of Public Accountants issued Bulletin D-4, Accounting for Income and Asset Taxes and Employee Profit Sharing, which is effective for all fiscal years beginning

January 1, 2000. Bulletin D-4 establishes financial accounting and reporting standards for the effects of asset tax, income tax and employee profit sharing that result from enterprise activities during the current and preceding years.

The Company and its subsidiaries are included in the consolidated tax returns of the company's parent.

l. Foreign currency transactions and exchange differences All transactions in foreign currency are recorded at the exchange rates prevailing on the date of their execution or liquidation. Foreign currency denominated assets and liabilities are translated at the exchange rates prevailing at the balance sheet date. Any exchange differences incurred with regard to assets or liabilities denominated in foreign currency are charged to operations of the period and are included in financial income (expense) in the accompanying consolidated statements of income (loss).

For consolidation purposes, the financial statements of the subsidiaries abroad, SimRep and subsidiaries, Pacific Steel and Undershaft Investment, were translated into pesos in conformity with Mexican accounting Bulletin B-15, Transactions in Foreign Currency and Translation of Financial Statements of Foreign Operations.

The subsidiary SimRep was considered as a foreign entity for translation purposes; therefore the financial statements as reported by the subsidiary abroad were adjusted to conform with Mexican GAAP, which includes the recognition of the effects of inflation as required by Mexican accounting Bulletin B-10, applying inflation adjustment factors derived from the U.S. Consumer Price Index (CPI) published by the U.S. labor department. The financial information already restated to include inflationary effects, is translated to Mexican pesos as follows:

- By applying the prevailing exchange rate at the consolidated balance sheet date for monetary and non-monetary assets and liabilities.
- By applying the prevailing exchange rate for stockholders' equity accounts, at the time capital contributions were made and earnings were generated.
- By applying the prevailing exchange rate at the consolidated balance sheet date for revenues and expenses during the reporting period.
- The related effect of translation is recorded in stockholders' equity under the caption Equity adjustments for non monetary assets.
- The resulting amounts were restated applying adjustment factors derived from the NCPI, in conformity with Mexican accounting Bulletin B-10.

The subsidiaries Pacific Steel and Undershaft Investment, were considered an integral part of the operations of the Company; and the financial statements of such subsidiaries were translated into Mexican pesos as follows:

Edgar Filing: GROUP SIMEC SA DE CV - Form 6-K

- By applying the prevailing exchange rate at the consolidated balance sheet date for monetary items.
- By applying the prevailing exchange rate at the time the non-monetary assets and capital are generated, and the weighted average exchange rate of the period for income statement items.
- The related effect of translation is recorded in the statement of operations as part of the caption Comprehensive financing cost.
- The resulting amounts were restated applying adjustment factors derived from the Mexican NCPI, in conformity with Mexican accounting Bulletin B-10.

m. Geographic concentration of credit risk The Company sells its products primarily to distributors for the construction industry with no specific geographic concentration. Additionally, no single customer accounted for a significant amount of the Company's sales, and there were no significant accounts receivable from a single customer or affiliate at September 30, 2006 and at September 30, 2007, direct sales to two customers accounted for approximately 10% and 16.6% of the Republic's sales. The Company performs evaluations of its customers' credit histories and establishes an allowance for doubtful accounts based upon the credit risk of specific customers and historical trends.

n. Other income (expenses) Other income (expenses) shown in the consolidated statements of operations primarily includes other financial operations.

o. Gain on monetary position - The gain on monetary position in the consolidated statements of income (loss) is determined by applying to net monetary assets or liabilities at the beginning of each month the factor of inflation derived from the NCPI and is restated at period-end with the corresponding factor.

p. Restatement of capital stock and retained earnings (losses) This is determined by multiplying capital stock contributions and retained earnings (losses) by factors derived from the NCPI, which measure the cumulative inflation from the date when capital stock contributions were made and earnings (losses) were generated, through the latest period-end.

q. Effect of restatement of stockholders' equity The effect resulting from restating stockholders' equity includes the accumulated effect from holding non-monetary assets, which represents the change in the specific price level of those assets compared to the change in the NCPI.

(2) Financial Debt:

At September 30, 2007 Simec's total consolidated debt consisted of U.S. \$302,000 of 8 7/8% medium-term notes (MTNs) due 1998 (accrued interest at September 30, 2007 was U.S. \$ 357,201 dollars). At December 31, 2006 Simec's total consolidated debt consisted of U.S. \$302,000 of 8 7/8% medium-term notes (MTNs) due 1998 (accrued interest at December 31, 2006 was U.S. \$336,525 dollars).

(3) Commitments and contingent liabilities:

a. Pacific Steel, Inc. (a wholly-owned subsidiary located in the U.S.A.) has been named in various claims and suits relating to the generation, storage, transport, disposal and cleanup of materials classified as hazardous waste. The Company has accrued approximately Ps. 8,758 (U.S. \$801,679) at September 30, 2007, (included in accrued liabilities) relating to these actions; the reduction of this reserve from previous levels reflects clean-up activities undertaken by Simec. Management believes the ultimate liability with respect to this matter will not exceed the amounts that have been accrued.

b. The Company is subject to various other legal proceedings and claims, which have arisen, in the ordinary course of its business. It is the opinion of management that their ultimate resolution will not have a material adverse effect on the Company's consolidated financial position or consolidated results of operations.

c. Compañía Siderúrgica de Guadalajara, S.A. de C.V. has entered into a gas and liquid oxygen purchase agreement with Praxair de México, S.A. de C.V., under which it is committed to acquire monthly over a fifteen-year period beginning January 1, 1989, a certain amount of product. At present required purchases amount to Ps. 1,700 per month.

**INFORMATION RELATED TO BULLETIN B-15
(FOREIGN CURRENCY TRANSLATION)**

CONSOLIDATED

Foreign currency transactions and exchange differences All transactions in foreign currency are recorded at the exchange rates prevailing on the date of their execution or liquidation. Foreign currency denominated assets and liabilities are translated at the exchange rates prevailing at the balance sheet date. Any exchange differences incurred with regard to assets or liabilities denominated in foreign currency are charged to operations of the period and are included in financial income (expense) in the accompanying consolidated statements of income (loss).

The financial statements of foreign subsidiaries are translated into Mexican pesos in conformity with Bulletin B-15 Transactions in Foreign Currency and Translation of Financial Statements of Foreign Operations .

Pacific Steel and Undershaft investments are considered to be integrated foreign operations , as defined in Bulletin B-15, and accordingly such financial statements were translated as follows:

- Monetary items at the exchange rate at the balance sheet date.
- Non-monetary items and stockholders' equity at the exchange rate prevailing at the date the transactions occurred.
- Income and expense items at an appropriate average exchange rate.
- The resulting foreign currency translation differences are included in the financial income (expense) in the statement of income (loss).
- All resulting Mexican peso amounts are restated for the effects of inflation in accordance with the dispositions of Bulletin B-10 using the NCPI, where such effects are considered significant.

Edgar Filing: GROUP SIMEC SA DE CV - Form 6-K

SimRep and subsidiaries are considered to be foreign operations , as defined in Bulletin B-15, and accordingly such financial statements were translated as follows:

- Monetary and non-monetary items at the exchange rate at the balance sheet date.
- Income and expense items at the exchange rate at the balance sheet date.
- The resulting foreign currency translation differences are included in the stockholders' equity.
- All resulting Mexican peso amounts are restated for the effects of inflation in accordance with the dispositions of Bulletin B-10 using the NCPI, where such effects are considered significant.
