Our bylaws provide that a majority of all of the shares of our capital stock entitled to vote, whether present in person or represented by proxy, shall constitute a quorum for the transaction of business at the meeting. Votes for and against, abstentions and "broker non-votes" will each be counted as present for purposes of determining the presence of a quorum. Solicitation of Proxies. The Company will bear the cost of soliciting proxies. We will solicit stockholders by mail through our regular employees, and will request banks and brokers, and other custodians, nominees and fiduciaries, to solicit their customers who have our stock registered in the names of such persons and will reimburse them for their reasonable, out-of-pocket costs. We may use the services of our officers, directors and others to solicit proxies, personally or by telephone, without additional compensation. In addition, the Company has retained Regan & Associates, Inc., a proxy solicitation firm, for assistance in connection with the annual meeting at a cost of approximately \$7,000.

PROPOSAL NUMBER ONE

ELECTION OF DIRECTORS

The Company has a classified board of directors which currently consists of five directors, two of whom are Class I directors, two of whom are Class II directors, and one who is a Class III director. Class I and Class II directors serve until the annual meeting of stockholders to be held in 2002 and 2003, respectively, and the Class III director serves until the annual meeting of stockholders to be held in 2001. All directors serve until their respective successors are duly elected and qualified. Directors in a class are elected for a term of three years to succeed the directors in that class whose terms expire at such annual meeting.

The term of the Class III director will expire on the date of the upcoming meeting. Accordingly, one person is to be elected to serve as a Class III director. Management's nominee for election by the stockholders to Class III of the board of directors is B.J. Moore, a current Class III member of the board of directors. If elected, the nominee will serve as director until AXT's annual meeting of stockholders in 2004, and until his successor is elected and qualified. If the nominee declines to serve or becomes unavailable for any reason, or if a vacancy occurs before the election the proxies may be voted for substitute nominees as the board of directors may designate, although management knows of no reason why this may occur.

The table below sets forth the names and certain information about our directors, including the Class III nominee to be elected at this meeting.

BOARD OF DIRECTOR'S COMMITTEES AND MEETINGS

During 2000, the board of directors held ten (10) meetings, the audit committee of the board held seven (7) meetings, and the compensation committee of the board held one (1) meeting. No director attended fewer than 75% of the total number of meetings of the board and all of the committees of the board on which such director served that were held during that period. The board of directors has established an audit committee and a compensation committee.

The members of the audit committee during 2000 were Jesse Chen, B.J. Moore and Donald Tatzin, until April 2000 when Mr. Tatzin resigned from the audit committee, and from December 2000, David C. Chang. The audit committee's functions include:

- review with the independent auditors and management of AXT the annual financial statements and independent auditors' opinion,
- review the scope and results of the examination of our financial statements by the independent auditors,
- approve all professional services and related fees performed by the independent auditors,
- recommend the retention of the independent auditors to the board, subject to ratification by the stockholders, and
- periodically review our accounting policies and internal accounting and financial controls.

The audit committee also oversees actions taken by our independent auditors, recommends the engagement of auditors and reviews our internal audits.

All members of the audit committee are "independent" in accordance with the National Association of Securities Dealers, Inc. ("NASD") Rules 4310(c)(26)(B)(i) and 4200(a)(15) that are currently applicable to AXT. PROPOSAL NUMBER TWO

APPROVAL OF AMENDMENT TO THE CERTIFICATE OF INCORPORATION TO INCREASE THE NUMBER OF AUTHORIZED SHARES OF COMMON STOCK

BACKGROUND

Under Delaware law, the Company may only issue shares of common stock to the extent such shares have been authorized for issuance under the Company's Certificate of Incorporation ("Certificate"). The Certificate currently authorizes the issuance by the Company of up to 40,000,000 shares of common stock, \$.001 par value. However, as of April 6, 2001, 22,553,967 shares of the Company's common stock were issued and outstanding and 5,330,578 unissued shares of common stock were reserved for issuance under the Company's equity compensation plans, leaving 12,115,455 shares of common stock unissued and unreserved. In order to ensure sufficient shares of common stock will be available by the Company, the board of directors on April 6, 2001 approved, subject to stockholder approval, amending the Company's Certificate of Incorporation to increase the number of shares of such common stock authorized for issuance from 40,000,000 to 70,000,000.

PURPOSE AND EFFECT OF THE AMENDMENT

The principal purpose of the proposed amendment to the Certificate is to authorize additional shares of common stock which will be available in the event the board of directors determines that it is necessary or appropriate to permit future stock dividends or stock splits, to raise additional capital through the sale of equity securities, to acquire another company or its assets, to establish strategic relationships with corporate partners, provide equity incentives to employees and officers or other corporate purposes. The board of directors has no current intention to split the outstanding common stock by declaring a stock dividend, and the declaration and payment of such a stock dividend by the board would be contingent upon several factors, including the market price of the Company's stock, the Company's expectations about future performance, and the Company's beliefs about general stock market trends. The availability of additional shares of common stock is particularly important in the event that the directors need to undertake any of the foregoing actions on an expedited basis and thus to avoid the time and expense of seeking stockholder approval in connection with the contemplated issuance of common stock. The board of directors has no present agreement, arrangement or intention to issue any of the shares for which approval is sought. If the amendment is approved by the stockholders, the board of directors does not intend to solicit further stockholder approval prior to the issuance of any additional shares of common stock, except as may be required by applicable law.

The increase in authorized common stock will not have any immediate effect on the rights of existing stockholders. However, the board will have the

Edgar Filing: AXT INC - Form DEF 14A

authority to issue authorized common stock without requiring future stockholder approval of such issuances, except as may be required by applicable law. To the extent that additional authorized shares are issued in the future, they may decrease the existing stockholders' percentage equity ownership and, depending on the price at which they are issued, could be dilutive to the existing stockholders. The holders of common stock have no preemptive rights and the board of directors has no plans to grant such rights with respect to any such shares.

The increase in the authorized number of shares of common stock and the subsequent issuance of such shares could have the effect of delaying or preventing a change in control of the Company without further action by the stockholders. Shares of authorized and unissued common stock could, within the limits imposed by applicable law, be issued in one or more transactions which would make a change in control of the Company more difficult, and therefore less likely. Any such issuance of additional stock could have the effect of diluting the earnings per share and book value per share of outstanding shares of common stock and such additional shares could be used to dilute the stock ownership or voting rights of a person seeking to obtain control of the Company.

The board of directors is not currently aware of any attempt to take over or acquire the Company. While it may be deemed to have potential anti-takeover effects, the proposed amendment to increase the authorized common stock is not prompted by any specific effort or takeover threat currently perceived by management.

5

9

If the proposed amendment is approved by the stockholders, Article 4 of the Company's Certificate of Incorporation will be amended to read as follows:

A. Capitalization. The total number of shares of all classes of stock which the Corporation will have authority to issue is seventy-two million (72,000,000), consisting of

1. Two million (2,000,000) shares of Preferred Stock, par value 0.1 cent (\$.001) per share (the "Preferred Stock"); and

2. Seventy million (70,000,000) shares of Common Stock, par value 0.1 cent (\$.001) per share (the "Common Stock").

The additional shares of common stock to be authorized pursuant to the proposed amendment will have a par value of \$.001 per share and be of the same class of common stock as is currently authorized under the Certificate. The Company does not have any current intentions, plans, arrangements, commitments or understandings to issue any shares of its capital stock except in connection with its existing stock option and purchase plans and as stock dividends to holders of outstanding stock.

VOTE REQUIRED AND BOARD OF DIRECTORS' RECOMMENDATION

The affirmative vote of a majority of the shares of outstanding common stock is required for approval of this proposal. Shares of Series A preferred stock shall not be entitled to vote on this matter. Abstentions and broker non-votes will be counted as present for purposes of determining if a quorum is present, but will have the same effect as a negative vote on this proposal.

THE BOARD OF DIRECTORS UNANIMOUSLY RECOMMENDS THAT THE STOCKHOLDER VOTE "FOR" THE APPROVAL OF THE AMENDMENT TO THE CERTIFICATE OF INCORPORATION TO INCREASE THE NUMBER OF AUTHORIZED SHARES OF COMMON STOCK FROM 40,000,000 TO 70,000,000 SHARES.

PROPOSAL NUMBER THREE

RATIFICATION OF APPOINTMENT OF INDEPENDENT AUDITORS

The board of directors has selected PricewaterhouseCoopers LLP as independent auditors to audit our financial statements for the fiscal year ending December 31, 2001. PricewaterhouseCoopers LLP has acted in such capacity since its appointment during the fiscal year ended December 31, 1997. A representative of PricewaterhouseCoopers LLP is expected to be present at the annual meeting of stockholders with the opportunity to make a statement if the representative desires to do so, and is expected to be available to respond to appropriate questions.

VOTE REQUIRED AND BOARD OF DIRECTORS' RECOMMENDATION

The affirmative vote of a majority of the votes cast at the annual meeting of stockholders, at which a quorum representing a majority of all outstanding shares of the common stock of the Company is present and voting, either in person or by proxy, is required for approval of this proposal. Shares of Series A preferred stock shall not be entitled to vote on this matter. Abstentions and broker non-votes will each be counted as present for purposes of determining the presence of a quorum, but will not have any effect on the outcome of the proposal.

THE BOARD OF DIRECTORS UNANIMOUSLY RECOMMENDS A VOTE "FOR" THE APPOINTMENT OF PRICEWATERHOUSECOOPERS LLP AS THE COMPANY'S INDEPENDENT AUDITORS FOR THE FISCAL YEAR ENDING DECEMBER 31, 2001.

PRINCIPAL ACCOUNTING FIRM FEES

The following table sets forth the aggregate fees billed to the Company for the fiscal year ended December 31, 2000 by the Company's principal accounting firm, PricewaterhouseCoopers LLP:

Audit Fees.....	\$668,100
Financial Information Systems Design and Implementation Fees.....	\$ 0
All Other Fees.....	\$119,331

The Company did not engage PricewaterhouseCoopers LLP to provide advice to the Company regarding financial information systems design and implementation during the year ended December 31, 2000.

The Company engaged PricewaterhouseCoopers LLP to perform an audit of its results for the six months ended June 30, 2000, in addition to the audit of its year ended December 31, 2000. Fees billed to the Company by PricewaterhouseCoopers LLP during the year ended December 31, 2000 for all other non-audit services included accounting advice and tax services. The audit committee has determined that the provision of non-audit services by PricewaterhouseCoopers LLP is compatible with maintaining its independence with the Company.

(4) Potential realizable values are net of exercise price, but before taxes associated with exercise, and are based upon the assumption that the common stock of the Company appreciates at the annual rate shown (compounded annually) from the date of grant until the expiration of the ten-year option term. These amounts represent hypothetical gains that could be achieved for the respective options if exercised at the exercise price and sold at the end of the option term, at the appreciated price. The assumed 5% and 10% rates of stock price appreciation are provided in accordance with rules of the Securities and Exchange Commission and do not represent the Company's estimate or projection of the future common stock price. Actual gains, if any, on stock option exercises are dependent on the future performance of the common stock, overall market conditions and the option holders' continued employment through the vesting period. This table does not take into account any appreciation in the price of the common stock from the date of grant to the current date.

AGGREGATE OPTION EXERCISES FOR FISCAL 2000 AND FISCAL 2000 YEAR-END VALUES

The following table provides specified information concerning exercises of options to purchase AXT common stock during 2000, and unexercised options held at December 31, 2000, by the persons named in the Summary Compensation Table:

NAME	SHARES ACQUIRED ON EXERCISE	VALUE REALIZED	NUMBER OF SECURITIES UNDERLYING UNEXERCISED OPTIONS AT 12/31/00 (1)		VALUE OF UNEXERCISED MONEY OPTIONS AT 12/	
			VESTED	UNVESTED	VESTED	UN

Davis Zhang.....	10,000	\$ 195,000	92,500	123,500	\$2,595,781	\$1,

(1) AXT has a right of repurchase as to any unvested shares upon optionee's termination of employment at their original exercise price.

(2) Calculated on the basis of the fair market value of the underlying securities as of December 31, 2000 of \$33.06 per share, as reported as the closing price of the Company's common stock on the Nasdaq National Market, less the aggregate exercise price.

Shares Acquired on Exercise includes all shares underlying the option, or portion of the option, exercised, without deducting shares withheld to satisfy tax obligations sold to pay the exercise price, or otherwise disposed of. Value Realized is calculated by multiplying the difference between the market value (closing market price) at the exercise date and the exercise price by the number of shares acquired upon exercise.

No compensation intended to serve as incentive for performance to occur over a period longer than one fiscal year was paid pursuant to a long-term incentive plan during fiscal 2000 to any persons named in the Summary Compensation Table. AXT does not have any defined benefit or actuarial plan under which benefits are determined primarily by final compensation or average final compensation and years of service with any of the persons named in the Summary Compensation Table.

COMPENSATION OF NON-EMPLOYEE DIRECTORS

Non-employee directors of AXT each receive \$1,500 per board or committee meeting, and are reimbursed for reasonable expenses. The non-employee directors are eligible to receive option grants pursuant to the 1997 Stock Option Plan and have received options to purchase shares of the Company's common stock.

SECTION 16(a) BENEFICIAL OWNERSHIP REPORTING COMPLIANCE

Section 16(a) of the Securities Exchange Act of 1934 requires the Company's executive officers, directors and persons who beneficially own more than 10% of our common stock to file initial reports of

ownership and reports of changes in ownership with the Securities and Exchange Commission. These persons are required by SEC regulations to furnish the Company with copies of all Section 16(a) forms that they file.

Based solely on our review of the forms furnished to us and written representations from certain reporting persons, we believe that all filing requirements applicable to our executive officers, directors and persons who beneficially own more than 10% of our common stock were complied with in fiscal 2000, except that the initial statement of beneficial ownership for David C. Chang was not timely filed.

NEW PLAN BENEFITS

The following table sets forth grants of stock options under the 1997 Plan during 2000 to:

- the Named Executive Officers;
- all current executive officers as a group;
- all current directors who are not executive officers as a group; and
- all employees, who are not executive officers, as a group.

During 2000, AXT did not grant any rights under the Purchase Plan.

REPORT OF THE COMPENSATION COMMITTEE ON EXECUTIVE COMPENSATION

The compensation committee is comprised of Jesse Chen, B. J. Moore and David C. Chang, each a non-employee member of the board of directors. Mr. Chang joined the compensation committee upon joining the board of directors in December 2000. The compensation committee is responsible for setting and monitoring policies governing compensation of executive officers. The compensation committee reviews the performance and compensation levels for executive officers and sets salary and bonus levels and option grants under our 1997 Stock Option Plan. The objectives of the committee are to correlate executive compensation with our business objectives and performance, and to enable us to attract, retain and reward executive officers who contribute to our long-term success.

As the industry in which the Company operates can be extremely competitive, the compensation committee believes that the compensation programs for executive

Edgar Filing: AXT INC - Form DEF 14A

officers should be designed to retain and motivate talented executives responsible for the success of the Company, and should be determined within the competitive environment within which the Company is situated and based on the achievement of business objectives, individual contribution, and financial performance. The committee's goals are to provide a total compensation package that considers the compensation practices of companies with which the Company competes for executive officers, provides variable compensation that is linked to achievement of financial, division, and individual performance goals, and aligns the interests of the executive officers with those of the company by providing them with an equity stake in the Company. The components of the Company's compensation policies for executive officers consists of base salary and benefits, bonuses and long-term stock option incentives.

11

15

SALARY

The compensation committee annually assesses the performance and sets the salary of the president and chief executive officer, Morris S. Young, and the other executive officers. Base salaries were established by the board based on competitive compensation data, top executive's job responsibilities, experience, individual performance and contributions to the business. No specific formula was applied to determine the weight of each factor.

The board's decision with regard to Dr. Young's compensation as president and chief executive officer was based on presidents and chief executive officers of comparable size companies.

In determining executive officer salaries, the compensation committee reviews recommendations from Dr. Young which includes information from salary surveys, performance evaluations and the financial condition of AXT. The compensation committee also establishes both financial and operational-based objectives and goals in determining executive officer salaries. These goals and objectives include sales and spending forecasts for the upcoming year and published executive compensation literature for comparable sized companies.

For more information regarding the compensation and employment arrangements of Dr. Young and other executive officers, see "EXECUTIVE COMPENSATION AND OTHER MATTERS."

BONUSES

Incentive bonuses are intended to reflect the board's belief that a significant portion of the compensation of each executive officer should be contingent on the performance of the Company, as well as the individual contribution of each executive officer. In consultation with the chief executive officer, the compensation committee annually determines the total amount of cash bonuses available for executive officers and certain other management employees. For fiscal 2000, bonus awards were contingent on the Company's attainment of revenue and earnings per share targets, set by the compensation committee in consultation with the chief executive officer. Additionally, awards may be weighted so that executives would receive proportionately higher awards when performance targets are exceeded and no awards when performance targets are not met.

STOCK OPTIONS

The compensation committee believes that employee equity ownership provides significant motivation to executive officers to maximize value for our stockholders and, therefore, periodically grants stock options under our stock option plan. Stock options are granted at the current market price and will only

Edgar Filing: AXT INC - Form DEF 14A

have value if our stock price increases over the exercise price. It is the belief of the board that stock options directly motivate an executive to maximize long-term stockholder value.

The compensation committee determines the size and frequency of option grants for executive officers, after consideration of recommendations from the chief executive officer. Recommendations for options are based upon the relative position and responsibilities of each executive officer, previous and expected contributions of each officer to the Company and previous option grants to each executive officer. Generally, option grants vest twenty five-percent twelve months after commencement of employment or after the date of grant and continue to vest thereafter in equal monthly installments over three years, conditioned upon continued employment.

COMPENSATION OF CHIEF EXECUTIVE OFFICER

Morris S. Young has served as our president and chief executive officer since 1989. In mid 2001, the compensation committee reviewed Dr. Young's performance with regard to performance objectives set by the board of directors, weighted among specific personal and corporate objectives, in determining his eligibility for bonus compensation. Dr. Young's bonus compensation for fiscal 2000 was \$13,000. In addition, the board of directors increased Dr. Young's salary to \$200,000 per year for 2001 and granted him options to purchase 40,000 shares of AXT's common stock based on attainment of predetermined financial and other corporate goals.

SECTION 162(m) OF THE INTERNAL REVENUE CODE

The Company has considered the provisions of Section 162(m) of the Internal Revenue Code and related Treasury Department regulations which restrict deductibility of executive compensation paid to the Company's chief executive officer and each of the four other most highly compensated executive officers holding office at the end of any year to the extent such compensation exceeds \$1,000,000 for any of such officers in any year and does not qualify for an exception under the statute or regulations. Income from options granted under the Option Plan would generally qualify for an exemption from these restrictions so long as the options are granted by a committee whose members are non-employee directors. The Company expects that the compensation committee will generally be comprised of non-employee directors, and that to the extent such Committee is not so constituted for any period of time, the options granted during such period will not be likely to result in compensation exceeding \$1,000,000 in any year.

compensation committee

CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS

Since January 1999, there has not been, nor is there currently proposed, any transaction or series of similar transactions to which we were or are to be a party in which the amount involved exceeds \$60,000, and in which any director, executive officer or holder of more than 5% of any class of our voting securities or members of that person's immediate family had or will have a direct or indirect material interest other than the transactions described below.

Equipment & Materials, a California corporation engaged in international trading and quartzware fabrication, supplies us with various raw materials from China and has manufactured quartzware for us. Christina X. Li, the sole shareholder and president of Equipment & Materials, is the wife of Davis Zhang, the president of our substrate division. Purchases from Equipment & Materials were approximately \$8.9 million for the year ended December 31, 2000, \$3.6 million for 1999 and \$3.7 million for 1998. A balance of \$318,000 due to Equipment & Materials was included in accounts payable at December 31, 2000.

In August 2000, we entered into a business transfer and acquisition agreement with Demeter Technologies, Inc. ("Demeter"), a Delaware corporation founded by Theodore S. Young, the former president of our fiber optic division and a former member of our board of directors, and Robert Shih, the former chief technology officer of our visible emitter division. Under this agreement, we have agreed to transfer certain non-core rights to Demeter relating to our research and development activities in the field of fiber optics. We have entered into non-compete agreements with Messrs. Shih and Young that prohibit

Edgar Filing: AXT INC - Form DEF 14A

them from certain activities, including the manufacture of certain VCSEL devices. We have leased to Demeter a portion of our owned facility in El Monte, California, subleased a portion of our rented facility in El Monte, California, leased certain equipment, including an MOCVD machine, and sold certain inventory relating to fiber optics. In exchange, Demeter has granted to us a warrant to purchase up to 4.5 million shares of its Series A convertible preferred stock at a price of \$0.5714 per share which we exercised in November 2000. The company received approximately 1.1 million shares of Finisar Corporation common stock as a result of Finisar Corporation's acquisition of Demeter in November 2000.

On February 5, 2001, we entered into a month to month operating lease with DC Management, a partnership in which Davis Zhang, the president of our substrate division, is the president. This lease is for a warehouse facility in Fremont, California at a cost of \$5,106 per month. On April 1, 2001, we entered into a second month to month operating lease with DC Management for another warehouse facility in Fremont, California at a cost of \$3,641 per month.

1. STATEMENT OF POLICY

This Charter specifies the scope of the Audit Committee's (the "Committee") responsibilities, and how it carries out those responsibilities, including the structure, processes, and membership requirements. The primary function of the Committee is to assist the Board of Directors (the "Board") in fulfilling its financial oversight responsibilities by reviewing and reporting to the Board upon: the financial reports and other financial information provided by the Company to any governmental body or to the public; the Company's systems of internal and external controls regarding finance, accounting, legal compliance and ethics that management and the Board have established; and the Company's auditing, accounting and financial reporting processes in general. Consistent with this function, the Committee should encourage continuous improvement of, and should foster adherence to, the Company's financial policies, procedures and practices at all levels.

The Committee's primary duties and responsibilities are to:

Serve as an independent and objective party to monitor the Company's financial reporting process and internal control systems.

Review and appraise the audit efforts and independence of the Company's auditors.

Provide an open avenue of communication among the independent auditors, financial and senior management, and the Board.

- a. Is not an employee of the Company or its affiliates and has not been employed by the Company or its affiliates within the past three years.

benefits for Board service, retirement plan benefits or non-discretionary compensation).

- d. Has not been a partner, controlling shareholder or an executive officer of any for-profit business to which the Company made, or from which it received, payments (other than those which arise solely from investments in the Company's securities) that exceed five percent of the Company's consolidated gross revenues for that year, or \$200,000, whichever is more, in any of the past three years.
- e. Is not an executive of another corporation on whose Compensation Committee any of the Company's current executives serves.

All members of the Committee must be able to read and understand fundamental financial statements, including a balance sheet, income statement, and cash flow statement. The members of the Committee shall be elected by the Board at the annual organizational meeting of the Board and shall serve until their successors shall be duly elected and qualified. Unless a chairman is elected by

17

21

the full Board, the members of the Committee may designate a chairman by majority vote of the full Committee membership.

3. MEETINGS

As part of its job to foster open communication, the Committee must meet at least annually with management and the independent auditors in separate executive sessions to discuss any matters that the Committee or each of these groups believe should be discussed privately.
