OPPORTUNITIES FUND

The shareholder report you are reading right now is just the beginning of the story.

Online at guggenheiminvestments.com/gof, you will find:

- Daily, weekly and monthly data on share prices, net asset values, distributions and more
- Portfolio overviews and performance analyses
- Announcements, press releases and special notices
- Fund and adviser contact information

Guggenheim Partners Investment Management, LLC and Guggenheim Funds Investment Advisors, LLC are continually updating and expanding shareholder information services on the Fund's website in an ongoing effort to provide you with the most current information about how your Fund's assets are managed and the results of our efforts. It is just one more small way we are working to keep you better informed about your investment in the Fund.

May 31, 2015

DEAR SHAREHOLDER

We thank you for your investment in the Guggenheim Strategic Opportunities Fund (the “Fund”). This report covers the Fund’s performance for the 12-month period ended May 31, 2015.

The Fund’s investment objective is to maximize total return through a combination of current income and capital appreciation. The Fund pursues a relative value-based investment philosophy, which utilizes quantitative and qualitative analysis to seek to identify securities or spreads between securities that deviate from their perceived fair value and/or historical norms. There is no guarantee that the perceived fair value will be achieved. The Fund’s sub-adviser seeks to combine a credit-managed fixed-income portfolio with access to a diversified pool of alternative investments and equity strategies.

All Fund returns cited—whether based on net asset value (“NAV”) or market price—assume the reinvestment of all distributions. For the 12-month period ended May 31, 2015, the Fund provided a total return based on market price of 8.08% and a total return based on NAV of 6.39%. NAV performance data reflects fees and expenses of the Fund.

As of May 31, 2015, the Fund’s market price of \$21.21 represented a premium of 8.16% to its NAV of \$19.61. The market value of the Fund’s shares fluctuates from time to time and may be higher or lower than the Fund’s NAV. Past performance is not a guarantee of future results.

From June 2014 through May 2015, the Fund paid a monthly distribution of \$0.1821 per share, representing an annualized distribution rate of 10.30% based on the Fund’s closing market price of \$21.21 on May 31, 2015. The Fund’s distribution rate is not constant and the amount of distributions, when declared by the Fund’s Board of Trustees, is subject to change based on the performance of the Fund. Please see Note 2(h) on page 45 for more information on distributions for the period.

Guggenheim Funds Investment Advisors, LLC (the “Adviser”) serves as the investment adviser to the Fund. Guggenheim Partners Investment Management, LLC (“GPIM” or the “Sub-Adviser”) serves as the Fund’s investment sub-adviser and is responsible for the management of the Fund’s portfolio of investments. Each of the Adviser and the Sub-Adviser is an affiliate of Guggenheim Partners, LLC (“Guggenheim”), a global diversified financial services firm.

We encourage shareholders to consider the opportunity to reinvest their distributions from the Fund through the Dividend Reinvestment Plan (“DRIP”), which is described in detail on page 68 of this report. When shares trade at a discount to NAV, the DRIP takes advantage of the discount by reinvesting the monthly distribution in common shares of the Fund purchased in the market at a price less than NAV. Conversely, when the market price of the Fund’s common shares is at a premium above NAV, the DRIP reinvests participants’ distributions in newly-issued common shares at the greater of NAV per share or 95% of the market price per share. The DRIP provides a cost-effective means to accumulate additional shares and enjoy the benefits of compounding returns over time. Since the Fund endeavors to maintain a stable monthly distribution, the DRIP effectively provides an income averaging technique, which causes shareholders to accumulate a larger number of Fund shares when the market price is depressed than when the price is higher.

May 31, 2015

To learn more about the Fund's performance and investment strategy, we encourage you to read the Questions & Answers section of this report, which begins on page 5. You'll find information on GPIM's investment philosophy, views on the economy and market environment, and detailed information about the factors that impacted the Fund's performance.

We appreciate your investment and look forward to serving your investment needs in the future. For the most up-to-date information on your investment, please visit the Fund's website at guggenheiminvestments.com/gof.

Sincerely,

Donald C. Cacciapaglia
President and Chief Executive Officer
Guggenheim Strategic Opportunities Fund
June 30, 2015

4 | GOF | GUGGENHEIM STRATEGIC OPPORTUNITIES FUND ANNUAL REPORT

QUESTIONS & ANSWERS (Unaudited)

May 31, 2015

Guggenheim Strategic Opportunities Fund (“Fund”) is managed by a team of seasoned professionals at Guggenheim Partners Investment Management, LLC (“GPIM”). This team includes B. Scott Miner, Chairman of Investments and Global Chief Investment Officer; Anne B. Walsh, CFA, JD, Senior Managing Director and Assistant Chief Investment Officer; and James W. Michal, Managing Director and Portfolio Manager. In the following interview, the investment team discusses the market environment and the Fund’s performance for the 12-month period ended May 31, 2015.

What is the Fund’s investment objective and how is it pursued?

The Fund seeks to maximize total return through a combination of current income and capital appreciation. The Fund pursues a relative value-based investment philosophy, which utilizes quantitative and qualitative analysis to seek to identify securities or spreads between securities that deviate from their perceived fair value and/or historical norms. There is no guarantee that the perceived fair value of the Fund’s portfolio investments will be achieved.

The Fund seeks to combine a credit-managed fixed-income portfolio with access to a diversified pool of alternative investments and equity strategies. The Fund seeks to achieve its investment objective by investing in a wide range of fixed-income and other debt and senior-equity securities (“income securities”) selected from a variety of credit qualities and sectors, including, but not limited to, corporate bonds, loans and loan participations, structured finance investments, U.S. government and agency securities, mezzanine and preferred securities and convertible securities, and in common stocks, limited liability company interests, trust certificates, and other equity investments (“common equity securities,” exposure to which is obtained primarily by investing in exchange-traded funds, or ETFs) that GPIM believes offer attractive yield and/or capital appreciation potential, including employing a strategy of writing (selling) covered call and put options on such equities. GPIM believes the volatility of the Fund can be reduced by diversifying across a large number of sectors and securities, many of which historically have not been highly correlated to one another.

Under normal market conditions:

- The Fund may invest up to 60% of its total assets in fixed-income securities rated below investment grade (commonly referred to as “junk bonds”); the Fund may invest in below-investment grade income securities of any rating;
- The Fund may invest up to 20% of its total assets in non-U.S. dollar denominated fixed-income securities of corporate and governmental issuers located outside the U.S., including up to 10% of total assets in fixed-income securities of issuers located in emerging markets;
- The Fund may invest up to 50% of its total assets in common equity securities; and
- The Fund may invest up to 30% of its total assets in investment funds that primarily hold (directly or indirectly) investments in which the Fund may invest directly, of which amount up to 30% of the Fund’s total assets may be invested in investment funds that are registered as investment companies under the Investment Company Act of 1940 (the “1940 Act”) to the extent permitted by applicable law and related interpretations of the staff of the U.S. Securities and Exchange Commission.

GPIM's investment process is a collaborative effort between its Portfolio Construction Group, which utilizes tools such as a proprietary risk optimization model to determine allocation of assets among a

GOF 1 GUGGENHEIM STRATEGIC OPPORTUNITIES FUND ANNUAL REPORT 15

QUESTIONS & ANSWERS (Unaudited) continued

May 31, 2015

variety of sectors, and its Sector Specialists, who are responsible for security selection within these sectors and for implementing securities transactions.

The Fund uses financial leverage to finance the purchase of additional securities. Although financial leverage may create an opportunity for increased return for shareholders, it also results in additional risks and can magnify the effect of any losses. There is no assurance that the strategy will be successful. If income and gains earned on securities purchased with the financial leverage proceeds are greater than the cost of the financial leverage, common shareholders' return will be greater than if financial leverage had not been used. Conversely, if the income or gains from the securities purchased with the proceeds of financial leverage are less than the cost of the financial leverage, common shareholders' return will be less than if financial leverage had not been used.

What were the significant events affecting the economy and market environment over the past 12 months?

As of May 31, 2015, the U.S. economic expansion is beginning to approach its late stages, but remains strong. Harsh winter weather caused U.S. growth to slow dramatically in the first quarter of 2015. However, the underlying fundamentals of the economy are positive and there is likely to be a bounce-back over the summer, reminiscent of the 2014 experience.

An improving labor market, rising family household formation numbers, and tight housing inventory all point to a rebound in the domestic housing market, which is key to the ongoing recovery. Lower energy prices are acting as a tax cut for the U.S. consumer. Ideally this would free up discretionary spending in other areas, of which we have seen some evidence.

Liquidity from foreign central banks and comparatively attractive U.S. yields are encouraging foreign investors to buy risk assets in the U.S., but the flip side to these global flows is more volatility both in the U.S. and overseas. The U.S. Federal Reserve (Fed) continues to be concerned about creating asset price bubbles, and appears eager to raise rates, although it will likely wait for further signs of a rebound in growth, and rising inflation. The Fed is focused on wage growth, an indicator of inflationary pressure. With recent minimum wage increases and a falling unemployment rate, wages could begin to accelerate this year. The likely timeframe for a rate hike appears to be drawing nearer, perhaps as early as September 2015. However, we expect the Fed to be cautious and to raise rates slowly, with ample time to assess the market reaction.

Oil remains a key factor in the global outlook. Despite the recent rally in prices, U.S. production continues to increase and inventory levels are extremely high. The global market is likely to remain oversupplied through the end of 2015, limiting how far prices can rise.

The economy in Europe has been strengthening on the back of European Central Bank quantitative easing and depreciation of the euro. In Japan, the impact of ongoing monetary accommodation on the economy is more muted, but the "Abenomics" is likely to continue to be supportive of the equities markets. The Chinese economy is slowing down and policymakers appear likely to continue to ease monetary policy and do whatever is necessary to maintain growth at an acceptable level in the near term.

QUESTIONS & ANSWERS (Unaudited) continued

May 31, 2015

Liquidity coming out of Europe and other parts of the world is maintaining the positive environment for U.S. risk assets. Given the subdued performance in the first quarter due to concerns over strength of the dollar and the impact on earnings, investors may be reconsidering the adage of “selling in May and going away.” The period leading up to Fed tightening historically has been good for equities and room still exists for multiples to expand, even though valuations overseas are more attractive than for U.S. stocks. Historically, credit spreads don’t widen significantly until defaults rise, and that usually does not take place until one to two years after the Fed begins to tighten monetary policy.

For the 12 months ended May 31, 2015, the Standard & Poor’s 500 Index returned 11.81%; the Barclays U.S. Aggregate Bond Index returned 3.03%; and the Barclays 1–3 Month U.S. Treasury Bill Index returned 0.02%. All returns are total return.

How did the Fund perform for the 12 months ended May 31, 2015?

All Fund returns cited—whether based on net asset value (NAV) or market price—assume the reinvestment of all distributions. For the 12-month period ended May 31, 2015, the Fund provided a total return based on market price of 8.08% and a total return based on NAV of 6.39%. NAV performance data reflects fees and expenses of the Fund.

As of May 31, 2015, the Fund’s market price of \$21.21 represented a premium of 8.16% to its NAV of \$19.61. As of May 31, 2014, the Fund’s market price of \$21.83 represented a premium of 6.18% to its NAV of \$20.56. The market value of the Fund’s shares fluctuates from time to time and may be higher or lower than the Fund’s NAV. Past performance is not a guarantee of future results.

From June 2014 through May 2015, the Fund paid monthly distributions of \$0.1821 per share, representing an annualized distribution rate of 10.30% based on the Fund’s closing market price of \$21.21 on the last trading day in the period ended May 31, 2015. The Fund’s distribution rate is not constant and the amount of distributions, when declared by the Fund’s Board of Trustees, is subject to change based on the performance of the Fund. Please see Note 2(h) on page 45 for more information on distributions for the 12-month period ended May 31, 2015.

Why did the Fund accrue excise tax during the period?

As a registered investment company, the Fund is subject to a 4% excise tax that is imposed if the Fund does not distribute by the end of any calendar year at least the sum of (i) 98% of its ordinary income (not taking into account any capital gain or loss) for the calendar year and (ii) 98.2% of its capital gain in excess of its capital loss (adjusted for certain ordinary losses) for a one-year period generally ending on October 31 of the calendar year (unless an election is made to use the fund’s fiscal year). The Fund generally intends to distribute income and capital gains in the manner necessary to minimize (but not necessarily eliminate) the imposition of such excise tax. While the Fund’s income and capital gains can vary significantly from year to year, the Fund seeks to maintain more stable monthly distributions over time. The Fund may retain income or capital gains and pay excise tax when it is determined that doing so is in the best interest of shareholders. Management, in consultation with the Board of Trustees, evaluates the costs of the excise tax relative to the benefits of retaining income and capital gains, including that such undistributed amounts (net of the excise tax paid) remain available for investment by the Fund and are available to supplement future distributions, which may facilitate the payment of

QUESTIONS & ANSWERS (Unaudited) continued

May 31, 2015

more stable monthly distributions year over year. During the Fund's last fiscal year, the Fund paid excise tax of \$197,004 or \$0.012 per share.

What influenced performance over the period?

Credit markets have been climbing the proverbial "wall of worry" since mid-2014. After strong U.S. economic growth over the second half of 2014, GDP data in the first quarter of 2015 weakened, which resulted in mixed returns in high-yield corporate bonds, among other sectors, as investors began to question the underlying strength of the U.S. economy. The winter soft patch turned out to be weaker than consensus estimates, but by late spring its impact was subsiding, and a rebound in U.S. growth was giving the Fed room to proceed with raising rates. Overall, U.S. economic fundamentals remain strong, although investors remain apprehensive about how fixed-income markets will react to the Fed lifting rates from historically low levels.

Over the period as a whole, the Fund continued to see further price appreciation attributable to tightening of credit spreads. Positive returns were largely driven by the Fund's investments in asset-backed securities (ABS), as spreads continued to normalize across various subsectors, including collateralized loan obligations (CLOs), commercial real estate collateralized debt obligations (CDOs), and aircraft lease securitizations.

The Fund continues to maintain low interest rate duration, particularly at the front end of the yield curve, and thus has largely avoided losses due to a flattening curve. It also maintains an overweight to floating rate securities. While interest rates are expected to remain low for the foreseeable future, it is important to have protection against the inevitable volatility associated with a near-term change in policy from the Fed.

The Fund continued to find attractive relative value by tactically rotating among sectors, with a focus on securities that are overlooked by the broader market participants. Low long-term rates have been an increasing support to the residential real estate market and homebuilders, for example. The Fund had also reduced energy sector exposure to address the potential for lower energy prices, but valuations at the end of the period were presenting an attractive entry point for select energy credits. High-yield bond and leveraged-loan spreads recovered after turmoil in risk assets midway through the period, and the Fund continues to use periods of weakness to add to attractive assets.

Discuss the sectors in which the Fund is mostly heavily invested—ABS, CLOs, high yield, and equities.

Among its holdings, the Fund remains focused on commercial ABS and CLOs. Credit performance across these sectors remains favorable, given the benign credit conditions and collateral valuations across the U.S. economy. Consumer ABS credit performance is expected to show modest deterioration from strong levels as underwriting standards loosen and subprime originations increase share. Corporate defaults are expected to rise in 2015, driven primarily by the late 2014 fall in oil prices. Overall, U.S. economic performance is expected to be supportive of credit performance.

High-yield and leveraged-loan indexes posted positive returns in the first quarter of 2015, a rebound from two consecutive quarters of negative returns in both sectors. High-yield bond fund flows and new issuance have been holding up in spite of the drop in oil prices. Energy-related borrowers make up 15%

QUESTIONS & ANSWERS (Unaudited) continued

May 31, 2015

of the corporate high-yield bond market, and the energy component contributed most of the decline in the high-yield market over the last half of 2014. High-yield borrowers continue to opportunistically refinance existing debt, with almost half of the high-yield bond new issue activity categorized as refinancing activity.

Bank-loan retail fund flows were negative for much of the period, but healthy volume of newly formed CLOs continues to support the loan market, with CLO demand representing well over half of primary loan volume. Due to low new-issue volume for loans, CLO spreads with ratings AA through BB are at their tightest post-crisis levels. Light supply against heavy CLO activity has served to mitigate price volatility and explains some of the more stable performance of the loan market, compared with the high-yield market's higher volatility.

The Fed's winding down of its quantitative easing program last fall sparked a sell-off across equity and credit markets, and volatility increased in reaction to the drop in energy prices and a softening global economic outlook. Nonetheless, U.S. equities rose strongly over the period, with many indexes hitting record highs. Liquidity coming out of Europe and Asia continue to maintain the positive environment for U.S. risk assets, and the period leading up to Fed tightening has historically been good for equities.

Discuss the Fund's approach to duration.

Although the Fund has no set policy regarding portfolio duration or maturity, the Fund currently maintains a low-duration target but adds opportunistically to attractive long duration assets when it can take advantage of short-term fluctuations in interest rates.

What is the overall credit quality of the portfolio?

The Fund has the ability to invest up to 60% of its total assets in below-investment grade securities of any rating (including securities rated below "CCC" by Moody's or "Caa2" by S&P or that, at the time of purchase, are in default). As of the Fund's fiscal year end, approximately 55% of the Fund's total investments were invested in below-investment grade securities. The Fund's flexibility to invest in equity securities and income securities across the credit rating spectrum gives the Fund the ability to more effectively pursue its strategy. For a complete breakdown of credit quality, please refer to page 14 of this report.

How is the Fund positioned as of the end of the period?

The Fund remains significantly invested in ABS and bank loans, sectors that benefit from a low duration and may benefit from further spread tightening as the U.S. economy continues to improve. Among its ABS holdings, the Fund remains focused on commercial ABS and CLOs.

The Fund remains overweight in floating rate securities. This is in line with our view that interest rates should continue to remain low but volatile for the foreseeable future, and meets investors' need to protect against the inevitable volatility associated with an eventual change in policy from the Fed. The Fed is not expected to raise rates until the second half of 2015, if not 2016. However, we believe that the market should continue to focus on factors outside of the fundamentals that underscore our positive outlook on credit, and in this environment we believe that floating rate assets should outperform.

QUESTIONS & ANSWERS (Unaudited) continued

May 31, 2015

What is the Fund's leverage strategy?

Since leverage adds to performance when the cost of leverage is less than the total return generated by investments, the use of leverage contributed to the Fund's total return during this period. The purpose of leverage is to fund the purchase of additional securities that provide increased income and potentially greater appreciation to common shareholders than could be achieved from an unlevered portfolio. Leverage results in greater NAV volatility and entails more downside risk than an unlevered portfolio.

As of May 31, 2015, the amount of leverage was approximately 32% of total managed assets. The Fund employs leverage through two vehicles: reverse repurchase agreements, under which the Fund temporarily transfers possession of portfolio securities and receives cash which can be used for additional investments, and a committed financing facility through a leading financial institution. There is no guarantee that the Fund's leverage strategy will be successful. The Fund's use of leverage may cause the Fund's NAV and market price of common shares to be more volatile and can magnify the effect of any losses.

Index Definitions

Indices are unmanaged and reflect no expenses. It is not possible to invest directly in an index.

The Standard & Poor's 500 Index is a capitalization-weighted index of 500 stocks. The index is designed to measure performance of the broad domestic economy through changes in the aggregate market value of 500 stocks representing all major industries.

The Barclays U.S. Aggregate Bond Index represents securities that are U.S. domestic, taxable, and dollar denominated. The index covers the U.S. investment grade fixed rate bond market, with index components for government and corporate securities, mortgage pass-through securities, and asset-backed securities.

The Barclays 1-3 Month U.S. Treasury Bill Index tracks the performance of U.S. Treasury bills with a remaining maturity of one to three months. U.S. Treasury bills, which are short-term loans to the U.S. government, are full faith-and-credit obligations of the U.S. Treasury and are generally regarded as being free of any risk of default.

Risks and Other Considerations

The views expressed in this report reflect those of the portfolio managers only through the report period as stated on the cover. These views are subject to change at any time, based on market and other conditions and should not be construed as a recommendation of any kind. The material may also include forward looking statements that involve risk and uncertainty, and there is no guarantee that any predictions will come to pass. There can be no assurance that the Fund will achieve its investment objectives. The value of the Fund will fluctuate with the value of the underlying securities. Historically, closed-end funds often trade at a discount to their net asset value.

Please see guggenheiminvestments.com/gof for a detailed discussion of the Fund's risks and considerations.

† Value determined based on Level 1 inputs, unless otherwise noted —See Note 4.

†† Value determined based on Level 2 inputs, unless otherwise noted —See Note 4.

††† Value determined based on Level 3 inputs —See Note 4.

1 Security was fair valued by the Valuation Committee at May 31, 2015. The total market value of fair valued securities amounts to \$8,625,703 (cost \$9,503,395) or 2.5% of total net assets.

All or a portion of these securities have been physically segregated in connection with borrowings, unfunded commitments and reverse repurchase agreements. As of May 31, 2015, the total market value of the segregated securities was \$308,583,317.

3 Variable rate security. Rate indicated is rate effective at May 31, 2015.

4 Perpetual maturity.

See notes to financial statements.

GOF 1 GUGGENHEIM STRATEGIC OPPORTUNITIES FUND ANNUAL REPORT 1 33

PORTFOLIO OF INVESTMENTS continued

May 31, 2015

5 Security is a 144A or Section 4(a)(2) security. The total market value of 144A or Section 4(a)(2) securities is \$200,285,930 (cost \$198,958,742), or 58.4% of total net assets. These securities have been determined to be liquid under guidelines established by the Board of Trustees.

6 Security represents cover for outstanding written options.

7 Security is a step up/step down bond. The coupon increases or decreases at regular intervals until the bond reaches full maturity.

8 Security has no stated coupon. However, it is expected to receive residual cash flow payments on defined deal dates.

9 Security has a fixed rate coupon which will convert to a floating or variable rate coupon on a future date.

10 Zero coupon rate security.

11 Security is a 144A or section 4(a)(2) security. These securities are illiquid and restricted under guidelines established by the Board of Trustees. The total market value of 144A or section 4(a)(2) securities is \$11,688,187 (cost \$11,575,943), or 3.4%, of total net assets — see Note 12.

12 Security is in default.

FINANCIAL HIGHLIGHTS continued

May 31, 2015

	Year Ended May 31, 2015	Year Ended May 31, 2014	Year Ended May 31, 2013	Year Ended May 31, 2012	Year Ended May 31, 2011
Senior Indebtedness					
Total Borrowings outstanding (in thousands)	\$ 160,247	\$ 136,430	\$ 115,573	\$ 83,842	\$ 80,670
Asset Coverage per \$1,000 of indebtedness(f)	\$ 3,140	\$ 3,331	\$ 3,479	\$ 3,473	\$ 3,322

Based on average shares

- (a) outstanding.
- (b) Total return is calculated assuming a purchase of a common share at the beginning of the period and a sale on the last day of the period reported either at net asset value (“NAV”) or market price per share. Dividends and distributions are assumed to be reinvested at NAV for NAV returns or the prices obtained under the Fund’s Dividend Reinvestment Plan for market value returns. Total return does not reflect brokerage commissions. A return calculated for a period of less than one year is not annualized.
- (c) The ratios of total expenses to average net assets applicable to common shares do not reflect fees and expenses incurred indirectly by the Fund as a result of its investment in shares of other investment companies. If these fees were included in the expense ratios, the expense ratios would increase by 0.03%, 0.03%, 0.05%, 0.04% and 0.03% for the years ended May 31, 2015, 2014, 2013, 2012 and 2011, respectively.
- (d) Excluding interest expense, the operating expense ratios for the years ended May 31 would be:

2015	2014	2013	2012	2011
1.72%	1.78%	1.81%	1.78%	1.85%

Portfolio turnover is not annualized for periods of less than one

- (e) year.
Calculated by subtracting the Fund’s total liabilities (not including the borrowings) from the Fund’s total assets and
- (f) dividing by the total borrowings.

See notes to financial statements.

GOF I GUGGENHEIM STRATEGIC OPPORTUNITIES FUND ANNUAL REPORT 1 41

NOTES TO FINANCIAL STATEMENTS

May 31, 2015

Note 1 – Organization:

Guggenheim Strategic Opportunities Fund (the “Fund”) was organized as a Delaware statutory trust on November 13, 2006. The Fund is registered as a diversified, closed-end management investment company under the Investment Company Act of 1940, as amended (“1940 Act”).

The Fund’s investment objective is to maximize total return through a combination of current income and capital appreciation.

Note 2 – Accounting Policies:

The Fund operates as an investment company and accordingly follows the investment company accounting and reporting guidance of the Financial Accounting Standards Board (“FASB”) Accounting Standards Codification Topic 946 Financial Services – Investment Companies.

The preparation of the financial statements in accordance with U.S. generally accepted accounting principles (“GAAP”) requires management to make estimates and assumptions that affect the reported amounts and disclosures in the financial statements. Actual results could differ from these estimates.

The following is a summary of significant accounting policies consistently followed by the Fund.

(a) Valuation of Investments

The Board of Trustees of the Fund (the “Board”) has adopted policies and procedures for the valuation of the Fund’s investments (the “Valuation Procedures”). Pursuant to the Valuation Procedures, the Board has delegated to a valuation committee, consisting of representatives from Guggenheim’s investment management, fund administration, legal and compliance departments (the “Valuation Committee”), the day-to-day responsibility for implementing the Valuation Procedures, including, under most circumstances, the responsibility for determining the fair value of the Fund’s securities or other assets.

Valuations of the Fund’s securities are supplied primarily by pricing services appointed pursuant to the processes set forth in the Valuation Procedures. The Valuation Committee convenes monthly, or more frequently as needed and will review the valuation of all assets which have been fair valued for reasonableness. The Fund’s officers, through the Valuation Committee and consistent with the monitoring and review responsibilities set forth in the Valuation Procedures, regularly review procedures used by, and valuations provided by, the pricing services.

If the pricing service cannot or does not provide a valuation for a particular investment or such valuation is deemed unreliable, such investment is fair valued by the Valuation Committee.

Equity securities listed on an exchange (New York Stock Exchange (“NYSE”) or American Stock Exchange) are valued at the last quoted sales price as of the close of business on the NYSE, usually 4:00 p.m. Eastern time on the valuation date. Equity securities listed on the NASDAQ market system are valued at the NASDAQ Official Closing Price on the valuation date, which may not necessarily represent the last sale price. If there has been no sale on such exchange or NASDAQ on such day, the security is valued at the closing bid price on such day.

421 GOF1 GUGGENHEIM STRATEGIC OPPORTUNITIES FUND ANNUAL REPORT

NOTES TO FINANCIAL STATEMENTS continued

May 31, 2015

Open-end investment companies (“Mutual Funds”) are valued at their NAV as of the close of business on the valuation date. Exchange Traded Funds (“ETFs”) and closed-end investment companies are valued at the last quoted sales price.

Debt securities with a maturity of greater than 60 days at acquisition are valued at prices that reflect broker/dealer supplied valuations or are obtained from independent pricing services, which may consider the trade activity, treasury spreads, yields or price of bonds of comparable quality, coupon, maturity, and type, as well as prices quoted by dealers who make markets in such securities. Short-term debt securities with a maturity of 60 days or less at acquisition and repurchase agreements are valued at amortized cost, provided such amount approximates market value.

Typically loans are valued using information provided by an independent third party pricing service which uses broker quotes in a non-active market.

Listed options are valued at the Official Settlement Price listed by the exchange, usually as of 4:00 p.m. Eastern time. Long options are valued using the bid price and short options are valued using the ask price. In the event that a settlement price is not available, fair valuation is enacted. Over-the-counter options are valued using the average bid price (for long options), or average ask price (for short options) obtained from one or more security dealers.

Generally, trading in foreign securities markets is substantially completed each day at various times prior to the close of the NYSE. The values of foreign securities are determined as of the close of such foreign markets or the close of the NYSE, if earlier. All investments quoted in foreign currency are valued in U.S. dollars on the basis of the foreign currency exchange rates prevailing at the close of U.S. business at 4:00 p.m. Investments in foreign securities may involve risks not present in domestic investments. The Valuation Committee will determine the current value of such foreign securities by taking into consideration certain factors which may include those discussed above, as well as the following factors, among others: the value of the securities traded on other foreign markets, ADR trading, closed-end fund trading, foreign currency exchange activity, and the trading prices of financial products that are tied to foreign securities such as World Equity Benchmark Securities. In addition, under the Valuation Procedures, the Valuation Committee and Guggenheim Funds Investment Advisors, LLC (“GFIA” or the “Adviser”) are authorized to use to use prices and other information supplied by a third party pricing vendor in valuing foreign securities.

Investments for which market quotations are not readily available are fair valued as determined in good faith by the Adviser, subject to review and approval by the Valuation Committee, pursuant to methods established or ratified by the Board. Valuations in accordance with these methods are intended to reflect each security’s (or asset’s) “fair value”. Each such determination is based on a consideration of all relevant factors, which are likely to vary from one pricing context to another. Examples of such factors may include, but are not limited to: (i) the type of security, (ii) the initial cost of the security, (iii) the existence of any contractual restrictions on the security’s disposition, (iv) the price and extent of public trading in similar securities of the issuer or of comparable companies, (v) quotations or evaluated prices from broker-dealers and/or pricing services, (vi) information obtained from the issuer, analysts, and/or the appropriate stock exchange (for exchange traded securities), (vii) an analysis of the company’s financial statements, and (viii) an evaluation of the forces that influence the issuer and the market(s) in which the security is purchased and sold

NOTES TO FINANCIAL STATEMENTS continued

May 31, 2015

(e.g. the existence of pending merger activity, public offerings or tender offers that might affect the value of the security).

(b) Investment Transactions and Investment Income

Investment transactions are accounted for on the trade date. Realized gains and losses on investments are determined on the identified cost basis. Paydown gains and losses on mortgage and asset-backed securities are treated as an adjustment to interest income. Dividend income is recorded net of applicable withholding taxes on the ex-dividend date and interest income is recorded on an accrual basis. Discounts or premiums on debt securities purchased are accreted or amortized to interest income over the lives of the respective securities using the effective interest method.

(c) Restricted Cash

A portion of cash on hand is pledged with a broker for current or potential holdings, which includes options, swaps and securities purchased on a when issued or delayed delivery basis.

(d) Swaps

A swap is an agreement to exchange the return generated by one instrument for the return generated by another instrument. The Fund enters into swap agreements to manage its exposure to interest rates and/or credit risk or to generate income. Swaps are valued daily at current market value and any unrealized gain or loss is included in the Statement of Assets and Liabilities. Gain or loss is realized on the termination date of the swap and is equal to the difference between the Fund's basis in the swap and the proceeds of the closing transaction, including any fees. Upon termination of a swap agreement, a payable to or receivable from a swap counterparty is established on the Statement of Assets and Liabilities to reflect the net gain/loss, including interest income/expense, on terminated swap positions. The line item is removed upon settlement according to the terms of the swap agreement.

Realized gain (loss) upon termination of swap contracts is recorded on the Statement of Operations. Fluctuations in the value of swap contracts are recorded as a component of net change in unrealized appreciation (depreciation) of swap contracts. Net periodic payments received by the Fund are included as part of realized gain (loss) and, in the case of accruals for periodic payments, are included as part of unrealized appreciation (depreciation) on the Statement of Operations.

As of May 31, 2015, the Fund had no swap contracts outstanding.

(e) Covered Call Options and Put Options

When an option is written, the premium received is recorded as an asset with an equal liability and is subsequently marked to market to reflect the current market value of the option written. These liabilities are reflected as options written on the Statement of Assets and Liabilities. Premiums received from writing options which expire unexercised are recorded on the expiration date as a realized gain. The difference between the premium received and the amount paid on effecting a closing purchase transaction, including brokerage commissions, is also treated as a realized gain, or if the premium is less than the amount paid for the closing purchase transactions, as a realized loss. If an option is exercised, the premium is added to the cost of the underlying security purchase or proceeds from the sale of the underlying security in determining whether there has been a realized gain or loss.

441 GOF 1 GUGGENHEIM STRATEGIC OPPORTUNITIES FUND ANNUAL REPORT

NOTES TO FINANCIAL STATEMENTS continued

May 31, 2015

When a call option is purchased, the Fund obtains the right (but not the obligation) to buy the underlying instrument at the strike price at anytime during the option period. When a put option is purchased, the Fund obtains the right (but not the obligation) to sell the option's underlying instrument at the strike price at anytime during the option period. When the Fund purchases an option, an amount equal to the premium paid by the Fund is reflected as an asset and subsequently marked-to-market to reflect the current market value of the option purchased. Purchased options are included with Investments on the Statement of Assets and Liabilities. Realized and unrealized gains and losses on purchased options are included with Investments on the Statement of Operations.

(f) Currency Translation

Assets and liabilities denominated in foreign currencies are translated into U.S. dollars at the mean of the bid and ask price of respective exchange rates on the last day of the period. Purchases and sales of investments denominated in foreign currencies are translated at the exchange rate on the bid and ask price of respective exchange rates on the date of the transaction.

The Fund does not isolate that portion of the results of operations resulting from changes in foreign exchange rates on investments from the fluctuations arising from changes in market prices of securities held. Such fluctuations are included with the net realized and unrealized gain or loss from investments.

Foreign exchange realized gain or loss resulting from holding of a foreign currency, expiration of a currency exchange contract, difference in exchange rates between the trade date and settlement date of an investment purchased or sold, and the difference between dividends or interest actually received compared to the amount shown in the Fund's accounting records on the date of receipt is shown as net realized gains or losses on foreign currency transactions on the Fund's Statement of Operations.

Foreign exchange unrealized gain or loss on assets and liabilities, other than investments, is shown as unrealized appreciation (depreciation) on foreign currency translation on the Fund's Statement of Operations.

(g) Forward Foreign Currency Exchange Contracts

Forward foreign currency exchange contracts are agreements between two parties to buy and sell currencies at a set price on a future date. Fluctuations in the value of open forward foreign currency exchange contracts are recorded for financial reporting purposes as unrealized appreciation and depreciation by the Fund until the contracts are closed. When the contracts are closed, realized gains and losses are recorded, and included on the Statement of Operations in foreign currency transactions.

(h) Distributions to Shareholders

The Fund declares and pays monthly distributions to common shareholders. These distributions consist of investment company taxable income, which generally includes qualified dividend income, ordinary income and short-term capital gains. Any net realized long-term capital gains are distributed annually to common shareholders. To the extent distributions exceed taxable income, the excess will be deemed a return of capital.

NOTES TO FINANCIAL STATEMENTS continued

May 31, 2015

Distributions to shareholders are recorded on the ex-dividend date. The amount and timing of distributions are determined in accordance with federal income tax regulations, which may differ from GAAP.

(i) New Accounting Pronouncement

In June 2014, the FASB issued an Accounting Standards Update (“ASU”) that expands secured borrowing accounting for certain repurchase agreements. The ASU also sets forth additional disclosure requirements for certain transactions accounted for as sales, in order to provide financial statement users with information to compare to similar transactions accounted for as secured borrowings. The ASU is effective prospectively during interim or annual periods beginning after December 15, 2014. At this time, management is evaluating the implications of these changes on the financial statements.

Note 3 – Investment Advisory Agreement, Sub-Advisory Agreement and Other Agreements:

Pursuant to an Investment Advisory Agreement between the Fund and the Adviser, the Adviser furnishes offices, necessary facilities and equipment, provides administrative services, oversees the activities of Guggenheim Partners Investment Management, LLC (“GPIM” or “Sub-Adviser”), provides personnel including certain officers required for the Fund’s administrative management and compensates the officers and trustees of the Fund who are affiliates of the Adviser. As compensation for these services, the Fund pays the Adviser a fee, payable monthly, in an amount equal to 1.00% of the Fund’s average daily managed assets (net assets applicable to common shareholders plus any assets attributable to financial leverage).

Pursuant to a Sub-Advisory Agreement among the Fund, the Adviser and GPIM, GPIM, under the supervision of the Fund’s Board of Trustees and the Adviser, provides a continuous investment program for the Fund’s portfolio; provides investment research; makes and executes recommendations for the purchase and sale of securities; and provides certain facilities and personnel, including certain officers required for its administrative management and pays the compensation of all officers and trustees of the Fund who are GPIM’s affiliates. As compensation for its services, the Adviser pays GPIM a fee, payable monthly, in an annual amount equal to 0.50% of the Fund’s average daily managed assets.

Certain officers and trustees of the Fund may also be officers, directors and/or employees of the Adviser or GPIM. The Fund does not compensate its officers or trustees who are officers, directors and/or employees of the aforementioned firms.

Rydex Fund Services, LLC (“RFS”), an affiliate of the Adviser and the Sub-Adviser, provides fund administration services to the Fund. As compensation for these services, RFS receives a fund administration fee payable monthly at the annual rate set forth below as a percentage of the average daily managed assets of the Fund:

Managed Assets	Rate
First \$200,000,000	0.0275 %
Next \$300,000,000	0.0200 %
Next \$500,000,000	0.0150 %
Over \$1,000,000,000	0.0100 %

NOTES TO FINANCIAL STATEMENTS continued

May 31, 2015

RFS serves as the accounting agent for the Fund. As accounting agent, RFS is responsible for maintaining the books and records of the Fund's securities and cash. RFS receives an accounting fee payable monthly at the annual rate set forth below as a percentage of the average daily managed assets of the Fund.

Managed Assets	Rate	
First \$200,000,000	0.0300	%
Next \$300,000,000	0.0150	%
Next \$500,000,000	0.0100	%
Over \$1,000,000,000	0.0075	%
Minimum annual charge	\$50,000	
Certain out-of-pocket charges	Varies	

For purposes of calculating the fees payable under the foregoing agreements, average daily managed assets means the average daily value of the Fund's total assets minus the sum of its accrued liabilities. Total assets means all of the Fund's assets and is not limited to its investment securities. Accrued liabilities means all of the Fund's liabilities other than borrowings for investment purposes.

The Bank of New York Mellon ("BNY") acts as the Fund's custodian. As custodian, BNY is responsible for the custody of the Fund's assets.

Note 4 – Fair Value Measurement:

In accordance with GAAP, fair value is defined as the price that the Fund would receive to sell an investment or pay to transfer a liability in an orderly transaction with an independent buyer in the principal market, or in the absence of a principal market, the most advantageous market for the investment or liability. GAAP establishes a three-tier fair value hierarchy based on the types of inputs used to value assets and liabilities and requires corresponding disclosure. The hierarchy and the corresponding inputs are summarized below:

Level 1 — quoted prices in active markets for identical assets or liabilities.

Level 2 — significant other observable inputs (for example quoted prices for securities that are similar based on characteristics such as interest rates, prepayment speeds, credit risk, etc.).

Level 3 — significant unobservable inputs based on the best information available under the circumstances, to the extent observable inputs are not available, which may include assumptions.

The types of inputs available depend on a variety of factors, such as the type of security and the characteristics of the markets in which it trades, if any. Fair valuation determinations that rely on fewer or no observable inputs require greater judgment. Accordingly, fair value determinations for Level 3 securities require the greatest amount of judgment.

NOTES TO FINANCIAL STATEMENTS continued

May 31, 2015

The following table represents the Fund's investments carried on the Statement of Assets and Liabilities by caption and by level within the fair value hierarchy as of May 31, 2015.

	Level 1	Level 2	Level 3	Total
Assets				
Corporate Bonds	\$—	\$134,126,825	\$3,787,867	\$137,914,692

Total Liabilities	\$329,515	\$64,791	\$—	\$394,306

* Market value is less than minimum amount disclosed.

Independent pricing services are used to value a majority of the Fund's investments. When values are not available from a pricing service, they will be determined under the valuation policies that have been reviewed and approved by the Board. In any event, values are determined using a variety of sources and techniques, including: market prices; broker quotes; and models which derive prices based on inputs such as prices of securities with comparable maturities and characteristics or based on inputs such as anticipated cash flows or collateral, spread over Treasuries, and other information and analysis. A significant portion of the Funds' assets and liabilities are categorized as Level 2 or Level 3, as indicated in this report.

Indicative quotes from broker-dealers, adjusted for fluctuations in criteria such as credit spreads and interest rates, may also be used to value the Fund's assets and liabilities, i.e. prices provided by a broker-dealer or other market participant who has not committed to trade at that price. Although indicative quotes are typically received from established market participants, the Fund may not have the transparency to view the underlying inputs which support the market quotations.

Certain fixed income securities are valued by obtaining a monthly indicative quote from a broker-dealer, adjusted for fluctuations in criteria such as credit spreads and interest rates.

481 GOF1 GUGGENHEIM STRATEGIC OPPORTUNITIES FUND ANNUAL REPORT

NOTES TO FINANCIAL STATEMENTS continued

May 31, 2015

The inputs or methodologies used for valuing securities are not necessarily an indication of the risk associated with investing in those securities. The suitability of the techniques and sources employed to determine fair valuation are regularly monitored and subject to change.

The following is a summary of significant unobservable inputs used in the fair valuation of assets and liabilities categorized within Level 3 of the fair value hierarchy:

Category	Ending Balance at 5/31/15	Valuation Technique	Unobservable Inputs
Corporate Bond	\$ 693,975	Option adjusted spread off the month end broker quote over the 3 month LIBOR	Indicative Quote
Corporate Bond	\$3,093,892	Enterprise Value	Valuation Multiple*
Asset Backed Securities	\$1,725,304	Option adjusted spread off the month end broker quote over the 3 month LIBOR	Indicative Quote
Collateralized Mortgage Obligations	\$4,392,687	Option adjusted spread off the month end broker quote over the 3 month LIBOR	Indicative Quote
Senior Floating Rate Interests	\$7,040,630	Enterprise Value	Valuation Multiple*

* Valuation multiples utilized ranged from 3 to 15.

Significant changes in an indicative quote or valuation multiple would generally result in significant changes in the fair value of the security.

Any remaining Level 3 securities held by the Fund and excluded from the tables above, were not considered material to the Fund.

Transfers between investment levels may occur as the markets fluctuate and/or the availability of data used in an investment's valuation changes. Transfers between valuation levels, if any, are in comparison to the valuation levels at the end of the previous fiscal year, and are effective using the fair value as of the end of the current fiscal period.

As of May 31, 2015, the Fund had securities with a total value of \$3,246,444 transferred from Level 2 to Level 3 due to lack of multiple vendor prices. The Fund had securities with a total value of \$22,179,221 transferred from Level 3 to Level 2 due to availability of market price information at the period end. The Fund had securities with a value of \$305,965 transferred from Level 1 to Level 2 due to lack of an active market.

Level 3	(22,179,221)	–	–	–	–	(22,179,221)
Ending Balance	\$1,725,304	\$7,040,630	\$3,787,867	\$4,392,687	\$–	\$16,946,488

Note 5 – Federal Income Taxes:

The Fund intends to continue to comply with the requirements of Subchapter M of the Internal Revenue Code of 1986, as amended, (the “Internal Revenue Code”), applicable to regulated investment companies.

The Fund may be subject to an excise tax of 4% of the amount by which 98% of the Fund’s annual taxable income and 98.2% of net realized gains exceed the distributions from such taxable income and realized gains for the calendar year. The Fund paid \$197,004 or \$0.012 per share of federal excise tax attributable to calendar year 2014.

For Federal income tax purposes, capital loss carryforwards represent realized losses of the Fund that may be carried forward and applied against future capital gains. Under the RIC Modernization Act of 2010, the Fund is permitted to carry forward capital losses incurred in taxable years beginning after December 22, 2010 for an unlimited period and such capital loss carryforwards will retain their character as either short-term or long-term capital losses. As of May 31, 2015, the Fund had no capital loss carryforwards.

Due to inherent differences in the recognition of income, expenses and realized gains/losses under GAAP and federal income tax purposes, permanent differences between book and tax basis reporting have been identified and appropriately reclassified on the Statement of Assets and Liabilities. As of

501 GOF 1 GUGGENHEIM STRATEGIC OPPORTUNITIES FUND ANNUAL REPORT

NOTES TO FINANCIAL STATEMENTS continued

May 31, 2015

May 31, 2015, the following reclassification was made to the capital accounts of the Fund to reflect permanent book and tax differences relating to the tax deferral of losses on wash sales, the marking to market of PFICs and forward foreign currency contracts, equity to debt income accruals and cost basis adjustments on qualifying electing funds. Net investment income, net realized gains and net assets were not affected by the changes.

Undistributed (distributions in excess of) Net Investment Income	Accumulated Net Realized Gain/(Loss)	Additional Paid in Capital
\$(4,066,986)	\$4,263,990	\$(197,004)

As of May 31, 2015, the cost of investments and accumulated unrealized appreciation/(depreciation) of investments for federal income tax purposes, were as follows:

	Gross Tax Unrealized Appreciation	Gross Tax Unrealized Depreciation	Net Tax Unrealized Depreciation on Investments
Cost of Investments for Tax Purposes	\$16,096,564	\$(16,120,750)	\$(24,186)
\$511,861,123			

The differences between book basis and tax basis unrealized appreciation (depreciation) is primarily attributable to the tax deferral of losses on wash sales, Passive Foreign Investment Companies (PFICs) and non-real estate investment trust return of capital and collateralized loan obligations.

As of May 31, 2015, the tax components of accumulated earnings/losses (excluding paid-in capital) on a tax basis were as follows:

Undistributed Ordinary Income	Undistributed Long-Term Capital Gains/(Accumulated Capital and Other Losses)	Net Unrealized Depreciation
\$3,348,594	\$(445,492)	\$(152,871)

For the years ended May 31, 2015 and 2014, the tax character of distributions paid to shareholders as reflected in the Statements of Changes in Net Assets was as follows:

Distributions paid from:	2015	2014
Ordinary income	\$35,891,997	\$26,520,608
Long-term capital gain	—	5,245,435
	\$35,891,997	\$31,766,043

For all open tax years and all major jurisdictions, management of the Fund has concluded that there are no significant uncertain tax positions that would require recognition in the financial statements. Uncertain tax positions are tax positions taken or expected to be taken in the course of preparing the Fund's tax returns that would not meet a more-likely-than-not threshold of being sustained by the applicable tax authority and would be recorded as a tax expense in the current year. Open tax years are those that are open for examination by taxing authorities (i.e. generally

the last four tax year ends and the interim tax period since then).

GOF 1 GUGGENHEIM STRATEGIC OPPORTUNITIES FUND ANNUAL REPORT 1 51

NOTES TO FINANCIAL STATEMENTS continued

May 31, 2015

Note 6 – Investment in Securities:

During the year ended May 31, 2015, the cost of purchases and proceeds from sales of investments, excluding written options and short-term investments, were \$525,450,541 and \$401,863,586, respectively.

Note 7 – Derivatives:

The Fund is required by GAAP to disclose: a) how and why a fund uses derivative instruments, b) how derivative instruments and related hedge fund items are accounted for, and c) how derivative instruments and related hedge items affect a fund's financial position, results of operations and cash flows.

As part of its investment strategy, the Fund utilizes a variety of derivative instruments including options, forwards and swap agreements. These investments involve, to varying degrees, elements of market risk and risks in excess of the amounts recognized in the Statement of Assets and Liabilities.

(a) Covered Call Options and Put Options

The Fund pursues its investment objective by employing an option strategy of writing (selling) covered call options and, from time to time, buys or sells put options on equity securities and indices. The Fund seeks to generate current gains from option premiums as a means to enhance distributions payable to the Fund's common shareholders.

An option on a security is a contract that gives the holder of the option, in return for a premium, the right to buy from (in the case of a call) or sell to (in the case of a put) the writer of the option the security underlying the option at a specified exercise or "strike" price. The writer of an option on a security has the obligation upon exercise of the option to deliver the underlying security upon payment of the exercise price (in the case of a call) or to pay the exercise price upon delivery of the underlying security (in the case of a put).

There are several risks associated with transactions in options on securities. As the writer of a covered call option, the Fund forgoes, during the option's life, the opportunity to profit from increases in the market value of the security covering the call option above the sum of the premium and the strike price of the call, but has retained the risk of loss should the price of the underlying security decline. A writer of a put option is exposed to the risk of loss if the fair value of the underlying security declines, but profits only to the extent of the premium received if the underlying security increases in value. The writer of an option has no control over the time when it may be required to fulfill its obligation as writer of the option. Once an option writer has received an exercise notice, it cannot effect a closing purchase transaction in order to terminate its obligation under the option and must deliver the underlying security at the exercise price.

To the extent that the Fund purchases options, the Fund will be subject to the following additional risks. If a put or call option purchased by the Fund is not sold when it has remaining value, and if the market price of the underlying security remains equal to or greater than the exercise price (in the case of a put), or remains less than or equal to the exercise price (in the case of a call), the Fund will lose its entire investment in the option. Also, where a put or call option on a particular security is purchased to hedge against price movements in a related security, the price of the put or call option may move more or less than the price of the related security. If restrictions on exercise were imposed, the Fund might be unable to exercise an option it had purchased. If the Fund were unable

521 GOF1 GUGGENHEIM STRATEGIC OPPORTUNITIES FUND ANNUAL REPORT

NOTES TO FINANCIAL STATEMENTS continued

May 31, 2015

to close out an option that it had purchased on a security, it would have to exercise the option in order to realize any profit or the option may expire worthless. The maximum exposure the Fund has at risk when purchasing an option is the premium paid.

The Fund entered into written option contracts during the year ended May 31, 2015.

Details of the transactions were as follows:

	Number of Contracts	Premiums Received
Options outstanding, beginning of period	3,631	\$756,021
Options written during the period	53,324	7,098,629
Options expired during the period	(6,665)	(1,060,794)
Options closed during the period	(41,174)	(5,791,638)
Options assigned during the period	(4,460)	(504,706)
Options outstanding, end of period	4,656	\$497,512

(b) Swaps

Swap agreements are contracts between parties in which one party agrees to make periodic payments to the other party (the "Counterparty") based on the change in market value or level of a specified rate, index or asset. In return, the Counterparty agrees to make periodic payments to the first party based on the return of a different specified rate, index or asset. Swap agreements will usually be done on a net basis, the Fund receiving or paying only the net amount of the two payments. The net amount of the excess, if any, of each Fund's obligations over its entitlements with respect to each swap is accrued on a daily basis and an amount of cash or liquid securities having an aggregate value at least equal to the accrued excess is maintained in an account at the Fund's custodian bank. During the period that the swap agreement is open, the Fund may be subject to risk from the potential inability of the counterparty to meet the terms of the agreement. The swaps involve elements of both market and credit risk in excess of the amounts reflected on the Statement of Assets and Liabilities.

Credit default swap transactions involve the Fund's agreement to exchange the credit risk of an issuer. A buyer of a credit default swap is said to buy protection by paying periodic fees in return for a contingent payment from the seller if the issuer has a credit event such as bankruptcy, a failure to pay outstanding obligations or deteriorating credit while the swap is outstanding. A seller of a credit default swap is said to sell protection and thus collects the periodic fees and profits if the credit of the issuer remains stable or improves while the swap is outstanding but the seller in a credit default swap contract would be required to pay an agreed upon amount, which approximates the notional amount of the swap, to the buyer in the event of an adverse credit event of the issuer.

The Fund may utilize index swap transactions to manage its exposure to various securities markets, changes in interest rates, or currency values. Index swap transactions allow the Fund to receive the appreciation/depreciation of the specified index over a specified time period in exchange for an agreed upon fee paid to the counterparty.

The Fund did not have any swap agreements outstanding as of May 31, 2015.

NOTES TO FINANCIAL STATEMENTS continued

May 31, 2015

(c) Forward Foreign Currency Exchange Contracts

The Fund enters into forward foreign currency exchange contracts in order to hedge its exposure to changes in foreign currency exchange rates on its foreign portfolio holdings, to hedge certain firm purchases and sales commitments denominated in foreign currencies and for investment purposes.

A forward foreign currency exchange contract is a commitment to purchase or sell a foreign currency on a future date at a negotiated forward rate. Forward foreign currency exchange contracts involve elements of both market and credit risk in excess of the amounts reflected on the Statement of Assets and Liabilities. Risk may arise from the potential inability of a counterparty to meet the terms of a contract and from unanticipated movements in the value of a foreign currency relative to the U.S. dollar. The face or contract amount, in U.S. dollars, reflects the total exposure the Fund has in that particular currency contract.

As of May 31, 2015, the following forward foreign currency exchange contracts were outstanding:

Contracts to Sell	Counterparty	Settlement Date	Settlement Value	Value as of 5/31/15	Net Unrealized Appreciation/ (Depreciation)
AUD 730,000	Bank of America Merrill Lynch	6/5/2015	\$ 584,135	\$ 557,994	\$ 26,141
EUR 3,100,000	Bank of America Merrill Lynch	6/5/2015	3,517,840	3,405,315	112,525
GBP 990,000	Bank of America Merrill Lynch	6/5/2015	1,509,403	1,513,260	(3,857)
Net unrealized appreciation on forward foreign currency exchange contracts					\$ 134,809

(d) Summary of Derivatives Information

The following table presents the types of derivatives in the Fund by location as presented on the Statement of Assets Liabilities as of May 31, 2015.

Derivative Volume

Swaps:

The Fund decreased the volume of activity in swaps during the year ended May 31, 2015 with an average notional balance of approximately \$3,009,820. As of May 31, 2015, there were no swap agreements outstanding.

Forward Foreign Currency Exchange Contracts:

The Fund had the following activity in forward foreign currency exchange contracts during the year ended May 31, 2015:

Average Settlement Value Purchased	\$1,466,154
Average Settlement Value Sold	1,504,833

Note 8 – Offsetting:

In the normal course of business, the Fund enters into transactions subject to enforceable master netting arrangements or other similar arrangements. Generally, the right to offset in those agreements allows the Fund to counteract the

exposure to a specific counterparty with collateral received or delivered to that counterparty based on the terms of the arrangements. These arrangements provide for the right to liquidate upon the occurrence of an event of default, credit event upon merger or additional termination event.

GOF 1 GUGGENHEIM STRATEGIC OPPORTUNITIES FUND ANNUAL REPORT 1 55

NOTES TO FINANCIAL STATEMENTS continued

May 31, 2015

In order to better define their contractual rights and to secure rights that will help the Fund mitigate their counterparty risk, the Fund may enter into an International Swaps and Derivatives Association, Inc. Master Agreement (“ISDA Master Agreement”) or similar agreement with their derivative contract counterparties. An ISDA Master Agreement is a bilateral agreement between a Fund and a counterparty that governs OTC derivatives, including foreign exchange contracts, and typically contains, among other things, collateral posting terms and netting provisions in the event of a default and/or termination event. The provisions of the ISDA Master Agreement typically permit a single net payment in the event of a default (close-out netting) or similar event, including the bankruptcy or insolvency of the counterparty.

For derivatives traded under an ISDA Master Agreement, the collateral requirements are typically calculated by netting the mark to market amount for each transaction under such agreement and comparing that amount to the value of any collateral currently pledged by the Fund and the counterparty. For financial reporting purposes, cash collateral that has been pledged to cover obligations of the Fund and cash collateral received from the counterparty, if any, is reported separately on the Statement of Assets and Liabilities as segregated cash with broker/ receivable for variation margin, or payable for swap settlement/variation margin. Generally, the amount of collateral due from or to a counterparty must exceed a minimum transfer amount threshold (e.g., \$300,000) before a transfer is required to be made. To the extent amounts due to the Fund from its counterparties are not fully collateralized, contractually or otherwise, the Fund bears the risk of loss from counterparty nonperformance. The Fund attempts to mitigate counterparty risk by only entering into agreements with counterparties that it believes to be of good standing and by monitoring the financial stability of those counterparties.

For financial reporting purposes, the Fund does not offset derivative assets and derivative liabilities that are subject to netting arrangements in the Statement of Assets and Liabilities.

The following tables present derivative financial instruments and secured financing transactions that are subject to enforceable netting arrangements and offset in the Statements of Assets and Liabilities in conformity with GAAP.

Description	Gross Amounts of Recognized Assets	Gross Amounts Offset in the Statement of Assets and Liabilities	Net Amounts of Assets	Gross Amounts Not Offset in the Statement of Assets and Liabilities Financial Instruments	Net Amount

Forward Foreign Currency Exchange Contracts	3,857	–	3,857	3,857		–

Note 9 – Leverage:

Reverse Repurchase Agreements

The Fund may enter into reverse repurchase agreements as part of its financial leverage strategy. Under a reverse repurchase agreement, the Fund temporarily transfers possession of a portfolio instrument to another party, such as a bank or broker-dealer, in return for cash. At the same time, the Fund agrees to repurchase the instrument at an agreed upon time and price, which reflects an interest payment. Such agreements have the economic effect of borrowings. The Fund may enter into such agreements when it is able to invest the cash acquired at a rate higher than the cost of the agreement, which would increase earned income. When the Fund enters into a reverse repurchase agreement, any fluctuations in the market value of either the instruments transferred to another party or the instruments in which the proceeds may be invested would affect the market value of the Fund's assets. As a result, such transactions may increase fluctuations in the market value of the Fund's assets. For the year ended May 31, 2015, the average daily balance of reverse repurchase agreements outstanding amounted to \$91,256,614. The weighted average interest rate was 0.91%. As of May 31, 2015, there was \$114,758,163 in reverse repurchase agreements outstanding.

As of May 31, 2015, the Fund had outstanding reverse repurchase agreements with various counterparties. Details of the reverse repurchase agreements by counterparty are as follows:

Counterparty	Interest Rates	Maturity Dates	Face Value
Bank of America	0.73% – 2.03%	06/11/15 – 08/06/15	\$ 15,762,660
Barclays Capital, Inc.	0.60% – 1.93%	06/02/15 – 08/17/15	34,287,499
Barclays Capital, Inc.	0% – 1.00%	Open maturity	3,701,324
Credit Suisse First Boston	0.90% – 1.25%	06/15/15 – 07/13/15	13,551,307
Credit Suisse First Boston	0.75%	Open maturity	311,625
Goldman Sachs	1.05% – 1.53%	07/09/15	2,906,000

GOF 1 GUGGENHEIM STRATEGIC OPPORTUNITIES FUND ANNUAL REPORT 1 57

NOTES TO FINANCIAL STATEMENTS continued

May 31, 2015

Borrowings

The Fund has entered into a \$80,000,000 credit facility agreement with an approved lender whereby the lender has agreed to provide secured financing to the Fund and the Fund will provide pledged collateral to the lender. Interest on the amount borrowed is based on the 3-month LIBOR plus 0.85%. As of May 31, 2015, there was \$45,488,955 outstanding in connection with the Fund's credit facility. The average daily amount of borrowings on the credit facility during the year ended May 31, 2015, was \$53,797,037 with a related average interest rate of 1.11%. The maximum amount outstanding during the year ended May 31, 2015 was \$65,788,955. As of May 31, 2015, the total value of securities segregated and pledged as collateral in connection with borrowings was \$82,660,717.

The credit facility agreement governing the loan facility includes usual and customary covenants. These covenants impose on the Fund asset coverage requirements, collateral requirements, investment strategy requirements, and certain financial obligations. These covenants place limits or restrictions on the Fund's ability to (i) enter into additional indebtedness with a party other than the counterparty, (ii) change its fundamental investment policy, or (iii) pledge to any other party, other than to the counterparty, securities owned or held by the Fund over which the counterparty has a lien. In addition, the Fund is required to deliver financial information to the counterparty within established deadlines, maintain an asset coverage ratio (as defined in Section 18(g) of the 1940 Act) greater than 300%, comply with the rules of the stock exchange on which its shares are listed, and maintain its classification as a "closed-end management investment company" as defined in the 1940 Act.

There is no guarantee that the Fund's leverage strategy will be successful. The Fund's use of leverage may cause the Fund's NAV and market price of common shares to be more volatile and can magnify the effect of any losses.

Note 10 – Loan Commitments

Pursuant to the terms of certain Term Loan agreements, the Fund held unfunded loan commitments as of May 31, 2015. The Fund is obligated to fund these loan commitments at the borrower's discretion. The Fund reserves against such contingent obligations by designating cash, liquid securities, and liquid term loans as a reserve. As of May 31, 2015, the total amount segregated in connection with reverse repurchase agreements and unfunded commitments was \$225,922,600.

As of May 31, 2015, the Fund had the following unfunded loan commitments which could be extended at the option of the borrower:

Borrower	Maturity Date	Face Amount	Value
Acosta, Inc.	09/26/2019	\$1,100,000	\$ —
Acrisure	05/18/2022	178,022	—
Eyemart Express	12/16/2019	500,000	55,294
Informatica Corp.	05/18/2016	1,000,000	—
IntraWest Holdings	12/10/2018	200,000	5,640
Rite Aid Corp.	08/10/2015	750,000	—
		\$3,728,022	\$ 60,934

NOTES TO FINANCIAL STATEMENTS continued

May 31, 2015

Note 11 – Capital:

Common Shares

The Fund has an unlimited amount of common shares, \$0.01 par value, authorized and 17,493,253 issued and outstanding.

Transactions in common shares were as follows:

	Year ended May 31, 2015	Year ended May 31, 2014
Beginning Shares	15,467,075	13,672,683
Common shares issued through at-the-market offering	1,924,032	1,720,207
Shares issued through dividend reinvestment	102,146	74,185
Ending Shares	17,493,253	15,467,075

On October 26, 2013, the Fund's shelf registration allowing for delayed or continuous offering of additional shares became effective and a post-effective amendment thereto became effective on October 3, 2014. The shelf registration statement allows for the issuance of up to \$150,000,000 of common shares. The Fund entered into an agreement with Cantor Fitzgerald & Co. for the sale of up to an additional 3,977,022 shares.

The Adviser has paid the costs associated with the at-the-market offering of shares and will be reimbursed by the Fund up to 0.60% of the offering price of common shares sold pursuant to the shelf registration statement, not to exceed the amount of actual offering costs incurred. For the year ended May 31, 2015, the Fund incurred \$248,803 of expenses associated with the at-the market offerings.

NOTES TO FINANCIAL STATEMENTS continued

May 31, 2015

Note 13 – Indemnifications:

In the normal course of business, the Fund enters into contracts that contain a variety of representations, which provide general indemnifications. The Fund's maximum exposure under these arrangements is unknown, as this would require future claims that may be made against the Fund that have not yet occurred. However, the Fund expects the risk of loss to be remote.

Note 14 – Subsequent Event:

The Fund evaluated subsequent events through the date the financial statements were available for issue and determined there were no additional material events that would require adjustment to or disclosure in the Fund's financial statements.

60 | GOF | GUGGENHEIM STRATEGIC OPPORTUNITIES FUND ANNUAL REPORT

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

May 31,
2015

The Board of Trustees and Shareholders of Guggenheim Strategic Opportunities Fund

We have audited the accompanying statement of assets and liabilities of the Guggenheim Strategic Opportunities Fund (the Fund), including the schedule of investments, as of May 31, 2015, and the related statements of operations and cash flows for the year then ended, the statements of changes in net assets for each of the two years in the period then ended, and the financial highlights for each of the five years in the period then ended. These financial statements and financial highlights are the responsibility of the Fund's management. Our responsibility is to express an opinion on these financial statements and financial highlights based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements and financial highlights are free of material misstatement. We were not engaged to perform an audit of the Funds' internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements and financial highlights, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. Our procedures included confirmation of securities owned as of May 31, 2015, by correspondence with the custodian, brokers, and paying agents or by other appropriate auditing procedures where replies from brokers or paying agents were not received. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements and financial highlights referred to above present fairly, in all material respects, the financial position of the Guggenheim Strategic Opportunities Fund at May 31, 2015, the results of its operations and its cash flows for the year then ended, the changes in its net assets for each of the two years in the period then ended, and its financial highlights for each of the five years in the period then ended, in conformity with U.S. generally accepted accounting principles.

SUPPLEMENTAL INFORMATION (Unaudited)

May 31, 2015

Federal Income Tax Information

The Fund intends to designate the maximum amount of dividends that qualify for the reduced tax rate pursuant to the Jobs and Growth Relief Reconciliation Act of 2003.

Of the taxable ordinary income distributions paid during the fiscal year ending May 31, 2015, the Fund had 3.95% qualify for the dividends received deduction for corporations.

4.91% of taxable ordinary income dividends paid during the fiscal year qualified for the lower income tax rate available to individuals under the Jobs and Growth Tax Relief Reconciliation Act of 2003.

Additionally, of the taxable ordinary income distributions paid during the fiscal year ending May 31, 2015, the Fund had the corresponding percentages qualify as interest related dividends and qualified short-term capital gains as permitted by IRC Section 871(k)(1) and IRC Section 871(k)(2), respectively.

% Qualifying	% STCG Qualifying
34.78%	100.00%

In January 2016, you will be advised on IRS Form 1099 DIV or substitute 1099 DIV as to the federal tax status of the distributions received by you in the calendar year 2015.

Results of Shareholder Votes

The Annual Meeting of Shareholders of the Fund was held on April 29, 2015. Common shareholders voted on the election of Trustees.

With regards to the election of the following Trustees by common shareholders of the Fund:

	# of Shares in Favor	# of Shares Against	# of Shares Abstained
Jerry B. Farley	14,687,906	230,077	257,365
Robert B. Karn III	14,694,247	212,322	268,779
Ronald A. Nyberg	14,747,717	155,431	272,200
Maynard F. Oliverius	14,694,452	213,966	266,930
Ronald E. Toupin, Jr.	14,684,749	186,454	304,145

The other Trustees of the Fund not up for election in 2015 are Randall C. Barnes, Donald A. Chubb, Jr., Roman Friedrich III and Donald C. Cacciapaglia.

GOF 1 GUGGENHEIM STRATEGIC OPPORTUNITIES FUND ANNUAL REPORT 1 67

DIVIDEND REINVESTMENT PLAN

May 31, 2015

Unless the registered owner of common shares elects to receive cash by contacting the Computershare Shareowner Services LLC (the “Plan Administrator”), all dividends declared on common shares of the Fund will be automatically reinvested by the Plan Administrator, Administrator for shareholders in the Fund’s Dividend Reinvestment Plan (the “Plan”), in additional common shares of the Fund. Participation in the Plan is completely voluntary and may be terminated or resumed at any time without penalty by notice if received and processed by the Plan Administrator prior to the dividend record date; otherwise such termination or resumption will be effective with respect to any subsequently declared dividend or other distribution. Some brokers may automatically elect to receive cash on your behalf and may re-invest that cash in additional common shares of the Fund for you. If you wish for all dividends declared on your common shares of the Fund to be automatically reinvested pursuant to the Plan, please contact your broker.

The Plan Administrator will open an account for each common shareholder under the Plan in the same name in which such common shareholder’s common shares are registered. Whenever the Fund declares a dividend or other distribution (together, a “Dividend”) payable in cash, non-participants in the Plan will receive cash and participants in the Plan will receive the equivalent in common shares. The common shares will be acquired by the Plan Administrator for the participants’ accounts, depending upon the circumstances described below, either (i) through receipt of additional unissued but authorized common shares from the Fund (“Newly Issued Common Shares”) or (ii) by purchase of outstanding common shares on the open market (“Open-Market Purchases”) on the New York Stock Exchange or elsewhere. If, on the payment date for any Dividend, the closing market price plus estimated brokerage commission per common share is equal to or greater than the net asset value per common share, the Plan Administrator will invest the Dividend amount in Newly Issued Common Shares on behalf of the participants. The number of Newly Issued Common Shares to be credited to each participant’s account will be determined by dividing the dollar amount of the Dividend by the net asset value per common share on the payment date; provided that, if the net asset value is less than or equal to 95% of the closing market value on the payment date, the dollar amount of the Dividend will be divided by 95% of the closing market price per common share on the payment date. If, on the payment date for any Dividend, the net asset value per common share is greater than the closing market value plus estimated brokerage commission, the Plan Administrator will invest the Dividend amount in common shares acquired on behalf of the participants in Open-Market Purchases.

If, before the Plan Administrator has completed its Open-Market Purchases, the market price per common share exceeds the net asset value per common share, the average per common share purchase price paid by the Plan Administrator may exceed the net asset value of the common shares, resulting in the acquisition of fewer common shares than if the Dividend had been paid in Newly Issued Common Shares on the Dividend payment date. Because of the foregoing difficulty with respect to Open-Market Purchases, the Plan provides that if the Plan Administrator is unable to invest the full Dividend amount in Open-Market Purchases during the purchase period or if the market discount shifts to a market premium during the purchase period, the Plan Administrator may cease making Open-Market Purchases and may invest the uninvested portion of the Dividend amount in Newly Issued Common Shares at net asset value per common share at the close of business on the Last Purchase Date provided that, if the net asset value is less than or equal to 95% of the then current market price per common share; the dollar amount of the Dividend will be divided by 95% of the market price on the payment date.

DIVIDEND REINVESTMENT PLAN continued

May 31, 2015

The Plan Administrator maintains all shareholders' accounts in the Plan and furnishes written confirmation of all transactions in the accounts, including information needed by shareholders for tax records. Common shares in the account of each Plan participant will be held by the Plan Administrator on behalf of the Plan participant, and each shareholder proxy will include those shares purchased or received pursuant to the Plan. The Plan Administrator will forward all proxy solicitation materials to participants and vote proxies for shares held under the Plan in accordance with the instruction of the participants.

There will be no brokerage charges with respect to common shares issued directly by the Fund. However, each participant will pay a pro rata share of brokerage commission incurred in connection with Open-Market Purchases. The automatic reinvestment of Dividends will not relieve participants of any Federal, state or local income tax that may be payable (or required to be withheld) on such Dividends.

The Fund reserves the right to amend or terminate the Plan. There is no direct service charge to participants with regard to purchases in the Plan; however, the Fund reserves the right to amend the Plan to include a service charge payable by the participants.

All correspondence or questions concerning the Plan should be directed to the Plan Administrator, Computershare Shareowner Services LLC, P.O. Box 30170, College Station, TX 77842-3170; Attention: Shareholder Services Department, Phone Number: (866) 488-3559.

GOF I GUGGENHEIM STRATEGIC OPPORTUNITIES FUND ANNUAL REPORT I 69

APPROVAL OF ADVISORY AGREEMENTS – GUGGENHEIM

STRATEGIC OPPORTUNITIES FUND (GOF)

May 31,
2015

Guggenheim Strategic Opportunities Fund (the “Fund”) was organized as a Delaware statutory trust on November 13, 2006, and is registered as a diversified, closed-end management investment company under the Investment Company Act of 1940, as amended (the “1940 Act”). Guggenheim Funds Investment Advisors, LLC (“GFIA” or the “Adviser”), a subsidiary of Guggenheim Funds Services, LLC (“GFS”), an indirect subsidiary of Guggenheim Partners, LLC, a global, diversified financial services firm (“Guggenheim Partners”), serves as the Fund’s investment adviser and provides certain administrative and other services pursuant to an investment advisory agreement between the Fund and GFIA (the “Investment Advisory Agreement”). (Guggenheim Partners, GFIA, GFS, Guggenheim Partners Investment Management, LLC (“GPIM” or the “Sub-Adviser”) and their affiliates may be referred to herein collectively as “Guggenheim.”) Under the terms of the Investment Advisory Agreement, GFIA also is responsible for overseeing the activities of GPIM, an indirect subsidiary of Guggenheim Partners, which performs portfolio management and related services for the Fund pursuant to an investment sub-advisory agreement by and among the Fund, the Adviser and GPIM (the “Sub-Advisory Agreement” and together with the Investment Advisory Agreement, the “Advisory Agreements”). Under the supervision and oversight of GFIA and the Fund’s Board of Trustees (the “Board,” with the members of the Board referred to individually as the “Trustees”), GPIM provides a continuous investment program for the Fund’s portfolio, provides investment research, makes and executes recommendations for the purchase and sale of securities and provides certain facilities and personnel for the Fund.

Following an initial two-year term, the Advisory Agreements continue in effect from year to year provided that such continuance is specifically approved at least annually by (i) the Board or a majority of the outstanding voting securities (as defined in the 1940 Act) of the Fund, and, in either event, (ii) the vote of a majority of the Trustees who are not “interested persons,” as defined by the 1940 Act, of the Trust (the “Independent Trustees”) casting votes in person at a meeting called for such purpose. At meetings held in person on April 29, 2015 (the “April Meeting”) and on May 19, 2015 (the “May Meeting”), the Contracts Review Committee of the Board (the “Committee”), consisting solely of the Independent Trustees, met separately from Guggenheim to consider the proposed renewal of the Advisory Agreements. As part of its review process, the Committee was represented by independent legal counsel to the Independent Trustees (“Independent Legal Counsel”). Independent Legal Counsel reviewed and discussed with the Committee various key aspects of the Trustees’ legal responsibilities relating to the proposed renewal of the Advisory Agreements and other principal contracts. In this connection, Independent Legal Counsel advised the Committee of: (i) the responsibilities of board members under applicable law; (ii) the standards for determining what constitutes an excessive fee as delineated by the courts and the factors the Trustees should consider in determining whether to approve the fee arrangements; and (iii) the disclosure requirements pertaining to these approvals, as required by the Securities and Exchange Commission. The Committee took into account various materials received from Guggenheim and Independent Legal Counsel. Recognizing that the evaluation process with respect to the services provided by each of GFIA and GPIM is an ongoing one, the Committee also considered the variety of written materials, reports and oral presentations it received (and also received by the full Board) throughout the year regarding performance and operating results of the Fund.

In connection with the contract review process, FUSE Research Network LLC (“FUSE”), an independent, third-party research provider, was engaged to prepare advisory contract renewal reports designed specifically to help boards of directors/trustees fulfill their advisory contract

APPROVAL OF ADVISORY AGREEMENTS – GUGGENHEIM

STRATEGIC OPPORTUNITIES FUND (GOF) continued

May 31,
2015

renewal responsibilities. The objective of the reports is to present the subject funds' relative position regarding fees, expenses and total return performance, with comparisons to a peer group of funds identified by Guggenheim. Guggenheim prepared a presentation in response to a formal request for information sent by Independent Legal Counsel on behalf of the Independent Trustees. In addition, Guggenheim made a presentation at the April Meeting, which addressed areas identified for discussion by the Committee Chair and Independent Legal Counsel. Throughout the process, the Committee asked questions of management and requested certain additional information, which Guggenheim provided following the April Meeting (collectively with the foregoing reports and materials, the "Contract Materials").

Among other things, Guggenheim provided: (i) staffing reports and biographies of those key personnel of GFIA and GPIM providing services to the Fund; (ii) descriptions of various services performed by Guggenheim for the Fund, including the provision of a continuous investment program for the Fund, monitoring compliance with Fund investment strategies and statutory requirements, reviewing trading processes and conducting investment performance analyses; (iii) information regarding each firm's compliance and regulatory history, including its Form ADV; and (iv) information concerning the parent company and overall Guggenheim organization and strategic plans and goals, all to assist the Committee in assessing the nature, extent and quality of services provided by each of GFIA and GPIM, respectively. In addition, Guggenheim's response included information comparing the investment performance, advisory fees and total expenses of the Fund to other funds (including such information presented in the FUSE reports as well as supplemental information prepared by Guggenheim), charts showing gross revenues, expenses and earnings for Guggenheim by product line and with respect to the Fund, including a breakout of various expenses, a description of Guggenheim's expense allocation methodology and information about the profitability of the Fund to Guggenheim Investments (the investment management business of Guggenheim Partners), financial information for Guggenheim Investments, and certain information about Guggenheim's insurance policies, business continuity plan, proxy voting procedures, trade allocation, shareholder communications and compliance monitoring, among other things.

The Committee considered the foregoing Contract Materials in the context of its substantial accumulated experience in governing the Fund and weighed the factors and standards discussed with Independent Legal Counsel. Following an analysis and discussion of the factors identified below and in the exercise of its business judgment, the Committee concluded that it was in the best interests of the Fund to recommend that the Board approve the renewal of both of the Advisory Agreements for an additional 12-month term.

Investment Advisory Agreement

Nature, Extent and Quality of Services Provided by the Adviser: With respect to the nature, extent and quality of services currently provided by the Adviser, the Committee noted that the Adviser delegated responsibility for the investment and reinvestment of the Fund's assets to the Sub-Adviser. The Committee considered the Adviser's responsibility to oversee the Sub-Adviser and that the Adviser has similar oversight responsibilities for other registered investment companies for which GFIA serves as investment adviser. The Committee took into account information provided by Guggenheim describing and illustrating the Adviser's processes and activities for providing oversight of the Sub-Adviser's investment strategies and compliance with investment restrictions, including analyses and monitoring of returns versus peer funds and relevant indices on both a market price

APPROVAL OF ADVISORY AGREEMENTS – GUGGENHEIM
STRATEGIC OPPORTUNITIES FUND (GOF) continued

May 31, 2015

and net asset value (“NAV”) basis, volatility, dividend yield, premium/discount and use of derivatives, as well as information regarding the Adviser’s Sub-Advisory Oversight Committee. The Committee also considered the secondary market support services provided by Guggenheim to the Fund and, in this regard, noted the materials describing the activities of Guggenheim’s dedicated Closed-End Fund Team, including with respect to communication with financial advisers, data dissemination and relationship management. In addition, the Committee considered the information provided by Guggenheim concerning the education, experience, professional affiliations, areas of responsibility and duties of key personnel performing services for the Fund, including those personnel providing compliance oversight. In this connection, the Committee considered Guggenheim’s resources and related efforts to retain, attract and motivate capable personnel to serve the Fund and noted Guggenheim’s report on recent additions and departures in personnel who work on matters relating to the Fund or are significant to the operations of the Adviser.

The Committee also considered the Adviser’s attention to relevant developments in the mutual fund industry and its observance of compliance and regulatory requirements and noted that on a regular basis the Board receives and reviews information from the Fund’s Chief Compliance Officer regarding compliance policies and procedures established pursuant to Rule 38a-1 under the 1940 Act. In addition, the Committee took into account the various compliance and risk management initiatives undertaken by Guggenheim, including, among other things, the hiring of additional staff to support the firm’s Chief Risk Officer, initiatives related to the risks associated with the investment process and risk at the enterprise level, the organization’s risk management infrastructure and critical activities. The Committee also considered Guggenheim’s other initiatives intended to achieve greater enhancements and efficiencies in Guggenheim’s ability to provide services to the Guggenheim Funds (including the Fund), such as efforts to consolidate compliance manuals and align processes of the Fund with those of other Guggenheim Funds managed by GFIA or an affiliate. In connection with the Committee’s evaluation of the overall package of services provided by the Adviser, the Committee considered the Adviser’s role in monitoring and coordinating compliance responsibilities with the administrator, custodian and other service providers to the Fund.

With respect to Guggenheim’s resources and the Adviser’s ability to carry out its responsibilities under the Investment Advisory Agreement, the Chief Financial Officer of Guggenheim Investments reviewed with the Committee certain unaudited financial information concerning Guggenheim Investments’ holding company, Guggenheim Partners Investment Management Holdings, LLC (“GPIMH”), including GFIA. (The Committee received the audited consolidated financial statements of GPIMH and audited financial statements of GFIA once available following the April Meeting.)

The Committee also considered the acceptability of the terms of the Investment Advisory Agreement (including the scope of services required to be performed by GFIA). Based on the foregoing, and based on other information received (both oral and written) at the April Meeting and at the May Meeting, as well as other considerations, including the Committee’s knowledge of the Adviser’s quality of performance of its duties through Board meetings, discussions and reports during the year, the Committee concluded that the Adviser and its personnel were qualified to serve the Fund in such capacity and may reasonably be expected to continue to provide a high quality of services under the Investment Advisory Agreement with respect to the Fund.

Investment Performance: The Fund commenced investment operations on July 26, 2007. The Committee considered the Fund’s investment performance by reviewing the Fund’s total return on

APPROVAL OF ADVISORY AGREEMENTS – GUGGENHEIM

STRATEGIC OPPORTUNITIES FUND (GOF) continued

May 31,
2015

an NAV and market price basis for the five-year, three-year and one-year periods ended December 31, 2014. The Committee compared the Fund's performance to a peer group of closed-end funds determined by the Adviser (the "peer group of funds") and the Fund's benchmark for the same time periods. The peer group of funds included other U.S.-listed perpetual taxable closed-end funds that invest in a wide range of fixed-income securities but excluded funds with a majority of their assets in one asset class, sector or country and funds that invest less than 50% in credit securities. The Committee considered that the peer group of funds is consistent with the peer group used for purposes of the Fund's quarterly performance reporting.

The Committee noted that the Fund's investment results were consistent with its investment objective to maximize total return through a combination of current income and capital appreciation. The Committee also considered that the Adviser does not directly manage the investment portfolio but delegated such duties to the Sub-Adviser. In addition, the Committee considered the Fund's structure and form of leverage, and among other information related to leverage, the cost of the leverage and the aggregate leverage outstanding as of December 31, 2014, as well as net yield on leverage assets and net impact on common assets due to leverage for the one-year period ended December 31, 2014. Based on the information provided, including with respect to the Adviser's sub-advisory oversight processes, the Committee concluded that the Adviser had appropriately reviewed and monitored the Sub-Adviser's investment performance.

Comparative Fees, Costs of Services Provided and the Profits Realized by the Adviser from its Relationship with the Fund: The Committee compared the Fund's advisory fee (which includes the sub-advisory fee paid to the Sub-Adviser) and total net expense ratio to the peer group of funds and noted the Fund's percentile rankings in this regard. The Committee also reviewed the average and median advisory fees and expense ratios, including expense ratio components (e.g., transfer agency fees, administration fees and other operating expenses) of the peer group of funds. Although the Fund's advisory fee and total net expense ratio were the highest of its peer group of six funds, the Committee considered the Adviser's statement that the Fund is unique relative to other closed-end funds as its strategy incorporates fixed income, equity and alternative investments. In this regard, the Committee noted the Adviser's statement that its broad array of asset classes makes identifying a group of peers impractical. The Committee also noted the Fund's leverage expenses.

With respect to the costs of services provided and profits realized by Guggenheim Investments from its relationship with the Fund, the Committee reviewed a profitability analysis and data from management setting forth the average assets under management for the twelve months ended December 31, 2014, ending assets under management as of December 31, 2014, gross revenues received by Guggenheim Investments, expenses incurred in providing services to the Fund, earnings and the operating margin/profitability rate, including variance information relative to the foregoing amounts as of December 31, 2013. In addition, the Chief Financial Officer of Guggenheim Investments reviewed with, and addressed questions from, the Committee concerning the expense allocation methodology employed in producing the profitability analysis.

The Committee considered other benefits available to the Adviser because of its relationship with the Fund and noted that the Adviser may be deemed to benefit from arrangements whereby an affiliate, Rydex Fund Services, LLC, receives fees from the Fund for (i) providing certain administrative services pursuant to an administration agreement, and (ii) maintaining the books and records of the Fund's securities and cash pursuant to a fund accounting agreement; and that another affiliate,

GOF1 GUGGENHEIM STRATEGIC OPPORTUNITIES FUND ANNUAL REPORT 173

APPROVAL OF ADVISORY AGREEMENTS – GUGGENHEIM

STRATEGIC OPPORTUNITIES FUND (GOF) continued

May 31,
2015

GPIM, receives sub-advisory fees for managing the investment portfolio. The Committee also noted the Adviser's statement that it may benefit from marketing synergies arising from offering a broad spectrum of products, including the Fund. Based on all of the information provided and its review, the Committee determined that Guggenheim Investments' profitability from its relationship with the Fund was not unreasonable.

Economies of Scale: The Committee received and considered information regarding whether there have been economies of scale with respect to the management of the Fund as the Fund's assets grow, whether the Fund has appropriately benefited from any economies of scale, and whether there is potential for realization of any further economies of scale. The Committee considered whether economies of scale in the provision of services to the Fund were being passed along to the shareholders. In this respect, the Committee considered the Adviser's view that advisory fee breakpoints generally are not relevant given the structural nature of closed-end funds, which, though able to conduct additional share offerings periodically, do not continuously offer new shares and thus, do not experience daily inflows and outflows of capital. The Committee also noted the Adviser's statement that a small number of large closed-end fund sponsors implement fund- and complex-level breakpoints. In this regard, the Committee noted the additional shares offered by the Fund through secondary offerings in the past and considered that to the extent the Fund's assets increase over time (whether through additional periodic offerings or internal growth from asset appreciation), the Fund and its shareholders should realize economies of scale as certain expenses, such as fixed fund fees, become a smaller percentage of overall assets. The Committee also took into account the Adviser's view that given the Fund's uniqueness and combination of multiple strategies, including a variety of fixed-income, equity and alternative strategies, the fees are reasonable. In addition, the Committee noted the Adviser's statement that Guggenheim continues to develop the infrastructure needed to support Fund asset growth and to achieve economies of scale across the firm's various products and product lines. Thus, while Guggenheim may be benefiting from certain economies of scale and related cost efficiencies, it is concurrently realizing new costs and expenses associated with investment in infrastructure, personnel and systems.

Sub-Advisory Agreement

Nature, Extent and Quality of Services Provided by the Sub-Adviser: With respect to the nature, extent and quality of services provided by the Sub-Adviser, the Committee considered the qualifications, experience and skills of the Sub-Adviser's portfolio management and other key personnel and information from the Sub-Adviser describing the scope of its services to the Fund. With respect to Guggenheim's resources and the Sub-Adviser's ability to carry out its responsibilities under the Sub-Advisory Agreement, the Committee considered the review of certain unaudited financial information concerning GPIMH by the Chief Financial Officer of Guggenheim Investments, as discussed above. (The Committee received the audited financial statements of GPIM once available following the May Meeting and, as noted, received the audited financial statements of GPIMH once available following the April Meeting.)

The Committee also considered the acceptability of the terms of the Sub-Advisory Agreement. In addition, the Committee considered the Sub-Adviser's efforts in pursuing the Fund's investment objective of maximizing total return through a combination of current income and capital appreciation. Based on the foregoing, and based on other information received (both oral and written) at the April Meeting and at the May Meeting, as well as other considerations, including the

APPROVAL OF ADVISORY AGREEMENTS – GUGGENHEIM

STRATEGIC OPPORTUNITIES FUND (GOF) continued

May 31,
2015

Committee's knowledge of the Sub-Adviser's quality of performance of its duties through Board meetings, discussions and reports during the year, the Committee concluded that the Sub-Adviser and its personnel were qualified to serve the Fund in such capacity and may reasonably be expected to continue to provide a high quality of services under the Sub-Advisory Agreement.

Investment Performance: The Committee reviewed the performance of the Fund and the peer group of funds over various periods of time. The Committee noted that the Fund had outperformed the median return of its peer group on an NAV basis for the five-year period (25th percentile) and its performance for the three-year period equaled the median return of its peer group for the same period. The Committee also noted that the Fund's performance on an NAV basis for the one-year period lagged behind the median return of its peer group for the same period (60th percentile).

In evaluating the Fund's performance on an NAV basis relative to its peer group, the Committee noted the Adviser's statement that the Fund is unique relative to other closed-end funds as its strategy incorporates fixed income, equity and alternative investments and such a broad array of asset classes makes identifying a group of peers impractical. Although certain credit-oriented closed-end funds invest in similar fixed-income asset classes, they do not represent all of the asset classes and strategies employed by the Fund. In view of the foregoing, the Committee took into account the uniqueness of the Fund's investment mandate relative to the Fund's peer group. The Committee also observed that the Fund's performance on an NAV basis for the five-year, three-year and one-year periods ended December 31, 2014, exceeded the return of the Barclays Capital U.S. Aggregate Bond Index over the same periods and exceeded the return of the S&P 500 Index for the five-year period, but lagged the returns of the S&P 500 Index for the three-year and one-year periods ended December 31, 2014.

The Committee also noted Guggenheim's belief that there is no single optimal performance metric, nor is there a single optimal time period over which to evaluate performance and that a thorough understanding of performance comes from analyzing measures of returns, risk and risk-adjusted returns, as well as evaluating strategies both relative to their market benchmarks as well as relative to peer groups of competitor strategies. Thus, the Committee also reviewed and considered the additional performance and risk metrics provided by Guggenheim, including the Fund's standard deviation, tracking error, beta, Sharpe ratio, information ratio and alpha versus the Fund's peers and, in this regard, noted Guggenheim's statement that the Fund's risk has generally been in line with or lower than that of its peers and the Fund's risk-adjusted returns have consistently been in the first or second quartile of its peer universe.

After reviewing the foregoing and related factors, the Committee concluded, within the context of its overall conclusions regarding the Advisory Agreements, that the Fund's performance was acceptable.

Comparative Fees, Costs of Services Provided and the Profits Realized by the Sub-Adviser from its Relationship with the Fund: The Committee reviewed the level of sub-advisory fees payable to GPIM, noting that the fees would be paid by GFIA and do not impact the fees paid by the Fund. The Committee also reviewed the dollar amount of sub-advisory fees paid to GPIM for the twelve months ended December 31, 2014. The Committee compared the sub-advisory fee paid by the Adviser to the Sub-Adviser to the fees charged by the Sub-Adviser to clients for both fixed income and equity mandates. The Committee considered Guggenheim's view that the higher fee applicable to the Fund as compared to another fund managed by the Sub-Adviser in a similar strategy was attributable

APPROVAL OF ADVISORY AGREEMENTS – GUGGENHEIM
STRATEGIC OPPORTUNITIES FUND (GOF) continued

May 31, 2015

primarily to the challenges in managing the Fund that are not present with respect to managing the other fund, in particular the Fund's use of leverage and its focus on maintaining consistent distributions of income.

Economies of Scale: The Committee recognized that, because the Sub-Adviser's fees would be paid by the Adviser and not the Fund, the analysis of economies of scale was more appropriate in the context of the Committee's consideration of the Investment Advisory Agreement, which was separately considered. (See "Investment Advisory Agreement—Economies of Scale" above.)

Overall Conclusions

Based on the foregoing, the Committee determined that the investment advisory fees are fair and reasonable in light of the extent and quality of the services provided and other benefits received and that the continuation of each Advisory Agreement is in the best interests of the Fund. In reaching this conclusion, no single factor was determinative or conclusive and each Committee member, in the exercise of his business judgment, may attribute different weights to different factors. At the May Meeting, the Committee, constituting all of the Independent Trustees, recommended the renewal of each Advisory Agreement for an additional 12-month term. Thereafter, on May 20, 2015, the Board, including all of the Independent Trustees, approved the renewal of each Advisory Agreement for an additional 12-month term.

FUND INFORMATION continued

May 31, 2015

Privacy Principles of the Fund

The Fund is committed to maintaining the privacy of its shareholders and to safeguarding their non-public personal information. The following information is provided to help you understand what personal information the Fund collects, how the Fund protects that information and why, in certain cases, the Fund may share information with select other parties.

Generally, the Fund does not receive any non-public personal information relating to its shareholders, although certain non-public personal information of its shareholders may become available to the Fund. The Fund does not disclose any non-public personal information about its shareholders or former shareholders to anyone, except as permitted by law or as is necessary in order to service shareholder accounts (for example, to a transfer agent or third party administrator).

The Fund restricts access to non-public personal information about its shareholders to employees of the Fund's investment advisor and its affiliates with a legitimate business need for the information. The Fund maintains physical, electronic and procedural safeguards designed to protect the non-public personal information of its shareholders.

Questions concerning your shares of Guggenheim Strategic Opportunities Fund?

- If your shares are held in a Brokerage Account, contact your Broker.
- If you have physical possession of your shares in certificate form, contact the Fund's Transfer Agent: Computershare Shareowner Services LLC, P.O. Box 30170, College Station, TX 77842-3170; (866) 488-3559.

This report is sent to shareholders of Guggenheim Strategic Opportunities Fund for their information. It is not a Prospectus, circular or representation intended for use in the purchase or sale of shares of the Fund or of any securities mentioned in this report.

A description of the Fund's proxy voting policies and procedures related to portfolio securities is available without charge, upon request, by calling the Fund at (800)345-7999.

Information regarding how the Fund voted proxies for portfolio securities, if applicable, during the most recent 12-month period ended June 30, is also available, without charge and upon request by calling (800)345-7999, by visiting the Fund's website at guggenheiminvestments.com/gof or by accessing the Fund's Form N-PX on the U.S. Securities and Exchange Commission's (SEC) website at www.sec.gov.

The Fund files its complete schedule of portfolio holdings with the SEC for the first and third quarters of each fiscal year on Form N-Q. The Fund's Form N-Q is available on the SEC website at www.sec.gov or by visiting the Fund's website at guggenheiminvestments.com/gof. The Fund's Form N-Q may also be viewed and copied at the SEC's Public Reference Room in Washington, DC; information on the operation of the Public Reference Room may be obtained by calling (800) SEC-0330 or at www.sec.gov.

Notice to Shareholders

Notice is hereby given in accordance with Section 23(c) of the Investment Company Act of 1940, as amended, that the Fund from time to time may purchase shares of its common stock in the open market.

GOF1 GUGGENHEIM STRATEGIC OPPORTUNITIES FUND ANNUAL REPORT 179

ABOUT THE FUND MANAGERS

Guggenheim Partners Investment Management, LLC

Guggenheim Partners Investment Management, LLC (“GPIM”) is an indirect subsidiary of Guggenheim Partners, LLC, a diversified financial services firm. The firm provides capital markets services, portfolio and risk management expertise, wealth management, and investment advisory services. Clients of Guggenheim Partners, LLC subsidiaries are an elite mix of individuals, family offices, endowments, foundations, insurance companies and other institutions.

Investment Philosophy

GPIM’s investment philosophy is predicated upon the belief that thorough research and independent thought are rewarded with performance that has the potential to outperform benchmark indexes with both lower volatility and lower correlation of returns over time as compared to such benchmark indexes.

Investment Process

GPIM’s investment process is a collaborative effort between various groups including the Portfolio Construction Group, which utilize proprietary portfolio construction and risk modeling tools to determine allocation of assets among a variety of sectors, and its Sector Specialists, who are responsible for security selection within these sectors and for implementing securities transactions, including the structuring of certain securities directly with the issuers or with investment banks and dealers involved in the origination of such securities.

Item 2. Code of Ethics.

- (a) The registrant has adopted a code of ethics (the "Code of Ethics") that applies to its principal executive officer, principal financial officer, principal accounting officer or controller, or persons performing similar functions.
- (b) No information need be disclosed pursuant to this paragraph.
- (c) The registrant has not amended its Code of Ethics during the period covered by the report presented in Item 1 hereto.
- (d) The registrant has not granted a waiver or an implicit waiver to its principal executive officer, principal financial officer, principal accounting officer or controller, or persons performing similar functions from a provision of its Code of Ethics during the period covered by this report.
- (e) Not applicable.
- (f) (1) The registrant's Code of Ethics is attached hereto as Exhibit (a)(1).
(2) Not applicable.
(3) Not applicable.

Item 3. Audit Committee Financial Expert.

The registrant's Board of Trustees has determined that it has at least one audit committee financial expert serving on its audit committee (the "Audit Committee"), Robert B. Karn III. Mr. Karn qualifies as an audit committee financial expert by virtue of his experience obtained as a managing partner in a public accounting firm, which included an understanding of generally accepted accounting principles ("GAAP") in connection with the accounting for estimates, accruals and reserves and also the review, audit and evaluation of financial statements using GAAP.

(Under applicable securities laws, a person who is determined to be an audit committee financial expert will not be deemed an "expert" for any purpose, including without limitation for the purposes of Section 11 of the Securities Act of 1933, as amended, as a result of being designated or identified as an audit committee financial expert. The designation or identification of a person as an audit committee financial expert does not impose on such person any duties, obligations, or liabilities that are greater than the duties, obligations, and liabilities imposed on such person as a member of the Audit Committee and Board of Trustees in the absence of such designation or identification.

The designation or identification of a person as an audit committee financial expert does not affect the duties, obligations or liability of any other member of the Audit Committee or Board of Trustees.)

Item 4. Principal Accountant Fees and Services.

(a) Audit Fees: the aggregate fees billed for professional services rendered by the principal accountant for the audit of the registrant's annual financial statements or services that are normally provided by the accountant in connection with statutory and regulatory filings or engagements were \$63,649 and \$58,118 for the fiscal years ended May 31, 2015, and May 31, 2014, respectively.

(b) Audit-Related Fees: the aggregate fees billed for assurance and related services by the principal accountant that are reasonably related to the performance of the audit of the registrant's financial statements and are not reported under paragraph 4(a) of this Item, were \$24,000 and \$24,000 for the fiscal years ended May 31, 2015, and May 31, 2014, respectively.

The registrant's principal accountant did not bill fees for non-audit services that required approval by the Audit Committee pursuant to paragraph (c)(7)(ii) of Rule 2-01 of Regulation S-X during the registrant's last two fiscal years.

(c) Tax Fees: the aggregate fees billed for professional services rendered by the principal accountant for tax compliance, tax advice and tax planning, including federal, state and local income tax return preparation and related advice and determination of taxable income and miscellaneous tax advice were \$12,610 and \$9,734 for the fiscal years ended May 31, 2015, and May 31, 2014, respectively.

The registrant's principal accountant did not bill fees for tax services that required approval by the Audit Committee pursuant to paragraph (c)(7)(ii) of Rule 2-01 of Regulation S-X during the registrant's last two fiscal years.

(d) All Other Fees: the aggregate fees billed for products and services provided by the principal accountant, other than the services reported in paragraphs (a) through (c) of this Item 4 were \$0 and \$0 for the fiscal years ended May 31, 2015, and May 31, 2014, respectively.

The registrant's principal accountant did not bill for services not included in Items 4(a), (b) or (c) above that required approval by the Audit Committee pursuant to paragraph (c)(7)(ii) of Rule 2-01 of Regulation S-X during the registrant's last two fiscal years.

(e) Audit Committee Pre-Approval Policies and Procedures.

(1) The registrant's audit committee reviews, and in its sole discretion, pre-approves, pursuant to written pre-approval procedures (A) all engagements for audit and non-audit services to be provided by the principal accountant to the registrant and (B) all engagements for non-audit services to be provided by the principal accountant (1) to the registrant's investment adviser (not including a sub-adviser whose role is primarily

portfolio management and is sub-contracted or overseen by another investment adviser) and (2) to any entity controlling, controlled by or under common control with the registrant's investment adviser that provides ongoing services to the registrant; but in the case of the services described in subsection (B)(1) or (2), only if the engagement relates directly to the operations and financial reporting of the registrant; provided that such pre-approval need not be obtained in circumstances in which the pre-approval requirement is waived under rules promulgated by the Securities and Exchange Commission or New York Stock Exchange listing standards. Sections V.B.2 and V.B.3 of the registrant's audit committee's revised Audit Committee Charter contain the Audit Committee's Pre-Approval Policies and Procedures and such sections are included below.

V.B.2.Pre-approve any engagement of the independent auditors to provide any non-prohibited services, other than "prohibited non-audit services," to the Trust, including the fees and other compensation to be paid to the independent auditors (unless an exception is available under Rule 2-01 of Regulation S-X).

(a) The categories of services to be reviewed and considered for pre-approval include the following:

Audit Services

- Annual financial statement audits
- Seed audits (related to new product filings, as required)
 - SEC and regulatory filings and consents

Audit-Related Services

- Accounting consultations
- Fund merger/reorganization support services
 - Other accounting related matters
 - Agreed upon procedures reports
 - Attestation reports
 - Other internal control reports

Tax Services

- Tax compliance services related to the filing of amendments:
 - o Federal, state and local income tax compliance
 - o Sales and use tax compliance
 - Timely RIC qualification reviews
- Tax distribution analysis and planning
- Tax authority examination services
 - Tax appeals support services
 - Accounting methods studies
 - Fund merger support services

- Tax compliance, planning and advice services and related projects

- (b) The Committee has pre-approved those services, which fall into one of the categories of services listed under 2(a) above and for which the estimated fees are less than \$25,000.
- (c) For services with estimated fees of \$25,000 or more, but less than \$50,000, the Chair is hereby authorized to pre-approve such services on behalf of the Committee.
- (d) For services with estimated fees of \$50,000 or more, such services require pre-approval by the Committee.
- (e) The independent auditors or the Chief Accounting Officer of the Trust (or an officer of the Trust who reports to the Chief Accounting Officer) shall report to the Committee at each of its regular quarterly meetings all audit, audit-related and permissible non-audit services initiated since the last such report (unless the services were contained in the initial audit plan, as previously presented to, and approved by, the Committee). The report shall include a general description of the services and projected fees, and the means by which such services were approved by the Committee (including the particular category listed above under which pre-approval was obtained).

V.B.3. Pre-approve any engagement of the independent auditors, including the fees and other compensation to be paid to the independent auditors, to provide any non-audit services to the Adviser (or any “control affiliate” of the Adviser providing ongoing services to the Trust), if the engagement relates directly to the operations and financial reporting of the Trust (unless an exception is available under Rule 2-01 of Regulation S-X).

- (a) The Chair or any member of the Committee may grant the pre-approval for non-audit services to the Adviser (or any “control affiliate” of the Adviser providing ongoing services to the Trust) relating directly to the operations and financial reporting of the Trust for which the estimated fees are less than \$25,000. All such delegated pre-approvals shall be presented to the Committee no later than the next Committee meeting.
- (b) For non-audit services to the Adviser (or any “control affiliate” of the Adviser providing ongoing services to the Trust) relating directly to the operations and financial reporting of the Trust for which the estimated fees are \$25,000 or more, such services require pre-approval by the Committee.
- (2) None of the services described in each of Items 4(b) through (d) were approved by the Audit Committee pursuant to paragraph (c)(7)(i)(C) of Rule 2-01 of Regulation S-X.
-

(f) Not applicable.

(g) The aggregate non-audit fees billed by the registrant's accountant for services rendered to the registrant, the registrant's investment adviser (not including a sub-adviser whose role is primarily portfolio management and is sub-contracted with or overseen by another investment adviser) and/or any entity controlling, controlled by, or under common control with the adviser that provides ongoing services to the registrant were \$75,195 and \$70,484 for the fiscal years ended May 31, 2015, and May 31, 2014, respectively.

(h) Not applicable.

Item 5. Audit Committee of Listed Registrants.

(a) The Audit Committee was established as a separately designated standing audit committee in accordance with Section 3(a)(58)(A) of the Securities Exchange Act of 1934, as amended. The Audit Committee of the registrant is composed of: Randall C. Barnes; Ronald A. Nyberg; Ronald E. Toupin, Jr; Robert B. Karn III; Donald A. Chubb; Jerry B. Farley; Maynard F. Oliverius; and Roman Friedrich III.

(b) Not applicable.

Item 6. Schedule of Investments.

The Schedule of Investments is included as part of Item 1.

Item 7. Disclosure of Proxy Voting Policies and Procedures for Closed-End Management Investment Companies.

The registrant has delegated the voting of proxies relating to its voting securities to the registrant's investment sub-adviser, Guggenheim Partners Investment Management, LLC ("GPIM"). Guggenheim's proxy voting policies and procedures are included as Exhibit (c) hereto.

Item 8. Portfolio Managers of Closed-End Management Investment Companies.

(a)(1) GPIM serves as sub-adviser for the registrant and is responsible for the day-to-day management of the registrant's portfolio. GPIM uses a team approach to manage client portfolios. Day to day management of a client portfolio is conducted under the auspices of GPIM's Portfolio Construction Group ("PCG"). PCG's members include the Chief Investment Officer ("CIO") and other key investment personnel. The PCG, in consultation with the CIO, provides direction for overall investment strategy. The PCG performs several duties as it relates to client portfolios including: determining both tactical and strategic asset allocations; monitoring portfolio adherence to asset allocation targets; providing sector specialists with direction for overall investment strategy, which may include portfolio design and the rebalancing of portfolios; performing risk management oversight; assisting sector managers and research staff in determining the relative valuation of market sectors; and providing a forum for the regular discussion of

the economy and the financial markets to enhance the robustness of GPIM's strategic and tactical policy directives.

The following individuals at GPIM share primary responsibility for the management of the registrant's portfolio and is provided as of May 31, 2015:

Name	Since	Professional Experience During the Last Five Years
Scott MinerD - CIO	2013	Guggenheim Partners Investment Management, LLC: CIO – 2005–Present; Guggenheim Partners, LLC: Managing Partner – Insurance Advisory – 1998–Present.
Anne B. Walsh, CFA, FLMI – Senior Managing Director and Assistant CIO	2013	Guggenheim Partners Investment Management, LLC: Senior Managing Director and Assistant CIO – 2007–Present.
James W. Michal – Managing Director	2013	Guggenheim Partners Investment Management, LLC.: Managing Director – 2008–Present.

(a)(2)(i-iii) Other Accounts Managed by the Portfolio Managers

The following tables summarize information regarding each of the other accounts managed by the Guggenheim portfolio managers as of May 31, 2015:

Scott MinerD:

Type of Account	Number of Accounts	Total Assets in the Accounts	Number of Accounts In Which the Advisory Fee is Based on Performance	Total Assets in the Accounts In Which the Advisory Fee is Based on Performance
Registered investments companies	29	\$11,041,360,102	0	\$0
Other pooled investment vehicles	69	\$19,853,291,453	29	\$11,613,866,732
Other accounts	147	\$119,043,805,588	10	\$1,091,860,715

Anne B. Walsh:

Type of Account	Number of Accounts	Total Assets in the Accounts	Number of Accounts In Which the Advisory Fee is Based on Performance	Total Assets in the Accounts In Which the Advisory Fee is Based on Performance
Registered investments companies	23	\$11,931,742,342	0	\$0
Other pooled investment vehicles	2	\$3,880,698,720	2	\$3,880,698,720
Other accounts	29	\$88,958,054,962	1	\$340,727,688

James W. Michal:

Type of Account	Number of Accounts	Total Assets in the Accounts	Number of Accounts In Which the Advisory Fee is Based on Performance	Total Assets in the Accounts In Which the Advisory Fee is Based on Performance
Registered investments companies	20	\$10,954,225,246	0	\$0
Other pooled investment vehicles	3	\$4,188,583,923	2	\$3,880,698,720
Other accounts	13	\$2,102,532,641	4	\$669,399,748

(a)(2)(iv) Potential Conflicts of Interest

Actual or apparent conflicts of interest may arise when a portfolio manager has day-to-day management responsibilities with respect to more than one fund or other account. More specifically, portfolio managers who manage multiple funds and/or other accounts may be presented with one or more of the following potential conflicts.

The management of multiple funds and/or other accounts may result in a portfolio manager devoting unequal time and attention to the management of each fund and/or other account. GPIM seeks to manage such competing interests for the time and attention of a portfolio manager by having the portfolio manager focus on a particular investment discipline. Specifically, the ultimate decision maker for security selection for each client portfolio is the Sector Specialist Portfolio Manager. They are responsible for analyzing and selecting specific securities that they believe best reflect the risk and return level as provided in each client's investment guidelines.

GPIM may have clients with similar investment strategies. As a result, if an investment opportunity would be appropriate for more than one client, GPIM may be required to choose among those clients in allocating such opportunity, or to allocate less of such opportunity to a client than it would ideally allocate if it did not have to allocate to multiple clients. In addition, GPIM may determine that an investment opportunity is appropriate for a particular account, but not for another.

Allocation decisions are made in accordance with the investment objectives, guidelines, and restrictions governing the respective clients and in a manner that will not unfairly favor one client over another. GPIM's allocation policy provides that investment decisions must never be based upon account performance or fee structure. Accordingly, GPIM's allocation procedures are designed to ensure that investment opportunities are allocated equitably among different client accounts over time. The procedures also seek to ensure reasonable efficiency in client transactions and to provide portfolio managers with flexibility to use allocation methodologies appropriate to GPIM's investment disciplines and the specific goals and objectives of each client account.

In order to minimize execution costs and obtain best execution for clients, trades in the same security transacted on behalf of more than one client may be aggregated. In the event trades are aggregated, GPIM's policy and procedures provide as follows: (i) treat all participating client accounts fairly; (ii) continue to seek best execution; (iii) ensure that clients who participate in an aggregated order will participate at the average share

price with all transaction costs shared on a pro-rata basis based on each client's participation in the transaction; (iv) disclose its aggregation policy to clients.

GPIM, as a fiduciary to its clients, considers numerous factors in arranging for the purchase and sale of clients' portfolio securities in order to achieve best execution for its clients. When selecting a broker, individuals making trades on behalf of GPIM clients consider the full range and quality of a broker's services, including execution capability, commission rate, price, financial stability and reliability. GPIM is not obliged to merely get the lowest price or commission but also must determine whether the transaction represents the best qualitative execution for the account.

In the event that multiple broker/dealers make a market in a particular security, GPIM's Portfolio Managers are responsible for selecting the broker-dealer to use with respect to executing the transaction. The broker-dealer will be selected on the basis of how the transaction can be executed to achieve the most favorable execution for the client under the circumstances. In many instances, there may only be one counter-party active in a particular security at a given time. In such situations the Employee executing the trade will use his/her best effort to obtain the best execution from the counter-party.

GPIM and the registrant have adopted certain compliance procedures which are designed to address these types of conflicts. However, there is no guarantee that such procedures will detect each and every situation in which a conflict arises.

(a)(3) Portfolio Manager Compensation

GPIM compensates Mr. Miner, Ms. Walsh and Mr. Michal for their management of the registrant's portfolio. Compensation is evaluated based on their contribution to investment performance relative to pertinent benchmarks and qualitatively based on factors such as teamwork and client service efforts. GPIM's staff incentives may include: a competitive base salary, bonus determined by individual and firm wide performance, equity participation, and participation opportunities in various GPIM investments. All GPIM employees are also eligible to participate in a 401(k) plan to which GPIM may make a discretionary match after the completion of each plan year.

(a)(4) Portfolio Manager Securities Ownership

The following table discloses the dollar range of equity securities of the registrant beneficially owned by each GPIM portfolio manager as of May 31, 2015:

Name of Portfolio Manager	Dollar Amount of Equity Securities in Fund
Scott Miner	None
Anne B. Walsh	\$100,001-\$500,000
James W. Michal	None

Item 9. Purchases of Equity Securities by Closed-End Management Investment Company and Affiliated Purchasers.

None.

Item 10. Submission of Matters to a Vote of Security Holders.

The registrant has not made any material changes to the procedures by which shareholders may recommend nominees to the registrant's Board of Trustees.

Item 11. Controls and Procedures.

(a) The registrant's principal executive officer and principal financial officer have evaluated the registrant's disclosure controls and procedures (as defined in Rule 30a-3(c) under the Investment Company Act) as of a date within 90 days of this filing and have concluded based on such evaluation, as required by Rule 30a-3(b) under the Investment Company Act, that the registrant's disclosure controls and procedures were effective, as of that date, in ensuring that information required to be disclosed by the registrant in this Form N-CSR was recorded, processed, summarized, and reported within the time periods specified in the Securities and Exchange Commission's rules and forms.

(b) There were no changes in the registrant's internal control over financial reporting (as defined in Rule 30a-3(d) under the Investment Company Act) that occurred during the registrant's second fiscal quarter of the period covered by this report that have materially affected, or are reasonably likely to materially affect, the registrant's internal control over financial reporting.

Item 12. Exhibits.

(a)(1) Code of Ethics for Chief Executive and Senior Financial Officers.

(a)(2) Certifications of principal executive officer and principal financial officer pursuant to Rule 30a-2(a) under the Investment Company Act.

(a)(3) Not applicable.

(b) Certification of principal executive officer and principal financial officer pursuant to Rule 30a-2(b) under the Investment Company Act and Section 906 of the Sarbanes-Oxley Act of 2002.

(c) Guggenheim Partners Investment Management, LLC Proxy Voting Policies and Procedures.

SIGNATURES

Pursuant to the requirements of the Securities Exchange Act of 1934 and the Investment Company Act of 1940, the registrant has duly caused this report to be signed on its behalf by the undersigned, thereunto duly authorized.
