On February 20, 2003, the registrant issued a press release relating to its financial results for the fourth quarter of 2002.

The full text of the press release is set forth below:

COMMSCOPE REPORTS FOURTH QUARTER 2002 RESULTS

-----

## Edgar Filing: COMMSCOPE INC - Form 8-K

HICKORY, NC -- (FEBRUARY 20, 2003) CommScope, Inc. (NYSE: CTV) today announced fourth quarter results for the period ended December 31, 2002. The company reported sales of \$135.9 million and a net loss of \$3.5 million or \$0.06 per share for the fourth quarter. The loss included after-tax equity in losses of OFS BrightWave, LLC of \$0.08 per share.

For the fourth quarter of 2001, the company incurred a net loss of \$1.0 million or \$0.02 per share, which included after-tax equity in losses of OFS BrightWave of \$0.12 per share.

CommScope's sales for the fourth quarter of 2002 were \$135.9 million compared to \$143.5 million in the year-ago quarter and \$147.8 million in the preceding quarter. Fourth quarter domestic sales were stable year-over-year at \$110.4 million primarily due to strong sales to Comcast Corporation, which merged with AT&T Broadband in November 2002. However, domestic sales declined sequentially from \$120.8 million principally because of lower sales to Local Area Network (LAN) customers. International sales for the quarter were \$25.5 million, compared to \$27.0 million in the third quarter of 2002 and \$33.4 million in the fourth quarter of 2001.

Orders booked in the fourth quarter of 2002 were equal with year-ago levels at \$132.8 million.

### FULL YEAR RESULTS

CommScope reported sales of \$598.5 million for 2002, compared to sales of \$738.5 million in 2001. Total international sales were \$111.5 million, compared to \$173.3 million in the prior year. For 2002, the company incurred a net loss of \$67.2 million or \$1.10 per share. CommScope's 2002 results include: a) equity in losses of OFS BrightWave of \$53.7 million after tax or \$0.88 per share; b) impairment charges primarily related to underutilized and idle production equipment of \$15.8 million after tax or \$0.26 per share; and c) Adelphia bad debt charges of \$13.5 million after tax or \$0.22 per share.

For 2001, CommScope reported net income of \$27.9 million or \$0.52 per diluted share. CommScope's 2001 results include: a) impairment charges for fixed assets and investments of \$9.5 million after tax or \$0.18 per diluted share; b) equity in losses of OFS BrightWave of \$6.9 million after tax or \$0.13 per diluted share; and c) terminated acquisition charges related to the financing and formation of the original joint venture arrangement with The Furukawa Electric Company Ltd. of \$5.0 million after tax or \$0.09 per diluted share.

"Amid one of the toughest business environments in our history, we believe that we made solid progress positioning CommScope for a market recovery and long-term opportunity," said Frank M. Drendel, CommScope Chairman and Chief Executive Officer. "During 2002, we lowered our cost structure, generated more than \$100 million in cash flow from operations and strengthened our market position in fiber optic cable for HFC applications. We also believe we enhanced our strategic relationship with OFS and Furukawa.

"Despite these challenging times, we believe in the power of broadband," noted Drendel. "Our customers have made significant strides delivering digital video, voice and high-speed data services to consumers around the globe. We are also confident in our ability to provide cutting-edge cable technology, which enables broadband service."

### OFS BRIGHTWAVE RESULTS

OFS BrightWave's performance improved but continues to reflect the extremely difficult global business conditions for optical fiber and fiber

## Edgar Filing: COMMScope INC - Form 8-K

optic cable. During the fourth quarter of 2002, OFS BrightWave had revenues of \$27.2 million, a negative gross profit of \$23.4 million and a net loss of \$38.9 million.

For the full year 2002, OFS BrightWave had revenues of \$97.1 million, a negative gross profit of \$170.9 million and a net loss of \$431.5 million. OFS BrightWave's full year results included significant charges related to the write off of goodwill, impairment of fixed assets, restructuring and cost reduction.

CommScope recorded after-tax charges of \$4.5 million or \$0.08 per share in the quarter and \$53.7 million or \$0.88 per share in 2002 for equity in losses of OFS BrightWave related to the company's minority investment in this venture. The company acquired an 18.4% ownership interest in OFS BrightWave, an optical fiber and fiber cable venture between CommScope and Furukawa, during the fourth quarter of 2001 and CommScope is reporting results using the equity method of accounting for this investment.

### CASH FLOW AND LIQUIDITY

-----

Net cash provided by operating activities was \$31.7 million for the fourth quarter and \$103.8 million for calendar year 2002. Capital expenditures were \$14.3 million in the quarter and included \$12.8 million for the purchase of a previously-leased corporate office building. Capital expenditures for calendar year 2002 were \$22.6 million.

CommScope ended the year with \$120.1 million in cash and cash equivalents, up from \$61.9 million at the end of 2001. Other important transactions that affected cash during the fourth quarter were:

- o A \$13.2 million repurchase of 2,543,100 shares of CommScope stock at \$5.20 per share from Lucent Technologies Inc. Lucent had acquired CommScope common stock in connection with CommScope's investment in OFS BrightWave in November 2001.
- o A \$10.4 million repayment of a eurodollar loan.
- o A \$6.1 million advance to OFS BrightWave under an existing \$30 million revolving credit facility. As of December 31, 2002, OFS BrightWave owed CommScope \$30 million under this facility.

The company also recently announced that it entered into a new \$100 million senior secured revolving credit facility for future liquidity, working capital needs and other general corporate purposes. CommScope has not borrowed under this facility.

### OTHER FOURTH QUARTER 2002 HIGHLIGHTS

-----

- o Domestic Broadband/Video sales for the fourth quarter rose 8% year over year primarily because of a substantial increase in sales to Comcast as well as an increase in sales of fiber optic cable products. These increases were somewhat offset by lower sales to Adelphia Communications and Charter Communications. Comcast, on a combined basis with AT&T Broadband, represented roughly 30% of total company sales for the quarter and about 20% of total company sales for calendar year 2002.
- o During 2002, CommScope believes it enhanced its fiber optic cable market position for HFC applications despite lower overall sales and ongoing pricing pressure. The company believes its progress resulted from its strong service model and its new LightScope ZWP (TM) fiber optic cables, which are based upon technologically advanced optical fibers

## Edgar Filing: COMMSCOPE INC - Form 8-K

from OFS. Sales of fiber optic cable, primarily for broadband applications, represented more than 10% of CommScope's total sales for the quarter and the year.

- o International sales continue to reflect the difficult global business environment. Worldwide Broadband/Video sales decreased 2% sequentially and 1% year over year to \$117.9 million for the fourth quarter. For calendar year 2002, worldwide Broadband/Video sales were \$496.5 million and total international sales were \$111.5 million.
- o LAN sales decreased 7% year over year to approximately \$14.1 million for the fourth quarter. Consistent with the previous year, LAN sales declined sequentially primarily because of year-end inventory reductions by distributors and difficult market conditions. For calendar year 2002, LAN sales were \$81.2 million.
- o Wireless and Other Telecom sales rose slightly sequentially to \$3.9 million. For calendar year 2002, Wireless and Other Telecom sales were \$20.8 million.
- o Total company gross margin for the fourth quarter was 19.4% compared to 18.3% in the third quarter of 2002. Despite lower sales volume, gross margin rose sequentially primarily because of the positive impact of previously announced cost reduction actions. For calendar year 2002, gross margin was 20.1%, compared to 24.3% for 2001.

### OUTLOOK

-----

"Looking ahead to the seasonally slow first quarter, the company expects sales to be in the \$120-\$130 million range and gross margin in the 18-19% range," said Jearld L. Leonhardt, Executive Vice President and Chief Financial Officer.

"Despite GAAP losses that included significant non-cash charges during 2002, CommScope achieved strong free cash flow (cash from operations less capital expenditures) due in part to working capital improvements and lower capital spending," noted Leonhardt. "While forecasting remains difficult due to business conditions, we expect another year of restrained capital expenditures and believe we can generate modest free cash flow during 2003."

### CONFERENCE CALL INFORMATION

-----

CommScope, Inc. (NYSE: CTV) will host a conference call to review fourth quarter results at 5:00 p.m. Eastern Time today. You are invited to listen to the conference call or live webcast with Frank Drendel, Chairman and CEO; Brian Garrett, President and COO; and Jearld Leonhardt, Executive Vice President and CFO.

To participate in the conference call, domestic and international callers should dial 212-896-6017. Please plan to dial in 10-15 minutes before the start of the call to facilitate a timely connection. The live, listen-only audio of the conference call will also be available via the Internet at: <http://www.firstcallevents.com/service/ajwz373633737gf12.html>

If you are unable to participate on the call and would like to hear a replay, you may dial 800-633-8284. International callers should dial 402-977-9140 for the replay. The replay ID is 21117162. The replay will be available through Saturday, February 22. A webcast replay will also be archived for a limited period of time following the conference call via the Internet on CommScope's web site (<http://www.commscope.com>).

## Edgar Filing: COMMSCOPE INC - Form 8-K

CommScope is the world's largest manufacturer of broadband coaxial cable for Hybrid Fiber Coaxial (HFC) applications and a leading supplier of high-performance fiber optic and twisted pair cables for LAN, wireless and other communications applications. Through its relationship with OFS, CommScope has an ownership interest in one of the world's largest producers of optical fiber and cable and has access to a broad array of connectivity components as well as technologically advanced optical fibers, including the zero water peak optical fibers used in the production of the LightScope ZWP (TM) family of products.

(Minimum requirements to listen to the broadcast and replay on the Internet: The Windows Media Player software, downloadable free from <http://www.microsoft.com/windows/windowsmedia/EN/default.asp>, and at least a 28.8Kbps connection to the Internet. If you experience problems listening to the broadcast, send an email to [webcastsupport@tfprn.com](mailto:webcastsupport@tfprn.com).)

This press release contains forward-looking statements regarding sales, outlook and expectations for CommScope and OFS BrightWave that are based on information currently available to management, management's beliefs and a number of assumptions concerning future events. Forward-looking statements are not a guarantee of performance and are subject to a number of uncertainties and other factors, which could cause the actual results to differ materially from those currently expected. The potential risks and uncertainties that could cause actual results to differ materially include, but are not limited to, expected demand from Comcast Corporation and other major domestic MSOs, telecommunications industry capital spending; industry consolidation; ability of our customers to secure adequate financing to fund their infrastructure projects or to pay us; industry excess capacity; changes or fluctuations in global economic conditions; financial performance of OFS BrightWave; competitive pricing and acceptance of our products; our ability to obtain financing and capital on commercially reasonable terms; covenant restrictions imposed on us by our revolving credit facility; possible future impairment charges; changes in cost and availability of key raw materials; successful operation of bimetal manufacturing and other vertical integration activities; successful expansion and related operation of our facilities; developments in technology; intellectual property protection; industry competition and the ability to retain customers; regulatory changes affecting our industries; acquisition activities; possible disruption due to customer or supplier bankruptcy reorganization or restructuring; terrorist activity or armed conflict and other factors. For a more detailed description of factors that could cause such a difference, please see CommScope's filings with the Securities and Exchange Commission. In providing forward-looking statements, the Company does not intend, and is not undertaking any duty or obligation, to update these statements as a result of new information, future events or otherwise.
