Retirement Savings and Employee Stock Ownership Plan (the Plan) as of December 31, 2006 and 2005 and the related statement of changes in net assets available for benefits for the year ended December 31, 2006. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

misstatement. The Plan is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control over financial reporting. Accordingly, we express no such opinion. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2006 and 2005, and the changes in net assets available for benefits for the year ended December 31, 2006 in conformity with accounting principles generally accepted in the United States of America.

Our audits were conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplemental schedules of the Plan, as listed in the table of contents, is presented for the purpose of additional analysis and is not a required part of the basic financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The supplemental information is the responsibility of the Plan's management. The supplemental information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

Notes to Financial Statements

December 31, 2006 and 2005

1. Description of the Plan

The Donaldson Company, Inc. Retirement Savings and Employee Stock Ownership Plan (the Plan) is a contributory defined contribution plan sponsored by Donaldson Company, Inc. (the Company). The Plan is subject to the applicable provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA).

The following description of the Plan is provided for general information purposes only. Participants should refer to the summary plan description for a more complete description of the Plan's provisions.

Fidelity Management Trust Company is the Plan's trustee (the Trustee) and recordkeeper.

Eligibility

All regular full-time and part-time employees are eligible to participate in the Plan upon employment, as defined by the Plan document. Employees covered by a labor agreement are not eligible for any Company contributions.

Contributions

Each year, eligible participants may contribute to the Plan up to 25% of pre-tax annual compensation, as defined by the Plan. Participants may also contribute amounts representing rollover distributions from other qualified retirement plans with the approval of the Administrative Committee. Participants over age 50 may contribute an additional catch up contribution.

Under the terms of the Plan, the Company makes fixed matching contributions and could make discretionary contributions to the Plan. Company contributions are made in cash or through submission of shares of common stock of the Company. Any cash contributions are invested directly in common stock of the Company.

The Company made matching fixed contributions to the Plan based on participant contributions into the Plan. Fixed matching contributions were calculated at 100% of up to 3% of compensation deferred by the participant and deposited into the Plan and 50% of the next 2% of compensation deferred by participants and deposited into the Plan.

The Company may make discretionary contributions to the Plan from time to time. Discretionary contributions are allocated among the participants pro rata based upon the total annual compensation of participants who have 1,000 hours of service in the Plan year and are in employment of the Company on the last day of the Plan year. Subsequent to each Plan year end, the Company made a discretionary contribution of \$1,575,389 and \$740,637 for the Plan years ended December 31, 2006 and 2005, respectively.

Participant Accounts

Participants direct the investment of their contributions into various investment options offered by the Plan. If a participant does not allocate their contributions, the contributions are placed in the Fidelity Managed Income Portfolio II Fund. Company contributions are allocated in the Donaldson Company, Inc. common stock fund.

The allocation of the participant's contributions to the investment funds may be changed daily. There are no restrictions on transfers among or between the various investment options for employee contributions. Each participant's account is credited with his or her contributions, including rollover distributions, and his or her share of Company contributions, and an allocation of related investment earnings thereon. Allocation of investment earnings is based on the value of the participant's account at the close of each day. Participants can transfer Company contributions out of Donaldson Company, Inc. common stock fund to other investment funds after they have five years of service with the Company. Effective March 31, 2006 the Plan was amended to allow participants to transfer Company contributions out of Donaldson stock at any time.

Loans must be repaid by the participant within five years, unless the loan is used to acquire the participant's primary residence in which case the term may not exceed ten years. The loan interest is one percent over the prime lending rate on the first day of the Plan year (January 1) coinciding with the year in which the loan is granted. Interest rates on outstanding loans at December 31, 2006, ranged from 5% to 10.5%. Loans mature at various dates through August 2016 and are generally paid through payroll deductions.

2. Summary of Significant Accounting Policies

The accompanying financial statements have been prepared on an accrual basis. The following is a summary of significant policies which are in conformity with accounting principles generally accepted in the United States of America and are consistently followed by the Plan in the preparation of its financial statements.

Valuation of Investments

Investments in mutual funds are stated at fair value based on quoted market prices. Investments in the Donaldson Company, Inc. common stock fund are valued based on the fair value of the underlying investments, primarily Donaldson Company, Inc. common stock, which is valued at quoted market prices. Investments in the common / collective trust are valued at contract value, which approximates fair value. Participant loans are valued at estimated fair value, which consists of outstanding principal and any related accrued interest.

Investment Earnings

Investment income is recorded as earned. Dividend income is recorded on the ex-dividend date. The Plan presents the net appreciation in the fair value of its investments in the Statement of Changes in Net Assets Available for Benefits. Net appreciation consists of the realized gains or losses and the unrealized appreciation (depreciation) on those investments.

Contributions

Participant contributions and Company matching contributions are recorded in the period the employer makes the payroll deductions. Company discretionary contributions, if any, are recorded in the period which they were declared.

Benefits Paid to Participants

Benefits paid to participants are recorded when paid.

December 31, 2006 and 2005

Plan Expenses

Investment management fees and administrative fees charged by the Trustee are paid by the Plan. All other expenses are paid by the Company, including legal, accounting and other services.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits at the date of the financial statements and the reported amounts of changes in net assets available for benefits during the reporting period. Ultimate results could differ from those estimates.

Risks and Uncertainties

The Plan provides for various investment options in various combinations of investment securities. Investment securities are exposed to various risk factors including, but not limited to, interest rates, market conditions and credit risks. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statement of Net Assets Available for Benefits in future periods.

Concentration of Market Risk

At December 31, 2006 and 2005, approximately 56% and 60% of the Plan's net assets available for benefits were invested in the Donaldson Company, Inc. common stock fund, respectively. The underlying value of this fund is dependent on the performance of Donaldson Company, Inc. and the market's evaluation of such performance. It is at least reasonably possible that changes in the fair value of Donaldson Company, Inc. common stock in the near term could materially affect participants' account balances and the amounts reported in the Statement of Net Assets Available for Benefits and the Statement of Changes in Net Assets Available for Benefits in future periods.
