## Edgar Filing: TRW INC - Form 425

Sales Up 106 Percent

Segment Operating Margin Increases 81 Percent

Confirms 2002 Guidance of \$6.60 - \$7.10 EEPS

LOS ANGELES -- April 17, 2002 -- Northrop Grumman Corporation (NYSE: NOC) today reported first quarter 2002 net income of \$149 million, or \$1.27 per share, compared with net income of \$132 million, or \$1.81 per share, for the same period of 2001, adjusted for SFAS No. 142 - Goodwill and Other Intangible Assets. The comparable per share decline reflects a substantial decrease in pension income and increases in interest expense and in the number of shares outstanding. On an economic earnings basis, the company reported increased earnings of \$170 million, or \$1.45 per share, compared with \$101 million, or \$1.39 per share, for the same period of 2001. First quarter 2002 earnings per share are based on average diluted shares outstanding of 112.8 million versus 72.8 million for the first quarter of 2001.

"We are very pleased with our first quarter results which reflect the contributions of last year's three strategic acquisitions, coupled with strong organic growth and

earnings," stated Kent Kresa, Northrop Grumman chairman and chief executive officer. "Northrop Grumman is now the nation's third-largest defense contractor, with a powerful portfolio of industry-leading businesses and key technologies. With the strength and diversity of this portfolio, we expect to continue to benefit from the nation's highest defense budget in recent years. We are reaffirming our 2002 financial guidance targets and our expectations for double-digit revenue and economic earnings growth in 2003."

Kresa added, "We are excited about our proposed acquisition of TRW. Its space and satellite business perfectly complements our defense capabilities. Based on our demonstrated ability to successfully integrate acquired companies, we expect a completed transaction will lead to enhanced value for our shareholders."

Dr. Ronald D. Sugar, Northrop Grumman president and chief operating officer, commented, "Our team has again demonstrated its expertise in seamlessly integrating new businesses into Northrop Grumman. With our April 1 announcement of the completion of the integration of Newport News Shipbuilding, all three of the company's 2001 acquisitions have been successfully completed. With this behind us, we are in an excellent position to focus our attention on the integration of TRW later this year, should our offer be successful.

"We remain focused on execution in all of our businesses. Our first quarter results reflect strong operating performance from five of our six sectors. Component Technologies, our smallest sector, continues to be negatively affected by the downturn in the telecommunications market," Sugar added.

Effective Jan. 1, 2002, the company adopted the provisions of SFAS No.142 eliminating the amortization of goodwill. As a result, all 2001 and 2002 discussions of operating results exclude goodwill amortization. Further details are contained in the Additional Financial Information section. The company is

evaluating and analyzing other provisions of SFAS No. 142 and expects to complete these reviews during 2002.

NORTHROP GRUMMAN REPORTS  
-----  
FIRST QUARTER 2002 RESULTS  
-----

The 2002 first quarter results include the operations of Litton Industries, Inc. (Litton), acquired in the second quarter of 2001 and Newport News Shipbuilding, Inc. (Newport News) and the Electronics and Information Systems Group of Aerojet General (EIS), both acquired in the fourth quarter of 2001. These acquisitions are important components of the increase in sales, operating margin and net income for the 2002 first quarter compared with the first quarter of 2001.

Sales for the first quarter more than doubled to \$4.1 billion from \$2.0 billion reported for the first quarter of 2001. Northrop Grumman's operating margin for the quarter increased 39 percent to \$313 million from an adjusted \$225 million in the same period a year ago. The 2002 first quarter operating margin included \$24 million of pension income, significantly lower than the \$69 million reported in the first quarter of 2001. The company said that pension income for 2002 is expected to total \$95 million compared with \$337 million reported for 2001.

Sales at Electronics Systems in the 2002 first quarter increased 76 percent to \$1.2 billion from \$701 million for the same period of 2001, including a 16 percent increase in organic sales. Operating margin for the quarter was \$99 million compared to 2001 first quarter adjusted operating margin of \$53 million. The sales and margin increases reflect the contributions by Litton's electronics businesses and EIS.

Ships, which includes the financial results of the Newport News and Ship Systems sectors, generated sales of \$1.1 billion and operating margin of \$79 million for the first quarter of 2002. Although Newport News is now operating as a separate Northrop Grumman sector, the company has aggregated Newport News and Ship Systems results for financial reporting purposes.

Information Technology reported sales of \$929 million in the quarter ended March 31, 2002, an increase of 58 percent over the same period a year ago. The sales

growth was driven by businesses added in the Litton acquisition. Operating margin was \$50 million in the quarter, up from an adjusted \$34 million in the first quarter of 2001.

## Edgar Filing: TRW INC - Form 425

Sales for Integrated Systems increased 10 percent to \$807 million for the 2002 first quarter compared with \$733 million for the same period a year ago, reflecting higher B-2 and unmanned vehicle sales. Operating margin for the 2002 first quarter increased 6 percent to \$93 million from an adjusted \$88 million in the comparable year ago period.

Component Technologies reported 2002 first quarter sales of \$125 million and an operating loss of \$4 million. Component Technologies' operating margin continued to be adversely impacted by the downturn in the telecommunications industry. Looking ahead, the sector remains well positioned to capitalize on a market turnaround. Component Technologies continues to generate solid performance in its non-telecommunications business.

Contract acquisitions increased to \$5.8 billion for the first three months of 2002 from \$2.2 billion reported for the same period a year ago. For the first quarter 2002, the company's Electronics Systems segment reported contract acquisitions of \$1.5 billion reflecting the inclusion of Litton and EIS businesses and higher F-22 funding in the combat avionics business area. Ships reported contract acquisitions of \$1.8 billion resulting from the funding of Virginia-class submarines and refueling and overhaul of the carrier USS Enterprise. Information Technology reported contract acquisitions of \$1.1 billion, principally in the government information technology business area. Integrated Systems reported \$1.3 billion in contract acquisitions, reflecting higher F/A-18E/F and unmanned vehicle systems funding. Component Technologies reported \$129 million in contract acquisitions. The company's business backlog at March 31, 2002, was \$22.4 billion, more than double the \$10.3 billion reported a year earlier.

### NORTHROP GRUMMAN REPORTS

#### FIRST QUARTER 2002 RESULTS

In the first quarter of 2002 the company used cash from operations of \$99 million compared with a use of \$33 million for the same period last year.

Northrop Grumman's net debt at March 31, 2002, was \$5.4 billion, up from the \$5.0 billion reported at Dec. 31, 2001, reflecting in part cash expenditures to complete the Newport News acquisition. Interest expense for the first quarter increased to \$109 million from \$47 million reported in the 2001 first quarter, as a result of the company's financing activities related to the acquisitions of Litton, Newport News and EIS. Debt to total capital was 40 percent at the end of the first quarter.

As previously announced, the company has issued an exchange offer to purchase all of the outstanding stock of TRW.

There can be no assurance that such a transaction will be completed.

Northrop Grumman Corporation is an \$18 billion, global aerospace and defense company with its worldwide headquarters in Los Angeles. Northrop Grumman provides technologically advanced, innovative products, services and solutions in defense and commercial electronics, systems integration, information technology and nuclear and non-nuclear shipbuilding and systems. With 100,000 employees and operations in 44 states and 25 countries, Northrop Grumman serves U.S. and international military, government and commercial customers.
