ITEM 2. ACQUISITION OR DISPOSITION OF ASSETS.

On October 25, 2001 (the "Closing Date"), Bio-Imaging Technologies, Inc., a Delaware corporation (the "Company"), consummated the acquisition (the "Acquisition") of assets of the Intelligent Imaging business ("Intelligent Imaging") of Quintiles, Inc., a North Carolina corporation and wholly-owned subsidiary of Quintiles Transnational Corp. ("Quintiles"). Intelligent Imaging specializes in providing digital medical imaging services for clinical trials and the health care industry, a line of business the Company intends to continue. In the Acquisition, the Company acquired substantially all of the

assets of Intelligent Imaging and assumed certain liabilities of Intelligent Imaging pursuant to the terms and conditions of the Asset Purchase Agreement, dated as of October 25, 2001, by and between the Company and Quintiles (the "Asset Purchase Agreement"). The description and defined terms, unless otherwise indicated, contained in this Item 2 of the transactions consummated pursuant to the Asset Purchase Agreement is qualified in its entirety by reference to the full text of the Asset Purchase Agreement, a copy of which is attached to this Report as Exhibit 2.1 and is incorporated by reference herein.

The assets acquired included Intelligent Imaging's customer contracts, equipment, permits, leases and proprietary rights. In consideration for the assets purchased, the Company made payment to Quintiles of an aggregate purchase price consisting of \$1,000,000 in the form of an unsecured, subordinated convertible promissory note, dated as of October 25, 2001, made by the Company payable to Quintiles (the "Note") in the principal amount equal to \$1,000,000 with interest per annum equal to the rate in effect on the business day immediately prior to the date on which payments are due under the Note equal to the Three-Month London Interbank Offering Rate as published from time to time in the Wall Street Journal plus 300 basis points, compounded annually based on a 365-day year. The Note, which is payable in quarterly installments with respect to fifty percent (50%) of the aggregate principal amount together with all outstanding interest, matures thirty-six (36) months from the Closing Date and is convertible by Quintiles any time prior to maturity into a maximum number of 1,103,753 shares of the Company's common stock, \$.00025 par value (the "Common Stock"). The number of shares of Common Stock into which the Note may be converted could be less than 1,103,753, depending on the market price per share of the Common Stock on the date of conversion, and the outstanding principal balance as of any such conversion. A copy of the Note is filed as Exhibit 4.1 hereto and is incorporated by reference herein. The Company may pay Additional Consideration in accordance with the provisions as set forth in the Asset Purchase Agreement (the maximum number of shares to be issued to Quintiles pursuant to such provision is 646,247 shares of Common Stock which is to be paid out, in no event, later than February 15, 2003). The Company also assumed certain liabilities of Intelligent Imaging, including all obligations of Intelligent Imaging arising after the Closing under certain contracts and unearned income reflected on the closing balance sheet, except for certain retained liabilities.

The principles followed in determining the amount of consideration paid in the Acquisition were based upon negotiations between unaffiliated parties and, among other factors: (i) the financial and operating performance and prospects of the Company after giving effect to the Acquisition; (ii) the proposed tax and accounting treatment to be accorded the Acquisition; (iii) the value and composition of Intelligent Imaging's assets; and (iv) the financial statements and other relevant financial and operating data of Intelligent Imaging. Prior to the Acquisition,
