ALTRIS SOFTWARE, INC.

CONDENSED NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

Note 1 Basis of Presentation

The information contained in the following Condensed Notes to the Consolidated Financial Statements is condensed from that which would appear in the annual consolidated financial statements; accordingly, the consolidated financial statements included herein should be read in conjunction with the consolidated financial statements and related notes thereto contained in the Company's Transition Report on Form 10-K for the transition period ended September 30, 2000. It should be understood that the accounting measurements at an interim date inherently involve greater reliance on estimates than at year-end. The results of operations for the interim periods presented are not necessarily indicative of the results expected for the entire year.

Edgar Filing: ALTRIS SOFTWARE INC - Form 10-Q

The accompanying consolidated balance sheet of the Company as of March 31, 2001 and the consolidated statements of operations and of cash flows for the six month periods ended March 31, 2001 and 2000 are unaudited. The consolidated financial statements and related notes have been prepared in accordance with generally accepted accounting principles applicable to interim periods. In the opinion of management, the consolidated financial statements reflect all adjustments, consisting only of normal recurring adjustments, necessary for a fair presentation of the consolidated financial position, operating results and cash flows for the periods presented.

The consolidated financial statements include the accounts of the Company and its wholly owned subsidiaries. All significant intercompany balances and transactions have been eliminated. In 2000, the Company changed its fiscal year end from December 31 to September 30.

Note 2 Statement of Cash Flows

For the six months ending March 31, 2001, the following assets and liabilities have been excluded from the cash flow statement (see Note 3):

Accounts receivable, net	\$ 736,000
Other assets	26,000
Property and equipment, net	103,000
Accounts payable	(192,000)
Accrued liabilities	(228,000)
Deferred revenue	(613,000)
	(168,000)
Net liabilities assumed	\$ (168,000)

The following is additional cash flow information:

	For the six months ended March 31,	
	2001	2000
Supplemental cash flow information:		
Interest paid	\$ 3,000	\$ 349,000
Schedule of noncash financing activities:		
Accretion of dividends on mandatorily redeemable convertible preferred stock	\$	\$ 420,000
Conversion of loan to common stock	\$	\$ 500,000

Note 3 Spescom Transaction and Related Parties

In May 1999, the Company completed a transaction with Spescom Ltd. ("Spescom"), whereby Spescom acquired a 60% ownership interest in the Company's former United Kingdom subsidiary, Altris Software Ltd. ("ASL"). In April 2000, the Company sold its remaining 40% ownership in ASL to Spescom. For the three months ended December 31, 2000, the Company recognized a gain of \$125,000, which it had previously deferred relating to potential warranty claims arising from the sale of ASL.

In the first quarter of fiscal 2001, the Company acquired certain assets and liabilities of Spescom Ltd. U.K. (formerly ASL) along with Spescom Ltd. U.K.'s document management business. Spescom UK is a wholly owned subsidiary of Spescom, which became the majority shareholder in the Company in April 2000. This business is now operated as a wholly-owned subsidiary, Spescom KMS. Prior to the acquisition, Spescom KMS had been the Company's exclusive distributor of the Company's eB product suite outside North, Latin and South America. In exchange for the assets and the assumption of certain liabilities, the Company issued 550,000 shares of its common stock to Spescom. The net liabilities assumed of \$168,000 were recorded as a charge against common stock.

In November 2000 Spescom licensed software from the Company totaling \$530,000. Under a royalty arrangement, Spescom also resells certain of the Company's software. The Company recognized royalty revenue of \$30,000 and \$38,000 for the three and six months ended

Edgar Filing: ALTRIS SOFTWARE INC - Form 10-Q

March 31, 2001. No royalties were earned during the comparable periods of the prior year. As of March 31, 2001 and 2000, the Company had a liability to Spescom of \$86,000 and \$0, respectively. The Company purchased consulting services from Spescom totaling \$6,000 and \$52,000 for the three and six months ending March 31, 2001 compared to \$0 for the three and six months ending March 31, 2000.

Note 4 Receivables

Receivables consist of the following:

	March 31, 2001	September 30, 2000
Billed receivables	\$ 1,617,000	\$ 510,000
Unbilled receivables	79,000	56,000
Less allowance for doubtful accounts	(103,000)	(68,000)
	\$ 1,593,000	\$ 498,000

Note 5 Reconciliation of Net Income (Loss) and Shares Used in Per Share Computations:

Basic net income (loss) per common share is computed as net income (loss) plus accretion of dividends on mandatorily redeemable convertible preferred stock divided by the weighted average number of common shares outstanding during the period. Diluted net income (loss) per common share is computed as net income (loss) divided by the weighted average number of common shares and potential common shares, using the treasury stock method, outstanding during the period and assumes conversion into common stock at the beginning of each period of all outstanding shares of convertible

7

preferred stock. Computations of basic and diluted earnings per share do not give effect to individual potential common stock instruments for any period in which their inclusion would be anti-dilutive.

	For the three months ended March 31,		For the six months ended March 31,	
	2001	2000	2001	2000
Net Income (Loss) Used:				
Net income (loss)	\$ (87,000)	\$ (565,000)	\$ 38,000	\$ (1,177,000)
Accretion of dividends on mandatorily redeemable convertible preferred stock		(105,000)		(420,000)
		(652,000)		(1,597,000)
Net income (loss) used in computing basic and diluted net income (loss) per share	\$ (87,000)	\$ (670,000)	\$ 38,000	\$ (1,597,000)
Shares Used:				
Weighted average common shares outstanding used in computing basic net income (loss) per common share	30,841,000	13,122,000	30,743,000	12,512,000
Weighted average common shares outstanding used in computing diluted net income (loss) per common share	30,841,000	13,122,000	31,112,000	12,512,000

Edgar Filing: ALTRIS SOFTWARE INC - Form 10-Q

Based on the above table, the basic and diluted loss per share is \$(0.0028) for the three months ending March 31, 2001. For the six months end March 31, 2001 the basic and diluted earnings per share is \$.0012. For financial statement presentation purposes we have rounded the basic and diluted earnings per share for the three and six months ended March 31, 2001 to \$0.00.

Note 6 Segment and Geographic Information

The Company has one business segment which consists of the development and sale of a suite of client/server document management software products.

Revenues by customer location are as follows:

	For the three months ended March 31,		For the six months ended March 31,	
	2001	2000	2001	2000
United States	\$ 2,077,000	\$ 1,576,000	\$ 3,422,000	\$ 3,139,000
Europe, primarily United Kingdom	1,175,000	87,000	2,128,000	168,000
Other International	57,000	4,000	660,000	16,000
	\$ 3,309,000	\$ 1,667,000	\$ 6,210,000	\$ 3,323,000

8

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

THREE AND SIX MONTHS ENDED MARCH 31, 2001 COMPARED WITH THREE AND SIX MONTHS ENDED MARCH 31, 2000.

This report contains forward-looking statements within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934. These forward-looking statements are subject to certain risks and uncertainties that could cause actual results to differ materially from historical results or anticipated results, including those set forth under "Certain Factors That May Affect Future Results" below and elsewhere in, or incorporated by reference into, this report.

Revenues

Revenues for the three and six months ended March 31, 2001 were \$3,309,000 and \$6,210,000, respectively, as compared to \$1,667,000 and \$3,323,000 for the three and six months ended March 31, 2000.

For the three months ended March 31, 2001 revenues consisted of \$1,487,000 (45%) in software licenses and \$1,822,000 (55%) related to services and other revenue. This compares to software license revenues of \$240,000 (14%) and services and other revenue of \$1,427,000 (86%) for the three months ended March 31, 2000. For the six months ended March 31, 2001 revenues consisted of \$2,868,000 (46%) in software licenses and \$3,342,000 (54%) related to services and other revenues. This compares to \$653,000 (20%) in software licenses and \$2,670,000 (80%) related to services and other revenue for the six months ended March 31, 2000.

Software license revenues increased \$1,247,000 and \$2,215,000 for the three and six month periods ended March 31, 2001 over the three and six month periods ended March 31, 2000. The increases are due primarily to additional new sales of the Altris eB product by Altris's United Kingdom wholly owned subsidiary, Spescom KMS Ltd., which was acquired by the Company in the quarter ended December 31, 2000 and whose results have been consolidated with the Company from October 1, 2000.

Revenues generated from services increased \$395,000 and \$672,000 for the three and six month periods ended March 31, 2001 over the three and six month periods ended March 31, 2000. The increase is attributed to the additional fees being generated by Spescom KMS.

A small number of customers have typically accounted for a large percentage of the Company's annual revenue. No customer accounted for more than 10% of total revenue for the six months ended March 31, 2001. One consequence of this dependence has been that revenue can

Edgar Filing: ALTRIS SOFTWARE INC - Form 10-Q

fluctuate significantly on a quarterly basis. The Company's reliance on relatively few customers could have a material adverse effect on the results of its operations on a quarterly basis. Additionally, a significant portion of the Company's revenues has historically been derived from the sale of systems to new customers.

Cost of Revenues

Gross profit as a percentage of revenue was 53% and 55% for the three and six month periods ended March 31, 2001, compared to gross profit percentages of 39% and 40% for the three and six month periods ended March 31, 2000. Gross profit consists of gross profit from licenses and gross profit from services and other. The increase in gross profit for the three and six months ended March 31, 2001 from the three and six months ended March 31, 2000 was due to the increased gross profit from licenses.

Cost of license revenues consists of costs associated with reselling third-party software products and amortization of internal software development costs. Gross profit from license revenues as a

9

percentage of license revenues was 69% and 72% for the three and six months ended March 31, 2001, compared to a negative 15% and positive 13% for the three and six months ended March 31, 2000. The improvement in gross profit from licenses for the three and six months ended March 31, 2001, is the result of an increased volume of eB software sales. Additionally, eB sales were a greater percentage of license revenue for the three and six months ended March 31, 2001 than in the three and six months ended March 31, 2000, when third party software sales accounted for a larger proportion of sales. The largest expense in the cost of license revenue is the fixed cost of software amortization, which results in improved gross profit margin as the volume of eB sales increases.

Cost of services and other revenues consists primarily of personnel-related costs in providing consulting services, training to customers and support. It also includes costs associated with reselling third-party hardware and maintenance. Gross profit from services and other revenue as a percentage of services and other revenue was 39% and 40% for the three and six months ended March 31, 2001, compared to 48% and 47% for the three and six periods ended March 31, 2000. The decreases in gross profit from services and other revenues during the three and six month periods was due principally to the additional expenses from Spescom KMS. These additional expenses consisted of personnel costs associated with consulting services and support.

The Company's software and services are sold at a significantly higher margin than third party products which are resold at a lower gross profit percentage in order for the Company to remain competitive in the marketplace for such third party products. Gross profit percentages can fluctuate quarterly based on the revenue mix of Company software, services and third party software or hardware.

Operating Expenses

Research and development expense for the three and six months ended March 31, 2001 was \$453,000 and \$939,000 as compared to \$415,000 and \$931,000 for the three and six month periods ended March 31, 2000. The slight increase in research and development for the three and six months ended March 31, 2001 was due primarily to an increase in the number of personnel and associated costs.

Marketing and sales expense for the three and six months ended March 31, 2001 was \$1,032,000 and \$1,896,000 as compared to \$316,000 and \$629,000 for the three and six months ended March 31, 2000. The increase for the three and six months is due to the additional expenses from Spescom KMS. Additionally, expense increased due to additional personnel and associated costs, which relate to the increasing sales and marketing effort by the Company.

General and administrative expense was \$369,000 and \$711,000 for the three and six months ended March 31, 2001 as compared to \$341,000 and \$754,000 for the three and six month period ended March 31, 2000. The increase for the three months is due to the additional expenses from Spescom KMS. The decrease for the six months was primarily due to the reversal of a reserve the Company had established for a customer dispute.

The gain on the sale of an interest in a subsidiary was \$125,000 for the six months ended March 31, 2001 as compared to \$75,000 for the six months ended March 31, 2000. The increase is due to the recognition of a deferred gain, which originated from the sale of an interest in a subsidiary of the Company in the quarter ended June 30, 1999. See Note 3 of the Condensed Notes to the Consolidated Financial Statements.

Interest and other income was \$24,000 and \$38,000 for the three and six months ended March 31, 2001 as compared to \$1,000 and \$13,000 for the three and six months ended March 31, 2000. The increase for the three and six months is primarily due to additional interest earned from investments on higher cash balances in the current quarter and year.

Interest and other expense was \$3,000 and \$5,000 for the three and six months ended March 31, 2001 as compared to \$147,000 and \$296,000 for the three and six months ended March 31, 2000. The decrease for the three and six months is due to a lower debt balance as a result of the conversion of the Company's subordinated debt into common stock and pay-off of its banking facilities as part of the investment in the Company by Spescom Ltd. in April 2000. See Note 3 of the Condensed Notes to the Consolidated Financial Statements.

LIQUIDITY AND CAPITAL RESOURCES

At March 31, 2001, the Company's cash and cash equivalents totaled \$1,403,000 as compared to \$213,000 at March 31, 2000, and its current ratio was .5 to 1. For the quarter ended March 31, 2001, cash used in operating and investing activities totaled \$420,000, while cash provided by financing activities totaled \$3,000.

Management believes that the Company's current cash level, as well as additional cash that may be generated from its results of operations, will be sufficient to meet its short-term needs for working capital. The Company's future liquidity will depend to a material degree on its ability to generate new system sales of Altris eB in the near term, which cannot be assured.

Net Operating Loss Tax Carryforwards

As of September 30, 2000, the Company had a net operating loss carryforward ("NOL") for federal and state income tax purposes of \$21,504,000 and \$5,777,000, respectively, which expires over the years 2001 through 2020. In addition, the Company generated but has not used research and investment tax credits for federal income tax purposes of approximately \$1,150,000, which will substantially expire in the years 2001 through 2006. Under the Internal Revenue Code of 1986, as amended (the "Code"), the Company generally would be entitled to reduce its future Federal income tax liabilities by carrying unused NOL forward for a period of 15 years to offset future taxable income earned, and by carrying unused tax credits forward for a period of 15 years to offset future income taxes.

As a result of the issuances of shares of capital stock of the Company to Spescom Ltd. in the past, an additional ownership change occurred in April 2000. The Company's ability to utilize the consolidated NOL in future years will be limited under the Code due to this ownership change. The annual limitation is approximately \$1,293,000.

CERTAIN FACTORS THAT MAY AFFECT FUTURE RESULTS

Foreign Currency

The Company's geographic markets are primarily in the United States and Europe, with sales in other parts of the world. In the six months ended March 31, 2001, revenue from the United States, Europe and other locations in the world were 55%, 34% and 11%, respectively. This compares to 95%, 5% and 0%, respectively for the same period in 2000. The European currencies have been relatively stable against the U.S. dollar for the past several years. As a result, foreign currency fluctuations have not had a significant impact on the Company's revenues or results of operations. Changes in foreign currency rates, the condition of local economies, and the general volatility of software markets may result in higher or lower proportion of foreign revenues in the future. Although the Company's operating and pricing strategies take into account changes in exchange rates over time, there can be no assurance that future fluctuations in the value of foreign currencies will not have a material adverse effect on the Company's business, operating results and financial condition.

Inflation

The Company believes that inflation has not had a material effect on its operations to date. Although the Company enters into fixed-price contracts, management does not believe that inflation will have a material impact on its operations for the foreseeable future, as the Company takes into account expected inflation in its contract proposals and is generally able to project its costs based on forecasted contract requirements.
