Quorum, Required Votes and Method of Tabulation

Consistent with Massachusetts law and under the Company's by-laws, a majority in interest of all stock issued and outstanding and entitled to vote on a matter, present in person or represented by proxy, constitutes a quorum as to such matter. Votes cast by proxy or in person at the Annual Meeting will be counted by persons appointed by the Company to act as election inspectors for the Annual Meeting.

Edgar Filing: GENOME THERAPEUTICS CORP - Form DEF 14A

A majority of votes properly cast shall determine all matters other than elections to office, and the nominees for election as directors at the Annual Meeting who receive the greatest number of votes properly cast for the election of directors shall be elected directors. The election inspectors will count shares represented by proxies that withhold authority to vote for a nominee for election as a director, or that reflect abstentions or broker non-votes (i.e., shares represented at the Annual Meeting held by brokers or nominees as to which (i) instructions have not been received from the beneficial owners or persons entitled to vote and (ii) the broker or nominee does not have or does not exercise the discretionary voting power on a particular matter) only as shares that are present and entitled to vote on the matter for purposes of determining the presence of a quorum, but abstentions, broker non-votes and proxies that withhold authority to vote will not be counted as votes properly cast for purposes of determining the outcome of voting on any matter.

Employment Agreements

Steven M. Rauscher, President and Chief Executive Officer, has an employment agreement with the Company, which commenced on October 26, 2000. Mr. Rauscher's current base salary is \$384,300 per year plus compensation allowances of \$10,000, net of taxes. The agreement entitles Mr. Rauscher to receive an annual incentive of 0-40% of his base salary based on the Company's achievement of enhanced share value and certain operating and financial goals to be determined by the Board of Directors. Upon hiring, Mr. Rauscher received 24,000 shares of the Company's Common Stock that will vest in four equal annual installments of 6,000 shares on the anniversary of Mr. Rauscher's employment. These shares are subject to forfeiture to the Company in the event Mr. Rauscher's employment with the Company terminates under certain circumstances. On March 28, 2001, the Company loaned Mr. Rauscher \$163,000 to allow him to pay income tax liabilities associated with the grant of the 24,000 restricted shares. The loan bears interest at 4% per year and is payable in full on December 31, 2004 and may be extended to December 31, 2006 at the option of Mr. Rauscher, subject to certain conditions. The principal amount of the loan is non-recourse as it is secured only by the 24,000 shares of restricted stock, while the interest component of the loan is full recourse. In addition, Mr. Rauscher was awarded stock options to purchase 300,000 shares of Common Stock at an exercise price of \$14.44 per share, the fair market value of the Common Stock on the date of grant. These options will vest in four equal annual installments on the anniversary of employment. Mr. Rauscher was also awarded options to purchase 240,000 shares of Common Stock at an exercise price of \$14.44 per share, the fair market value of the Common Stock on the date of grant, which options also vest in four equal annual installments on the anniversary of his commencement of employment, but which can immediately vest in cumulative increments of 45,000, 45,000, 50,000 and 100,000 shares if the stock price closes at \$35, \$45, \$55 and \$60, respectively, for 10 of 20 consecutive trading days.

In the event that Mr. Rauscher's employment is terminated by the Company for reasons other than for cause, or terminates with good reason (as defined), the agreement provides for the continuation of all compensation and benefits for a period of up to 12 months, or until such time as he is re-employed, whichever occurs first. Also, if, within 2 years following a change of control (as defined) of the Company, Mr. Rauscher's

employment is

terminated other than for cause, or he experiences a material reduction in responsibilities or compensation, or is required to relocate out of the greater Boston area, he will receive salary and benefits continuation for a period of 18 months from the date of termination and any remaining unvested options and restricted shares will immediately and fully vest and become exercisable for a period equal to the shorter of two years and the remaining term of such options.

Stephen Cohen, Senior Vice President and Chief Financial Officer, has an employment agreement with the Company, which commenced on January 22, 2001. Mr. Cohen's current base salary is \$220,500 per year. The agreement entitles Mr. Cohen to receive an annual incentive of up to 30% of his base salary based on his performance and that of the Company against goals to be determined by the Board of Directors annually after consultation with Mr. Cohen. Upon hiring, Mr. Cohen was awarded stock options to purchase 75,000 shares of Common Stock at an exercise price of \$8.20 per share, the fair market value of the Common Stock on the date of grant, which options vest in four equal annual installments on the anniversary of his commencement of employment; provided, that, options to purchase up to 37,500 of the shares can immediately vest in cumulative increments of 7,125, 7,125, 8,145 and 15,105 shares if the stock price closes at \$35, \$45, \$55 and \$60, respectively, for 10 of 20 consecutive trading days. In lieu of a cash signing bonus, Mr. Cohen was awarded additional options to purchase 19,164 shares of Common Stock at an exercise price of \$2.46 per share, representing thirty percent of the fair market value of our Common Stock on the date of grant, which options vest in two equal installments on the anniversary of his employment.

In the event that Mr. Cohen's employment is terminated by the Company for reasons other than for cause, or he terminates it with good reason (as defined), the agreement provides for the continuation of all compensation and benefits for a period of up to 9 months, or until such time as he is re-employed, whichever occurs first. Also, if, within 2 years following a change of control (as defined) of the Company, Mr. Cohen's employment is terminated other than for cause, or he experiences a material reduction in responsibilities at the surviving company, or he is required to relocate out of the greater Boston area, he will receive salary and benefits continuation for a period of 12 months from the date of termination and any remaining unvested options will immediately and fully vest and become exercisable for a period equal to the shorter of two years and the remaining term of such options.

Richard Labaudiniere, Ph.D, Senior Vice President of Research and Development, has an employment agreement with the Company, which commenced on October 30, 2000. Dr. Labaudiniere's current base salary is \$260,800 per year. The agreement entitles Dr. Labaudiniere to receive an annual incentive of up to 30% of his base salary based on his performance and that of the Company against goals to be determined by the Board of Directors annually after consultation with Dr. Labaudiniere. Upon hiring, Dr. Labaudiniere was awarded options to purchase 4,500 shares of Common Stock at an exercise price of \$0.10 per share, of which 2,500 shares vested on the first anniversary of Dr. Labaudiniere's employment and 2,000 of which vested 18 months after the commencement of his employment. In addition, Dr. Labaudiniere was awarded options to purchase 75,000 shares of Common Stock at an exercise price of \$14.38 per share, the fair market value of the Common Stock on the date of the grant. These options vest in four equal annual installments of 18,750 shares on the anniversary of the commencement of his employment. Dr. Labaudiniere was also awarded options to purchase 25,000 shares of Common Stock that vest in four equal annual installments on the anniversary of the commencement of his employment, but which become exercisable on an accelerated basis subject to the Company's achieving certain product development goals in the judgment of the Board of Directors. The exercise price for these options is \$14.38 per share, the fair market value of the Common Stock on the date of the grant.

If Dr. Labaudiniere's employment is terminated by the Company for reasons other than for cause, or he terminates it with good reason (as defined), the agreement provides for the continuation of all compensation and

benefits for a period of up to 9 months, or until such time as he is re-employed, whichever occurs first. Also, if, within 2 years following a change of control (as defined) of the Company, Dr. Labaudiniere's employment is terminated other than for cause, or he experiences a material reduction in responsibilities at the surviving company, or he is required to relocate out of the greater Boston area, he will receive salary and benefits continuation for a period of 12 months from the date of termination and any remaining unvested options will immediately and fully vest and become exercisable for a period equal to the shorter of two years and the remaining term of such options.

Martin D. Williams, Senior Vice President, Corporate Development & Marketing, has an employment agreement with the Company, which commenced on July 30, 2001. Mr. Williams' current base salary is \$250,000 per year. The agreement also entitles Mr. Williams to receive an annual incentive of up to 30% of his base salary based on achievement of corporate and mutually agreed upon personal goals. In addition, upon hiring, Mr. Williams received a signing bonus in the form of options to purchase 3,646 shares of the Company's Common Stock, of which 1,823 shares vested on the date of grant and the remaining 1,823 shares vested 12 months from the date of Mr. Williams' commencement of employment. These options have an exercise price of \$3.53 per share, which equals 30% of the fair market value of the Common Stock on the date of grant. Mr. Williams also received options to purchase 100,000 shares of Common Stock that will vest in four equal annual installments on the anniversary of the commencement of his employment, but 50,000 of these shares may vest on an accelerated basis, subject to Stock Option and Compensation Committee approval, upon the attainment of certain goals. The exercise price for these options is \$11.76 per share, the fair market value of the Common Stock on the date of grant.

If Mr. Williams' employment is terminated by the Company for reasons other than for cause, or he terminates it with good reason (as defined), the agreement provides for the continuation of all compensation and benefits for a period of up to 9 months, or until such time as he is re-employed, whichever occurs first. Also, if, within 2 years following a change of control (as defined) of the Company, Mr. Williams' employment is terminated other than for cause, or he experiences a material reduction in responsibilities or compensation at the surviving company, or he is required to relocate out of the greater Boston area, he will receive salary and benefits continuation for a period of 12 months from the date of termination and any remaining unvested options will immediately and fully vest and become exercisable for a period equal to the shorter of two years and the remaining term of such options.

Robert J. Hennessey, Chairman of the Board, and former Chief Executive Officer of the Company, had an employment agreement with the Company, which agreement commenced on May 1, 2001 and will terminate upon his retirement in April 2003. Under the agreement, Mr. Hennessey devoted 25% of his business time working with the Chief Executive Officer and other employees of the Company on business development projects. The agreement provided Mr. Hennessey with an annual base salary of \$100,000 subject to review semi-annually by the Chief Executive Officer based upon Mr. Hennessey's duties and responsibilities. Of this amount, options to purchase an aggregate 630,000 shares of Common Stock remain outstanding.

Mr. Hennessey recently entered into an agreement with the Company concerning his retirement as an employee of the Company effective April 1, 2003. This agreement supercedes Mr. Hennessey's previous employment agreement with the Company described above. The retirement agreement extends the period in which Mr. Hennessey may exercise outstanding options to purchase an aggregate 630,000 shares of Common Stock at an exercise price of \$1.63 per share. These options were originally set to expire on March 15, 2003.

Under the agreement, Mr. Hennessey's options expire as follows: 157,500 shares expire on September 30, 2003 and 78,750 shares expire on each of December 31, 2003, March 31, 2004, June 30, 2004, September 30, 2004, December 31, 2004, and March 15, 2005, respectively.

Notwithstanding anything to the contrary set forth in any of the Company's previous filings under the Securities Act of 1933, as amended, or the Securities Exchange Act of 1934 that might incorporate future filings, including this Proxy Statement, in whole or part, the following Reports of the Stock Option and Compensation Committee and the Audit Committee and the Performance Graph on page 13 shall not be incorporated by reference into any such filings.

Compensation Philosophy and Goals

The Company's goal is to attract, retain, motivate, and reward its employees through the use of competitive compensation programs and policies, while aligning employee interests more closely with that of the Company and its shareholders. The Company's compensation philosophy is influenced by competitive dynamics and labor conditions as well as the financial position of the Company. With respect to the retention of management, the Company seeks to retain and reward the highest caliber management team by offering total-compensation solutions, which are comparable to those offered by its competitors, and promote performance-based compensation. To align the interests of employees more closely with those of the shareholders, the Company promotes equity based employee reward and recognition plans.

EXECUTIVE OFFICER COMPENSATION PROGRAM

The compensation of the executive officers of the Company consists of a combination of salary, performance bonuses, stock options contributions to or accruals for benefit plans, and participation in various other plans, such as the Company's 401(k) plan, as well as the provision of medical and other personal benefits typically offered to all employees. The Compensation Committee reviews the Company's executive compensation plans annually to ensure that total compensation plans and key elements therein are competitive with prevailing industry benchmark data of similar size companies and positions of comparable scope of responsibility. As part of the annual review process, the Committee considers recommendations presented by the Chief Executive Officer and considers achievement of predetermined performance goals for the preceding fiscal year and overall leadership and management performance for each executive prior to approval of executive compensation plans.

Base Salary

The Compensation Committee reviews base salary levels for the Company's executive officers on an annual basis. In accordance with the Company's pay philosophy, base salaries are set competitively relative to the compensation of executive officers of similar size companies in the same industry, and who have comparable levels of responsibility, experience, and expected level of contribution to company performance.

Annual Performance Bonuses

Under the Company's Management Incentive Plan, executives are eligible to receive a percentage of annual base salary in incentive pay based on attainment of performance goals as approved by the Compensation Committee. These goals fall into three primary categories: attainment of certain financial targets, business/scientific achievement, and development/management of the Company's human capital. In addition, these goals are weighted to reflect the importance and level of impact to the Company. Incentive bonuses are paid in cash and stock options of equivalent cash value at date of grant that vest over a defined period of time.

Long-Term Incentive Compensation

The Compensation Committee believes that the granting of new hire and annual stock options aligns executive officers' interests with those of the shareholders. Long-term incentive compensation, in the form of stock options, directly provides the executive officers a capital accumulation opportunity directly linked to Company and individual performance as measured by appreciation in the value of the Company stock, while also promoting retention and competitive pay practices. Stock options are granted in accordance with prevailing industry benchmark data for executives of similar size companies who hold positions of comparable scope of responsibility and in accordance with Company and overall individual performance.

The Audit Committee held six meetings during fiscal 2002. The duties of the Audit Committee consist of selection of the Company's independent audit firm, reviewing with the Company's independent auditors and its management the scope and results of the annual audit, the scope of other services provided by the Company's auditors, proposed changes in the Company's financial and accounting standards and principles, the Company's policies and procedures with respect to its internal accounting, auditing and financial controls, and making recommendations to the Board of Directors on the engagement of independent auditors. PROPOSAL B

APPROVAL OF AN AMENDMENT TO THE 2000 EMPLOYEE STOCK PURCHASE PLAN, AUTHORIZING AN INCREASE OF 250,000 SHARES OF COMMON STOCK RESERVED FOR ISSUANCE UNDER THE PLAN.

In the opinion of the Board of Directors, our future success depends, in large part, upon our ability to maintain a competitive position in attracting, retaining and motivating key employees. As of March 1, 2003, there were only 122,303 shares of Common Stock available for future purchase under our 2000 Employee Stock Purchase Plan (the "Stock Purchase Plan"). Unless the number of shares of Common Stock authorized for purchase under our the Stock Purchase Plan is increased, we may not have sufficient shares in the Stock Purchase Plan to keep it available to employees through the next annual meeting. Accordingly, the Board adopted, subject to stockholder approval, an amendment to the Stock Purchase Plan increasing the number of shares of Common Stock authorized for purchase under the Stock Purchase Plan by 250,000 shares.

Overview

On October 27, 1999, the Board of Directors adopted the Stock Purchase Plan, which was subsequently approved by our shareholders. Under the Stock Purchase Plan, eligible employees may authorize the Company to deduct amounts from their bi-weekly base salary, which amounts are used to enable the employees to exercise options (each an "Option") to purchase shares of Common Stock of the Company. The purpose of the Stock Purchase Plan is to attract and retain key personnel, and encourage stock ownership by the Company's employees.

The Company initially reserved 250,000 shares of the Company's Common Stock for issuance under the Stock Purchase Plan. On June 25, 2002, the Company's shareholders authorized the reservation of an additional 250,000 shares for issuance under the Stock Purchase Plan.

Summary of the Stock Purchase Plan

The following summary of the Stock Purchase Plan is qualified in its entirety by reference to the Stock Purchase Plan, a copy of which is attached as Exhibit 4(a) to the Registration Statement on Form S-8 filed with the SEC on July 26, 2002, and may be accessed electronically from the SEC's home page (www.sec.gov). In addition, a copy of the Stock Purchase Plan may be obtained from our Secretary.

Administration and Participation

The Stock Purchase Plan is administered by the Stock Option and Compensation Committee of the Board of Directors. All employees who, on the first day of an Option Period (as defined below), are scheduled to work at least 20 hours per week and who are expected to be employed for at least five months per year by the Company are eligible to participate in the Stock Purchase Plan, unless after the grant of their option such employee would be treated as owning 5% or more of the voting power or value of the stock of the Company (an "Eligible Employee"). As of March 1, 2003, the number of employees participating in the Stock Purchase Plan was approximately 50 persons.

An Eligible Employee may elect to become a participant (a Participant) in the Stock Purchase Plan by delivering to the Company, at least 15 days prior to the beginning of an Option Period, a form authorizing the Company to deduct an amount from his or her salary to exercise Options. The aggregate amount which an employee may authorize the Company to deduct under the Company's Stock Purchase Plan is not less than 1% nor more than 15% of the employee's bi-weekly base salary. Participants are allowed to increase or decrease the percentage of wages deducted once per quarter during the time the Option is outstanding. A Participant may suspend his or her contributions at any time.

Terms of Options

The periods for which Options may be granted are January 1 to June 30 and July 1 to December 30 of each year. Such periods are each Option Periods . Each Participant is granted an Option on the first day of the Option Period and such Option is deemed exercised if an Eligible Employee continues to be a Participant on the last day of the Option Period. For each Option Period, the maximum number of shares covered by an Option is that number having a fair market value of \$12,500 on the first day of the Option Period. The exercise price of an Option is 85% of the fair market value for the Common Stock (a) on the grant date or (b) at the time at which the Option is deemed exercised, whichever is less.

The Options are nontransferable, except in the case of death of the employee. If an employee dies, his or her beneficiary may withdraw the accumulated payroll deduction or use such deductions to purchase shares on the last day of the Option Period. If an employee ceases to be employed by the Company by reason of permanent disability or retirement or is on an approved leave of absence from the Company, such employee may request that his or her accumulated payroll deductions be used to purchase shares on the last day of the Option Period. If an employee ceases to be employed by the Company for any other reason, the Option held by him or her is deemed canceled and any of his or her accumulated payroll deductions is returned. A Participant may elect to discontinue participation at any time prior to the end of an Option Period and to have his or her accumulated payroll deduction refunded.

Shares Subject to the Stock Purchase Plan

Subject to shareholder approval of this proposal at this meeting, the number of shares that are reserved for issuance under the Stock Purchase Plan will be 750,000 shares of the Company's Common Stock, subject to adjustment for stock splits and similar events. The proceeds received by the Company from exercise under the Stock Purchase Plan will be used for the general corporate purposes of the Company. Shares issued under the Stock Purchase Plan may be authorized but unissued or shares reacquired by the Company and held in its treasury.

Amendment and Termination

The Stock Purchase Plan shall remain in full force and effect until suspended or discontinued by the Board of Directors. The Board of Directors may at any time or times amend or revise the Stock Purchase Plan for any purpose which may at any time be permitted by law, or may at any time terminate the Stock Purchase Plan, provided that no amendment that is not approved by our shareholders shall be effective if it would cause the Stock Purchase Plan to fail to satisfy the requirements of Rule 16b-3 (or any successor rule) of the Securities Exchange Act of 1934, as amended. No amendment of the Stock Purchase Plan may adversely affect the rights of any recipient of any option previously granted without such recipient's consent.

Effective Date of the Stock Purchase Plan

The Stock Purchase Plan became effective as of March 1, 2000 and continues to remain in force.

Federal Income Tax Considerations

Federal income tax is not imposed upon an employee in the year an option is granted or the year the shares are purchased pursuant to the exercise of the option granted under the Stock Purchase Plan. Federal income tax generally is imposed upon an employee when he or she sells or otherwise disposes of the shares acquired pursuant to the Stock Purchase Plan. If an employee sells or disposes of the shares more than two years from the grant date and more than one year from the exercise date, then Federal income tax assessed at ordinary rates will be imposed upon the amount by which the fair market value of the shares on the date of grant or disposition, whichever is less, exceeds the amount paid for the shares. In addition, the difference between the amount received by the employee at the time of sale and the employee's tax basis in the shares, (the amount paid on exercise of the option plus the amount recognized as ordinary income) will be recognized as a capital gain or loss. The Company will not be allowed a deduction under these circumstances for Federal income tax purposes. If the employee sells or disposes of the shares sooner than two years from the grant date or one year from the exercise date, then the difference between the fair market value on the last day of the Option Period and the amount paid for the shares will be taxed as ordinary income, and the Company would be entitled to a deduction equal to that amount. In addition, the difference between the amount realized on the disposition and the Participant's basis in the shares (the amount paid on exercise of the option plus the ordinary income recognized as a result of the disposition) will be recognized as a capital gain or loss.

OTHER MATTERS

Selection of Auditors

On June 24, 2002 the Company engaged Ernst & Young LLP as its independent public accountant, and dismissed Arthur Andersen LLP, Boston, Massachusetts, the firm engaged prior to such dismissal as the Company's independent public accountant. The decision to engage Ernst & Young LLP as the Company's independent public accountant and to dismiss Arthur Andersen LLP was approved by the Company's Audit Committee and the full Board of Directors.

For the period covered by Arthur Andersen's audit reports on Genome Therapeutics' financial statements for each of the fiscal years ended December 31, 2001 and 2000, the review of first quarter financials of 2002, and the subsequent interim period ended June 24, 2002, there were no disagreements with Arthur Andersen on any matter of accounting principles or practices, financial statement disclosure or auditing scope or procedure, which, if not resolved to the satisfaction of Arthur Andersen, would have caused them to refer to such disagreement in connection with their report.

We requested Arthur Andersen LLP furnish us a letter addressed to the Commission stating whether it agrees with the above statements. A copy of that letter, dated June 28, 2002, is filed as Exhibit 16.1 to the Company's Current Report on Form 8-K/A filed with the Commission on July 2, 2002. There were no other reportable events as that term is described in Item 304(a)(1)(v) of regulations S-K occurring during the fiscal years ended December 31, 2001 and 2000 or the subsequent interim period ended June 24, 2002.

During Genome Therapeutics' fiscal years ended December 31, 2001 and 2000 and the subsequent interim period ended June 24, 2002, we did not consult with Ernst & Young LLP with respect to the application of accounting principles to a specified transaction or the type of audit opinion that might be rendered on our financial statements.

A representative of Ernst & Young LLP will be present at the Annual Meeting to answer any shareholder's questions.

Audit Fees. In fiscal 2002, we incurred \$83,000 in professional fees from Ernst & Young LLP in connection with the audit of our 2002 financial statements, for the reviews of the financial statements included in our quarterly reports for the quarters ending June 30, 2002 and September 30, 2002 and other audit related services in connection with business acquisitions, accounting consultations, and SEC registration statements. In addition, we incurred \$37,650 in professional fees from Arthur Andersen LLP in connection with the audit of our 2001 financial statements, for the review of our quarterly report for the quarter ending March 31, 2002 and other audit related services in connection with business acquisitions, accounting consultations, and SEC registration statements.

Financial Information Systems Design and Implementation Fees. For 2002, neither Ernst & Young LLP nor Arthur Andersen LLP rendered any professional services for the Company in connection with Financial Information Systems Design and Implementation.

All Other Fees. For all other services, we incurred fees of \$10,670 from Ernst & Young LLP and \$14,500 in fees from Arthur Andersen LLP during the fiscal year ended December 31, 2002, primarily in connection with non-audit services associated with the preparation and filing of our tax statements.

Our Audit Committee has considered whether the provision of services to the Company by Ernst & Young LLP and Arthur Andersen LLP, respectively, beyond those rendered in connection with their audit and review of our financial statements was compatible with maintaining their independence. On the basis of the relevant facts and circumstances pertaining to the engagement of Ernst & Young LLP and Arthur Andersen LLP, respectively, by the Company in connection with their respective services in fiscal 2002, our Audit Committee believes that each of Ernst & Young LLP and Arthur Andersen LLP satisfied the requirements of independence from us.

Other General Matters

The Board of Directors knows of no other business to be presented at the meeting, but if other matters do properly come before the meeting, it is intended that the persons named in the proxy will vote in respect thereof in accordance with their best judgment.

In the event that sufficient votes in favor of any of the proposals set forth in the accompanying Notice are not received by the time scheduled for the meeting, the persons named as proxies may propose one or more adjournments of such meeting for a period of time of not more than 60 days in the aggregate to permit further solicitation of proxies with respect to any of such proposals. Any such adjournments will require the affirmative vote of a majority of the votes cast on the question in person or by proxy at the session of the meeting to be adjourned. The persons named as proxies will vote in favor of such adjournment those proxies that they are entitled to vote in favor of such proposals. They will vote against any such adjournment those proxies required to be voted against any of such proposals. The costs of any such additional solicitation and of any adjourned session will be borne by the Company.
