Dear Fellow Shareholders,

The stock market advanced for the second straight year, largely on the wings of a strong post-election rally that produced solid returns for the major indexes in 2004. For much of the year, the market was fairly dull, moving mostly sideways as investors worried about higher interest rates, sky-rocketing oil prices, the tight presidential election and the war in Iraq. With the election over and oil prices moderating, investors felt more confident, and the broad Standard & Poor's 500 Index wound up returning 10.88% for the year. The Dow Jones Industrial Average returned 5.40% and a late and strong rally in technology stocks helped the Nasdaq Composite Index move from a negative stance in October to finish the year with a 9.15% return. Despite the Federal Reserve's five hikes in short-term interest rates, bonds still turned in positive results, with the Lehman Brothers Aggregate Bond Index up 4.34%.

The way this year has played out in the financial markets serves as a good reminder of why keeping a long-term perspective is such a critical element of successful investing. Getting caught up in the day-to-day twists and turns of the market -- and trying to act on them -- can wreak havoc with your portfolio and derail progress toward meeting your overall financial objectives.

Since no one can predict the market's moves, the best way to reach your goals is to stay invested and stick to your plan. Investing should be a marathon, not a sprint. Do not try to time the market, and make sure you work with your investment professional to ensure that your portfolio remains properly diversified to meet your long-term objectives. For example, after several years of dominance, small-cap stocks and value stocks could now represent higher percentages of your portfolio than you may want. If you are comfortable with your financial plan, it becomes easier to ride out the market's daily ups and downs. It could also provide you with a greater chance of success over time.

Sincerely,

/S/ JAMES A. SHEPHERDSON

James A. Shepherdson,

Chief Executive Officer

YOUR FUND AT A GLANCE

The Fund seeks a high level of current income consistent with prudent investment risk by investing in a diversified portfolio of debt securities.

Over the last twelve months

- * Bonds rallied for the fifth straight calendar year despite solid economic growth and rising inflation.
- * Lower-quality corporate bonds and mortgage-backed securities posted the best results, while Treasury bonds lagged.
- * The Fund shifted to a more defensive position, with higher credit quality and reduced interest rate sensitivity.

[Bar chart with heading "John Hancock Investors Trust." Under the heading is a note that reads "Fund performance for the year ended December 31, 2004." The chart is scaled in increments of 10% with 0% at the bottom and 30% at the top. The first bar represents the fund's 6.52% Net asset value. The second bar represents the fund's 21.60% Market value. A note below the chart reads "The total returns for the Fund include the reinvestment of all distributions. The performance data contained within this material represents past performance, which does not guarantee future results."]

Edgar Filing: HANCOCK JOHN INVESTORS TRUST - Form N-CSR

MANAGERS' REPORT

JOHN HANCOCK
Investors Trust

The broad U.S. bond market gained ground overall in 2004 -- its fifth consecutive year of positive performance -- as solid gains in long-term bonds overcame declining prices in shorter-term securities. The U.S. economy, bolstered by improving job growth, expanded by approximately 4% in 2004, up from 3% growth the previous year. Inflation, as measured by the consumer price index, also picked up, increasing from 2% in 2003 to 3.5% in 2004. Although some of the higher inflation was the result of record-high oil prices, many segments of the economy -- especially housing and medical care -- also experienced noteworthy price increases.

In response, the Federal Reserve embarked on a series of interest rate increases in the second half of 2004. The Fed raised short-term interest rates five times between June and December, each time by a quarter point. As a result, the federal funds rate rose from a 46-year low of 1% to 2.25% by the end of the year. Yields on bonds maturing in five years or less followed suit, but longer-term bond yields declined, reflecting the bond market's confidence that the Fed's gradual rate increases will keep inflation in check and the economy growing at a moderate pace.

"The broad U.S. bond market
gained ground overall in
2004 -- its fifth consecutive
year of positive performance..."

For the year, the broad Lehman Brothers U.S. Aggregate Bond Index returned 4.34%. Every major sector of the bond market posted positive returns, but lower-quality, higher-yielding corporate bonds fared the best. The Lehman Brothers Corporate High-Yield Index returned 11.13% for the year as investors looked to maximize yield in a low-interest-rate environment. Mortgage-backed securities and investment-grade corporate bonds also produced solid results, while Treasury and government agency securities lagged.

Fund performance

For the year ended December 31, 2004, John Hancock Investors Trust produced a total return of 6.52% at net asset value and 21.60% at market value. The difference in the Fund's net asset value (NAV) performance and its market performance stems from the fact

2

that the market share price is subject to the dynamics of secondary market trading, which could cause it to trade at a discount or premium to the Fund's NAV share price at any time. For comparison, the average closed-end general bond fund returned 11.23% at net asset value, according to Lipper, Inc., while the Lehman Brothers Government/Credit Bond Index returned 4.19%.

Edgar Filing: HANCOCK JOHN INVESTORS TRUST - Form N-CSR

Playing defense

The main theme in the portfolio during the year was a shift toward a more defensive position in anticipation of rising interest rates. Our efforts to lower the portfolio's risk profile included trading up in credit quality, reducing the portfolio's sensitivity to interest rates and trimming our exposure to preferred stocks.

Unfortunately, as lower-quality bonds continued to outperform and interest rates remained relatively stable, our more conservative positioning caused the portfolio's return to lag its peer group average. Most of the funds in the Lipper group owned substantially higher positions in lower-quality bonds than the portfolio, and a number of these funds also held foreign bonds, which benefited significantly from the decline in the U.S. dollar. Despite the negative impact on relative performance, we believe that taking some risk off the table was a prudent strategy given the economic and market conditions.

"The main theme in the portfolio during the year was a shift toward a more defensive position in anticipation of rising interest rates."

Upgrading credit quality

A key part of our defensive strategy was reducing the portfolio's overall credit risk. The outperformance of lower-quality corporate bonds in recent years has elevated valuations in this segment of the market. Although the portfolio still has a meaningful position in lower-rated bonds, we selectively sold some of our below-investment-grade corporate securities during the past year and replaced them with higher-quality corporate bonds.

For example, we sold our holdings of Delta Air Lines and retailer Toys R Us, two below-investment-grade credits that face significant challenges. Delta managed to avert bankruptcy after gaining concessions from its pilots, but we don't think the company is out of the woods yet. Toys R Us is spinning off its popular Babies R Us franchise, leaving a pure-play toy retailer that is struggling to

3

compete with the major discount stores. To replace these bonds, we added solid investment-grade credits such as telecommunications giant BellSouth, beer producer Foster's and financial services firms Morgan Stanley and Wachovia.

[Table at top left-hand side of page entitled "Top five industry groups1." The first listing is Government-U.S. agencies 21%, the second is Government - U.S. 8%, the third is Electric utilities 7%, the fourth is Telecommunication services 6%, and the fifth is Broadcasting & cable TV 6%.]

We also eliminated our exposure to tobacco-related bonds, including Altria (the parent company of Philip Morris) and Golden State Tobacco (bonds backed by California's share of the legal settlement between the

Edgar Filing: HANCOCK JOHN INVESTORS TRUST - Form N-CSR

major tobacco companies and 46 states). We decided to exit these positions because of the high degree of litigation risk associated with these securities.

Winners and losers among corporate bonds

One of the best performers in the portfolio during the year was XM Satellite Radio. The company's subscriber base continues to grow at a stronger-than-expected rate, and more car makers are installing XM products in their vehicles. In addition, we believe XM has better technology than its competitors. Another strong contributor to performance was Empresa Electrica Guacolda, an electric utility in Chile. The dollar-denominated Empresa securities benefited from the general outperformance of emerging-market bonds.

[Pie chart in middle of page with heading "Portfolio diversification1." The chart is divided into four sections (from top to right): Corporate bonds 68%, U.S. government & agencies 29%, Preferred stocks 2% and Foreign government bonds 1%.]

On the downside, Ford Motor Credit detracted from portfolio performance. Pension funding liabilities, disappointing product lineups and high cost structures weighed on all of the domestic auto makers, increasing the possibility of a credit-rating downgrade.

Reducing interest rate sensitivity

We began lowering the Fund's sensitivity to interest rates in early 2004 to protect the portfolio against the negative impact of rising

4

interest rates. We accomplished this by trading out of some longer-term securities, which tend to suffer the biggest price declines when rates rise, and adding shorter-term bonds to the portfolio. This positioning helped neutralize the effects of leverage on the portfolio and reduced overall portfolio volatility.

[Table at top of page entitled "Scorecard." The header for the left column is "Investment" and the header for the right column is "Period's performance...and what's behind the numbers." The first listing is Trump Casino Holdings followed by an up arrow with the phrase "Successful restructuring boosts bond values." The second listing is Beaver Valley Funding followed by an up arrow with the phrase "Lease obligation bond benefited from improving prospects at lessee First Energy." The third listing is Short-term bonds followed by a down arrow with the phrase "Yields soared and prices fell due to Fed rate hikes."]

Outlook

We expect interest rates to trend higher in 2005. The economy appears poised for moderate but steady growth, and accelerating inflation remains a threat. Therefore, we expect the Federal Reserve to continue raising short-term rates, though at the same gradual pace as in 2004. The futures market projects a federal funds rate -- currently at 2.25%

Edgar Filing: HANCOCK JOHN INVESTORS TRUST - Form N-CSR

-- to be 3.5% by the end of 2005. We believe that interest rates will rise across the board, with short-term rates rising more than long-term rates in response to the Fed's moves.

"...we will continue to seek out opportunities to upgrade the overall credit quality of the portfolio."

Given this outlook, we plan to maintain our current defensive positioning. Valuations among lower-quality, higher-yielding bonds are stretched to historically high levels, so we will continue to seek out opportunities to upgrade the overall credit quality of the portfolio. We also intend to keep the interest rate sensitivity of the portfolio relatively low, allowing it to hold up better in a rising interest rate environment.

This commentary reflects the views of the portfolio managers through the end of the Fund's period discussed in this report. The managers' statements reflect their own opinions. As such, they are in no way guarantees of future events, and are not intended to be used as investment advice or a recommendation regarding any specific security. They are also subject to change at any time as market and other conditions warrant.

FINANCIAL STATEMENTS

Notes to Schedule of Investments

- (A) Credit ratings are unaudited and are rated by Moody's Investors Service where Standard & Poor's ratings are not available, unless indicated otherwise.
- (B) This security is fair valued in good faith under procedures established by the Board of Trustees.
- (G) Security rated internally by John Hancock Advisers, LLC.

Edgar Filing: HANCOCK JOHN INVESTORS TRUST - Form N-CSR

- (H) Non-income-producing issuer filed for protection under the Federal Bankruptcy Code or is in default of interest payment.
- (L) All or a portion of this security is on loan as of December 31, 2004.
- (O) Cash interest will be paid on this obligation at the stated rate beginning on the stated date.
- (S) These securities are exempt from registration under rule 144A of the Securities Act of 1933. These securities may be resold, normally to qualified institutional buyers, in transactions exempt from registration. Rule 144A securities amounted to \$34,778,460 or 20.08% of the Fund's net assets as of December 31, 2004.

Parenthetical disclosure of a foreign country in the security description represents country of origin of foreign issuer; however, security is U.S. dollar-denominated.

The percentage shown for each investment category is the total value of that category as a percentage of the net assets of the Fund.

23

FINANCIAL HIGHLIGHTS

Notes to Financial Highlights

1 Audited by previous auditor.

2 As required, effective January 1, 2001, the Fund has adopted the provisions of the AICPA Audit and Accounting Guide for Investment Companies, as revised, relating to the amortization of premiums and accretion of discounts on debt securities. The effect of this change on per share amounts for the year ended December 31, 2001, was to decrease net investment income per share by \$ 0.02, increase net realized and unrealized gain per share by \$0.02 and, had the Fund not made these changes to amortization and accretion, the ratio of net investment income to average net assets would have been 6.31%. Per share ratios and supplemental data for periods prior to January 1, 2001, have not been restated to reflect this change in presentation.

3 Based on the average shares outstanding.

4 APS Series A and B were issued on 11-4-03.

5 Assumes dividend reinvestment.

6 Ratios calculated on the basis of expenses relative to the average net assets of common shares. Without the exclusion of preferred shares, the ratios of expenses would have been 0.82% and 0.77% for the years ended 12-31-03 and 12-31-04, respectively.

7 Ratios calculated on the basis of net investment income relative to the average net assets of common shares. Without the exclusion of preferred shares, the ratios of net investment income would have been 5.81% and 5.36% for the years ended 12-31-03 and 12-31-04, respectively.

8 Calculated by subtracting the Fund's total liabilities from the Fund's total assets and dividing that amount by the number of APS outstanding, as of the applicable 1940 Act Evaluation Date, which may differ from the financial reporting date.

See notes to
financial statements.

24

NOTES TO STATEMENTS

Note A

Edgar Filing: HANCOCK JOHN INVESTORS TRUST - Form N-CSR

Accounting policies

John Hancock Investors Trust (the "Fund") is a closed-end diversified management investment company registered under the Investment Company Act of 1940.

Significant accounting policies of the Fund are as follows:

Valuation of investments

Securities in the Fund's portfolio are valued on the basis of market quotations, valuations provided by independent pricing services or at fair value as determined in good faith in accordance with procedures approved by the Trustees. Short-term debt investments which have a remaining maturity of 60 days or less may be valued at amortized cost, which approximates market value. The Fund determines the net asset value of the common shares each business day.

Joint repurchase agreement

Pursuant to an exemptive order issued by the Securities and Exchange Commission, the Fund, along with other registered investment companies having a management contract with John Hancock Advisers, LLC (the "Adviser"), a wholly owned subsidiary of John Hancock Financial Services, Inc., may participate in a joint repurchase agreement transaction. Aggregate cash balances are invested in one or more large repurchase agreements, whose underlying securities are obligations of the U.S. government and/or its agencies. The Fund's custodian bank receives delivery of the underlying securities for the joint account on the Fund's behalf. The Adviser is responsible for ensuring that the agreement is fully collateralized at all times.

Investment transactions

Investment transactions are recorded as of the date of purchase, sale or maturity. Net realized gains and losses on sales of investments are determined on the identified cost basis. Some securities may be purchased on a "when-issued" or "forward delivery" basis, which means that the securities will be delivered to the Fund at a future date, usually beyond customary settlement date.

Discount and premium on securities

The Fund accretes discount and amortizes premium from par value on securities from either the date of issue or the date of purchase over the life of the security.

Expenses

The majority of the expenses are directly identifiable to an individual fund. Expenses that are not readily identifiable to a specific fund will be allocated in such a manner as deemed equitable, taking into consideration, among other things, the nature and type of expense and the relative sizes of the funds.

Options

The Fund may enter into option contracts. Listed options will be valued at the last quoted sales price on the exchange on which they are primarily traded.

Over-the-counter options are valued at the mean between the last bid and asked prices. Upon the writing of a call or put option, an amount equal to the premium received by the Fund will be included in the Fund's Statement of Assets and Liabilities as an asset and corresponding liability. The amount of the liability will be subsequently marked to market to reflect the current market value of the written option.

The Fund may use option contracts to manage its exposure to the price volatility of financial instruments. Writing puts and buying calls will tend to increase the Fund's exposure to the underlying instrument, and buying puts and writing calls will tend to decrease the Fund's exposure to the underlying instrument, or hedge other Fund investments.

The maximum exposure to loss for any purchased options will be limited to the premium initially paid for the option. In all other cases, the face (or "notional") amount of each contract at value will reflect the maximum exposure of the Fund in these contracts, but the actual exposure will be limited to the change in value of the contract over the period the contract remains open.

Risks may also arise if counterparties do not perform under the contract's terms ("credit risk") or if the Fund is unable to offset a contract with a counterparty on a timely basis ("liquidity risk"). Exchange-traded options have minimal credit risk as the exchanges act as counterparties to each transaction, and only present liquidity risk in highly unusual market conditions. To minimize credit and liquidity risks in over-the-counter option contracts, the Fund continuously monitors the creditworthiness of all its counterparties.

At any particular time, except for purchased options, market or credit risk may involve amounts in excess of those reflected in the Fund's Statement of Assets and Liabilities. The Fund had no written option transactions during the year ended December 31, 2004.

Securities lending

The Fund may lend securities to certain qualified brokers who pay the Fund negotiated lender fees. The loans are collateralized at all times with cash or securities with a market value at least equal to the market value of the securities on loan. As with other extensions of credit, the Fund may bear the risk of delay of the loaned securities in recovery or even loss of rights in the collateral, should the borrower of the securities fail financially. On December 31, 2004, the Fund loaned securities having a market value of \$27,507,327 collateralized by securities in the amount of \$28,224,488. Securities lending expenses are paid by the Fund to the Adviser.

Financial futures contracts

The Fund may buy and sell financial futures contracts. Buying futures tends to increase the Fund's exposure to the underlying instrument. Selling futures tends to decrease the Fund's exposure to the underlying instrument or hedge other Fund's instruments. At the time the Fund enters into financial futures contracts, it is required to deposit with its custodian a specified amount of cash or U.S. government securities, known as "initial margin," equal to a certain percentage of the value of

Edgar Filing: HANCOCK JOHN INVESTORS TRUST - Form N-CSR

the financial futures contract being traded. Each day, the futures contract is valued at the official settlement price of the board of trade or U.S. commodities exchange on which it trades. Subsequent payments to and from the broker, known as "variation margin," are made on a daily basis as the market price of the financial futures contract fluctuates. Daily variation margin adjustments arising from this "mark to market" are recorded by the Fund as unrealized gains or losses.

When the contracts are closed, the Fund recognizes a gain or loss. Risks of entering into financial futures contracts include the possibility that there may be an illiquid market and/or that a change in the value of the contracts may not correlate

26

with changes in the value of the underlying securities. In addition, the Fund could be prevented from opening or realizing the benefits of closing out financial futures positions because of position limits or limits on daily price fluctuation imposed by an exchange.

For federal income tax purposes, the amount, character and timing of the Fund's gains and/or losses can be affected as a result of financial futures contracts. On December 31, 2004, the Fund had deposited \$501,250 in a segregated account to cover margin requirements on open financial futures contracts.

The Fund had the following financial futures contracts open on December 31, 2004:

OPEN CONTRACTS	NUMBER OF CONTRACTS	POSITION	EXPIRATION	APPRECIATION (DEPRECIATION)
U.S. 20-Year Treasury Bond	100	Short	March 05	(\$111,638)
U.S. 10-Year Treasury Note	375	Short	March 05	47,180
U.S. 10-Year Treasury Note	50	Short	March 05	(68,319)
				(\$132,777)

Federal income taxes

The Fund qualifies as a "regulated investment company" by complying with the applicable provisions of the Internal Revenue Code and will not be subject to federal income tax on taxable income that is distributed to shareholders. Therefore, no federal income tax provision is required. For federal income tax purposes, the Fund has \$1,668,465 of a capital loss carryforward, to the extent provided by regulations, to offset future net realized capital gains. To the extent that such carryforward is used by the Fund, no capital gain distribution will be made. The entire amount of the loss carryforward expires December 31, 2012.

Dividends, interest and distributions

Dividend income on investment securities is recorded on the ex-dividend date or, in the case of some foreign securities, on the date thereafter when the Fund identifies the dividend. Interest income on investment securities is recorded on the accrual basis. The Fund may place a debt obligation on non-accrual status and reduce related interest income by ceasing current accruals and writing off interest receivables when the

Edgar Filing: HANCOCK JOHN INVESTORS TRUST - Form N-CSR

collection of interest has become doubtful. Foreign income may be subject to foreign withholding taxes, which are accrued as applicable.

The Fund records distributions to shareholders from net investment income and net realized gains, if any, on the ex-dividend date. During the year ended December 31, 2003, the tax character of distributions paid was as follows: ordinary income \$14,361,583 and long-term capital gains \$2,026,541. For the year ended December 31, 2004, the tax character of distributions paid was as follows: ordinary income \$14,832,215. As of December 31, 2004, the components of distributable earnings on a tax basis included \$60,386 of undistributed ordinary income.

Such distributions and distributable earnings, on a tax basis, are determined in conformity with income tax regulations, which may differ from accounting principles generally accepted in the United States of America. Distributions in excess of tax basis earnings and profits, if any, are reported in the Fund's financial statements as a return of capital.

Use of estimates

The preparation of these financial statements, in accordance with accounting principles generally accepted in the United States of America, incorporates estimates made by management in determining the reported amount of assets, liabilities, revenues and expenses of the

27

Fund. Actual results could differ from these estimates.

Note B

Management fee and transactions with affiliates and others

The Fund has an investment management contract with the Adviser. Under the investment management contract, the Fund pays a quarterly management fee to the Adviser, equivalent on an annual basis, to the sum of (a) 0.650% of the first \$150,000,000 of the Fund's average daily net asset value and the value attributable to the Auction Preferred Shares (collectively, "managed assets"), (b) 0.375% of the next \$50,000,000, (c) 0.350% of the next \$100,000,000 and (d) 0.300% of the Fund's average daily managed assets in excess of \$300,000,000.

The Fund has an agreement with the Adviser to perform necessary tax, accounting and legal services for the Fund. The compensation for the period amounted to \$68,035. The Fund also paid the Adviser the amount of \$784 for certain publishing services, included in the printing fees.

Mr. James A. Shepherdson is a director and officer of the Adviser, as well as affiliated Trustee of the Fund, and is compensated by the Adviser. The compensation of unaffiliated Trustees is borne by the Fund. The unaffiliated Trustees may elect to defer for tax purposes their receipt of this compensation under the John Hancock Group of Funds Deferred Compensation Plan. The Fund makes investments into other John Hancock funds, as applicable, to cover its liability for the deferred compensation. Investments to cover the Fund's deferred compensation liability are recorded on the Fund's books as an other asset. The

Edgar Filing: HANCOCK JOHN INVESTORS TRUST - Form N-CSR

deferred compensation liability and the related other asset are always equal and are marked to market on a periodic basis to reflect any income earned by the investment as well as any unrealized gains or losses. The Deferred Compensation Plan investments had no impact on the operations of the Fund.

Note C

Fund share transactions

This listing illustrates the number of Fund common shares distributions reinvested, offering costs and underwriting discount charged to capital paid-in, reclassification of capital accounts and the number of common shares outstanding at the beginning and end of the last two periods, along with the corresponding dollar value.

	Year ended 12-31-03		Year ended 12-31-04	
	Shares	Amount	Shares	Amount
Beginning of period	8,015,867	\$166,689,302	8,102,295	\$167,056,970
Distributions reinvested	86,428	1,731,668	58,585	1,226,299
Offering costs and underwriting discount related to Auction Preferred Shares	--	(1,067,800)	--	29,764
Reclassification of capital accounts	--	(296,200)	--	(562,079)
End of period	8,102,295	\$167,056,970	8,160,880	\$167,750,954

Auction preferred shares

The Fund issued a total of 3,440 Auction Preferred Shares: 1,720 shares of Series A Auction Preferred Shares and 1,720 shares of Series B Auction Preferred Shares (collectively, the "Preferred Shares" or "APS") on November 4, 2003 in a public offering. The offering costs of \$178,036 and the underwriting discount of \$860,000 have been charged to capital paid-in of common shares.

28

Dividends on the APS, which accrue daily, are cumulative at a rate that was established at the offering of the APS and has been reset every 7 days thereafter by an auction. Dividend rates on APS Series A ranged from 1.00% to 2.65% and Series B from 1.00% to 2.67% during the year ended December 31, 2004. Accrued dividends on APS are included in the value of APS on the Fund's Statement of Assets and Liabilities.

The APS are redeemable at the option of the Fund, at a redemption price equal to \$25,000 per share, plus accumulated and unpaid dividends on any dividend payment date. The APS are also subject to mandatory redemption at a redemption price equal to \$25,000 per share, plus accumulated and unpaid dividends, if the Fund is in default on its asset coverage requirements with respect to the APS as defined in the Fund's by-laws. If the dividends on the APS shall remain unpaid in an amount equal to two full years' dividends, the holders of the APS, as a class, have the

Edgar Filing: HANCOCK JOHN INVESTORS TRUST - Form N-CSR

right to elect a majority of the Board of Trustees. In general, the holders of the APS and the common shareholders have equal voting rights of one vote per share, except that the holders of the APS, as a class, vote to elect two members of the Board of Trustees, and separate class votes are required on certain matters that affect the respective interests of the APS and common shareholders.

Note D
Investment
transactions

Purchases and proceeds from sales or maturities of securities, other than short-term securities and obligations of the U.S. government, during the year ended December 31, 2004, aggregated \$255,467,290 and \$262,305,434, respectively. Purchases and proceeds from maturities of obligations of the U.S. government aggregated \$67,906,958 and \$61,609,069, respectively, during the year ended December 31, 2004.

The cost of investments owned on December 31, 2004, including short-term investments, for federal income tax purposes was \$248,711,746. Gross unrealized appreciation and depreciation of investments aggregated \$8,541,766 and \$1,610,244, respectively, resulting in net unrealized appreciation of \$6,931,522. The difference between book basis and tax basis net unrealized appreciation of investments is attributable primarily to the tax deferral of losses on certain sales of securities and amortization of premiums and accretion of discounts on debt securities.

Note E
Reclassification
of accounts

During the year ended December 31, 2004, the Fund reclassified amounts to reflect an increase in accumulated net realized loss on investments of \$414,234, an increase in accumulated net investment income of \$976,313 and a decrease in capital paid-in of \$562,079. This represents the amounts necessary to report these balances on a tax basis, excluding certain temporary differences, as of December 31, 2004. Additional adjustments may be needed in subsequent reporting periods. These reclassifications, which have no impact on the net asset value of the Fund, are primarily attributable to certain differences in the computation of distributable income and capital gains under federal tax rules versus accounting principles generally accepted in the United States of America, and book and tax differences in accounting for deferred compensation and amortization of premiums and accretion of discounts on debt securities. The calculation of net investment in come per share in the Fund's Financial Highlights excludes these adjustments.

AUDITORS'
REPORT

Report of
Independent
Registered Public
Accounting Firm

To the Board of Trustees and Shareholders of

Edgar Filing: HANCOCK JOHN INVESTORS TRUST - Form N-CSR

John Hancock Investors Trust,

In our opinion, the accompanying statement of assets and liabilities, including the schedule of investments, and the related statements of operations and of changes in net assets and the financial highlights present fairly, in all material respects, the financial position of John Hancock Investors Trust (the "Fund") at December 31, 2004, the results of its operations, the changes in its net assets and the financial highlights for the periods indicated, in conformity with accounting principles generally accepted in the United States of America. These financial statements and financial highlights (hereafter referred to as "financial statements") are the responsibility of the Fund's management; our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits of these financial statements in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audits, which included confirmation of securities at December 31, 2004 by correspondence with the custodian and brokers, provide a reasonable basis for our opinion. The financial highlights for each of the periods ended on or before December 31, 2002, were audited by other independent auditors, whose report dated February 7, 2003, expressed an unqualified opinion thereon.

TAX INFORMATION

Unaudited

For federal income tax purposes, the following information is furnished with respect to the distributions of the Fund, if any, paid during its taxable year ended December 31, 2004.

With respect to the ordinary dividends paid by the Fund for the fiscal year ended December 31, 2004, 1.05% of the dividends qualifies for the corporate dividends-received deduction.

The Fund hereby designates the maximum amount allowable of its net taxable income as qualified dividend income as provided in the Jobs and Growth Tax Relief Reconciliation Act of 2003. This amount will be reflected on Form 1099-DIV for the calendar year 2004.

Shareholders will be mailed a 2004 U.S. Treasury Department Form 1099-DIV in January 2005. This will reflect the total of all distributions that are taxable for the calendar year 2004.

31

Edgar Filing: HANCOCK JOHN INVESTORS TRUST - Form N-CSR

Investment objective and policy

The Fund is a closed-end diversified management investment company, common shares of which were initially offered to the public on January 29, 1971, and are publicly traded on the New York Stock Exchange. The Fund's primary investment objective is to generate income for distribution to its shareholders, with capital appreciation as a secondary objective. The preponderance of the Fund's assets are invested in a diversified portfolio of debt securities, some of which may carry equity features. Up to 50% of the value of the Fund's assets may be invested in restricted securities acquired through direct placement. The Fund may also invest in repurchase agreements. The Fund may issue a single class of senior securities not to exceed 3313% of the market or fair value of its net assets and may borrow from banks as a temporary measure for emergency purposes in amounts not to exceed 5% of its total assets taken at cost. The Fund may lend portfolio securities not to exceed 3313% of total assets.

By-laws

In November 2002, the Board of Trustees adopted several amendments to the Fund's by-laws, including provisions relating to the calling of a special meeting and requiring advance notice of shareholder proposals or nominees for Trustee. The advance notice provisions in the by-laws require shareholders to notify the Fund in writing of any proposal that they intend to present at an annual meeting of shareholders, including any nominations for Trustee, between 90 and 120 days prior to the first anniversary of the mailing date of the notice from the prior year's annual meeting of shareholders. The notification must be in the form prescribed by the by-laws. The advance notice provisions provide the Fund and its Trustees with the opportunity to thoughtfully consider and address the matters proposed before the Fund prepares and mails its proxy statement to shareholders. Other amendments set forth the procedures, which must be followed in order for a shareholder to call a special meeting of shareholders. Please contact the Secretary of the Fund for additional information about the advance notice requirements or the other amendments to the by-laws.

On August 21, 2003, shareholders approved the amendment of the Fund's by-laws, effective August 26, 2003, to provide for the issuance of preferred shares. Effective March 9, 2004, the Trustees approved additional changes to conform the Fund's maximum dividend rate on the preferred shares with the rate used by other John Hancock funds.

On September 14, 2004, the Trustees approved an amendment to the Fund's by-laws increasing the maximum applicable dividend rate ceiling on the preferred shares to conform with the modern calculation methodology used by the industry and other John Hancock funds.

Financial futures contracts and options

The Fund may buy and sell financial futures contracts and options on futures contracts to hedge against the effects of fluctuations in interest rates and other market conditions. The Fund's ability to hedge successfully will depend on the Adviser's ability to predict accurately the future direction of interest rate changes and other market factors.

Edgar Filing: HANCOCK JOHN INVESTORS TRUST - Form N-CSR

There is no assurance that a liquid market for futures and options will always exist. In addition, the Fund could be prevented from opening, or realizing the benefits of closing out, a futures or options position because of position limits or limits on daily price fluctuations imposed by an exchange.

The Fund will not engage in transactions in futures contracts and options on futures for speculation, but only for hedging or other permissible risk management purposes. All of the Fund's futures contracts and options on futures will be traded on a U.S. commodity exchange or board of trade. The Fund will not engage in a transaction in

32

futures or options on futures if, immediately thereafter, the sum of initial margin deposits on existing positions and premiums paid for options on futures would exceed 5% of the Fund's total assets.

Dividends and distributions

The Fund pays quarterly dividends from net investment income and intends to distribute any available net realized capital gains annually. All distributions are paid in cash unless the shareholder elects to participate in the Dividend Reinvestment Plan.

During the year ended December 31, 2004, the Fund paid to shareholders dividends from net investment income totaling \$1.665 per share. The dates of payment and the amounts per share are as follows:

PAYMENT DATE	INCOME DIVIDEND
March 31, 2004	\$0.410
June 30, 2004	0.420
September 30, 2004	0.420
December 31, 2004	0.415

Dividend reinvestment plan

The Fund offers its common shareholders a Dividend Reinvestment Plan (the "Plan"), which offers the opportunity to earn compounded yields. Any holder of common shares of record of the Fund may elect to participate in the Plan and receive the Fund's common shares in lieu of all or a portion of the cash dividends. The Plan is available to all common shareholders without charge. Mellon Investor Services (the "Plan Agent") will act as agent for participating shareholders.

Shareholders may join the Plan by notifying the Plan Agent by telephone, in writing or by visiting the Plan Agent's Web site at www.melloninvestor.com showing an election to reinvest all or a portion of dividend payments. If received in proper form by the Plan Agent prior to the record date for a dividend, the election will be effective with respect to all dividends paid after such record date. Shareholders whose shares are held in the name of a broker or nominee should contact the broker or nominee to determine whether and how they may participate in the Plan.

Edgar Filing: HANCOCK JOHN INVESTORS TRUST - Form N-CSR

The Board of Trustees of the Fund will declare dividends from net investment income payable in cash or, in the case of shareholders participating in the Plan, partially or entirely in the Fund's common shares. The number of shares to be issued for the benefit of each shareholder will be determined by dividing the amount of the cash dividend otherwise payable to such shareholder on shares included under the Plan, by the per share net asset value of the common shares on the date for payment of the dividend, unless the net asset value per share on the payment date is less than 95% of the market price per share on that date, in which event the number of shares to be issued to a shareholder will be determined by dividing the amount of the cash dividend payable to such shareholder by 95% of the market price per share of the common shares on the payment date. The market price of the common shares on a particular date shall be the mean between the highest and lowest sales price on the New York Stock Exchange on that date. Net asset value will be determined in accordance with the established procedures of the Fund. However, if as of such payment date the market price of the common shares is lower than such net asset value per share, the number of shares to be issued will be determined on the basis of such market price. Fractional shares, carried out to four decimal places, will be credited to the shareholder's account. Such fractional shares will be entitled to future dividends.

The shares issued to participating shareholders, including fractional shares, will be held by the Plan Agent in the name of the participant. A confirmation will be sent to each shareholder promptly, normally within seven days, after the payment date of the dividend. The confirmation will show

33

the total number of shares held by such shareholder before and after the dividend, the amount of the most recent cash dividend that the shareholder has elected to reinvest and the number of shares acquired with such dividend.

Participation in the Plan may be terminated at any time by contacting the Plan Agent by telephone, in writing or by visiting the Plan Agent's Web site, and such termination will be effective immediately. However, notice of termination must be received prior to the record date of any distribution to be effective for that distribution. Upon termination, certificates will be issued representing the number of full shares of common shares held by the Plan Agent. A shareholder will receive a cash payment for any fractional share held.

The reinvestment of dividends will not relieve participants of any federal, state or local income tax, which may be due with respect to such dividend. Dividends reinvested in common shares will be treated on your federal income tax return as though you had received a dividend in cash in an amount equal to the fair market value of the shares received, as determined by the prices for common shares of the Fund on the New York Stock Exchange as of the dividend payment date. Distributions from the Fund's long-term capital gains will be processed as noted above for those electing to reinvest in common shares and will be taxable to you as long-term capital gains. The confirmation referred to above will contain all the information you will require for determining the cost basis of shares acquired and should be retained for that purpose. At year end, each account will be supplied with detailed information necessary to determine total tax liability for the calendar year.

Edgar Filing: HANCOCK JOHN INVESTORS TRUST - Form N-CSR

All correspondence or additional information concerning the Plan should be directed to the Plan Agent, Mellon Bank, N.A., c/o Mellon Investor Services, P.O. Box 3338, South Hackensack, New Jersey 07606-1938 (telephone 1-800-852-0218).

ITEM 2. CODE OF ETHICS.

As of the end of the period, December 31, 2004, the registrant has adopted a code of ethics, as defined in Item 2 of Form N-CSR, that applies to its Chief Executive Officer, Chief Financial Officer and Treasurer (respectively, the principal executive officer, the principal financial officer and the principal accounting officer, the "Senior Financial Officers"). A copy of the code of ethics is filed as an exhibit to this Form N-CSR.

ITEM 3. AUDIT COMMITTEE FINANCIAL EXPERT.

Charles L. Ladner is the audit committee financial expert and is "independent", pursuant to general instructions on Form N-CSR Item 3.

ITEM 4. PRINCIPAL ACCOUNTANT FEES AND SERVICES.

(a) Audit Fees

The aggregate fees billed for professional services rendered by the principal accountant(s) for the audit of the registrant's annual financial statements or services that are normally provided by the accountant(s) in connection with statutory and regulatory filings or engagements amounted to \$31,000 for the fiscal year ended December 31, 2003 and \$32,500 for the fiscal year ended December 31, 2004. These fees were billed to the registrant and were approved by the registrant's audit committee.

(b) Audit-Related Services

There were no audit-related fees during the fiscal year ended December 31, 2003 and fiscal year ended December 31, 2004 billed to the registrant or to the registrant's investment adviser (not including any sub-adviser whose role is primarily portfolio management and is subcontracted with or overseen by another investment adviser), and any entity controlling, controlled by, or under common control with the adviser that provides ongoing services to the registrant ("control affiliates").

(c) Tax Fees

The aggregate fees billed for professional services rendered by the principal accountant(s) for the tax compliance, tax advice and tax planning ("tax fees") amounted to \$4,000 for the fiscal year ended December 31, 2003 and \$4,200 for the fiscal year ended December 31, 2004. The nature of the services comprising the tax fees was the review of the registrant's income tax returns and tax distribution requirements. These fees were billed to the registrant and were approved by the registrant's audit committee. There were no tax fees billed to the control affiliates.

Edgar Filing: HANCOCK JOHN INVESTORS TRUST - Form N-CSR

(d) All Other Fees

The all other fees billed to the registrant for products and services provided by the principal accountant were none for the fiscal year ended December 31, 2003 and \$5,000 for the fiscal year ended December 31, 2004. There were no other fees during the fiscal year ended December 31, 2003 and December 31, 2004 billed to control affiliates for products and services provided by the principal accountant. The nature of the services comprising the all other fees was related to the principal accountant's report on the registrant's Eligible Asset Coverage. These fees were approved by the registrant's audit committee.

(e) (1) See attachment "Approval of Audit, Audit-related, Tax and Other Services", with the audit committee pre-approval policies and procedures.

(e) (2) There were no fees that were approved by the audit committee pursuant to the de minimis exception for the fiscal years ended December 31, 2003 and December 31, 2004 on behalf of the registrant or on behalf of the control affiliates that relate directly to the operations and financial reporting of the registrant.

(f) According to the registrant's principal accountant, for the fiscal year ended December 31, 2004, the percentage of hours spent on the audit of the registrant's financial statements for the most recent fiscal year that were attributed to work performed by persons who were not full-time, permanent employees of principal accountant was less than 50%.

(g) The aggregate non-audit fees billed by the registrant's accountant(s) for services rendered to the registrant and rendered to the registrant's control affiliates for each of the last two fiscal years of the registrant were \$4,000 for the fiscal year ended December 31, 2003, and \$120,662 for the fiscal year ended December 31, 2004.

(h) The audit committee of the registrant has considered the non-audit services provided by the registrant's principal accountant(s) to the control affiliates and has determined that the services that were not pre-approved are compatible with maintaining the principal accountant(s)' independence.

ITEM 5. AUDIT COMMITTEE OF LISTED REGISTRANTS.

The registrant has a separately-designated standing audit committee comprised of independent trustees. The members of the audit committee are as follows:

Richard P. Chapman, Jr.
Charles L. Ladner
Dr. John A. Moore
Patti McGill Peterson

ITEM 6. SCHEDULE OF INVESTMENTS.

Not applicable.

ITEM 7. DISCLOSURE OF PROXY VOTING POLICIES AND PROCEDURES FOR CLOSED-END MANAGEMENT INVESTMENT COMPANIES.

See attached Exhibit "Proxy Voting Policies and Procedures".

ITEM 8. PORTFOLIO MANAGERS OF CLOSED-END MANAGEMENT INVESTMENT COMPANIES.

Edgar Filing: HANCOCK JOHN INVESTORS TRUST - Form N-CSR

Not applicable.

ITEM 9. PURCHASES OF EQUITY SECURITIES BY CLOSED-END MANAGEMENT INVESTMENT COMPANY AND AFFILIATED PURCHASERS.

Not applicable.

ITEM 10. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS.

(a) There were no material changes to previously disclosed John Hancock Funds - Administration Committee Charter.

ITEM 11. CONTROLS AND PROCEDURES.

(a) Based upon their evaluation of the registrant's disclosure controls and procedures as conducted within 90 days of the filing date of this Form N-CSR, the registrant's principal executive officer and principal accounting officer have concluded that those disclosure controls and procedures provide reasonable assurance that the material information required to be disclosed by the registrant on this report is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission's rules and forms.

(b) There were no changes in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal half-year (the registrant's second fiscal half-year in the case of an annual report) that have materially affected, or are reasonably likely to materially affect, the registrant's internal control over financial reporting.

ITEM 12. EXHIBITS.

(a) (1) Code of Ethics for Senior Financial Officers is attached.

(a) (2) Separate certifications for the registrant's principal executive officer and principal accounting officer, as required by Section 302 of the Sarbanes-Oxley Act of 2002 and Rule 30a-2(a) under the Investment Company Act of 1940, are attached.

(b) (1) Separate certifications for the registrant's principal executive officer and principal accounting officer, as required by 18 U.S.C. Section 1350, as adopted pursuant to Section 906 of the Sarbanes-Oxley Act of 2002, and Rule 30a-2(b) under the Investment Company Act of 1940, are attached. The certifications furnished pursuant to this paragraph are not deemed to be "filed" for purposes of Section 18 of the Securities Exchange Act of 1934, or otherwise subject to the liability of that section. Such certifications are not deemed to be incorporated by reference into any filing under the Securities Act of 1933 or the Securities Exchange Act of 1934, except to the extent that the Registrant specifically incorporates them by reference.

(c) (1) Proxy Voting Policies and Procedures are attached.

(c) (2) Approval of Audit, Audit-related, Tax and Other Services is attached.

(c) (3) Contact person at the registrant.
