

REDWOOD TRUST INC
Form 10-Q
November 08, 2018

UNITED STATES OF AMERICA
SECURITIES AND EXCHANGE COMMISSION
Washington, D.C. 20549

FORM 10-Q

QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d)
 OF THE SECURITIES EXCHANGE ACT OF 1934
For the Quarterly Period Ended: September 30, 2018

OR

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d)
 OF THE SECURITIES EXCHANGE ACT OF 1934

For the Transition Period from _____ to _____.
Commission File Number 1-13759

REDWOOD TRUST, INC.
(Exact Name of Registrant as Specified in Its Charter)
Maryland 68-0329422
(State or Other Jurisdiction of (I.R.S. Employer
Incorporation or Organization) Identification No.)

One Belvedere Place, Suite 300 94941
Mill Valley, California
(Address of Principal Executive Offices) (Zip Code)

(415) 389-7373
(Registrant's Telephone Number, Including Area Code)
Not Applicable
(Former Name, Former Address and Former Fiscal Year, if Changed Since Last Report)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically every Interactive Data File required to be submitted pursuant to Rule 405 of Regulation S-T during the preceding 12 months (or for such shorter period that the registrant was required to submit such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, smaller reporting company, or an emerging growth company. See the definitions of "large accelerated filer," "accelerated filer," "smaller reporting company," and "emerging growth company" in Rule 12b-2 of the Exchange Act.

Large accelerated filer Accelerated filer
Non-accelerated filer Smaller reporting company

Edgar Filing: REDWOOD TRUST INC - Form 10-Q

Emerging growth company

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act.

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes No

Indicate the number of shares outstanding of each of the issuer's classes of common stock, as of the latest practicable date.

Common Stock, \$0.01 par value per share 82,965,298 shares outstanding as of November 5, 2018

REDWOOD TRUST, INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
September 30, 2018
(Unaudited)

Note 1. Organization

Redwood Trust, Inc., together with its subsidiaries, is a specialty finance company focused on making credit-sensitive investments in residential mortgages and related assets and engaging in mortgage banking activities. Our goal is to provide attractive returns to shareholders through a stable and growing stream of earnings and dividends, as well as through capital appreciation. We operate our business in two segments: Investment Portfolio and Mortgage Banking. Our primary sources of income are net interest income from our investment portfolios and non-interest income from our mortgage banking activities. Net interest income consists of the interest income we earn on investments less the interest expense we incur on borrowed funds and other liabilities. Income from mortgage banking activities is generated through the acquisition of loans and their subsequent sale or securitization.

Redwood Trust, Inc. has elected to be taxed as a real estate investment trust ("REIT") under the Internal Revenue Code of 1986, as amended (the "Internal Revenue Code"), beginning with its taxable year ended December 31, 1994. We generally refer, collectively, to Redwood Trust, Inc. and those of its subsidiaries that are not subject to subsidiary-level corporate income tax as "the REIT" or "our REIT." We generally refer to subsidiaries of Redwood Trust, Inc. that are subject to subsidiary-level corporate income tax as "our operating subsidiaries" or "our taxable REIT subsidiaries" or "TRS."

Redwood was incorporated in the State of Maryland on April 11, 1994, and commenced operations on August 19, 1994. References herein to "Redwood," the "company," "we," "us," and "our" include Redwood Trust, Inc. and its consolidated subsidiaries, unless the context otherwise requires.

Note 2. Basis of Presentation

The consolidated financial statements presented herein are at September 30, 2018 and December 31, 2017, and for the three and nine months ended September 30, 2018 and 2017. These interim unaudited consolidated financial statements have been prepared in accordance with the rules and regulations of the Securities and Exchange Commission ("SEC"). Certain information and note disclosures normally included in our annual financial statements prepared in accordance with U.S. generally accepted accounting principles ("GAAP") — as prescribed by the Financial Accounting Standards Board's ("FASB") Accounting Standards Codification ("ASC") — have been condensed or omitted in these interim financial statements according to these SEC rules and regulations. Management believes that the disclosures included in these interim financial statements should be read in conjunction with the consolidated financial statements and notes thereto included in the company's Annual Report on Form 10-K for the year ended December 31, 2017. In the opinion of management, all normal and recurring adjustments to present fairly the financial condition of the company at September 30, 2018 and results of operations for all periods presented have been made. The results of operations for the three and nine months ended September 30, 2018 should not be construed as indicative of the results to be expected for the full year.

Principles of Consolidation

In accordance with GAAP, we determine whether we must consolidate transferred financial assets and variable interest entities ("VIEs") for financial reporting purposes. We currently consolidate the assets and liabilities of certain Sequoia securitization entities issued prior to 2012 where we maintain an ongoing involvement ("Legacy Sequoia"), as well as entities formed in connection with the securitization of Redwood Choice expanded-prime loans beginning in the third quarter of 2017 ("Sequoia Choice"). In addition, we consolidated the assets and liabilities of certain third-party Freddie Mac K-Series securitization trusts beginning in the third quarter of 2018. Each securitization entity is independent of Redwood and of each other and the assets and liabilities are not owned by and are not legal obligations of Redwood Trust, Inc. Our exposure to these entities is primarily through the financial interests we have retained, although we are exposed to certain financial risks associated with our role as a sponsor, servicing

administrator, or depositor of these entities or as a result of our having sold assets directly or indirectly to these entities.

7

REDWOOD TRUST, INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

September 30, 2018

(Unaudited)

Note 2. Basis of Presentation - (continued)

For financial reporting purposes, the underlying loans owned at the consolidated Sequoia entities are shown under Residential loans, held-for-investment, at fair value, and the underlying loans owned at the consolidated Freddie Mac K-Series are shown under Multifamily loans held-for-investment, at fair value, on our consolidated balance sheets. The asset-backed securities ("ABS") issued to third parties by these entities are shown under ABS issued. In our consolidated statements of income, we recorded interest income on the loans owned at these entities and interest expense on the ABS issued by these entities as well as other income and expenses associated with these entities' activities. See Note 13 for further discussion on ABS issued.

See Note 4 for further discussion on principles of consolidation.

Use of Estimates

The preparation of financial statements requires us to make a number of significant estimates. These include estimates of fair value of certain assets and liabilities, amounts and timing of credit losses, prepayment rates, and other estimates that affect the reported amounts of certain assets and liabilities as of the date of the consolidated financial statements and the reported amounts of certain revenues and expenses during the reported periods. It is likely that changes in these estimates (e.g., valuation changes due to supply and demand, credit performance, prepayments, interest rates, or other reasons) will occur in the near term. Our estimates are inherently subjective in nature and actual results could differ from our estimates and the differences could be material.

Note 3. Summary of Significant Accounting Policies

Significant Accounting Policies

Included in Note 3 to the Consolidated Financial Statements of our 2017 Annual Report on Form 10-K is a summary of our significant accounting policies. Provided below is a summary of additional accounting policies that are significant to the company's consolidated financial position and results of operations for the three and nine months ended September 30, 2018.

Business Purpose Loans at Fair Value

Business purpose loans include loans to investors in single-family rental properties ("Single-family rental loans") and loans to investors rehabilitating and reselling residential properties ("Fix-and-flip loans"). Our single-family rental loans are held-for-sale at fair value, as we have purchased these loans with the intent to sell to third parties or transfer to securitization entities. Fix-and-flip loans are primarily interest-only fixed-rate loans with a term of less than two years which are carried as held-for-investment at fair value.

Coupon interest for these loans is recognized as revenue when earned and deemed collectible or, for single-family rental loans, until a loan becomes more than 90 days past due, at which point the loan is placed on nonaccrual status. When a seriously delinquent loan previously placed on nonaccrual status has cured, meaning all delinquent principal and interest have been remitted by the borrower, the loan is placed back on accrual status. Changes in fair value are recurring and reported through our consolidated statements of income in Mortgage banking activities, net and Investment fair value changes, net for single-family rental loans and fix-and-flip loans, respectively.

Multifamily Loans, Held-for-Investment at Fair Value

Multifamily loans are multifamily mortgage loans held in Freddie Mac-sponsored K-series securitization trusts that we consolidate. In accordance with accounting guidance for collateralized financing entities ("CFEs"), we use the fair value of the ABS issued by the Freddie Mac K-Series entities (which we determined to be more observable) to determine the fair value of the loans held at these entities. Coupon interest for these loans is recognized as revenue when earned and deemed collectible or, until a loan becomes more than 90 days past due, at which point the loan is placed on nonaccrual status. When a seriously delinquent loan previously placed on nonaccrual status has cured, meaning all delinquent principal and interest have been remitted by the borrower, the loan is placed back on accrual status. Changes in fair value for the assets and liabilities of these trusts are recurring and are reported through our

consolidated statements of income in Investment fair value changes, net.

Note 3. Summary of Significant Accounting Policies - (continued)

Recent Accounting Pronouncements

Newly Adopted Accounting Standards Updates ("ASUs")

In May 2017, the FASB issued ASU 2017-09, "Compensation - Stock Compensation (Topic 718)." This new guidance provides guidance about which changes to the terms or conditions of a share-based payment award require an entity to apply modification accounting in Topic 718. This new guidance is effective for fiscal years beginning after December 15, 2017, and should be applied prospectively to an award modified on or after the adoption date. We adopted this guidance, as required, in the first quarter of 2018, which did not have a material impact on our consolidated financial statements.

In November 2016, the FASB issued ASU 2016-18, "Statement of Cash Flows (Topic 230): Restricted Cash." This new guidance amends previous guidance on how to classify and present changes in restricted cash on the statement of cash flows. This new guidance is effective for fiscal years beginning after December 15, 2017. We adopted this guidance, as required, in the first quarter of 2018, which did not have a material impact on our results of operations but impacted the presentation of the statements of cash flows and related footnote disclosures.

In October 2016, the FASB issued ASU 2016-16, "Income Taxes (Topic 740): Intra-Entity Transfers of Assets Other Than Inventory." This new guidance allows an entity to recognize the income tax consequences of an intra-entity transfer of an asset other than inventory when the transfer occurs. It also eliminates the exceptions for an intra-entity transfer of assets other than inventory. This new guidance is effective for fiscal years beginning after December 15, 2017. We adopted this guidance, as required, in the first quarter of 2018, which did not have a material impact on our consolidated financial statements.

In August 2016, the FASB issued ASU 2016-15, "Statement of Cash Flows (Topic 230): Classification of Certain Cash Receipts and Cash Payments." This new guidance provides guidance on how to present and classify certain cash receipts and cash payments in the statement of cash flows. This new guidance is effective for fiscal years beginning after December 15, 2017. We adopted this guidance, as required, in the first quarter of 2018, which did not have a material impact on our consolidated financial statements.

In January 2016, the FASB issued ASU 2016-01, "Recognition and Measurement of Financial Assets and Financial Liabilities." This new guidance amends accounting related to the classification and measurement of investments in equity securities and the presentation of certain fair value changes for financial liabilities measured at fair value. This new guidance also amends certain disclosure requirements associated with the fair value of financial instruments and it is effective for fiscal years beginning after December 15, 2017. In February 2018, the FASB issued ASU 2018-03, "Technical Corrections and Improvements to Financial Instruments - Overall (Subtopic 825-10): Recognition and Measurement of Financial Assets and Financial Liabilities," which clarified certain aspects of the guidance issued in ASU 2016-01. We adopted this guidance, as required, in the first quarter of 2018. This did not have a material impact on our consolidated financial statements as our investments in debt securities and loans were not subject to the amendments in this ASU. In accordance with this guidance, we amended certain fair value disclosures related to financial instruments that are carried at amortized cost on the consolidated balance sheets.

Note 3. Summary of Significant Accounting Policies - (continued)

In May 2014, the FASB issued ASU 2014-09, "Revenue from Contracts with Customers." The update modifies the guidance companies use to recognize revenue from contracts with customers for transfers of goods or services and transfers of nonfinancial assets, unless those contracts are within the scope of other standards. The guidance also requires new qualitative and quantitative disclosures, including information about contract balances and performance obligations. In July 2015, the FASB approved a one-year deferral of the effective date. Accordingly, the update is effective for us in the first quarter of 2018 with retrospective application to prior periods presented or as a cumulative effect adjustment in the period of adoption. In March 2016, the FASB issued ASU 2016-08, "Revenue from Contracts with Customers (Topic 606): Principal versus Agent Considerations (Reporting Revenue Gross versus Net)." This new guidance provides additional implementation guidance on how an entity should identify the unit of accounting for the principal versus agent evaluations. In May 2016, the FASB issued ASU 2016-12, "Revenue from Contracts with Customers (Topic 606): Narrow-Scope Improvements and Practical Expedients," and in December 2016, the FASB issued ASU 2016-20, "Technical Corrections and Improvements to Topic 606, Revenue from Contracts with Customers." These new ASUs provide more specific guidance on certain aspects of Topic 606. In September 2017, the FASB issued ASU 2017-13, "Revenue Recognition (Topic 605), Revenue from Contracts with Customers (Topic 606), Leases (Topic 840), and Leases (Topic 842): Amendments to SEC Paragraphs Pursuant to the Staff Announcement at the July 20, 2017 EITF Meeting and Rescission of Prior SEC Staff Announcements and Observer Comments (SEC Update)." This new ASU allows certain public business entities to use the nonpublic business entity effective dates for adoption of the new revenue standard. In November 2017, the FASB issued ASU 2017-14, "Income Statement - Reporting Comprehensive Income (Topic 220), Revenue Recognition (Topic 605), and Revenue from Contracts with Customers (Topic 606): Amendments to SEC Paragraphs Pursuant to Staff Accounting Bulletin No. 116 and SEC Release No. 33-10403." This new ASU amends various paragraphs that contain SEC guidance. We adopted this guidance, as required, in the first quarter of 2018. This did not have a material impact on our consolidated financial statements as nearly all of our income is generated from financial instruments, which are explicitly scoped out of these standards.

Other Recent Accounting Pronouncements

In August 2018, the FASB issued ASU 2018-13, "Fair Value Measurement (Topic 820): Disclosure Framework - Changes to the Disclosure Requirements for Fair Value Measurement." This new guidance amends previous guidance by removing and modifying certain existing fair value disclosure requirements, while adding other new disclosure requirements. This new guidance is effective for fiscal years beginning after December 15, 2019. Early adoption is permitted and entities may elect to early adopt the removal or modification of disclosures immediately and delay adoption of the new disclosure requirements until their effective date. We plan to adopt this new guidance by the required date and do not anticipate that this update will have a material impact on our consolidated financial statements.

In July 2018, the FASB issued ASU 2018-09, "Codification Improvements." This new guidance is intended to clarify, correct, and make minor improvements to the FASB Accounting Standards Codification. The transition and effective dates are based on the facts and circumstances of each amendment, with some amendments becoming effective upon issuance of this ASU and others becoming effective for annual periods beginning after December 15, 2018. We plan to adopt this new guidance by the required date and do not anticipate that this update will have a material impact on our consolidated financial statements.

In February 2018, the FASB issued ASU 2018-02, "Income Statement - Reporting Comprehensive Income (Topic 220): Reclassification of Certain Tax Effects from Accumulated Other Comprehensive Income." This new guidance allows a reclassification from accumulated other comprehensive income to retained earnings for stranded tax effects resulting from the Tax Cuts and Jobs Act of 2017 (the "Tax Act"). This new guidance is effective for fiscal years

beginning after December 15, 2018. Early adoption is permitted. We plan to adopt this new guidance by the required date and do not anticipate that this update will have a material impact on our consolidated financial statements. In August 2017, the FASB issued ASU 2017-12, "Derivatives and Hedging (Topic 815): Targeted Improvements to Accounting for Hedging Activities." This new guidance amends previous guidance to better align an entity's risk management activities and financial reporting for hedging relationships through changes to both the designation and measurement guidance for qualifying hedging relationships and the presentation of hedge results. This new guidance is effective for fiscal years beginning after December 15, 2018. Early adoption is permitted. We plan to adopt this new guidance by the required date and do not anticipate that this update will have a material impact on our consolidated financial statements.

REDWOOD TRUST, INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
September 30, 2018
(Unaudited)

Note 3. Summary of Significant Accounting Policies - (continued)

In July 2017, the FASB issued ASU 2017-11, "Earnings Per Share (Topic 260); Distinguishing Liabilities from Equity (Topic 480); Derivatives and Hedging (Topic 815): (Part I) Accounting for Certain Financial Instruments with Down Round Features, (Part II) Replacement of the Indefinite Deferral for Mandatorily Redeemable Financial Instruments of Certain Nonpublic Entities and Certain Mandatorily Redeemable Noncontrolling Interests with a Scope Exception." This new guidance changes the classification analysis of certain equity-linked financial instruments (or embedded conversion options) with down round features. This new guidance is effective for fiscal years beginning after December 15, 2018. Early adoption is permitted. We plan to adopt this new guidance by the required date and do not anticipate that this update will have a material impact on our consolidated financial statements.

In March 2017, the FASB issued ASU 2017-08, "Receivables - Nonrefundable Fees and Other Costs (Subtopic 310-20)." This new guidance shortens the amortization period for certain callable debt securities purchased at a premium by requiring the premium to be amortized to the earliest call date. This new guidance is effective for fiscal years beginning after December 15, 2018. Early adoption is permitted. We plan to adopt this new guidance by the required date and do not anticipate that this update will have a material impact on our consolidated financial statements.

In June 2016, the FASB issued ASU 2016-13, "Financial Instruments - Credit Losses." This new guidance provides a new impairment model that is based on expected losses rather than incurred losses to determine the allowance for credit losses. This new guidance is effective for fiscal years beginning after December 15, 2019. Early adoption is permitted for fiscal years beginning after December 15, 2018. We currently have only a small balance of loans receivable that are not carried at fair value and would be subject to this new guidance for allowance for credit losses. Separately, we account for our available-for-sale securities under the other-than-temporary impairment ("OTTI") model for debt securities. This new guidance requires that credit impairments on our available-for-sale securities be recorded in earnings using an allowance for credit losses, with the allowance limited to the amount by which the security's fair value is less than its amortized cost basis. Subsequent reversals in credit loss estimates are recognized in income. We plan to adopt this new guidance by the required date and continue to evaluate the impact that this update will have on our consolidated financial statements.

In February 2016, the FASB issued ASU 2016-02, "Leases." This new guidance requires lessees to recognize most leases on their balance sheet as a right-of-use asset and a lease liability. This new guidance retains a dual lease accounting model, which requires leases to be classified as either operating or capital leases for lessees, for purposes of income statement recognition. This new guidance is effective for fiscal years beginning after December 15, 2018. Early adoption is permitted. In July 2018, the FASB issued ASU 2018-10, "Codification Improvements to Topic 842, Leases," which provides more specific guidance on certain aspects of Topic 842. Additionally, in July 2018, the FASB issued ASU 2018-11, "Leases (Topic 842): Targeted Improvements." This new ASU introduces an additional transition method which allows entities to apply the new standard at the adoption date and recognize a cumulative-effect adjustment to the opening balance of retained earnings in the period of adoption. As discussed in Note 15, our only material leases are those related to our leased office space, for which future payments under these leases totaled \$16 million at September 30, 2018. Upon adoption of this standard in the first quarter of 2019, we will record a right-of-use asset and lease liability equal to the present value of these future lease payments discounted at our incremental borrowing rate. Based on our initial evaluation of this new guidance, and taking into consideration our current in-place leases, we do not expect that its adoption will have a material impact on our consolidated financial statements. We will continue evaluating this new standard and caution that any changes in our business or additional leases we may enter into could change our initial assessment.

Note 3. Summary of Significant Accounting Policies - (continued)

Balance Sheet Netting

Certain of our derivatives and short-term debt are subject to master netting arrangements or similar agreements. Under GAAP, in certain circumstances we may elect to present certain financial assets, liabilities and related collateral subject to master netting arrangements in a net position on our consolidated balance sheets. However, we do not report any of these financial assets or liabilities on a net basis, and instead present them on a gross basis on our consolidated balance sheets.

The table below presents financial assets and liabilities that are subject to master netting arrangements or similar agreements categorized by financial instrument, together with corresponding financial instruments and corresponding collateral received or pledged at September 30, 2018 and December 31, 2017.

Table 3.1 – Offsetting of Financial Assets, Liabilities, and Collateral

Amounts presented in these columns are limited in total to the net amount of assets or liabilities presented in the prior column by instrument. In certain cases, there is excess cash collateral or financial assets we have pledged to a counterparty (which may, in certain circumstances, be a clearinghouse) that exceed the financial liabilities subject (1) to a master netting arrangement or similar agreement. Additionally, in certain cases, counterparties may have pledged excess cash collateral to us that exceeds our corresponding financial assets. In each case, any of these excess amounts are excluded from the table although they are separately reported in our consolidated balance sheets as assets or liabilities, respectively.

Interest rate agreements, TBAs, and futures are components of derivatives instruments on our consolidated balance (2) sheets. Loan warehouse debt, which is secured by residential mortgage loans, and security repurchase agreements are components of Short-term debt on our consolidated balance sheets.

For each category of financial instrument set forth in the table above, the assets and liabilities resulting from individual transactions within that category between us and a counterparty are subject to a master netting arrangement or similar agreement with that counterparty that provides for individual transactions to be aggregated and treated as a single transaction. For certain categories of these instruments, some of our transactions are cleared and settled through one or more clearinghouses that are substituted as our counterparty. References herein to master netting arrangements or similar agreements include the arrangements and agreements governing the clearing and settlement of these transactions through the clearinghouses. In the event of the termination and close-out of any of those transactions, the corresponding master netting agreement or similar agreement provides for settlement on a net basis. Any such settlement would include the proceeds of the liquidation of any corresponding collateral, subject to certain limitations on termination, settlement, and liquidation of collateral that may apply in the event of the bankruptcy or insolvency of a party. Such limitations should not inhibit the eventual practical realization of the principal benefits of those transactions or the corresponding master netting arrangement or similar agreement and any corresponding collateral.

REDWOOD TRUST, INC. AND SUBSIDIARIES
 NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
 September 30, 2018
 (Unaudited)

Note 4. Principles of Consolidation

GAAP requires us to consider whether securitizations we sponsor and other transfers of financial assets should be treated as sales or financings, as well as whether any VIEs that we hold variable interests in – for example, certain legal entities often used in securitization and other structured finance transactions – should be included in our consolidated financial statements. The GAAP principles we apply require us to reassess our requirement to consolidate VIEs each quarter and therefore our determination may change based upon new facts and circumstances pertaining to each VIE. This could result in a material impact to our consolidated financial statements during subsequent reporting periods.

Analysis of Consolidated VIEs

At September 30, 2018, we consolidated our Legacy Sequoia and Sequoia Choice securitization entities that we determined were VIEs and for which we determined we were the primary beneficiary. Additionally, in the third quarter of 2018 we consolidated certain third-party Freddie Mac K-Series securitization entities that we determined were VIEs and for which we determined we were the primary beneficiary. Each of these entities is independent of Redwood and of each other and the assets and liabilities of these entities are not owned by and are not legal obligations of ours. Our exposure to these entities is primarily through the financial interests we have retained, although for the consolidated Sequoia entities we are exposed to certain financial risks associated with our role as a sponsor, servicing administrator, or depositor of these entities or as a result of our having sold assets directly or indirectly to these entities. At September 30, 2018, the estimated fair value of our investments in the consolidated Legacy Sequoia, Sequoia Choice, and Freddie Mac K-Series entities was \$12 million, \$196 million, and \$67 million, respectively. The following table presents a summary of the assets and liabilities of these VIEs.

Table 4.1 – Assets and Liabilities of Consolidated VIEs

September 30, 2018	Legacy	Sequoia	Freddie	Total
(Dollars in Thousands)	Sequoia	Choice	Mac	Consolidated
			K-Series	VIEs

Number of VIEs	20	2	—	22

We consolidate the assets and liabilities of certain Sequoia securitization entities, as we did not meet the GAAP sale criteria at the time we transferred financial assets to these entities. Our involvement in consolidated Sequoia entities continues in the following ways: (i) we continue to hold subordinate investments in each entity, and for certain entities, more senior investments; (ii) we maintain certain discretionary rights associated with our sponsorship of, or our subordinate investments in, each entity; and (iii) we continue to hold a right to call the assets of certain entities (once they have been paid down below a specified threshold) at a price equal to, or in excess of, the current outstanding principal amount of the entity's asset-backed securities issued. These factors have resulted in our continuing to consolidate the assets and liabilities of these Sequoia entities in accordance with GAAP.

Beginning in the third quarter of 2018, we consolidated the assets and liabilities of two Freddie Mac K-Series securitization trusts as we invested in multifamily subordinate securities issued by these trusts and maintain certain discretionary rights associated with the ownership of these investments. We determined that our involvement with these VIEs reflected a controlling financial interest, and that we have both the power to direct the activities that most significantly impact the economic performance of the VIEs and the right to receive benefits of and the obligation to absorb losses from the VIE that could potentially be significant to the VIEs.

Analysis of Unconsolidated VIEs with Continuing Involvement

Since 2012, we have transferred residential loans to 43 Sequoia securitization entities sponsored by us and accounted for these transfers as sales for financial reporting purposes, in accordance with ASC 860. We also determined we were not the primary beneficiary of these VIEs as we lacked the power to direct the activities that will have the most significant economic impact on the entities. For certain of these transfers to securitization entities, for the transferred loans where we held the servicing rights prior to the transfer and continued to hold the servicing rights following the transfer, we recorded mortgage servicing rights ("MSRs") on our consolidated balance sheets, and classified those MSRs as Level 3 assets. We also retained senior and subordinate securities in these securitizations that we classified as Level 3 assets. Our continuing involvement in these securitizations is limited to customary servicing obligations associated with retaining servicing rights (which we retain a third-party sub-servicer to perform) and the receipt of interest income associated with the securities we retained.

(In Thousands)	September 30, 2018	December 31, 2017
On-balance sheet assets, at fair value:		
Interest-only, senior and subordinate securities, classified as trading	\$ 130,598	\$ 101,426
Subordinate securities, classified as AFS	163,870	219,255
Mortgage servicing rights	62,325	60,980
Maximum loss exposure ⁽¹⁾	\$ 356,793	\$ 381,661
Assets transferred:		
Principal balance of loans outstanding	\$ 10,349,405	\$ 8,364,148
Principal balance of loans 30+ days delinquent	19,625	27,926

Maximum loss exposure from our involvement with unconsolidated VIEs pertains to the carrying value of our securities and MSRs retained from these VIEs and represents estimated losses that would be incurred under severe, (1) hypothetical circumstances, such as if the value of our interests and any associated collateral declines to zero. This does not include, for example, any potential exposure to representation and warranty claims associated with our initial transfer of loans into a securitization.

The following table presents key economic assumptions for assets retained from unconsolidated VIEs and the sensitivity of their fair values to immediate adverse changes in those assumptions at September 30, 2018 and December 31, 2017.

Table 4.6 – Key Assumptions and Sensitivity Analysis for Assets Retained from Unconsolidated VIEs Sponsored by Redwood

25% higher losses	N/A	—	3,873

(1) Senior securities included \$63 million and \$34 million of interest-only securities at September 30, 2018 and December 31, 2017, respectively.

(2) Expected life, prepayment speed assumption, discount rate assumption, and credit loss assumption presented in the tables above represent weighted averages.

Analysis of Unconsolidated Third-Party VIEs

Third-party VIEs are securitization entities in which we maintain an economic interest, but do not sponsor. Our economic interest may include several securities from the same third-party VIE, and in those cases, the analysis is performed in consideration of all of our interests. The following table presents a summary of our interests in third-party VIEs at September 30, 2018, grouped by security type.

Table 4.7 – Third-Party Sponsored VIE Summary

(Dollars in Thousands)	September 30, 2018	December 31, 2017
Mortgage-Backed Securities		
Senior	\$ 214,655	\$ 216,066
Mezzanine	538,847	508,010
Subordinate	422,114	431,753
Total Investments in Third-Party Sponsored VIEs	\$ 1,175,616	\$ 1,155,829

We determined that we are not the primary beneficiary of any third-party VIEs, as we do not have the required power to direct the activities that most significantly impact the economic performance of these entities. Specifically, we do not service or manage these entities or otherwise solely hold decision making powers that are significant. As a result of this assessment, we do not consolidate any of the underlying assets and liabilities of these third-party VIEs – we only account for our specific interests in them.

Our assessments of whether we are required to consolidate a VIE may change in subsequent reporting periods based upon changing facts and circumstances pertaining to each VIE. Any related accounting changes could result in a

material impact to our financial statements.

(Unaudited)

Note 5. Fair Value of Financial Instruments

For financial reporting purposes, we follow a fair value hierarchy established under GAAP that is used to determine the fair value of financial instruments. This hierarchy prioritizes relevant market inputs in order to determine an “exit price” at the measurement date, or the price at which an asset could be sold or a liability could be transferred in an orderly process that is not a forced liquidation or distressed sale. Level 1 inputs are observable inputs that reflect quoted prices for identical assets or liabilities in active markets. Level 2 inputs are observable inputs other than quoted prices for an asset or liability that are obtained through corroboration with observable market data. Level 3 inputs are unobservable inputs (e.g., our own data or assumptions) that are used when there is little, if any, relevant market activity for the asset or liability required to be measured at fair value.

In certain cases, inputs used to measure fair value fall into different levels of the fair value hierarchy. In such cases, the level at which the fair value measurement falls is determined based on the lowest level input that is significant to the fair value measurement. Our assessment of the significance of a particular input requires judgment and considers factors specific to the asset or liability being measured.

(1) These assets are included in Other assets on our consolidated balance sheets.

(2) These liabilities are included in Accrued expenses and other liabilities on our consolidated balance sheets.

During the three and nine months ended September 30, 2018, we elected the fair value option for \$32 million and \$105 million of residential senior securities, \$128 million and \$417 million of subordinate securities, and \$1.79 billion

and \$5.52 billion of residential loans (principal balance), respectively. Additionally, during the three months ended September 30, 2018, we elected the fair value option for \$126 million of business purpose loans (principal balance) and \$963 million of multifamily loans (principal balance). We anticipate electing the fair value option for all future purchases of residential loans that we intend to sell to third parties or transfer to securitizations, as well as for business purpose loans and for certain securities we purchase, including IO securities and fixed-rate securities rated investment grade or higher.

Note 5. Fair Value of Financial Instruments - (continued)

Footnote to Table 5.7

The fair value of the loans held by consolidated entities was based on the fair value of the ABS issued by these (1) entities, which we determined were more readily observable, in accordance with accounting guidance for collateralized financing entities.

Determination of Fair Value

A description of the instruments measured at fair value as well as the general classification of such instruments pursuant to the Level 1, Level 2, and Level 3 valuation hierarchy is listed herein. We generally use both market comparable information and discounted cash flow modeling techniques to determine the fair value of our Level 3 assets and liabilities. Use of these techniques requires determination of relevant inputs and assumptions, some of which represent significant unobservable inputs as indicated in the preceding table. Accordingly, a significant increase or decrease in any of these inputs – such as anticipated credit losses, prepayment rates, interest rates, or other valuation assumptions – in isolation would likely result in a significantly lower or higher fair value measurement.

Residential loans at Redwood

Estimated fair values for residential loans are determined using models that incorporate various observable inputs, including pricing information from whole loan sales and securitizations. Certain significant inputs in these models are considered unobservable and are therefore Level 3 in nature. Pricing inputs obtained from market whole loan transaction activity include indicative spreads to indexed to be announced ("TBA") prices and indexed swap rates for fixed-rate loans and indexed swap rates for hybrid loans (Level 3). Pricing inputs obtained from market securitization activity include indicative spreads to indexed TBA prices for senior residential mortgage-backed securities ("RMBS") and indexed swap rates for subordinate RMBS, and credit support levels (Level 3). Other unobservable inputs also include assumed future prepayment rates. Observable inputs include benchmark interest rates, swap rates, and TBA prices. These assets would generally decrease in value based upon an increase in the credit spread, prepayment speed, or credit support assumptions.

Residential and multifamily loans at consolidated entities

We have elected to account for the consolidated securitization entities as CFEs in accordance with GAAP. A CFE is a variable interest entity that holds financial assets and issues beneficial interests in those assets, and these beneficial interests have contractual recourse only to the related assets of the CFE. Accounting guidance for CFEs allow companies to elect to measure both the financial assets and financial liabilities of a CFE using the more observable of the fair value of the financial assets or fair value of the financial liabilities. Pursuant to this guidance, we use the fair value of the ABS issued by the CFEs (which we determined to be more observable) to determine the fair value of the loans held at these entities, whereby the net assets we consolidate in our financial statements related to these entities represent the estimated fair value of our retained interests in the CFEs.

Business purpose loans

Business purpose loans include fix-and-flip loans and single-family rental loans that are generally illiquid in nature and trade infrequently. Significant inputs in the valuation analysis are predominantly Level 3 in nature, due to the lack of readily available market quotes and related inputs.

Prices for our single-family rental loans are determined using market comparable information. Significant inputs obtained from market activity include indicative spreads to indexed swap rates (Level 3) for fixed-rate loans and assumed future prepayment rates. These assets would generally decrease in value based upon an increase in the credit spread or prepayment speed assumptions.

Prices for our fix-and-flip loans are determined using discounted cash flow modeling, which incorporates a primary significant unobservable input of discount rate. Other inputs include assumed future prepayment rates and anticipated

credit losses. These assets would generally decrease in value based upon an increase in the discount rate.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
September 30, 2018
(Unaudited)

Note 5. Fair Value of Financial Instruments - (continued)

Real estate securities

Real estate securities include residential, multifamily, and other mortgage-backed securities that are generally illiquid in nature and trade infrequently. Significant inputs in the valuation analysis are predominantly Level 3 in nature, due to the lack of readily available market quotes and related inputs. For real estate securities, we utilize both market comparable pricing and discounted cash flow analysis valuation techniques. Relevant market indicators that are factored into the analysis include bid/ask spreads, the amount and timing of credit losses, interest rates, and collateral prepayment rates. Estimated fair values are based on applying the market indicators to generate discounted cash flows (Level 3). These cash flow models use significant unobservable inputs such as a discount rate, prepayment rate, default rate and loss severity. The estimated fair value of our securities would generally decrease based upon an increase in default rates, loss severities, or a decrease in prepayment rates.

As part of our securities valuation process, we request and consider indications of value from third-party securities dealers. For purposes of pricing our securities at September 30, 2018, we received dealer price indications on 79% of our securities, representing 86% of our carrying value. In the aggregate, our internal valuations of the securities for which we received dealer price indications were within 1% of the aggregate average dealer valuations. Once we receive the price indications from dealers, they are compared to other relevant market inputs, such as actual or comparable trades, and the results of our discounted cash flow analysis. In circumstances where relevant market inputs cannot be obtained, increased reliance on discounted cash flow analysis and management judgment are required to estimate fair value.

Derivative assets and liabilities

Our derivative instruments include swaps, swaptions, TBAs, financial futures, loan purchase commitments ("LPCs"), and forward sale commitments ("FSCs"). Fair values of derivative instruments are determined using quoted prices from active markets, when available, or from valuation models and are supported by valuations provided by dealers active in derivative markets. Fair values of TBAs and financial futures are generally obtained using quoted prices from active markets (Level 1). Our derivative valuation models for swaps and swaptions require a variety of inputs, including contractual terms, market prices, yield curves, credit curves, measures of volatility, prepayment rates, and correlations of certain inputs. Model inputs can generally be verified and model selection does not involve significant management judgment (Level 2).

LPC and FSC fair values for jumbo loans are estimated based on the estimated fair values of the underlying loans (as described in "Residential loans at Redwood" above). In addition, fair values for LPCs are estimated based on the probability that the mortgage loan will be purchased (the "Pull-through rate") (Level 3).

For other derivatives, valuations are based on various factors such as liquidity, bid/ask spreads, and credit considerations for which we rely on available market inputs. In the absence of such inputs, management's best estimate is used (Level 3).

MSRs

MSRs include the rights to service jumbo and conforming residential mortgage loans. Significant inputs in the valuation analysis are predominantly Level 3, due to the nature of these instruments and the lack of readily available market quotes. Changes in the fair value of MSRs occur primarily due to the collection/realization of expected cash flows, as well as changes in valuation inputs and assumptions. Estimated fair values are based on applying the inputs to generate the net present value of estimated future MSR income (Level 3). These discounted cash flow models utilize certain significant unobservable inputs including market discount rates, assumed future prepayment rates of serviced loans, and the market cost of servicing. An increase in these unobservable inputs would generally reduce the estimated fair value of the MSRs.

As part of our MSR valuation process, we received a valuation estimate from a third-party valuations firm. In the aggregate, our internal valuation of the MSRs were within 2% of the third-party valuation.

FHLBC stock

Our Federal Home Loan Bank ("FHLB") member subsidiary is required to purchase Federal Home Loan Bank of Chicago ("FHLBC") stock under a borrowing agreement between our FHLB-member subsidiary and the FHLBC. Under this agreement, the stock is redeemable at face value, which represents the carrying value and fair value of the stock (Level 2).

REDWOOD TRUST, INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
September 30, 2018
(Unaudited)

Note 5. Fair Value of Financial Instruments - (continued)

Guarantee asset

The guarantee asset represents the estimated fair value of cash flows we are contractually entitled to receive related to a risk-sharing arrangement with Fannie Mae. Significant inputs in the valuation analysis are Level 3, due to the nature of this asset and the lack of market quotes. The fair value of the guarantee asset is determined using a discounted cash flow model, for which significant unobservable inputs include assumed future prepayment rates and market discount rate (Level 3). An increase in prepayment rates or discount rate would generally reduce the estimated fair value of the guarantee asset.

Pledged collateral

Pledged collateral consists of cash and U.S. Treasury securities held by a custodian in association with certain agreements we have entered into. Treasury securities are carried at their fair value, which is determined using quoted prices in active markets (Level 1).

Cash and cash equivalents

Cash and cash equivalents include cash on hand and highly liquid investments with original maturities of three months or less. Fair values equal carrying values (Level 1).

Restricted cash

Restricted cash primarily includes interest-earning cash balances related to risk-sharing transactions with the Agencies, cash held in association with borrowings from the FHLBC, and cash held at consolidated Sequoia entities for the purpose of distribution to investors and reinvestment. Due to the short-term nature of the restrictions, fair values approximate carrying values (Level 1).

Accrued interest receivable and payable

Accrued interest receivable and payable includes interest due on our assets and payable on our liabilities. Due to the short-term nature of when these interest payments will be received or paid, fair values approximate carrying values (Level 1).

Real Estate Owned

Real Estate Owned ("REO") includes properties owned in satisfaction of foreclosed loans. Fair values are determined using available market quotes, appraisals, broker price opinions, comparable properties, or other indications of value (Level 3).

Margin receivable

Margin receivable reflects cash collateral we have posted with our various derivative and debt counterparties as required to satisfy margin requirements. Fair values approximate carrying values (Level 2).

Short-term debt

Short-term debt includes our credit facilities that mature within one year. As these borrowings are secured and subject to margin calls and as the rates on these borrowings reset frequently to market rates, we believe that carrying values approximate fair values (Level 2). Additionally, at December 31, 2017, short-term debt included unsecured convertible senior notes with a maturity of less than one year. The fair value of the convertible notes is determined using quoted prices in generally active markets (Level 2).

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
September 30, 2018
(Unaudited)

Note 5. Fair Value of Financial Instruments - (continued)

ABS issued

ABS issued includes asset-backed securities issued through the Legacy Sequoia and Sequoia Choice securitization entities, as well as securities issued by certain third-party Freddie Mac K-series securitization entities which we consolidate. These instruments are generally illiquid in nature and trade infrequently. Significant inputs in the valuation analysis are predominantly Level 3, due to the nature of these instruments and the lack of readily available market quotes. For ABS issued, we utilize both market comparable pricing and discounted cash flow analysis valuation techniques. Relevant market indicators factored into the analysis include bid/ask spreads, the amount and timing of collateral credit losses, interest rates, and collateral prepayment rates. Estimated fair values are based on applying the market indicators to generate discounted cash flows (Level 3). These cash flow models use significant unobservable inputs such as a discount rate, prepayment rate, default rate, loss severity and credit support. A decrease in credit losses or discount rate, or an increase in prepayment rates, would generally cause the fair value of the ABS issued to decrease (i.e., become a larger liability).

FHLBC borrowings

FHLBC borrowings include amounts borrowed from the FHLBC that are secured, generally by residential mortgage loans. As these borrowings are secured and subject to margin calls and as the rates on these borrowings reset frequently to market rates, we believe that carrying values approximate fair values (Level 2).

Financial Instruments Carried at Amortized Cost

Participation in loan warehouse facility

Our participation in a loan warehouse facility is carried at amortized cost (Level 2).

Guarantee obligations

In association with our risk-sharing transactions with the Agencies, we have made certain guarantees which are carried on our balance sheet at amortized cost (Level 3).

Convertible notes

Convertible notes include unsecured convertible and exchangeable senior notes that are carried at their unpaid principal balance net of any unamortized deferred issuance costs (Level 2).

Trust preferred securities and subordinated notes

Trust preferred securities and subordinated notes are carried at their unpaid principal balance net of any unamortized deferred issuance costs (Level 3).

Note 6. Residential Loans

We acquire residential loans from third-party originators and may sell or securitize these loans or hold them for investment. The following table summarizes the classifications and carrying values of the residential loans owned at Redwood and at consolidated Sequoia entities at September 30, 2018 and December 31, 2017.

Table 6.1 – Classifications and Carrying Values of Residential Loans

September 30, 2018		Legacy	Sequoia	
(In Thousands)	Redwood	Sequoia	Choice	Total
Held-for-sale				
At fair value	\$866,331	\$—	\$—	\$866,331
At lower of cost or fair value	113	—	—	113
Total held-for-sale	866,444	—	—	866,444
Held-for-investment at fair value	2,320,662	553,958	2,181,195	5,055,815
Total Residential Loans	\$3,187,106	\$553,958	\$2,181,195	\$5,922,259
December 31, 2017		Legacy	Sequoia	
(In Thousands)	Redwood	Sequoia	Choice	Total
Held-for-sale				
At fair value	\$1,427,052	\$—	\$—	\$1,427,052
At lower of cost or fair value	893	—	—	893
Total held-for-sale	1,427,945	—	—	1,427,945
Held-for-investment at fair value	2,434,386	632,817	620,062	3,687,265
Total Residential Loans	\$3,862,331	\$632,817	\$620,062	\$5,115,210

At September 30, 2018, we owned mortgage servicing rights associated with \$2.53 billion (principal balance) of consolidated residential loans purchased from third-party originators. The value of these MSR's is included in the carrying value of the associated loans on our consolidated balance sheets. We contract with licensed sub-servicers that perform servicing functions for these loans.

Residential Loans Held-for-Sale

At Fair Value

At September 30, 2018, we owned 1,232 loans held-for-sale at fair value with an aggregate unpaid principal balance of \$859 million and a fair value of \$866 million, compared to 2,009 loans with an aggregate unpaid principal balance of \$1.41 billion and a fair value of \$1.43 billion at December 31, 2017. At September 30, 2018, one of these loans with a fair value of \$0.6 million was greater than 90 days delinquent and none of these loans were in foreclosure. At December 31, 2017, one of these loans with a fair value of \$0.5 million was greater than 90 days delinquent and none of these loans were in foreclosure.

During the three and nine months ended September 30, 2018, we purchased \$1.79 billion and \$5.52 billion (principal balance) of loans, respectively, for which we elected the fair value option, and we sold \$1.90 billion and \$5.83 billion (principal balance) of loans, respectively, for which we recorded net market valuation gains of \$6 million and \$16 million, respectively, through Mortgage banking activities, net on our consolidated statements of income. At September 30, 2018, loans held-for-sale with a market value of \$622 million were pledged as collateral under short-term borrowing agreements.

During the three and nine months ended September 30, 2017, we purchased \$1.43 billion and \$3.72 billion (principal balance) of loans, respectively, for which we elected the fair value option, and we sold \$1.05 billion and \$3.08 billion (principal balance) of loans, respectively, for which we recorded net market valuation gains of \$15 million and \$29 million, respectively, through Mortgage banking activities, net on our consolidated statements of income.

Note 6. Residential Loans - (continued)

At Lower of Cost or Fair Value

At September 30, 2018 and December 31, 2017, we held two and four residential loans, respectively, at the lower of cost or fair value with \$0.2 million and \$1 million in outstanding principal balance, respectively, and carrying values of \$0.1 million and \$1 million, respectively. At September 30, 2018, none of these loans were greater than 90 days delinquent or in foreclosure. At December 31, 2017, one of these loans with an unpaid principal balance of \$0.3 million was greater than 90 days delinquent and none of these loans were in foreclosure.

Residential Loans Held-for-Investment at Fair Value

At Redwood

At September 30, 2018, we owned 3,259 held-for-investment loans at Redwood with an aggregate unpaid principal balance of \$2.36 billion and a fair value of \$2.32 billion, compared to 3,292 loans with an aggregate unpaid principal balance of \$2.41 billion and a fair value of \$2.43 billion at December 31, 2017. At September 30, 2018, two of these loans with a total fair value of \$1 million were greater than 90 days delinquent and none of these loans were in foreclosure. At December 31, 2017, none of these loans were greater than 90 days delinquent or in foreclosure. During the three and nine months ended September 30, 2018, we transferred loans with a fair value of \$116 million and \$204 million, respectively, from held-for-sale to held-for-investment. During the three and nine months ended September 30, 2018, we transferred loans with a fair value of \$16 million from held-for-investment to held-for-sale. During the three and nine months ended September 30, 2018, we recorded net market valuation losses of \$17 million and \$71 million, respectively, on residential loans held-for-investment at fair value through Investment fair value changes, net on our consolidated statements of income. At September 30, 2018, loans with a fair value of \$2.27 billion were pledged as collateral under a borrowing agreement with the FHLBC.

During the three and nine months ended September 30, 2017, we transferred loans with a fair value of \$78 million and \$326 million, respectively, from held-for-sale to held-for-investment. During both the three and nine months ended September 30, 2017, we transferred loans with a fair value of \$98 million from held-for-investment to held-for-sale. During the three and nine months ended September 30, 2017, we recorded net market valuation gains of \$3 million and \$9 million, respectively, on residential loans held-for-investment at fair value through Investment fair value changes, net on our consolidated statements of income.

At September 30, 2018, the outstanding loans held-for-investment at Redwood were prime-quality, first lien loans, of which 96% were originated between 2013 and 2018, and 4% were originated in 2012 and prior years. The weighted average Fair Isaac Corporation ("FICO") score of borrowers backing these loans was 769 (at origination) and the weighted average loan-to-value ("LTV") ratio of these loans was 66% (at origination). At September 30, 2018, these loans were comprised of 87% fixed-rate loans with a weighted average coupon of 4.08%, and the remainder were hybrid or ARM loans with a weighted average coupon of 4.20%.

At Consolidated Legacy Sequoia Entities

At September 30, 2018, we consolidated 2,777 held-for-investment loans at consolidated Legacy Sequoia entities, with an aggregate unpaid principal balance of \$581 million and a fair value of \$554 million, as compared to 3,178 loans at December 31, 2017, with an aggregate unpaid principal balance of \$698 million and a fair value of \$633 million. At origination, the weighted average FICO score of borrowers backing these loans was 728, the weighted average LTV ratio of these loans was 66%, and the loans were nearly all first lien and prime-quality.

At September 30, 2018 and December 31, 2017, the unpaid principal balance of loans at consolidated Legacy Sequoia entities delinquent greater than 90 days was \$16 million and \$25 million, respectively, of which the unpaid principal balance of loans in foreclosure was \$8 million and \$10 million, respectively. During the three and nine months ended September 30, 2018, we recorded net market valuation gains of \$4 million and \$37 million, respectively, on these loans through Investment fair value changes, net on our consolidated statements of income. During the three and nine

months ended September 30, 2017, we recorded net market valuation gains of \$4 million and \$24 million, respectively, on these loans through Investment fair value changes, net on our consolidated statements of income. Pursuant to the collateralized financing entity guidelines, the market valuation changes of these loans are based on the estimated fair value of the associated ABS issued. The net impact to our income statement associated with our retained economic investment in the Legacy Sequoia securitization entities is presented in Note 5.

 September 30, 2018
 (Unaudited)

Note 6. Residential Loans - (continued)

At Consolidated Sequoia Choice Entities

At September 30, 2018, we consolidated 2,928 held-for-investment loans at the consolidated Sequoia Choice entities, with an aggregate unpaid balance of \$2.16 billion and a fair value of \$2.18 billion, as compared to 806 loans at December 31, 2017 with an aggregate unpaid principal balance of \$605 million and a fair value of \$620 million. At origination, the weighted average FICO score of borrowers backing these loans was 744, the weighted average LTV ratio of these loans was 75%, and the loans were all first lien and prime-quality. At September 30, 2018, one of these loans with an unpaid principal balance of \$1 million was greater than 90 days delinquent and none of these loans were in foreclosure. At December 31, 2017, none of these loans were greater than 90 days delinquent or in foreclosure. During the three and nine months ended September 30, 2018, we transferred loans with a fair value of \$796 million and \$1.78 billion, respectively, from held-for-sale to held-for-investment associated with Choice securitizations. During the three and nine months ended September 30, 2018, we recorded net market valuation losses of \$13 million and \$25 million, respectively, on these loans through Investment fair value changes, net on our consolidated statements of income. Pursuant to the collateralized financing entity guidelines, the market valuation changes of these loans are based on the estimated fair value of the ABS issued associated with Choice securitizations. The net impact to our income statement associated with our retained economic investment in the Sequoia Choice securitization entities is presented in Note 5.

Note 7. Business Purpose Loans

Our business purpose loans include single-family rental loans and fix-and-flip loans. At September 30, 2018, all of our outstanding business purpose loans were acquired from a related party, 5 Arches LLC ("5 Arches"). See Note 11 for information on our equity investment in 5 Arches. The following table summarizes the classifications and carrying values of the business purpose loans owned at Redwood at September 30, 2018 and December 31, 2017.

Table 7.1 – Classifications and Carrying Values of Business Purpose Loans

(In Thousands)	September 30, December 31,	
	2018	2017
Single-family rental loans, held-for-sale at fair value	\$ 20,105	\$ —
Fix-and-flip loans, held-for-investment at fair value	95,515	—
Total Business Purpose Loans	\$ 115,620	\$ —

Single-Family Rental Loans Held-for-Sale at Fair Value

Under an agreement with 5 Arches, we have exclusive access to their single-family rental loan production through April 2019. At September 30, 2018, we owned four single-family rental loans purchased under this agreement with an aggregate unpaid principal balance of \$20 million and a fair value of \$20 million. At September 30, 2018, none of these loans were greater than 90 days delinquent or in foreclosure. During both the three and nine months ended September 30, 2018, we purchased \$20 million (principal balance) of loans, for which we elected the fair value option, and we did not sell any loans. During both the three and nine months ended September 30, 2018, we recorded a net market valuation loss of \$0.1 million on single-family rental loans held-for-sale at fair value through Mortgage banking activities, net on our consolidated statements of income. At September 30, 2018, loans held-for-sale with a market value of \$20 million were pledged as collateral under short-term borrowing agreements.

The outstanding single-family rental loans held-for-sale at September 30, 2018 were first lien, fixed-rate loans with maturities of five, seven, or ten years. At September 30, 2018, the weighted average coupon of our single-family rental loans was 5.71% and the weighted average loan term was seven years. At origination, the weighted average LTV ratio of these loans was 65% and the weighted average debt service coverage ratio ("DSCR") was 1.25.

REDWOOD TRUST, INC. AND SUBSIDIARIES
 NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

September 30, 2018

(Unaudited)

Note 7. Business Purpose Loans - (continued)

Fix-and-Flip Loans Held-for-Investment at Fair Value

At September 30, 2018, we owned 128 fix-and-flip loans held-for-investment with an aggregate unpaid principal balance of \$95 million and a fair value of \$96 million. At September 30, 2018, two of these loans with an aggregate unpaid principal balance of \$1 million were greater than 90 days delinquent and none of these loans were in foreclosure. During both the three and nine months ended September 30, 2018, we purchased \$106 million (principal balance) of loans, and we did not sell any loans. During both the three and nine months ended September 30, 2018, we recorded a net market valuation gain of less than \$0.1 million on fix-and-flip loans held-for-investment at fair value through Investment fair value changes, net on our consolidated statements of income. At September 30, 2018, loans with a market value of \$92 million were pledged as collateral under short-term borrowing agreements.

The outstanding fix-and-flip loans held-for-investment at September 30, 2018 were first lien, fixed-rate, interest-only loans with a weighted average coupon of 9.14% and original maturities of 6 to 24 months. At origination, the weighted average FICO score of borrowers backing these loans was 718, the weighted average LTV ratio of these loans was 76%, and the estimated rehabilitated LTV ratio was 57%.

Note 8. Multifamily Loans

During the third quarter of 2018, we invested in multifamily subordinate securities issued by two Freddie Mac K-Series securitization trusts and were required to consolidate the underlying multifamily loans owned at these entities for financial reporting purposes in accordance with GAAP. At September 30, 2018, we consolidated 80 held-for-investment multifamily loans, with an aggregate unpaid balance of \$963 million and a fair value of \$942 million. We did not own or consolidate any multifamily loans at December 31, 2017. The outstanding multifamily loans held-for-investment at the Freddie Mac K-Series entities at September 30, 2018 were first lien, fixed-rate loans that were originated in 2015 and 2016 and had original loan terms of seven to ten years and an original weighted average LTV ratio of 69%. At September 30, 2018, the weighted average coupon of these multifamily loans was 4.15% and the weighted average loan term was seven years. At September 30, 2018, none of these loans were greater than 90 days delinquent or in foreclosure.

During both the three and nine months ended September 30, 2018, we recorded a net market valuation loss of \$4 million on these loans through Investment fair value changes, net on our consolidated statements of income. Pursuant to the collateralized financing entity guidelines, the market valuation changes of these loans are based on the estimated fair value of the ABS issued associated with the securitizations. The net impact to our income statement associated with our economic investment in the securities of the Freddie Mac K-Series securitization entities is presented in Note 5.

Note 9. Real Estate Securities

We invest in real estate securities that we acquire from third parties or create and retain from our Sequoia securitizations. The following table presents the fair values of our real estate securities by type at September 30, 2018 and December 31, 2017.

Table 9.1 – Fair Values of Real Estate Securities by Type

(In Thousands)	September 30, December 31,	
	2018	2017
Trading	\$ 1,108,243	\$ 968,844
Available-for-sale	361,841	507,666
Total Real Estate Securities	\$ 1,470,084	\$ 1,476,510

Our real estate securities include mortgage-backed securities, which are presented in accordance with their general position within a securitization structure based on their rights to cash flows. Senior securities are those interests in a securitization that generally have the first right to cash flows and are last in line to absorb losses. Mezzanine securities

are interests that are generally subordinate to senior securities in their rights to receive cash flows, and have subordinate securities below them that are first to absorb losses. Most of our mezzanine classified securities were initially rated AA through BBB- and issued in 2012 or later. Subordinate securities are all interests below mezzanine. Nearly all of our residential securities are supported by collateral that was designated as prime at the time of issuance.

REDWOOD TRUST, INC. AND SUBSIDIARIES
 NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
 September 30, 2018
 (Unaudited)

Note 9. Real Estate Securities - (continued)

Trading Securities

The following table presents the fair value of trading securities by position and collateral type at September 30, 2018 and December 31, 2017.

Table 9.2 – Trading Securities by Position and Collateral Type

(In Thousands)	September 30, December 31,	
	2018	2017
Senior	\$ 163,022	\$ 69,974
Mezzanine	602,235	563,475
Subordinate	342,986	335,395
Total Trading Securities	\$ 1,108,243	\$ 968,844

We elected the fair value option for certain securities and classify them as trading securities. Our trading securities include both residential and multifamily securities. At September 30, 2018, trading securities with a carrying value of \$668 million as well as \$129 million of securities retained from our consolidated Sequoia Choice securitizations were pledged as collateral under short-term borrowing agreements. See Note 12 for additional information on short-term debt.

At September 30, 2018 and December 31, 2017, our senior trading securities included \$86 million and \$70 million of interest-only securities, respectively, for which there is no principal balance, and the remaining unpaid principal balance of our senior trading securities was \$79 million and zero, respectively. Our interest-only securities included \$42 million and \$15 million of A-IO-S securities at September 30, 2018 and December 31, 2017, respectively, which are securities we retained from certain of our Sequoia securitizations that represent certificated servicing strips.

At September 30, 2018 and December 31, 2017, our mezzanine and subordinate trading securities had an unpaid principal balance of \$1.07 billion and \$943 million, respectively. At September 30, 2018 and December 31, 2017, the fair value of our mezzanine and subordinate securities was \$945 million and \$899 million, respectively, and included \$236 million and \$301 million, respectively, of Agency residential mortgage credit risk transfer (or "CRT") securities, \$68 million and \$68 million, respectively, of Sequoia securities, \$225 million and \$206 million, respectively, of other third-party residential securities, and \$417 million and \$324 million, respectively, of third-party multifamily securities.

During the three and nine months ended September 30, 2018, we acquired \$189 million and \$567 million (principal balance), respectively, of securities for which we elected the fair value option and classified as trading, and sold \$79 million and \$323 million, respectively, of such securities. During the three and nine months ended September 30, 2017, we acquired \$171 million and \$432 million (principal balance), respectively, of securities for which we elected the fair value option and classified as trading, and sold \$25 million and \$85 million, respectively, of such securities. During the three and nine months ended September 30, 2018, we recorded net market valuation gains of \$6 million and \$2 million, respectively, on trading securities, included in Investment fair value changes, net on our consolidated statements of income. During the three and nine months ended September 30, 2017, we recorded net market valuation gains of \$1 million and \$31 million, respectively, on trading securities, included in Investment fair value changes, net on our consolidated statements of income.

 (Unaudited)

Note 9. Real Estate Securities - (continued)

AFS Securities

The following table presents the fair value of our available-for-sale securities by position and collateral type at September 30, 2018 and December 31, 2017.

Table 9.3 – Available-for-Sale Securities by Position and Collateral Type

(In Thousands)	September 30, December 31,	
	2018	2017
Senior	\$ 114,628	\$ 179,864
Mezzanine	36,377	92,002
Subordinate	210,836	235,800
Total AFS Securities	\$ 361,841	\$ 507,666

At September 30, 2018 and December 31, 2017, all of our available-for-sale securities were comprised of residential mortgage-backed securities. At September 30, 2018, AFS securities with a carrying value of \$121 million were pledged as collateral under short-term borrowing agreements. See Note 12 for additional information on short-term debt.

During the three and nine months ended September 30, 2018, we purchased \$1 million and \$7 million of AFS securities, respectively, and sold \$26 million and \$118 million of AFS securities, respectively, which resulted in net realized gains of \$7 million and \$21 million, respectively. During the three and nine months ended September 30, 2017, we purchased \$4 million and \$32 million of AFS securities, respectively, and sold \$23 million and \$61 million of AFS securities, respectively, which resulted in net realized gains of \$2 million and \$9 million, respectively.

We often purchase AFS securities at a discount to their outstanding principal balances. To the extent we purchase an AFS security that has a likelihood of incurring a loss, we do not amortize into income the portion of the purchase discount that we do not expect to collect due to the inherent credit risk of the security. We may also expense a portion of our investment in the security to the extent we believe that principal losses will exceed the purchase discount. We designate any amount of unpaid principal balance that we do not expect to receive and thus do not expect to earn or recover as a credit reserve on the security. Any remaining net unamortized discounts or premiums on the security are amortized into income over time using the effective yield method.

At September 30, 2018, there were less than \$0.1 million of AFS securities with contractual maturities less than five years, \$2 million with contractual maturities greater than five years but less than 10 years, and the remainder of our AFS securities had contractual maturities greater than 10 years.

The following table presents the components of carrying value (which equals fair value) of AFS securities at September 30, 2018 and December 31, 2017.

AFS Securities with Unrealized Losses

The following table presents the components comprising the total carrying value of residential AFS securities that were in a gross unrealized loss position at September 30, 2018 and December 31, 2017.

Table 9.6 – Components of Fair Value of Residential AFS Securities by Holding Periods

(In Thousands)	Less Than 12 Consecutive Months			12 Consecutive Months or Longer		
	Amortized Cost	Unrealized Losses	Fair Value	Amortized Cost	Unrealized Losses	Fair Value
September 30, 2018	\$14,791	\$ (567)	\$14,224	\$23,901	\$ (668)	\$23,233
December 31, 2017	8,637	(132)	8,505	28,557	(1,235)	27,322

At September 30, 2018, after giving effect to purchases, sales, and extinguishment due to credit losses, our consolidated balance sheet included 139 AFS securities, of which 11 were in an unrealized loss position and three were in a continuous unrealized loss position for 12 consecutive months or longer. At December 31, 2017, our consolidated balance sheet included 167 AFS securities, of which nine were in an unrealized loss position and three were in a continuous unrealized loss position for 12 consecutive months or longer.

 (Unaudited)

Note 9. Real Estate Securities - (continued)

Evaluating AFS Securities for Other-than-Temporary Impairments

Gross unrealized losses on our AFS securities were \$1 million at September 30, 2018. We evaluate all securities in an unrealized loss position to determine if the impairment is temporary or other-than-temporary (resulting in an OTTI). At September 30, 2018, we did not intend to sell any of our AFS securities that were in an unrealized loss position, and it is more likely than not that we will not be required to sell these securities before recovery of their amortized cost basis, which may be at their maturity. We review our AFS securities that are in an unrealized loss position to identify those securities with losses that are other-than-temporary based on an assessment of changes in expected cash flows for such securities, which considers recent security performance and expected future performance of the underlying collateral.

For the three months ended September 30, 2018, other-than-temporary impairments were \$0.4 million, of which less than \$0.1 million were recognized through our consolidated statements of income and \$0.3 million were recognized in Accumulated other comprehensive income, a component of our consolidated balance sheet. For the nine months ended September 30, 2018, other-than-temporary impairments were \$0.6 million, of which \$0.1 million were recognized through our consolidated statements of income and \$0.5 million were recognized in Accumulated other comprehensive income, a component of our consolidated balance sheet. AFS securities for which OTTI is recognized have experienced, or are expected to experience, credit-related adverse cash flow changes. In determining our estimate of cash flows for AFS securities we may consider factors such as structural credit enhancement, past and expected future performance of underlying mortgage loans, including timing of expected future cash flows, which are informed by prepayment rates, default rates, loss severities, delinquency rates, percentage of non-performing loans, FICO scores at loan origination, year of origination, loan-to-value ratios, and geographic concentrations, as well as general market assessments. Changes in our evaluation of these factors impacted the cash flows expected to be collected at the OTTI assessment date and were used to determine if there were credit-related adverse cash flows and if so, the amount of credit related losses. Significant judgment is used in both our analysis of the expected cash flows for our AFS securities and any determination of the credit loss component of OTTI.

The table below summarizes the significant valuation assumptions we used for our AFS securities in unrealized loss positions at September 30, 2018.

Table 9.7 – Significant Valuation Assumptions

September 30, 2018	Range for Securities
Prepayment rates	6% - 10%
Projected losses	0.20% - 3%

The following table details the activity related to the credit loss component of OTTI (i.e., OTTI recognized through earnings) for AFS securities held at September 30, 2018 and 2017, for which a portion of an OTTI was recognized in other comprehensive income.

 NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

September 30, 2018

(Unaudited)

Note 10. Derivative Financial Instruments - (continued)

Risk Management Derivatives

To manage, to varying degrees, risks associated with certain assets and liabilities on our consolidated balance sheets, we may enter into derivative contracts. At September 30, 2018, we were party to swaps and swaptions with an aggregate notional amount of \$3.70 billion, TBA agreements sold with an aggregate notional amount of \$1.98 billion, and financial futures contracts with an aggregate notional amount of \$15 million. At December 31, 2017, we were party to swaps and swaptions with an aggregate notional amount of \$3.21 billion, TBA agreements sold with an aggregate notional amount of \$1.70 billion, and financial futures contracts with an aggregate notional amount of \$8 million.

During the three and nine months ended September 30, 2018, risk management derivatives had net market valuation gains of \$25 million and \$114 million, respectively. During the three and nine months ended September 30, 2017, risk management derivatives had net market valuation losses of \$9 million and \$36 million, respectively. These market valuation gains and losses are recorded in Mortgage banking activities, net, Investment fair value changes, net, and Other income, net on our consolidated statements of income.

Loan Purchase and Forward Sale Commitments

LPCs and FSCs that qualify as derivatives are recorded at their estimated fair values. For the three and nine months ended September 30, 2018, LPCs and FSCs had a net market valuation gain of \$2 million and a net market valuation loss of \$8 million, respectively, that were recorded in Mortgage banking activities, net on our consolidated statements of income. For the three and nine months ended September 30, 2017, LPCs had net market valuation gains of \$13 million and \$34 million, respectively, that were recorded in Mortgage banking activities, net on our consolidated statements of income.

Derivatives Designated as Cash Flow Hedges

To manage the variability in interest expense related to portions of our long-term debt that are included in our consolidated balance sheets for financial reporting purposes, we designated certain interest rate swaps as cash flow hedges with an aggregate notional balance of \$140 million.

For the three and nine months ended September 30, 2018, changes in the values of designated cash flow hedges were positive \$5 million and positive \$17 million, respectively, and were recorded in Accumulated other comprehensive income, a component of equity. For the three and nine months ended September 30, 2017, changes in the values of designated cash flow hedges were positive \$0.3 million and negative \$0.4 million, respectively, and were recorded in Accumulated other comprehensive income, a component of equity. For interest rate agreements currently or previously designated as cash flow hedges, our total unrealized loss reported in Accumulated other comprehensive income was \$26 million and \$43 million at September 30, 2018 and December 31, 2017, respectively.

The following table illustrates the impact on interest expense of our interest rate agreements accounted for as cash flow hedges for the three and nine months ended September 30, 2018 and 2017.

Table 10.2 – Impact on Interest Expense of Interest Rate Agreements Accounted for as Cash Flow Hedges

	Three Months		Nine Months	
	Ended		Ended September

Derivative Counterparty Credit Risk

As discussed in our Annual Report on Form 10-K for the year ended December 31, 2017, we consider counterparty risk as part of our fair value assessments of all derivative financial instruments at each quarter-end. At September 30, 2018, we assessed this risk as remote and did not record a specific valuation adjustment.

Total Accrued Expenses and Other Liabilities	\$ 102,278	\$ 67,729

Mortgage Servicing Rights

We invest in mortgage servicing rights associated with residential mortgage loans and contract with licensed sub-servicers to perform all servicing functions for these loans. The majority of our investments in MSRs were made through the retention of servicing rights associated with the residential jumbo mortgage loans that we acquired and subsequently transferred to third parties. We hold our MSR investments at our taxable REIT subsidiary.

REDWOOD TRUST, INC. AND SUBSIDIARIES

Security Purchase Deposit

In the third quarter of 2018, we entered into an agreement with Freddie Mac to purchase mortgage-backed securities to be issued in a securitization transaction sponsored by Freddie Mac that is expected to close in the fourth quarter of 2018. Pursuant to the terms of this agreement, we plan to acquire subordinate securities backed by a pool of seasoned re-performing residential first lien mortgage loans. We deposited \$58 million with Freddie Mac towards the purchase price of these securities at the time we entered into this agreement. See Note 15 for further discussion of this agreement with Freddie Mac.

Margin Receivable and Payable

Margin receivable and payable resulted from margin calls between us and our counterparties under derivatives, master repurchase agreements, and warehouse facilities, whereby we or the counterparty posted collateral.

REDWOOD TRUST, INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

September 30, 2018

(Unaudited)

Note 11. Other Assets and Liabilities - (continued)

FHLBC Stock

In accordance with our FHLB-member subsidiary's borrowing agreement with the FHLBC, our subsidiary is required to purchase and hold stock in the FHLBC. See Note 3 and Note 14 for additional information on this borrowing agreement.

Participation in Loan Warehouse Facility

In the second quarter of 2018, we invested in a subordinated participation in a revolving mortgage loan warehouse credit facility of one of our loan sellers. While our interest is subordinated, it is secured by the loans collateralizing the facility and we have recourse to the loan seller. We account for this subordinated participation interest as a loan receivable at amortized cost, and all associated interest income is recorded as a component of Other interest income in our consolidated statements of income. We monitor the credit quality of the warehouse line of credit and utilize such information in our evaluation of the appropriateness of the allowance for credit losses. As of September 30, 2018, we determined no allowance for credit losses was required for this receivable.

Investment in 5 Arches

On May 1, 2018, we acquired a 20% minority interest in 5 Arches for \$10 million, which included a one-year option to purchase all remaining equity in the company for a combination of cash and stock totaling \$40 million. 5 Arches is an originator and asset manager of business-purpose residential mortgage loans, including loans to investors in single-family rental properties, bridge loans for investors in multifamily properties, and fix-and-flip loans. In connection with this investment, we also entered into a loan flow purchase agreement, which gives us exclusive access to 5 Arches' single-family rental loan production for a one-year period. See Note 7 for discussion on our business purpose loan portfolio and the loans we have acquired from 5 Arches.

We account for our ownership interest in 5 Arches using the equity method of accounting as we are able to exert significant influence over but do not control the activities of the investee. At September 30, 2018, the carrying amount of our investment in 5 Arches was \$7 million. We account for our purchase option as a cost method investment, which had a carrying value of \$4 million at September 30, 2018. We have elected to record our share of earnings or losses from 5 Arches on a one-quarter lag. During the three months ended September 30, 2018, we recorded \$0.2 million of gross income associated with this investment and, including amortization of certain intangible assets, recorded \$0.1 million of net earnings in Other income, net on our consolidated statements of income.

Guarantee Asset, Pledged Collateral, and Guarantee Obligations

The pledged collateral, guarantee asset, and guarantee obligations presented in the tables above are related to our risk-sharing arrangements with Fannie Mae and Freddie Mac. In accordance with these arrangements, we are required to pledge collateral to secure our guarantee obligations. See Note 15 for additional information on our risk-sharing arrangements.

Investment Receivable

At September 30, 2018, investment receivable primarily consisted of \$35 million of trade receivables related to real estate securities sales. In accordance with our policy to record purchases and sales of securities on the trade date, if the trade and settlement of a purchase or sale crosses over a quarterly reporting period, we will record an investment receivable for sales and an unsettled trades liability for purchases.

REO

The carrying value of REO at September 30, 2018 was \$3 million, which includes the net effect of \$2 million related to transfers into REO during the nine months ended September 30, 2018, offset by \$3 million of REO liquidations, and \$0.3 million of unrealized gains resulting from market valuation adjustments. At September 30, 2018 and December 31, 2017, there were 10 and 14 REO properties, respectively, recorded on our consolidated balance sheets, all of which were owned at consolidated Legacy Sequoia entities.

Legal and Repurchase Reserves

See Note 15 for additional information on the legal and residential repurchase reserves.

 (Unaudited)

Note 12. Short-Term Debt

We enter into repurchase agreements, bank warehouse agreements, and other forms of collateralized (and generally uncommitted) short-term borrowings with several banks and major investment banking firms. At September 30, 2018, we had outstanding agreements with several counterparties and we were in compliance with all of the related covenants. For additional information about these financial covenants and our short-term debt, see Part I, Item 2 – Management’s Discussion and Analysis of Financial Condition and Results of Operations of this Quarterly Report on Form 10-Q and Part II, Item 7 of our Annual Report on Form 10-K for the year ended December 31, 2017.

The table below summarizes our short-term debt, including the facilities that are available to us, the outstanding balances, the weighted average interest rate, and the maturity information at September 30, 2018 and December 31, 2017.

Table 12.1 – Short-Term Debt

Total Short-Term Debt		\$1,938,682				

Borrowings under our facilities are generally charged interest based on a specified margin over the one-month (1)LIBOR interest rate. At September 30, 2018, all of these borrowings were under uncommitted facilities and were due within 364 days (or less) of the borrowing date.

Due to the revolving nature of the borrowings under these facilities, we have classified these facilities as short-term (2)debt at September 30, 2018. Borrowings under these facilities will be repaid as the underlying loans mature or are sold to third parties or transferred to securitizations.

REDWOOD TRUST, INC. AND SUBSIDIARIES
 NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

September 30, 2018

(Unaudited)

Note 12. Short-Term Debt - (continued)

The fair value of held-for-sale residential loans and real estate securities pledged as collateral under our short-term debt facilities was \$622 million and \$918 million, respectively, at September 30, 2018 and \$1.15 billion and \$788 million, respectively, at December 31, 2017. At September 30, 2018, the fair value of our real estate securities pledged as collateral included \$129 million of securities retained from our consolidated Sequoia Choice securitizations and \$11 million of securities we owned that were issued by consolidated Freddie Mac K-series securitizations. At September 30, 2018, the fair value of single-family rental and fix-and-flip loans pledged as collateral under our warehouse facilities was \$20 million and \$92 million, respectively. For the three and nine months ended September 30, 2018, the average balances of our short-term debt facilities were \$1.56 billion and \$1.47 billion, respectively. At September 30, 2018 and December 31, 2017, accrued interest payable on our short-term debt facilities was \$3 million and \$2 million, respectively.

During the second quarter of 2017, \$288 million principal amount of 4.625% convertible senior notes and \$2 million of unamortized deferred issuance costs were reclassified from long-term debt to short-term debt, as the maturity of the notes was less than one year as of April 2017. Additionally, during the second quarter of 2017, we repurchased \$37 million par value of these notes at a premium and recorded a loss on extinguishment of debt of \$1 million in Realized gains, net on our consolidated statements of income. In April 2018, we repaid these \$250 million convertible notes and all related accrued interest in full. See Note 14 for additional information on our convertible notes.

We also maintain a \$10 million committed line of credit with a financial institution that is secured by certain mortgage-backed securities with a fair market value of \$4 million at September 30, 2018. At both September 30, 2018 and December 31, 2017, we had no outstanding borrowings on this facility.

Remaining Maturities of Short-Term Debt

The following table presents the remaining maturities of our secured short-term debt by the type of collateral securing the debt at September 30, 2018.

Table 12.2 – Short-Term Debt by Collateral Type and Remaining Maturities

Note 13. Asset-Backed Securities Issued

Through our Sequoia securitization program, we sponsor securitization transactions in which ABS backed by residential mortgage loans are issued by Sequoia entities. We consolidated the Legacy Sequoia and Sequoia Choice securitization entities, and beginning in the third quarter of 2018, certain third-party Freddie Mac K-Series securitization entities, that we determined were VIEs and for which we determined we were the primary beneficiary. Each consolidated securitization entity is independent of Redwood and of each other and the assets and liabilities are not owned by and are not legal obligations of Redwood. Our exposure to these entities is primarily through the financial interests we have retained, although we are exposed to certain financial risks associated with our role as a sponsor, servicing administrator, or depositor of these entities or as a result of our having sold assets directly or indirectly to these entities.

REDWOOD TRUST, INC. AND SUBSIDIARIES
 NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

September 30, 2018

(Unaudited)

Note 13. Asset-Backed Securities Issued - (continued)

We account for the ABS issued under our consolidated entities at fair value, with periodic changes in fair value recorded in Investment fair value changes, net on our consolidated statements of income. Pursuant to the CFE guidelines, the market valuation changes on our loans are based on the estimated fair value of the associated ABS issued. The net impact to our income statement associated with our retained economic investment in each of these securitization entities is presented in Note 5.

The ABS issued by these entities consist of various classes of securities that pay interest on a monthly or quarterly basis. All ABS issued by the Sequoia Choice and Freddie Mac K-Series entities pay fixed rates of interest and substantially all ABS issued by the Legacy Sequoia entities pay variable rates of interest, which are indexed to one-, three-, or six-month LIBOR. ABS issued also includes some interest-only classes with coupons set at a fixed spread to a benchmark rate, or set at a spread to the interest rates earned on the assets less the interest rates paid on the liabilities of a securitization entity.

The carrying values of ABS issued by Sequoia securitization entities we sponsored at September 30, 2018 and December 31, 2017, along with other selected information, are summarized in the following table.

Note 13. Asset-Backed Securities Issued - (continued)

The actual maturity of each class of ABS issued is primarily determined by the rate of principal prepayments on the assets of the issuing entity. Each series is also subject to redemption prior to the stated maturity according to the terms of the respective governing documents of each ABS issuing entity. As a result, the actual maturity of ABS issued may occur earlier than its stated maturity. At September 30, 2018, all of the ABS issued and outstanding had contractual maturities beyond five years. The following table summarizes the accrued interest payable on ABS issued at September 30, 2018 and December 31, 2017. Interest due on consolidated ABS issued is payable monthly.

REDWOOD TRUST, INC. AND SUBSIDIARIES
 NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
 September 30, 2018
 (Unaudited)

Note 14. Long-Term Debt

FHLBC Borrowings

In July 2014, our FHLB-member subsidiary entered into a borrowing agreement with the Federal Home Loan Bank of Chicago. At September 30, 2018, under this agreement, our subsidiary could incur borrowings up to \$2.00 billion, also referred to as “advances,” from the FHLBC secured by eligible collateral, including residential mortgage loans. During the three and nine months ended September 30, 2018, our FHLB-member subsidiary made no additional borrowings under this agreement. Under a final rule published by the Federal Housing Finance Agency in January 2016, our FHLB-member subsidiary will remain an FHLB member through the five-year transition period for captive insurance companies. Our FHLB-member subsidiary's existing \$2.00 billion of FHLB debt, which matures beyond this transition period, is permitted to remain outstanding until its stated maturity. As residential loans pledged as collateral for this debt pay down, we are permitted to pledge additional loans or other eligible assets to collateralize this debt; however, we do not expect to be able to increase our subsidiary's FHLB debt above the existing \$2.00 billion maximum.

At September 30, 2018, \$2.00 billion of advances were outstanding under this agreement, which were classified as long-term debt, with a weighted average interest rate of 2.24% and a weighted average maturity of approximately seven years. At December 31, 2017, \$2.00 billion of advances were outstanding under this agreement, which were classified as long-term debt, with a weighted average interest rate of 1.38% and a weighted average maturity of eight years. Advances under this agreement incur interest charges based on a specified margin over the FHLBC's 13-week discount note rate, which resets every 13 weeks. At September 30, 2018, total advances under this agreement were secured by residential mortgage loans with a fair value of \$2.27 billion and restricted cash of \$25 million. This agreement also requires our subsidiary to purchase and hold stock in the FHLBC in an amount equal to a specified percentage of outstanding advances. At September 30, 2018, our subsidiary held \$43 million of FHLBC stock that is included in Other assets in our consolidated balance sheets.

The following table presents maturities of our FHLBC borrowings by year at September 30, 2018.

Table 14.1 – Maturities of FHLBC Borrowings by Year

(In Thousands)	September 30, 2018
2024	\$ 470,171
2025	887,639
2026	642,189
Total FHLBC Borrowings	\$ 1,999,999

For additional information about our FHLBC borrowings, see Part I, Item 2 of Quarterly Report on Form 10-Q under the heading “Risks Relating to Debt Incurred under Short- and Long-Term Borrowing Facilities.”

Convertible Notes

In June 2018, we issued \$200 million principal amount of 5.625% convertible senior notes due 2024 at an issuance price of 99.5%. These convertible notes require semi-annual interest payments at a fixed coupon rate of 5.625% until maturity or conversion, which will be no later than July 15, 2024. After deducting the issuance discount, the underwriting discount and offering costs, we received \$194 million of net proceeds. Including amortization of deferred debt issuance costs and the debt discount, the weighted average interest expense yield on these convertible notes is approximately 6.2% per annum. These notes are convertible at the option of the holder at a conversion rate of 54.7645 common shares per \$1,000 principal amount of convertible senior notes (equivalent to a conversion price of \$18.26 per common share). Upon conversion of these notes by a holder, the holder will receive shares of our common

stock. At September 30, 2018, the outstanding principal amount of these notes was \$200 million and the accrued interest payable on this debt was \$3 million. At September 30, 2018, the unamortized deferred issuance costs and debt discount were \$5 million and \$1 million, respectively.

REDWOOD TRUST, INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
September 30, 2018
(Unaudited)

Note 14. Long-Term Debt - (continued)

In August 2017, we issued \$245 million principal amount of 4.75% convertible senior notes due 2023. These convertible notes require semi-annual interest payments at a fixed coupon rate of 4.75% until maturity or conversion, which will be no later than August 15, 2023. After deducting the underwriting discount and offering costs, we received \$238 million of net proceeds. Including amortization of deferred debt issuance costs, the weighted average interest expense yield on these convertible notes is approximately 5.3% per annum. At September 30, 2018, these notes were convertible at the option of the holder at a conversion rate of 53.9060 common shares per \$1,000 principal amount of convertible senior notes (equivalent to a conversion price of \$18.55 per common share). Upon conversion of these notes by a holder, the holder will receive shares of our common stock. At September 30, 2018, the outstanding principal amount of these notes was \$245 million. At September 30, 2018, the accrued interest payable balance on this debt was \$1 million and the unamortized deferred issuance costs were \$6 million.

In November 2014, RWT Holdings, Inc., a wholly-owned subsidiary of Redwood Trust, Inc., issued \$205 million principal amount of 5.625% exchangeable senior notes due 2019. These exchangeable notes require semi-annual interest payments at a fixed coupon rate of 5.625% until maturity or exchange, which will be no later than November 15, 2019. After deducting the underwriting discount and offering costs, we received \$198 million of net proceeds. Including amortization of deferred debt issuance costs, the weighted average interest expense yield on these exchangeable notes is approximately 6.3% per annum. At September 30, 2018, these notes were convertible at the option of the holder at a conversion rate of 46.2370 common shares per \$1,000 principal amount of convertible senior notes (equivalent to a conversion price of \$21.63 per common share). Upon exchange of these notes by a holder, the holder will receive shares of our common stock. During 2016, we repurchased \$4 million par value of these notes at a discount and recorded a gain on extinguishment of debt of \$0.3 million in Realized gains, net on our consolidated statements of income. At September 30, 2018, the outstanding principal amount of these notes was \$201 million. At September 30, 2018, the accrued interest payable balance on this debt was \$4 million and the unamortized deferred issuance costs were \$1 million.

In March 2013, we issued \$288 million principal amount of 4.625% convertible senior notes due in April 2018. These convertible notes required semi-annual interest payments at a fixed coupon rate of 4.625% until the debt matured on April 15, 2018. After deducting the underwriting discount and offering costs, we received \$279 million of net proceeds. Including amortization of deferred debt issuance costs, the weighted average interest expense yield on these convertible notes was approximately 4.8% per annum. Until maturity, these notes were convertible at the option of the holder at a conversion rate of 41.1320 common shares per \$1,000 principal amount of convertible senior notes (equivalent to a conversion price of \$24.31 per common share). During 2017, \$288 million principal amount of these convertible notes and \$2 million of unamortized deferred issuance costs were reclassified from long-term debt to short-term debt, as the maturity of the notes was less than one year as of April 2017. Additionally, during 2017, we repurchased \$37 million par value of these notes at a premium and recorded a loss on extinguishment of debt of \$1 million in Realized gains, net on our consolidated statements of income. In April 2018, we repaid these \$250 million convertible notes and all related accrued interest in full.

Trust Preferred Securities and Subordinated Notes

At September 30, 2018, we had trust preferred securities and subordinated notes outstanding of \$100 million and \$40 million, respectively. This debt requires quarterly interest payments at a floating rate equal to three-month LIBOR plus 2.25% until the notes are redeemed. The \$100 million trust preferred securities will be redeemed no later than January 30, 2037, and the \$40 million subordinated notes will be redeemed no later than July 30, 2037. Prior to 2014, we entered into interest rate swaps with aggregate notional values totaling \$140 million to hedge the variability in this long-term debt interest expense. Including hedging costs and amortization of deferred debt issuance costs, the weighted average interest expense yield on our trust preferred securities and subordinated notes is approximately 6.9%

per annum. At both September 30, 2018 and December 31, 2017, the accrued interest payable balance on our trust preferred securities and subordinated notes was \$1 million.

Under the terms of this debt, we covenant, among other things, to use our best efforts to continue to qualify as a REIT. If an event of default were to occur in respect of this debt, we would generally be restricted under its terms (subject to certain exceptions) from making dividend distributions to stockholders, from repurchasing common stock or repurchasing or redeeming any other then-outstanding equity securities, and from making any other payments in respect of any equity interests in us or in respect of any then-outstanding debt that is pari passu or subordinate to this debt.

 NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
 September 30, 2018
 (Unaudited)

Note 15. Commitments and Contingencies

Lease Commitments

At September 30, 2018, we were obligated under four non-cancelable operating leases with expiration dates through 2028 for \$16 million of cumulative lease payments. Our operating lease expense was \$2 million for both nine-month periods ended September 30, 2018 and 2017.

The following table presents our future lease commitments at September 30, 2018.

Table 15.1 – Future Lease Commitments by Year

(In Thousands)	September 30, 2018
2018 (3 months)	\$ 491
2019	2,002
2020	1,966
2021	1,474
2022 and thereafter	10,217
Total Lease Commitments	\$ 16,150

Commitments to Fund Equity Investments

At September 30, 2018, we had committed to fund \$50 million to a limited partnership created to finance clean energy projects. This partnership was dissolved in October 2018, and our funding obligation was terminated.

Commitment to Participate in Loan Warehouse Facility

In the second quarter of 2018, we invested in a participation in the mortgage loan warehouse credit facility of one of our loan sellers. This investment includes a commitment to participate in (and an obligation to fund) a designated amount of the loan seller's borrowings under this warehouse credit facility. This obligation is subject to daily funding requests by the financial institution, and fundings are recorded on our balance sheet as a Participation in loan warehouse facility. At September 30, 2018, \$39 million of our commitment had been funded, and, assuming future borrowings under this facility are collateralized by mortgage loans with characteristics consistent with those collateralizing the facility at September 30, 2018, we were committed to fund up to an additional \$14 million. See Note 11 for additional detail on our participation in a loan warehouse facility.

Commitment to Purchase Residential Mortgage-Backed Securities from Freddie Mac

In the third quarter of 2018, we entered into an agreement with Freddie Mac to purchase mortgage-backed securities to be issued in a securitization transaction sponsored by Freddie Mac. Pursuant to the terms of this agreement, we plan to acquire subordinate securities backed by a pool of seasoned re-performing residential first lien mortgage loans. We deposited \$58 million with Freddie Mac towards the purchase price of these securities and expect to fund the remainder of the purchase price of these securities, approximately \$180 million, upon the closing of this transaction in the fourth quarter of 2018, which we expect will be partially financed by a third-party financial institution under a securities repurchase facility.

REDWOOD TRUST, INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

September 30, 2018

(Unaudited)

Note 15. Commitments and Contingencies - (continued)

Loss Contingencies — Risk-Sharing

During 2015 and 2016, we sold conforming loans to the Agencies with an original unpaid principal balance of \$3.19 billion, subject to our risk-sharing arrangements with the Agencies. At September 30, 2018, the maximum potential amount of future payments we could be required to make under these arrangements was \$44 million and this amount was fully collateralized by assets we transferred to pledged accounts and is presented as pledged collateral in Other assets on our consolidated balance sheets. We have no recourse to any third parties that would allow us to recover any amounts related to our obligations under the arrangements. At September 30, 2018, we had not incurred any losses under these arrangements. For the three and nine months ended September 30, 2018, other income related to these arrangements was \$1 million and \$3 million, respectively, and net market valuation losses related to these investments were \$0.1 million and \$0.5 million, respectively. For the three and nine months ended September 30, 2017, other income related to these arrangements was \$1 million and \$2 million, respectively, and net market valuation losses related to these investments were \$0.3 million and \$1 million, respectively.

All of the loans in the reference pools subject to these risk-sharing arrangements were originated in 2014 and 2015, and at September 30, 2018, the loans had an unpaid principal balance of \$1.89 billion and a weighted average FICO score of 759 (at origination) and LTV ratio of 76% (at origination). At September 30, 2018, \$4 million of the loans were 90 days or more delinquent, of which \$1 million were in foreclosure. At September 30, 2018, the carrying value of our guarantee obligation was \$17 million and included \$6 million designated as a non-amortizing credit reserve, which we believe is sufficient to cover current expected losses under these obligations.

Our consolidated balance sheets include assets of special purpose entities ("SPEs") associated with these risk-sharing arrangements (i.e., the "pledged collateral" referred to above) that can only be used to settle obligations of these SPEs for which the creditors of these SPEs (the Agencies) do not have recourse to Redwood Trust, Inc. or its affiliates. At September 30, 2018 and December 31, 2017, assets of such SPEs totaled \$47 million and \$48 million, respectively, and liabilities of such SPEs totaled \$17 million and \$19 million, respectively.

Loss Contingencies — Residential Repurchase Reserve

We maintain a repurchase reserve for potential obligations arising from representation and warranty violations related to residential loans we have sold to securitization trusts or third parties and for conforming residential loans associated with MSRMs that we have purchased from third parties. We do not originate residential loans and we believe the initial risk of loss due to loan repurchases (i.e., due to a breach of representations and warranties) would generally be a contingency to the companies from whom we acquired the loans. However, in some cases, for example, where loans were acquired from companies that have since become insolvent, repurchase claims may result in our being liable for a repurchase obligation.

At both September 30, 2018 and December 31, 2017, our repurchase reserve associated with our residential loans and MSRMs was \$5 million and was recorded in Accrued expenses and other liabilities on our consolidated balance sheets. We received eight repurchase requests during the nine months ended September 30, 2018, and did not repurchase any loans during this period. During the nine months ended September 30, 2018 and 2017, we recorded reversals of repurchase provision of \$0.2 million and \$0.5 million, respectively, that were recorded in Mortgage banking activities, net and Other income, net on our consolidated statements of income.

Note 15. Commitments and Contingencies - (continued)

Loss Contingencies — Litigation

On or about December 23, 2009, the Federal Home Loan Bank of Seattle (the “FHLB-Seattle”) filed a complaint in the Superior Court for the State of Washington (case number 09-2-46348-4 SEA) against Redwood Trust, Inc., our subsidiary, Sequoia Residential Funding, Inc. (“SRF”), Morgan Stanley & Co., and Morgan Stanley Capital I, Inc. (collectively, the “FHLB-Seattle Defendants”), which alleged that the FHLB-Seattle Defendants made false or misleading statements in offering materials for a mortgage pass-through certificate (the “Seattle Certificate”) issued in the Sequoia Mortgage Trust 2005-4 securitization transaction (the “2005-4 RMBS”) and purchased by the FHLB-Seattle. Specifically, the complaint alleged that the alleged misstatements concerned the (1) loan-to-value ratio of mortgage loans and the appraisals of the properties that secured loans supporting the 2005-4 RMBS, (2) occupancy status of the properties, (3) standards used to underwrite the loans, and (4) ratings assigned to the Seattle Certificate. The FHLB-Seattle alleged claims under the Securities Act of Washington (Section 21.20.005, et seq.) and sought to rescind the purchase of the Seattle Certificate and to collect interest on the original purchase price at the statutory interest rate of 8% per annum from the date of original purchase (net of interest received) as well as attorneys’ fees and costs. The Seattle Certificate was issued with an original principal amount of approximately \$133 million, and, at September 30, 2018, approximately \$126 million of principal and \$12 million of interest payments had been made in respect of the Seattle Certificate. The matter was subsequently resolved and the claims were dismissed by the FHLB Seattle as to all the FHLB Seattle Defendants. At the time the Seattle Certificate was issued, Redwood agreed to indemnify the underwriters of the 2005-4 RMBS, which underwriters were named as defendants in the action, for certain losses and expenses they might incur as a result of claims made against them relating to this RMBS, including, without limitation, certain legal expenses. Regardless of the resolution of this litigation, we could incur a loss as a result of these indemnities.

On or about July 15, 2010, The Charles Schwab Corporation (“Schwab”) filed a complaint in the Superior Court for the State of California in San Francisco (case number CGC-10-501610) against SRF and 26 other defendants (collectively, the “Schwab Defendants”), which alleged that the Schwab Defendants made false or misleading statements in offering materials for various residential mortgage-backed securities sold or issued by the Schwab Defendants. Schwab alleged only a claim for negligent misrepresentation under California state law against SRF and sought unspecified damages and attorneys’ fees and costs from SRF. Schwab claimed that SRF made false or misleading statements in offering materials for a mortgage pass-through certificate (the “Schwab Certificate”) issued in the 2005-4 RMBS and purchased by Schwab. Specifically, the complaint alleged that the misstatements for the 2005-4 RMBS concerned the (1) loan-to-value ratio of mortgage loans and the appraisals of the properties that secured loans supporting the 2005-4 RMBS, (2) occupancy status of the properties, (3) standards used to underwrite the loans, and (4) ratings assigned to the Schwab Certificate. The Schwab Certificate was issued with an original principal amount of approximately \$15 million, and, at September 30, 2018, approximately \$14 million of principal and \$1 million of interest payments had been made in respect of the Schwab Certificate. On November 14, 2014, Schwab voluntarily dismissed with prejudice its negligent misrepresentation claim, which resulted in the dismissal with prejudice of SRF from the action. Subsequently, the matter was resolved and Schwab dismissed its claims against the lead underwriter of the 2005-4 RMBS. At the time the Schwab Certificate was issued, Redwood agreed to indemnify the underwriters of the 2005-4 RMBS, which underwriters were also named as defendants in the action, for certain losses and expenses they might incur as a result of claims made against them relating to this RMBS, including, without limitation, certain legal expenses. Regardless of the resolution of this litigation, Redwood could incur a loss as a result of these indemnities.

REDWOOD TRUST, INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

September 30, 2018

(Unaudited)

Note 15. Commitments and Contingencies - (continued)

Through certain of our wholly-owned subsidiaries, we have in the past engaged in, and expect to continue to engage in, activities relating to the acquisition and securitization of residential mortgage loans. In addition, certain of our wholly-owned subsidiaries have in the past engaged in activities relating to the acquisition and securitization of debt obligations and other assets through the issuance of collateralized debt obligations (commonly referred to as CDO transactions). Because of this involvement in the securitization and CDO businesses, we could become the subject of litigation relating to these businesses, including additional litigation of the type described above, and we could also become the subject of governmental investigations, enforcement actions, or lawsuits, and governmental authorities could allege that we violated applicable law or regulation in the conduct of our business. As an example, in July 2016 we became aware of a complaint filed by the State of California on April 1, 2016 against Morgan Stanley & Co. and certain of its affiliates alleging, among other things, that there were misleading statements contained in offering materials for 28 different mortgage pass-through certificates purchased by various California investors, including various California public pension systems, from Morgan Stanley and alleging that Morgan Stanley made false or fraudulent claims in connection with the sale of those certificates. Of the 28 mortgage pass-through certificates that were the subject of the complaint, two were Sequoia mortgage pass-through certificates issued in 2004 and two were Sequoia mortgage pass-through certificates issued in 2007. With respect to each of those certificates, our wholly-owned subsidiary, RWT Holdings, Inc., was the sponsor and our wholly-owned subsidiary, Sequoia Residential Funding, Inc., was the depositor. The plaintiffs subsequently withdrew from the litigation their claims based on eight of the 28 mortgage pass-through certificates, including one of the Sequoia mortgage pass-through certificates issued in 2004. At the time these Sequoia mortgage pass-through certificates were issued, Sequoia Residential Funding, Inc. and Redwood Trust agreed to indemnify the underwriters of these certificates for certain losses and expenses they might incur as a result of claims made against them relating to these certificates, including, without limitation, certain legal expenses. Regardless of the outcome of this litigation, we could incur a loss as a result of these indemnities.

In accordance with GAAP, we review the need for any loss contingency reserves and establish reserves when, in the opinion of management, it is probable that a matter would result in a liability and the amount of loss, if any, can be reasonably estimated. Additionally, we record receivables for insurance recoveries relating to litigation-related losses and expenses if and when such amounts are covered by insurance and recovery of such losses or expenses are due. At September 30, 2018, the aggregate amount of loss contingency reserves established in respect of the FHLB-Seattle and Schwab litigation matters described above was \$2 million. We review our litigation matters each quarter to assess these loss contingency reserves and make adjustments in these reserves, upwards or downwards, as appropriate, in accordance with GAAP based on our review.

In the ordinary course of any litigation matter, including certain of the above-referenced matters, we have engaged and may continue to engage in formal or informal settlement communications with the plaintiffs or co-defendants.

Settlement communications we have engaged in relating to certain of the above-referenced litigation matters are one of the factors that have resulted in our determination to establish the loss contingency reserves described above. We cannot be certain that any of these matters will be resolved through a settlement prior to trial and we cannot be certain that the resolution of these matters, whether through trial or settlement, will not have a material adverse effect on our financial condition or results of operations in any future period.

Future developments (including resolution of substantive pre-trial motions relating to these matters, receipt of additional information and documents relating to these matters (such as through pre-trial discovery), new or additional settlement communications with plaintiffs relating to these matters, or resolutions of similar claims against other defendants in these matters) could result in our concluding in the future to establish additional loss contingency reserves or to disclose an estimate of reasonably possible losses in excess of our established reserves with respect to

these matters. Our actual losses with respect to the above-referenced litigation matters may be materially higher than the aggregate amount of loss contingency reserves we have established in respect of these litigation matters, including in the event that any of these matters proceeds to trial and the plaintiff prevails. Other factors that could result in our concluding to establish additional loss contingency reserves or estimate additional reasonably possible losses, or could result in our actual losses with respect to the above-referenced litigation matters being materially higher than the aggregate amount of loss contingency reserves we have established in respect of these litigation matters include that: there are significant factual and legal issues to be resolved; information obtained or rulings made during the lawsuits could affect the methodology for calculation of the available remedies; and we may have additional obligations pursuant to indemnity agreements, representations and warranties, and other contractual provisions with other parties relating to these litigation matters that could increase our potential losses.

Earnings per Common Share

The following table provides the basic and diluted earnings per common share computations for the three and nine months ended September 30, 2018 and 2017.

Table 16.3 – Basic and Diluted Earnings per Common Share

(In Thousands, except Share Data)	Three Months Ended		Nine Months Ended	
	September 30, 2018	September 30, 2017	September 30, 2018	September 30, 2017
Basic Earnings per Common Share:				
Net income attributable to Redwood	\$40,921	\$ 36,180	\$120,513	\$109,473
Less: Dividends and undistributed earnings allocated to participating securities	(1,231)	(948)	(3,766)	(2,800)
Net income allocated to common shareholders	\$39,690	\$ 35,232	\$116,747	\$106,673
Basic weighted average common shares outstanding	80,796,857	76,850,830	77,211,188	76,803,324
Basic Earnings per Common Share	\$0.49	\$ 0.46	\$1.51	\$1.39
Diluted Earnings per Common Share:				
Net income attributable to Redwood	\$40,921	\$ 36,180	\$120,513	\$109,473
Less: Dividends and undistributed earnings allocated to participating securities	(1,284)	(986)	(3,867)	(2,926)
Add back: Interest expense on convertible notes for the period, net of tax	8,666	6,564	23,642	18,639
Net income allocated to common shareholders	\$48,303	\$ 41,758	\$140,288	\$125,186
Weighted average common shares outstanding	80,796,857	76,850,830	77,211,188	76,803,324
Net effect of dilutive equity awards	443,191	298,955	251,935	215,141
Net effect of assumed convertible notes conversion to common shares	33,442,642	25,553,323	30,328,906	22,379,401
Diluted weighted average common shares outstanding	114,682,690	102,703,108	107,792,029	99,397,866
Diluted Earnings per Common Share	\$0.42	\$ 0.41	\$1.30	\$1.26

We included participating securities, which are certain equity awards that have non-forfeitable dividend participation rights, in the calculations of basic and diluted earnings per common share as we determined that the two-class method was more dilutive than the alternative treasury stock method for these shares. Dividends and undistributed earnings allocated to participating securities under the basic and diluted earnings per share calculations require specific shares to be included that may differ in certain circumstances.

During the three and nine months ended September 30, 2018 and 2017, certain of our convertible notes were determined to be dilutive and were included in the calculation of diluted EPS under the "if-converted" method. Under this method, the periodic interest expense (net of applicable taxes) for dilutive notes is added back to the numerator and the weighted average number of shares that the notes are entitled to (if converted, regardless of whether they are in or out of the money) are included in the denominator.

For the three and nine months ended September 30, 2018, the number of outstanding equity awards that were antidilutive totaled 7,761 and 7,230, respectively. For the three and nine months ended September 30, 2017, the number of outstanding equity awards that were antidilutive totaled 6,149 and 5,843, respectively.

REDWOOD TRUST, INC. AND SUBSIDIARIES
 NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

September 30, 2018

(Unaudited)

Note 16. Equity - (continued)

Stock Repurchases

In February 2016, our Board of Directors approved an authorization for the repurchase of up to \$100 million of our common stock and also authorized the repurchase of outstanding debt securities, including convertible and exchangeable debt. This authorization replaced all previous share repurchase plans and has no expiration date. During the year ended December 31, 2017, we repurchased 610,342 shares of common stock pursuant to this authorization for \$9 million. At December 31, 2017, approximately \$77 million of this current authorization remained available for the repurchase of shares of our common stock. During January 2018, we repurchased 1,040,829 shares of our common stock pursuant to this authorization for \$16 million.

In February 2018, our Board of Directors approved an authorization for the repurchase of an additional \$39 million of our common stock, increasing the total amount authorized for repurchases of common stock to \$100 million, and also authorized the repurchase of outstanding debt securities, including convertible and exchangeable debt. As noted above, this authorization increased the previous share repurchase authorization approved in February 2016 and has no expiration date. This repurchase authorization does not obligate us to acquire any specific number of shares or securities. Under this authorization, shares or securities may be repurchased in privately negotiated and/or open market transactions, including under plans complying with Rule 10b5-1 under the Securities Exchange Act of 1934, as amended. At September 30, 2018, \$100 million of the current authorization remained available for the repurchase of shares of our common stock.

Note 17. Equity Compensation Plans

At September 30, 2018 and December 31, 2017, 4,875,504 and 1,356,438 shares of common stock, respectively, were available for grant under our Incentive Plan. During the three months ended June 30, 2018, Redwood shareholders approved for grant an additional 4,000,000 shares of common stock under our Incentive Plan. The unamortized compensation cost of awards issued under the Incentive Plan and purchases under the Employee Stock Purchase Plan totaled \$19 million at September 30, 2018, as shown in the following table.

Table 17.1 – Activities of Equity Compensation Costs by Award Type

(In Thousands)	Nine Months Ended September 30, 2018				
	Restricted Stock	Deferred Stock Units	Performance Stock Units	Employee Stock Purchase Plan	Total
Unrecognized compensation cost at beginning of period	\$2,808	\$13,364	\$ 5,298	\$ —	\$21,470
Equity grants	2,391	4,750	350	136	7,627
Equity grant forfeitures	(112)	—	—	—	(112)
Equity compensation expense	(1,245)	(6,264)	(1,954)	(102)	(9,565)
Unrecognized Compensation Cost at End of Period	\$3,842	\$11,850	\$ 3,694	\$ 34	\$19,420

At September 30, 2018, the weighted average amortization period remaining for all of our equity awards was less than two years.

Restricted Stock

At September 30, 2018 and December 31, 2017, there were 329,042 and 257,507 shares, respectively, of restricted stock outstanding. Restrictions on these shares lapse through 2022. During the nine months ended September 30, 2018, there were 162,330 shares of restricted stock granted, restrictions on 83,325 shares of restricted stock lapsed and those shares were distributed, and 7,470 shares of restricted stock awards were forfeited.

Deferred Stock Units (“DSUs”)

At September 30, 2018 and December 31, 2017, there were 2,241,887 and 1,878,491 DSUs, respectively, outstanding of which 1,269,946 and 889,835, respectively, had vested. During the nine months ended September 30, 2018, there were 395,917 DSUs granted, 32,521 DSUs distributed, and no DSUs forfeited. Unvested DSUs at September 30, 2018 vest through 2022.

REDWOOD TRUST, INC. AND SUBSIDIARIES
 NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

September 30, 2018

(Unaudited)

Note 17. Equity Compensation Plans - (continued)

Performance Stock Units ("PSUs")

At September 30, 2018 and December 31, 2017, the target number of PSUs that were unvested was 727,295 and 704,270, respectively. Vesting for these PSUs will generally occur at the end of three years from their grant date, with the level of vesting at that time contingent on total shareholder return ("TSR"). TSR for these PSUs is defined as the percentage by which our common stock "per share price" has increased or decreased as of the last day of the three-year vesting period relative to the first day of such vesting period, adjusted to reflect the reinvestment of all dividends declared and/or paid on our common stock ("Three-Year TSR"). The number of underlying shares of our common stock that will vest in future years will vary between 0% (if Three-Year TSR is zero or negative) and 200% (if Three-Year TSR is greater than or equal to 125%) of the target number of PSUs originally granted, adjusted upward (if vesting is greater than 0%) to reflect the value of dividends paid during the three-year vesting period.

During the three months ended June 30, 2018, 23,025 target number of PSUs with a per unit grant date fair value of \$15.20 were granted to two executives in connection with their promotions. The grant date fair values of these PSUs were determined through Monte-Carlo simulations using the following assumptions: our common stock closing price at the grant date, the average closing price of our common stock price for the 60 trading days prior to the grant date and the range of performance-based vesting based on TSR over three years from the grant date. For this PSU grant, an implied volatility assumption of 27% (based on historical volatility), a risk-free rate of 2.71% (the three-year Treasury rate on the grant date), and a 0% dividend yield (the mathematical equivalent to reinvesting the dividends over the three-year performance period as is consistent with the terms of the PSUs) were used.

Vesting for all PSUs will generally occur at the end of three years from their grant date based on various TSR performance calculations, as discussed in our Annual Report on Form 10-K for the year ended December 31, 2017.

Employee Stock Purchase Plan ("ESPP")

The ESPP allows a maximum of 450,000 shares of common stock to be purchased in aggregate for all employees. As of September 30, 2018 and December 31, 2017, 382,696 and 361,006 shares had been purchased, respectively, and there remained a negligible amount of uninvested employee contributions in the ESPP at September 30, 2018.

Note 18. Mortgage Banking Activities, Net

Note 20. Operating Expenses

Components of our operating expenses for the three and nine months ended September 30, 2018 and 2017 are presented in the following table.

Table 20.1 – Components of Operating Expenses

(In Thousands)	Three Months		Nine Months	
	Ended September 30,		Ended September 30,	
	2018	2017	2018	2017
Fixed compensation expense	\$5,922	\$5,233	\$18,136	\$16,556
Variable compensation expense	4,923	6,467	13,655	14,713
Equity compensation expense	3,033	2,337	9,565	7,634
Total compensation expense	13,878	14,037	41,356	38,903
Systems and consulting	1,794	1,856	5,434	5,183
Loan acquisition costs ⁽¹⁾	1,887	1,187	5,860	3,397
Office costs	1,173	988	3,397	3,231
Accounting and legal	1,170	519	3,078	2,322
Corporate costs	462	415	1,462	1,363
Other operating expenses	1,126	920	2,942	2,390
Total Operating Expenses	\$21,490	\$19,922	\$63,529	\$56,789

⁽¹⁾ Loan acquisition costs primarily includes underwriting and due diligence costs related to the acquisition of residential loans held-for-sale at fair value.

Note 21. Taxes

For the nine months ended September 30, 2018 and 2017, we recognized a provision for income taxes of \$12 million and \$17 million, respectively. The following is a reconciliation of the statutory federal and state tax rates to our effective tax rate at September 30, 2018 and 2017.

Table 21.1 – Reconciliation of Statutory Tax Rate to Effective Tax Rate

	September 30, 2018		September 30, 2017	
		%		%
Federal statutory rate	21.0	%	34.0	%
State statutory rate, net of Federal tax effect	8.6	%	7.2	%
Differences in taxable (loss) income from GAAP income	(1.8)	%	(6.8)	%
Change in valuation allowance	(3.2)	%	(2.8)	%
Dividends paid deduction	(15.3)	%	(18.3)	%
Effective Tax Rate	9.3	%	13.3	%

The reduction of the federal statutory rate from 34% to 21% is due to the enactment of the Tax Act.

We assessed our tax positions for all open tax years (i.e., Federal, 2015 to 2018, and State, 2014 to 2018) at September 30, 2018 and December 31, 2017, and concluded that we had no uncertain tax positions that resulted in material unrecognized tax benefits.

REDWOOD TRUST, INC. AND SUBSIDIARIES
 NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
 September 30, 2018
 (Unaudited)

Note 22. Segment Information

Redwood operates in two segments: Investment Portfolio and Mortgage Banking. Our segments are based on our organizational and management structure, which aligns with how our results are monitored and performance is assessed. For a full description of our segments, see Item 1—Business in our Annual Report on Form 10-K for the year ended December 31, 2017. Additionally, beginning in the third quarter of 2018, our Investment Portfolio segment includes fix-and-flip loans held-for-investment as well as the multifamily loans held-for-investment at consolidated Freddie Mac securitization entities and our Mortgage Banking segment includes our single-family rental loans held-for-sale.

Segment contribution represents the measure of profit that management uses to assess the performance of our business segments and make resource allocation and operating decisions. Certain corporate expenses not directly assigned or allocated to one of our two segments, as well as activity from certain consolidated Sequoia entities, are included in the Corporate/Other column as reconciling items to our consolidated financial statements. These unallocated corporate expenses primarily include interest expense associated with certain long-term debt, indirect operating expenses, and other expense.

The following tables present financial information by segment for the three and nine months ended September 30, 2018 and 2017.

Table 22.1 – Business Segment Financial Information

(In Thousands)	Three Months Ended September 30, 2018			
	Investment Portfolio	Mortgage Banking	Corporate/ Other	Total
Interest income	\$79,556	\$14,427	\$5,414	\$99,397
