### Section 19(b) Disclosure

BlackRock Dividend Achievers™ Trust (BDV), BlackRock Enhanced Dividend Achievers™ Trust (BDJ), BlackRock Strategic Dividend Achievers™ Trust (BDT), BlackRock EcoSolutions Investment Trust (BQR), BlackRock Energy and Resources Trust (BGR), BlackRock Global Equity Income Trust (BFD), BlackRock Global Opportunities Equity Trust (BOE), BlackRock Health Sciences Trust (BME), BlackRock International Growth and Income Trust (BGY), BlackRock Real Asset Equity Trust (BCF), BlackRock S&P Quality Rankings Global Equity Managed Trust (BQY) and BlackRock World Investment Trust (BWC) (each a Trust and collectively, the Trusts), acting pursuant to a Securities and Exchange Commission (SEC) exemptive order and with the approval of each Trust's Board of Directors/Trustees (the Board), each have adopted a level distribution plan (the Plan) that is consistent with its investment objectives and policies. In adopting the Plan, each Trust employs either a managed distribution or option over-write policy to support a level distribution of income, capital gains and/or return of capital. In accordance with the Plans, the Trusts currently distribute the following fixed amounts per share on a quarterly basis:

Exchange Symbol	Amount Per Common Share
BDV	\$0.162500
BDJ	\$0.305625
BDT	\$0.162500
BQR	\$0.400000
BGR	\$0.405000
BFD	\$0.475000
BOE	\$0.568750
BME	\$0.384375
BGY	\$0.455100
BCF	\$0.271800
BQY	\$0.187500
BWC	\$0.341250

The fixed amounts distributed per share are subject to change at the discretion of each Trust's Board. Under its Plan, each Trust will distribute all available investment income to its shareholders, consistent with its primary investment objectives and as required by the Internal Revenue Code of 1986, as amended (the Code). If sufficient investment income is not available on a quarterly basis, the Trusts will distribute long-term capital gains and/or return of capital to shareholders in order to maintain a level distribution.

## Edgar Filing: BlackRock Energy & Resources Trust - Form N-CSRS

Each quarterly distribution to shareholders is expected to be at the fixed amount established by the Board, except for extraordinary distributions and potential distribution rate increases or decreases to enable the Trusts to comply with the distribution requirements imposed by the Code.

Shareholders should not draw any conclusions about the Trust's investment performance from the amount of these distributions or from the terms of the Plan. Each Trust's total return performance on net asset value is presented in its financial highlights table.

The Board may amend, suspend or terminate a Trust's Plan without prior notice if it deems such actions to be in the best interests of the Trust or its shareholders. The suspension or termination of the Plan could have the effect of creating a trading discount (if the Trust's stock is trading at or above net asset value) or widening an existing trading discount. The Trusts are subject to risks that could have an adverse impact on their ability to maintain a level distribution. Examples of potential risks include, but are not limited to, economic downturns impacting the markets, decreased market volatility, companies suspending or decreasing corporate dividend distributions and changes in the Code. Please refer to each Trust's prospectus for a more complete description of its risks.

Please refer to the Notes to Financial Statements for a cumulative summary of the Section 19(a) notices for each Trust's current fiscal period. Section 19(a) notices for the Trusts, as applicable, are available on the BlackRock website [www.blackrock.com](http://www.blackrock.com).

## Dear Shareholder

The past 12 months reveal a tale of two markets – one of investor pessimism and decided weakness, and another of optimism and some early signs of recovery.

The majority of the past year was characterized by the former as the global financial crisis erupted into the worst recession in decades. Economic data were uniformly poor and daily headlines recounted the downfalls of storied financial firms, volatile swings in global financial markets, and monumental government actions that included widespread (and globally coordinated) monetary and quantitative easing by central banks and large-scale fiscal stimuli. Sentiment improved noticeably in March 2009, however, on the back of new program announcements by the Treasury and Federal Reserve Board, as well as signs of improved economic performance, such as in retail sales, consumer confidence and select areas of the housing market.

Against this backdrop, US equities contended with unprecedented levels of volatility, posting steep declines early, and then pared some of those losses in March and April. The experience in international markets was similar to that in the United States, though there was a marked divergence in regional performance. Notably, emerging economies, which lagged most developed regions through the downturn, were among the market leaders during the late-period rally.

In fixed income markets, while risk aversion remained a dominant theme overall, relatively attractive yields and distressed valuations, alongside a more favorable macro environment, eventually captured investor attention, leading to a modest recovery in non-Treasury assets. A notable example from the opposite end of the credit spectrum was the high yield sector, which generally outperformed in the first four months of 2009 after extraordinary challenges and severe underperformance last year. At the same time, the new year ushered in a return to normalcy for the tax-exempt market, which had registered one of its worst years on record in 2008.

All told, the major benchmark indexes posted mixed results for the current reporting period, reflective of a bifurcated market.

<b>Total Returns as of April 30, 2009</b>	<b>6-month</b>	<b>12-month</b>
US equities (S&P 500 Index)	(8.53)%	(35.31)%
Small cap US equities (Russell 2000 Index)	(8.40)	(30.74)
International equities (MSCI Europe, Australasia, Far East Index)	(2.64)	(42.76)
US Treasury securities (Merrill Lynch 10-Year US Treasury Index)	8.98	9.30
Taxable fixed income (Barclays Capital US Aggregate Bond Index)	7.74	3.84
Tax-exempt fixed income (Barclays Capital Municipal Bond Index)	8.20	3.11
High yield bonds (Barclays Capital US Corporate High Yield 2% Issuer Capped Index)	16.39	(12.55)

Past performance is no guarantee of future results. Index performance shown for illustrative purposes only. You cannot invest directly in an index.

On June 16, 2009, BlackRock, Inc. announced that it received written notice from Barclays PLC ( Barclays ) in which Barclays Board of Directors had accepted BlackRock's offer to acquire Barclays Global Investors ( BGI ). Barclays also notified BlackRock that its Board will recommend the transaction to Barclays' shareholders for approval at a special meeting to be held in early August 2009. The combination of BlackRock and BGI will bring together market leaders in active and index strategies to create the preeminent asset management firm. The transaction is expected to close in the fourth quarter 2009 following approval by Barclays shareholders, the receipt of client consents and regulatory approvals, and satisfaction of customary closing conditions.

Through periods of market turbulence, as ever, BlackRock's full resources are dedicated to the management of our clients' assets. We thank you for entrusting BlackRock with your investments and look forward to continuing to serve you in the months and years ahead.

Edgar Filing: BlackRock Energy & Resources Trust - Form N-CSRS

Sincerely,

Rob Kapito  
President, BlackRock Advisors, LLC

## Trust Summary as of April 30, 2009

## BlackRock Dividend Achievers™ Trust

## Investment Objective

**BlackRock Dividend Achievers™ Trust (BDV) (the Trust )** seeks to provide total return through a combination of current income and capital appreciation by investing in common stocks that pay above average dividends and have the potential for capital appreciation. The Trust recently implemented an option writing (selling) strategy to help enhance current gains. No assurance can be given that the Trust's investment objective will be achieved.

## Performance

For the six months ended April 30, 2009, the Trust returned (20.91)% based on market price and (17.74)% based on net asset value ( NAV ). For the same period, the Mergent Broad Dividend Achievers Index ( Dividend Achievers Index ) returned (15.01)%, and the broader market, measured by the Russell 1000 Index and the Russell 1000 Value Index, returned (7.39)% and (13.27)%, respectively. All returns reflect reinvestment of dividends. The Trust's discount to NAV, which widened during the period, accounts for the difference between performance based on price and performance based on NAV.

The key investment objective of the BDV portfolio is to generate above-average current income through positions in large-cap stocks with attractive dividend yields, selected primarily from the Dividend Achievers Index. Over period, this strategy was negatively affected by three factors: (1) higher-yielding stocks underperformed the broader market; (2) the drive for yield meant higher exposure to financials, which underperformed; and (3) mid-cap stocks outperformed large-cap stocks and growth stocks outperformed value stocks, each hurting the large-cap, value-oriented BDV portfolio. The enhancement to the BDV strategy, writing calls on approximately 20% of the portfolio, added to current income and total return.

The views expressed reflect the opinions of BlackRock as of the date of this report and are subject to change based on changes in market, economic or other conditions. These views are not intended to be a forecast of future events and are no guarantee of future results.

## Trust Information

Symbol on New York Stock Exchange	BDV

- 3 For Trust compliance purposes, the Trust's sector classifications refer to any one or more of the sector sub-classifications used by one or more widely recognized market indexes or ratings group indexes, and/or as defined by Portfolio management. This definition may not apply for purposes of this report, which may combine sector sub-classifications for reporting ease.

## Trust Summary as of April 30, 2009

## BlackRock Enhanced Dividend Achievers™ Trust

## Investment Objective

**BlackRock Enhanced Dividend Achievers™ Trust (BDJ) (the Trust )** seeks to provide current income and current gains, with a secondary objective of long-term capital appreciation. The Trust seeks to achieve these objectives by investing in common stocks that pay above average dividends and have the potential for capital appreciation and by utilizing an option writing strategy to enhance distributions paid to the Trust's shareholders. No assurance can be given that the Trust's investment objective will be achieved.

## Performance

For the six months ended April 30, 2009, the Trust returned (14.07)% based on market price and (14.73)% based on NAV. For the same period, the Dividend Achievers Index returned (15.01)%, and the broader market, measured by the Russell 1000 Index and the Russell 1000 Value Index, returned (7.39)% and (13.27)%, respectively. All returns reflect reinvestment of dividends. The Trust's discount to NAV, which narrowed during the period, accounts for the difference between performance based on price and performance based on NAV.

In addition to covered call writing, the other objective of the BDJ portfolio is to generate above-average current income through positions in large-cap stocks with attractive dividend yields, selected primarily from the Dividend Achievers Index. Over the period, this strategy was negatively affected by three factors: (1) higher-yielding stocks underperformed the market; (2) the drive for yield meant higher exposure to financials, which underperformed; and (3) mid-cap stocks outperformed large-cap stocks and growth stocks outperformed value stocks, each hurting the large-cap, value-oriented BDJ portfolio. Offsetting some of these negative impacts were rich option call premiums received on the covered call portion of the BDJ strategy, driven by the near-record high volatility.

The views expressed reflect the opinions of BlackRock as of the date of this report and are subject to change based on changes in market, economic or other conditions. These views are not intended to be a forecast of future events and are no guarantee of future results.

## Trust Summary as of April 30, 2009

## BlackRock Strategic Dividend Achievers™ Trust

## Investment Objective

**BlackRock Strategic Dividend Achievers™ Trust (BDT) (the Trust )** seeks to provide total return through a combination of current income and capital appreciation by investing primarily in common stocks of small to mid-capitalization companies that pay above average dividends and have potential for capital appreciation. The Trust recently implemented an option writing (selling) strategy to help enhance current gains. No assurance can be given that the Trust's investment objective will be achieved.

## Performance

For the six months ended April 30, 2009, the Trust returned (12.97)% based on market price and (12.15)% based on NAV. For the same period, the Dividend Achievers Index returned (15.01)%, and the broader market, as measured by the Russell 1000 Index and the Russell 1000 Value Index, returned (7.39)% and (13.27)%, respectively. All returns reflect reinvestment of dividends. The Trust's discount to NAV, which widened during the period, accounts for the difference between performance based on price and performance based on NAV.

The key investment objective of the BDT portfolio is to generate above-average current income through positions in mid- and small-cap stocks with attractive dividend yields, selected primarily from the Dividend Achievers Index. Over the period, this strategy was negatively affected by three factors: (1) higher-yielding stocks underperformed the broader market; (2) the drive for yield meant higher exposure to financials, which underperformed; and (3) growth stocks outperformed value stocks, hurting the value-oriented BDT portfolio. Offsetting some of these negative impacts was the strong outperformance of mid-cap stocks, which represents more than half of the BDT portfolio. Further, the enhancement to the BDT strategy, writing calls on approximately 20% of the portfolio, added to current income and total return.

The views expressed reflect the opinions of BlackRock as of the date of this report and are subject to change based on changes in market, economic or other conditions. These views are not intended to be a forecast of future events and are no guarantee of future results.

## Trust Summary as of April 30, 2009

## BlackRock EcoSolutions Investment Trust

## Investment Objective

**BlackRock EcoSolutions Investment Trust (BQR) (the Trust )** seeks to provide current income, current gains and long-term capital appreciation. The Trust seeks to achieve its investment objective by investing substantially all of its assets in equity securities issued by companies that are engaged in one or more of the new energy, water resources and agriculture business segments and utilizing an option strategy to enhance current gains. No assurance can be given that the Trust's investment objective will be achieved.

## Performance

For the six months ended April 30, 2009, the Trust returned 12.42% based on market price and 3.86% based on NAV. For the same period, the closed-end Lipper Sector Equity Funds category posted an average return of (3.23)% on a market price basis and (5.26)% on a NAV basis. All returns reflect reinvestment of dividends. The Trust's discount to NAV, which narrowed during the period, accounts for the difference between performance based on price and performance based on NAV. Following on from a torrid end to 2008, the portfolio was up strongly in early 2009. The new energy, agriculture and water sectors benefited over the period under review as equity markets broadly moved up from their lows of last year as investor sentiment began to show signs of improving. The three sectors continue to have compelling fundamentals and some areas, such as new energy, may see a long run benefit (in the form of government stimulus/investment), though volatility is likely to continue to be a feature of the market in the short term.

The views expressed reflect the opinions of BlackRock as of the date of this report and are subject to change based on changes in market, economic or other conditions. These views are not intended to be a forecast of future events and are no guarantee of future results.

## Trust Summary as of April 30, 2009

## BlackRock Energy and Resources Trust

## Investment Objective

**BlackRock Energy and Resources Trust (BGR) (the Trust)** (formerly BlackRock Global Energy and Resources Trust) seeks to provide total return through a combination of current income and capital appreciation. The Trust attempts to achieve this objective by investing primarily in equity securities of energy and natural resources companies and equity derivatives with exposure to the energy and natural resources industry. No assurance can be given that the Trust's investment objective will be achieved.

## Performance

For the six months ended April 30, 2009, the Trust returned (1.11)% based on market price and (5.52)% based on NAV. For the same period, the closed-end Lipper Sector Equity Funds category returned (3.23)% on a market price basis and (5.26)% on a NAV basis. All returns reflect reinvestment of dividends. The Trust's discount to NAV, which narrowed during the period, accounts for the difference between performance based on price and performance based on NAV. In a challenging environment, investors favored large cap stocks and safe havens like gold. Accordingly, large integrated oil stocks, larger cap energy equipment & service names and the metals complex all outperformed during the period. Holding BHP Billiton gained more than 25% in the diversified metals & mining segment, and gold and other precious metals benefited returns as well, as Silver Standard Resources Inc. gained 45%. Primary detractors from performance included coal & consumable fuels and the smaller cap oil & gas exploration & production segment, both hurt by weak energy prices due to declining global demand. Turnover was typically low over the period, and we added to one of our top exploration & production names (Petrohawk Energy Corp.) on weakness. We also took profits in Silver Standard Resources and swapped into Silver Wheaton Corp. At period-end, we continue to emphasize coal producers and oil & gas exploration & production stocks, as we believe these companies have superior long-term growth prospects when global demand eventually rebounds.

The views expressed reflect the opinions of BlackRock as of the date of this report and are subject to change based on changes in market, economic or other conditions. These views are not intended to be a forecast of future events and are no guarantee of future results.

## Trust Summary as of April 30, 2009

## BlackRock Global Equity Income Trust

## Investment Objective

**BlackRock Global Equity Income Trust (BFD) (the Trust )** seeks current income and current gains, with a secondary objective of long-term capital appreciation. The Trust seeks to achieve these objectives by investing in equity securities of companies located in countries throughout the world or options on equity securities or indices of equity securities. The policies of the Trust no longer emphasize dividend-paying stocks or index call options. No assurance can be given that the Trust's investment objective will be achieved.

The Board approved a change to the Trust's non-fundamental investment policy please refer to page 102 in the Additional Information section.

## Performance

For the six months ended April 30, 2009, the Trust returned 5.31% based on market price and (1.00)% based on NAV. For the same period, the MSCI World Index posted a return of (5.45)%. All returns reflect reinvestment of dividends. The Trust's discount to NAV, which narrowed during the period, accounts for the difference between performance based on price and performance based on NAV. As the global marketplace begins to heal, the overwrite strategy proved challenging, but strategic. In March, we reached new lows and experienced a significant rally. Due to the positioning of the options, shareholders were able to experience the best of both worlds. March and April experienced healthy returns and the strategy allowed the investor to benefit more of the upside than expected. At period end, the Trust's cash position remains elevated and will be deployed opportunistically.

The views expressed reflect the opinions of BlackRock as of the date of this report and are subject to change based on changes in market, economic or other conditions. These views are not intended to be a forecast of future events and are no guarantee of future results.

## Trust Summary as of April 30, 2009

## BlackRock Global Opportunities Equity Trust

## Investment Objective

**BlackRock Global Opportunities Equity Trust (BOE) (the Trust )** seeks current income and current gains, with a secondary objective of long-term capital appreciation. The Trust seeks to achieve its objectives by investing primarily in equity securities issued by companies located in countries throughout the world and utilizing an option writing strategy to enhance current gains. No assurance can be given that the Trust's investment objective will be achieved.

The Board approved a change to the Trust's non-fundamental investment policy please refer to page 102 in the Additional Information section.

## Performance

For the six months ended April 30, 2009, the Trust returned 4.10% based on market price and 0.48% based on NAV. For the same period, the benchmark MSCI World Index posted a return of (5.45)%. All returns reflect reinvestment of dividends. The Trust's discount to NAV, which narrowed during the period, accounts for the difference between performance based on price and performance based on NAV. The Trust's outperformance can be primarily attributed to strong stock selection, particularly within energy, financials and healthcare. Sector allocation also contributed positively, as underweights in financials, consumer staples and utilities, along with an overweight in materials, aided return comparisons. By contrast, underweight positions in the consumer discretionary, industrials and telecommunication services sectors detracted from returns for the six months. At period end, the Trust's cash position remains elevated and will be deployed opportunistically.

The views expressed reflect the opinions of BlackRock as of the date of this report and are subject to change based on changes in market, economic or other conditions. These views are not intended to be a forecast of future events and are no guarantee of future results.

## Trust Summary as of April 30, 2009

## BlackRock Health Sciences Trust

## Investment Objective

**BlackRock Health Sciences Trust (BME) (the Trust )** seeks to provide total return through a combination of current income and capital appreciation. The Trust seeks to achieve this objective by investing primarily in equity securities of companies engaged in the health sciences and related industries and equity derivatives with exposure to the health sciences industry. No assurance can be given that the Trust's investment objective will be achieved.

## Performance

For the six months ended April 30, 2009, the Trust returned (4.42)% based on market price and (2.61)% based on NAV. For the same period, the benchmark Russell 3000 Healthcare Index returned (8.26)%. All returns reflect reinvestment of dividends. The Trust's discount to NAV, which widened during the period, accounts for the difference between performance based on price and performance based on NAV. The Trust's comparative performance benefited from both stock selection and sector allocation affects. Most notably, selection was strong within the medical devices & supplies, biotechnology and pharmaceuticals subsectors. The Trust's overweights in biotechnology and healthcare services contributed positively on a relative basis as well. By contrast, an overweight in medical devices & supplies and an underweight in pharmaceuticals detracted from returns for the six months. The Trust maintained moderate levels of cash during the period, which did not significantly impact performance.

The views expressed reflect the opinions of BlackRock as of the date of this report and are subject to change based on changes in market, economic or other conditions. These views are not intended to be a forecast of future events and are no guarantee of future results.

## Trust Summary as of April 30, 2009

## BlackRock International Growth and Income Trust

## Investment Objective

**BlackRock International Growth and Income Trust (BGY) (the Trust)** seeks current income and current gains, and secondarily long-term capital appreciation. The Trust seeks to achieve its objectives by investing primarily in equity securities issued by companies of any market capitalization located in countries throughout the world and utilizing an option writing (selling) strategy to enhance current gains. No assurance can be given that the Trust's investment objective will be achieved.

The Board approved a change to the Trust's non-fundamental investment policy please refer to page 102 in the Additional Information section.

## Performance

For the six months ended April 30, 2009, the Trust returned 6.01% based on market price and 2.68% based on NAV. For the same period, the benchmark S&P Global Broad Market Index ex-US returned 2.51%. All returns reflect reinvestment of dividends. The Trust's discount to NAV, which narrowed during the period, accounts for the difference between performance based on price and performance based on NAV. Allocation effects contributed positively to performance during the six months as underweights in utilities, healthcare and consumer staples added to returns, while an information technology (IT) underweight relative to the benchmark and the Trust's cash position detracted. The Trust's comparative performance was also hurt by weak stock selection within financials, consumer staples, IT and industrials, but those effects were somewhat offset by good results within the consumer discretionary, materials and telecommunication services sectors. At period end, the Trust's cash position remains elevated and will be deployed opportunistically.

The views expressed reflect the opinions of BlackRock as of the date of this report and are subject to change based on changes in market, economic or other conditions. These views are not intended to be a forecast of future events and are no guarantee of future results.

## Trust Summary as of April 30, 2009

## BlackRock Real Asset Equity Trust

## Investment Objective

**BlackRock Real Asset Equity Trust (BCF) (the Trust)** seeks to provide total return through a combination of current income, current gains and capital appreciation. The Trust attempts to achieve this objective by investing primarily in equity securities of companies engaged in energy, natural resources and basic materials businesses and companies in associated businesses and equity derivatives with exposure to those companies. No assurance can be given that the Trust's investment objective will be achieved.

## Performance

For the six months ended April 30, 2009, the Trust returned 8.73% based on market price and 5.64% based on NAV. For the same period, the closed-end Lipper Sector Equity Funds category returned (3.23)% on a market price basis and (5.26)% on a NAV basis. All returns reflect reinvestment of dividends. The Trust's discount to NAV, which narrowed during the period, accounts for the difference between performance based on price and performance based on NAV. In a challenging market environment, defensive areas of the market performed best, and investors preferred safe havens like gold. Accordingly, gold and other precious metals were the primary contributors to performance during the period. Within other precious metals, Impala Platinum Holdings Ltd. was a top performer. Detracting from performance were the coal & consumable fuels and oil & gas exploration & production subsectors, which were hurt by low energy prices due to weak global demand. Turnover was typically low over the period, and we added to some cyclical stocks in anticipation of a potential bottoming out in the economy and the stock market. We added to John Deere Ltd., and within the energy sleeve of the fund, we eliminated Compton Petroleum Corp. At period-end, the Trust remains largely exposed to energy and materials, with an emphasis on oil & gas exploration & production and diversified metals & mining. At period end, the Trust's cash position remains elevated and will be deployed opportunistically.

The views expressed reflect the opinions of BlackRock as of the date of this report and are subject to change based on changes in market, economic or other conditions. These views are not intended to be a forecast of future events and are no guarantee of future results.

## Trust Summary as of April 30, 2009

## BlackRock S&amp;P Quality Rankings Global Equity Managed Trust

## Investment Objective

**BlackRock S&P Quality Rankings Global Equity Managed Trust (BQY) (the Trust )** seeks to provide total return through a combination of current income and capital appreciation investing primarily in equity securities of issuers that pay above average dividends and have the potential for capital appreciation. The Trust recently implemented an option writing (selling) strategy to help enhance current gains. No assurance can be given that the Trust's investment objective will be achieved.

The Board approved a change to the Trust's non-fundamental investment policy, please refer to page 102 in the Additional Information section.

## Performance

For the six months ended April 30, 2009, the Trust returned (5.97)% based on market price and (5.13)% based on NAV. For the same period, the MSCI World Developed Value Index returned (6.41)%. All returns reflect reinvestment of dividends. The Trust's discount to NAV, which widened during the period, accounts for the difference between performance based on price and performance based on NAV.

One of the key investment objectives of the BQY portfolio is to generate income through positions in stocks with attractive dividend yields. Over the period, this detracted as higher-yielding stocks have underperformed. However, throughout the course of the period, in particular, when the global credit crisis intensified, higher-quality stocks, the other key investment objective, outperformed lower-quality issues internationally. Significant exposure to the Asia/Pacific region also aided results, as this was the best-performing region during the period.

Further, the BQY strategy was enhanced to take advantage of historically-high stock volatility. A modest amount of covered call writing was added to the strategy, capitalizing on very high call premiums. Approximately 20% of the portfolio has calls written against it, initiated at approximately 10% out of the money. The call premiums added to current income and total return.

The views expressed reflect the opinions of BlackRock as of the date of this report and are subject to change based on changes in market, economic or other conditions. These views are not intended to be a forecast of future events and are no guarantee of future results.

## Trust Summary as of April 30, 2009

BlackRock World Investment Trust

## Investment Objective

**BlackRock World Investment Trust (BWC) (the Trust )** seeks current income, dividends and gains, with a secondary objective of long-term capital appreciation. The Trust seeks to achieve these objectives by investing in equity securities or options on equity securities or indices or sectors of equity securities. Equity securities in which the Trust anticipates investing include common stocks, preferred stocks, convertible securities, warrants, depository receipts and equity interests in REITs. The Trust may invest in preferred stocks and convertible securities of any rating. The Trust may invest in debt securities of issuers located anywhere in the world and including securities rated below investment grade. No assurance can be given that the Trust's investment objective will be achieved.

## Performance

For the six months ended April 30, 2009, the Trust returned 2.64% based on market price and (0.62)% based on NAV. For the same period, the benchmark MSCI World Index posted a return of (5.45)%. All returns reflect reinvestment of dividends. The Trust's discount to NAV, which narrowed during the period, accounts for the difference between performance based on price and performance based on NAV. The Trust's comparative performance was enhanced primarily by strong stock selection, particularly within the energy, financials and healthcare sectors. The Trust's overweight versus the benchmark in the materials sector and its underweight in utilities also benefited relative returns for the trailing six months. By contrast, performance comparisons suffered from the Trust's underweight exposure to the information technology, industrials and consumer discretionary sectors. At period end, the Trust's cash position remains elevated and will be deployed opportunistically.

The views expressed reflect the opinions of BlackRock as of the date of this report and are subject to change based on changes in market, economic or other conditions. These views are not intended to be a forecast of future events and are no guarantee of future results.

## Derivative Instruments

The Trusts may invest in various derivative instruments, including swap agreements and futures, and other instruments specified in the Notes to Financial Statements, which constitute forms of economic leverage. Such instruments are used to obtain exposure to a market without owning or taking physical custody of securities or to hedge market and/or interest rate risks. Such derivative instruments involve risks, including the imperfect correlation between the value of a derivative instrument and the underlying asset, possible default of the other party to the transaction and illiquidity of the derivative instrument. The Trusts' ability to successfully use a derivative instrument depends on the Advisor's ability to accurately predict pertinent market movements, which cannot be assured. The use of derivative instruments may result in losses greater than if they had not been used, may require the Trusts to sell or purchase portfolio securities at inopportune times or for prices other than current market values, may limit the amount of appreciation the Trusts can realize on an investment or may cause the Trusts to hold a security that it might otherwise sell. The Trusts' investments in these instruments are discussed in detail in the Notes to Financial Statements.

\* The cost and unrealized appreciation (depreciation) of investments as of April 30, 2009, as computed for federal income tax purposes, were as follows:

Aggregate cost	\$ 525,493,595
----------------	----------------

## Edgar Filing: BlackRock Energy & Resources Trust - Form N-CSRS

Gross unrealized appreciation	\$ 25,108,607
Gross unrealized depreciation	(104,012,843)
 Net unrealized depreciation	 \$ (78,904,236)

- (a) Investments in companies considered to be an affiliate of the Trust, for purposes of Section 2(a)(3) of the Investment Company Act of 1940 were as follows:

Affiliate	Net Activity	Income
BlackRock Liquidity Funds, TempFund	8,918,424	\$ 77,644

- (b) Represents the current yield as of report date.

For Trust compliance purposes, the Trust's sector and industry classifications refer to any one or more of the Standard Industry Codes as defined by the SEC. This definition may not apply for purposes of this report, which may combine sector and industry sub-classifications for reporting ease.

Effective November 1, 2008, the Trust adopted Financial Accounting Standards Board Statement of Financial Accounting Standards No. 157, Fair Value Measurements (FAS 157). FAS 157 clarifies the definition of fair value, establishes a framework for measuring fair values and requires additional disclosures about the use of fair value measurements. Various inputs are used in determining the fair value of investments, which are as follows:

Level 1 - price quotations in active markets/exchanges for identical securities

Level 2 - other observable inputs (including, but not limited to: quoted prices for similar assets or liabilities in markets that are active, quoted prices for identical or similar assets in markets that are not active, inputs other than quoted prices that are observable for the assets or liabilities (such as interest rates, yield curves, volatilities, prepayment speeds, loss severities, credit risks and default rates) or other market-corroborated inputs)

Level 3 - unobservable inputs based on the best information available in the circumstance, to the extent observable inputs are not available (including the Trust's own assumptions used in determining the fair value of investments)

The inputs or methodology used for valuing securities are not necessarily an indication of the risk associated with investing in those securities. For information about the Trust's policy regarding valuation of investments and other significant accounting policies, please refer to Note 1 of the Notes to Financial Statements.

The following table summarizes the inputs used as of April 30, 2009 in determining the fair valuation of the Trust's investments:

Valuation Inputs	Investments in Securities	Other Financial Instruments**
	Assets	Liabilities
Level 1	\$ 446,589,359	\$ (2,596,982)
Level 2		(1,452,262)
Level 3		
 <b>Total</b>	 <b>\$ 446,589,359</b>	 <b>\$ (4,049,244)</b>

Edgar Filing: BlackRock Energy & Resources Trust - Form N-CSRS

<b>Liabilities in Excess of Other Assets (0.6)%</b>		(3,351,536)

Edgar Filing: BlackRock Energy & Resources Trust - Form N-CSRS

**Net Assets 100.0%** **\$ 526,671,257**

\* The cost and unrealized appreciation (depreciation) of investments as of April 30, 2009, as computed for federal income tax purposes, were as follows:

Aggregate cost	\$ 726,025,603
Gross unrealized appreciation	\$ 7,960,094
Gross unrealized depreciation	(192,685,171)
Net unrealized depreciation	\$ (184,725,077)

- (a) Security, or a portion thereof, pledged as collateral for outstanding options written.
- (b) Security, or a portion of security, is on loan.
- (c) Represents the current yield as of report date.

See Notes to Financial Statements.

Schedule of Investments (concluded) **BlackRock Enhanced Dividend Achievers™ Trust (BDJ)**

- (d) Investments in companies considered to be an affiliate of the Trust, for purposes of Section 2(a)(3) of the Investment Company Act of 1940 were as follows:

Affiliate	Net Activity	Income
BlackRock Liquidity Funds, TempFund	17,324,473	\$ 211,601
BlackRock Liquidity Series, LLC Money Market Series	(17,549,000)	\$ 33,421

- (e) Security purchased with the cash proceeds from securities loans.

For Trust compliance purposes, the Trust's sector and industry classifications refer to any one or more of the Standard Industry Codes as defined by the SEC. This definition may not apply for purposes of this report, which may combine sector and industry sub-classifications for reporting ease.

Effective November 1, 2008, the Trust adopted Financial Accounting Standards Board Statement of Financial Accounting Standards No. 157, Fair Value Measurements (FAS 157). FAS 157 clarifies the definition of fair value, establishes a framework for measuring fair values and requires additional disclosures about the use of fair value measurements. Various inputs are used in determining the fair value of investments, which are as follows:

Level 1 - price quotations in active markets/exchanges for identical securities

Level 2 - other observable inputs (including, but not limited to: quoted prices for similar assets or liabilities in markets that are active, quoted prices for identical or similar assets in markets that are not active, inputs other than quoted prices that are observable for the assets or liabilities (such as interest rates, yield curves, volatilities, prepayment speeds, loss severities, credit risks and default rates) or other market-corroborated inputs)

Level 3 - unobservable inputs based on the best information available in the circumstance, to the extent observable inputs are not available (including the Trust's own assumptions used in determining the fair value of investments)

The inputs or methodology used for valuing securities are not necessarily an indication of the risk associated with investing in those securities. For information about the Trust's policy regarding valuation of investments and other significant accounting policies, please refer to Note 1 of the Notes to Financial Statements.

The following table summarizes the inputs used as of April 30, 2009 in determining the fair valuation of the Trust's investments:

Valuation Inputs	Investments in Securities		Other Financial Instruments**	
	Assets		Assets	Liabilities
Level 1	\$ 536,916,776		\$ 8,750	\$ (6,774,595)
Level 2	4,375,000			(4,503,138)
Level 3				
<b>Total</b>	<b>\$ 541,291,776</b>		<b>\$ 8,750</b>	<b>\$ (11,277,733)</b>

Edgar Filing: BlackRock Energy & Resources Trust - Form N-CSRS

<b>Total Investments Net of Outstanding Options Written 100.0%</b>		241,726,919
<b>Other Assets in Excess of Liabilities 0.0%</b>		73,283
<b>Net Assets 100.0%</b>		\$ 241,800,202

\* The cost and unrealized appreciation (depreciation) of investments as of April 30, 2009, as computed for federal income tax purposes, were as follows:

Aggregate cost	\$ 330,677,820
Gross unrealized appreciation	\$ 10,845,142
Gross unrealized depreciation	(96,797,058)
Net unrealized depreciation	\$ (85,951,916)

## Edgar Filing: BlackRock Energy & Resources Trust - Form N-CSRS

- (a) Security, or a portion thereof, pledged as collateral for outstanding options written.
- (b) Investments in companies considered to be an affiliate of the Trust, for purposes of Section 2(a)(3) of the Investment Company Act of 1940 were as follows:

Affiliate	Net Activity	Income
BlackRock Liquidity Funds, TempFund	6,752,474	\$34,686

- (c) Represents the current yield as of report date.

For Trust compliance purposes, the Trust's sector and industry classifications refer to any one or more of the Standard Industry Codes as defined by the SEC. This definition may not apply for purposes of this report, which may combine sector and industry sub-classifications for reporting ease.

Effective November 1, 2008, the Trust adopted Financial Accounting Standards Board Statement of Financial Accounting Standards No. 157, Fair Value Measurements ( FAS 157 ). FAS 157 clarifies the definition of fair value, establishes a framework for measuring fair values and requires additional disclosures about the use of fair value measurements. Various inputs are used in determining the fair value of investments, which are as follows:

Level 1 - price quotations in active markets/exchanges for identical securities

Level 2 - other observable inputs (including, but not limited to: quoted prices for similar assets or liabilities in markets that are active, quoted prices for identical or similar assets in markets that are not active, inputs other than quoted prices that are observable for the assets or liabilities (such as interest rates, yield curves, volatilities, prepayment speeds, loss severities, credit risks and default rates) or other market-corroborated inputs)

Level 3 - unobservable inputs based on the best information available in the circumstance, to the extent observable inputs are not available (including the Trust's own assumptions used in determining the fair value of investments)

The inputs or methodology used for valuing securities are not necessarily an indication of the risk associated with investing in those securities. For information about the Trust's policy regarding valuation of investments and other significant accounting policies, please refer to Note 1 of the Notes to Financial Statements.

The following table summarizes the inputs used as of April 30, 2009 in determining the fair valuation of the Trust's investments:

Valuation Inputs	Investments in Securities	Other Financial Instruments**
	Assets	Liabilities
Level 1	\$ 244,725,904	\$ (1,377,840)
Level 2		(1,621,145)
Level 3		
<b>Total</b>	<b>\$ 244,725,904</b>	<b>\$ (2,998,985)</b>

\*\* Other financial instruments are options written and are shown at market value.

## Edgar Filing: BlackRock Energy & Resources Trust - Form N-CSRS

- (e) Represents the current yield as of report date.
- (f) Security purchased with the cash proceeds from securities loans.

Effective November 1, 2008, the Trust adopted Financial Accounting Standards Board Statement of Financial Accounting Standards No. 157, Fair Value Measurements ( FAS 157 ). FAS 157 clarifies the definition of fair value, establishes a framework for measuring fair values and requires additional disclosures about the use of fair value measurements. Various inputs are used in determining the fair value of investments, which are as follows:

Level 1 - price quotations in active markets/exchanges for identical securities

Level 2 - other observable inputs (including, but not limited to: quoted prices for similar assets or liabilities in markets that are active, quoted prices for identical or similar assets in markets that are not active, inputs other than quoted prices that are observable for the assets or liabilities (such as interest rates, yield curves, volatilities, prepayment speeds, loss severities, credit risks and default rates) or other market-corroborated inputs)

Level 3 - unobservable inputs based on the best information available in the circumstance, to the extent observable inputs are not available (including the Trust's own assumptions used in determining the fair value of investments)

The inputs or methodology used for valuing securities are not necessarily an indication of the risk associated with investing in those securities. For information about the Trust's policy regarding valuation of investments and other significant accounting policies, please refer to Note 1 of the Notes to Financial Statements.

The following table summarizes the inputs used as of April 30, 2009 in determining the fair valuation of the Trust's investments:

Valuation Inputs	Investments in Securities	Other Financial Instruments**
	Assets	Liabilities
Level 1	\$ 71,283,782	\$ (864,205)
Level 2	48,468,238	(2,880,271)
Level 3		
<b>Total</b>	<b>\$ 119,752,020</b>	<b>\$ (3,744,476)</b>

\*\* Other financial instruments are options written and are shown at market value.

See Notes to Financial Statements.
