SHAREHOLDER LETTER

FIRST TRUST/FIDUCIARY ASSET MANAGEMENT COVERED CALL FUND
ANNUAL REPORT
DECEMBER 31, 2004

Dear Shareholders:

The First Trust/Fiduciary Asset Management Covered Call Fund (the "Fund") began trading on the New York Stock Exchange on August 26, 2004, under the ticker symbol FFA. First Trust Advisors L.P. ("First Trust") is the Fund's investment advisor. Fiduciary Asset Management LLC ("Fiduciary"), based in St. Louis, Missouri, is the investment sub-advisor. Mohammed Riad is the primary portfolio manager of the Fund. He joined Fiduciary in 1999 and oversees several equity portfolios, including options-based strategies for institutional investors.

From August 17, 2004, (commencement of operations), through December 31, 2004, the Fund posted a market price total return of 2.6% and a net asset value (nav) total return of 7.3%. For comparative purposes, the S&P 500 Index posted a total return of 10.4% over the same period. The Fund's market share price traded at a 0.15% premium to its nav at year-end. As of February 14, 2005, the Fund traded at a 3.43% premium. The Fund does not employ leverage.

The Fund declared and paid its first distribution in December. The amount was \$0.535 per share. The distribution was based on a four-month calculation period. Under normal circumstances, the Fund intends to pay a quarterly distribution. When annualized, the current distribution rate was 8.0% based on the Fund's IPO price of \$20.00 per share.

The demand for call option contracts surged on the Chicago Board Options Exchange (CBOE) following the start of the bear market in stocks in 2000. According to data from the CBOE, the open interest (contracts) on calls from 2000 through 2003 was as follows: 2000 (33.8 million), 2001 (57.3 million), 2002 (56.7 million) and 2003 (68.5 million). Data is not yet available for 2004. Though we acknowledge that some of these call options were purchased for speculative purposes, we believe that a healthy percentage of the growth in open interest came from investors looking to generate premium income via the use of covered call strategies.

There are a number of highly regarded investment strategists who believe that in this decade equity returns, specifically large-cap stocks, will average closer to their historical norm of 10.4% per year, if not in the high single digits. That figure is provided by Ibbotson Associates and covers a span from 1926 through 2004. For those investors who subscribe to this premise, we would

Edgar Filing: First Trust/Fiduciary Asset Management Covered Call Fund - Form N-CSR

encourage them to consider the First Trust/Fiduciary Asset Management Covered Call Fund for their investment portfolio. Since the income generated from the option premiums is generally taxed as ordinary income to the investor, we believe that investors may find FFA an attractive investment vehicle for an IRA or other tax qualified account.

I encourage shareholders to read the commentary from Mohammed Riad, Senior Portfolio Manager. We appreciate your interest in our Fund.

Sincerely,

/S/ JAMES A. BOWEN

Mr. Riad is a member of the portfolio management team and performs securities research. Mr. Riad currently specializes in our options-based, small/mid-cap strategies. He has been instrumental in developing large scale options programs, working on both strategy and implementation. He joined Fiduciary Asset Management LLC in June 1999 after earning his M.B.A. from Washington University. Prior to this, Mr. Riad worked for six years at Legg Mason Wood Walker in the Washington D.C. office, and as an Administrative Manager in the New York office. Mr. Riad also holds a Bachelor of Science degree in Business from Wake Forest University.

A COMMENTARY ON THE FIRST TRUST/FIDUCIARY ASSET MANAGEMENT COVERED CALL FUND

The strength of the underlying equity markets during the final months of 2004 propelled the First Trust/Fiduciary Asset Management Covered Call Fund (the "Fund") to a total return since inception of 7.3%, based on NAV. The closest applicable benchmark, the CBOE S&P 500 BuyWrite Index (BXM), returned 5.2% and the S&P 500 Index returned 10.4%, both for the period August 30, 2004 (when the proceeds from the initial offering were received) through December 31, 2004. The underlying equity only portion of the Fund exhibited strong performance, returning 15.1%. The Fund's over-weights in the industrial, technology and consumer sectors coupled with strong individual equity performance contributed to the strong results. The Fund's strategy will continue to earn income on the call premiums associated with the call options, with capital appreciation being a lesser objective. We were pleased to meet the quarterly distribution goal, while capturing modest capital appreciation to increase the Fund NAV.

Reasons for the market strength can be attributed to the following:

- o Strong corporate net earning and revenue growth continued throughout 2004.
- o U.S. GDP growth measured 4.4% for the year, while inflationary

Edgar Filing: First Trust/Fiduciary Asset Management Covered Call Fund - Form N-CSR

pressures remained in check.

- o Historically low interest rates allowed investors to find value in equity securities.
- o Strong "demand" for equity securities, measured by net cash inflows into equity funds.
- o Tax cuts and fiscal investment incentives promoted market demand.

Given this favorable investment environment, the Fund rapidly invested its \$377.0 million initial public offering net proceeds into a select portfolio of S&P 500 equity issues. Concurrent with these equity purchases, call options were written (sold) on the portfolio securities to provide equity growth and to minimize downside risks.

During December 2004, the Fund declared and paid its first quarterly dividend to shareholders. This dividend, \$0.535 per share, represented ordinary income earned by the Fund's investment portfolio since the offering, and represented an annualized yield of 8.0% on the offering price.

We are constructive about the U.S. economy and the underlying equity markets for 2005. Corporations should continue to show strong revenue and profit growth and equity valuations remain reasonable. Our expectations going into 2005 include the following:

- o The U.S. economy, as it begins its fourteenth consecutive quarter of expansion, should recede from its unsustainable recovery rates to its long-term trend-line growth rate of 3.0 to 3.5%.
- o Corporate profits, already at record highs in 2004, should slow to their 7% trend-line growth rate from +20% annual growth in the past three years.
- o Equities should remain undervalued relative to bonds.
- o No meaningful changes in fiscal or monetary policies should occur in 2005.
- o Corporate coffers should have more than \$1 trillion in cash.

 NOTES TO FINANCIAL STATEMENTS

FIRST TRUST/FIDUCIARY ASSET MANAGEMENT COVERED CALL FUND
 DECEMBER 31, 2004

1. FUND DESCRIPTION

First Trust/Fiduciary Asset Management Covered Call Fund (the "Fund") is a diversified closed-end management investment company organized as a Massachusetts business trust on May 20, 2004 and is registered with the Securities and Exchange Commission ("SEC") under the Investment Company Act of 1940, as amended (the "1940 Act").

The Fund's investment objective is to provide a high level of current income and gains and, to a lesser extent, capital appreciation. The Fund seeks to achieve

Edgar Filing: First Trust/Fiduciary Asset Management Covered Call Fund - Form N-CSR

its investment objective by investing in a diversified portfolio of equity securities and writing (selling) call options on at least 80% of the Fund's Managed Assets ("Managed Assets" is gross assets of the Fund minus the sum of the Fund's accrued and unpaid dividends on Common Shares and accrued liabilities, including the value of call options written). There can be no assurance that the Fund's investment objective will be achieved.

2. SIGNIFICANT ACCOUNTING POLICIES

The following is a summary of significant accounting policies consistently followed by the Fund in the preparation of its financial statements. The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts and disclosures in the financial statements. Actual results could differ from those estimates.

PORTFOLIO VALUATION:

The Fund determines the net asset value ("NAV") of its shares daily, as of 4:15 p.m. Eastern time, every day on which the New York Stock Exchange is open for trading. The NAV is computed by dividing the value of all assets of the Fund (including accrued interest and dividends), less all liabilities (including accrued expenses, the value of call options written (sold) and dividends declared but unpaid), by the total number of shares outstanding.

The Fund's investments are valued at market value or, in the absence of market value with respect to any portfolio securities, at fair value as determined according to procedures adopted by the Fund's Board of Trustees. Portfolio securities listed on any exchange other than the NASDAQ National Market ("NASDAQ") are valued at the last sale price on the business day on which such value is being determined. If there has been no sale on such day, the securities are valued at the mean of the most recent bid and asked prices on such day. Securities traded on the NASDAQ are valued at the NASDAQ Official Closing Price as determined by NASDAQ. Portfolio securities traded on more than one securities exchange are valued at the last sale price on the business day as of which such value is being determined at the close of the exchange representing the principal market for such securities. Portfolio securities traded in the over-the-counter market, but excluding securities trading on the NASDAQ, are valued at the closing bid prices. Fixed income securities with a remaining maturity of 60 days or more will be valued by the Fund using a pricing service. When price quotes are not available, fair market value is based on prices of comparable securities. Short-term investments that mature in 60 days or less are valued at amortized cost.

The Fund values exchange-traded options and other derivative contracts at the closing price on the exchange on which they are principally traded, or if not traded, or no closing price is available, at the mean between the last bid and asked price.

OPTION CONTRACTS:

COVERED CALL OPTIONS. When the Fund purchases equity securities, it simultaneously writes (sells) covered call options on substantially all of such equity securities. The number of call options the Fund can write (sell) is limited by the amount of equity securities the Fund holds in its portfolio. The Fund will not write (sell) "naked" or uncovered call options. By writing (selling) call options, the Fund seeks to generate additional income, in the form of premiums received for writing (selling) the options, and provide a partial hedge against a market decline in the underlying equity security. Call options are marked-to-market daily and their value will be affected by changes

Edgar Filing: First Trust/Fiduciary Asset Management Covered Call Fund - Form N-CSR

in the value and dividend rates of the underlying equity securities, an increase in interest rates, changes in the actual or perceived volatility of the securities markets and the underlying equity securities and the remaining time to the options' expiration. The value of call options may also be adversely affected if the market for the options becomes less liquid or smaller.

Call options the Fund writes (sells) will either be exercised, expire or cancelled pursuant to a closing transaction. If the price of the underlying equity security exceeds the option's exercise price, it is likely that the option holder will exercise the option. If a call option written (sold) by the Fund is exercised, the Fund would be obligated to deliver the underlying equity security to the option holder upon

Page 18

NOTES TO FINANCIAL STATEMENTS - (CONTINUED)

FIRST TRUST/FIDUCIARY ASSET MANAGEMENT COVERED CALL FUND DECEMBER 31, 2004

payment of the exercise price. In this case, the call option premium received by the Fund will be added to the amount realized on the sale of the equity security for purposes of determining gain or loss. If the price of the underlying equity security is less than the call option's exercise price, the call option will likely expire without being exercised. The call option premium will be treated as short term capital gain on the expiration date of the call option. The Fund may also elect to close out its position in a call option prior to its expiration by purchasing a call option of the same option series as the call option written (sold) by the Fund.

The Fund writes (sells) call options on at least 80% of the Fund's Managed Assets. These call options give the option holder the right, but not the obligation, to purchase a security from the Fund at the strike price on or prior to the option's expiration date. The ability to successfully implement the Fund's investment strategy depends on the Sub-Adviser's ability to predict pertinent market movements, which cannot be assured. Thus, the use of options may require the Fund to sell portfolio securities at inopportune times or for prices other than current market value, may limit the amount of appreciation the Fund can realize on an investment, or may cause the Fund to hold a security that it might otherwise sell. As the writer (seller) of a covered call option, the Fund forgoes, during the option's life, the opportunity to profit from increases in the market value of the security covering the call option above the sum of the premium and the strike price of the call option, but has retained the risk of loss should the price of the underlying security decline. The writer (seller) of an option has no control over the time when it may be required to fulfill its obligation as a writer (seller) of the option. Once an option writer (seller) has received an exercise notice, it cannot effect a closing purchase transaction in order to terminate its obligation under the option and must deliver the underlying security at the exercise price.

SECURITIES TRANSACTIONS AND INVESTMENT INCOME:

Securities transactions are recorded as of the trade date. Realized gains and losses from securities transactions are recorded on the identified cost basis. Dividend income is recorded on the ex-dividend date. Interest income is recognized and recorded on the accrual basis, including amortization of premiums and accretion of discounts.

Edgar Filing: First Trust/Fiduciary Asset Management Covered Call Fund - Form N-CSR

DIVIDENDS AND DISTRIBUTIONS TO SHAREHOLDERS:

Dividends from net investment income of the Fund are expected to be declared and paid quarterly or as the Board of Trustees may determine from time to time. Distributions of any net capital gains earned by the Fund are distributed at least annually. Distributions will automatically be reinvested into additional Common Shares pursuant to the Fund's Dividend Reinvestment Plan unless cash distributions are elected by the shareholder.

Distributions from income and capital gains are determined in accordance with income tax regulations, which may differ from accounting principles generally accepted in the United States of America. These differences are primarily due to differing treatments of income and gains on various investment securities held by the Fund, timing differences and differing characterization of distributions made by the Fund. Permanent differences incurred during the period ended December 31, 2004, resulting in book and tax accounting differences have been reclassified at year end to reflect a decrease to accumulated net investment loss by \$124,798 and an increase to accumulated net realized loss by \$124,798. Net assets were not affected by this reclassification.

The tax character of distributions paid during 2004 were as follows:

Distributions paid from:

Ordinary Income.....	\$10,582,426
----------------------	--------------

As of December 31, 2004, the components of distributable earnings on a tax basis were as follows:

Ordinary Income.....	\$ 598,184
Unrealized Appreciation.....	\$17,414,955

Page 19

NOTES TO FINANCIAL STATEMENTS - (CONTINUED)

FIRST TRUST/FIDUCIARY ASSET MANAGEMENT COVERED CALL FUND DECEMBER 31, 2004

INCOME TAXES:

The Fund intends to continue to qualify as a regulated investment company by complying with the requirements under Subchapter M of the Internal Revenue Code of 1986, as amended, and by distributing substantially all of its net investment income and net realized gains to shareholders. Accordingly, no provision has been made for federal or state income taxes.

EXPENSES:

The Fund pays all expenses directly related to its operations.

ORGANIZATIONAL AND OFFERING COSTS:

Organization costs consist of costs incurred to establish the Fund and enable it to legally do business. These costs include listing fees, legal services pertaining to the organization of the business and audit fees relating to the

Edgar Filing: First Trust/Fiduciary Asset Management Covered Call Fund - Form N-CSR

initial registration and auditing the initial statement of assets and liabilities, among other fees. Offering costs consist of legal fees pertaining to the Fund's shares offered for sale, registration fees, underwriting fees, and printing of the initial prospectus, among other fees. First Trust Advisors L.P. ("First Trust") has paid all organizational expenses. The Fund's share of Common Share offering costs, \$791,209, was recorded as a reduction of the proceeds from the sale of Common Shares.

3. INVESTMENT ADVISORY FEE AND OTHER AFFILIATED TRANSACTIONS

First Trust is a limited partnership with one limited partner, Grace Partners of DuPage L.P., and one general partner, The Charger Corporation. First Trust serves as investment advisor to the Fund pursuant to an Investment Management Agreement. First Trust is responsible for implementing the Fund's overall investment strategy, including the allocation and periodic reallocation of the portion of the Fund's assets to be invested in common stocks, and certain administrative services necessary for the management of the Fund. For these services, First Trust is entitled to a monthly fee calculated at an annual rate of 1.00% of the Fund's Managed Assets.

Fiduciary Asset Management, LLC (the "Sub-Advisor") serves as the Fund's Sub-Advisor and manages the Fund's portfolio subject to First Trust's supervision. The Sub-Advisor receives a portfolio management fee of 0.50% of Managed Assets that is paid monthly by First Trust out of the First Trust management fee.

PFPC Inc. ("PFPC"), an indirect, majority-owned subsidiary of The PNC Financial Services Group Inc., serves as the Fund's administrator and transfer agent in accordance with certain fee arrangements. PFPC Trust Company, an indirect, majority-owned subsidiary of The PNC Financial Services Group Inc., serves as the Fund's custodian in accordance with certain fee arrangements.

The Fund pays each Trustee who is not an officer or employee of First Trust or any of its affiliates an annual retainer of \$10,000, which includes compensation for all regular quarterly board meetings and regular committee meetings. No additional meeting fees are paid in connection with regular quarterly board meetings or regular committee meetings. Additional fees of \$1,000 and \$500 are paid to non-interested Trustees for special board meetings and non-regular committee meetings, respectively. These additional fees are shared by the funds in the First Trust fund complex that participate in the particular meeting and are not per fund fees. Trustees are also reimbursed for travel and out-of-pocket expenses in connection with all meetings.

 REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

TO THE BOARD OF TRUSTEES AND SHAREHOLDERS OF FIRST TRUST/FIDUCIARY ASSET
 MANAGEMENT COVERED CALL FUND

We have audited the accompanying statement of assets and liabilities of First Trust/Fiduciary Asset Management Covered Call Fund (the "Fund"), including the portfolio of investments, as of December 31, 2004, and the related statement of operations, statement of changes in net assets, and financial highlights for the period August 17, 2004 (inception) through December 31, 2004. These financial statements and financial highlights are the responsibility of the Fund's management. Our responsibility is to express an opinion on these financial statements and financial highlights based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements and financial highlights are free of material misstatement. An audit includes consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. Our procedures included confirmation of securities owned as of December 31, 2004, by correspondence with the Fund's custodian and brokers; where replies were not received from brokers, we performed other auditing procedures. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements and financial highlights referred to above present fairly, in all material respects, the financial position of First Trust/Fiduciary Asset Management Covered Call Fund at December 31, 2004, the results of its operations, the changes in its net assets, and the financial highlights for the period August 17, 2004 (inception) through December 31, 2004, in conformity with accounting principles generally accepted in the United States

of America.

ADDITIONAL INFORMATION (UNAUDITED)

FIRST TRUST/FIDUCIARY ASSET MANAGEMENT COVERED CALL FUND
DECEMBER 31, 2004

DIVIDEND REINVESTMENT PLAN

If your Common Shares are registered directly with the Fund or if you hold your Common Shares with a brokerage firm that participates in the Fund's Dividend Reinvestment Plan (the "Plan"), unless you elect to receive cash distributions, all dividends and distributions on your Common Shares will be automatically reinvested by PFPC Inc. (the "Plan Agent") in additional Common Shares under the Plan. If you elect to receive cash distributions, you will receive all distributions in cash paid by check mailed directly to you by the Plan Agent.

If you decide to participate in the Plan, the number of Common Shares you will receive will be determined as follows:

- (1) If the Common Shares are trading at or above net asset value at the time of valuation, the Fund will issue new shares at a price equal to the greater of (i) net asset value per Common Share on that date or (ii) 95% of the market price on that date.
- (2) If the Common Shares are trading below net asset value at the time of valuation, the Plan Agent will receive the dividend or distribution in cash and will purchase Common Shares in the open market, on the New York Stock Exchange or elsewhere, for the participants' accounts. It is possible that the market price for the Common Shares may increase before the Plan Agent has completed its purchases. Therefore, the average purchase price per share paid by the Plan Agent may exceed the market price at the time of valuation, resulting in the purchase of fewer shares than if the dividend or distribution had been paid in Common Shares issued by the Fund. The Plan Agent will use all dividends and distributions received in cash to purchase Common Shares in the open market within 30 days of the valuation date except where temporary curtailment or suspension of purchases is necessary to comply with federal securities laws. Interest will not be paid on any uninvested cash payments.

You may withdraw from the Plan at any time by giving written notice to the Plan Agent, or by telephone in accordance with such reasonable requirements as the Plan Agent and Fund may agree upon. If you withdraw or the Plan is terminated, you will receive a certificate for each whole share in your account under the Plan and you will receive a cash payment for any fraction of a share in your

Edgar Filing: First Trust/Fiduciary Asset Management Covered Call Fund - Form N-CSR

account. If you wish, the Plan Agent will sell your shares and send you the proceeds, minus brokerage commissions.

The Plan Agent maintains all shareholders' accounts in the Plan and gives written confirmation of all transactions in the accounts, including information you may need for tax records. Common Shares in your account will be held by the Plan Agent in non-certificated form. The Plan Agent will forward to each participant any proxy solicitation material and will vote any shares so held only in accordance with proxies returned to the Fund. Any proxy you receive will include all Common Shares you have received under the Plan.

There is no brokerage charge for reinvestment of your dividends or distributions in Common Shares. However, all participants will pay a pro rata share of brokerage commissions incurred by the Plan Agent when it makes open market purchases.

Automatically reinvesting dividends and distributions does not mean that you do not have to pay income taxes due upon receiving dividends and distributions. Capital gains and income are realized, although cash is not received by you.

If you hold your Common Shares with a brokerage firm that does not participate in the Plan, you will not be able to participate in the Plan and any dividend reinvestment may be effected on different terms than those described above. Consult your financial advisor for more information.

The Fund reserves the right to amend or terminate the Plan if in the judgment of the Board of Trustees the change is warranted. There is no direct service charge to participants in the Plan; however, the Fund reserves the right to amend the Plan to include a service charge payable by the participants. Additional information about the Plan may be obtained by writing PFPC Inc., 301 Bellevue Parkway, Wilmington, Delaware 19809.

ITEM 7. DISCLOSURE OF PROXY VOTING POLICIES AND PROCEDURES FOR CLOSED-END MANAGEMENT INVESTMENT COMPANIES.

The Proxy Voting Policies are attached herewith.

Edgar Filing: First Trust/Fiduciary Asset Management Covered Call Fund - Form N-CSR

FIDUCIARY ASSET MANAGEMENT, LLC

PROXY VOTING POLICY

A. STATEMENT OF POLICY

1. It is the policy of Fiduciary Asset Management, LLC ("FAM") to vote all proxies over which it has voting authority in the best interest of FAM's clients.

B. DEFINITIONS

2. By "best interest of FAM's clients," FAM means clients' best economic interest over the long term -- that is, the common interest that all clients share in seeing the value of a common investment increase over time. Clients may have differing political or social interests, but their best economic interest is generally uniform.

3. By "material conflict of interest," FAM means circumstances when FAM itself knowingly does business with a particular proxy issuer or closely affiliated entity, and may appear to have a significant conflict of interest between its own interests and the interests of clients in how proxies of that issuer are voted.

C. FAM INVESTS WITH MANAGERMENTS THAT SEEK SHAREHOLDERS' BEST INTERESTS

4. Under its investment philosophy, FAM generally invests client funds in a company only if FAM believes that the company's management seeks to serve shareholders' best interests. Because FAM has confidence in the managements of the companies in which it invests, it believes that management decisions and recommendations on issues such as proxy voting GENERALLY are likely to be in shareholders' best interests.

5. FAM may periodically reassess its view of company managements. If FAM concludes that a company's management no longer serves shareholders' best interests, FAM generally sells its clients' shares of the company. FAM believes that clients do not usually benefit from holding shares of a poorly managed company or engaging in proxy contests with management.

D. FAM'S PROXY VOTING PROCEDURES

6. When companies in which FAM has invested client funds issue proxies, FAM routinely votes the proxies as recommended by management, because it believes that recommendations by these companies' managements generally are in shareholders' best interests, and therefore in the best economic interest of FAM's clients.

7. If FAM has decided to sell the shares of a company, whether because of concerns about the company's management or for other reasons, FAM generally abstains from

voting proxies issued by the company after FAM has made the decision to sell. FAM generally will not notify clients when this type of routine abstention occurs.

8. FAM also may abstain from voting proxies in other circumstances. FAM may determine, for example, that abstaining from voting is appropriate if voting may be unduly burdensome or expensive, or otherwise not in the best economic interest of clients, such as when foreign proxy issuers impose unreasonable

Edgar Filing: First Trust/Fiduciary Asset Management Covered Call Fund - Form N-CSR

voting or holding requirements. FAM generally will not notify clients when this type of routine abstention occurs.

9. The procedures in this policy apply to all proxy voting matters over which FAM has voting authority, including changes in corporate governance structures, the adoption or amendment of compensation plans (including stock options), and matters involving social issues or corporate responsibility.

E. ALTERNATIVE PROCEDURES FOR POTENTIAL MATERIAL CONFLICTS OF INTEREST

10. In certain circumstances, such as when the proponent of a proxy proposal is also a client of FAM, an appearance might arise of a potential conflict between FAM's interests and the interests of affected clients in how the proxies of that issuer are voted.

11. Because FAM does not exercise discretion in voting proxies, but routinely votes proxies as recommended by management, no potential conflict of interest could actually affect FAM's voting of the proxies.

12.a. Nevertheless, when FAM itself knowingly does business with a particular proxy issuer and a material conflict of interest between FAM's interests and clients' interests may appear to exist, FAM generally would, to avoid any appearance concerns, follow an alternative procedure rather than vote proxies as recommended by management. Such an alternative procedure generally would involve causing the proxies to be voted in accordance with the recommendations of an independent service provider that FAM may use to assist in voting proxies. FAM generally will not notify clients if it uses this procedure to resolve an apparent material conflict of interest. FAM will document the identification of any material conflict of interest and its procedure for resolving the particular conflict.

12.b. In unusual cases, FAM may use other alternative procedures to address circumstances when a material conflict of interest may appear to exist, such as, without limitation:

- (i) Notifying affected clients of the conflict of interest (if practical), and seeking a waiver of the conflict to permit FAM to vote the proxies under its usual policy;
- (ii) Abstaining from voting the proxies; or
- (iii) Forwarding the proxies to clients so that clients may vote the proxies themselves.

FAM generally will notify affected clients if it uses one of these alternative procedures to resolve a material conflict of interest.

F. OTHER EXCEPTIONS

13. On an exceptions basis, FAM may for other reasons choose to depart from its usual procedure of routinely voting proxies as recommended by management.

G. VOTING BY CLIENT INSTEAD OF FAM

14. A FAM client may vote its own proxies instead of directing FAM to do so. FAM recommends this approach if a client believes that proxies should be voted based on political or social interests.

15. FAM generally will not accept proxy voting authority from a client (and will encourage the client to vote its own proxies) if the client seeks to impose client-specific voting guidelines that may be inconsistent with FAM's guidelines

Edgar Filing: First Trust/Fiduciary Asset Management Covered Call Fund - Form N-CSR

or with the client's best economic interest in FAM's view.

16. FAM generally will abstain from voting on (or otherwise participating in) the commencement of legal proceedings such as shareholder class actions or bankruptcy proceedings.

H. PERSONS RESPONSIBLE FOR IMPLEMENTING FAM'S POLICY

17. FAM's client services staff has primary responsibility for implementing FAM's proxy voting procedures, including ensuring that proxies are timely submitted. FAM also may use a service provider to assist in voting proxies, recordkeeping, and other matters.

18. FAM's security analysts routinely review proxy proposals as part of their ongoing reassessment of companies and their managements.

I. RECORDKEEPING

19. FAM or a service provider maintains, in accordance with Rule 204-2 of the Investment Advisers Act:

(i) Copies of all proxy voting policies and procedures;

(ii) Copies of proxy statements received (unless maintained elsewhere as described below);

(iii) Records of proxy votes cast on behalf of clients;

(iv) Documents prepared by FAM that are material to a decision on how to vote or memorializing the basis for a decision;

(v) Written client requests for proxy voting information, and (vi) written responses by FAM to written or oral client requests.

20. FAM will obtain an undertaking from any service provider that the service provider will provide copies of proxy voting records and other documents promptly upon request if FAM relies on the service provider to maintain related records.

21. FAM or its service provider may rely on the SEC's EDGAR system to keep records of certain proxy statements if the proxy statements are maintained by issuers on that system (as is generally true in the case of larger U.S.-based issuers).

22. All proxy related records will be maintained in an easily accessible place for five years (and an appropriate office of FAM or a service provider for the first two years).

J. AVAILABILITY OF POLICY AND PROXY VOTING RECORDS TO CLIENTS

23. FAM will initially inform clients of this policy and how a client may learn of FAM's voting record for the client's securities through summary disclosure in Part II of FAM's Form ADV. Upon receipt of a client's request for more information, FAM will provide to the client a copy of this proxy voting policy and/or how FAM voted proxies for the client during the period since this policy was adopted.
