PROVIDENT FINANCIAL HOLDINGS, INC. REPORTS RECORD FOURTH QUARTER AND FISCAL YEAR RESULTS

Riverside, California, July 24, 2003 - Provident Financial Holdings, Inc. (NASDAQ/PROV), the holding company for Provident Savings Bank, FSB, today announced record earnings (see Note 1) for the fourth quarter and fiscal 2003. Net income for the fourth quarter of fiscal 2003 totaled \$4.72 million, an increase of 94 percent from net income of \$2.43 million for the fourth quarter of fiscal 2002; and diluted earnings per share for the fourth quarter of fiscal 2003 increased 50 cents, or 111 percent, to 95 cents from 45 cents for the fourth quarter of fiscal 2002. Return on average assets for the fourth quarter of fiscal 2003 was 1.54 percent, as compared to 0.95 percent for the same

period of fiscal 2002. Return on average stockholders' equity for the fourth quarter of fiscal 2003 was 18.19 percent, as compared to 9.40 percent in the comparable period of fiscal 2002.

On a sequential quarter basis, net income for the fourth quarter of fiscal 2003 increased \$130,000, or 3 percent, from \$4.59 million in the third quarter of fiscal 2003; and diluted earnings per share increased 3 cents, or 3 percent, from 92 cents in the third quarter of fiscal 2003. Return on average assets decreased 2 basis points to 1.54 percent from 1.56 percent in the third quarter of fiscal 2003, while return on average equity decreased 15 basis points to 18.19 percent from 18.34 percent in the third quarter of fiscal 2003.

Page 1 of 13

For the fiscal year ended June 30, 2003, net income totaled \$16.89 million, an increase of 85 percent from net income of \$9.11 million for the year ended June 30, 2002; and diluted earnings per share for fiscal 2003 increased \$1.62, or 96 percent, to \$3.30 from \$1.68 for fiscal 2002. Return on average assets for the year ended June 30, 2003 was 1.47 percent compared to 0.86 percent for the fiscal year ended June 30, 2002, an increase of 61 basis points. Return on average stockholders' equity for the year ended June 30, 2003 was 16.51 percent compared to 9.05 percent for the prior year, an increase of 746 basis points.

Net interest income after provision for loan losses increased \$1.88 million, or 29 percent, to \$8.28 million in the fourth quarter of fiscal 2003 from \$6.41 million for the same period in fiscal 2002; non-interest income increased \$2.04 million to \$6.77 million in the fourth quarter of fiscal 2003 from \$4.73 million in the comparable period of fiscal 2002; and non-interest expense increased \$155,000 to \$7.16 million in the fourth quarter of fiscal 2003 from \$7.00 million in the comparable period in fiscal 2002.

The average balance of loans outstanding increased by \$183.4 million to \$830.3 million in the fourth quarter of fiscal 2003 from \$646.9 million for the same quarter of fiscal 2002, while the average yield decreased by 111 basis points to 6.11 percent in the fourth quarter of fiscal 2003 from an average yield of 7.22 percent for the same quarter of fiscal 2002. Total portfolio loan originations (including purchased loans) in the fourth quarter of fiscal 2003 were \$155.7 million, which consisted primarily of single-family, commercial real estate and construction loans. This compares to total portfolio loan originations (including purchased loans) of \$89.2 million in the fourth quarter of fiscal 2002. The outstanding balance of "preferred loans" (multi-family, construction,

commercial real estate and commercial business loans) increased by \$49.1 million, or 30 percent, to \$212.8 million at June 30, 2003 from \$163.7 million at June 30, 2002. The ratio of preferred loans to portfolio loans increased to 29 percent at June 30, 2003 from 28 percent June 30, 2002. Loan prepayments in the fourth quarter of fiscal 2003 were \$85.2 million as compared to \$87.0 million in the same quarter of fiscal 2002.

The average balance of deposits increased by \$66.6 million to \$752.3 million and the average cost of deposits decreased by 88 basis points to 1.95 percent in the fourth quarter of fiscal 2003, as compared to the average balance of \$685.7 million and an average cost of 2.83 percent in the same quarter last year. Total transaction account balances (core deposits) increased by \$122.5 million, or 36 percent, to \$463.4 million at June 30, 2003 from \$340.9 million at June 30, 2002; while total time deposits decreased \$45.8 million, or 14 percent, to \$290.8 million at June 30, 2003 from \$336.6 million at June 30, 2002.

The average balance of FHLB advances increased by \$110.1 million to \$322.8 million and the average cost of advances decreased 294 basis points to 3.78 percent in the fourth quarter of fiscal 2003, as compared to the average balance of \$212.7 million and an average cost of 6.72 percent in the same quarter of fiscal 2002. The decrease in the average cost of FHLB advances was primarily a result of the use of overnight advances with an average balance of \$98.6 million and an average cost of 1.30 percent in the fourth quarter of fiscal 2003 as compared to average overnight advances of \$1.7 million with an average cost of 1.86 percent in the same quarter of fiscal 2002.

The net interest margin during the fourth quarter of fiscal 2003 increased to 2.91 percent as compared to 2.70 percent during the same quarter last year, an improvement of

Page 3 of 13

²¹ basis points. On a sequential quarter basis, the net interest margin in the fourth quarter of fiscal 2003 decreased 5 basis points from 2.96 percent in the third quarter of fiscal 2003. For the year ended June 30, 2003, the net interest margin increased to 2.94 percent as compared to 2.62 percent during the same period last year, an increase of 32 basis

points.

During the fourth quarter of fiscal 2003, the provision for loan losses was \$85,000 as compared to \$150,000 during the same period of fiscal 2002. The provision recorded in the fourth quarter was a result of the sequential quarter growth in the loan portfolio, including the substantial growth of "preferred loans" and a \$217,000 charge off of two commercial business loans to a single borrower.

The increase in non-interest income in the fourth quarter of fiscal 2003 as compared to the same period of fiscal 2002 was primarily the result of an increase in the gain on sale of loans. The gain on sale of loans increased \$2.5 million, or 93 percent, to \$5.2 million, primarily attributable to a higher average loan sale margin (1.29 percent compared to 1.10 percent) and a higher volume of loans originated for sale (\$390.2 million compared to \$230.1 million).

In the fourth quarter of fiscal 2003, the net impact of derivative financial instruments (Statement of Financial Accounting Standards (("SFAS")) No. 133) on the consolidated statement of operations was a favorable adjustment of \$114,000 as compared to a favorable adjustment of \$113,000 in the same period last year. For the year, the net impact was a favorable adjustment of \$360,000 as compared to an unfavorable adjustment of \$118,000 in the same period last year. The fair value of the derivative financial instruments outstanding at June 30, 2003 was \$1.6 million in

Page 4 of 13

comparison to \$559,000 at June 30, 2002. The fair value adjustment for SFAS No. 133 is subject to the Bank's commitments to extend credit on loans to be held for sale, including servicing released premiums (net of commitments which may not fund), forward loan sale agreements, put option contracts, interest rate conditions and other related factors. This SFAS No. 133 adjustment is relatively volatile and may have an adverse impact on future earnings.

Non-interest expense for the fourth quarter of fiscal 2003 increased \$155,000 to \$7.2 million, as compared to \$7.0 million for the same quarter in fiscal 2002. The increase in non-interest expense was primarily the result of the costs associated with increased loan production volume in the Mortgage Banking Division. This is reflected in increased commissions and loan production incentives in the fourth quarter of fiscal 2003, which were \$302,000 higher than the same period in fiscal 2002.

The Corporation's efficiency ratio for the fourth quarter of fiscal 2003 improved to 47 percent as compared to 62 percent in the fourth quarter of 2002, a result of the increase in revenue which significantly outpaced the increase in non-interest expense. For the year ended June 30, 2003 the efficiency ratio improved to 49 percent from 62 percent during the same period in 2002.

Non-performing assets declined to \$914,000, or 0.07 percent of total assets, at June 30, 2003, as compared to \$1.6 million, or 0.16 percent of total assets, at June 30, 2002. The allowance for loan losses was \$7.2 million at June 30, 2003, or 0.96 percent of gross loans held for investment as compared to \$6.6 million, or 1.10 percent of gross loans held for investment, at June 30, 2002.

"It is very gratifying to see the hard work and dedication of our employees payoff in the form of outstanding financial results. We have had the wind at our backs with respect to our mortgage banking business but our staff still needed to execute in order to capitalize on this favorable environment. They have lived up to our expectations. Additionally, our community banking business has shown sound improvement by any measure. The loan portfolio has grown, transaction accounts (core deposits) have increased, net interest income is up, the net interest margin has expanded, non mortgage banking related fee income is up and operating expenses have been contained. This has been an outstanding year," commented Craig G. Blunden, Chairman, President and Chief Executive Officer.

During the quarter the Corporation repurchased 15,000 shares of its common stock at an average price of \$30.05 per share for a total cost of \$451,000. Currently, there are 95,800 shares remaining under the existing 10 percent share repurchase authorization.

Provident Savings Bank, FSB currently operates 11 retail/business banking offices in Riverside County and San Bernardino County along with nine Provident Bank Mortgage loan production offices located throughout Southern California. The twelfth retail/business banking office is scheduled to open in August 2003 in the fast growing Orangecrest area of Riverside.

The Corporation will host a conference call for institutional investors and bank analysts on Monday, July 28, 2003 at 10:00 a.m. (Pacific Time) to discuss its financial results. The conference call can be accessed by dialing (888) 273-9885 and requesting the Provident Financial Holdings Earnings Release Conference Call. An audio replay of

Note 1: The record high earnings and the record high diluted earnings per share for the current quarter is determined by comparing current earnings to prior quarters' earnings, excluding the non-recurring property gain of \$3.57 million (net of taxes) reported in the fourth quarter of fiscal 1999.

Forward-Looking Statement

Certain matters in this News Release and the conference call noted above may constitute forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. These forward-looking statements may relate to, among others, expectations of the business environment in which the Corporation operates, projections of future performance, perceived opportunities in the market, potential future credit experience, and statements regarding the Corporation's mission and vision. These forward-looking statements are based upon current management expectations, and may, therefore, involve risks and uncertainties. The Corporation's actual results, performance, or achievements may differ materially from those suggested, expressed, or implied by forward-looking statements due to a wide range of factors including, but not limited to, the general business environment, interest rates, the California real estate market, competitive conditions between banks and non-bank financial services providers, regulatory changes, and other risks detailed in the Corporation's reports filed with the Securities and Exchange Commission, including the Annual Report on Form 10-K for the fiscal year ended June 30, 2002.
