In December 1995, the Board of Directors voted to institute a 401(k) plan for nonunion employees to be effective January 1, 1996. In 2001, the Board of Directors approved a payment totaling \$44,000 for participants of the non-union and union 401(k) plans.

Directors do not receive any compensation for their service. Out-of-pocket expenses for travel, meals and miscellaneous expenses incurred in the course of the Director's activities on behalf of the Company are reimbursed at cost.

On April 30, 1997, the Company and its shareholders adopted a nonqualified stock option plan ("1997 Plan"), which was to expire September 30, 2002 and extended to December 31, 2005; see below, except as to options then outstanding under the 1997 Plan. Under the 1997 Plan, the Board of Directors may grant options to eligible employees at exercise prices not less than 100% of the fair market value of the common shares at the time the option is granted. The number of shares of Common Stock that may be issued shall not exceed an aggregate of up to 10% of its issued and outstanding shares from time to time. Options vest at a rate of 20% per year commencing one year after date of grant. Issuances under the 1997 Plan are to be reduced by options outstanding under a 1990 nonqualified stock option plan (replaced by the 1997 Plan). Effective September 30, 1998, all outstanding employee stock options were reset to an exercise price of \$1.00 per share.

On September 30, 2002, options on 24,083 of Common Stock were extended to December 31, 2005 and the option exercise price remained \$1.00 per share.

See "SECURITY OWNERSHIP OF CERTAIN BENEFICIAL OWNERS AND MANAGEMENT."

AUDIT COMMITTEE

The Corporation has established a three-member audit committee within the Board of Directors which currently consists of Messrs. Daniel S. Tamkin, Dennis P. McConnell and Henry Schnurbach.

**Edgar Filing: FIRETECTOR INC - Form PRE 14A**

The Board of Directors has determined that each of Messrs. McConnell and Schnurbach is an "independent director," as such term is defined by Rule 4200(a)(15) of the National Association of Securities Dealers' listing standards.

The audit committee has reviewed and discussed the Corporation's audited financial statements with management.

The audit committee has discussed with the independent auditors the matters required to be discussed by Statement on Auditing Standards No. 61 (SAS 61), "Communication with Audit Committees," as amended, by the Auditing Standards Board of the American Institute of Certified Public Accountants.

The audit committee has received the written disclosures and the letter from the independent accountants required by Independence Standards Board No. 1, "Independence Discussions with Audit Committees," as amended, and has discussed with the independent accountant the independent accountant's independence.

The Board has considered whether the provision of non-audit services is compatible with maintaining the external accountant's independence. After discussing this matter among themselves, with management, and with the independent auditors, the Board believes that the provision of the specified non-audit services is compatible with maintaining the external auditor's independence.

Based on the review and discussions referred to above, the audit committee has recommended to the Board of Directors that the audited financial statements be included in the Corporation's Annual Report on Form 10-KSB for the last fiscal year.

The following table summarizes fees for professional services rendered by the principal accountant for the most recent fiscal year:

### Terms of the Transaction

Since 1996, Avante Security Inc. ("Avante"), a Toronto corporation, has designed, developed and installed boutique security systems and devices in Canada. Utilizing the wireless technology of the very popular BlackBerry(TM) wireless handheld system, developed by Research In Motion, Inc, (RIM), Avante has developed its Secure 7-24(the "Secure 7-24"). The Secure 7-24 uses wireless technology to transmit alarm information from a secured site to the Avante Command Centre and either a client's RIM handheld device or cellular phone. In turn, the RIM pager will automatically email up to five different email addresses informing the alarm details instantly. Applications are seen to range from transit, security response vehicles, corporate facilities management, manufacturing, distribution, secured neighborhoods and resident owners. Avante will organize Avante Technology Partners, a Canadian partnership ("Tech") to exploit the Secure 7-24 technology solution.

Nafund Inc., a Toronto based private equity fund ("Nafund") has entered into an agreement with Avante to jointly capitalize Tech and receive 50% of its equity. Nafund, or its assigns, will provide up to Cdn\$800,000 in a combination of debt and equity.

Synergx and Nafund in turn have agreed that Nafund will sell to Synergx 25% of Tech's equity in exchange for (a) 225,000 shares of Common Stock; (ii) warrants to purchase 25,000 shares of Common Stock at \$2.00 per share for 24 months and (iii) agreeing to provide secured loans up to Cdn\$300,000 to Tech, against Tech satisfying certain development milestones and pari passu with equity and/or debt contributions by Nafund. Nafund will contribute Cdn\$400,000 of equity and provide up to Cdn\$100,000 secured loans to Tech and retain 25% of Tech's equity, with the balance to be held by Avante.

Synergx will also secure licenses for Tech's proprietary wireless technology for (i) North America for transit applications (with three year exclusivity subject to certain minimum thresholds) and (ii) the Tri-State area (New York, New Jersey, and Connecticut) with exclusivity for any application development funded by Synergx. Pursuant to these licenses, Tech would, if requested by Synergx, develop enhancements to the Secure 7-24 to apply to Synergx's markets and/or integrate with Synergx's products. Tech has agreed to costs not to exceed specified amounts for specified work and a fixed cost for boards and air (transmission) time.

The reason this transaction is being presented for the approval of Stockholders is because two Directors of Synergx, Messrs. Litwin and Dalrymple, are Directors of Nafund. Moreover, Mr. Litwin is the president of Nafund and Mr. Dalrymple is on its investment advisory board (but hold no ownership interest in Nafund). Messrs. Litwin and Dalrymple recused themselves from the vote by the Board of Directors.

The source of the funds to be provided by Synergx (when, as and if required as per above) will be the proceeds of the equity private placement closed by Synergx on September 30, 2002 and not operating cash flow.

## Edgar Filing: FIRETECTOR INC - Form PRE 14A

Synergx feels the investment in Tech will give it exposure to and participation in the entire North American security and communication market (a hedge against our concentration in New York) including markets that will not be marketed or serviced by Synergx (e.g. residential and small commercial). In addition, the transaction gives Synergx a significant time and cost advantage against competitors in introducing wireless technology to its various products and systems applied to transit, life safety, security and audio-visual. Finally, the investment in Tech will link Synergx with a quality R&D group who can be contracted to develop and enhance products for Synergx (in Canadian dollars) without Synergx having to add to its own overhead.

Synergx may hold its interest in Tech in one or more Canadian or US subsidiaries or a Canadian partnership organized with Nafund.

### Terms of the Transaction

Nafund has entered into an agreement with NSC Holdings Inc. ("NSCH"), a Toronto based financial services group, to form Re:Port as an operating partnership. Re:Port will provide software to the independent international investment counseling, portfolio management and brokerage community. Located in Toronto, Ontario, Re:port software will link external or outsourced trading, custodian, broker and bank systems to internal diverse security and asset management system and contact information systems and electronic filing and documentation systems. Utilizing the software and systems it is developing which will be scaleable and able to provide cost-effective solutions, Re:Port will offer the types of back office services that have previously been available only to the largest investment counselors and money managers.

In exchange for its investment of Cdn\$1,750,000, Nafund will own 100% of the "A" Units representing the preferred cash flow of Re:Port and 50% of the "B" Units representing the residual business equity interests. In exchange for (i) 175,000 shares of Common Stock and (ii) warrants to purchase 25,000 shares of Common Stock at \$2.00 per share for 24 months, Synergx will acquire 25% of the Class B Participating Units from Nafund. Nafund will retain 25% of the Class B Units with the balance to be held by NSCH. All free cash flow of Re:Port shall go to redeem the Class A Units plus a cumulative return of 6.25% per quarter. Class B Units will receive distributions of all free cash flow after the Class A Units are redeemed, subject to Re:Port retaining sufficient capital for liquidity.

NSCH will enter into a contract with Re:Port pursuant to which Re:Port will earn fees based on a combination of per transaction cost and fixed monthly amount. Re:Port will be the sole provider of trading, research information and technological services solutions to NSCH. Re:Port will pay NSCH a management fee of 20% of gross revenues subject to maintaining minimum preferred cash flow on the Class A Units which funds will be used by NSCH to market Re:Port's services to other firms. Re:Port will have a secured fixed charge on all of NSCH's assets to secure payments (subject to bank loans). Nafund will have a secured charge on all assets of Re:Port's (subject to bank loans) to secure the preferred cash flows on the Class A Units. Re:Port and Nafund will have the benefit of various affirmative and negative covenants by NSCH.

The reason this transaction is being presented for the approval of Stockholders is because two Directors of Synergx, Messrs. Litwin and Dalrymple, are Directors of Nafund. Moreover, Mr. Litwin is the president of Nafund and Mr. Dalrymple is on its investment advisory board (but hold no ownership interest in Nafund). In addition, Mr. Dalrymple is the principal of NSCH. Messrs. Litwin and Dalrymple recused themselves from the vote by the Board of Directors.

Synergx feels the investment in Re:Port is a significant financial opportunity in data communication and is synergistic to its other communication products and services inasmuch as Re:Port will focus on marketing to the tech/operation units of financial firms including hedge funds, investment banks, clearing firms, money management firms, trust companies which are significant purchasers of the types of sophisticated security, audio-visual, life safety and communication products, systems and services marketed by Synergx.
