FOR IMMEDIATE RELEASE

TURKCELL ANNOUNCES THE PAYMENT OF FREQUENCY USAGE FEES

Istanbul, Turkey, April 30, 2003 - Turkcell (NYSE:TKC, ISE:TCELL), the leading provider of mobile communications services in Turkey, today announced an update on a dispute with the Telecommunications Authority (the "Authority").

In January 2002, Turkcell applied to the Authority requesting it to review the protocol obligating Turkcell to collect frequency usage fees from its subscribers on the grounds that it was impossible to collect these fees from prepaid subscribers. Upon the request of the Authority in February 2002 to pay the frequency usage fees, Turkcell filed a lawsuit against the Authority requesting cancellation of the protocols obligating it to collect the frequency usage fees from the prepaid subscribers. In July 2002, the court decided in favor of Turkcell. However, the Authority appealed the decision and the Supreme Court accepted the Authority's appeal and annulled the decision of the lower court. Turkcell had not made reserves in its financials for the fees of 2002 and 2003 due to the favorable decision gained previously.

Turkcell today received a payment order for the annual frequency usage fee of TL86.6 trillion (US\$54.9 million, as of today), in principal and interest, for the year 2003. Turkcell will make the payment in seven days, however it will provide US\$14.7 million provision for principal and accrued interest in the first quarter of 2003. The remaining balance of the 2003 annual frequency usage fee will be expensed in three equal quarterly installments during the rest of the year.

Turkcell will not pay the fees for 2002, but it will restate its year-end 2002 financial statements by charging TL52.3 trillion (US\$33.0 million) in principal and TL36.6 trillion (US\$23.1 million) of interest. Additionally, accrued interest of TL10.9 trillion (US\$6.6 million) for the unpaid principal amount will be expensed in the first quarter of 2003.

The legal process regarding the dispute is ongoing.

FOR IMMEDIATE RELEASE

TURKCELL ANNOUNCES THE LAUNCH OF MOBILE PAYMENT

Istanbul, Turkey, April 24, 2003 - Turkcell (NYSE:TKC, ISE:TCELL), the leading provider of mobile communications services in Turkey, today announced the commercial launch of Mobile Payment in Turkey, making Turkcell among the first European mobile operators to make mobile payment services commercially available.

Turkcell will initiate Mobile Payment in cooperation with Yapi Kredi Bank, one of Turkey's leading banks, and shopping points such as selected fast food chains, mobile phone dealers, florists and internet sites. It also plans to expand the mobile payment service to additional banks and shopping points in the near future.

Turkcell subscribers who own a valid Yapi Kredi Bank credit card will be able to make secure payments via their mobile phones at selected shopping points. To make mobile payments, Turkcell subscribers will send a string of encrypted code via USSD, including the code of the bank, the point of sale and the product to make a payment. Subscribers will receive a secure confirmation code, which will be entered into the system of the merchant to complete the payment. The payment will be charged to the predefined credit card.

The launch of Mobile Payment marks a milestone in Turkcell's commitment to serve its customers and to promote mobile services that advance phone use beyond voice communications. Turkcell will initially be the carrier for mobile payments and will only charge for the SMS used for the payment. Turkcell plans to create new business models for Mobile Payment as the market becomes familiar with the mobile payment and there is increased demand.

Data revenues, including SMS, comprise approximately 10% of Turkcell revenues as of the end of 2002.

Commenting on this new development for Turkcell and its subscribers, Tulin Karabuk, Head of Marketing and Sales of Turkcell, said, "The launch of mobile payment services is an important step for Turkcell. We have always been committed to advancing mobile technology by developing services that highlight the wide ranging benefits of mobility for our customers. This initiative is

Edgar Filing: TURKCELL ILETISIM HIZMETLERI A S - Form 6-K

proof that in Europe, Turkcell is at the forefront of introducing new solutions our customers want and that help make Turkey an important market for advanced mobile services."

FOR IMMEDIATE RELEASE

TURKCELL LAUNCHES MOBILE INTERACTION PLATFORM
FOR M-MARKETING

Istanbul, Turkey, June 5, 2003 - Turkcell (NYSE:TKC, ISE:TCELL), the leading provider of mobile communications services in Turkey, today announced the commercial launch of Shubuo, its new multifunctional mobile service platform. Shubuo will provide Turkcell's customers with access to quality content while

Edgar Filing: TURKCELL ILETISIM HIZMETLERI A S - Form 6-K

creating a new medium for consumer brands to promote their goods and services.

Under the Shubuo brand, Turkcell will allow its customers to choose from several service packages each entering to different interest areas including news, finance, football, flirt, city life and music. Customers will be in a position to chose from these services according to their interests and buy individual packages for a monthly fee. As a result, they will receive a fixed number of text messages containing information on the subject they choose and will be able to utilize content-rich and personalized mobile Internet services allowing them to interact with other Shubuo subscribers through chat, competition, voting, etc. They will also be able to access various types of information through their mobile phones once their Shubuo subscription is effective. Moreover, Shubuo will allow consumer brands to promote goods and services to its subscribers according to their interest areas, allowing Shubuo subscribers to enjoy discounts and other benefits.

Turkcell aims to achieve two goals with the launch of Shubuo. First, customer subscription to different service packages will allow Turkcell to assess interest areas of its customer base and create sub-communities based on this information. Turkcell can then offer further customized services to these groups, in line with their areas of interest. This will serve to enhance customer loyalty by increasing the sense of belonging to a particular social group among Turkcell customers. Second, Shubuo will provide consumer brands a medium through which to reach their target market with a higher rate of accuracy.

Commenting on this new development for Turkcell and its subscribers, Tulin Karabuk, Head of Marketing and Sales of Turkcell, said, "The launch of Shubuo is another example of Turkcell's continuous efforts to create value through the use of mobile technology in Turkey. We compete on innovation and differentiation of our services, rather than price, to create value in the mobile market and will continue our leading position in the market by providing customers with high quality, innovative services."

FOR IMMEDIATE RELEASE

TURKCELL PROVIDES UPDATE ON NATIONAL ROAMING

Istanbul, Turkey, June 9, 2003 - Turkcell (NYSE:TKC, ISE:TCELL), the leading provider of mobile communications services in Turkey, would like to provide the following update on the national roaming dispute.

The Competition Board ("Board") today informed Turkcell verbally, and also publicly announced its decision regarding the complaint of IS-TIM Telekomunikasyon Hizmetleri A.S. ("IS-TIM") in 2001 relating to their request for national roaming. The Board decided to impose a fine of TL 21.8 trillion (app. US\$ 15 million) on the Company claiming that Turkcell violated the competition law by abusing its dominant position.

Turkcell believes that, based on court decisions confirming the Company's position, its approach to national roaming is correct and that the Board's ruling has no legal basis. Once Turkcell receives the Board's full decision, including the reasoning, it will initiate an action before the Highest Administrative Court in Turkey with the aim of canceling the Board's decision.
