FOR IMMEDIATE RELEASE

TURKCELL'S SUBSCRIBER BASE GROWS TO 20.9 MILLION IN Q2 2004

Istanbul, Turkey: August 3, 2004 - Turkcell (NYSE: TKC, ISE: TCELL), the leading provider of mobile communications in Turkey, announced today that its number of subscribers reached 20.9 million by the end of second quarter 2004, implying a 6% rise compared to the first quarter 2004 figure of 19.7 million.

Turkcell's postpaid subscribers totaled 5.0 million and prepaid subscribers amounted to 15.9 million, a 2% and 7% increase, respectively compared to the first quarter. The second quarter recorded a sizeable 75% increase in net new additions, 1,186,000 subscribers compared to the previous quarter's figure of 678,000. The postpaid subscribers made up 12% of the gross new subscribers acquired in the second quarter of 2004.

In the first half of 2004, Turkcell's gross new subscriber additions increased just slightly compared to the first half of 2003. Nevertheless, lower churn, achieved through segmented churn prevention activities and mass loyalty programs, reinforced expansion in the number of subscribers, as the first half 2004 net new additions registered a 27% increase amounting to 1.9 million compared to 1.5 million in the same period the previous year. The growth trend in subscribers continues in line with Turkcell's expectations, while the lower churn levels led to better than expected overall growth.

Mr. Muzaffer Akpınar, CEO, stated, "The favorable growth in the first quarter 2004 extended to this quarter and we realized a strong expansion in our subscriber base. We surpassed the 20 million milestone and reached 20.9 million subscribers. The main reason behind this achievement was our success in keeping churn levels under control with our mass and segmented retention efforts, which was also supported by the market environment. We maintain our positive outlook for 2004."

Standard & Poor's Rating Services ("S&P") restated Turkcell's long-term foreign currency rating as "B," while revising its outlook to "Positive" from "Stable." S&P stated the positive impact of Turkey's long-term foreign currency rating upgrade, which will have a favorable reflection on Turkcell's foreign currency denominated costs and debt and that the developing positive macroeconomic environment should further reflect positively on Turkcell's continuing positive operational and financial performance, as the reason for this revision.

We hereby confirm that the above-mentioned explanations are furnished as per the provisions of the Communiqué Serial no VIII/39, that they reflect all information we have gathered so far, that they are in accordance with our corporate documents, that we have used all endeavours to collect the complete and true related information and that we assume the responsibility for this disclosure.

Various media outlets reported that an agreement has been reached concerning Turkcell's becoming the second GSM operator in Iran.

On February 18, 2004, Turkcell had announced that the Iranian officials informed Turkcell that the GSM 900/1800 license of the Islamic Republic of Iran was granted to the Irancell consortium led by Turkcell. Currently, the procedures set by the tender requirements continue and there is no new agreement signed between the parties. Irancell consortium shall be granted the 900/1800 GSM license in Iran upon the fulfillment of tender requirements, such as approval of compliance with the Foreign Investment Promotion and Protection Act ("FIPPA"), an agency of Iran, the establishment of the local company `Irancell' which will be the GSM operator in Iran, and the payment of the license fee totaling (euro)300 million.

We hereby confirm that the above-mentioned explanations are furnished as per the provisions of the Communiqué Serial no VIII/39, that they reflect all information we have gathered so far, that they are in accordance with our corporate documents, that we have used all endeavours to collect the complete and true related information and that we assume the responsibility for this disclosure.
