Third Quarter 2014 Results

HIGHLIGHTS OF THE THIRD QUARTER OF 2014

- Group revenues grew by 6% to TRY3,162 million (TRY2,981 million), driven by higher growth in mobile broadband and fiber broadband revenues.
- Group EBITDA¹ rose by 3% to TRY1,050 million (TRY1,016 million), while the EBITDA margin declined by 0.9pp to 33.2% (34.1%). This resulted mainly from increased sales and marketing expenses due to intense competition in the Turkish mobile market, the higher interconnect and network costs of Turkcell Turkey and increased operational expenses of certain subsidiaries.
 - Group net income rose by 8% to TRY755 million (TRY699 million).
- Turkcell's mobile business in Turkey recorded revenue growth of 5% to TRY2,477 million (TRY2,365 million) with a 33.5% (34.5%) EBITDA margin.
 - Mobile broadband revenues rose by 38% to TRY530 million (TRY385 million).
 - Voice revenues² increased by 0.7% to TRY 1,676 million (TRY1,664 million).
- Revenues of subsidiaries³ increased by 11% to TRY685 million (TRY616 million), while EBITDA rose by 11% to TRY222 million (TRY199 million), despite a lower contribution from our Ukrainian business due to further currency devaluation.

COMMENTS FROM CEO, SUREYYA CILIV

“In the third quarter, we recorded our historically highest Group revenue and EBITDA. Consolidated revenues rose 6% to TRY3.2 billion, while EBITDA grew 3% to TRY1.1 billion. Meanwhile, EBIT rose 3% to TRY647 million and net income climbed 8% to TRY755 million.

Turkcell Turkey's mobile business revenues grew by 5%, despite a tough competitive environment. This growth was driven mainly by a 38% rise in mobile broadband revenues and 7% growth in mobile services, whereas messaging declined 27% parallel to industry-wide trends. Turkcell Superonline grew by 38% year on year on the strength of our growing fiber customer base. While Astelit's revenues increased by 16% in local currency terms, they declined by 21% in TRY terms due to 62% devaluation in Ukraine. Overall, the nine-month Group performance was in line with our plans, and we maintain our full year guidance.

As the Turkcell team, our strategic focus is on providing a superior experience with more value and best-in-class service through technology, innovation, and operational excellence. In this respect, the T-50, which launched in July, with its superior quality and affordable price, ranked as the top selling smartphone in Turkey in the third quarter, and was a key contributor in reaching 37% smartphone penetration. Meanwhile, we recently launched our cutting edge TV platform Turkcell TV plus, taking the Turkcell TV service to the next level. We, therefore, continue to increase customer satisfaction through the service we provide and the synergy between our 3G network and fiber infrastructure.

We thank all of our customers, employees, business partners and shareholders for their contribution to our success.”

(1) EBITDA is a non-GAAP financial measure. See page 12 for the reconciliation of EBITDA to net cash from operating activities.

(2) Voice revenues include outgoing, incoming, roaming and other (comprising almost 1% of Turkcell Turkey) revenues.

(3) Including eliminations.

Third Quarter 2014 Results

OVERVIEW OF TURKCELL TURKEY

The third quarter of the year was seasonally favorable with increased customer usage. Meanwhile, aggressively priced offers introduced in the first half continued to be effective throughout the quarter. The competition maintained its primary focus on acquisition offers with high data incentives, leading to increased MNP activity.

In this environment, our continued timely execution resulted in 97 thousand net additions in this quarter together with the positive impact of seasonality. Postpaid subscriber base continued to be our main focus, which expanded by 295 thousand in the third quarter, and by 793 thousand in the first nine months, mainly driven by pre-to-post switches. This focus is marked by the favorable change in our subscriber mix by 3.1pp year-on-year in favor of the postpaid base, which constitutes 42.6% of the total. The strong rise in mobile data usage increased both postpaid ARPU, and prepaid ARPU, resulting in overall 4.8% blended growth, regardless of the dilutive impact of switches.

Smartphones, a key driver of mobile broadband revenues, reached 11.9 million on our network with 923 thousand net quarterly additions, indicating 37% penetration. Our newest T-50 smartphone, the sales of which have exceeded our expectations, has contributed to the notable increase in quarterly net additions compared to the previous quarter. Our “Smartphone Festival” campaign that started in late August was also effective in this rise.

Moreover, we took our Turkcell TV service to the next level and recently launched Turkcell TV+, our cutting-edge TV platform that offers seamless multiple screen experience, 12-hour rewinding and cloud-recording, anytime, anywhere. The synergy between Turkcell’s superior 3G technology and Turkcell Superonline’s fiber network allows this product to be enjoyed seamlessly on any compatible device, which we believe, will boost customer satisfaction. This platform also enables Turkcell Superonline to offer triple play services.

The overall performance of Turkcell Group in the first nine months has been in line with our plans. Therefore, we maintain our full year guidance* of TRY12,000 million – TRY 12,200 million for revenues, TRY3,700 million – TRY3,800 million for EBITDA and 17% operational capex over sales.

(*) Please note that this paragraph contains forward looking statements based on our current estimates and expectations regarding market conditions for each of our different businesses. Revenue rose by 6.1% to TRY3,162.2 million (TRY2,980.7 million), driven mainly by:

- 14.3% increase in mobile broadband and services revenues in Turkey to TRY800.8 million (TRY700.8 million), comprising 32.3% (29.6%) of mobile business revenues in Turkey.
- 37.8% growth in mobile broadband revenues to TRY530.1 million (TRY384.8 million) with increased smartphone penetration, mobile broadband users and usage amount
- 26.8% decrease in SMS revenues, which continued to be negatively impacted by the industry-wide declining trend in demand, as well as the 20% decreased SMS maximum price following the related ICTA decision in January 2014
- 6.5% rise in mobile services revenues, which is a promising growth business for Turkcell where we are committed to further growth through innovative products

Third Quarter 2014 Results

-Starting from Q314, bulk SMS and one-time password (OTP) revenues, which were recorded under mobile services revenues, have been reclassified under SMS revenues. Furthermore, IFRS adjustments on mobile broadband and services revenues, previously netted-off from mobile services revenues for presentation purposes, will be treated separately going forward. Total mobile broadband and services revenues figures did not change after this reclassification and the change of presentation. The table below presents the breakdown for SMS and mobile services revenues retrospectively, after these changes.

Million TRY	Q113	Q213	Q313	Q413	Q114	Q214	Q314
SMS revenues	206	213	216	203	172	164	158
Mobile services revenues	96	106	104	102	96	100	111

• 11.3% growth in revenues of subsidiaries to TRY685.2 million (TRY615.6 million), constituting 21.7% (20.7%) of the Group top line.

- 38.2% growth in Turkcell Superonline revenues to TRY327.6 million (TRY237.1 million)

- 20.9% decline in Astelit revenues to TRY193.9 million (TRY245.0 million)

Direct cost of revenues grew by 7.2% to TRY1,880.2 million (TRY1,754.0 million), while as a percentage of revenues increased to 59.5% (58.8%), driven mainly by the higher interconnect and network costs of Turkcell Turkey and increased operational expenses of certain subsidiaries.

The table below presents the interconnect revenues and costs of Turkcell Turkey:

Million TRY	Q313	Q214	Q314	y/y %	q/q %
Interconnect revenues	266.7	281.2	300.3	12.6%	6.8%
as a % of revenues	11.3%	12.2%	12.1%	0.8pp	(0.1pp)
Interconnect costs	(249.4)	(262.7)	(278.5)	11.7%	6.0%
as a % of revenues	(10.5%)	(11.4%)	(11.2%)	(0.7pp)	0.2pp

Administrative expenses as a percentage of revenues declined by 0.3pp to 4.4% (4.7%) year-on-year.

Selling and marketing expenses as a percentage of revenues rose by 0.4pp to 15.7% (15.3%) year-on-year due to increased selling expenses (0.4pp) and other cost items (0.3pp), as opposed to decreased marketing expenses (0.3pp).

EBITDA* increased by 3.4% to TRY1,050.4 million (TRY1,016.2 million) year-on-year, while the EBITDA margin was at 33.2% (34.1%). This was driven by the rise in direct cost of revenues (excluding depreciation and amortization) by 0.8pp, and selling and marketing expenses by 0.4pp, as opposed to the decline in administrative expenses by 0.3pp as a percentage of revenues.

The EBITDA of subsidiaries improved by 11.2% to TRY221.8 million (TRY199.4 million) driven mainly by the increased EBITDA of Turkcell Superonline.

Net finance income rose by 3.3% to TRY142.0 million (TRY137.5 million), despite the increased translation loss of TRY54.5 million (TRY27.8 million), which has been compensated for primarily by higher interest income.

Astelit recorded a translation loss of TRY125.0 million due to the devaluation of the UAH against the US\$ during the quarter. Meanwhile, BeST recorded a TRY55.4 million translation loss, Turkcell Superonline recorded a TRY32.6 million translation loss and other group companies recorded a TRY8.5 million translation loss. Turkcell Turkey recorded a translation gain of TRY167.0 million.

Share of profit of equity accounted investees declined by 28.1% year-on-year to TRY66.8 million (TRY92.9 million) mainly due to a total non-cash write down of US\$36 million in Fintur as a result of the ongoing assessment of its operational assets. The impact of this on our Group financials was TRY33 million on the basis of our 41.45% share of Fintur.

(*)EBITDA is a non-GAAP financial measure. See page 12 for the reconciliation of EBITDA to net cash from operating activities.

Third Quarter 2014 Results

Income tax expense details in Q314 are presented in the table below:

Million TRY	Q313	Q214	Q314	y/y %	q/q %
Current Tax expense	(195.5)	(165.6)	(199.5)	2.0%	20.5%

Income Tax expense	(188.9)	(166.5)	(216.4)	14.6%	30.0%

Net income rose by 8.0% to TRY755.0 million (TRY699.1 million) in Q314. This was driven by increased EBITDA, higher interest income, the positive impact of TRY depreciation against USD, and the one-off positive impact of TRY24 million from the A-Tel share sale process, which we announced on August 27, 2014. On the other hand, net income was negatively impacted by the devaluation of UAH against US\$ in Ukraine and BYR against US\$ in Belarus, in addition to the write down of the operational assets of Fintur.

Total debt as of September 30, 2014 was at TRY3,545.0 million (US\$1,555.6 million), which was at TRY3,459.9 million (US\$1,629.4 million) as of June 30, 2014 in consolidated terms. The debt balance of Ukraine (including intra-group debt) was TRY1,523.7 million (US\$668.6 million), while that of Belarus was TRY1,461.9 million (US\$641.5 million), and of Turkcell Superonline was TRY704.9 million (US\$309.3 million).

TRY3,003.8 million (US\$1,318.1 million) of our consolidated debt is at a floating rate, while TRY2,443.7 million (US\$1,072.3 million) will mature within less than a year. (Please note that the figures in parentheses refer to US\$ equivalents).

Cash flow analysis: Capital expenditures, including non-operational items, amounted to TRY555.1 million in Q314, of which TRY363.8 million was related to Turkcell Turkey, TRY125.3 million to Turkcell Superonline, TRY36.6 million to Astelit, and TRY9.9 million to BeST. The cash flow item noted as "other" included cash inflows mainly relating to the effects of foreign exchange rate valuation fluctuations on cash and cash equivalents, a decrease in advance payment for capex, TRY92 million in dividends from Fintur and cash outflows due to corporate tax payment and the change in net working capital.

Subscribers of our mobile business in Turkey rose by 97 thousand in Q314, despite the prevailing tough competitive environment. Our postpaid subscriber base continued to expand, by 295 thousand, as a result of our continued focus on customer satisfaction and our efforts to switch prepaid to postpaid. The share of our postpaid subscribers in the total subscriber base increased to 42.6% (39.5%).

Churn Rate refers to voluntarily and involuntarily disconnected subscribers. Our churn rate rose to 8.2% (6.9%*) due to increased competition.

ARPU rose by 4.8% to TRY23.8 (TRY22.7) mainly on increased mobile broadband revenues and higher postpaid subscriber base. Meanwhile, postpaid and prepaid ARPU rose by 2.3% and 0.8% year-on-year, respectively, regardless of the dilutive impact of switches.

MoU increased 6.0% year-on-year to 288.0 minutes (271.6 minutes), due to higher incentives and greater package utilization.

OTHER DOMESTIC AND INTERNATIONAL OPERATIONS

Astelit, which generated 6% of Group revenues in Q314, continued to be impacted by the tough macroeconomic and political environment in Ukraine. The local currency devalued by a further 9.6% during the quarter, reaching 62.1% year-to-date. This has led to a 20.9% decline in Astelit's revenues to TRY193.9 million (TRY245.0 million) and an 18.8% drop in EBITDA to TRY61.2 million (TRY75.4 million). However, operational performance remained solid with 15.5% growth in local currency terms year-on-year on a larger subscriber base. Further, operational profitability increased 0.8pp to 31.6% (30.8%), mainly due to revenue growth.

Astelit's three-month active subscriber base reached 10.6 million on 1.1 million quarterly additions, with the positive impact of seasonality. Blended ARPU (3-month active) increased by 4.1% to UAH37.9 (UAH36.4), the growth of which was limited by the controlled spending behavior of subscribers. The MoU (12-months active) decline of 3.4% to 168.1 minutes (174.0 minutes) resulted mainly from the change in consumer behavior as a consequence of the prevailing macroeconomic environment.

(*) Churn rate in Q313 was impacted by the ICTA decision enabling users of mobile lines without a subscription to register those lines under their names. Each subscription line registered due to this decision had to be recorded as a churn, and also as an acquisition in operators' records. Excluding the impact of this decision, the churn rate would have been 6.7% in Q313.

Third Quarter 2014 Results

With regards to the Crimea region, which accounts for 3.5% of Astelit's revenues for the nine months, in September 2014, Astelit's network experienced cut offs of its fiber optic channels due to circumstances beyond its control. Currently, Astelit has very limited coverage in this region.

Astelit has put all of its efforts into restoring the network, yet, significant challenges remain. We closely monitor the potential consequences of the political ambiguity and related counterparty risks, and meanwhile, continue to evaluate our alternatives in this region. As of 30 September 2014, the net book value of non-current assets of the Group located in the Crimea, which was annexed by the Russian Federation in March 2014, amounts to US\$7.2 million.

Fintur's subscriber base increased 0.6 million during the quarter. Fintur's consolidated revenues declined by 9.1%, mainly due to the decrease in KCell's revenues on devaluation of the Kazakhstani Tenge (KZT) against the US\$. Furthermore, Fintur's contribution to our net income decreased by 37.5% to US\$30 million (US\$48 million). The asset write-down at Fintur discussed on page 7 was a key factor behind this decrease.

RECONCILIATION OF NON-GAAP FINANCIAL MEASUREMENTS: We believe that EBITDA is a measurement commonly used by companies, analysts and investors in the telecommunications industry that enhances the understanding of our cash generation ability and liquidity position, and assists in the evaluation of our capacity to meet our financial obligations. We also use EBITDA as an internal measurement tool, and accordingly, we believe that its presentation provides useful and relevant information to analysts and investors. Our EBITDA definition includes Revenue, Direct Cost of Revenue excluding depreciation and amortization, Selling and Marketing expenses and Administrative expenses, but excludes translation gain/(loss), finance income, share of profit of equity accounted investees, gain on sale of investments, income/(loss) from related parties, minority interest and other income/(expense). EBITDA is not a measure of financial performance under IFRS, and should not be construed as a substitute for net earnings (loss) as a measure of performance, or cash flow from operations as a measure of liquidity. The following table provides a reconciliation of EBITDA, which is a non-GAAP financial measurement, to net cash from operating activities, which we believe is the most directly comparable financial measurement calculated and presented in accordance with IFRS.

(iii) New and revised IFRSs in issue but not yet effective (continued)

IFRS 9 Financial Instruments

IFRS 9, issued in November 2009, introduces new requirements for the classification and measurement of financial assets. IFRS 9 was amended in October 2010 to include requirements for the classification and measurement of financial liabilities and for derecognition.

Amendments to IAS 19 Defined Benefit Plans: Employee Contributions

This amendment clarifies the requirements that relate to how contributions from employees or third parties that are linked to service should be attributed to periods of service. In addition, it permits a practical expedient if the amount of the contributions is independent of the number of years of service, in that contributions can, but are not required, be recognised as a reduction in the service cost in the period in which the related service is rendered.

Annual Improvements to 2010 - 2012 Cycle

IFRS 2: Amends the definitions of 'vesting condition' and 'market condition' and adds definitions for 'performance condition' and 'service condition'.

IFRS 3: Require contingent consideration that is classified as an asset or a liability to be measured at fair value at each reporting date.

IFRS 8: Requires disclosure of the judgements made by management in applying the aggregation criteria to operating segments, clarify reconciliations of segment assets only required if segment assets are reported regularly.

IFRS 13: Clarify that issuing IFRS 13 and amending IFRS 9 and IAS 39 did not remove the ability to measure certain short-term receivables and payables on an undiscounted basis (amends basis for conclusions only).

IAS 16 and IAS 38: Clarify that the gross amount of property, plant and equipment is adjusted in a manner consistent with a revaluation of the carrying amount.

IAS 24: Clarify how payments to entities providing management services are to be disclosed.

(iii) New and revised IFRSs in issue but not yet effective (continued)

Annual Improvements to 2011 - 2013 Cycle

IFRS 1: Clarify which versions of IFRSs can be used on initial adoption (amends basis for conclusions only).

IFRS 3: Clarify that IFRS 3 excludes from its scope the accounting for the formation of a joint arrangement in the financial statements of the joint arrangement itself.

IFRS 13: Clarify the scope of the portfolio exception in paragraph 52.

IAS 40: Clarifying the interrelationship of IFRS 3 and IAS 40 when classifying property as investment property or owner-occupied property.

IFRS 14 Regulatory Deferral Accounts

IFRS 14 Regulatory Deferral Accounts permits an entity which is a first-time adopter of International Financial Reporting Standards to continue to account, with some limited changes, for 'regulatory deferral account balances' in accordance with its previous GAAP, both on initial adoption of IFRS and in subsequent financial statements.

IFRS 14 was issued by the IASB on 30 January 2014 and applies to an entity's first annual IFRS financial statements for a period beginning on or after 1 January 2016.

Amendments to IFRS 11 Accounting for Acquisition of Interests in Joint operations

This amendment requires an acquirer of an interest in a joint operation in which the activity constitutes a business to:

b) New and Revised International Financial Reporting Standards (continued)

(iii) New and revised IFRSs in issue but not yet effective (continued)

Amendments to IAS 16 and IAS 38 Clarification of Acceptable Methods of Depreciation and Amortisation

This amendment clarifies that a depreciation method that is based on revenue that is generated by an activity that includes the use of an asset is not appropriate for property, plant and equipment, and introduces a rebuttable presumption that an amortisation method that is based on the revenue generated by an activity that includes the use of an intangible asset is inappropriate, which can only be overcome in limited circumstances where the intangible asset is expressed as a measure of revenue, or when it can be demonstrated that revenue and the consumption of the economic benefits of the intangible asset are highly correlated. The amendment also adds guidance that expected future reductions in the selling price of an item that was produced using an asset could indicate the expectation of technological or commercial obsolescence of the asset, which, in turn, might reflect a reduction of the future economic benefits embodied in the asset.

Amendments to IAS 16 and IAS 41 Agriculture: Bearer Plants

This amendment includes "bearer plants" within the scope of IAS 16 rather than IAS 41, allowing such assets to be accounted for as property, plant and equipment and measured after initial recognition on a cost or revaluation basis in accordance with IAS 16. The amendment also introduces a definition of 'bearer plants' as a living plant that is used in the production or supply of agricultural produce, is expected to bear produce for more than one period and has a remote likelihood of being sold as agricultural produce, except for incidental scrap sales, and clarifies that produce growing on bearer plants remains within the scope of IAS 41.

IFRS 15 Revenue from Contracts with Customers

IFRS 15 provides a single, principles based five-step model to be applied to all contracts with customers.

The five steps in the model are as follows:

- Identify the contract with the customer,

- Identify the performance obligations in the contract,
 - Determine the transaction price,
- Allocate the transaction price to the performance obligations in the contracts,
- Recognise revenue when the entity satisfies a performance obligation.

Amendments to IAS 27 Equity Method in Separate Financial Statements

This amendment permits investments in subsidiaries, joint ventures and associates to be optionally accounted for using the equity method in separate financial statements.

Amendments to IFRS 10 and IAS 28 Sale or Contribution of Assets between an Investor and its Associate or Joint Venture

This amendment clarifies the treatment of the sale or contribution of assets from an investor to its associate or joint venture.

Annual Improvements 2012-2014 Cycle

IFRS 5: Adds specific guidance in IFRS 5 for cases in which an entity reclassifies an asset from held for sale to held for distribution or vice versa and cases in which held-for-distribution accounting is discontinued.

IFRS 7: Additional guidance to clarify whether a servicing contract is continuing involvement in a transferred asset, and clarification on offsetting disclosures in condensed interim financial statements

IAS 9: Clarify that the high quality corporate bonds used in estimating the discount rate for post-employment benefits should be denominated in the same currency as the benefits to be paid

IAS 34: Clarify the meaning of 'elsewhere in the interim report' and require a cross-reference

The Group evaluates the effects of these standards on the consolidated financial statements.

4. Critical accounting judgments and key sources of estimation uncertainty

Key sources of estimation uncertainty

Belarus

Following severe balance of payments crisis in 2011, the economic data indicates that the Belarusian economy stabilized. This reflected the authorities' tightening of economic policies in late 2011 that was successful in reducing

inflation and stabilizing the foreign exchange market. However, Belarusian economy grew only 1.5% in 2012 as the authorities failed to capitalize on improved competitiveness after the sharp currency depreciation in 2011. In 2013, the Belarusian economy could not achieve the desired growth level too and growth rate remained at 0.9%. In the first quarter of 2014, the economy has continued to grow moderately and has grown 0.7%.

On the positive side, inflation fell sharply from over 100% at the end of 2011 to almost 16.5% in 2013. National Bank of the Republic Belarus (“NBRB”) gradually decreased the refinancing rate by 6.5 percentage points during 2013, from 30% to 23.5% per annum. Rate cut cycle continued in 2014 and refinancing rate was decreased by 0.5 percentage points to 20.0% in August 2014. This was the fourth rate cut this year, bringing the total amount of easing to 10 percentage points since the beginning of 2013. As of September 2014, the inflation rate stood at 20.1% for the last twelve months. Inflationary pressure remains elevated.

4. Critical accounting judgments and key sources of estimation uncertainty (continued)

Key sources of estimation uncertainty (continued)

Belarus (continued)

NBRB has stabilized foreign exchange market with the help of a "managed float" exchange policy. There has been continuous upward movement in BYR/USD exchange rate in 2014. The total value of depreciation in BYR against USD has exceeded 10% as of 30 September 2014.

As the cumulative inflation in the last three years exceeded 100% as of 31 December 2011, Belarus was considered as a hyperinflationary economy. In this context, IAS 29 is applied by subsidiaries operating in Belarus in financial statements starting from their annual financial statements for the year ending 31 December 2011.

Although downside economic risks have been reduced, macroeconomic stability is still fragile. External vulnerability is still a concern and next year's financing picture remains challenging due to heavy debt redemption schedule and strong domestic demand keeping current account deficit wide. Given Belarus record low level of foreign currency reserves coupled with the high debt repayments and the current account deficit, these factors create devaluationary and inflationary pressure.

Ukraine

Ukraine continues to struggle economically while the political uncertainty with Russia continues. Even though the latest International Monetary Fund ("IMF") aid package and approximately EUR 1 million financial aid from EU have resulted in an increase in FX reserves, the economy continues to remain fragile due to increasing tensions with Russia and pro-Russian activists in eastern side of Ukraine, increasing taxes and gas prices. Annual growth as of 2014 second quarter end came in to -4.6% while the latest IMF forecasts for 2014 and 2015 GDP growth to be at (6.5)% and (1)% respectively. Inflation as of 2014 September end was revealed at 17.5% where again the latest IMF forecasts give 2014 and 2015 as 19% and 9% respectively.

The National Bank of Ukraine ("NBU") began implementing a free float regime for the UAH as of February 2014 in order to stop its foreign exchange reserves eroding further from their recent record low levels of USD 15 million. This low level of foreign exchange reserves implies a higher vulnerability to shocks and greater risks to market

expectations. Upon beginning to free float, the UAH depreciated to record high levels of 14.40 and as of 30 September 2014 stands at 12.95. The UAH has lost 62% of its value in the first three quarters of 2014. In order to stem further loss in the currency, the NBU hiked its policy rate from 6.5% to 9.5% on 15 April 2014 and from 9.5% to 12.5% on 18 July 2014, the largest rate hike Ukraine has seen since the Russian moratorium in 1998. In addition to these, when the conditions of the IMF deal and political tensions with Russia are also factored in, negative growth, higher inflation and further depreciation of the currency may be expected.

The latest situation as of 30 September 2014 between Ukraine and Russia is that major cities in the eastern region of Ukraine such as Donetsk and Luhansk continue to demand separation similar to the one held in Crimea which eventually resulted in the peninsula's annexation by Russia. Presidential elections will be held on 26 October 2014 in Ukraine. Both the U.S. and E.U. continue to support Ukraine against Russia and increased trade relations especially with the EU are being discussed despite Russian opposition.

The potential consequences of the political ambiguity and related counterparty risks are being closely monitored.

4. Critical accounting judgments and key sources of estimation uncertainty (continued)

Key sources of estimation uncertainty (continued)

Ukraine (continued)

As of 30 September 2014, the net book value of non-current assets of the Group located in the Crimea which was annexed by the Russian Federation in March 2014, Donetsk and Luhansk amounts to \$7,151, \$18,761 and \$2,837, respectively.

Therefore, economic uncertainties are likely to continue in the foreseeable future for these countries. Current and potential future political and economic changes in Belarus and Ukraine could have an adverse effect on the subsidiaries operating in these countries. The economic stability of Belarus and Ukraine depends on the economic measures that will be taken by the governments and the outcomes of the legal, administrative and political processes in these countries. These processes are beyond the control of the subsidiaries established in these countries.

Consequently, the subsidiaries operating within Belarus and Ukraine may subject to the risks, i.e. foreign currency and interest rate risks related to borrowings and the subscriber's purchasing power and liquidity and increase in corporate and personal insolvencies, that may not necessarily be observable in other markets. The accompanying condensed interim consolidated financial statements contain the Group management's estimations on the economic and financial positions of its subsidiaries operating in Belarus and Ukraine. The future economic situation of Belarus and Ukraine might differ from the Group's expectations. As of 30 September 2014, the Group's management believes that their approach is appropriate in taking all the necessary measures to support the sustainability of these subsidiaries' businesses in the current circumstances.

5. Operating Segments

The Group has three reportable segments, as described below, which are based on the dominant source and nature of the Group's risk and returns as well as the Group's internal reporting structure. These strategic segments offer the same types of services, however they are managed separately because they operate in different geographical locations and are affected by different economic conditions.

The Group comprises the following main operating segments: Turkcell, Euroasia and Belarusian Telecom, all of which are GSM operators in their countries.

Other operations mainly include companies operating in telecommunication and betting businesses and companies provide internet and broadband services, call center and value added services.

Information regarding the operations of each reportable segment is included below. Adjusted EBITDA is used to measure performance as management believes that such information is the most relevant in evaluating the results of certain segments relative to other entities that operate within these industries. Adjusted EBITDA definition includes revenue, direct cost of revenues excluding depreciation and amortization, selling and marketing expenses and administrative expenses. Adjusted EBITDA is not a financial measure defined by IFRS as a measurement of financial performance and may not be comparable to other similarly-titled indicators used by other companies.

The accounting policies of operating segments are the same as those described in the summary of significant accounting policies.

6. Seasonality of operations

The Turkish mobile communications market is affected by seasonal peaks and troughs. Historically, the effects of seasonality on mobile communications usage had positively influenced the Company's results in the second and third quarters of the fiscal year and negatively influenced the results in the first and fourth quarters of the fiscal year. Recently, however, due to changing market dynamics, such as the ICTA's intervention in tariffs and increasing competition in the Turkish telecommunications market, the effects of seasonality on the Company's subscribers' mobile communications usage has decreased. Local and religious holidays in Turkey also affect the Company's operational results.

11. Intangible assets

Impairment testing for long-lived assets

The carrying amounts of the Group's non-financial assets are reviewed at each reporting date to determine whether there is any indication of impairment. If any such indication exists, then the asset's recoverable amount is estimated. For the purpose of impairment testing, assets that cannot be tested individually are grouped together into the smallest group of assets, cash generating units. Long-lived assets in Astelit were tested as at 30 June 2014 and other long lived assets in Superonline and Best were tested for impairment as at 31 December 2013.

Astelit

For the purpose of impairment testing, assets that cannot be tested individually are grouped together into the smallest group of assets, cash generating units. As at 30 June 2014, impairment test for long-lived assets of Astelit is made on the assumption that Astelit is the cash generating unit.

As the recoverable amount based on the value in use of cash generating units exceeded the carrying amount of cash-generating units of Astelit, no impairment was recognized. The assumptions used in value in use calculation of Astelit were:

A 18.1% post-tax WACC rate for 2014 to 2018, a 17.5% post-tax WACC rate for after 2018 and 2.1% terminal growth rate were used to extrapolate cash flows beyond the 5-year forecasts based on the business plans. Independent appraisal was obtained for fair value to determine recoverable amounts for Astelit. The pre-tax rate for disclosure purposes was 19.4%.

Belarusian Telecom

As at 31 December 2013, impairment test was performed for Belarusian Telecom and after tax impairment at the amount of \$28,674 was calculated for the cash-generating unit, allocated to the fixed assets of the cash-generating unit on a pro-rata basis based on the carrying amount of each asset in the cash-generating unit and included in depreciation expense. Tax effect of the long-lived asset impairment of \$1,710 is included in deferred taxation benefit.

Value in use was determined by discounting the expected future cash flows to be generated by the cash-generating unit and the terminal value.

Impairment testing for cash-generating unit containing goodwill

Goodwill allocated to cash generating units and carrying values of all cash generating units are annually tested for impairment. The recoverable amounts (that is, higher of value in use and fair value less cost to sell) are normally determined on the basis of value in use, applying discounted cash flow calculation. Independent appraisals were obtained for fair values to determine recoverable amounts for Belarusian Telecom and Turkcell Superonline as at 31 December 2013.

In calculating the net present value of the future cash flows, certain assumptions are required to be made in respect of highly uncertain matters including management's expectations of growth in adjusted EBITDA, calculated as results from operating activities before depreciation and amortization and other income / (expenses), timing and quantum of future capital expenditure, long term growth rates, and the selection of discount rates to reflect the risks involved.

Impairment testing for cash-generating unit containing goodwill (continued)

Turkcell Superonline

As at 31 December 2013, the aggregate carrying amount of goodwill allocated to Turkcell Superonline is \$15,384. As the recoverable value based on the value in use of the cash generating units was estimated to be higher than carrying amount, no impairment was required for goodwill arising from the acquisition of Superonline as at 31 December 2013.

18. Loans and borrowings (continued)

As of 1 February 2012, Astelit had debt repayments related to Euroasia Loan in the amount of \$150,165 and to Financell Loans in the amount of \$172,799. Since June 2011, Astelit has not met the payment obligations, which were waived until 1 February 2012. Since that date, the Board of Directors of the Company has not acted to approve or reached a consensus for the extension of repayment dates. As a result, Astelit was unable to meet its repayment obligations in relation to Euroasia and Financell Loans totaling \$322,964 and defaulted on its loan agreements (as of 30 September 2014, due to Astelit's execution of partial payments, Astelit's accrued obligations under its loans to Financell and Euroasia has decreased to a total of \$610,833). As a consequence of Astelit's default, cross default clauses have been triggered on five loan agreements totaling \$553,886 (currently decreased to \$78,907 on two loan agreements following the Company's \$150,000 guarantee payment and other principle payments) and waivers were obtained for the aforementioned loans before 30 September 2014. In the context of guarantees, Financell has pledged on shares and all assets of Astelit including bank accounts. Additionally, Financell has a second priority pledge on Euroasia shares held by System Capital Management Limited ("SCM") together with a guarantee and indemnity given by SCM. Financell has rights to initiate legal proceedings arising out of pledges and guarantee under certain conditions. In addition to the Euroasia Loan and Financell Loans, as given above, Astelit has defaulted in one SCM loan agreement currently totaling \$41,358.

In the same vein, Euroasia, a Group company that is a 100% shareholder of Astelit, which had previously borrowed \$150,000 to finance Astelit, also defaulted on its loan on 30 March 2012. As a guarantor, the Company paid \$150,000 to related banks on 6 April 2012. In relation to the guarantee agreement, a first priority pledge on Euroasia shares held by SCM has been established in favor of the Company. Upon payment of the guaranteed amount, the Company has the right to initiate legal proceedings arising out of this pledge on the Euroasia shares under certain conditions. As a consequence of Euroasia's default, cross default clauses have been triggered on four loan agreements (the same ones referenced above, currently decreased to two loan agreements) currently totaling \$78,907. Since waivers for the defaults on Turkcell and Financell loans ("Loans") including any future non-payments of Astelit were received on 25 July 2012, the loans have been classified according to the maturities of their respective borrowing agreements in the statement of financial positions as of 30 September 2014 and 31 December 2013. As no waiver has been received for the SCM Loan from SCM, this loan has been classified in current liabilities. Accordingly, as a result of event of default, SCM has a right to demand immediate loan repayment although does not perfected any pledges in connection with this loan.

With respect to the amounts due to Financell, the Board of Directors of the Company decided to extend a guarantee to Financell in order to perform its obligations with respect to the loans granted by the banks for providing Group financing. The guarantee will be limited to \$410,650 principal amount plus interest and any other costs, expenses and fees that may accrue. This guarantee includes currently unmet debt repayments under the loan agreements signed between Astelit and Financell, and of the loans that Financell granted to Astelit which have not yet fallen due.

Fair values

Fair value of the Group's financial assets and financial liabilities that are measured at fair value on a recurring basis

Some of the Group's financial assets and financial liabilities are measured at fair value at the end of each reporting period. The following table gives information about how the fair values of these financial assets and financial liabilities are determined (in particular, the valuation technique(s) and inputs used).

	Fair values		Fair Value hierarchy	Valuation techniques
	30 September 2014	31 December 2013		
Option contracts used for hedging	(535)	(994)	Level 2	Quoted bid prices in financial institutions
Consideration payable in relation to acquisition of Belarusian Telecom	(75,688)	(69,054)	Level 3	Net present value (*)

There were no transfers between Level 1 and 2 in the period.

(*)Payment of \$100,000 is contingent on the financial performance of Belarusian Telecom, and based on management's estimations, expected to be paid during the first quarter of 2020 (31 December 2013: the first quarter of 2020). Discount rate of 5.2% is used for the net present value calculation of nominal \$100,000 contingent payment (31 December 2013: 6.1%). Relationship of unobservable inputs to fair value is the higher the discount rate, the lower the fair value.

Reconciliation of Level 3 fair value of the Group's financial liability, consideration payable in relation to acquisition of Belarusian Telecom, measured at fair value on a recurring base which is stated below:

20. Guarantees and purchase obligations

As at 30 September 2014, outstanding purchase commitments with respect to the acquisition of property, plant and equipment, inventory and purchase of sponsorship and advertisement services amount to \$1,626,176 (31 December 2013: \$463,695). Payments for these commitments are going to be made in a 7-year period.

As at 30 September 2014, the Group is contingently liable in respect of bank letters of guarantee obtained from banks given to customs authorities, private companies and other public organizations and provided financial guarantees to subsidiaries totalling to TL3,551,299 (equivalent to \$1,558,339 as at 30 September 2014) (31 December 2013: TL 3,177,947 equivalent to \$1,488,988 as at 31 December 2013).

21. Commitments and Contingencies

Onerous contracts

The Company won the tender regarding the construction and operation of mobile communication infrastructure in rural areas ("Evrensel Project") with Ministry of Transport, Maritime Affairs and Communications on 13 January 2013. The Company is liable to complete the construction for a predetermined amount in TL while the most of the expenditures are in foreign currencies. The appreciation in the foreign exchange rates caused the unavoidable costs of meeting the obligations to exceed the economic benefits expected to be received from this contract. Therefore; the Company accrued a provision amounting to \$26,978 for the difference between unavoidable costs and benefits expected to be received for this onerous contract. However, the Company also increased the foreign currency denominated bank deposits position within the period of undertaking the project in order to hedge against the currency risk associated with the contract and additionally recognized accumulated foreign exchange gains over these deposits as a result of the appreciation in the foreign exchange rates in the condensed interim consolidated financial statements as of 30 September 2014.

Legal Proceedings

The Group is involved in various claims and legal actions arising in the ordinary course of business described below.

Dispute with Turk Telekom with respect to call termination fees

Upon application of Turk Telekom, the ICTA has set temporary (and after final) call termination fees for calls to be applied between Turk Telekom and the Company starting from 10 August 2005. However, Turk Telekom did not apply these termination fees for the international calls.

Therefore, on 22 December 2005, the Company filed a lawsuit against Turk Telekom to cease this practice and requested collection of its damages regarding principle, overdue interest and late payment fee, amounting to TL 11,970 (equivalent to \$5,253 as at 30 September 2014) covering the period from August 2005 until October 2005. Expert reports and supplementary expert reports which are obtained for the lawsuit, affirm justification of the Company.

On 19 December 2006, the Company initiated another lawsuit against Turk Telekom claiming that Turk Telekom has not applied call termination tariffs for international calls set by ICTA for the period between November 2005 and October 2006 amounting to TL 23,726 (equivalent to \$10,411 as at 30 September 2014) including principal, interest and penalty on late payment. The Court decided to consolidate this lawsuit with the first lawsuit dated 22 December 2005.

Legal Proceedings (continued)

Dispute with Turk Telekom with respect to call termination fees (continued)

On 2 November 2007, the Company initiated another lawsuit against Turk Telekom claiming that Turk Telekom has not applied call termination tariffs for international calls set by ICTA for the period between November 2006 and February 2007 amounting to TL 6,836 (equivalent to \$3,000 as at 30 September 2014) including principal, interest and penalty on late payment. The Court also decided to consolidate this lawsuit with the first lawsuit dated 22 December 2005.

On 28 September 2011, the Court decided in favor of the Company for all consolidated cases. The Court decided that Turk Telekom should pay to the Company in total TL 42,597 (equivalent to \$18,692 as at 30 September 2014) plus VAT and Special Communication Tax ("SCT") composed of principle amounting to TL 36,502 (equivalent to \$16,017 as at 30 September 2014), interest and penalty (calculated till the filing date of legal cases in 2005, 2006 and 2007) amounting to TL 6,095 (equivalent to \$2,675 as at 30 September 2014) and interest and penalty to be calculated for the period between the filing date of legal case and payment date. The Court also decided that Turk Telekom should pay interest, penalty, VAT and SCT calculated for the principal from date of case to the payment date. Turk Telekom appealed the decision. The Court of Cassation reversed the first instance court's decision. The Company applied for the correction of the decision. Turk Telekom also applied for the correction of the decision. The Company replied this request. The Court of Cassation rejected the correction of the decision requests. The case file was sent to the First Instance Court to grant a decision again.

Since it is not virtually certain that an inflow of economic benefits will arise, no asset or related income is recognized in the condensed interim consolidated financial statements as at and for the period ended 30 September 2014 (31 December 2013: None).

Dispute on Turk Telekom transmission lines leases

Effective from 1 July 2000, Turk Telekom annulled the discount of 60% that it provided to the Company based on its regular ratio, which had been provided for several years, and, at the same time, Turk Telekom started to provide a discount of 25% being subject to certain conditions. The Company filed a lawsuit against Turk Telekom for the

application of the agreed 60% discount. However, on 30 July 2001, the Company had been notified that the court of appeal upheld the decision made by the commercial court allowing Turk Telekom to terminate the 60% discount. Differences in the total nominal rent for the concerned period amounting to TL 29,125 (equivalent to \$12,780 as at 30 September 2014) have been accrued by Turk Telekom and deducted from the receivables of the Company. Accordingly, the Company paid and continues to pay transmission fees to Turk Telekom based on the 25% discount. Although Turk Telekom did not charge any interest on late payments at the time of such payments, the Company recorded an accrual amounting to a nominal amount of TL 3,023 (equivalent to \$1,327 as at 30 September 2014) for possible interest charges as at 31 December 2000. On 9 May 2002, Turk Telekom requested an interest amounting to a nominal amount of TL 30,068 (equivalent to \$13,194 as at 30 September 2014).

Legal Proceedings (continued)

Dispute on Turk Telekom transmission lines leases (continued)

The Company did not agree with Turk Telekom's interest calculation and, accordingly, obtained an injunction from the commercial court to prevent Turk Telekom from collecting any amounts relating to this interest charge. Also, the Company initiated a lawsuit against Turk Telekom on the legality of such interest. On 25 December 2008, the Court rejected the case. The Company appealed the decision. The Supreme Court rejected the appeal. The Company applied for the correction of the decision. The Supreme Court rejected the correction of the decision request and the decision is finalized.

Based on the management opinion, the Company accrued provision of TL 91,864 (equivalent to \$40,311 as at 30 September 2014) and the Company netted off the whole amount from the receivables from Turk Telekom as at 30 September 2014.

Additionally, a lawsuit was commenced against Turk Telekom on 28 October 2010 to collect the receivable amounting to principal of TL 23,378 (equivalent to \$10,258 as at 30 September 2014), overdue interest of TL 3,092 (equivalent to \$1,357 as at 30 September 2014) and delay fee of TL 1,925 (equivalent to \$845 as at 30 September 2014), with the contractual default interest until payment date on the ground that the above mentioned exercise is contrary to the term of the contract which is effective for the year 2000, Turk Telekom has already collected the whole amount which is subjected to the related court decision as of 31 October 2009 and Turk Telekom collected additional receivable. The Court decided to obtain an expert report. The expert committee submitted their report to the Court. The expert report is in favor of the Company. The Company increased its claim from Turk Telekom by TL 2,100 (equivalent to \$921 as at 30 September 2014). The Court decided to obtain a supplementary expert report from the same expert committee. The supplementary expert report supports the Company's arguments. The Court decided to obtain another supplementary expert report from the same expert committee. The second supplementary expert report is delivered to the Company and this report is also in favor of the Company. The Court decided to obtain another expert report from a new expert committee. The lawsuit is still pending.

Since it is not virtually certain that an inflow of economic benefits will arise, no asset or related income is recognized in the condensed interim consolidated financial statements as at and for the period ended 30 September 2014 (31

December 2013: None).

Dispute regarding the fine applied by the Competition Board

The Competition Board commenced an investigation of business dealings between the Company and the mobile phone distributors in October 1999. The Competition Board decided that the Company disrupted the competitive environment through an abuse of a dominant position in the Turkish mobile market and infringements of certain provisions of the Law on the Protection of Competition. As a result, the Company was fined a nominal amount of approximately TL 6,973 (equivalent to \$3,060 as at 30 September 2014) and was enjoined to cease these infringements. The Company initiated a lawsuit before Council of State for the injunction and cancellation of the decision. On 15 November 2005, the Court cancelled the Competition Board's decision.

Dispute regarding the fine applied by the Competition Board (continued)

After the cancellation of the Competition Board's decision, the Competition Board has given the same decision again on 29 December 2005. On 10 March 2006, the Company initiated a lawsuit before Council of State for the injunction and cancellation of the Competition Board's decision dated 29 December 2005. On 13 May 2008, Council of State rejected the case. The Company appealed the decision. The Plenary Session of Administrative Law Divisions of the Council of State rejected the Company's request for appeal. The Company applied for the correction of the decision. The correction of the decision process is still pending.

Avea, depending on the Competition Board decision, initiated a lawsuit against the Company claiming a compensation from the Company for its damages amounting to TL 1,000 (equivalent to \$439 as at 30 September 2014), with reservation of further claims, on the ground that the Company violated the competition. During the judgment, Avea increased its request of material compensation to TL 5,000 (equivalent to \$2,194 as at 30 September 2014) and in addition requested TL 1,000 (equivalent to \$439 as at 30 September 2014) for non-pecuniary damages. The Court decided to separate these requests and to reject the lawsuits demanding compensation and moral damages. Avea appealed the case. The Company has submitted its response to appeal. The Court of Appeal rejected Avea's request for appeal and upheld the decision in favor of the Company. Avea applied for the correction of decision. The correction of decision process is still pending.

Based on the management opinion, the probability of an outflow of resources embodying economic benefits to settle the obligation is uncertain, thus, no provision is recognized in the condensed interim consolidated financial statements as at and for the period ended 30 September 2014 (31 December 2013: None).

Dispute on National Roaming Agreement

The ICTA decided that the Company has not complied with its responsibility under the Regulation on National Roaming which was enacted pursuant to article 10 of the Telegram and Telephone Law numbered 406 which obliges the Company to provide national roaming services and fined the Company by nominal amount of approximately TL 21,822 (equivalent to \$9,576 as at 30 September 2014). On 7 April 2004, although the Company made the related payment with its accrued interest, it also filed a lawsuit before the Council of State for the cancellation of the respective administrative fine and the regulation of the ICTA which sets the ground for the administrative fine. Upon the Council of State decision for the stay of execution of the administrative fine imposed to the Company until the conclusion of the law suit on 1 December 2004, the Company re-collected the respective amount from the ICTA on 3 January 2005. Following the cancellation of the administrative fine and finalization of this decision on 22 July 2010, the Company initiated a lawsuit against ICTA for the collection of TL 7,111 (equivalent to \$3,120 as at 30 September 2014) which is the accrued interest of the total amount that the Company could not benefit between the period when

the Company made the payment and ICTA returned the same amount to the Company. The Court partially accepted the lawsuit and decided that ICTA should pay TL 6,505 (equivalent to \$2,854 as at 30 September 2014) to the Company with the accrued interest. On 15 April 2013, ICTA paid TL 6,505 (equivalent to \$2,854 as at 30 September 2014) with its accrued interest amounting to TL 1,596 (equivalent to \$700 as at 30 September 2014) to the Company. ICTA appealed the decision. Thereupon, the Company replied to this request and also appealed the parts of the decision that The Court rejected against the Company. The Council of State rejected ICTA's request for the stay of execution during the appeal process. Appeal process is still pending.

Although payment was received from ICTA, the Court decision is not finalized. Therefore, it is not virtually certain that an inflow of economic benefits will arise, and no income is recognized in the condensed interim consolidated financial statements as at and for the period ended 30 September 2014 (31 December 2013: None).

On 7 April 2010, ICTA decided to impose administrative fine to the Company amounting to TL 4,008 (equivalent to \$1,759 as at 30 September 2014) for misinforming the Authority and TL 374 (equivalent to \$164 as at 30 September 2014) for making some subscribers suffer. Therefore, 25% discount was applied and TL 3,287 (equivalent to \$1,442 as at 30 September 2014) is paid in total as the administrative fine on 9 June 2010. The Company filed two lawsuits on 22 September 2010 for the stay of execution and cancellation of the aforementioned decision. The Court rejected the Company's stay of execution requests and the Company objected to the decisions but the objections are rejected. On 28 April 2011, the Court rejected the cases. Dispute regarding the fine applied by ICTA on tariffs above upper limits

On 21 April 2010, ICTA decided to impose administrative fine to the Company amounting to TL 53,467 (equivalent to \$23,462 as at 30 September 2014) by claiming that the Company applied tariffs above the upper limits of GSM-GSM in GSM Upper Limits Table approved by ICTA on 25 March 2009. Therefore, 25% discount was applied and TL 40,100 (equivalent to \$17,596 as at 30 September 2014) is paid as the administrative fine on 3 June 2010. The Company filed a lawsuit on 28 June 2010, for the cancellation of the aforementioned decision. The Court overruled the stay of execution claim, the Company objected to the decision and the Court accepted this objection and decided for the stay of the execution. Accordingly, ICTA paid back TL 40,100 (equivalent to \$17,596 as at 30 September 2014) on 27 January 2011. On 3 May 2011, the Court rejected the case. The Company appealed the decision and paid back TL 40,100 (equivalent to \$17,596 as at 30 September 2014) to ICTA on 6 October 2011. Council of State rejected the Company's stay of order request at appeal phase. Appeal process is pending.

Amount to be reimbursed to the subscribers was calculated as TL 46,228 (equivalent to \$20,285 as at 30 September 2014) and deducted from revenues in the consolidated financial statements as at and for the year ended 31 December 2009. Reimbursement to subscribers was made in January 2010.

ICTA notified the Company on 23 November 2011, to pay the amount of TL 13,367 (equivalent to \$5,866 as at 30 September 2014) which is the unpaid portion arising from the 25% cash discount of the administrative fine amounting to TL 53,467 (equivalent to \$23,462 as at 30 September 2014) that was imposed for applying tariffs above the upper limits. The Company filed a lawsuit on 23 December 2011 for stay of execution and for the annulment of this process. The Court accepted the request of the Company for stay of execution. ICTA objected to the decision but the objection is rejected. The Court decided in favor of the Company. ICTA appealed the decision and the Company replied this request. The Council of State rejected ICTA's request for stay of execution during the appeal process. Appeal process is still pending.

Dispute regarding the fine applied by ICTA on tariffs above upper limits (continued)

On 20 February 2012, payment order has been sent to the Company by the Tax Office. On 24 February 2012, the Company filed a lawsuit for cancellation of the payment order. The Court accepted the request of the Company for stay of execution. The Tax Office objected to the decision but the objection is rejected. The Court decided in favor of the Company. The Tax Office appealed the decision and the Company replied this request. Appeal process is still pending.

Based on the management opinion, the probability of an outflow of resources embodying economic benefits to settle the additional request regarding unpaid portion arising from the 25% discount of the administrative fine is uncertain, thus, no provision is recognized in the condensed interim consolidated financial statements as at and for the period ended 30 September 2014 (31 December 2013: None).

Dispute on deposits at banks

The Company, in 2001, initiated an enforcement proceeding to collect receivables amounting to \$6.329 arising from deposits in a bank. Dispute on Special Communication Taxation regarding prepaid card sales

Tax Office imposed tax penalty, including actual tax and penalty for loss of tax, in the total amount of TL 133,617 (equivalent to \$58,632 as at 30 September 2014) and TL 139,101 (equivalent to \$61,039 as at 30 September 2014) based on the ground that the Company had to pay special communication tax over the discounts applied to the distributors for the wholesales for the years 2005 and 2006, respectively. The Company initiated lawsuits for the cancellation of assessments and penalties mentioned above.

On 28 February 2011, Tax Amnesty Law has been approved by the President of Republic of Turkey. The Company applied to the Ministry of Finance related to the Tax Amnesty Law on 27 April 2011. In addition, late payment interest was calculated as TL 11,164 (equivalent to \$4,899 as at 30 September 2014) and TL 8,900 (equivalent to \$3,905 as at 30 September 2014) for the years 2005 and 2006, respectively. The aforementioned amounts were paid on 30 June 2011. The Company applied to the Tax Court to withdraw from the lawsuits according to Tax Amnesty Law due to the aforementioned payment. Dispute on Special Communication Taxation regarding prepaid card sales (continued)

On 24 June 2011, Tax Office imposed tax penalty, including actual tax and penalty for loss of tax, in the total amount of TL 11,238 (equivalent to \$4,931 as at 30 September 2014) based on the ground that the Company had to pay special communication tax over the discounts applied to the distributors for the wholesales for the period of January-February 2007. The Company applied to the Ministry of Finance on 13 July 2011 in order to benefit from the Tax Amnesty. According to Tax Amnesty Law, special communication tax and interest was calculated as TL 2,248 (equivalent to \$986 as at 30 September 2014) and TL 842 (equivalent to \$369 as at 30 September 2014) respectively. The aforementioned amounts were paid on 29 July 2011.

Large Taxpayer Office levied Special Communication Tax and tax penalty on the Company in the amount of TL 211,056 (equivalent to \$92,613 as at 30 September 2014) principal and TL 316,583 (equivalent to \$138,919 as at 30 September 2014) totaling to TL 527,639 (equivalent to \$231,532 as at 30 September 2014) based upon the claim, stated on Tax Investigation Reports prepared for the years 2008-2012, that the Company should pay Special Communication Tax over the prepaid card sales made by the distributors. The Company filed lawsuit before the Tax Courts for the cancellation of that aforementioned tax and tax penalty demand. After the lawsuit is filed, the Company applied to settlement procedure. In some of the cases, the Court decided to wait until the conclusion of the settlement procedure. The cases are still pending.

Based on the management opinion, the probability of an outflow of resources embodying economic benefits to settle the obligation is uncertain, thus, no provision is recognized in the condensed interim consolidated financial statements as at and for the period ended 30 September 2014.

Carrying international voice traffic

In May 2003, the Company was informed that the ICTA had initiated an investigation against the Company claiming that the Company has violated Turkish laws by carrying some of its international voice traffic through an operator other than Turk Telekom. On 5 March 2004, ICTA fined the Company a nominal amount of approximately TL 31,731 (equivalent

to \$13,924 as at 30 September 2014).

The Company has initiated a lawsuit with the claim of annulment of the related processes and decisions of ICTA, however, paid the administrative fine on 9 April 2004. On 5 November 2004, Council of State gave a decision, which is served to the Company, for stay of execution. With respect to that decision, ICTA paid back TL 18,000 (equivalent to \$7,899 as at 30 September 2014) on 26 January 2005 and deduct a sum of TL 13,731 (equivalent to \$6,025 as at 30 September 2014) from the December frequency usage fee payment. On 26 December 2006, Council of State decided to accept the Company's claim and annul the decision of and the fine imposed by the ICTA. ICTA appealed the decision. Turk Telekom initiated a lawsuit against the Company with respect to the same issue requesting TL 450,931 (equivalent to \$197,872 as at 30 September 2014) of which TL 219,149 (equivalent to \$96,164 as at 30 September 2014) as principal and TL 231,782 (equivalent to \$101,708 as at 30 September 2014) as interest, charged until 30 June 2005 and requesting a temporary injunction.

Considering the progresses at the court case, provision is set for the principal amounting to TL 53,160 (equivalent to \$23,327 as at 30 September 2014) and accrued interest amounting to a nominal amount of TL 102,508 (equivalent to \$44,981 as at 30 September 2014) in the condensed interim consolidated financial statements as at and for the period ended 30 September 2014.

In deciding upon the amount of the provision taking, the Company has taken the Turkish law into consideration, not the amounts requested by Turk Telekom and reflected in the expert report. Specifically, under Turkish Law, a person who is alleging that he has suffered a loss cannot claim the whole of his possible revenues but only the damages may only be sought in respect of lost profit. For this reason, the provision set by the Company is calculated by taking Turk Telekom's estimated loss of profit into consideration rather than the amounts requested by Turk Telekom and amounts reflected in the expert report. Moreover, the Company obtained an independent opinion dated 23 October 2007 which supports the management opinion from an expert who is not designated by the Court.

On 5 November 2009, the Court rejected the Turk Telekom's request amounting to TL 171,704 (equivalent to \$75,345 as at 30 September 2014) and accepted the request amounting to TL 279,227 (equivalent to \$122,527 as at 30 September 2014). The Company appealed the decision. Also, Turk Telekom appealed the decision. The Court of Cassation cancelled the decision. The Company and Turk Telekom applied for the correction of the decision. Supreme Court decided to reject both sides' correction of the decision requests. The Court of First Instance decided to comply with the Supreme Court's ruining decision and decided to order a new expert examination. The lawsuit is still pending.

Disputes with Spor Toto

On 9 November 2005, Spor Toto sent a notification letter to Inteltek claiming that Inteltek is obliged to pay nominal amount of TL 3,292 (equivalent to \$1,445 as at 30 September 2014) due to the difference in the reconciliation methods. Spor Toto claims that the reconciliation periods should be six-month independent periods whereas Inteltek management believes that those periods should be cumulative as stated in the agreement. Inteltek has not paid the requested amount.

Spor Toto, on behalf of GDYS, initiated a declaratory lawsuit against Inteltek. On 22 February 2007, the Court rejected the case and decided that the collection risk is with GDYS and Inteltek is not responsible for the uncollected amount of TL 1,527 (equivalent to \$670 as at 30 September 2014) and also rejected the demand that the reconciliation period should be six-month independent periods. GDYS appealed the Court's decision and applied for the correction of the decision. Both requests of GDYS were rejected and the decision was finalized.

Dispute on over assessment following the settlement on VAT fine pertaining to International Roaming Agreements

The Company applied to the Tax Office for the refund of the interest charge amounting TL 6,609 (equivalent to \$2,900 as at 30 September 2014) which was miscalculated after the settlement with the Tax Office regarding the VAT and tax penalties accrued due to roaming agreement for years 2000, 2001 and 2002. Tax Office rejected the Company's request, and the Company filed a lawsuit with the same claim. Upon the refusal of this request, the Company filed a lawsuit for the cancellation of this administrative act. Moreover, on 9 February 2009, the Company filed another lawsuit for the cancellation of the aforementioned interest charge. Dispute on the discounts which are paid over the treasury share and ICTA fee (continued)

Through the letter dated 23 February 2007, the Company requested treasury share amounting to TL 46,129 (equivalent to \$20,242 as at 30 September 2014) and interest accrued amounting to TL 5,020 (equivalent to \$2,203 as at 30 September 2014) from Turkish Treasury and universal service fund amounting to TL 5,125 (equivalent to \$2,249 as at 30 September 2014) and interest accrued amounting to TL 558 (equivalent to \$245 as at 30 September 2014) from Turkish Ministry to be paid in 10 days. Since Turkish Treasury and Turkish Ministry have not made any payment, the Company started to deduct these amounts from ongoing monthly payments. As at 31 December 2007, the Company deducted TL 51,254 (equivalent to \$22,491 as at 30 September 2014) from monthly treasury share and universal service fund payments.

Accordingly, the Company is asked to return TL 2,960 (equivalent to \$1,299 as at 30 September 2014) that is deducted from treasury share payment for May 2007. The Company has not made the related payment and continued to deduct such discounts treasury share and universal service fee amount related to discounts granted to distributors for the year 2006.

Accordingly, the Company has not recorded any provisions with respect to this matter in its condensed interim consolidated financial statements as at and for the period ended 30 September 2014 (31 December 2013: None).

The Company filed two lawsuits before ICC claiming that the Company is not obliged to pay treasury share and ICTA Fee in accordance with the 8th and 9th Articles of the Concession Agreement, respectively, on discounts granted to distributors. On the both lawsuits, ICC has decided in favor of the Company. As stated in both of the Final Awards, the Company is not under obligation of paying Treasury Share and the Contribution to the expenses of Authority pursuant to Article of 8 and 9 of the Concession Agreement dated 10 March 2006. ICTA filed lawsuits for cancellation of these Final Awards. In both lawsuits, the Court decided in favor of the Company. ICTA appealed the decisions. The Company replied appeal requests. The Court of Cassation reversed the decisions of the First Instance Court. The Company has applied for the correction of the decision. The Court of Cassation rejected the request for

correction of the decision of the Company. On the hearing dated 28 November 2012, the Local Court decided to accept the lawsuit in accordance with the reversal decision of The Court of Cassation. Dispute on payments of additional treasury share payment for the period between 1 June 2004 and 9 March 2006

Turkish Treasury, through a letter which is based on the Report of the Treasury Controller's Board following the examinations covering the period between 1 June 2004 and 9 March 2006, requested additional treasury share payment regarding the mentioned period. The Company initiated a lawsuit before ICC on 18 December 2009 in order to obtain a declaratory judgment on the Company is not obliged to pay TL 3,320 (equivalent to \$1,457 as at 30 September 2014) of the requested amount and treasury share over the exchange differences arising from roaming revenue. The arbitral tribunal partially accepted the Company's claims and decided that the Company is not obliged to pay TL 885 (equivalent to \$388 as at 30 September 2014). The Company applied to arbitral tribunal for correction and interpretation of the award. The arbitral tribunal rejected this application. ICTA filed a lawsuit for cancellation of the in favor parts of the Final Award. Subsequently the Company filed a lawsuit for cancellation of the disadvantageous part of the Final Award. The lawsuit filed by the Company has been dismissed. In the lawsuit initiated by the ICTA, the Court dismissed the case in favor of the Company. ICTA, through a letter dated 14 May 2010 which is based on the Report of the Treasury Controller's Board following the examinations covering the period between 1 June 2004 to 9 March 2006, requested additional treasury share payment of TL 4,909 (equivalent to \$2,154 as at 30 September 2014) together with the penalty of TL 12,171 (equivalent to \$5,341 as at 30 September 2014) on the ground that the treasury share and treasury share over the exchange differences arising from roaming revenue are not paid entirely.

On 26 May 2010, the Company, in order to provide the suspension of the payment, requested a preliminary injunction from the Civil Court of First Instance based on the grounds that the payment of additional treasury share payment of TL 4,909 (equivalent to \$2,154 as at 30 September 2014) together with the penalty of TL 12,171 (equivalent to \$5,341 as at 30 September 2014) is a pending case before ICC Arbitration Court. The Civil Court of First Instance accepted the Company's request. ICTA raised an objection to the preliminary injunction and this objection has been rejected.

The Company filed a lawsuit before ICC on 27 January 2012 claiming the contradiction to law of the penalty of TL 12,171 (equivalent to \$5,341 as at 30 September 2014) calculated over allegedly unpaid TL 4,909 (equivalent to \$2,154 as at 30 September 2014) treasury share. ICC Arbitration Court decided in favor of the Company, accepting all its claims. ICTA filed a lawsuit for cancellation of the final award in the Ankara Civil Court of First Instance. The Court decided to obtain an expert report. The expert report which is in favor of the Company was submitted to the file.

The Court decided to obtain an additional expert report. The lawsuit is still pending.

Dispute on payments of additional treasury share payment for the period between 1 June 2004 and 9 March 2006 (continued)

On 13 December 2010, the Company, in order to provide the suspension of the payment, requested a preliminary injunction from the Civil Court of First Instance based on the grounds that the payment of treasury share of TL 70,992 (equivalent to \$31,152 as at 30 September 2014) and conventional penalty of TL 205,594 (equivalent to \$90,216 as at 30 September 2014) is a pending case before ICC Arbitration Court. The Court accepted the Company's request. ICTA's objection against the decision has been rejected.

The Company filed a lawsuit before ICC on 12 January 2011 regarding the allegedly underpaid treasury share payments over certain revenue items as discussed in the Treasury Controller's Report dated 30 May 2010, and corresponding purported penalty in amount of TL 205,594 (equivalent to \$90,216 as at 30 September 2014). The Company requested the Arbitral Tribunal to award that TL 68,365 (equivalent to \$29,999 as at 30 September 2014) of the total amount requested in the Treasury Controller's Report has either been paid or is the subject matter of other arbitration cases. The Company further requested the Tribunal to declare that the request for treasury share payment of the remaining TL 4,163 (equivalent to \$1,827 as at 30 September 2014) is unfounded, together with a declaration that the Company should not be obliged to make treasury share payment over certain revenue items as discussed in the Treasury Controller's Report. Finally, the Company requested the Tribunal to award that it is not obliged to pay the requested penalty and declare that penalty cannot be accrued where the basis of the penalty request is disputed. On 18 March 2013, the Tribunal awarded that the Company is not obliged to pay TL 1,351 (equivalent to \$593 as at 30 September 2014) of the remaining amount requested by the Treasury (the Company's relief sought for treasury share payment of TL 2,812 (equivalent to \$1,234 as at 30 September 2014) requested over SIM card and equipment sales abroad was rejected), declared that the Company is not obliged to pay penalty in amount of TL 205,594 (equivalent to \$90,216 as at 30 September 2014); but dismissed (without prejudice) the requests for declaration that the Company should not be obliged to make treasury share payment over certain revenue items as discussed in the Treasury Controller's Report, and that penalty cannot be accrued where the basis of the penalty request is disputed. ICTA, Undersecretariat of Treasury and the Ministry of Transport, Maritime Affairs, and Communications filed two separate lawsuits for cancellation of the Final Award. Subsequently the Company filed a lawsuit for cancellation of the disadvantageous part of the Final Award. The Court has decided to consolidate the lawsuits under the lawsuit filed by

Undersecretariat of Treasury and the Ministry of Transport. The Court decided to appoint an expert committee for examination of the file. The expert report which is in favor of the Company was submitted to the file. The Court decided to obtain an additional expert report. The additional report is in favor of the Company. The lawsuits are still pending.

Based on the management opinion, the probability of an outflow of resources embodying economic benefits to settle the obligation is uncertain, thus, no provision is recognized in the condensed interim consolidated financial statements as at and for the period ended 30 September 2014 (31 December 2013: None).

Dispute on treasury share amounts which are absorbed due to retrospective board decisions taken by ICTA

In consequence of collection of treasury share from the Company without considering its payments to the other operators and some subscribers due to the retrospective procedure amendments of ICTA on both interconnection fees and some tariffs; the Company commenced a lawsuit on 5 August 2010 before ICC on the ground that treasury share which collected from diminishing returns are unlawful and deductions committed by the Company between the years 2006 - 2010 from the treasury share are rightful and claimed payment of TL 1,600 (equivalent to \$702 as at 30 September 2014) and its interest to the overpayment amount which is paid under the name of treasury share, against ICTA due to its administrative act leading to this case and against Turkish Undersecretariat of Treasury and Turkish Ministry of Transport, Maritime Affairs, and Communications due to making benefit from aforementioned amount.

ICC decided partially in favor of the Company in March 2012 and ordered that deductions committed by the Company between the years 2006 - 2010 from the Treasury Share are rightful, and ICTA should refund TL 1,371 (equivalent to \$602 as at 30 September 2014) paid by the Company in this respect as Treasury Share and ICTA fee and reject the Company's claim to refund TL 273 (equivalent to \$120 as at 30 September 2014) paid as ICTA fee between 2006 - 2008. ICTA, Undersecretariat of Treasury and the Ministry of Transport, Maritime Affairs, and Communications filed a lawsuit for cancellation of the Final Award. The lawsuit initiated by ICTA has been consolidated by the court with the lawsuit initiated by Undersecretariat of Treasury and the Ministry of Transport, Maritime Affairs, and Communications. The court rejected both lawsuits. ICTA and Undersecretariat of Treasury and the Ministry of Transport, Maritime Affairs, and Communications appealed the decision. The Company replied the appeal request. Appeal process is still pending.

Dispute of Astelit with its distributor

One of Astelit's distributors filed a lawsuit against Astelit claiming a compensation in the amount of UAH 106,443 (equivalent to \$8,220 as at 30 September 2014), which is allegedly the sum of advance payment for undelivered goods. According to the commission agreement, signed between parties, the payment terms are 30 days after delivery date (net of distributor's commission). The distributor violated the conditions of agreement and did not pay on time. Therefore Astelit made a counterclaim for the recovery of indebtedness in the amount of UAH 35,292 (equivalent to \$2,725 as at 30 September 2014).

Dispute passed through all the instances twice. On 26 March 2012, the High Commercial Court of Ukraine approved the previous positive decision for Astelit counterclaim.

Enforcement document was submitted to the State Enforcement Service. According to Ukrainian Legislation, the distributor has a right to appeal the decision before Supreme Court of Ukraine within three months from the date of judgment of the High Commercial Court of Ukraine but, the distributor did not use the right.

Additionally, the distributor has a statute of limitation for 3 years from the date of the High Commercial Court decision, which will be expired on 26 March 2015. However the distributor is not conducting economic activity for a long period of time and has not appealed the decision. The possibility of such actions from distributor is very low.

Based on the management decision, the probability of an outflow of resources embodying economic benefits to settle the obligation is uncertain , thus, no provision is recognized in the consolidated financial statements as at and for the period ended as at 30 September 2014 (31 December 2013: None).

Dispute of Astelit related to withholding tax on interest expense

Ukrainian Tax Administration sent a tax notice to Astelit stating that withholding tax rate on interest expense for the loan agreement with Euroasia should be 10% for the year 2009. According to Ukrainian legislation and Convention on avoiding double taxation between Ukraine and the Netherlands, Astelit paid withholding tax at 2%. Astelit filed a suit to cancel tax notice, which imposed Astelit to pay additional UAH 11,651 (equivalent to \$900 as at 30 September 2014). The High Administrative Court decided in favor of Tax Administration on 27 March 2014. Therefore, Astelit paid the aforementioned amount on 4 April 2014. Also, additional penalty based on 120% of NBU's daily rate will be paid to the Tax Authority according to the court decision. The court has decided that Euroasia status as financial institution must be defined under Ukrainian law.

On 27 June 2014, Astelit filed an application to the Supreme Court for review of above mentioned decision and proof that Dutch legislation should be applied. On 14 July 2014, the High Administrative Court applied Astelit's admission for review in Supreme Court. The decision of the Supreme Court is still pending.

An expert report from committee of experts appointed by the Court has been submitted to the Court. The Court decided to obtain a supplementary report from the same committee. In the supplementary expert report submitted to the file by the committee, the damages amounting to TL 64,000 (equivalent to \$28,084 as at 30 September 2014) claimed by Mep Iletisim ve Dis Ticaret A.S. was calculated as TL 16,700 (equivalent to \$7,328 as at 30 September 2014). Mep Iletisim ve Dis Ticaret AS increased its claim and demanded TL 16,700 (equivalent to \$7,328 as at 30 September 2014) from the Company. Dispute on treasury share in accordance with the amended license agreement

Based on the law enacted on 3 July 2005 with respect to the regulation of privatization, gross revenue description used for the calculation of treasury share has been changed. According to this new regulation, accrued interest charges for the late payments, taxes such as indirect taxes, and accrued revenues are excluded from the description of gross revenue. Calculation method of gross revenue for treasury share stipulated in the law according to the new regulation shall be valid as of the application date of the Company with the claim of amendment of its license agreement in compliance with the said Law. In the meanwhile, the Company realized the payments including above-mentioned items between 21 July 2005 and 10 March 2006, when the amendment in license agreement was effective.

On 9 June 2008, the Company filed a lawsuit before Administrative Court for the difference between the aforementioned period amounting to TL 102,649 (equivalent to \$45,043 as at 30 September 2014) and interest amounting to TL 68,276 (equivalent to \$29,960 as at 30 September 2014) till to the date the case is filed. The Administrative Court rejected the case with the reason that there is not any definite and executable process and the Company appealed the decision. The Council of State rejected the appeal request. The Company requested correction of the decision. The Council of State rejected the Company's request for the correction of the decision.

On 26 August 2013, the Company filed a lawsuit before ICC against Undersecretariat of Treasury. The Case Management Conference was held on 13 March 2014. The evidentiary hearing was held on 24-25 June 2014 and the parties' witnesses were heard. The lawsuit is still pending.

Since it is not virtually certain that an inflow of economic benefits will arise, no asset or related income is recognized in the condensed interim consolidated financial statements as at and for the period ended 30 September 2014 (31 December 2013: None).

Based on the 9th article of the license agreement dated 10 March 2006, the Company has been obliged to pay 0.35% of its yearly gross revenue once a year as ICTA Fee. However, in the previous license agreement, the Company was obliged to pay 0.35% of its yearly gross revenue after deducting treasury share, universal service fund and other indirect taxes from the calculation base whereas in the new agreement, these aforementioned payments are not

deducted from the base of the calculation. Therefore, on 12 April 2006, the Company has initiated a lawsuit for the cancellation of the 9th article of the new license agreement. On 10 March 2009, the Court rejected the case. The Company appealed the decision. The Plenary Session of Administrative Law Divisions of the Council of State decided to approve the decision of the First Instance Court. The Company applied for the correction of the decision. The correction of the decision process is still pending.

The inquiry of investigation which includes the findings of the investigation was delivered to the Company on 31 July 2013. The inquiry claims that the Company less paid radio utilization and usage fees amounting to TL 67,493 (equivalent to \$29,616 as at 30 September 2014) than it had to be for the years 2010 and 2011, and an administrative fine should be imposed. The Company filed a lawsuit for the cancellation of the 2nd and 3rd articles of ICTA's aforementioned decision and the administrative acts implied on the Company for the collection of the radio utilization and usage fees in the amount of TL 67,493 (equivalent to \$29,616 as at 30 September 2014) which was claimed to have been paid deficiently.
