ITEM 5.02 Departure of Directors or Principal Officers; Election of Directors; Appointment of Certain Officers; Compensatory Arrangements of Certain Officers.

(e) Compensatory arrangements of certain officers.

On February 11, 2011, upon the recommendation of the Compensation and Human Resources Committee (the Committee) of the Board of Directors of the Company (the Board), the Board took the following actions regarding its executive officers, including its Chief Executive Officer, compensation for fiscal years 2010 and 2011:

A. Award of 2010 Performance-Based Cash Bonuses, Performance-Based Equity and Discretionary Cash and Equity Awards:

Pursuant to the terms of the 2010 Executive Bonus and Equity Program, the two components of the target award for both the performance-based cash bonus award and the performance based equity bonus award are pre-determined financial and strategic goals.

The cash bonus that an executive officer could earn under the 2010 Executive Bonus Program is determined based upon achievement of the predetermined financial and strategic goals. Each executive officer, excluding the chief executive officer, may earn: (1) between zero and twenty-five percent (25%) of base salary depending on the achievement of pre-determined strategic goals; and (2) between zero and thirty-seven and one half percent (37.5%) (with a target of twenty-five percent (25%) of base salary) of base salary depending on the achievement of Company and regional goals with respect to adjusted income from continuing operations. The regional presidents' financial goals are based upon the Company achieving its overall goal of adjusted income from continuing operations (weighted at seventy-five percent (75%)) and on whether the regional President's specific region achieves its goal of adjusted income from continuing operations (weighted at twenty-five percent (25%)). Achievement of financial goals by all executives other than regional Presidents is based solely on whether the Company achieves its overall target for adjusted income from continuing operations without regard to regional performance. The cash bonus that the chief executive officer may earn is 1) between zero and fifty percent (50%) of base salary depending on the achievement of pre-determined strategic goals and (2) between zero and seventy-five percent (75%) (with a target of fifty percent (50%) of base salary) of base salary depending on the achievement of the Company's goals with respect to adjusted income from continuing operations.

The Committee determined that the Company achieved the maximum performance criteria for the financial metrics resulting in 150% of the target award for the Company financial component of the cash bonus program. The Committee also determined that the EMEA region achieved the maximum performance with respect to the Regional financial component of the cash bonus program resulting in 150% of the target award for the Regional financial component of the cash bonus program and that the Asia-Pacific and Americas Regions achieved performance resulting in 100% of the target award for the Regional financial component of the cash bonus program. Finally, the Committee also determined that 100% of the strategic goals were achieved resulting in 100% of the target award for the strategic component of the cash bonus program being earned. Since these financial and strategic goals were achieved, the Committee also determined that the Company's executive officers should each receive 100% of his potential performance based equity, which was granted as restricted stock units (RSUs) under the Company's 2004 Long-Term Incentive Plan (the Plan).

The following table sets forth the performance-based cash and equity bonus awards for 2010:
