**QUESTIONS AND ANSWERS ABOUT THE SPECIAL MEETING
AND THE PROXY STATEMENT**

Q. WHY IS THE FUND HOLDING A SPECIAL MEETING?

A. Kayne Anderson Capital Advisors, L.P. (the Adviser) currently provides investment advisory services to Kayne Anderson MLP Investment Company (the Company), pursuant to an investment management agreement (the Current Management Agreement). The Company s Board of Directors is seeking stockholder approval for a new investment management agreement between the Company and the Adviser (the New Management Agreement).

Q. HOW WILL THE NEW MANAGEMENT AGREEMENT DIFFER FROM THE CURRENT AGREEMENT?

A. Under the Current Management Agreement, the Adviser is paid quarterly a base management fee at an annual rate of 1.75% of the Company s average total assets (the Base Management Fee), subject to a performance adjustment (the Performance Adjustment). The Performance Adjustment is based on the Company s investment performance relative to the performance of the Standard and Poor s (S&P) 400 Utilities Index plus 600 basis points (6.00%). The Performance Adjustment can result in up to a 1.00% increase or decrease to the Base Management Fee. As a result, the total management fee can range from an annual rate of 0.75% to an annual rate of 2.75%.

Under the New Management Agreement, the Adviser would be paid quarterly a fixed management fee at an annual rate of 1.375% of the Company s average total assets, with no Performance Adjustment.

Q. WHY IS THE BOARD RECOMMENDING A CHANGE TO THE CALCULATION OF THE MANAGEMENT FEE UNDER THE NEW MANAGEMENT AGREEMENT?

A. The Board is recommending a change to the way in which the management fee is calculated for the following reasons:

The performance-based fee structure creates the risk that the Company will pay higher management fees in periods of poor absolute performance (even losses), but good performance relative to the S&P 400 Utilities Index.

The S&P 400 Utilities Index is not the most representative index of the Company s target investments, even though it was believed to be the best available index for the Company s target investments at the time the Current Management Agreement was approved. Since that time, however, two new MLP indices have been created that are more representative of the Company s target investments. The Board believes it is no longer appropriate to benchmark the Company s performance based on the S&P 400 Utilities Index. The Board considered whether to restructure the Performance Adjustment by replacing the S&P 400 Utilities Index with one of these newer indices,

but recommends that stockholders approve a management fee without a performance adjustment for the other reasons given in the proxy statement.

The performance-based fee structure under the Current Management Agreement is difficult to calculate for most research analysts and investors, and has caused confusion for some current and prospective stockholders.

The fixed management fee structure proposed under the New Management Agreement will improve the Company's ability to forecast expenses by making those expenses less variable. Those expenses affect the amount available for the quarterly dividend distributions to common stockholders.

The fixed management fee proposed under the New Management Agreement is lower than the Base Management Fee under the Current Management Agreement.

Q. HOW WILL THE CHANGE TO THE MANAGEMENT FEE STRUCTURE UNDER THE NEW MANAGEMENT AGREEMENT IMPACT STOCKHOLDERS?

A. The table below illustrates the Company's management fee under the Current Management Agreement compared to the Company's pro forma management fee if the New Management Agreement had been in place for the same period.

Period	Current Management Agreement (annual rate)	New Management Agreement (annual rate)	Difference (annual rate)
Sept. 2004 – Sept. 2005	0.750%	1.375%	0.625%
Oct. 2005 and Nov. 2005 ²	1.730%	1.375%	(0.355%)
Dec. 2005 – Feb. 2006	0.750%	1.375%	0.625%
Mar. – May 2006	2.750%	1.375%	(1.375%)
June – Aug. 2006	2.469%	1.375%	(1.094%)

Oct. 2005 – Aug. 2006	1.950%	1.375%	(0.575%)
Average:			
Sept. 2004 – Aug. 2006	1.322%	1.375%	0.053%

(1) During the initial 12 months of the Company's operations, the Company paid a fee based on 0.75% of total assets, with the Performance Adjustment calculated based on the Company's performance during the 12 months

ended
September 30,
2005. Based on
the Company's
performance
during this
initial period, no
additional
management fee
attributable to
the Performance
Adjustment was
paid.

- (2) For the period following the initial 12-month period, the Performance Adjustment is calculated at the end of each of the Company's fiscal quarters. As a result, the first period (after the initial 12-month period) consisted of two months.
- (3) The initial 12-month period of operations has been excluded from this calculation. The Company believes that this initial 12-month period, when the Company was not fully invested, is not representative of the performance of the Company now that it is fully invested.

Q. WHEN IS THE NEW MANAGEMENT AGREEMENT PROPOSED TO TAKE EFFECT?

-2-

A. The New Management Agreement is proposed to take effect on December 1, 2006, at the start of the Company's fiscal year, provided it is approved by stockholders. If the Special Meeting is postponed or adjourned until after December 1, 2006 and the New Management Agreement is approved on a date other than the scheduled Special Meeting date, the effective date of the New Management Agreement will remain December 1, 2006.

Q. WHAT HAPPENS IF THE NEW MANAGEMENT AGREEMENT IS NOT APPROVED?

A. If the stockholders of the Company do not approve the New Management Agreement, the Current Management Agreement will continue in effect. The Board of Directors will then consider whether and when to re-propose the New Management Agreement or a different management agreement, or to leave in place the Current Management Agreement.

Q. HOW DOES THE BOARD OF DIRECTORS SUGGEST THAT I VOTE?

A. The Board of Directors of the Company unanimously recommends that you vote **FOR** the New Management Agreement on the enclosed proxy card.

Q. HOW CAN I VOTE?

A. If your shares are held in Street Name by a broker or bank, you will receive information regarding how to instruct your bank or broker to vote your shares. If you are a stockholder of record, you may authorize the persons named as proxies on the enclosed proxy card to cast the votes you are entitled to cast at the meeting by completing, signing, dating and returning the enclosed proxy card. Stockholders of record or their duly authorized proxies also may vote in person if able to attend the meeting.

Even if you plan to attend the Special Meeting, we urge you to return your proxy card. That will ensure that your vote is cast should your plans change.

This information summarizes information that is included in more detail in the Proxy Statement. We urge you to read the Proxy Statement carefully.

THE PROPOSAL

APPROVAL OF A NEW INVESTMENT MANAGEMENT AGREEMENT

The Board of Directors recommends that stockholders approve the New Management Agreement. The proposed New Management Agreement differs from the current investment management agreement, dated September 27, 2004, as amended on January 21, 2005, between the Company and the Adviser (the Current Management Agreement), in that the New Management Agreement does not contain a performance adjustment to the management fee. The other terms of the New Management Agreement are substantively the same as the terms of the Current Management Agreement.

Proxies that do not contain specific instructions to the contrary will be voted in favor of approval of the New Management Agreement. A form of the New Management Agreement is attached as Appendix A.

Change to the Management Fee Structure Under the New Management Agreement

The Adviser currently provides investment advisory services to the Company under the Current Management Agreement. The Current Management Agreement was approved for its initial two-year term by the Board of Directors on July 12, 2004 and by the Company's sole initial stockholder on September 27, 2004 when the Company commenced operations, and was subsequently renewed by the Board of Directors on September 14, 2006.

The Current Management Agreement provides for the quarterly payment of a base management fee at an annual rate of 1.75% of the Company's average total assets (the Base Management Fee), subject to a performance adjustment (the Performance Adjustment). The Performance Adjustment is calculated at the end of each fiscal quarter based on the Company's investment performance for the trailing twelve-month period (the Performance Period) relative to the performance of the Standard & Poor's (S&P) 400 Utilities Index over the Performance Period plus 600 basis points (6.00%) (the Benchmark). The Company's investment performance (Investment Performance) is calculated as follows:

...on a per share basis as a fraction, the numerator of which is the sum of (i) the Company's net asset value at the end of the period minus its net asset value at the beginning of the period, (ii) any dividends or distributions paid by the Company during the period, (iii) taxes paid during or accrued (on a net basis) for the period, and (iv) management fees paid or accrued for the period, and the denominator of which is the Company's net asset value at the beginning of the period.

The performance of the Benchmark is determined based on its total return (capital appreciation and dividends) over the relevant Performance Period (the Benchmark Performance). When the Company's Investment Performance is better than the Benchmark Performance over the Performance Period, the Company pays the Adviser higher fees than the Base Management Fee. If the Company's Investment Performance is less than the Benchmark Performance over the Performance Period, the Adviser is paid fees lower than the Base Management Fee. Each 1.00% of difference in the Investment Performance of the Company and the Benchmark Performance during the Performance Period results in a 0.20% adjustment to the Base Management Fee. The maximum annualized Performance Adjustment is +/- 1.00% of average total assets over the Performance Period which would be added to or deducted from the

Base Management Fee if the Company's Investment Performance exceeded (or was exceeded by) the Benchmark Performance by 5.00% or more.

The following table demonstrates what the management fee, including the Performance Adjustment, would be under the Current Management Agreement, given different levels of Investment Performance of the Company as compared to the Benchmark Performance. These performance figures are not intended to suggest the actual past or expected future performance of the Company or the Benchmark.

Investment Performance of the Company	Benchmark Performance (S&P 400 Utilities Index plus 6.00%)	Base Management Fee	Performance Adjustment	Total Management Fee
	20.00% or higher	15.00%	1.75%	1.00%
18.00%	15.00%	1.75%	0.60%	2.35%
15.00%	15.00%	1.75%	0.00%	1.75%
12.00%	15.00%	1.75%	(0.60)%	1.15%
10.00% or lower	15.00%	1.75%	(1.00)%	0.75%

Under the New Management Agreement, the Adviser would be paid quarterly a management fee at an annual rate of 1.375% of the Company's average total assets, which would not be subject to a performance adjustment. Therefore, at each of the performance levels in the table above, the management fee would be an annual rate of 1.375% of the Company's average total assets.

Effect of the Removal of the Performance Adjustment

Under the terms of the New Management Agreement, the Adviser will be paid quarterly a fixed management fee at an annual rate of 1.375% of the Company's average total assets for the past quarter, which would not be subject to a performance adjustment.

The management fee under the New Management Agreement is lower than the average rate paid by the Company to the Adviser for the period following the initial 12-month period ended September 30, 2005. It is impossible to predict accurately the impact of eliminating the performance adjustment on management fees if the New Management Agreement is approved as compared to management fees that the Company would pay under the Current Management Agreement. However, the effect that the proposed removal of the performance adjustment would have had on the Company's fees is shown in the tables below, which compare fees under the Current Management Agreement to fees that would have been paid under the New Management Agreement.

For the nine months ended August 31, 2006, the Company paid \$20.9 million in management fees. Under the proposed New Management Agreement, the Company would have paid \$15.1 million in management fees. Since inception on September 28, 2004, the Company has paid \$32.1 million in management fees versus \$32.7 million it would have paid under the proposed New Management Agreement. For the fiscal year ended November 30, 2005, the Company paid \$10.2 million in management fees versus \$15.8 million it would have paid under the proposed New Management Agreement. However, the Company does not believe that comparing the management fee under Current Management Agreement to the management fee under the New Management Agreement during fiscal year 2005 is appropriate. The Company was not fully invested until the last quarter of fiscal year 2005.

Management Fee Comparisons

Period	Current Management Agreement (annual rate)	New Management Agreement (annual rate)	Difference (annual rate)
Sept. 2004 Sept. 2005	0.750%	1.375%	0.625%
Oct. 2005 and Nov. 2005 ²	1.730%	1.375%	(0.355%)
Dec. 2005 Feb. 2006	0.750%	1.375%	0.625%
Mar. May 2006	2.750%	1.375%	(1.375%)
June Aug. 2006	2.469%	1.375%	(1.094%)
Average:			
Oct. 2005 Aug. 2006	1.950%	1.375%	(0.575%)
Average:			
Sept. 2004 Aug. 2006	1.322%	1.375%	0.053%

- (1) During the initial 12 months of the Company's operations, the Company paid a fee based on 0.75% of total assets, with the Performance Adjustment calculated based on the Company's performance during the 12 months ended September 30, 2005. Based on the Company's performance during this initial period, no additional management fee attributable to the Performance Adjustment was paid.

- (2)

For the period following the initial 12-month period, the Performance Adjustment is calculated at the end of each of the Company's fiscal quarters. As a result, the first period (after the initial 12-month period) consisted of two months.

- (3) The initial 12-month period of operations has been excluded from this calculation. The Company believes that this initial 12-month period, when the Company was not fully invested, is not representative of the performance of the Company now that it is fully invested.

Fee and Expense Comparison

	Actual Current Management Agreement	Pro Forma New Management Agreement
Annual Expenses:(1)		
Management Fees(2)	2.68%	1.94%
Leverage Costs(3)	1.90%	1.90%
Other Expenses	0.23%	0.23%
Total Annual Expenses (excluding current and deferred income tax expenses)	4.81%	4.07%

- (1) Calculated as a percentage of net assets

attributable to
common stock
as of August 31,
2006.

- (2) The management fees under the Current Management Agreement are annualized based on actual fees incurred during the nine months ended August 31, 2006. The management fees under the New Management Agreement are annualized based on pro forma fees for the nine months ended August 31, 2006.

- (3) Leverage costs are annualized based actual costs incurred during the nine months ended August 31, 2006.

The purpose of the table above and the example below is to help you understand all fees and expenses that you would bear directly or indirectly as a holder of the Company's common stock.

Expense Example:

The following example illustrates the expenses that you would pay on a \$1,000 investment in the Company's common stock, assuming a 6.85% yield on total assets from interest, dividends and distributions, a 5% annual appreciation in net assets (prior to reinvestment of dividends and distributions) and expenses based on a base management fee of 1.75% under the Current

Management Agreement, a fixed management fee of 1.375% under the New Management Agreement, a 3% annual increase in other operating expenses and a 38.5% tax rate. Based on these assumptions, under the Current Management, the annual expenses in year 1 are 4.55% before tax and 7.43% after tax, each expressed as a percent of net assets attributable to common stock. Under the New Management Agreement, the annual expenses would be 3.99% before tax and 7.03% after tax. The following example also assumes that all dividends and distributions are reinvested at net asset value.

	1	3	5	10
	Year	Years	Years	Years
Under Current Management Agreement	\$ 77	\$ 235	\$ 405	\$ 894
Under New Management Agreement	\$ 73	\$ 223	\$ 386	\$ 862

THE EXAMPLE SHOULD NOT BE CONSIDERED A REPRESENTATION OF FUTURE EXPENSES. The example assumes that the estimated Other Expenses set forth in the Annual Expenses table are accurate and that all dividends and distributions are reinvested at net asset value and that the Company is engaged in leverage of 25% of total assets, assuming a 4.83% cost of leverage. The cost of leverage is expressed as an interest rate and represents the weighted average of interest payable on certain notes and dividends expected to be payable on certain preferred shares issues by the Company. ACTUAL EXPENSES MAY BE GREATER OR LESS THAN THOSE SHOWN. Moreover, the Company's actual rate of return may be greater or less than the hypothetical 5% return shown in the example.

Information Concerning the Current Management Agreement and the New Management Agreement

The terms of the New Management Agreement are identical to those of the Current Management Agreement except for (i) a change to the management fee structure described above; and (ii) the commencement date and term.

If the New Management Agreement is approved by stockholders on the scheduled Special Meeting date or at any postponement or adjournment thereof, it will become effective December 1, 2006 and will continue in effect for an initial period of two years ending November 30, 2008 and subsequent periods of one year thereafter provided that its continuance is approved by the Board of Directors, including a majority of the Independent Directors at an in-person meeting called for that purpose, or by vote of a majority of the Company's outstanding shares. If the Special Meeting is postponed or adjourned until after December 1, 2006 and the New Management Agreement is approved on a date other than the scheduled Special Meeting date, the effective date of the New Management Agreement will remain December 1, 2006.

If the New Management Agreement is not approved by stockholders, the Current Management Agreement will continue in effect from year to year provided it is approved annually by a majority of the Board of Directors, including a majority of the Independent Directors, at an in-person meeting called for that purpose, or by vote of a majority of the Company's outstanding shares. At an in-person meeting on September 14, 2006, the Board of Directors, including the Independent Directors, approved the continuance of the Current Management Agreement until the earlier of September 27, 2007 or the approval of the New Management Agreement by the stockholders of the Company.

Both the Current Management Agreement and the New Management Agreement provide that they may be terminated by the Company at any time, without the payment of any penalty, by the Board of Directors of the Company or by the vote of the holders of a majority of

the outstanding shares of the Company on 60 days' written notice to the Adviser. Each Agreement provides that it may be terminated by the Adviser at any time, without the payment of any penalty, upon 60 days' written notice to the Company. Each Agreement also provides that it will automatically terminate in the event of its assignment, within the meaning of the 1940 Act. This means that an assignment of either Agreement to an affiliate of the Adviser would normally not cause a termination of the Agreement.

Why the Board is Recommending a Change to the Management Fee Structure

For the period following the initial 12 months of the Company's operations, the Company's Investment Performance exceeded the Benchmark Performance more often than it did not, and the Adviser received a management fee at an average annualized rate of 1.950%. Although the Adviser has benefited from the Performance Adjustment, it nevertheless recommended to the Board of Directors, and the Board of Directors in turn is recommending to stockholders, removing the Performance Adjustment for the following reasons:

The performance-based fee structure creates the risk that the Company could pay higher management fees in periods of poor absolute performance (even losses), but good performance relative to the Benchmark. Because the Performance Adjustment is calculated based on the Company's Investment Performance relative to the Benchmark Performance, it is possible that in a quarter where the Company's Investment Performance is poor in absolute terms, but nonetheless outperforms the Benchmark Performance, the Company could pay management fees to the Adviser that include a positive Performance Adjustment.

The S&P 400 Utilities Index is not the most representative index of the Company's target investments, even though it was believed to be the best available index for the Company's target investments at the time the Current Management Agreement was approved. Since that time, however, two new MLP indices have been created that are more representative of the Company's target investments. The Board believes it is no longer appropriate to benchmark the Company's performance based on the S&P 400 Utilities Index. The Board considered whether to restructure the Performance Adjustment by replacing the S&P 400 Utilities Index with one of these newer indices, but recommends that stockholders approve a management fee without a performance adjustment for the other reasons given in this proxy statement.

The performance-based fee structure under the Current Management Agreement is difficult to calculate for most research analysts and investors, and has caused confusion for some current and prospective stockholders. A fixed management fee structure should eliminate this confusion.

The fixed management fee structure proposed under the New Management Agreement will improve the Company's ability to forecast expenses by making those expenses less variable. Those expenses affect the amount available for the quarterly dividend distributions to common stockholders. A non-variable, fixed management fee would enable the Company to more accurately forecast cash available for dividend distributions to common stockholders.

The fixed management fee proposed under the New Management Agreement is lower than the Base Management Fee under the Current Management Agreement. Under the Current Management Agreement the Adviser is paid a Base Management Fee at an annual rate of 1.75%, which is higher than the 1.375% fixed annual rate proposed under the New Management Agreement.

There have been no purchases or sales of securities of the Adviser since the beginning of the Company’s most recently completed fiscal year by any of the Directors of the Company. The Adviser is controlled through its general partner, Kayne Anderson Investment Management, Inc., by KA Holdings, Inc., the address of each of which is the same as that of the Adviser. By reason of their ownership of a majority of KA Holdings, Inc.’s voting shares, Richard A. Kayne and John E. Anderson may each be considered a controlling person of each of KA Holdings, Inc., Kayne Anderson Investment Management, Inc. and the Adviser.

The Company paid commissions to a broker-dealer affiliated with the Adviser (KA Associates, Inc.) but did not pay any fees, other than fees pursuant to the Current Management Agreement, to the Adviser or any of its affiliates during the fiscal year ended November 30, 2005. Commissions paid by the Company for the fiscal year ended November 30, 2005, to KA Associates, Inc. were paid pursuant to the requirements of Rule 17e-1 under the Investment Company Act of 1940, as amended, and the Company’s related procedures. Those commissions were also reported, reviewed and approved by the Company’s Board of Directors, including separately by its Independent Directors, at each quarterly meeting of that Board.

Matters Considered by the Board of Directors

To assist with its consideration of the New Management Agreement, the Board of Directors received various written materials at the meeting and at other times throughout the year, including (i) information on the advisory personnel of the Adviser, including compensation arrangements; (ii) information on the internal compliance procedures of the Adviser; (iii) comparative information showing how the Company’s proposed fee schedule and anticipated

operating expenses compare to other registered investment companies that follow investment strategies similar to those of the Company; (iv) information regarding brokerage and portfolio transactions; (v) comparative information showing how the Company's performance compares to other registered investment companies that follow investment strategies similar to those of the Company; and (vi) information on any legal proceedings or regulatory audits or investigations affecting the Adviser.

After receiving and reviewing these materials, the Board of Directors, at an in-person meeting held on September 14, 2006, discussed the terms of the New Management Agreement. Representatives from the Adviser attended the meeting and presented additional oral and written information to the Board of Directors to assist in its considerations. The Adviser also discussed its expected profitability from its relationship with the Company assuming the New Management Agreement was approved by the Board of Directors and Company stockholders compared to the Current Management Agreement. The Adviser also discussed various alternatives it would consider if the New Management Agreement is not approved. The Directors who are not parties to the New Management Agreement or interested persons (as defined in the 1940 Act) of any such party (the Independent Directors) also met in executive session to further discuss the terms of the New Management Agreement and the information provided by the Adviser.

The Independent Directors reviewed various factors, detailed information provided by the Adviser at the meeting and at other times throughout the year, and other relevant information and factors including the following, no single factor of which was dispositive in their decision whether to approve the New Management Agreement:

The nature, extent, and quality of the services to be provided by the Adviser

The Independent Directors considered the scope and quality of services that would be provided by the Adviser under the New Management Agreement and noted that the scope of services provided under the Current Management Agreement was identical to the scope of services to be provided under the New Management Agreement. The Independent Directors considered the quality of the investment research capabilities of the Adviser and the other resources the Adviser has dedicated to performing services for the Company. The quality of other services, including the Adviser's assistance in the coordination of the activities of some of the Company's other service providers, also was considered. The Independent Directors also considered the nature and quality of the services provided by the Adviser to the Company in light of their experience as Directors of the Company and another investment company managed by the Adviser, their confidence in the Adviser's integrity and competence gained from that experience and the Adviser's responsiveness to questions or concerns raised by them in the past. The Independent Directors concluded that the Adviser has the quality and depth of personnel and investment methods essential to performing its duties under the New Management Agreement and that the nature and the proposed cost of such advisory services are fair and reasonable in light of the services provided.

The Company's performance under the management of the Adviser

The Independent Directors reviewed information pertaining to the performance of the Company. This data compared the Company's performance to the performance of certain other registered investment companies that follow investment strategies similar to those of the Company. The comparative information showed that the performance of the Company compares favorably to other similar funds. The Independent Directors also considered the fact that the Company has historically outperformed the Benchmark for a majority of the relevant periods. Based upon their review, the Independent Directors concluded that the Company's investment

performance over time has been consistently above average. The Independent Directors noted that in addition to the information received for this meeting, the Independent Directors also receive detailed performance information for the Company at each regular Board of Directors meeting during the year. The Independent Directors did consider the investment performance of another investment company managed by the Adviser but did not consider the performance of other accounts of the Adviser as there were no accounts similar enough to be relevant.

The costs of the services to be provided by the Adviser and the profits to be realized by the Adviser and its affiliates from the relationship with the Company

The Independent Directors then considered the costs of the services provided by the Adviser, recognizing that it is difficult to make comparisons of profitability from investment advisory contracts. The Independent Directors considered that the Adviser's relationship with the Company is one of its significant sources of revenue. The Independent Directors considered certain benefits the Adviser realizes due to its relationship with the Company. In particular, they noted that the Adviser has soft dollar arrangements under which certain brokers may provide industry research to the Adviser's portfolio managers through the use of a portion of the brokerage commissions generated from the Adviser's trading activities on behalf of the Company. The Independent Directors acknowledged that the Company's stockholders also benefit from these soft dollar arrangements because the Adviser is able to receive this research, which is used in the management of the Company's portfolio, by aggregating securities trades.

The Independent Directors considered other benefits relating to the relationship between the Adviser and the Company, such as the brokerage commissions paid by the Company to KA Associates, Inc.

The Independent Directors also considered what the Company's management fee would be under the New Management Agreement in comparison to the management fees of funds within the Company's peer group and believed such comparisons to be acceptable to the Company, particularly because of the potential decrease in the fee under the New Management Agreement compared to the Current Management Agreement. One significant justification for a higher fee for the Company compared to certain of its peer funds is the greater investment in private transactions by the Company, which are viewed as potentially more complex and difficult.

The extent to which economies of scale would be realized as the Company grows and whether fee levels reflect these economies of scale for the benefit of stockholders

The Independent Directors also considered possible economies of scale that the Adviser could achieve in its management of the Company. They considered the anticipated asset levels of the Company, the information provided by the Adviser relating to its estimated costs, and information comparing the fee rate to be charged by the Adviser with fee rates charged by other unaffiliated investment advisers to their investment company clients. The Independent Directors also considered the Adviser's commitment to increasing staff devoted to managing the Company as the assets of the Company increase, and its commitment to retaining its current professional staff in a competitive environment for investment professionals. The Independent Directors concluded that the fee structure was reasonable in view of the information provided by the Adviser. The Independent Directors also noted that the fee structure currently does not provide for a sharing of any economies of scale that might be experienced in the current environment.

In determining whether to approve the New Management Agreement and recommend its approval to stockholders, the Board of Directors drew the following further conclusions:

The Board of Directors concluded that, based on the materials presented to them and the discussions the Board of Directors had with representatives of the Adviser and the Company's service providers, the fixed quarterly management fee under the New Management Agreement of an annual rate of 1.375% of the Company's average total assets for the past quarter would help eliminate the confusion and unpredictability associated with the Performance Adjustment under the Current Management Agreement and eliminate the possibility of stockholders or the Adviser experiencing either inordinately high or low management fees unrelated to more recent performance or absolute performance levels. The Board determined that the management fee of 1.375% of average total assets under the New Management Agreement is fair and reasonable, based in part on the favorable comparison to the average management fee paid under the Current Management Agreement following the initial 12 months of the Company's operations. The management fee under the New Management Agreement is significantly lower (0.575% lower) than the average management fee that the Company has paid for the period following the initial 12-month period under the Current Management Agreement, which was an average annual rate of 1.950% of average total assets. The Board of Directors concluded that the New Management Agreement is in the best interests of stockholders in light of the favorable performance of the Company under the Adviser's management and in view of the proposed management fee under the New Management Agreement in comparison to those charged by other funds in the Company's peer group.

Vote Required

Approval of the New Management Agreement requires the affirmative vote of the lesser of (i) of 67% or more of the shares present at the meeting, if the holders of more than 50% of the shares are present or represented by proxy; or (ii) of more than 50% of the shares.

THIS AMENDED AND RESTATED INVESTMENT MANAGEMENT AGREEMENT (this Agreement) is made as of the [] day of [], 2006, by and between Kayne Anderson MLP Investment Company, a Maryland corporation (hereinafter called the Company), and Kayne Anderson Capital Advisors, L.P., a California limited partnership (hereinafter called the Manager).

WITNESSETH:

WHEREAS, the Company is a non-diversified, closed-end management investment company, registered as such under the Investment Company Act of 1940, as amended (the 1940 Act);

WHEREAS, the Manager is registered as an investment adviser under the Investment Advisers Act of 1940, as amended, and is engaged in the business of supplying investment advice, investment management and administrative services, as an independent contractor;

WHEREAS, the Company desires to retain the Manager to render advice and services to the Company pursuant to the terms and provisions of this Agreement, and the Manager is interested in furnishing said advice and services; and

WHEREAS, the Company and the Manager previously entered into that certain Investment Management Agreement dated as of September 27, 2004 (the Original Agreement) and each now desires that the Original Agreement be replaced and superseded in its entirety by this Agreement;

NOW, THEREFORE, in consideration of the covenants and the mutual promises hereinafter set forth, the parties hereto, intending to be legally bound hereby, mutually agree as follows:

1. Appointment of Manager. The Company hereby employs the Manager and the Manager hereby accepts such employment, to render investment advice and management services with respect to the assets of the Company for the period and on the terms set forth in this Agreement, subject to the supervision and direction of the Company's Board of Directors (the Board).

2. Duties of Manager.

(a) General Duties. The Manager shall act as investment manager to the Company and shall supervise investments of the Company in accordance with the investment objectives, programs and restrictions of the Company as provided in the Company's governing documents, including, without limitation, the Company's Charter and Bylaws, or otherwise and such other limitations as the Board may impose from time to time in writing to the Manager. Without limiting the generality of the foregoing, the Manager shall: (i) furnish the Company with advice and recommendations with respect to the investment of the Company's assets and

the purchase and sale of portfolio securities for the Company, including the taking of such other steps as may be necessary to implement such advice and recommendations; (ii) furnish the Company with reports, statements and other data on securities, economic conditions and other pertinent subjects which the Board may reasonably request; (iii) manage the investments of the Company, subject to the ultimate supervision and direction of the Board; (iv) provide persons satisfactory to the Board to act as officers and employees of the Company (such officers and employees, as well as certain directors, may be directors, officers, partners, or employees of the Manager or its affiliates); and (v) render to the Board such periodic and special reports with respect to the Company's investment activities as the Board may reasonably request.

(b) Brokerage. The Manager shall place orders for the purchase and sale of securities either directly with the issuer or with a broker or dealer selected by the Manager. In placing the Company's securities trades, it is recognized that the Manager will give primary consideration to securing the most favorable price and efficient execution, so that the Company's total cost or proceeds in each transaction will be the most favorable under all the circumstances. Within the framework of this policy, the Manager may consider the financial responsibility, research and investment information, and other services provided by brokers or dealers who may effect or be a party to any such transaction or other transactions to which other clients of the Manager may be a party.

It is also understood that it is desirable for the Company that the Manager have access to investment and market research and securities and economic analyses provided by brokers and others. It is also understood that brokers providing such services may execute brokerage transactions at a higher cost to the Company than might result from the allocation of brokerage to other brokers on the basis of seeking the most favorable price and efficient execution. Therefore, the purchase and sale of securities for the Company may be made with brokers who provide such research and analysis, subject to review by the Board from time to time with respect to the extent and continuation of this practice to determine whether the Company benefits, directly or indirectly, from such practice. It is understood by both parties that the Manager may select broker-dealers for the execution of the Company's portfolio transactions who provide research and analysis as the Manager may lawfully and appropriately use in its investment management and advisory capacities, whether or not such research and analysis may also be useful to the Manager in connection with its services to other clients.

On occasions when the Manager deems the purchase or sale of a security to be in the best interest of the Company as well as of other clients, the Manager, to the extent permitted by applicable laws and regulations, may aggregate the securities to be so purchased or sold in order to obtain the most favorable price or lower brokerage commissions and the most efficient execution. In such event, allocation of the securities so purchased or sold, as well as the expenses incurred in the transaction, will be made by the Manager in the manner it considers to be the most equitable and consistent with its fiduciary obligations to the Company and to such other clients.

(c) Administrative Services. The Manager shall oversee the administration of the Company's business and affairs although the provision of administrative services, to the extent not covered by subparagraphs (a) or (b) above, is not the obligation of the Manager under this Agreement. Notwithstanding any other provisions of this Agreement, the Manager shall be entitled to reimbursement from the Company for all or a portion of the reasonable costs and expenses, including salary, associated with the provision by Manager of personnel to render administrative services to the Company.

3. Best Efforts and Judgment. The Manager shall use its best judgment and efforts in rendering the advice and services to the Company as contemplated by this Agreement.

4. Independent Contractor. The Manager shall, for all purposes herein, be deemed to be an independent contractor, and shall, unless otherwise expressly provided and authorized to do so, have no authority to act for or represent the Company in any way, or in any way be deemed an agent for the Company. It is expressly understood and agreed that the services to be rendered by the Manager to the Company under the provisions of this Agreement are not to be deemed exclusive, and the Manager shall be free to render similar or different services to others so long as its ability to render the services provided for in this Agreement shall not be impaired thereby.

5. Manager's Personnel. The Manager shall, at its own expense, maintain such staff and employ or retain such personnel and consult with such other persons as it shall from time to time determine to be necessary to the performance of its obligations under this Agreement. Without limiting the generality of the foregoing, the staff and personnel of the Manager shall be deemed to include persons employed or retained by the Manager to furnish statistical information, research, and other factual information, advice regarding economic factors and trends, information with respect to technical and scientific developments, and such other information, advice and assistance as the Manager or the Board may desire and reasonably request.

6. Reports by Company to Manager. The Company will from time to time furnish to the Manager detailed statements of its investments and assets, and information as to its investment objective and needs, and will make available to the Manager such financial reports, proxy statements, legal and other information relating to the Company's investments as may be in its possession or available to it, together with such other information as the Manager may reasonably request.

7. Expenses.

(a) With respect to the operation of the Company, the Manager is responsible for (i) the compensation of any of the Company's directors, officers, and employees who are affiliates of the Manager (but not the compensation of employees performing services in connection with expenses which are the Company's responsibility under Subparagraph 7(b) below) and (ii) providing office space and equipment reasonably necessary for the operation of the Company.

(b) The Company is responsible for and has assumed the obligation for payment of all of its expenses, other than as stated in Subparagraph 7(a) above, including but not limited to: fees and expenses incurred in connection with the issuance, registration and transfer of its shares; brokerage and commission expenses; all expenses of transfer, receipt, safekeeping, servicing and accounting for the cash, securities and other property of the Company, including all fees and expenses of its custodian, stockholder services agent and accounting services agent; interest charges on any borrowings; costs and expenses of pricing and calculating its net asset value and of maintaining its books of account required under the 1940 Act; exchange listing fees; taxes, if any; expenditures in connection with meetings of the Company's stockholders and Board that are properly payable by the Company; salaries and expenses of officers and fees and expenses of directors or members of any advisory board or committee who are not members of, affiliated with or interested persons of the Manager; expenses of the Manager or of the Company's directors, officers, and employees, including those who are affiliates of the Manager,

reasonably incurred in connection with arranging, structuring or administering proposed and existing investments for the Company, which may be allocated to the Company on an equitable basis; insurance premiums on property or personnel of the Company which inure to its benefit, including liability and fidelity bond insurance; the cost of preparing and printing reports, proxy statements, prospectuses and statements of additional information of the Company or other communications for distribution to existing stockholders; legal, auditing and accounting fees; trade association dues; fees and expenses (including legal fees) of registering and maintaining registration of its shares for sale under federal and applicable state and foreign securities laws; all expenses of maintaining and servicing stockholder accounts, including all charges for transfer, stockholder recordkeeping, dividend disbursing, redemption, and other agents for the benefit of the Company, if any; and all other charges and costs of its operation plus any extraordinary and non-recurring expenses, except as herein otherwise prescribed.

(c) To the extent the Manager incurs any costs by assuming expenses which are an obligation of the Company as set forth herein, the Company shall promptly reimburse the Manager for such costs and expenses, except to the extent the Manager has otherwise agreed to bear such expenses. To the extent the services for which the Company is obligated to pay are performed by the Manager, the Manager shall be entitled to recover from the Company to the extent of the Manager's actual costs for providing such services.

8. Investment Advisory and Management Fee.

(a) The Company shall pay to the Manager, and the Manager agrees to accept, as full compensation for all administrative and investment management and advisory services furnished or provided to the Company pursuant to this Agreement, a management fee, computed and paid quarterly at an annual rate of 1.375% of the total assets of the Company for such quarter.

(b) Total assets for each quarterly period will be determined by averaging the total assets at the last day of that quarter with the total assets at the last day of the prior quarter (or as of the effective date of the Agreement). The Company's total assets shall be equal to the Company's average quarterly gross asset value (which includes assets attributable to or proceeds from the Company's use of preferred stock, commercial paper or notes issuances and other borrowings), minus the sum of the Company's accrued and unpaid dividends on any outstanding common stock and accrued and unpaid dividends on any outstanding preferred stock and accrued liabilities (other than liabilities associated with borrowing or leverage by the Company and any accrued taxes). Liabilities associated with borrowing or leverage by the Company include the principal amount of any borrowings, commercial paper or notes issued by the Company, the liquidation preference of any outstanding preferred stock, and other liabilities from other forms of borrowing or leverage such as short positions and put or call options held or written by the Company.

(c) The management fee may be amended in writing from time to time by the Company and the Manager.

(d) The Manager may reduce any portion of the compensation or reimbursement of expenses due to it pursuant to this Agreement and may agree to make payments to limit the expenses which are the responsibility of the Company under this Agreement. Any such reduction or payment shall be applicable only to such specific reduction or payment and shall not constitute an agreement to reduce any future compensation or

reimbursement due to the Manager hereunder or to continue future payments. Any such reduction will be agreed to prior to accrual of the related expense or fee and will be estimated daily and reconciled and paid on a quarterly basis. Any fee withheld pursuant to this paragraph from the Manager shall be reimbursed by the Company to the Manager in the first, second or third (or any combination thereof) fiscal year next succeeding the fiscal year of the reduction to the extent approved by the Company's disinterested directors. The Manager may not request or receive reimbursement for prior reductions or reimbursements before payment of the Company's operating expenses for the current year and cannot cause the Company to exceed any more restrictive limitation to which the Manager has agreed in making such reimbursement.

(e) The Manager may agree not to require payment of any portion of the compensation or reimbursement of expenses otherwise due to it pursuant to this Agreement prior to the time such compensation or reimbursement has accrued as a liability of the Company. Any such agreement shall be applicable only with respect to the specific items covered thereby and shall not constitute an agreement not to require payment of any future compensation or reimbursement due to the Manager hereunder.

9. Conflicts with Company's Governing Documents and Applicable Laws. Nothing herein contained shall be deemed to require the Company to take any action contrary to the Company's Charter, Bylaws, or any applicable statute or regulation, or to relieve or deprive the Board of its responsibility for and control of the conduct of the affairs of the Company.

10. Manager's Liabilities.

(a) In the absence of willful misfeasance, bad faith, gross negligence, or reckless disregard of the obligations or duties hereunder on the part of the Manager, the Manager shall not be subject to liability to the Company or to any stockholder of the Company for any act or omission in the course of, or connected with, rendering services hereunder or for any losses that may be sustained in the purchase, holding or sale of any security by the Company.

(b) The Company shall indemnify and hold harmless the Manager and the partners, members, officers and employees of the Manager and its general partner (any such person, an Indemnified Party) against any loss, liability, claim, damage or expense (including the reasonable cost of investigating and defending any alleged loss, liability, claim, damage or expenses and reasonable counsel fees incurred in connection therewith) arising out of the Indemnified Party's performance or non-performance of any duties under this Agreement provided, however, that nothing herein shall be deemed to protect any Indemnified Party against any liability to which such Indemnified Party would otherwise be subject by reason of willful misfeasance, bad faith or gross negligence in the performance of duties hereunder or by reason of reckless disregard of obligations and duties under this Agreement.

(c) No provision of this Agreement shall be construed to protect any director or officer of the Company, or officer of the Manager (or its managers), from liability in violation of Sections 17(h) and (i) of the 1940 Act.

11. Non-Exclusivity. The Company's employment of the Manager is not an exclusive arrangement, and the Company may from time to time employ other individuals or entities to furnish it with the services provided for herein.

12. Consent To The Use Of Name. The Manager hereby consents to the use by the Company of the name Kayne Anderson as part of the Company's name; provided, however, that such consent shall be conditioned upon the employment of the Manager or one of its affiliates as the investment adviser of the Company. The name Kayne Anderson or any variation thereof may be used from time to time in other connections and for other purposes by the Manager and its affiliates and other investment companies that have obtained consent to the use of the name Kayne Anderson. The Manager shall have the right to require the Company to cease using the name Kayne Anderson as part of the Company's name if the Company ceases, for any reason, to employ the Manager or one of its affiliates as the Company's investment adviser. Future names adopted by the Company for itself, insofar as such names include identifying words requiring the consent of the Manager, shall be the property of the Manager and shall be subject to the same terms and conditions.
