**PROXY STATEMENT
FOR THE 2007 ANNUAL MEETING OF STOCKHOLDERS**

INFORMATION CONCERNING SOLICITATION AND VOTING

General

The accompanying Proxy is solicited on behalf of the Board of Directors (the Board) of IRIDEX Corporation, a Delaware corporation (the Company or IRIDEX), for use at the Annual Meeting of Stockholders (the Annual Meeting) to be held at the principal executive offices of the Company located at 1212 Terra Bella Avenue, Mountain View, California 94043 on Thursday, June 7, 2007, at 10:00 a.m., Pacific Daylight Savings Time, and at any adjournment(s) thereof, for the purposes set forth herein and in the accompanying Notice of Annual Meeting of Stockholders. The Company's telephone number is (650) 940-4700.

These proxy solicitation materials and the Annual Report on Form 10-K for the fiscal year ended December 30, 2006, including financial statements, were mailed on or about April 27, 2007 to all stockholders entitled to vote at the meeting.

Record Date and Share Ownership

Stockholders of record at the close of business on April 9, 2007 (the Record Date) are entitled to notice of and to vote at the meeting and at any adjournment(s) thereof. At the Record Date, 8,192,787 shares of the Company's Common Stock, par value \$0.01 per share, were issued and outstanding and held of record by approximately sixty-six (66) stockholders.

Revocability of Proxies

Any proxy given pursuant to this solicitation may be revoked by the person giving it at any time before its use by (a) delivering to the Company at its principal offices to the attention of the Company's Chief Financial Officer a written notice of revocation or a duly executed proxy bearing a later date or (b) attending the meeting and voting in person.

Voting

Each stockholder is entitled to one vote for each share of Common Stock held by such stockholder. Holders of the Company's Common Stock are the only security holders of the Company entitled to vote at the Annual Meeting. The stockholders may not cumulate votes in the election of directors.

Solicitation of Proxies

The cost of this solicitation will be borne by the Company. The Company has retained the services of The Proxy Advisory Group, LLC (the Agent) to perform a search of brokers, bank nominees and other institutional owners and to solicit proxies. The Company estimates that it will pay the Agent a fee of \$10,000

Table of Contents

for its services and out-of-pocket expenses. In addition, the Company may reimburse brokerage firms and other persons representing beneficial owners of shares for their expenses in forwarding solicitation material to such beneficial owners. Proxies may also be solicited by certain of the Company's directors, officers and regular employees, without additional compensation, personally or by telephone or other electronic means.

Quorum; Abstentions; Broker Non-Votes

Votes cast by a properly submitted proxy card, or voted by telephone or by using the Internet or in person at the Annual Meeting will be tabulated by the Inspector of Elections (the Inspector). Holders of a majority of shares entitled to vote must be present at the meeting or represented by a properly submitted proxy card, or voted by telephone or by using the Internet in order for a quorum to exist. The Inspector will also determine whether or not a quorum is present. Except with respect to the Election of Directors under Proposal One, which will be decided by a plurality vote of the votes duly cast at a duly held meeting at which a quorum is present, the affirmative vote of a majority of the votes duly cast at a duly held meeting at which a quorum is present is required under Delaware law and the Company's Bylaws for approval of all proposals presented to stockholders.

Shares that are timely voted by telephone, the Internet or a properly dated, executed and returned proxy card will be voted at the Annual Meeting in accordance with the instructions of the stockholder. If no specific instructions are given, the shares will be voted (i) FOR the election of the nominees for directors set forth herein; (ii) FOR the approval of the amended and restated 1998 Stock Plan; (iii) FOR the ratification of PricewaterhouseCoopers LLP as the independent registered public accounting firm of the Company for the fiscal year ending December 29, 2007; and (iv) in the proxy holder's discretion, upon such other business as may properly come before the Annual Meeting or any adjournment thereof.

Pursuant to Delaware law, the Inspector will treat shares that are voted FOR, AGAINST, WITHHELD or ABSTAIN as being present and entitled to vote for purposes of determining the presence of a quorum and as shares entitled to vote (the Votes Cast) on the subject matter at the Annual Meeting with respect to such matter. With respect to broker non-votes, although broker non-votes will be counted for purposes of determining the presence or absence of a quorum for the transaction of business, broker non-votes will not be counted for purposes of determining the number of Votes Cast with respect to the particular proposal on which the broker has expressly not voted and, accordingly, will not affect the determination as to whether the requisite majority of Votes Cast has been obtained with respect to a particular matter.

If you hold your shares through a broker, bank or other nominee and you do not instruct them how to vote, your broker, bank or other nominee may have authority to vote your shares on your behalf.

Deadline for Receipt of Stockholder Proposals to be Presented at the Next Annual Meeting

Stockholders of the Company may submit proposals on matters appropriate for stockholder action at meetings of the Company's stockholders, including nominations for the election of directors, in accordance with Rule 14a-8 promulgated under the Securities Exchange Act of 1934, as amended (the Exchange Act). The deadline for submitting all proposals by any stockholder to be presented at the 2008 Annual Meeting of Stockholders must be received by the Company at its principal executive offices, attention: Secretary, no later than December 29, 2007 and must otherwise be in compliance with applicable laws and regulations in order to be considered for inclusion in the proxy statement and form of proxy relating to that meeting.

In addition, the Company's Bylaws establish an advance notice procedure with regard to certain matters, including stockholder proposals not included in the Company's proxy statement, to be brought before an annual meeting of stockholders. To be properly brought before an annual meeting of stockholders outside the processes of Rule 14a-8, notice of nominations for the election of directors or other business proposals

must be delivered in writing to the Secretary of the Company at the principal executive offices of the Company no later than December 29, 2007. If a stockholder intends to submit a proposal at the Company's 2008 Annual Meeting of Stockholders which is not eligible for inclusion in the proxy statement relating to the meeting, and the stockholder fails to give the Company notice of the proposal on or prior to December 29, 2007 and in accordance with the requirements set forth in the Exchange Act, then the proxy holders will be allowed to use their discretionary authority with regard to proxies delivered in connection with the 2008 Annual Meeting of Stockholders when and if the proposal is raised at the Company's Annual Meeting in 2008.

No member of the Compensation and Nominating Committee had any relationship requiring disclosure by the Company under any paragraph of Item 404 (§229.404). No member of the Compensation and Nominating Committee or executive officer of the Company serves as a member of the board of directors or compensation committee of any entity that has one or more executive officers serving as a member of the Company's Board or its Compensation and Nominating Committee.

Director Compensation

Members of the Board of Directors (if non-employees) receive \$1,500 per Board meeting attended. The Chairman of the Board (if non-employees) receives \$2,000 per Board meeting attended. Members of the Audit and Corporate Governance Committee and the Compensation and Nominating Committee receive \$1,000 per committee meeting attended, and the Chairman of each of these committees receives \$1,500 per committee meeting attended. In addition, directors are also reimbursed for reasonable out-of-pocket expenses incurred by them in attending such meetings.

The Company's 1995 Director Option Plan (the "Director Plan") was adopted by the Board in October 1995, approved by the stockholders in January 1996 and expired in October 2005. As of April 9, 2007, options issued under the Director Plan to purchase 97,500 shares remained outstanding and subject to the terms and conditions of such plan. The Director Plan provided for the automatic and nondiscretionary grant of a nonstatutory stock option to purchase 11,250 shares of the Company's Common Stock to each non-employee director on the date on which such person first becomes a director (the "First Option"). The First Option becomes exercisable as to one-twelfth (1/12) of the shares subject to the option each quarter and vests over a three-year period. Thereafter, each non-employee director was automatically granted an option to purchase 3,750 shares of Common Stock on July 1st of each year, if on such date he or she had served on the Board for at least six months (the "Subsequent Option"). The Subsequent Option becomes exercisable as to one-fourth (1/4) of the shares subject to the option each quarter, commencing one quarter after the First Option and any previously granted Subsequent Option have become fully exercisable. The Director Plan

Table of Contents

provided that the exercise price of options granted thereunder be equal to the fair market value of the Company's Common Stock as of the date of grant.

The 1998 Stock Plan was adopted by the Board in February 1998 and was approved by the stockholders in June 1998. The 1998 Plan, as amended provides for the grant of the following types of incentive awards: (i) stock options; (ii) stock appreciation rights; (iii) restricted stock, (iv) restricted stock units, and (v) performance units and performance shares to employees, directors and consultants of the Company. With the recent expiration of the Company's Director Option Plan, the Company anticipates that future equity compensation granted to the Company's non-employee directors will be granted under the 1998 Stock Plan. The Company plans to grant nonstatutory stock options to purchase 15,000 shares of the Company's Common Stock to each non-employee director upon such person first becoming a director, and grant an additional nonstatutory stock option to purchase 5,000 shares of the Company's Common Stock to each non-employee director each year thereafter. Such options will have an exercise price equal to the fair market value of the Company's Common Stock as of the date of grant.

On July 1, 2006, Drs. Garrettson and Hammond and Messrs. Anderson and Fitch each received automatic and non-discretionary grants of nonstatutory stock options to purchase 5,000 shares of the Company's Common Stock under the 1998 Stock Plan as compensation for their services as directors. These stock options were granted with an exercise price of \$9.79 per share, are subject to vesting as described in the previous paragraph and have a term of 7 years.

Attendance at Annual Stockholder Meetings by the Board of Directors. The Company has adopted a formal policy regarding attendance by members of the Board at the Company's annual meeting of stockholders. The Company's policy is that it encourages, but does not require, directors to attend. Messrs. Anderson, Boutacoff, Caldwell, Donovan, Fitch and Garrettson attended the Company's 2006 Annual Meeting of Stockholders.

Process for Recommending Candidates for Election to the Board of Directors. The Compensation and Nominating Committee is responsible for, among other things, determining the criteria for membership to the Board and recommending candidates for election to the Board. It is the policy of the Committee to consider recommendations for candidates to the Board from stockholders. Stockholder recommendations for candidates to the Board must be directed in writing to IRIDEX Corporation, Corporate Secretary, 1212 Terra Bella Avenue, Mountain View, CA 94043 and must include the candidate's name, home and business contact information, detailed biographical data and qualifications, information regarding any relationships between the candidate and the Company within the last three years, and evidence of the nominating person's ownership of the Company's Common Stock.

The Compensation and Nominating Committee's general criteria and process for evaluating and identifying the candidates that it recommends to the full Board for selection as director nominees, are as follows:

The Compensation and Nominating Committee regularly reviews the current composition and size of the Board.

Table of Contents

In its evaluation of director candidates, including the members of the Board eligible for re-election, the Compensation and Nominating Committee seeks to achieve a balance of knowledge, experience and capability on the Board and considers (1) the current size and composition of the Board and the needs of the Board and the respective committees of the Board, (2) such factors as issues of character, judgment, diversity, age, expertise, business experience, length of service, independence, other commitments, and (3) such other factors as the Compensation and Nominating Committee may consider appropriate.

While the Compensation and Nominating Committee has not established specific minimum qualifications for director candidates, the Compensation and Nominating Committee believes that candidates and nominees must reflect a Board of Directors that is comprised of directors who (1) are predominantly independent, (2) are of high integrity, (3) have qualifications that will increase overall Board of Directors effectiveness and (4) meet other requirements as may be required by applicable rules, such as financial literacy or financial expertise with respect to audit and corporate governance committee members.

In evaluating and identifying candidates, the Compensation and Nominating Committee has the authority to retain and terminate any third-party search firm that is used to identify director candidates, and has the authority to approve the fees and retention terms of any such firm.

With regard to candidates who are properly recommended by stockholders or by other means, the Compensation and Nominating Committee will review the qualifications of any such candidate, which review may, in the Compensation and Nominating Committee's discretion, include interviewing references for the candidate, direct interviews with the candidate, or other actions that the Compensation and Nominating Committee deems necessary or proper.

The Compensation and Nominating Committee will apply these same principles when evaluating Board of Directors candidates who may be elected initially by the full Board of Directors to fill vacancies or add additional directors prior to the annual meeting of stockholders at which directors are elected.

After such review and consideration, the Compensation and Nominating Committee selects, or recommends that the Board of Directors selects the slate of director nominees, either at a meeting of the Compensation and Nominating Committee at which a quorum is present or by unanimous written consent of the Compensation and Nominating Committee.

- (2) Includes 458,673 options available for future issuance under the 1998 Stock Plan and 12,948 shares issuable under the 2005 Employee Stock Purchase Plan.
- (3) Consists of three items. The first is a Stand-Alone Option granted to Barry G. Caldwell on July 5, 2005, entitling Mr. Caldwell to purchase up to 234,104 shares of the

Company's common stock at an exercise price of \$6.07 per share, issued as a stand-alone option, outside of the Company's existing stock plans and as a material inducement to Mr. Caldwell accepting employment with the Company. The shares covered by the Stand-Alone Option vest over a four (4) year period, with 1/4th of the total number of shares subject to the Stand-Alone Option vesting on July 5, 2006 and 1/48th of the total number of shares subject to the Stand-Alone Option vesting each full month thereafter, provided that Mr. Caldwell continues to be a service provider to the Company on each such date.

The second item is a warrant issued on July 5, 2005, in conjunction with the

The third item is a stand-alone option granted outside of the Company's existing stock plans to Deborah Tomasco, the Company's Vice President of Product Innovation. The option entitles Ms. Tomasco to purchase up to 50,000 shares of the Company's common stock at an exercise price of \$8.26 per share, issued as a stand-alone option, outside of the Company's existing stock plans and as a material inducement to Ms. Tomasco accepting employment with the Company. The shares covered by the Stand-Alone Option vest over a four (4) year period, with 1/4th of the total number of shares subject to the Stand-Alone Option vesting on March 15, 2007 and 1/48th of the total

number of shares subject to the Stand-Alone Option vesting each full month thereafter, provided that Ms. Tomasco continues to be a service provider to the Company on each such date.

Each of the stand-alone options granted to Barry Caldwell and Deborah Tomasco and the warrant issued to Paul Gomory remain outstanding as of April 9, 2007. The weighted average price of the stand-alone options granted to Mr. Caldwell and Ms. Tomasco was \$6.46. The term of the stand-alone options was ten years, so Mr. Caldwell's stand-alone options will terminate on July 5, 2015 and Ms. Tomasco's options will terminate on March 15, 2013.

PROPOSAL TWO

APPROVAL OF AMENDMENT TO THE AMENDED AND RESTATED 1998 STOCK PLAN

The stockholders are being asked to approve an amendment to the Company's amended and restated 1998 Stock Plan (the Plan) to add 150,000 shares to the total number of shares reserved for issuance under the Plan. The Company's Board of Directors (the Board) believes that approval of the amendment is essential to the Company's continued success as the additional shares will enable the Company to continue to use the Plan to achieve its employee performance, recruiting, retention and incentive goals.

The Board and management believe that equity awards motivate high levels of performance, align the interests of employees and stockholders by giving employees the perspective of an owner with an equity stake in the Company, and provide an effective means of recognizing employee contributions to the success of the Company. The Board and management believe that equity awards are a competitive necessity in our high-technology industry, and are essential to recruiting and retaining the highly qualified technical and other key personnel who help the Company meet its goals, as well as rewarding and encouraging current employees. The Board and management believe that the ability to continue to grant equity awards will be important to the future success of the Company.

The Plan does not have an evergreen provision that provides for an automatic increase in the number of the shares available for issuance each year. If stockholders approve the amendment to the Plan, we currently anticipate that we will not ask stockholders for additional shares for issuance under the Plan until at least the 2008 Annual Meeting, depending on business conditions and needs.

Approval of the Plan amendment requires the affirmative vote of the holders of a majority of the shares of the Company's common stock that are present in person or by proxy and entitled to vote at the Annual Meeting. If stockholders do not approve the amendment to the Plan, no shares will be added to the total number of shares reserved for issuance under the Plan. Our named executive officers and directors have an interest in this proposal.

Summary of the Amended and Restated 1998 Stock Plan

The following paragraphs provide a summary of the principal features of the Plan and its operation. The following summary is qualified in its entirety by reference to the Plan, a copy of which is available in its entirety in the proxy materials located at the SEC Filings link on the Investor Relations page of our website at www.iridex.com.

The Plan provides for the grant of the following types of incentive awards: (i) stock options; (ii) stock appreciation rights; (iii) restricted stock, (iv) restricted stock units, and (v) performance units and performance shares, which are referred to individually as an Award. Those who will be eligible for Awards under the plan include employees, directors and consultants who provide services to the Company and its parent and subsidiary companies.

As of April 9, 2007, approximately 183 employees, directors and consultants were eligible to participate in the Plan.

Number of Shares of Common Stock Available Under the Plan. If stockholders approve Proposal 2, a total of 2,200,000 shares of the Company's Common Stock will be reserved for issuance under the Plan. As of April 9, 2007, 1,382,701 shares were subject to outstanding Awards granted under the Plan, with a weighted average exercise price of \$5.96 per share and weighted average term of 6.02 years, and 234,358

Table of Contents

shares remained available for any new Awards to be granted in the future. In addition, any shares subject to awards of restricted stock, restricted stock units, performance shares or performance units granted with an exercise price less than the fair market value on the date of grant will be counted against the share reserve as 1 $\frac{1}{2}$ shares for every one share subject to such award. Further, to the extent that a share that was subject to an award that counted as 1 $\frac{1}{2}$ shares against the Plan reserve pursuant to the preceding sentence is recycled back into the Plan, the Plan will be credited with 1 $\frac{1}{2}$ shares that will thereafter be available for issuance under the Plan. On the Record Date, the closing price in The Nasdaq National Market for the Company's Common Stock was \$6.62 per share. The Company's non-employee directors and its executive officers named in the Summary Compensation Table have an interest in this proposal because they are eligible to participate in the Plan.

If we experience a stock split, reverse stock split, stock dividend, spin-off, combination or reclassification of our shares, or any other change or increase or decrease in the number of issued shares effected without our receipt of consideration (except for certain conversions of convertible securities) appropriate adjustments will be made, subject to any required action by the Company's stockholders, to the number of shares available for issuance under the Plan, the number of shares covered by each outstanding Award, the price per share covered by each outstanding Award, and the numerical per-person share limits for each type of Award, as appropriate to reflect the stock dividend or other change.

Administration of the Plan. A committee of at least two non-employee members of the Company's Board of Directors (the Committee) administers the Plan. To make grants to certain of our officers and key employees, the members of the Committee must qualify as non-employee directors under Rule 16b-3 of the Securities Exchange Act of 1934, and as outside directors under Section 162(m) of the Internal Revenue Code (so that the Company can receive a federal tax deduction for certain compensation paid under the Plan). Subject to the terms of the Plan, the Committee has the sole discretion to select the employees, consultants, and directors who will receive Awards, determine the terms and conditions of Awards, and interpret the provisions of the Plan and outstanding Awards. The Committee may delegate any part of its authority and powers under the Plan to one or more directors and/or officers of the Company, but only the Committee itself can make Awards to participants who are executive officers of the Company.

Options. The Committee is able to grant nonqualified stock options and incentive stock options under the Plan. The Committee will determine the number of shares subject to each option, but no participant will be able to be granted options covering more than 200,000 shares during any of the Company's fiscal years, except that a participant may be granted an option covering up to an additional 400,000 shares in connection with his or her initial service with the Company. The Committee will determine the exercise price of options granted under the Plan, provided the exercise price must at least be equal to the fair market value of the Company's common stock on the date of grant. In addition, the exercise price of an incentive stock option granted to any participant who owns more than 10% of the total voting power of all classes of the Company's outstanding stock must be at least 110% of the fair market value of the common stock on the grant date.

The term of an option may not exceed seven (7) years, except that with respect to any participant who owns 10% of the voting power of all classes of the Company's outstanding capital stock, the term of an incentive stock option may not exceed five (5) years.

After termination of service with the Company, a participant will be able to exercise the vested portion of his or her option for the period of time stated in the Award agreement. If no such period of time is stated in a participant's option agreement, a participant will generally be able to exercise his or her option for (i) three months following his or her termination for reasons other than death or disability, and (ii) one year following his or her termination due to death or disability. In no event will an option be able to be exercised later than the expiration of its term.

Table of Contents

Stock Appreciation Rights. The Committee may grant stock appreciation rights either alone or in tandem with stock options. A stock appreciation right is the right to receive the appreciation in fair market value of common stock between the exercise date and the date of grant. The Company can pay the appreciation in either cash or shares of common stock. Stock appreciation rights will become exercisable at the times and on the terms established by the Committee, subject to the terms of the Plan. No participant will be granted stock appreciation rights covering more than 200,000 shares during any fiscal year, except that a participant may be granted stock appreciation rights covering up to an additional 400,000 shares in connection with his or her initial service with the Company.

After termination of service with the Company, a participant will be able to exercise the vested portion of his or her stock appreciation right for the period of time stated in the Award agreement. If no such period of time is stated in a participant's award agreement, a participant will generally be able to exercise his or her stock appreciation right for (i) three months following his or her termination for reasons other than death or disability, and (ii) one year following his or her termination due to death or disability. In no event will a stock appreciation right be exercised later than the expiration of its term.

Restricted Stock. Awards of restricted stock are rights to acquire or purchase shares of Company common stock. Restricted stock vests in accordance with the terms and conditions established by the Committee in its sole discretion. For example, the Committee may set restrictions based on the achievement of specific performance goals. Awards of restricted stock may be issued either alone, in addition to, or in tandem with other Awards granted under the Plan and/or cash awards made outside of the Plan. The Award agreement will generally grant the Company a right to repurchase or reacquire the shares upon the termination of the participant's service with the Company for any reason (including death or disability). The Committee will determine the number of shares granted pursuant to an Award of restricted stock, but no participant will be granted a right to purchase or acquire more than 150,000 shares of common stock during any fiscal year, except that a participant may be granted up to an additional 150,000 shares of restricted stock in connection with his or her initial employment with the Company.

Restricted Stock Units. The Committee may also grant Awards of restricted stock units. Awards of restricted stock units are rights to acquire or purchase shares of Company common stock. Restricted stock units vest in accordance with the terms and conditions established by the Committee in its sole discretion. For example, the Committee may set restrictions based on the achievement of specific performance goals. Awards of restricted stock units may be issued either alone, in addition to, or in tandem with other Awards granted under the Plan and/or cash awards made outside of the Plan. The Committee will determine the number of units granted pursuant to an Award of restricted stock units, but no participant will be granted more than 150,000 units during any fiscal year, except that a participant may be granted up to an additional 150,000 units in connection with his or her initial employment with the Company.

Performance Units and Performance Shares. The Committee may grant performance units and performance shares, which are Awards that will result in a payment to a participant only if the performance goals or other vesting criteria the Committee may establish are achieved or the Awards otherwise vest. The Committee will establish organizational, individual performance goals or other vesting criteria in its discretion, which, depending on the extent to which they are met, will determine the number and/or the value of performance units and performance shares to be paid out to participants. No participant will receive performance units with an initial value greater than \$1,000,000 and no participant will receive more than 150,000 performance shares during any fiscal year, except that a participant may be granted performance shares covering up to an additional 150,000 shares in connection with his or her initial service with the Company. Performance units will have an initial dollar value established by the Committee prior to the grant date. Performance shares will have an initial value equal to the fair market value of a share of the Company's common stock on the grant date.

Table of Contents

Performance Goals. As determined by the Committee, the performance goals applicable to an Award may provide for a targeted level or levels of achievement using one or more of the following measures: (i) cash position; (ii) earnings per share; (iii) individual objectives; (iv) net income; (v) operating income; (vi) return on assets; (vii) return on equity; (viii) return on sales; (ix) revenue; and (x) total stockholder return. The performance goals may differ from participant to participant and from Award to Award and may be stated in absolute terms or relative to comparison companies or indices to be achieved during a period of time.

Transferability of Awards. The Plan generally will not allow for the transfer of Awards, and all rights with respect to an Award granted to a participant generally will be available during a participant's lifetime only to the participant.

Merger or Sale of Assets. In the event of our merger with or into another corporation, or the sale of all or substantially all of our assets, each outstanding Award will be assumed or substituted for by the successor corporation (or a parent or subsidiary or such successor corporation). If there is no assumption or substitution of outstanding Awards, the Committee will provide notice to the recipient that he or she has the right to exercise the option and stock appreciation right as to all of the shares subject to the Award, all restrictions on restricted stock will lapse, and all performance goals or other vesting requirements for performance shares and units will be deemed achieved, and all other terms and conditions met. In such event, the Committee shall notify the participant that the Award is fully exercisable for a period of time as the Committee may determine from the date of such notice and that the Award will terminate upon expiration of such period.

Amendment and Termination of the Plan. The Committee will have the authority to amend, suspend or terminate the Plan, except that stockholder approval will be required for any amendment to the plan to the extent required by any applicable law, regulation or stock exchange rule. Any amendment, suspension or termination will not, without the consent of the participant, materially adversely affect any rights or obligations under any Award previously granted.

Number of Awards Granted to Employees, Consultants, and Directors

The number of awards that an employee, director or consultant may receive under the Plan is in the discretion of the Committee and therefore cannot be determined in advance. To date, only stock options have been granted under the Plan. The following table sets forth (a) the aggregate number of shares subject to options granted under the Plan during the fiscal year ended December 30, 2006 and (b) the average per share exercise price of such options.

Federal Tax Aspects

The following paragraphs are a summary of the general federal income tax consequences to U.S. taxpayers and the Company of Awards granted under the Plan. Tax consequences for any particular individual may be different.

Nonqualified Stock Options. No taxable income is reportable when a nonqualified stock option with an exercise price equal to the fair market value of the Company's stock is granted to a participant. Upon exercise, the participant will recognize ordinary income in an amount equal to the excess of the fair market value (on the exercise date) of the shares purchased over the exercise price of the option. Any additional gain or loss recognized upon any later disposition of the shares would be capital gain or loss.

Incentive Stock Options. No taxable income is reportable when an incentive stock option is granted or exercised (except for purposes of the alternative minimum tax, in which case taxation is the same as for nonqualified stock options). If the participant exercises the option and then later sells or otherwise disposes of the shares more than two years after the grant date and more than one year after the exercise date, the difference between the sale price and the exercise price will be taxed as capital gain or loss. If the participant exercises the option and then later sells or otherwise disposes of the shares before the end of the two- or one-year holding periods described above, he or she generally will have ordinary income at the time of the sale equal to the fair market value of the shares on the exercise date (or the sale price, if less) minus the exercise price of the option.

Stock Appreciation Rights. No taxable income is reportable when a stock appreciation right is granted to a participant. Upon exercise, the participant will recognize ordinary income in an amount equal to the amount of cash received and the fair market value of any shares received. Any additional gain or loss recognized upon any later disposition of the shares would be capital gain or loss.

Restricted Stock, Restricted Stock Units, Performance Units and Performance Shares. A participant generally will not have taxable income at the time an Award of restricted stock, restricted stock units, performance shares or performance units are granted. Instead, he or she will recognize ordinary income in the first taxable year in which his or her interest in the shares underlying the Award becomes either (i) freely transferable or (ii) no longer subject to substantial risk of forfeiture. However, the recipient of a restricted stock Award may elect to recognize income at the time he or she receives the Award in an amount equal to the fair market value of the shares underlying the Award (less any cash paid for the shares) on the date the Award is granted.

Tax Effect for the Company. The Company generally will be entitled to a tax deduction in connection with an Award under the Plan in an amount equal to the ordinary income realized by a participant and at the time the participant recognizes such income (for example, the exercise of a nonqualified stock option). Special rules limit the deductibility of compensation paid to the Company's Chief Executive Officer and to each of its four most highly compensated executive officers. Under Section 162(m) of the Internal Revenue Code, the annual compensation paid to any of these specified executives will be deductible only to the extent

Table of Contents

that it does not exceed \$1,000,000. However, The Company can preserve the deductibility of certain compensation in excess of \$1,000,000 if the conditions of Section 162(m) are met. These conditions include stockholder approval of the Plan, setting limits on the number of Awards that any individual may receive and for Awards other than certain stock options, establishing performance criteria that must be met before the Award actually will vest or be paid. The Plan has been designed to permit the Committee to grant Awards that qualify as performance-based for purposes of satisfying the conditions of Section 162(m), thereby permitting the Company to continue to receive a federal income tax deduction in connection with such Awards.

THE FOREGOING IS ONLY A SUMMARY OF THE EFFECT OF FEDERAL INCOME TAXATION UPON PARTICIPANTS AND THE COMPANY WITH RESPECT TO THE GRANT AND EXERCISE OF AWARDS UNDER THE PLAN. IT DOES NOT PURPORT TO BE COMPLETE, AND DOES NOT DISCUSS THE TAX CONSEQUENCES OF A SERVICE PROVIDER'S DEATH OR THE PROVISIONS OF THE INCOME TAX LAWS OF ANY MUNICIPALITY, STATE OR FOREIGN COUNTRY IN WHICH THE SERVICE PROVIDER MAY RESIDE.

Required Vote

If a quorum is present, the affirmative vote of a majority of the Votes Cast will be required to approve the amendment of the Plan. Table of Contents**PROPOSAL THREE****RATIFICATION OF THE APPOINTMENT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTANTS****Introduction**

The Audit and Corporate Governance Committee has appointed PricewaterhouseCoopers LLP, independent registered public accountants, to audit the financial statements of the Company for the fiscal year ending December 29, 2007, and recommends that stockholders vote for ratification of such appointment. PricewaterhouseCoopers LLP also served as the Company's independent registered public accountants for the fiscal year ending December 30, 2006. Representatives of PricewaterhouseCoopers LLP are expected to be present at the meeting with the opportunity to make a statement if they desire to do so and are expected to be available to respond to appropriate questions.

Although action by stockholders is not required by law, the Board has determined that it is desirable to request approval of this selection by the stockholders. Notwithstanding the approval of this selection by the stockholders, the Audit and Corporate Governance Committee, in its discretion, may direct the appointment of a new independent registered public accounting firm at any time during the year, if the Audit and Corporate Governance Committee feels that such a change would be in the best interest of the Company and its stockholders. In the event of a negative vote on ratification, the Audit and Corporate Governance Committee will reconsider its selection.

Fees Billed To Company By PricewaterhouseCoopers LLP During Fiscal 2006

The following table presents fees (in thousands) billed for professional audit services and other services rendered to the Company by PricewaterhouseCoopers LLP for the fiscal years ended December 30, 2006 and December 31, 2005.

| | Fiscal 2006 | Fiscal 2005 |
|------------------------|------------------------|------------------------|
| Audit Fees (1) | \$ 500 | \$ 249 |
| Audit-Related Fees (2) | | |
| Tax Fees (3) | | |
| All Other Fees (4) | 20 | 7 |
| Total | \$ 520 | \$ 256 |

- (2) This category consists of assurance and related services by the Company's independent auditor that are reasonably related to the performance of the audit or review of the Company's financial statements and are not reported above under Audit Fees.

PricewaterhouseCoopers LLP did not perform any such services for the Company in fiscal years 2006 or 2005.

- (3) Tax Fees consisted of fees billed for tax compliance and sales tax consultation services.

PricewaterhouseCoopers LLP did not perform any such services for the Company in fiscal years 2006 or 2005.

Table of Contents

- (4) All Other Fees consisted of fees attributable to PricewaterhouseCoopers LLP's review of the Company's previous filings under the Exchange Act, unrelated to its audit of the Company's financial statements, and fees related to acquisition of the Laserscope Aesthetics business including assistance with the SEC waiver letter.

Pre-Approval of Audit and Non-Audit Services

The Audit and Corporate Governance Committee has established a policy governing the Company's use of PricewaterhouseCoopers LLP for non-audit services. Under the policy, management may use PricewaterhouseCoopers LLP for non-audit services that are permitted under SEC rules and regulations, provided that management obtains the Audit and Corporate Governance Committee's approval before such services are rendered.

The Audit and Corporate Governance Committee has determined that the provision of all fees identified above under the captions Audit-Related Fees, Tax Fees and All Other Fees that were billed by PricewaterhouseCoopers LLP is compatible with maintaining PricewaterhouseCoopers LLP's independence and has approved these non-audit services in accordance with its charter and applicable laws, rules and regulations.

Required Vote

If a quorum is present, the affirmative vote of a majority of the Votes Cast will be required to approve the ratification of the appointment of PricewaterhouseCoopers LLP. See Information Concerning Solicitation and Voting Quorum; Abstentions; Broker Non-Votes.

EXECUTIVE COMPENSATION

Compensation Discussion and Analysis

Overview of Compensation Program and Philosophy

Iridex's compensation philosophy is to provide a comprehensive compensation package for each executive officer that is competitive with those offered by companies of similar type and size, in the same geographical area and whose executives perform similar skills to those performed by the executives of the Company. Our overall goal in compensating executive officers is to attract, retain and motivate key executives of superior ability who are critical to our future success. We believe that both short-term and long-term incentive compensation paid to executive officers should be directly aligned with our performance, and that compensation should be structured to ensure that a significant portion of executives' compensation opportunities is directly related to achievement of financial and operational goals and other factors that impact shareholder value.

Our compensation decisions with respect to executive officer salaries, annual incentives, and long-term incentive compensation opportunities are influenced by (a) the executive's level of responsibility and function within the Company, (b) the overall performance and profitability of the Company, and (c) our assessment of the competitive marketplace, including other peer companies. Our philosophy is to focus on total direct compensation opportunities through a mix of base salary, annual cash bonus, and long-term incentives, including stock-based awards.

As Iridex's Compensation and Nominating Committee (the Committee) applies this compensation philosophy in determining appropriate executive compensation levels and other compensation factors, the Committee reaches its decisions with a view towards the Company's overall financial performance. The Committee strives to structure each officer's overall compensation package to enable the Company to attract, retain and reward personnel who contribute to the success of the Company. The Committee evaluates both performance and compensation to ensure that the Company maintains its ability to attract and retain superior employees in key positions and that compensation provided to key employees remains competitive relative to the compensation paid to similarly situated executives of our peer companies. To that end, the Committee believes executive compensation packages provided by the Company to its executives, including the named executive officers, should include both cash and stock-based compensation that reward performance as measured against established goals.

To meet these objectives, Iridex has adopted a policy of providing a competitive base salary and the opportunity to receive additional cash and stock-based compensation that reward performance as measured against established goals, with a target performance based cash and equity compensation equal to approximately 40-50% of base cash compensation. This policy guides the Committee in assessing the proper allocation between long-term compensation, current cash compensation, and short-term bonus compensation. Other considerations include Iridex's business objectives, its fiduciary and corporate responsibilities, competitive practices and trends, and regulatory requirements.

In determining the particular elements of compensation that will be used to implement Iridex's overall compensation policies, the Committee takes into consideration a number of factors related to Iridex's performance, such as Iridex's operating income, profitability, revenue growth, and business-unit-specific operational and financial performance, as well as competitive practices among our peer group.

Iridex's executive compensation program is overseen and administered by the Committee, which is comprised entirely of independent directors as determined in accordance with various Nasdaq, Securities and

Table of Contents

Exchange Commission and Internal Revenue Code rules. The Committee operates under a written charter adopted by our Board. A copy of the charter is available at http://media.corporate-ir.net/media_files/irol/11/112360/reports/compensation%20nominating_charter.pdf. The Committee has the authority to engage its own independent advisors to assist in carrying out its responsibility and has done so. The Committee also retains compensation consultants to assist in creating and administering Iridex's compensation policies.

In 2006, the Committee engaged an independent compensation consultant to the Committee. The independent compensation consultant advises the Committee on certain aspects of executive compensation related to equity compensation. The consultant attended certain meetings of the Committee at the Committee's request and also communicated with the Committee outside of these meetings. The independent compensation consultant reports to the Committee rather than to management, although the consultant may meet with management from time to time for purposes of gathering information on proposals that management may make to the Committee. The Committee is free to replace the independent compensation consultant or hire additional consultants at any time. The independent compensation consultant does not provide any other services to Iridex and receives compensation only with respect to the services provided to the Committee. The Committee also utilizes information contained in the Radford Executive Survey prepared by Radford Surveys + Consulting (the "Radford Survey") to assist with making compensation decisions.

The Committee on occasion meets with Barry Caldwell, Iridex's President and Chief Executive Officer and/or other executives to obtain recommendations with respect to Company compensation programs, practices and packages for executives, other employees and directors. Management makes recommendations to the Committee on the base salary, bonus targets and equity compensation for the executive team and other employees. The Committee considers, but is not bound to and does not always accept, management's recommendations with respect to executive compensation.

Mr. Caldwell attends some of the Committee's meetings and participates in discussions regarding salaries and incentive compensation for all employees (including officers) and consultants to the Company. Mr. Caldwell is excluded from discussions regarding his own salary and incentive compensation. The Committee also regularly holds executive sessions not attended by any members of management or non-independent directors. The Committee has delegated to Mr. Caldwell the authority to grant long-term incentive awards to employees who do not directly report to Mr. Caldwell under guidelines established by the Company's Board of Directors. The Committee also has authorized Mr. Caldwell to make salary adjustments and short-term incentive (bonus) decisions for all employees other than certain officers under guidelines approved by the Committee.

Elements of Compensation

There are five major elements that comprise Iridex's compensation program: (i) base salary; (ii) annual incentive opportunities, including bonuses; (iii) long-term incentives, such as equity awards; (iv) retirement benefits provided under a 401(k) plan; and (v) executive perquisites and generally available benefit programs. Iridex has selected these elements because each is considered useful and/or necessary to meet one or more of the principal objectives of our compensation policy. For instance, base salary and bonus target percentage are set with the goal of attracting employees and adequately compensating and rewarding them on a day-to-day basis for the time spent and the services they perform, while equity incentive compensation is geared toward providing an incentive and reward for the achievement of long-term business objectives and retaining key talent. Iridex believes that these elements of compensation, when combined, are effective, and will continue to be effective, in achieving the objectives of our compensation program.

The Committee reviews the compensation program on an annual basis, including each of the above elements, other than retirement benefits, which are reviewed from time to time to ensure that benefit levels

Table of Contents

remain competitive but are not included in the annual determination of an executive's compensation package. In setting compensation levels for a particular executive, the Committee takes into consideration the proposed compensation package as a whole and each element individually, as well as the executive's past and expected future contributions to our business. In 2006, the Committee approved increases in the salaries paid to each of the named executive officers, other than Barry Caldwell, who joined the Company in July 2005, in order to maintain competitiveness with respect to peer group companies and in recognition of the performance of such executive officers in fiscal 2005.

With the exception of Messrs. Caldwell and Tannenbaum, Iridex does not have an employment or severance agreement with any of its named executive officers. The agreements that were entered into with Messrs. Caldwell and Tannenbaum are discussed below under the section entitled *Employment Agreements*.

In 2006, the Board established the 2006 Incentive Program (the *Bonus Plan*), which is designed to reward those eligible employees whose performance throughout the year was helpful in achieving the Company's financial goals and the management team based upon company and personal performance against key objectives. The Bonus Plan consists of three parts: (1) a management bonus program covering executive officers, directors, and managers to award performance and completion of individual and Company goals; (2) a profit sharing program covering all eligible employees not included in the management bonus program or on a commission plan; and (3) a special bonus program for any employee who makes extraordinary contributions above and beyond their job description resulting in enhanced revenues, profits or future positioning for the Company.

Base Salary and Annual Incentive Opportunities

Iridex makes base salaries and bonuses a significant portion of the executive compensation package in order to remain competitive in attracting and retaining executive talent. Bonuses also are paid in order to motivate the achievement of the Company's business goals. The Committee determines each officer's target total annual cash compensation (salary and bonuses) after reviewing similar compensation information from a group of peer companies included in the US Companies with Revenues Below 50 Million that is included in the Radford Survey. This review usually occurs in at the first meeting of the Board following the Company's Annual Meeting of Stockholders. The peer group typically includes a broad range of companies in the high technology industry with whom Iridex competes for executive talent. For fiscal 2006, the Committee considered major high technology competitors for executive talent and companies of at least a similar size and scope as Iridex, as measured by market capitalization, revenue, net income and total shareholder return. The Committee currently intends to continue using this same survey information for purposes of making compensation decisions in fiscal 2007.

Iridex's goal is to target base pay at the 50th percentile level among its peer group and total cash compensation at the 50th percentile level. However, in determining base salary, the Committee also considers other factors such as job performance, skill set, prior experience, the executive's time in his or her position and/or with Iridex, internal consistency regarding pay levels for similar positions or skill levels within the Company, external pressures to attract and retain talent, and market conditions generally. Positioning base pay at the 50th percentile of peer companies aids Iridex in controlling fixed costs. Targeting total compensation at the 50th percentile, and therefore providing higher incentive compensation opportunity, rewards exceptional goal achievement and allows total compensation to be more competitive as a whole, while taking into account business cyclicality. Base pay and target cash compensation are analyzed by management to determine variances to our compensation targets using the combination of publicly available information and survey data as described above. Mr. Caldwell uses the market data in making his recommendations to the Committee for his direct reports.

Table of Contents

For fiscal 2006, after taking into consideration the above compensation targets and Mr. Caldwell's recommendations, the Committee decided to maintain Mr. Caldwell's compensation at the levels paid during the portion of fiscal 2005 during which Mr. Caldwell served as the Company's Chief Executive Officer.

Payment of bonus amounts, and therefore total cash compensation, depends on the achievement of specified performance goals, which are primarily focused on the Company's operating performance and income metrics. Achievement of the targeted goals would result in total cash compensation for fiscal 2006 at approximately the targeted 50th percentile of Iridex's peer group, which the Committee believes is an appropriate range to enable Iridex to attract and retain key personnel and to motivate our executives to meet Iridex's business goals. As a result, the bonuses are targeted at a level that if achieved, and when combined with base salary, would typically result in total cash compensation to the executive in approximately the 50th percentile of Iridex's peer companies. For fiscal 2006, Mr. Caldwell made recommendations to the Committee with respect to target bonus amounts, expressed as a percentage of base salary, for each of the named executive officers, other than himself. These recommended bonus amounts were consistent with our intention to target total cash compensation at the 50th percentile level and were approved by the Committee as proposed.

The potential bonus for which Mr. Caldwell was eligible under the Bonus Plan for fiscal 2006 ranged from 0% to a maximum of 40% of his annual base salary. The potential bonus for each of the other named executive officers under the Bonus Plan also ranged from 0% to a maximum of 40% of his annual base salary. As noted above, we target total compensation to the 50th percentile of our peer group companies. As a result, the target bonuses are determined such that the combination of the bonus and base salary meet this targeted percentile.

Long-Term Incentive Compensation

Iridex provides long-term incentive compensation through awards of stock options or stock grants (also referred to as stock awards) that generally vest over multiple years, with a primary focus on stock options. Iridex's equity compensation program is intended to align the interests of our officers with those of our stockholders by creating an incentive for our officers to maximize stockholder value. The equity compensation program also is designed to encourage our officers to remain employed with Iridex despite a very competitive labor market. Iridex targets the value of its equity awards to be in the 50th percentile of the peer group mentioned above, based on the information gathered from publicly available sources.

Equity-based incentives are granted to our officers under Iridex's stockholder-approved the Company's amended and restated 1998 Stock Plan (the Plan). The Committee granted equity awards at its regularly scheduled meetings. All stock option grants have a per share exercise price equal to the fair market value of Iridex's common stock on the grant date.

Our Committee regularly monitors the environment in which Iridex operates and makes changes to our equity compensation program to help us meet our goals, including achieving long-term stockholder value. In order to continue to attract and retain highly skilled employees, the Committee approved changes to Iridex's equity compensation program for fiscal 2006 that were designed to reward Iridex's employees for their hard work and commitment to the long-term success and growth of Iridex. Beginning in fiscal 2006, both stock options and stock awards were granted. Iridex granted stock options because they can be an effective tool for meeting Iridex's compensation goal of increasing long-term stockholder value by tying the value of the stock options to Iridex's performance in the future. Employees are able to profit from stock options only if Iridex's stock price increases in value over the stock option's exercise price. Iridex believes the options that were granted provide effective incentives to option holders to achieve increases in the value of Iridex's stock. Iridex began granting stock awards because they provide a more predictable value to employees than stock options, and therefore are efficient tools in retaining and motivating employees, while also serving as an incentive to increase the value of Iridex's stock. Stock awards also may be efficient with respect to the use of

Table of Contents

our equity plan share reserves because fewer performance shares are needed to provide a retention and incentive value similar to stock options.

The number of shares underlying equity awards our Committee grants to each officer and the vesting schedule for each grant is determined based on a variety of factors, including market data collected regarding the equity grant ranges for the peer companies listed above and Iridex's goal to award grants in line with the 50th percentile of this group. In fiscal 2006, our Committee relied upon these factors to approve stock option and stock awards for the named executive officers and other senior officers.

In 2006, the Board approved the establishment of an option committee (the Option Committee), that was initially comprised of Barry Caldwell, Larry Tannenbaum and Antoinette Ryglisyn, and, as Administrator of the Plan, the Board delegated to the Option Committee authority to grant options to new employees, other than new employees who will report directly to the Company's Chief Executive Officer, pursuant to the guidelines that were approved by the Board. The exercise price for options granted by the Option Committee is set equal to the last posted closing sales price of the Company's Common Stock, as listed on NASDAQ-Online on the date of grant.

Iridex does not backdate options or grant options retroactively. In addition, we do not plan to coordinate grants of options so that they are made before announcement of favorable information, or after announcement of unfavorable information. It is the Company's practice to grant options to executive officers at the first meeting of the Board following the Company's Annual Meeting of Stockholders.

Retirement Benefits under the 401(k) Plan, Executive Perquisites and Generally Available Benefit Programs

In fiscal 2006, the executive officers were eligible to receive health care coverage that is generally available to other Iridex employees. Mr. Caldwell also received a home relocation benefit.

Iridex also maintains the tax-qualified 401(k) Plan, which provides for broad-based employee participation. Under the 401(k) Plan, all Iridex employees are eligible to receive matching contributions from Iridex that are subject to vesting over time. The matching contribution for the 401(k) Plan year 2006 was 50% of a 401(k) participant's payroll contribution up to a maximum of \$1,000. Iridex does not provide defined benefit pension plans or defined contribution retirement plans to its executives or other employees other than: (a) the 401(k) Plan, or (b) as required in certain countries other than the United States for legal or competitive reasons.

Iridex also offers a number of other benefits to the named executive officers pursuant to benefit programs that provide for broad-based employee participation. These benefits programs include the employee stock purchase plan, medical, dental and vision insurance, disability insurance, life and accidental death and dismemberment insurance, health and dependent care flexible spending accounts, business travel insurance, and certain other benefits. Many employees are also eligible for variable pay under sale incentive plans, profit sharing programs and/or the incentive plans described above.

The 401(k) Plan and other generally available benefit programs allow Iridex to remain competitive for employee talent, and Iridex believes that the availability of the benefit programs generally enhances employee productivity and loyalty to Iridex. The main objectives of Iridex's benefits programs are to give our employees access to quality healthcare, financial protection from unforeseen events, assistance in achieving retirement financial goals, enhanced health and productivity and to provide support for global workforce mobility, in full compliance with applicable legal requirements. These generally available benefits typically do not specifically factor into decisions regarding an individual executive's total compensation or equity award package.

Table of Contents

On an annual basis, Iridex benchmarks its overall benefits programs, including our 401(k) Plan, against our peers, using the Radford Survey. Iridex generally targets its overall benefits programs in the 50th percentile of this peer group, which Iridex believes allows us to remain competitive in attracting and retaining talent. We also evaluate the competitiveness of our 401(k) Plan as related to similar plans of our peer group members by analyzing the dollar value to an employee and the dollar cost to Iridex for the benefits under the applicable plan using a standard population of employees. We analyze changes to our benefits programs in light of the overall objectives of the program, including the effectiveness of the retention and incentive features of such programs and our targeted percentile range.

Stock Ownership Guidelines

The Company does not currently have stock ownership guidelines.

Compensation of Chief Executive Officer

In order to recruit Mr. Caldwell to the Company, he was given assurance of certain severance payments if the Company terminates his employment without cause, as described under the section entitled Employment Agreements. The Company believes that this agreement was necessary in order to induce Mr. Caldwell to accept an offer of employment with the Company and that the size of the severance package is appropriate for an executive of his caliber and for a company of Iridex's size.

Impact of Accounting and Tax Treatments of Compensation

The accounting and tax treatment of compensation generally has not been a factor in determining the amounts of compensation for our executive officers. However, the Committee and management have considered the accounting and tax impact of various program designs to balance the potential cost to the Company with the benefit/value to the executive. With regard to Code Section 162(m), it is the Committee's intent to maximize deductibility of executive compensation while retaining some discretion needed to compensate executives in a manner commensurate with performance and the competitive landscape for executive talent. With the adoption of FAS 123R, we do not expect accounting treatment of differing forms of equity awards to vary significantly and, therefore, accounting treatment is not expected to have a material effect on the selection of forms of equity compensation in the future.

Summary Compensation

The following table shows, as to the Named Executive Officers, information concerning compensation awarded to, earned by or paid for their services to the Company in all capacities during 2006. The entries under the column heading All Other Compensation in the table represent the cost of 401(k) matching contributions for each Named Executive Officer, except as otherwise noted.

The Company matches 50% of the employee's contribution up to a maximum amount. The maximum Company match in fiscal year 2006 was \$1,000 per employee and in fiscal year 2007 is \$2,000 per employee. All full-time employees who have attained age 18 are eligible to participate in the plan. The Company's 2005 Employee Stock Purchase Plan permits employees, including the Company's officers, who are employed for at least twenty hours per week to purchase Common Stock of the Company, through payroll deductions at the lower of 85% of the fair market value of the Common Stock at the beginning or at the end of each six-month offering period. Payroll deductions may not exceed 10% of an employee's compensation. Estimated Payments Upon Termination or Change in Control

This table provides information concerning the estimated payments and benefits that would be provided in the circumstances described above. Payments and benefits are estimated assuming that the triggering event took place on the last business day of fiscal 2006 (December 29, 2006), and the price per share of Iridex's common stock is the closing price on the Nasdaq GM as of that date (\$8.87). There can be no assurance that a triggering event would produce the same or similar results as those estimated below if such event occurs on any other date or at any other price, or if any other assumption used to estimate potential payments and benefits is not correct. Due to the number of factors that affect the nature and amount of any potential payments or benefits, any actual payments and benefits may be different.

**REPORT OF THE COMPENSATION AND NOMINATING COMMITTEE
OF THE BOARD OF DIRECTORS**

General

For the fiscal year ended December 30, 2006, the Compensation and Nominating Committee of the Board of Directors established the overall executive compensation strategies of the Company and approved compensation elements for the Company's Chief Executive Officer and other executive officers. Among other things, the Compensation and Nominating Committee reviews and advises the Board regarding all forms of compensation to be provided to the officers, employees, directors and consultants of the Company, develops general criteria regarding the qualifications and selection of Board members, and recommends candidates for election to the Board. The Compensation and Nominating Committee is comprised of three independent, non-employee members of the Board of Directors, none of whom has interlocking relationships as defined by the Commission. The Compensation and Nominating Committee has available to it such external compensation advice and data as the Compensation and Nominating Committee deems appropriate to obtain.

The compensation philosophy of the Compensation and Nominating Committee is to provide a comprehensive compensation package for each executive officer that is competitive with those offered by companies of similar type and size, in the same geographical area and whose executives perform similar skills to those performed by the executives of the Company. Accordingly, the Compensation and Nominating Committee follows a compensation strategy that has used vesting terms to incentivize and reward executives as the Company addresses the challenges associated with growth. As the Compensation and Nominating Committee applies this compensation philosophy in determining appropriate executive compensation levels and other compensation factors, the Compensation and Nominating Committee reaches its decisions with a view towards the Company's overall financial performance. The Compensation and Nominating Committee strives to structure each officer's overall compensation package to enable the Company to attract, retain and reward personnel who contribute to the success of the Company.

The Compensation and Nominating Committee has reviewed and discussed with management the Compensation Discussion and Analysis for the named executive officers required by Item 402(b) of Regulation S-K and based on this discussion the Compensation and Nominating Committee recommended to the board of directors that the Compensation Discussion and Analysis be included in the Company's Annual Report.

Committee Charter

The Compensation and Nominating Committee adopted its written charter in April 2004. A copy of the Compensation and Nominating Committee charter, including any updates thereto, is available at our website at www.iridex.com.

Executive Officer Compensation

The objectives of the executive officer compensation program are to attract, retain, motivate and reward key personnel who possess the necessary leadership and management skills through competitive base salary, annual cash bonus incentives, long-term incentive compensation in the form of stock options, and various benefits generally available to employees of the Company.

Base Salary. Base salary levels for the Company's executive officers are generally targeted to be competitive with companies in the same stage of development and in the same industry and geographic area.

Table of Contents

In determining salaries, the Committee also takes into account the Chief Executive Officer's recommendations, individual experience, contributions to corporate goals and the Company's performance.

Incentive Bonuses. The Compensation and Nominating Committee believes that a cash incentive bonus plan can serve to motivate the Company's executive officers and management to address annual performance goals, using more immediate measures for performance than those reflected in the appreciation in value of stock options. The Company had an incentive bonus plan for executive officers in fiscal 2006. The Company has discussed an incentive bonus plan for 2007, but requires final Board approval before going into effect.

Stock Option Grants. Stock options or other stock grants are granted to executive officers and other employees under the Company's option plans. These stock option or other stock grants are intended to focus the recipient on the Company's long-term performance to improve stockholder value and to retain the services of executive officers in a competitive job market by providing significant long-term earning potential. To this end, stock options generally vest over a four-year period, based on continued employment. Factors considered in granting stock options to executive officers of the Company are the duties and responsibilities of each individual, such individual's contributions to the success of the Company and other relevant factors. The Company views stock options as an important component of long-term compensation for executive officers since options motivate executive officers to manage the Company in a manner that is consistent with the interests of stockholders.

CEO Compensation

Compensation for the Chief Executive Officer is consistent with the philosophies and practices described above for executive officers in general.

For the fiscal year ended December 30, 2006, the Audit and Corporate Governance Committee was comprised of the directors named below.

Committee and Charter

On April 5, 2004, the Board established the Audit and Corporate Governance Committee. The Audit and Corporate Governance Committee adopted its written charter in April 2004. A copy of the Audit and Corporate Governance Committee charter, including any updates thereto, is available on our website at www.iredex.com.

The Board has determined that each member of the Audit and Corporate Governance Committee is independent as defined under the Sarbanes-Oxley Act of 2002 and the listing standards of The Nasdaq Stock Market and that Mr. Fitch is an audit committee financial expert as defined in rules of the SEC.

Review with Management

The Audit and Corporate Governance Committee reviewed and discussed our audited financial statements for the fiscal year ended December 30, 2006 and the notes thereto, with management, which has primary responsibility for the financial statements. PricewaterhouseCoopers LLP, our independent registered public accounting firm, is responsible for expressing an opinion on the conformity of the Company's audited financial statements with generally accepted accounting principles.

Review and Discussions with Independent Registered Public Accounting Firm

The Audit and Corporate Governance Committee discussed with PricewaterhouseCoopers LLP, our independent registered public accounting firm, the matters required to be discussed by the Statement on Accounting Standards No. 61 (Communications with Audit Committees), as may be modified or supplemented (Codification of Statements on Auditing Standards), which includes, among other items, matters related to the conduct of the audit of our financial statements.

The Audit and Corporate Governance Committee also received written disclosures and the letter from PricewaterhouseCoopers LLP, required by Independence Standards Board Standard No. 1 (Independence Discussions with Audit Committees), which relates to the auditors' independence from us and our related entities and has discussed with PricewaterhouseCoopers LLP that firm's independence from us. The Audit and Corporate Governance Committee also concluded that PricewaterhouseCoopers LLP's provision of non-audit services, as described previously, to the Company is compatible with PricewaterhouseCoopers LLP's independence.

Conclusion

Based on the review and discussions referred to above, the Audit and Corporate Governance Committee recommended to the Board that our audited financial statements be included in our Annual Report on Form 10-K for the fiscal year ended December 30, 2006 for filing with the Commission.

Since the beginning of the Company's last fiscal year, there has not been nor is there currently proposed any transaction or series of similar transactions to which the Company was or is to be a party in which the amount involved exceeds \$120,000 and in which any director, executive officer, holder of more than 5% of the Common Stock of the Company or any member of the immediate family of any of the foregoing persons had or will have a direct or indirect material interest, other than indemnification agreements between the Company and each of its directors and officers.

SECTION 16(A) BENEFICIAL OWNERSHIP REPORTING COMPLIANCE

Section 16(a) of the Exchange Act requires the Company's executive officers and directors, and persons who own more than 10% of a registered class of the Company's equity securities to file reports of ownership and changes in ownership with the Commission and the National Association of Securities Dealers, Inc. Such executive officers, directors and greater than 10% stockholders are also required by SEC rules to furnish the Company with copies of all forms that they file pursuant to Section 16(a). Specific due dates have been established by the Commission, and the Company is required to disclose in this Proxy Statement any failure to file by those dates. Based solely on its review of the copies of such forms received by it, or written representations from certain reporting persons that no filings were required for such persons, the Company is aware of the following late Section 16(a) filing: Barry Caldwell filed a late Form 4 reporting one transaction in June 2006. The Company believes that all other reports required to be filed under Section 16(a) have been filed on a timely basis during the Company's 2006 fiscal year.

OTHER MATTERS

The Board of Directors does not know of any other matters to be presented at this meeting. If any other matters properly come before the meeting, it is the intention of the persons named in the enclosed form of Proxy to vote the shares they represent as the Board may recommend.
