PROXY STATEMENT

This proxy statement is furnished in connection with the solicitation by the Board of Directors of Stryker Corporation of proxies to be used at the Annual Meeting of Stockholders of the Company to be held on Tuesday, April 26, 2005, and at all adjournments thereof. The solicitation will begin on or about March 17, 2005.

All shares represented by a properly executed proxy will be voted unless it is revoked and, if a choice is specified, will be voted in accordance with such specification. If no choice is specified, a proxy will be voted FOR the election of the seven nominees named under "Election of Directors," unless authority to do so is withheld with respect to one or more of such nominees. In addition, a proxy may be voted in the discretion of the proxyholders with respect to such other business as may properly come before the meeting. A stockholder may revoke a proxy at any time prior to the voting thereof.

Brokers holding shares of Common Stock for beneficial owners must vote those shares according to specific instructions they receive from the owners. If instructions are not received, brokers may vote those shares in their discretion. Directors will be elected by a plurality of the votes cast at the meeting. Votes that are withheld with respect to the election of directors are not counted as votes cast.

There were 402,903,237 shares of Common Stock of the Company outstanding as of the close of business on February 28, 2005, the record date for the determination of stockholders entitled to notice of and to vote at the meeting. Each share is entitled to one vote on each matter brought before the meeting.

The Board of Directors has adopted Corporate Governance Guidelines that are available on the "Corporate Governance" page of the Company's website at www.stryker.com. A copy will be mailed to any stockholder upon request. Pursuant to the Guidelines, William U. Parfet has been designated the lead independent director, with responsibility for coordinating the activities of the other independent directors (which, for this purpose, includes all of the directors except Mr. Brown and Mr. MacMillan) and chairing the executive session held in connection with each meeting of the Board of Directors in order to provide the opportunity for the independent directors to discuss topics of concern without any member of management being present.

The Board of Directors held seven meetings during 2004 and acted by written consent once. All of the directors attended more than 75% of the total meetings of the Board and all committees of which they were members in 2004. A meeting of the Board of Directors is typically scheduled in conjunction with the annual meeting of stockholders and it is expected that directors will attend absent a schedule conflict or other valid reason. All of the persons who were then directors attended the 2004 Annual Meeting.

The Board of Directors has designated from among its members an Audit Committee that currently consists of Mr. Parfet (Chairman), Mr. Cox, Dr. Grossman and Mr. Lillard. The Audit Committee met five times during 2004. See "Audit Committee." The Board of Directors has also designated a Compensation Committee, which currently consists of Ms. Stryker (Chairman), Mr. Cox and Mr. Parfet, and a Stock Option Committee, which currently consists of Ms. Stryker (Chairman) and Mr. Lillard. The duties of these committees are described below under "Executive Compensation -- Report of Compensation and Stock Option Committees on Executive Compensation."

The Board of Directors has designated a Governance and Nominating Committee, which in 2004 consisted of Ms. Stryker (Chairman), Mr. Cox, Dr. Engelman, Dr. Grossman, Mr. Lillard and Mr. Parfet. The Governance and Nominating Committee, which met three times during 2004, makes recommendations to the Board of Directors regarding individuals for nomination as director and, in addition, may consider other matters relating to corporate governance. When seeking to identify an individual to become a director to fill a new position or vacancy, the Governance and Nominating Committee will consult with incumbent directors, management and others. The Governance and Nominating Committee will consider, among other factors, the background and reputation of potential candidates in terms of character, personal and professional integrity, business and financial experience and acumen, how a person would complement the other directors in providing a diversity of expertise and experience and a person's availability to devote sufficient time to Board duties. Stockholders may recommend director candidates for consideration by the Governance and Nominating Committee by writing to the Secretary of the Company at 2725 Fairfield Road, Kalamazoo, Michigan 49002, giving the candidate's name, relationship, if any, to the stockholder making the recommendation, biographical data and qualifications. The submission should also include a statement from the candidate consenting to being considered and, if nominated and elected, to serving as a director.

Edgar Filing: STRYKER CORP - Form DEF 14A

The charter of each of the Audit Committee, the Compensation Committee, the Stock Option Committee and the Governance and Nominating Committee is available on the "Corporate Governance" page of the Company's website at www.stryker.com and will be mailed to any stockholder upon request. None of the members of any of the committees is or ever has been an employee of the Company and the Board of Directors determined at its meeting in April 2004 that each of them was "independent" within the meaning of the New York Stock Exchange corporate governance listing standards and of the provisions of the Exchange Act applicable to the committees on which he or she serves. The Board of Directors based its determination with respect to independence for purposes of Board and committee membership on a review of the responses

5

of the directors to questions regarding employment history, affiliations and family and other relationships and on discussions with the directors.

The Code of Conduct applicable generally to employees, officers and directors in the performance of their duties and responsibilities and the Code of Ethics applicable to the principal executive officer, principal financial officer and principal accounting officer and controller are also available on the "Corporate Governance" page of the Company's website at www.stryker.com and will be mailed to any stockholder upon request.

DIRECTOR COMPENSATION

Directors who are not employees received directors fees of \$6,000 for each Board meeting attended, \$3,000 for each meeting attended via conference call and a fixed annual fee of \$50,000 in 2004. Directors who are also members of committees of the Board received a fee of \$3,000 per day for committee meetings attended. During 2004, each outside director was granted an option under the Company's 1998 Stock Option Plan (the "Plan") to purchase 8,000 shares of the Company's Common Stock. The Company also makes \$50,000 of group life insurance available to its outside directors. Also, \$149,100 was paid to Dr. Engelman for services rendered in 2004 as a consultant to the Company. Dr. Engelman continues to serve as a consultant. As a result, Dr. Engelman is no longer deemed "independent" within the meaning of the New York Stock Exchange corporate governance listing standards and no longer serves as a member of the Governance and Nominating Committee.

REPORT OF COMPENSATION AND STOCK OPTION COMMITTEES ON EXECUTIVE COMPENSATION

COMPENSATION AND STOCK OPTION COMMITTEES OF THE BOARD

The Compensation and Stock Option Committees are comprised entirely of non-employee, independent members of the Board of Directors. Their respective responsibilities include reviewing and approving the compensation of the Chief Executive Officer and other executive officers of the Company and administering and reviewing the Company's stock option program and the granting of options thereunder.

COMPENSATION PHILOSOPHY AND OBJECTIVES

The Company's executive compensation programs are designed to enable the Company to attract, retain and motivate highly talented executives required for the success of the business. Overall, it is the intent of the Company to provide executives with compensation opportunities that are comparable with other large

Edgar Filing: STRYKER CORP - Form DEF 14A

companies in the medical device industry, as well as other competitors for talent generally. This objective is achieved through a combination of current and long-term compensation programs, combined with a comprehensive package of health, welfare and retirement benefit programs. The stock option program is designed to reward executives for sustained high rate of Company growth and profitability for the benefit of the Company's stockholders. Non-mandatory Stock Ownership Guidelines are in place and designed to encourage all officers of the Company to have a significant personal stake in the continued success of the Company.

COMPENSATION COMPONENTS

There are three basic elements in the Company's executive compensation program -- base salary, bonus and stock options. The Compensation Committee, which reviews executive compensation on an annual basis and is responsible for determinations regarding base salary and bonuses, formally met in November 2003 and in November and December 2004.

The salaries of the Company's executive officers for 2004 were determined at the meeting of the Compensation Committee held in November 2003. Prior to such meeting, the members of the Committee were provided with broad-based survey reports on executive compensation for U.S. corporations generally, prepared by The Conference Board and by Buck Consultants, and publicly available compensation information for other large companies in the medical device industry. The Chief Executive Officer reviewed the

9

overall performance of each of the other executive officers during the year with the Committee at its November 2003 meeting. Based on a subjective evaluation of such performance and the Company's overall performance during the prior year and, in the case of division officers, that of the respective divisions, as well as general consideration of the information contained in the survey reports reviewed, the base salaries for 2004 of the Company's executive officers, including Mr. Brown, were established by the Committee.

A substantial portion of the annual compensation of each of the Named Executives consists of the bonus element. In determining the amount of the bonus to be paid to each Named Executive, the results of mathematical computations in which the performance of the Company, in the case of Mr. Brown (the Chief Executive Officer) and Mr. MacMillan (the Chief Operating Officer), whose responsibilities are at the corporate level, and of the operations for which such person had direct management responsibility, in the case of the other Named Executives, is compared to goals and objectives established at the beginning of the year (upon his employment in the case of Mr. MacMillan for 2003) and a percentage so determined is applied to the dollar bonus potential established for each person at the beginning of the year. The bonus potential is established in the same general manner as salaries, with the view that, if the full potential is attained, the Named Executive's total cash compensation should be in the mid to upper end of the range for companies of a comparable size, taking into account the individual's overall scope of responsibility, time in the position and overall level of performance in the role. The primary elements in such calculation for the Named Executives in 2004 were actual performance relative to budgeted earnings and sales growth, asset management and cash flow improvements, and organizational development. The final determination of the actual bonuses paid included a subjective evaluation of individual performance in light of the competitive environment in the operations for which they have responsibility and other challenges faced by such persons, and other significant achievements by them during the year. In addition to Mr. Brown's 2004 regular bonus award, the Compensation Committee awarded Mr. Brown a special bonus of \$1,000,000 payable on April 1, 2005 in recognition of the outstanding

Edgar Filing: STRYKER CORP - Form DEF 14A

performance of the Company under his leadership during his 28 years of service as Chief Executive Officer.

The Company has had stock option plans in effect since it became a publicly-held company in 1979. The purpose of these plans has been to provide executive officers and other employees with a personal and financial interest in the success of the Company through stock ownership, thereby aligning the long-range interests of such persons with those of stockholders by providing them with the opportunity to build a meaningful stake in the Company. Historically, stock options have had significant value to optionees, reflecting the appreciation in the market value of the Common Stock. The determination with respect to the number of options to be granted to any particular executive officer is subjective in nature. While no specific performance measures are applied, factors considered in determining the number of options awarded include the individual's level of responsibility, demonstrated performance over time and value to the future success of the Company. The number and status of options previously granted to an individual are not accorded significant weight in the determination. Current option grants are intended to encourage performance that will result in continued appreciation. Outstanding option grants, all of which have a ten-year term, become exercisable as to 20% on the first anniversary of the date of grant and as to an additional 20% on each successive anniversary. Accordingly, to realize the full value thereof, an executive officer must remain in the Company's employ for five years from the date of grant. Management of the Company believes that the stock option plans have been helpful in attracting and retaining talented executive personnel.

Section 162(m) of the Internal Revenue Code limits the deductibility by a publicly-held corporation of compensation paid in a taxable year to the Chief Executive Officer and any other Named Executive to \$1 million. Qualified performance-based compensation will not be subject to the deduction limit if certain conditions are met. The 1998 Stock Option Plan limits the number of options that may be granted to any employee or director in any calendar year to 2,000,000, thereby ensuring that gain recognized on the exercise of options will be treated as performance-based compensation. It is the Committee's intent that executive compensation generally be deductible. However, the Committee will authorize compensation that is not

10

entirely deductible when doing so is consistent with its other compensation objectives and overall compensation philosophy.

TRANSACTIONS WITH EXECUTIVE OFFICER

The Company leases a facility from a limited liability company owned by James R. Lawson, a Vice President of the Company, pursuant to a lease that expires on March 13, 2006. The annual rent paid was approximately \$100,000 in 2004. The Company also paid approximately \$1,900 for certain leasehold improvements in 2004. Under the terms of the lease, the Company is responsible for all taxes, insurance and maintenance expenses that arise from its use of the facility. The Board of Directors has reviewed the transaction and concluded that the lease terms are comparable to those that could have been obtained in an

Edgar Filing: STRYKER CORP - Form DEF 14A

arms-length transaction with an unaffiliated third party based on a report from a national real estate services firm that compared the rent to similar properties in the area and an analysis by management that found the other lease terms to be reasonable.

Mr. Lawson's brother, T. Gary Lawson, who had been employed by various agencies selling the Company's products for several years prior to the time Mr. Lawson joined the Company in December 1998, serves as a sales consultant to the Company and received compensation of \$245,920 in 2004. Mr. Lawson's son, James R. Lawson, Jr., is employed by the Company as a General Manager for the Tennessee/Kentucky branch of its Orthopaedics business and received compensation of \$414,536 in 2004.

AUDIT COMMITTEE

The Audit Committee acts under a written charter adopted and approved by the Board of Directors, a copy of which is available on the "Corporate Governance" page of the Company's website at www.stryker.com. The Audit Committee reviews and reassesses the adequacy of the charter at least annually. The Board of Directors has determined that William U. Parfet, the Chairman of the Audit Committee, is an "audit committee financial expert" as that term is defined in the rules promulgated by the Securities and Exchange Commission. Mr. Parfet serves on the audit committees of three other publicly-held companies. The Board of Directors reviewed Mr. Parfet's other time commitments and has determined that such service does not impair his ability to serve on the Company's Audit Committee.

REPORT OF THE AUDIT COMMITTEE

The Audit Committee of the Board of Directors oversees the Company's financial reporting process on behalf of the Board of Directors. It meets with management and the Company's independent registered public accounting firm

Edgar Filing: STRYKER CORP - Form DEF 14A

throughout the year and reports the results of its activities to the Board of Directors. In this connection, the Audit Committee has done the following:

- Reviewed and discussed the audited financial statements for the fiscal year ended December 31, 2004 with the Company's management;
- Discussed with Ernst & Young LLP, the Company's independent registered public accounting firm ("E&Y"), the matters required to be discussed by SAS 61 (Codification of Statements on Auditing Standards), as amended; and
- Received written disclosure regarding independence from E&Y as required by Independence Standards Board Standard No. 1 (Independence Discussions with Audit Committees) and discussed with E&Y its independence.

Based on the foregoing, the Audit Committee recommended to the Board of Directors that the audited financial statements be included in the Company's Annual Report on Form 10-K for the year ended December 31, 2004.

MISCELLANEOUS

RELATIONSHIP WITH INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

The Audit Committee has appointed E&Y to audit the accounts of the Company and its subsidiaries for the year 2005, subject to approval of the scope of the audit engagement and the estimated audit fees, which are to be presented to the Committee at its July meeting. E&Y has acted in this capacity for many years. E&Y has advised the Company that neither the firm nor any of its members or associates has any direct financial interest or any material indirect financial interest in the Company or any of its affiliates other than as accountants. Representatives of E&Y are expected to be present at the Annual Meeting with the opportunity to make a statement if they desire to do so and are expected to be available to respond to appropriate questions.

The fees billed to the Company by E&Y with respect to the years ended December 31, 2004 and 2003 were as follows:

	2004 -----	2003 -----
Audit Fees.....	\$4,240,000	\$2,567,000
Audit-Related Fees.....	114,000	84,000
Tax Fees.....	768,000	1,028,000

Audit Fees include amounts billed for the audit of the Company's annual consolidated financial statements and, in 2004, the attestation of internal controls over financial reporting, the review of the financial statements included in the Forms 10-Q filed by the Company during each year and the

Edgar Filing: STRYKER CORP - Form DEF 14A

completion of statutory audits required in certain foreign jurisdictions. Audit-Related Fees include amounts billed for audits of the Company's employee benefit plans and general accounting consultations associated with the annual audit. Tax Fees include fees for tax compliance services and consultation on other tax matters. It is expected that E&Y will provide similar non-audit services during the year 2005. In connection with its review and evaluation of non-audit services, the Audit Committee is required to and does consider and conclude that the provision of the non-audit services is compatible with maintaining the independence of E&Y.

Under its charter, the Audit Committee must pre-approve all audit and non-audit services to be performed by the independent registered public accounting firm retained to audit the Company's financial statements other than non-audit services that satisfy a de minimus exception provided by applicable law. Each year, the retention of the independent registered public accounting firm is approved at the Audit Committee's meeting in February, subject to approval of the scope of the audit and associated fees at the July meeting. At the February meeting, certain recurring non-audit services and the proposed fees therefor are reviewed and evaluated by the Audit Committee. At subsequent meetings, the Audit Committee receives updates regarding the services actually provided and management may present additional services for approval. The Audit Committee has delegated to the Chairman or, in his absence, any other member the authority to evaluate and approve projects and related fees if circumstances require approval between meetings of the Committee. Any such approval is reported to the full Committee at its next meeting.

E&Y advised the United States Securities and Exchange Commission ("SEC"), the Public Company Accounting Oversight Board ("PCAOB") and the Audit Committee of the Company's Board of Directors that certain non-audit services performed by an E&Y affiliate in China for the Company raised questions regarding E&Y's independence. During the period September 2002 through April 2004, E&Y's affiliate in China performed certain employment-related tax calculation and return preparation services with respect to employees of the representative offices of a subsidiary of the Company in China. Funds withheld by the subsidiary were transferred to the client account of the E&Y affiliate, which then made payment to the relevant tax authorities. The amount of the funds transferred to E&Y was less than \$50,000 in any year. For these services, the fees paid to Ernst & Young were under \$10,000 in any year. The practice of paying withholding taxes through the E&Y affiliate was discontinued in May of 2004 and E&Y's affiliate returned approximately \$5,300 of excess funds then held by it. Under the SEC's rules regarding auditor independence, a company's independent auditor is not permitted to have custody of an audit client's assets. Both the Audit

14

Committee and E&Y have considered the effect the practice of paying taxes through the E&Y affiliate in China may have had on E&Y's independence and have concluded that such practice has not impaired E&Y's independence. In making its determination, the Audit Committee considered the administrative nature of the services, the insignificance of the amount of funds involved and the fact that E&Y has advised the Company that none of the personnel involved in handling the funds were involved in the audit of the Company's subsidiary. The Audit Committee and E&Y will continue to evaluate and review issues relevant to the maintenance of E&Y's independence.
