Pursuant to the Company's Amended and Restated 2003 Equity and Performance Incentive Plan, the Company has issued stock based compensation to various employees and non-employee directors. These grants to employees represent the long-term incentive portion of the Company's overall compensation plan for management. The Company accounts for all stock-based compensation based on estimated fair value at the grant date and recorded an expense related to these plans of approximately \$2.3 million and \$1.7 million during the three months ended November 30, 2006 and 2005, respectively. Note 5 Material contingencies*Legal proceedings*

The Company is a defendant in various lawsuits and claims arising in the ordinary course of business, primarily cases involving personal injury, property damage, environmental or employment related claims. Some of these actions are covered to varying degrees by insurance policies. Based on an assessment of known claims and our historical claims payout pattern, management believes that there is no proceeding either threatened or pending against us that would have a material adverse effect on the Company.

Table of Contents

Environmental matters

The Company's operations are subject to various federal, state, local and foreign laws and regulations relating to environmental matters, including those concerning emissions to the air; waste water discharges; storage, treatment and disposal of waste and remediation of soil and ground water contamination. The Company has incurred, and expects to incur, costs for our operations to comply with these legal requirements, and these costs could increase in the future. In particular, the Company has been named as a potentially responsible party under the United States Comprehensive Environmental Response, Compensation and Liability Act of 1980, as amended, at various third-party sites at which the Company's waste was allegedly disposed. In addition, management is investigating or engaged in remediation of past contamination at other sites used in the Company's business. The Company records liabilities when environmental liabilities are either known or considered probable and can be reasonably estimated. On an ongoing basis, management assesses and evaluates environmental risk and, when necessary, conducts appropriate corrective measures. As of the date of this report, management believes that adequate accruals have been made related to all known environmental matters, however actual environmental liabilities could differ significantly from these estimates.

Income tax matters

The respective tax authorities, in the normal course, audit previous tax filings. It is not possible at this time to predict the final outcome of these audits or to establish a reasonable estimate of possible additional taxes owed, if any.

Note 6 Repurchase of common stock

During the three months ended November 30, 2006 the Company repurchased approximately 2.5 million shares of our common stock at an average cost of \$27.92 per share through open market purchases, completing the \$500 million repurchase program authorized in July 2006.

Note 7 Statement of cash flows

During the three month periods ended November 30, 2006 and 2005 the Company expended cash of \$56.8 million and \$19.3 million, respectively, for vehicles that were purchased in the previous fiscal year and financed through accounts payable at year end.

Table of Contents**Note 8 Segment information**

The Greyhound segment provides intercity bus transportation throughout North America. Public transit provides municipal and paratransit bus transportation within the United States.

The Company evaluates performance and allocates resources based on operating income before depreciation and amortization (EBITDA). The Company's reportable segments are business units that offer different services and are each managed separately.

Table of Contents**ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS****General***Corporate overview*

Our continuing operations consist of three reportable segments: education services, Greyhound and public transit services. See Note 8 "Segment information" of the Notes to Consolidated Financial Statements in this Report. Table of Contents*Education services*
(\$ in millions)

	Revenue	EBITDA	EBITDA Margin
Three months ended November 30, 2006	\$501.7	\$111.9	22.3%
November 30, 2005	463.7	115.4	24.9
Percentage increase (decrease)	8.2%	(3.0)%	(260) BP*

* Decrease in EBITDA margin is expressed in basis points

Revenue in the education services segment increased by \$38.0 million for the three months ended November 30, 2006 compared to the three months ended November 30, 2005 as new contracts together with price and volume increases from existing clients, more than offset lost business. Additionally, an increase in the value of the Canadian currency increased revenues \$3.2 million compared to the prior year quarter.

EBITDA for the three months ended November 30, 2006 decreased by \$3.5 million compared to the three months ended November 30, 2005. The EBITDA margin declined by 260 basis points primarily due to project costs related to initiatives to improve our technological capabilities, start-up costs that resulted from driver shortages in some areas of the country and new contracts, and increased average fuel prices.

Greyhound
(\$ in millions)

	Revenue	EBITDA	EBITDA Margin
Three months ended November 30, 2006	\$279.5	\$25.6	9.2%
November 30, 2005	304.6	34.9	11.5
Percentage decrease	(8.2)%	(26.6)%	(230) BP*

* Decrease in EBITDA margin is expressed in basis points

Revenue in the Greyhound segment during the three months ended November 30, 2006 decreased \$25.1 million compared to the three months ended November 30, 2005. Over half of the revenue decline was due to hurricane related volume in the prior year. The remaining decline is due to ticket price increases and a favorable Canadian dollar exchange rate being more than offset by passenger reductions stemming from both the price increases and network changes. The increase in the value of the Canadian currency increased revenues \$3.0 million compared to the prior year quarter.

EBITDA in the three months ended November 30, 2006 decreased by \$9.3 million compared to the three months ended November 30, 2005. EBITDA for the three months ended November 30, 2005 benefited from a one-time gain of \$5 million due to a business interruption settlement received as compensation for losses incurred during the

September 11, 2001 terrorist attacks. Excluding the business interruption settlement, EBITDA margin declined by 70 basis points, primarily due to higher margins earned on the increased volume in the prior year.

Table of Contents*Public transit*
(\$ in millions)

	Revenue	EBITDA	EBITDA Margin
Three months ended November 30, 2006	\$76.9	\$ 4.3	5.6%
November 30, 2005	78.5	5.0	6.4
Percentage decrease	(2.0)%	(14.0)%	(80) BP*

* Decrease in EBITDA margin is expressed in basis points

Revenue decreased by \$1.6 million for the three months ended November 30, 2006 compared to the three months ended November 30, 2005 as price increases and revenue from new contract wins were offset by lost revenue from a large contract that was not renewed.

EBITDA for the three months ended November 30, 2006 declined by \$0.7 million compared to the three months ended November 30, 2005. EBITDA margin for the three month period declined 80 basis points compared to the prior year period due to severance costs.

Depreciation and amortization expense

Depreciation and amortization expense by reportable segment for the three months ended November 30, 2006 and 2005 was as follows (\$ in millions):

	2006	2005
Education services	\$ 43.2	\$ 37.9
Greyhound	16.5	18.2
Public transit	2.3	2.5
Consolidated	\$ 62.0	\$ 58.6

Education services depreciation and amortization for the three months ended November 30, 2006 increased by \$5.3 million compared to the three months ended November 30, 2005 primarily due to an increased number of buses in operation and the significant drop in depreciation in the prior year resulting from an increase in the estimated lives of certain vehicle models. Depreciation declined in the Greyhound segment principally due to a reduction in the number of buses used in operations.

Interest expense

In the three months ended November 30, 2006 interest expense increased by \$9.4 million compared to the prior year period, primarily due to the addition of the \$500 million term B debt and increased borrowings on the revolving credit line.

Table of Contents

Other income (expense), net

The \$1.9 million other expense, net recorded in the three months ended November 30, 2006, primarily consists of a \$3.8 million currency exchange loss on \$125.0 million of U.S. denominated debt that is carried by our Canadian subsidiaries, partially offset by income earned on investments. The \$1.8 million other income, net recorded in the three months ended November 30, 2005 consists primarily of income earned on investments.

Income tax expense

Income tax expense for the three month period ended November 30, 2006 includes a \$1.4 million benefit realized upon finalization of an IRS audit. Income tax expense for the three months ended November 30, 2005 includes a \$1.2 million benefit from the reversal of a portion of the valuation allowance related to capital loss carryforwards that were absorbed by capital gains recognized during the period. Excluding these benefits, the effective tax rate was 39% for both the three months ended November 30, 2006 and 2005, respectively.

Liquidity and capital resources

For the three months ended November 30, 2006, cash used by operating activities was \$48.2 million compared to \$15.9 million for the three months ended November 30, 2005. The increase in cash used by operations during the current period was principally due to a decrease in operating income, an increase in interest expense and a larger increase in trade accounts receivable due to increased education services revenue.

Net expenditures for the purchase of capital assets were \$110.3 million for the three months ended November 30, 2006 compared to \$54.5 million for the three months ended November 30, 2005, primarily reflecting an earlier spend pattern in the current year at education services.

As of November 30, 2006 there were \$34.1 million of cash borrowings under our \$300 million Revolver and issued letters of credit were \$116.0 million, leaving \$149.9 million of availability. We believe that existing cash and cash flow from operations, together with borrowing availability under our Revolver, will be sufficient to fund our anticipated capital expenditures and working capital requirements for the foreseeable future, including payment obligations under our debt agreements and other commitments.

During the three months ended November 30, 2006 we repurchased approximately 2.5 million shares of our common stock at an average cost of \$27.92 per share through open market purchases, completing the \$500 million repurchase program authorized in July 2006.

Commitments and contingencies

Reference is made to Note 8 Commitments and contingencies of Notes to the Consolidated Financial Statements in the Company's Form 10-K for the year ended August 31, 2006 for a description of the Company's material commitments. Item 3. Quantitative and Qualitative Disclosures About Market Risk

The Company protects a portion of its future fuel procurements from price fluctuations by entering into future purchase contracts (FPCs) and option contracts (Fuel Collars). The FPCs generally stipulate that the Company take delivery of set bulk volumes of fuel at prearranged prices for a set period. Fuel collars effectively create a cap on the future purchase price of a certain amount of fuel and at the same time, limit the amount of benefit to the Company in a falling future price market. A Fuel Collar is created by purchasing a call option for diesel fuel while simultaneously selling a put option that covers the identical amount of fuel with the same underlying terms and conditions as the call option.

At November 30, 2006 the Company had outstanding FPCs for 7.3 million gallons of fuel at an average price of \$2.29 per gallon and had outstanding Fuel Collars for 13.8 million gallons with a weighted average call price of \$2.26 per gallon and a weighted average put price of \$2.11 per gallon. All outstanding FPCs and Fuel Collars will be settled within the current fiscal year.

Since these contracts were established the price of diesel fuel has decreased. If the price of fuel remains at the November 30, 2006 level, the Company will pay \$8.5 million more for diesel fuel during the remainder of fiscal 2007 than if the price of fuel had not been effectively fixed by these contracts.

Other than a change in the amount of fuel subject to FPCs and Fuel Collars, there have been no material changes in market risk from the disclosures provided in Item 7A. Quantitative and Qualitative Disclosures About Market Risk as set forth in the Company's Form 10-K for the year ended August 31, 2006.

Item 4. Controls and Procedures

The Company maintains a set of disclosure controls and procedures designed to ensure that information required to be disclosed by the Company in reports that it files or submits under the Securities Exchange Act of 1934 is recorded, processed, summarized and reported within the time periods specified in Securities and Exchange Commission rules and forms. As of the end of the period covered by this quarterly report, an evaluation was carried out under the supervision and with the participation of the Company's management, including its Chief Executive Officer and Chief Financial Officer, of the effectiveness of its disclosure controls and procedures. Based on that evaluation, the Company's Chief Executive Officer and Chief Financial Officer have concluded that the Company's disclosure controls and procedures are effective.

During the most recent fiscal quarter, there have not been any changes in the Company's internal controls over financial reporting or in other factors that have materially affected, or are reasonably likely to materially affect, the Company's internal controls over financial reporting.
