**CAUTIONARY STATEMENT REGARDING  
FORWARD-LOOKING STATEMENTS**

This presentation contains both historical and forward-looking statements. Forward-looking statements are not based on historical facts, but rather reflect the Company's current expectations, estimates and projections concerning future results and events. Forward-looking statements generally can be identified by the fact that they do not relate strictly to historical or current facts and include, without limitation, words such as believe, expect, anticipate, may, could, intend, intent, belief, estimate, plan, foresee, likely, will or other similar words or phrases. Forward-looking statements are not guarantees of future performance and involve known and unknown risks, uncertainties, assumptions and other factors that are difficult to predict and that may cause the Company's actual results, performance or achievements to vary materially from what is expressed in or indicated by such forward-looking statements. The Company cannot make any assurance that projected results or events will be achieved.

The risk factors set forth in the Company's prospectus dated August 11, 2008 and proxy statement/prospectus dated August 4, 2008 in the respective sections entitled Risk Factors, and the matters discussed in RGA's SEC filings, including the Management's Discussion and Analysis of Financial Condition and Results of Operations sections of RGA's Annual Report on Form 10-K for the fiscal year ended December 31, 2007 and RGA's Quarterly Reports on Form 10-Q for the fiscal quarters ended March 31, 2008 and June 30, 2008, could affect future results, causing these results to differ materially from those expressed in RGA's forward-looking statements.

The forward-looking statements included in this document are only made as of the date of this document and RGA has no obligation to publicly update any forward-looking statement to reflect subsequent events or circumstances.

Numerous important factors could cause actual results and events to differ materially from those expressed or implied by forward-looking statements including, without limitation, (1) adverse changes in mortality, morbidity, lapsation or claims experience, (2) changes in our financial strength and credit ratings or those of MetLife, Inc. ("MetLife"), the beneficial owner of a majority of our common shares, or its subsidiaries, and the effect of such changes on our future results of operations and financial condition, (3) inadequate risk analysis and underwriting, (4) general economic conditions or a prolonged economic downturn affecting the demand for insurance and reinsurance in our current and planned markets, (5) the availability and cost of collateral necessary for regulatory reserves and capital, (6) market or economic conditions that adversely affect our ability to make timely sales of investment securities, (7) risks inherent in our risk management and investment strategy, including changes in investment portfolio yields due to interest rate or credit quality changes, (8) fluctuations in U.S. or foreign currency exchange rates, interest rates, or securities and real estate markets, (9) adverse litigation or arbitration results, (10) the adequacy of reserves, resources and accurate information relating to settlements, awards and terminated and discontinued lines of business, (11) the stability of and actions by governments and economies in the markets in which we operate, (12)

Edgar Filing: METLIFE INC - Form 425

competitive factors and competitors' responses to our initiatives, (13) the success of our clients, (14) successful execution of our entry into new markets, (15) successful development and introduction of new products and distribution opportunities, (16) our ability to successfully integrate and operate reinsurance business that we acquire, (17) regulatory action that may be taken by state Departments of Insurance with respect to us, MetLife, or its subsidiaries, (18) our dependence on third parties, including those insurance companies and reinsurers to which we cede some reinsurance, third-party investment managers and others, (19) the threat of natural disasters, catastrophes, terrorist attacks, epidemics or pandemics anywhere in the world where we or our clients do business, (20) changes in laws, regulations, and accounting standards applicable to us, our subsidiaries, or our business, (21) the effect of our status as an insurance holding company and regulatory restrictions on our ability to pay principal of and interest on our debt obligations, and (22) other risks and uncertainties described in this document and in our other filings with the Securities and Exchange Commission.

Information regarding the directors and officers of MetLife is included in the definitive proxy statement for MetLife's 2008 Annual Meeting of Shareholders filed with the SEC on March 18, 2008. More detailed information regarding the identity of potential participants, and their direct or indirect interests, by securities holdings or otherwise, is set forth in the proxy statement/prospectus dated August 4, 2008 and the prospectus dated August 11, 2008 relating to the exchange offer, each as may be amended from time to time, and other materials to be filed with the SEC in connection with the proposed transactions.

### **Participants in the Solicitation**

### **Non-GAAP Measures**

RGA uses a non-GAAP financial measure called operating income as a basis for analyzing financial results. This measure also serves as a basis for establishing target levels and awards under RGA's management incentive programs. Management believes that operating income, on a pre-tax and after-tax basis, better measures the ongoing profitability and underlying trends of the company's continuing operations because that measure excludes the effect of net realized capital gains and losses, changes in the fair value of certain embedded derivatives and related deferred acquisition costs. These items tend to be highly variable primarily due to the credit market and interest rate environment and are not necessarily indicative of the performance of our underlying businesses. Additionally, operating income excludes any net gain or loss from discontinued operations, which management believes is not indicative of the company's ongoing operations. The definition of operating income can vary by company and is not considered a substitute for GAAP net income.

Additionally, the Company evaluates its stockholder equity position excluding the impact of Other Comprehensive Income. This is also considered a non-GAAP measure. The Company believes it is important to evaluate its stockholders' equity position to exclude the effect of Other Comprehensive Income since the net unrealized gains or losses included in Other Comprehensive Income primarily relate to changes in interest rates, credit spreads on its investment securities and foreign currency fluctuations that are not permanent and can fluctuate significantly from period to period.

Reconciliations of non-GAAP measures to the nearest GAAP measures are provided at the end of this presentation.

Effective in 1Q 2006, the Company changed its capital allocation methodology from a regulatory-based approach to an economic-based approach. To enhance comparability, all prior period segment results in this presentation have been adjusted to reflect the new methodology.

This change in capital allocation does not affect the Company's reported consolidated financial results.
